## MEMBERS OF THE CABINET

(FORMED BY THE RT. HON. TONY BLAIR, MP, JUNE 2001)

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS—The Rt. Hon. Jack Straw, MP
SECRETARY OF STATE FOR THE HOME DEPARTMENT—The Rt. Hon. David Blunkett, MP
SECRETARY OF STATE FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS—The Rt. Hon. Margaret Beckett, MP
SECRETARY OF STATE FOR TRANSPORT AND SECRETARY OF STATE FOR SCOTLAND—The Rt. Hon. Alistair Darling, MP
SECRETARY OF STATE FOR HEALTH— The Rt. Hon. Dr. John Reid, MP
SECRETARY OF STATE FOR NORTHERN IRELAND—The Rt. Hon. Paul Murphy, MP
SECRETARY OF STATE FOR DEFENCE—The Rt. Hon. Geoffrey Hoon, MP
SECRETARY OF STATE FOR WORK AND PENSIONS—The Rt. Hon. Andrew Smith, MP
SECRETARY OF STATE FOR TRADE AND INDUSTRY—The Rt. Hon. Patricia Hewitt, MP
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
PARLIAMENTARY SECRETARY TO THE TREASURY—The Rt. Hon. Hilary Armstrong, MP
SECRETARY OF STATE FOR EDUCATION AND SKILLS—The Rt. Hon. Charles Clarke, MP
CHIEF SECRETARY TO THE TREASURY—The Rt. Hon. Paul Boateng, MP
LEADER OF THE HOUSE OF COMMONS, SECRETARY OF STATE FOR WALES AND LORD PRIVY SEAL—The Rt. Hon. Peter Hain, MP
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
LEADER OF THE HOUSE OF LORDS AND PRESIDENT OF THE COUNCIL—The Rt. Hon. The Baroness Amos
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS AND LORD CHANCELLOR (FOR THE TRANSITIONAL PERIOD) —The Rt. Hon. The Lord Falconer of Thoroton, QC
SECRETARY OF STATE FOR INTERNATIONAL DEVELOPMENT—The Rt. Hon. Hilary Benn, MP

## DEPARTMENTS OF STATE AND MINISTERS

**Office of the Deputy Prime Minister**—
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
MINISTERS OF STATE—
Minister for Local and Regional Government—The Rt. Hon. Nick Raynsford, MP
Minister for Regeneration and the Regions—The Rt. Hon. The Lord Rooker
Minister for Housing and Planning— The Rt. Hon. Keith Hill, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Yvette Cooper, MP
Phil Hope, Esq, MP

**Cabinet Office**—
MINISTER FOR THE CABINET OFFICE AND CHANCELLOR OF THE DUCHY OF LANCASTER—Douglas Alexander, Esq, MP

**Constitutional Affairs**—
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS—The Rt. Hon. The Lord Falconer of Thoroton, QC
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Christopher Leslie, Esq, MP
David Lammy, Esq, MP
The Lord Filkin, CBE
Anne McGuire, MP (Parliamentary Under-Secretary of State for Scotland)
Don Touhig, Esq, MP (Parliamentary Under-Secretary of State for Wales)

**Culture, Media and Sport**—
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
MINISTERS OF STATE—
Minister for Sport and Tourism—The Rt. Hon. Richard Caborn, MP
Minister for the Arts—The Rt. Hon. Estelle Morris, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
The Rt. Hon. The Lord McIntosh of Haringey (Minister for Media and Heritage)

**Defence**—
SECRETARY OF STATE—The Rt. Hon. Geoffrey Hoon, MP
MINISTER OF STATE—
The Rt. Hon. Adam Ingram, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Bach (Minister for Defence Procurement)
Ivor Caplin, Esq, MP

**Education and Skills**—
SECRETARY OF STATE—The Rt. Hon. Charles Clarke, MP
MINISTERS OF STATE—
Minister for School Standards—David Miliband, Esq, MP
Minister for Children—The Rt. Hon. Margaret Hodge, MP
Minister for Lifelong Learning, Further and Higher Education—The Rt. Hon. Alan Johnson, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Ashton of Upholland
Ivan Lewis, Esq, MP
Stephen Twigg, Esq, MP

**Environment, Food and Rural Affairs**—
SECRETARY OF STATE—The Rt. Hon. Margaret Beckett, MP
MINISTERS OF STATE—
Minister for Rural Affairs and Local Environmental Quality—The Rt. Hon. Alun Michael, MP
Minister for the Environment— Elliot Morley, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Whitty
Ben Bradshaw Esq, MP

**Foreign and Commonwealth Affairs**—
SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP
MINISTERS OF STATE—
Minister for the Middle East—The Rt. Hon. The Baroness Symons of Vernham Dean
Minister for Europe— Denis MacShane, Esq, MP
Minister for Trade and Investment—Mike O'Brien, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Bill Rammell, Esq, MP
Chris Mullin, Esq, MP

**Health**—
SECRETARY OF STATE—The Rt. Hon. Dr. John Reid, MP
MINISTERS OF STATE—
The Rt. Hon. John Hutton, MP
Rosie Winterton, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Miss Melanie Johnson, MP
Dr. Stephen Ladyman, MP
The Lord Warner

**Home Office**—
SECRETARY OF STATE—The Rt. Hon. David Blunkett, MP
MINISTERS OF STATE—
Minister for Crime Reduction, Policing and Community Safety— Ms Hazel Blears, MP
Minister for Criminal Justice System and Law Reform—The Baroness Scotland of Asthal, QC
Minister for Citizenship and Immigration— The Rt. Hon. Beverley Hughes, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Paul Goggins, Esq, MP
Caroline Flint, MP
Fiona Mactaggart, MP

**International Development**—
SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—Gareth Thomas, Esq, MP

**Law Officers' Department**—
ATTORNEY-GENERAL—The Rt. Hon. Lord Goldsmith, QC
SOLICITOR-GENERAL—The Rt. Hon. Harriet Harman, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—Dr. Lynda Clark, QC, MP

**Leader of the House of Commons**—
LEADER OF THE HOUSE OF COMMONS—The Rt. Hon. Peter Hain, MP
DEPUTY LEADER OF THE HOUSE OF COMMONS—Phil Woolas, Esq, MP

**Northern Ireland Office**—
SECRETARY OF STATE—The Rt. Hon. Paul Murphy, MP
MINISTERS OF STATE—
The Rt. Hon. Jane Kennedy, MP
The Rt. Hon. John Spellar, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Ian Pearson, Esq, MP
Angela Smith, MP

**Paymaster General's Office**—
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP

**Privy Council Office**—
LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS— The Rt. Hon. The Baroness Amos

**Trade and Industry**—
SECRETARY OF STATE AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Patricia Hewitt, MP
MINISTERS OF STATE—
Minister for Energy, E-Commerce and Postal Services—Stephen Timms, Esq, MP
Minister for Trade and Investment—Mike O'Brien, Esq, MP
Minister for Industry and the Regions and Deputy Minister for Women and Equality— The Rt. Hon. Jacqui Smith, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Sainsbury of Turville (Minister for Science and Innovation)
Nigel Griffiths, Esq, MP (Minister for Small Business and Enterprise)
Gerry Sutcliffe, Esq, MP (Minister for Employment Relations, Competition and Consumers)

**Transport**—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
MINISTER OF STATE—
Dr. Kim Howells, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
David Jamieson, Esq, MP
Tony McNulty, Esq, MP

**Treasury**—
PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
CHIEF SECRETARY—The Rt. Hon. Paul Boateng, MP
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP
FINANCIAL SECRETARY—Ms Ruth Kelly, MP
ECONOMIC SECRETARY—John Healey, Esq, MP
PARLIAMENTARY SECRETARY—The Rt. Hon. Hilary Armstrong, MP
LORDS COMMISSIONERS—
John Heppell, Esq, MP
Nick Ainger, Esq, MP
Jim Murphy, Esq, MP
Derek Twigg, Esq, MP
Joan Ryan, MP
ASSISTANT WHIPS—
Fraser Kemp, Esq, MP
Charlotte Atkins, MP
Gillian Merron, MP
Vernon Coaker, Esq, MP
Paul Clark, Esq, MP
Margaret Moran, MP
Bridget Prentice, MP

**Work and Pensions**—
SECRETARY OF STATE—The Rt. Hon. Andrew Smith, MP
MINISTERS OF STATE—
Minister for Work—Des Browne, Esq, MP
Minister for Pensions—Malcolm Wicks, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Baroness Hollis of Heigham
Maria Eagle, MP
Chris Pond, Esq, MP

**Her Majesty's Household**—
LORD CHAMBERLAIN—The Rt. Hon. The Lord Luce, GCVO
LORD STEWARD—The Duke of Abercorn, KG
MASTER OF THE HORSE—The Lord Vestey
TREASURER—Bob Ainsworth, Esq, MP
COMPTROLLER—Thomas McAvoy, Esq, MP
VICE-CHAMBERLAIN—Jim Fitzpatrick, Esq, MP
CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Rt. Hon. The Lord Grocott
CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Lord Davies of Oldham
LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Evans of Temple Guiting
BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Andrews, OBE, The Baroness Crawley

---

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS— Sir Stuart Bell, MP

---

# HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL—
Mrs. Irene Adams, MP, David Amess, Esq, MP, Janet Anderson, MP, Nigel Beard, Esq, MP, Miss Anne Begg, MP, Joe Benton, Esq, MP, Sir John Butterfill, MP, Martin Caton, Esq, MP, David Chidgey, Esq, MP, Derek Conway, Esq, MP, Frank Cook, Esq, MP, James Cran, Esq, MP, John Cummings, Esq, MP, The Rt. Hon. Eric Forth, MP, Roger Gale, Esq, MP, Win Griffiths, Esq, MP, Mike Hancock, Esq, MP, Jimmy Hood, Esq, MP, Kevin Hughes, Esq, MP, Alan Hurst, Esq, MP, Eric Illsley, Esq, MP, John McWilliam, Esq, MP, Bill O'Brien, Esq, MP, Edward O'Hara, Esq, MP, Bill Olner, Esq, MP, Peter Pike, Esq, MP, Mrs. Marion Roe, MP, Jonathan Sayeed, Esq, MP, George Stevenson, Esq, MP, David Taylor, Esq, MP, The Rt. Hon. Miss Ann Widdecombe, MP, Sir Nicholas Winterton, MP

HOUSE OF COMMONS COMMISSION—
The Rt. Hon. The Speaker (Chairman), The Rt. Hon. Peter Hain, MP, Oliver Heald, Esq, MP, Sir Archy Kirkwood, MP, Sir Stuart Bell, MP, Sir Patrick Cormack, FSA, MP

SECRETARY OF THE COMMISSION—Robert Rogers

ASSISTANT SECRETARY—Shona McGlashan

AUDIT COMMITTEE—
Oliver Heald, Esq, MP (Chairman), Sir Archy Kirkwood, MP, Sir Thomas S. Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Dr. Mark Egan

BOARD OF MANAGEMENT—
Roger Sands, (Chief Executive), George Cubie, CB (Clerk of Committees, Department of the Clerk of the House), Sir Michael Cummins (Serjeant at Arms), Priscilla Baines (Librarian), Andrew Walker (Director of Finance and Administration), Bill Garland (Editor of the Official Report), Sue Harrison (Director of Catering Services)

SECRETARY OF THE BOARD OF MANAGEMENT—Richard Ware, DPhil

SPEAKER'S SECRETARY—Roger Daw

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

## WORK AND PENSIONS

### Workplace Health and Safety

**The Minister for Work (Mr. Desmond Browne):** Today, the Health and Safety Commission (HSC) are launching a new strategy for workplace health and safety in Great Britain. We fully support this strategy, which is based on the experience of the last 30 years, evidence available now and extensive consultations with a wide range of stakeholders.

The strategy represents a significant change of approach for the health and safety system as a whole and the role of the Health and Safety Executive (HSE) and local authorities within that system. It sets out HSE's ambition to be a modern regulator, responding to new issues in the changing world of work. It emphasises the focus on managing risks, not trying to eliminate them. The strategy also places a greater emphasis on seeking improvements in occupational health.

To make the greatest impact, HSE and its partners will focus more resource on those areas of greatest need and less where the risks are well managed.

The strategy recognises that HSE cannot achieve improvements on its own. The whole of the health and safety system needs to be involved. This means forming close partnerships with local authorities and other stakeholders.

The strategy also recognises that the people best placed to make workplaces safe are the staff and managers who work in them. To support them there is a need to promote greater involvement of workers and to make accessible to them clearer and simpler advice and information.

Over the last 30 years there have been significant improvements in workplace safety. We want to see similar improvements in occupational health. That will require working together with other health organisations.

Improvements in occupational health have a close synergy with the wider Department for Work and Pensions agenda of preventing people from leaving work due to ill health and helping people move back into work. Preventing accidents and ill health at work plays a major role in this agenda, particularly in relation to occupational health issues such as stress and musculoskeletal disorders.

The Government want to see occupational health and safety as a cornerstone of a civilised society and with that achieve a record of both health and safety that leads the world. Much has been done, but there is more to do. The strategy is needed to help us to tackle new issues, especially in occupational ill health and to ensure that workplace safety continues to improve.

We fully endorse the new strategy, which has been placed in the Library.

## CULTURE, MEDIA AND SPORT

### Historic Environment

**The Minister for Sport and Tourism (Mr. Richard Caborn):** I would like to update the House on the progress made on implementing the recommendations contained in the Government's statement on the historic environment, "A Force for Our Future", since March 2003.

The statement, published in December 2001, articulates the Government's vision for the historic environment at the heart of national life and sets an agenda for unlocking its full potential. This programme of action emphasises the value of the historic environment as an educational resource, its relevance to all members of the community and how it can work as an economic and regenerative asset in urban and rural settings.

The Government will continue to take this agenda forward in a number of ways, in particular through the review of heritage protection, English Heritage's annual state of the historic environment reports, the DCMS/DfES Joint Committee on Built Environment Education and English Heritage's funding agreement, which is co-sponsored by DCMS, DEFRA and ODPM.

Since March 2003 the following has been achieved:

*June 2003*

The Government historic estate unit published "*Protocol for the Care of the Government Estate 2003*" recommending its adoption by Government Departments who own and manage historic estate and providing a model of good practice for all publicly funded bodies.

The Historic Houses Association launched www.historichousevenues.com, an online resource listing privately owned historic houses and gardens throughout Britain which offer exclusive facilities for pre-booked groups and individual visits, special events, catering and accommodation. The aim is to increase public access and develop commercial activity.

*July 2003*

English Heritage published "*Streamlining Listed Building Consent: Lessons from the Use of Management Agreements*", a report on the effectiveness of listed building consent management guidelines and their potential to streamline the listed building consent regime.

The Architectural Heritage Fund, with support from English Heritage and Cadw, launched an online directory of sources of funding available for rescuing and restoring historic buildings at www.ffhb.org.uk

English Heritage published "*Managing Local Authority Heritage Assets—some guiding principles for decision-makers*", promoting best practice in the management of council-owned heritage assets and high quality design in new work related to them, including public spaces.

The Minister for Media and Heritage launched "*Protecting Our Historic Environment: Making the System Work Better*", a consultation document aiming to improve and refocus the way in which England's historic environment receives statutory protection.

The Government published its consultation "*Historic Environment Records: Benchmarks for Good Practice*", inviting views on how best to ensure that the rich resources currently held in sites and monuments records across the country can be developed and made available to professionals, schools and colleges as well as the wider public.

English Heritage convened a series of meetings to develop and share best practice on access for people with disabilities to historic properties and sites.

*August 2003*

English Heritage published its consultation document "*Local Authority Performance Indicators for Historic Environment Services*", seeking views on developing a performance assessment framework for local authorities managing the historic environment.

The Secretary of State for Culture, Media and Sport launched the DCMS/DfES Joint Advisory Committee on Built Environment Education, which will focus on how best to promote the built environment as an educational resource.

*September 2003*

Six new commissioners were appointed to the English Heritage Commission, including for the first time a commissioner responsible for access and outreach issues.

Ministers in DCMS, ODPM and DEFRA signed an innovative joint funding agreement for English Heritage. This recognises for the first time the contribution English Heritage makes to the delivery of all three Departments' targets.

Heritage open days 2003, organised by the Civic Trust with support from English Heritage, attracted over 800,000 visitors to 2,512 properties and activities. There was a significant increase in the number of participating properties and activities, local organisers and volunteers.

The Historic Houses Association and English Heritage, with support from the Heritage Lottery Fund, launched a pilot scheme to assist private owners of historic houses to develop education programmes.

*October 2003*

Royal Assent was given to the Dealing in Cultural Objects (Offences) Bill.

The UK signed a Co-operation Agreement with UNESCO, which will enable developing countries to benefit from UK heritage and conservation expertise. UK experts will assist developing countries with identifying world heritage sites and preparing management plans and conservation strategies for both cultural and natural world heritages sites.

The Minister for Media and Heritage launched the National Heritage Training Group's business plan "*Building on the Past: Training for the Future*". It sets out the group's plans to tackle the skills deficit in traditional building crafts, including a traditional building crafts training plan.

*November 2003*

"*Heritage Counts*", the second state of the historic environment report, was launched:

> Key themes covered were: historic environment assets; the economic value of the historic environment; outreach, knowledge and access; indicators, including a consultation on a framework for historic environment indicators.
>
> The report published MORI research commissioned by English Heritage, with funds from DCMS and the Heritage Lottery Fund, to establish who is not engaging with the historic environment and why.
>
> It also published research produced by Heritage Link into the contribution made by volunteers to the historic environment.

English Heritage published "*Easy Access to Historic Properties*" for consultation. The publication gives guidance to those responsible for the historic environment on the provision of access for people with disabilities. The updated version takes into account the implementation of Part III of the Disability Discrimination Act 1995 and the updated Part M of the Building Regulations.

*December 2003*

The 2003 Pre-Budget Report confirmed that funding for the Listed Places of Worship grant scheme would continue until the end of March 2006.

The Disability Rights Commission, in association with English Heritage, held a consultative conference on making historic buildings accessible to people with disabilities.

The Dealing in Cultural Objects (Offences) Act came into effect.

## HEALTH

### Nuffield Orthopaedic Centre NHS Trust

**The Minister of State, Department of Health (Mr. John Hutton):** On 12 February my right hon. Friend the Secretary of State announced that he would support the Nuffield Orthopaedic Centre NHS trust in its bid to be part of the first wave of NHS foundation trusts. The NHS trust can now apply to the office of the Independent Regulator, chaired by Bill Moyes, for authorisation as an NHS foundation trust, and set up new governance arrangements including recruiting members and holding elections to the Board of Governors.

The Nuffield Orthopaedic Centre NHS trust is now working towards authorisation as an NHS foundation trust along with 24 other NHS trusts.

## HOME DEPARTMENT

### Race Relations (Amendment) Act

**The Minister for Citizenship and Immigration (Beverley Hughes):** I have today made a technical amendment to the authorisation under section 19D of the Race Relations Act which enables immigration officers to prioritise arriving passengers for examination and immigration offenders for removal on the ground of nationality. The change is that nationalities will be

prioritised if adverse decisions and immigration breaches reach more than 50 in total and five of every 1,000 admitted persons of a particular nationality.

The change is necessary to keep the system of prioritisation manageable in the light of improvements to data collection. We do not anticipate that this will make a significant difference to the number of nationalities prioritised and decisions will continue to be made on the individual merits of each case.

**The Minister for Citizenship and Immigration (Beverley Hughes):** I have today made an authorisation under section 19D of the Race Relations Act 1976 (as amended) which will enable immigration officers to prioritise the examination of passengers of Somali national origin. For a period of three months this will allow such people to be examined more rigorously than would otherwise be the case.

The purpose of this measure is to enable the immigration service to obtain information on the number and profiles of Somali-born passengers entering the UK. The aim of this measure is to establish how the large numbers of in-country asylum applicants claiming as Somali, apparently without documentation, enter the UK.

**The Minister for Citizenship and Immigration (Beverley Hughes):** I have today made an authorisation under section 19D of the Race Relations Act 1976 as amended which enables the Home Office to implement measures targeting the top five nationalities in terms of third country/Dublin cases for additional examination on the grounds of nationality.

This change will enable officials to compare the fingerprints of asylum seekers of these five nationalities against other governments' fingerprint databases of asylum seekers, failed asylum seekers and those granted some form of leave to remain.

This change also allows officials to compare the details of asylum seekers from the five prioritised nationalities with the details of individuals originally from those countries but now holding a form of immigration status elsewhere who have been granted a visa to travel to the UK.

The purpose of these measures is to identify individuals who have claimed asylum, are failed asylum seekers or absconders, or who already have some form of status in another country and who subsequently claim asylum in the UK.

Iraq, Turkey, Iran, Somalia and Sudan were the top five nationalities subject to third country/Dublin action in the last six months of 2003. This means that other EU member states are properly responsible to consider the asylum claim of the individuals concerned.

Any individuals identified under these processes may be returned to the safe third country identified as responsible for them under existing immigration law.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Hong Kong

**The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell):** The latest report on the implementation of the Sino-British Joint Declaration on Hong Kong was published today and copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and Commonwealth Office website www.fco.gove.uk. The report covers the period from 1 July to 31 December 2003 and includes a foreword by my right hon. Friend the Foreign Secretary. I commend the report to the House.

## INTERNATIONAL DEVELOPMENT

### Iraq

**The Secretary of State for International Development (Hilary Benn):** I have placed in the Libraries of both Houses a copy of DFID's interim country assistance plan for Iraq. It sets out how DFID aims to contribute to the reconstruction of Iraq in the period up to March 2006. I have also decided to make an initial contribution of £65 million—US$120 million—to the International Reconstruction Fund Facility for Iraq, managed by the World Bank and United Nations, out of the resources pledged by the United Kingdom for the reconstruction of Iraq at the Madrid donors conference in October 2003, which I outlined in my written statement of 14 October 2003, column 9–10 WS.

Saddam Hussein's tyranny led to a significant increase in poverty and Iraq was isolated from the rest of the world, including its own region, for much of his rule. In many respects Iraq's social and economic indicators now resemble those of a low-income country rather than a major oil producer. But Iraq's abundant human and natural resources offer the potential for a rapid return to relative prosperity, if the right conditions are created in the short and medium term.

Against this background, DFID's objectives for the next two years are to support: rapid, sustainable and equitable economic growth; effective and accountable governance; and social and political cohesion and stability.

To work towards these goals DFID will focus on three levels:

*Internationally:* by supporting the United Nations and World Bank International Reconstruction Fund Facility for Iraq (IRFFI), assisting the Ministry of Planning and Development Co-operation, and continuing dialogue with other donors on the co-ordination and effectiveness of assistance to Iraq.

*Nationally:* by funding projects which benefit the poor, promote an inclusive political process and economic reform, and strengthen public administration. Examples include helping the growth of small and medium-sized businesses; setting up a fund to support the participation of citizens, parties and interest groups in the political process; and technical assistance to Iraq's public administration system.

*In southern Iraq:* by funding projects to reduce poverty and helping to restore the area's administrative and political links with Baghdad so that it can benefit from Iraq's national development efforts.

At the Madrid donors conference, the United Kingdom pledged a total of £544 million for the period from April 2003 to March 2006, a significant proportion of which would be channelled through the International Reconstruction Fund Facility for Iraq (IRFFI). The allocation of our initial contribution between the UN and the World Bank Trust Funds will be decided shortly. Any further DFID contributions to the Funds will be considered in the light of the effectiveness of their operations and their need for additional funding.

A total of over $32 billion was pledged to Iraq at the Madrid conference. These pledges, together with a substantial reduction in Iraq's debt, which should be negotiated this year, will provide a sound basis for the country's initial reconstruction. If the right steps are taken now, and the political situation in the country is stabilised, much of Iraq's longer term investment needs should be met by commercial loans, foreign direct investment and its own resources. Iraq's human capital, and its oil reserves of about $2,500 billion at current prices, should enable it to meet its future needs without significant external grant assistance.

The country assistance plan is also available on the DFID website: www.dfid.gov.uk

## DEFENCE

### Iraq (Campaign Medal)

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** I am pleased to announce that Her Majesty has graciously approved the detailed qualifying criteria for the award of a Campaign Medal for recent operations in Iraq. I have laid the Command Paper instituting the Iraq Campaign Medal in Parliament today.

### Supplementary Estimates

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** Subject to Parliamentary approval of any necessary supplementary estimate, the Ministry of Defence Departmental expenditure limits will be increased by £506,795,000 from £30,792,381,000 to £31,299,176,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*1000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 342,500 | 31,866,919 | 448,247 | 32,315,166 |
| Capital | -35,705 | 6,401,972 | 19,925 | 6,421,897 |
| Depreciation[1] | 200,000 | -7,337,887 | -100,000 | -7,437,887 |
| Total | 506,795 | 30,931,004 | 368,172 | 31,299,176 |

[1] Depreciation, which forms part of Resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

The transfer of £116,550,000 from Capital to Resource DEL.

An increase in RfR2 of £231 million Resource DEL for military operations.

A transfer of £5 million Resource DEL from FCO in respect of the Global Conflict Prevention Pool.

A transfer of £910,000 from DFID in respect of the Conflict Prevention Pool for programmes in sub-Saharan Africa.

A transfer of £11,200,000 Resource DEL to the DTI in support of dual-use aero-engine technology programmes.

A transfer of £305,000 Resource DEL from the DWP to the Veterans Agency relating to a change in allowances.

A transfer of £120,000 Resource DEL to the Single Intelligence Account relating to electricity for a shared site.

A transfer of £55,000 Resource DEL from the Home Office in respect of the Voluntary Opportunities Matched Funding Project.

An increase in the Non-budget items of £147,541,000 arising from changes in provision values related to the change in the Treasury Discount Rate.

An increase in Resource Appropriations in Aid of £157,579,000.

The change in the capital element of the DEL arises from:

A transfer of £116,550,000 from capital DEL to resource DEL as a result of budgetary re-balancing.

An increase in RfR2 of £78 million capital DEL for military operations.

A transfer of £5,500,000 capital DEL from the Home Office to MoD as payment for part of the former RAF Newton site.

A reduction in Capital DEL of £2.655,000, as a result of repaying the funding provided from the reserve in FY01/02 which was brought forward from 2003–04 for op veritas urgent operational requirements.

An increase in non-operating Appropriations in Aid of £134,613,000.

A profit of £17,674,000 on the disposal of fixed assets.

### Ministry of Defence Votes A 2004–05

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** The Ministry of Defence Votes A 2004–05 will be laid before the House on 23 February as HC 283. Votes A outlines the maximum numbers of personnel that can be retained for Service in the Armed Forces for financial year 2004–05.

Copies of these reports will be laid in the Libraries of both Houses.

# Written Ministerial Statements

*Tuesday 24 February 2004*

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Supplementary Estimates

**The Minister for Rural Affairs and Local Environmental Quality (Alun Michael):** Subject to parliamentary approval of any necessary supplementary estimate, the Department for Environment Food and Rural Affairs DEL will be decreased by £77,907,000 from £3,035,822,000 to £2,957,915,000 and the administration costs limits will be decreased by £193,238,000 from £540,470,000 to £347,232,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | -32,035 | 2,378,872 | 397,641 | 2,776,513 |
| Capital | -45,872 | 286,873 | 75,745 | 362,618 |
| Depreciation* | - | -83,495 | -97,721 | -181,216 |
| Total | -77,907 | 2,582,250 | 375,665 | 2,957,915 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

a take up of £6,317,000 administration resources from ODPM for accommodation costs relating to Ashdown House;

a decrease of £95,000,000 in our non-voted resource budget relating to funding originally provided in respect of the Environment Agency Closed Pension Fund, but which is no longer required in 2003–04;

a reclassification of £45,919,000 capital flood defence grants (paid to the Environment Agency) to non-Voted resource DEL and matching grant in aid, to reflect the correct accounting treatment of these grants (see below offsetting decrease in capital);

an increase to our non-Voted resource DEL of £1,948,000 to complete the transfer of English Nature's unfunded pension liabilities into the Principle Civil Service Pension Scheme;

a transfer of £105,000 administration resources to the DTI for the Farm Business Advice Service (FBAS);

a reclassification of £199,486,000 administration resources to programme resources in respect of the Department's front line services, as agreed with Treasury;

a movement of £50,000,000 from non-Voted resources on to the Estimate (Vote) to reflect latest allocations /forecasts, as agreed with Treasury;

an increase of £2,000,000 to our resource expenditure and operating income to reflect the receipt from British Waterways of interest and capital repayment on its National Loans (NLF) loans and its onward payment to NLF;

an increase of £3,951,000 programme resources and appropriations-in-aid in respect of Pig Industry Restructuring;

a take-up of £8,184,000 programme resources from DWP in respect of Warm Front Pension Credit Costs;

the take-up of our Departmental Unallocated Provision (DUP) of £10,689,000 as programme resources;

a take-up of £500,000 programme resources from DfES for School Milk;

the take-up of £36,000 administration resources and £95,000 programme resources from the Invest to Save Budget, representing Defra's successful projects in the fifth round of awards;

a take-up of £71,000 programme resources from SEERAD for Emissions Trading Registry.

an increase of our Executive Agencies' administrative resources and appropriations-in-aid by £20,000,000 to take account of latest allocations/forecasts and to reflect the appropriations-in-aid target in the Estimate.

The change in the capital element of the DEL arises from:

a reclassification of £45,919,000 Capital flood defence grants (paid to the Environment Agency) to non-Voted resource DEL and matching grant in aid, to reflect the correct accounting treatment of these grants (see above offsetting increase in resource);

switch on the Estimate £60,000,000 from in-house capital to resources (Local Authority Grants) to reflect latest allocations/forecasts. Note: This switch is Budget neutral, i.e. Local Authority Grants are classified as resource for Estimate purposes but capital in the Budget;

an increase in capital expenditure and non-operating appropriations-in-aid of £2,510,000, in respect of grain store receipts. This relates to an agreement with Treasury—which allows us to recycle grain store receipts in to the Rural Payments Agency's (RPA) Change programme by increasing expenditure in line with income received;

take-up of £47,000 capital from the Invest to Save Budget, representing Defra's successful projects in the fifth round of awards.

### Forestry Commission

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** Subject to Parliamentary approval, the Forestry Commission's DEL will be reduced by £1,450,000 from £84,620,000 to £83,170,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | -1,450 | 78,097 | 2,653 | 80,750 |
| Capital | | 833 | 2,657 | 3,490 |
| Depreciation* | | -1,070 | - | -1,070 |
| Total | -1,450 | 77,860 | 5,310 | 83,170 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from transfers of £1,200,000 and £250,000 to the Scottish Executive and National Assembly for Wales respectively. This transfer is required to fund functions transferred from the Forestry Commission Westminster Vote (which covers activities in England and those functions which it carries out on a GB-wide basis), to Forestry Commission Scotland and Wales following the recommendations of the Forestry Devolution Review.

### Rural Delivery Review (Integrated Agency)

**The Minister for Rural Affairs and Local Environmental Quality (Alun Michael):** In my statement of 11 November 2003 on the rural delivery review, I accepted Lord Haskins' broad recommendation to bring together elements of the work done by English Nature, the Countryside Agency and Defra's rural development service into an integrated agency. It is important to me that the integrated agency should have a strong and authoritative voice commanding respect both within and outside Government. It is equally important that the advice I receive from the integrated agency is not only independent, but is seen to be independent. I have therefore decided that this new agency will be established as an executive non-departmental public body.

## WORK AND PENSIONS

### Supplementary Estimates

**The Minister for Work (Mr. Desmond Browne):** Subject to Parliamentary approval of any necessary supplementary estimate, the Department for Work and Pensions DEL will be increased by £382,965,000 from £8,228,690,000 to £8,611,655,000 and the administration costs limits will be increased by £283,684,000 from £6,052,007,000 to £6,335,691,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 239,021 | 7,100,263 | 1,456,179 | 8,556,442 |
| Capital | 142,674 | 170,140 | 1,202 | 171,342 |
| Depreciation* | 1,270 | -115,415 | -714 | -116,129 |
| Total | 382,965 | 7,154,988 | 1,456,667 | 8,611,655 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

i. a transfer of provision of £143,000,000 (other current) to capital for Job Centre Plus roll out expenditure;

ii. a transfer in provision of £1,125,000 (administration costs) to the Scottish Executive for the administration costs of Training for Work;

iii. a reduction in provision of £200,000 (other current) to the Welsh Assembly for costs incurred by the Adult Learning Inspectorate;

iv. a reduction in provision of £50,000 (administration costs) due to a transfer to the Department of Health for Care Direct;

v. a reduction in provision of £5,000 (administration costs) as a result of a transfer to the Ministry of Defence in connection with the Ilford Park Polish Home;

vi. an increase in provision of £93,000 (other current) as a result of a transfer from the Department for Education and Skills for Cross Departmental Working with Parents;

vii. an increase in provision of £223,000,000 (administration costs) and £148,305,000 (other current) under the End Year Flexibility Scheme;

viii. an increase in provision of £1,400,000 (administration costs) as a result of a transfer from the Office of the Deputy Prime Minister for the New Deal for Communities;

ix. an increase in provision of £365,000 in due to a transfer from the Cabinet Office (invest to save budget) in respect of a project to assist with the more effective administration of Free School Meals;

x. an increase in provision of £200,000 (administration costs) as a result of a transfer from the Office of the Deputy Prime Minister for the New Deal for Communities;

xi. an increase in provision of £243,000 (administration costs) as a result of a transfer from the Scottish Executive for the Family Resources Survey;

xii. an increase in provision of £9,795,000 (administration costs) for the Makinson Bonus scheme.

The change in the capital element of the DEL arises from:

a. a transfer of provision of £143,000,000 (other current) to capital for Job Centre Plus roll out expenditure;

b. an increase in non operating appropriations in aid of £326,000 due to a revised forecast

## TRANSPORT

### Supplementary Estimates

**The Secretary of State for Transport (Mr. Alistair Darling):** Subject to Parliamentary approval of any necessary supplementary estimate, the Department for Transport DEL for 2003–04 will be increased by £185,735,000 from £10,642,808,000 to £10,828,543,000 and the administration costs limits will be increased by £12,166,000 from £379,261,000 to £391,427,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*(£'000)*

| | *Change* | *Voted* | *NEW DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 494,266 | 4,853,504 | 3,295,458 | 8,148,962 |
| Capital | 29,698 | 1,846,521 | 1,469,442 | 3,315,963 |
| Depreciation* | -338,229 | -636,382 | - | -636,382 |
| *Total* | 185,735 | 6,063,643 | 4,764,900 | 10,828,543 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The £272,789,000 increase in the voted resource element of the DEL arises from:

(i) take up of £291,284,000 (non cash) reserve claim for the Highways Agency to cover accounting changes in the valuation of road schemes when completed, depreciation of non-pavement assets and the creation of new provisions offset by changes in existing provisions;

(ii) take up of £18,376,000 end year flexibility, comprising:

(a) £12,726,000 (administration costs) for expenditure by the Driver and Vehicle Licensing Agency;

(b) £2,487,000 (administration costs) for expenditure by the Highways Agency;

(c) £2,400,000 for the Driving Standards Agency to fund Automated Driver Licence issue; and

(d) £763,000 (administration costs) for the Department for Transport;

(iii) a net transfer of £9,606,000 from other Government Departments, comprising:

(a) £4,792,000 from the Scottish Executive being an adjustment, to transfers previously made by the Department to the Executive, to reflect ScotRail performance receipts and reductions in ScotRail access charges (£4,504,000) and a transfer in respect of consultant costs on speed cameras (£288,000);

(b) £146,000 from the Department for Trade and Industry in respect of the Low Carbon Partnership (£195,000) partially offset by a transfer to that department for the FP6 Sustainable Surface Transport programme (£49,000);

(c) £705,000 (administration costs) from the Office of the Deputy Prime Minister in respect of managing the Transport and Works Act (£410,000) and counselling and support services (£295,000); and

(d) a machinery of Government transfer of £3,963,000 from the office of the Deputy Prime Minister in respect of the European Regional Development Fund;

(iv) a net transfer to non-voted resource provision of £46,477,000 comprising:

(a) a transfer of £50,000,000 to cover Highways Agency cash payments against provisions;

(b) a transfer of £500,000 (administration costs) to cover Maritime and Coastguard Agency cash payments against provisions and release of provisions;

(c) partially offset by a transfer of £4,023,000 (administration costs) departmental unallocated provision to voted provision for Department for Transport;

(v) receipts of £4,289,000 (administration costs) used for Driver and Vehicle Licensing Agency publicity costs (programme);

(vi) a transfer of £226,000 (administration costs) from the Department for Transport to the Vehicle Certification Agency in respect of Electronic Delivery Systems.

Within the non-voted resource element of the DEL, there has been an increase of £221,477,000 comprising:

(i) a take up of £175,000,000 (non cash) reserve claim for the Highways Agency for release of provisions adjustment; and

(ii) a net transfer from voted resource provision of £46,477,000.

As a result of the above changes to the resource element of the DEL there has been a net increase of £12,166,000 in the gross administration costs limit, from £379,261,000 to £391,427,000 and an increase of £226,000 in the Vehicle Certification Agency net administration limit from -£41,000 to £185,000.

The increase of £29,698,000 in the voted capital element of the DEL arises from:

(i) take up of £20,926,000 (non cash) reserve claim for the Highways Agency in respect of provisions for lands and major schemes claims;

(ii) a net transfer of £4,244,000 from the Office of the Deputy Prime Minister for various dual and shared Strategic IT and e-business projects; and

(iii) £4,528,000 machinery of government transfer from the Office of the Deputy Prime Minister in respect of the European Regional Development Fund.

## DEPUTY PRIME MINISTER

### Sustainable Communities

**The Minister for Housing and Planning (Keith Hill):** I am today publishing for consultation a draft of planning policy statement 1 (PPS1)—"Creating Sustainable Communities" the core statement of the Government's key planning policies.

I am also publishing a paper on the Government's approach to community involvement in planning.

PPS1 is the key overarching document which sets out the Government's high level principles for planning.

Clause 39 (clause 38—the sustainable development clause—as was) of the Planning and Compulsory Purchase Bill requires regional and local plans to be drawn up with a view to contributing to the achievement of sustainable development. The clause requires that in doing so, planning authorities must have regard to guidance issued by the Secretary of State. PPS1 will be a key document underpinning this requirement.

PPS1 is based on three themes:

Planning for sustainable communities and sustainable development;

The new approach to planning we are promoting as part of planning culture change (the spatial planning approach); and

Community involvement in planning.

*Sustainable development*

Our legislation will make contributing to the achievement of sustainable development the key purpose of the planning system. The Office of the Deputy Prime Minister should expect planning policies to pursue proactively the four aims of sustainable development—economic development; social inclusion; environmental protection; and prudent use of natural resources—in an integrated way, in line with the Government's overall strategy for sustainable development.

*Spatial Planning*

The new regional and local plans provided for in the Bill are based on the philosophy of spatial planning. Spatial planning goes beyond traditional land use planning to bring together and integrate policies for the development and use of land with other policies and programmes which influence the nature of places and how they function.

PPS1 sets out the spatial planning approach that will be adopted in the new planning system. These planning tools will reflect real geographies and real community issues, and are thus a flexible approach to planning and sustainable development.

*Community involvement*

Effective community involvement is a vital element in delivering sustainable communities. Our aim should be to develop effective community involvement processes which enable a better understanding of the sometimes difficult choices which have to be made in considering development and more ownership of the accompanying decisions.

We need of course to strike a balance between promoting effective community involvement without allowing the system to be bogged down by endless consultation exercises. I want the reformed system to emphasise community involvement as a way of helping resolve problems early in the process and secure ownership, so that when plans and proposals are put forward, there are fewer objections.

The paper makes clear that community involvement should be based on a real understanding of the community's needs, should be fit for purpose, and should be "front loaded" ie involvement early in the process.

PPS1 can only set out the key policy principles for community involvement in planning. To put these in context, the community involvement paper sets out our general philosophy on community involvement in planning, and puts this in the broader context of policy.

Copies of the two documents will be available in the Libraries of the House. They will also be available on the Office of the Deputy Prime Minister's website at (www.odpm.gov.uk/stellent/groups/odpm_planning/documents/sectionhomepage/odpm_planning_page.hcsp)

## Local Government Members (Code of Conduct)

**The Minister for Local and Regional Government (Mr. Nick Raynsford):** The Government have today published a consultation paper setting out its proposals for draft Regulations under section 66 of the Local Government Act 2000. These proposals will make provision for local government monitoring officers in England, in cases where ethical standards officers of the Standards Board for England deem it appropriate, to investigate allegations that local authority members have breached their code of conduct. The Government are consulting on this issue over the next three months, and at the same time the Standards Board for England is consulting on draft guidance for monitoring officers on how they can best undertake their duties under the proposed Regulations.

We need to ensure the highest possible ethical standards in local government. But we need a system, which is efficient and workable. This approach is a sensible, effective and proportionate way of handling allegations of misconduct at a local level.

Copies of the consultation paper are being sent to local authorities and will be available in the Libraries of both Houses, as well as being made available on the Office of the Deputy Prime Minister's website at www.odpm.gov.uk.

## Supplementary Estimates

**The Deputy Prime Minister (Mr. John Prescott):** Subject to Parliamentary approval of any necessary Supplementary Estimate, the Office of the Deputy Prime Minister's Departmental Expenditure Limits for 2003–04 will change as follows:

(1) the Office of the Deputy Prime Minister's Main Programmes DEL will be increased by £272,415,000 from £6,914,649,000 to £7,187,064,000 and the administration costs limit will be decreased by £6,003,000 from £396,378,000 to £390,375,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *New DEL Voted* | *Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | -141,377 | 2,858,504 | 2,015,267 | 4,873,771 |
| Capital | 413,792 | 1,042,127 | 1,271,166 | 2,313,293 |
| Depreciation* | -5,323 | -21,791 | -2,000 | -23,791 |
| Total | 267,092 | 3,878,840 | 3,284,433 | 7,163,273 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

(i) take up of End Year Flexibility of £286,081,000 comprising:

*(a)* £85,888,000 for the Regional Development Agencies;

*(b)* £45,000,000 for European Structural Funds;

*(c)* £11,656,000 for the Sustainable Communities Plan;

*(d)* £67,000,000 for Housing programmes expenditure;

*(e)* £37,290,000 for Fire Services (transitional funding, expenditure on fire dispute including Ministry of Defence costs and New Dimension Search and Rescue;

*(f)* £332,000 from the Invest to Save Budget for Fire Services;

*(g)* £2,293,000 for the Fire Service College;

*(h)* £6,601,000 for Ordnance Survey expenditure and capital charge on the trading fund's assets;

*(i)* £21,000 for New Ventures Fund;

*(j)* £30,000,000 non-voted for English Partnerships;

(ii) a net transfer of £12,712,000 to other government departments, comprising:

*(a)* £109,000 from The Scottish Executive for housing;

*(b)* £1,000,000 from Department for Work and Pensions for Housing;

*(c)* £1,798,000 (administration costs) from Cabinet Office to cover the rent and service charges on 26 Whitehall;

*(d)* £342,000 (administration costs) from the Office of National Statistics for work on housing, the physical environment, fire and Best Value Performance Indicators;

*(e)* £19,000 (administration costs) from Home Office for work on antisocial behaviour;

*(f)* £47,000 (administration costs) from Department for Education and Skills to Government Offices administration for work on their core agenda;

*(g)* £360,000 (administration costs) from the Home Office to Government Offices administration to cover work on the Criminal Justice Interventions and Treatment programme;

*(h)* £3,963,000 European Structural Funds provision to Department of Transport;

*(i)* £1,350,000 to Department for Education and Skills, £1,600,000 to Department for Work and Pension for Job Centre Plus and pension services, £2,155,000 to Home Office for adventure capital and capacity building funds;

*(j)* £425,000 (administration costs) to Department of Constitutional Affairs in respect of the transfer of work on devolution;

*(k)* £6,189,000 (administration costs) to Department of Environment, Food and Rural Affairs to cover the baseline budget for Ashdown House retail rent;

*(l)* £705,000 (administration costs) to the Department for Transport to cover interdepartmental services;

(iii) An increase in receipts of £33,431,000 to offset similar increases in provision of £15,568,000 for administration costs, £5,504,000 for Government Offices administration costs, £8,743,000 for Fire services, £2,573,000 for The Planning Inspectorate Executive Agency, £510,000 for Ordnance Survey Trading Fund, £225,000 for Housing services, £306,000 for Queen Elizabeth II Conference Centre Executive Agency Trading Fund and £2,000 for Planning.

(iv) A transfer of £54,471,000 from resource investment to capital within Sustainable Communities.

(v) A transfer of £376,949,000 from resource investment to capital within the Regional Development Agencies.

(vi) A transfer of £11,000,000 to resource investment from capital within the European Structural Funds. This reflects the correction of the split between capital grants to local authorities and capital grants to the private sector.

(vii) A transfer of £2,564,000 to resource investment from capital due to a classification error within Fire Services.

(viii) A transfer of £390,000 to Request for Resources 2 from Request for Resources 1.

(ix) A net transfer of £769,000 from voted to non-voted provisions comprising:

*(a)* a transfer of £4,555,000 to non-voted DEL for South East of England Development Agency work in delivering Other Growth Area and Thames Gateway projects and to support Thurrock Urban Development Corporation;

*(b)* transfers of £1,470,000 and £1,750,000 from Sustainable Communities Plan and New Ventures Fund respectively to non-voted DEL;

*(c)* a transfer of £459,000 to non-voted Housing Corporation;

*(d)* a transfer of £2,000,000 from non-voted resource investment DEL to voted capital DEL for Housing programmes;

*(e)* a transfer of £2,300,000 to voted DEL for the Thames Gateway programmes;

*(f)* a transfer of £3,165,000 to voted DEL to fund capital charge on Fire Service College assets;

(x) Provision of £4,500,000 in respect of future pension liability for non-voted Housing Corporation. This is a classification change.

(xi) Provision of £1,000,000 in respect of future pension liability for non-voted English Partnerships. This is a classification change.

(xii) As a result of the changes to Request for Resources 1, The Office of the Deputy Prime Minister's administration provision has been increased by £17,642,000 from £408,920,000 to £426,562,000.

The change in the capital element of the DEL arises from:

(i) take up of end year flexibility of £2,708,000 comprising of:

*(a)* £2,217,000 for the Disable Facilities Grant;

*(b)* £50,000 from the Invest to Save Budget for Fire Services;

*(c)* £40,000 from the Capital Modernisation Fund for Public Space improvement programme;

*(d)* £401,000 from Sustainable Communities;

(ii) A transfer of £54,471,000 from resource investment to capital within Sustainable Communities.

(iii) A transfer of £376,949,000 from resource investment to capital within the Regional Development Agencies.

(iv) A transfer of £11,000,000 from capital to resource investment within the European Structural Funds. This reflects the correction of the split between capital grants to local authorities and capital grants to the private sector.

(v) A transfer of £2,564,000 from capital to resource investment due to a classification error within Fire Services.

(vi) A transfer of £8,772,000 to Department of Transport comprising of £4,244,000 for shared IT projects and £4,528,000 for European Structural Funds provision.

(vii) Within the capital element of the DEL there is a net transfer of £10,130,000 from voted to non-voted provision comprising of: £1,030,000 from voted to non-voted provisions in respect of the Ordnance Survey Trading Fund; a transfer of £2,000,000 from non-voted resource DEL to capital DEL for Housing programme; a transfer of £10,800,000 to non-voted DEL for English Partnership work on Pathfinder projects and a transfer of £300,000 to non voted Housing Corporation.

(2) The Office of the Deputy Prime Minister's Local Government DEL will be increased by £1,923,000 from £41,359,492,000 to £41,361,415,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 870 | 40,929,679 | 97,973 | 41,027,652 |
| Capital | 1,053 | 324,710 | 9,053 | 333,763 |
| Depreciation* | -400 | -400 | 0 | -400 |
| Total | 1,523 | 41,253,989 | 107,026 | 41,361,015 |

The change in the resource element of the DEL arises from:

(i) take up of End Year Flexibility of £550,000 comprising:

*(a)* £250,000 for Best Value Parish Councils;

*(b)* £300,000 for Valuation services;

(ii) a transfer of £390,000 from Request for Resources 1.

(iii) a transfer of £39,000 from the Office of National Statistics for Local Government research, publicity, mapping and electoral law costs.

(iv) a transfer of £109,000 of the Standards Board own spending to capital.

The change in the capital element of the DEL arises from:

(i) take up of End Year Flexibility of £944,000 for the Standards Board own spending.

(ii) a transfer of £109,000 of the Standards Board own spending from resource.

### Housing Bill

**The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper):** On Friday the Government tabled amendments to the Housing Bill, which is currently being considered by the House in Committee. These amendments meet a number of the recommendations of the Park Homes Working Party and aim to deal with some of the key concerns about the existing legislation.

They amend the Mobile Homes Act 1983 to require a written statement of terms to be given to a prospective occupier 28 days before the agreement to station a park home on a site is entered into. At present Written statements may be given up to three months after the agreement has commenced.

In the event of the owner failing to produce the written statement in advance, any express terms contained in the agreement will not be enforceable at the suit of the owner. This is to encourage the site owner to produce the written statement in advance, and is not likely to hold up the process of a sale.

The amendments create a power by which the Secretary of State (in Wales the National Assembly for Wales) can add additional terms to be implied into the agreement, and repeal and vary those in the Mobile Homes Act 1983. This power might be used, for example, to give an occupier the right to quiet enjoyment of their home, whereas currently an occupier would have to go to court to have this term implied into their agreement.

Because existing agreements are of infinite duration, we need to be able to amend the statutory implied terms for existing agreements, where these are clearly inadequate. Provision has therefore been made for the first exercise of the power to have retrospective effect, i.e. to allow amendment of the implied terms operating as part of existing agreements. Future exercises of the power will be non-retrospective. Any order made under the power is subject to affirmative resolution by both Houses of Parliament, and the clause contains a consultation requirement for the Secretary of State to consult interested parties as to the proposed amendments. Representatives of both site owners and occupiers will therefore be consulted about the terms of any order to be made.

Site owners will in future have a time limit of 28 days for giving or withholding approval of a prospective purchaser. By the end of this time limit a decision must have been given in writing. If not, the occupier can apply to the court for an order giving approval to that purchaser, which if given would involve the site owner in costs.

The age of a home is removed as a relevant criterion for ending an agreement. Currently a site owner may terminate an agreement on grounds of 'age and condition' of the unit. The amendment will remove the reference to age from the 1983 Act, as the age of a unit is irrelevant. The amendment will enable courts to consider the condition of the unit and to allow time for appropriate repairs (if reasonably practicable).

The amendments increase the protection of occupiers of park homes against harassment and illegal eviction by amending the Caravan Sites Act 1968 to mirror the wording in the Protection from Eviction Act 1977, which governs the protection given to occupiers of conventional housing against eviction and harassment. The wording for the existing offence for a site owner doing "acts calculated to interfere with the peace or comfort" of the occupier which cause him to abandon his home, has been relaxed to "acts likely to interfere" with such peace or comfort, which is obviously an easier test to satisfy. A new offence has been introduced which does not require specific intent by a site owner or his agent to cause an occupier to abandon his home. This will increase the protection available to occupiers and the chances of successful prosecutions.

The remaining recommendations of the Working Party need further work to ensure that when fully implemented they will work effectively in practice. To that end, we have recently commissioned consultants to develop proposals on the implementation of the recommendations in relation to site licensing.

## HEALTH

### Supplementary Estimates

**The Secretary of State for Health (Dr. John Reid):** Subject to the necessary Supplementary Estimate, the Department of Health's element of the Departmental Expenditure Limit (DEL) will be increased by £262,454,000 from £65,583,213,000 to £65,845,667,000 and the Administration Cost Limit will decrease by £4,042,000 from £297,448,000 to £293,406,000. The overall DEL including the Food Standards Agency will increase by the same amount £262,454,000 from £65,722,240,000 to £65,984,694,000. The impact on resource and capital are set out in the following table.

| | *Change* £ *million* | *Voted* £ *million* | *New DEL Non-voted* £ *million* | *Total* £ *million* |
|---|---|---|---|---|
| *Department of Health* | | | | |
| Resource DEL | 95.348 | 63,334.252 | -310.127 | 63,024.125 |
| Capital DEL | 167.106 | 653.611 | 2,167.931 | 2,821.542 |
| Total Department of Health DEL | 262.454 | 63,987.863 | 1,857.804 | 65,845.667 |
| Depreciation* | 0.078 | -352.570 | -44.369 | -396.939 |

| | Change £ million | Voted £ million | New DEL Non-voted £ million | Total £ million |
|---|---|---|---|---|
| Total Department of Health spending (after adjustment) | 262.532 | 63,635.293 | 1,813.435 | 65,448.728 |
| *Food Standards Agency* | | | | |
| Resources | 0 | 136.368 | 0 | 136.368 |
| Capital | 0 | 2.659 | 0 | 2.659 |
| Total Food Standard Agency DEL | 0 | 139.027 | 0 | 139.027 |
| Depreciation* | 0 | -2.004 | 0 | -2.004 |
| Total Food Standards Agency spending (after adjustment) | 0 | 137.023 | 0 | 137.023 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since the capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the DEL arises from the take up of end year flexibility £260,978,000 (£1,572,000 administration costs) for capital, revenue and administration budgets as set out in Table 6 of the Public Expenditure 2002–03 Provisional Outturn White Paper Cm 5884 published in July 2003. A net transfer from the Home Office of £1,980,000 (£50,000 administration costs) mainly for training costs at special hospitals, drugs misuse pilot projects and voluntary sector care projects helping to increase volunteers in intermediate care; from the Department of Trade and Industry £1,070,000 (£70,000 administration costs) for contributions towards the human genetics commission and to support development of genetics knowledge parks to increase understanding into a range of genetic based issues including research; from the Department for Work and Pensions £10,343,000 for the NHS low income scheme and a contribution to the care direct budget; to the Scotland Executive £88,000 for their share of the reimbursement from manufacturers 3M associated with the ending of a hip replacement programme; a net transfer to the Department for Education and Skills £12,544,000 (£-1,733,000 administration costs) mainly for capital projects, machinery of government changes and NHS diploma students offset by contributions towards teenage pregnancy, children's trusts and communications budgets; a net transfer from the DHSS Northern Ireland £735,000 for out of area treatments offset by a contribution to CJD care fund; to the National Assembly for Wales £20,000 (administration costs) for prison healthcare.

The administration cost limit has reduced by £4,042,000 from £297,448,000 to £293,406,000. In addition to the changes detailed above there is a decrease of £3,981,000 for transfers to programme budgets mainly for capitalisation of software developments.

## NORTHERN IRELAND

### Supplementary Estimates

**The Secretary of State for Northern Ireland (Mr. Paul Murphy):** Subject to Parliamentary approval of any necessary Supplementary Estimate, the Northern Ireland Office (NIO) DEL will be increased by £28,325,000 from £1,180,916,000 to £1,209,241,000. The administration cost limit has been increased by £34,000 from £163,375,000 to £163,409,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

| | Change | New DEL | Of which: Voted | Non-voted |
|---|---|---|---|---|
| Resource | 28,325 | 1,136,389 | 400,441 | 735,948 |
| Capital | 0 | 72,852 | 30,113 | 42,739 |
| Depreciation* | 10,956 | 22,209 | 27,467 | 49,676 |
| Total | 17,369 | 408,345 | 751,220 | 1,159,565 |

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from a change in the budgeting treatment for pension schemes (£25,000,000) and from the net effect of transfers to and from other Government Departments (£3,325,000). The increase in administration costs (£34,000) is also, as a net effect of transfers to and from other Government Departments.

### General Consumer Council

**The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Ian Pearson):** The General Consumer Council for Northern Ireland 2002–03 annual report and accounts were deposited in the Library of the House today.

## HOME DEPARTMENT

### Supplementary Estimates

**The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart):** Subject to Parliamentary approval of any necessary supplementary estimate, the Charity Commission DEL will be increased by £83,000 from £28,198,000 to £28,281,000 and the administration costs limit will be increased by £83,000 from £27,409,000 to £ 27,492,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | Change | Voted | New DEL Non-voted | Total |
|---|---|---|---|---|
| Resource | 83,000 | 27,492,000 | - | 27,492,000 |
| Capital | - | 1,399,000 | - | 1,399,000 |
| Depreciation* | - | -610,000 | - | -610,000 |
| Total | 83,000 | 28,281,000 | - | 28,281,000 |

The change in the resource element of the DEL arises from the take-up of £83,000 End-Year Flexibility funding, of which £50,000 will fund unavoidable medical retirements, £15,000 will fund costs relating to

the replacement of the Commission's current payroll provider and £18,000 will fund the implementation of a non-pay staff benefit scheme. The change in the administration costs limit arises from the same take-up of £83,000 resource End-Year Flexibility funding.

**The Secretary of State for the Home Department (Mr. David Blunkett):** Plans of changes to the Departmental Expenditure Limit and Administrative Cost Limit for 2003–04.

Subject to Parliamentary approval of the necessary Supplementary Estimate, the Home Office's Departmental Expenditure Limits (DEL) for 2003–04 will be increased by £238,426,000 from £12,534,970,000 to £12,773,396,000. These changes cause the administration costs limit to increase by £38,097,000 from £3,431,703,000 to £3,469,800,000. In addition to normal administration costs, the Home Office administration costs limit also includes the costs of front line Prison, and Immigration service staff. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 226,341 | 10,357,050 | 1,569,960 | 11,927,010 |
| Capital | 27,023 | 841,847 | 241,295 | 1,083,142 |
| Depreciation* | 14,938 | -197,663 | -39,093 | -236,756 |
| Total | 238,426 | 11,001,234 | 1,772,162 | 12,773,396 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from: revised IND budget addition of £171,000,000 comprising £33,899,000 to subhead I1, £143,668,000 to subhead I2, reduction of £6,977,000 to subhead I3 and a reduction in receipts of £410,000 to subhead I5; £52,500,000 additional resources for the Recovered Assets Incentive Scheme; EYF of £2,662,000 programme expenditure to RfR1 subhead C2

ISB funds: £1,051,000 to RfR1 subhead H3 for the GuideStar UK project;

Additional resources of £7,179,000: for RfR2 subhead B1 following an adjustment to the imputed cost of capital associated with the Prisons PFI contract;

Transfers from other Government Departments total £11,719,000. This comprises:

£7,502,000 from the Department for Constitutional Affairs to RfR 1 comprising £4,850,000 to subhead ADS for meeting the needs of the Criminal justice IT delivery plan; £2,610,000 to subhead E2 for Crown courts; £24,000 to subhead H3 for strategic funding of Mediation UK and £18,000 to subhead E3 as a contribution to the group of states against corruption (GRECO).

£2,215,000 from the Office of the Deputy Prime Minister to RfR 1 comprising £2,000,000 to subhead B3 for capacity building in 67 neighbourhoods with high crime rates; £155,000 to subhead H3 in respect of the Adventure Capital fund; £60,000 to subhead B1 for work on local public service agreements.

£50,000 from the Office of National Statistics to RfR1 subhead K1 for work associated with the neighbourhood statistics programme.

£1,792,000 from the Department for Education and Skills to RfR 1 comprising £1,500,000 to subhead AM1; £159,000 to subhead H3 for the mentor point programme and £133,000 to subhead AM2 for Treasury solicitors fees on past litigation for approved schools.

£140,000 from Customs and Excise to RfR1 subhead A2 for funding the special projects and electro mechanical services.

£20,000 from the Foreign and Commonwealth Office to RfR1 subhead E3 as a contribution to the group of states against corruption (GRECO);

Transfers to other government departments totalling £19,756,000. This comprises:

£628,000 from RfR1 to the Department for Constitutional Affairs comprising £500,000 from subhead E2 for local criminal justice boards; £68,000 from subhead H1 for staff costs involved in administering the golden jubilee awards in the Scottish and Welsh Devolved administrations and £60,000 from subhead E3 for the victims and witnesses survey.

£63,000 from RfR 2 subhead C1 to the Department for Constitutional Affairs for staff costs for prison adjudicators.

£5,950,000 from RfR1 to the Foreign and Commonwealth Office comprising £2,088,000 from subhead I1 for the European Union Residence Permit; £305,000 from subhead I1 for the Colombo biometrics pilot; £250,000 from subhead I1 for the wider biometrics scoping study;

£185,000 from subhead I1 for the East Africa biometrics project; £2,000,000 from subhead D3 and £1,000,000 from subhead C2 for contributions towards the FCO's Afghanistan drugs plan and £122,000 from subhead K2 for research into techniques for identifying and measuring opium cultivation.

£4,199,000 from RfR1 to the Crown Prosecution Service comprising £3,300,000 from subhead C2 for costs associated with the proceeds of crime act 2002; £500,000 from subhead E1 for the confidence unit and £210,000 from subhead C3 to cover cost under the recovered asset incentive fund; £189,000 from subhead B2 to support joint working and improve effective use of enforcement measures for Anti-Social Behaviour.

£3,413,000 from RfR1 to Customs and Excise comprising £1,570,000 from subhead C2 for costs associated with Project Cyclamen; £1,003,000 from subhead C3 for legal teams associated with the proceeds of crime act and £840,000 from subhead C3 for the Regional Assets recovery Teams project.

£1,980,000 from RfR1 to the Department of Health comprising £1,000,000 from subhead D3 for heroin pilots in the Drug Misuse service; £270,000 from subhead H3 for immediate care services and £150,000 from subhead H3 for "Care direct", a match funded project; £50,000 from subhead AM1 for funding of the Mental Health bill team and £510,000 from subhead AM2 for central support cost for the Community Project (£350,000); for CBT training at Ashworth Hospital (£97,000); for general training at Broadmoar and Rampton Hospital (£25,000 each) and for evaluation of the Drug Education/Young People pooled Budget (£13,000).

£1,080,000 from RfR1 to the Cabinet Office comprising of £1,050,000 from subhead C2 for drugs projects and £30,000 from subhead AM1 for cost associated with the Carter review.

£406,000 from RfR1 to the Office of the Deputy Prime Minister for business crime advisor and anti social behaviour unit.

£417,000 from RfR2 to the Department for Trade and Industry comprising £385,000 from subhead C2 and £32,000 from subhead C1 for the pay review body.

£288,000 from RfR1 to the Department for Education and Skills comprising £201,000 from subhead I1 for the moorfoot building agreement; £54,000 from subhead H3 for the community championship programme and £33,000 from subhead B1 for the street crime action team.

£610,000 from RfR 2 subhead A2 to the Department for Education and Skills for transferring education responsibility from HMPS.

£642,000 to the National Assembly of Wales comprising £250,000 from RfR1 subhead D3 for throughcare and aftercare; £43,000 from RfR1 subhead B1 for business crime reduction advisors and £349,000 from RfR2 subhead A1 for additional prison health care costs.

£55,000 from RfR1 subhead H3 to the Ministry of Defence for volunteering opportunities, a match funded project.

£25,000 from RfR1 subhead C3 to the Asset Recovery Agency for the Recovered Assets Incentive Fund;

Machinery of Government changes totalling £14,000 comprising:

Additional £14,000 provision for Family policy, to be transferred from RfR1 subhead H1 "Community policy" to the Department for Education and Skills;

The change in the capital element of DEL arises from:

Revised IND capital budget addition of £46,000,000;

EYF totalling £11,295,000 comprising:

£10,000,000 to RfR2 subhead A7 for building prison capacity; £654,000 capital expenditure to RfR1 subhead C7 and £641,000 to RfR1 subhead L7 for work relating to the Hoclas project;

Transfers to other government departments totalling £30,272,000. This comprises:

£22,324,000 from RfR1 to the Department for Constitutional Affairs comprising £15,800,000 from subhead E7 to meet the cost of the overall delivery plan for 2003–04; £5,000,000 from subhead E7 for the crown courts; £1,000,000 from the Departmental unallocated provision for criminal justice IT work; £264,000 from subhead E7 to support improvements in inputting Crown Court decisions into the Police National Computer and £260,000 from subhead E7 for IT interface work. £5,500,000 from RfR1 subhead I7 to the Ministry of Defence in respect of RAF Newton.

£2,047,000 from RfR1 to the Foreign and Commonwealth Office comprising £1,013,000 from subhead I7 for the new visa regime in Kingston, Jamaica; £912,000 from subhead I7 for the European Union Residence Permit and £122,000 from subhead I7 for capital expenditure on biometrics in East Africa.

£401,000 from RfR1 subhead C7 to Customs and Excise for costs associated with Project Cyclamen.

## PRIME MINISTER

### Supplementary Estimates

**The Prime Minister (Mr. Tony Blair):** Subject to Parliamentary approval of any necessary Supplementary Estimate, the Security and Intelligence Agencies' DEL will be increased by £27,620,000 from £1,497,446,000 to £1,525,066,000 and the administration costs limits will be increased by £4,295,000 from £566,324,000 to £570,619,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 13,819,000 | 1,119,106,000 | 11,750,000 | 1,130,856,000 |
| Capital | 14,402,000 | 530,411,000 | 5,000,000 | 535,411,000 |
| Depreciation* | 601,000 | 141,201,000 | - | 141,201,000 |
| Total | 27,620,000 | 1,508,316,000 | 16,750,000 | 1,525,066,000 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

1. the take up of End of Year Flexibility of £9,198,000.

2. a transfer of £7,016,000 from the Foreign and Commonwealth Office to reflect funding for Conflict prevention.

3. a transfer of £85,000 from the Foreign and Commonwealth Office to fund planned programme activity.

4. a transfer of £1,050,000 from the Home Office.

5. a transfer of £120,000 from the Ministry of Defence for the payment of electricity.

6. a switch of £2,000,000 to Capital.

7. a decrease of £735,000 Resource due to an increase of £735,000 in the forecast Profit on Sale of an asset. This is a non-cash item.

8. a decrease of £915,000 in other non-cash items due to new forecasts.

The change in the capital element of the DEL arises from:

1. the take up of End of Year Flexibility of £ 11,531,000.

2. a switch of £2,000,000 from Resource.

3. a transfer of £861,000 to the Cabinet Office.

4. An increase of £1,732,000 due to the virement of £735,000 from Resource (non-cash) to Capital (cash) from the profit of a sale of an asset and £997,000 to correct the figures given in the Winter Supplementary.

## CABINET OFFICE

### Supplementary Estimates

**The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander):** Subject to Parliamentary approval of any necessary supplementary estimate, the Cabinet Office DEL will be increased by £2,043,000 from £311,289,000 to £313,332,000 and the gross administration costs limits will be increased by £2,644,000 from £223,733,000 to £226,377,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 1,182 | 277,297 | 0 | 277,297 |
| Capital | 861 | 86,189 | 0 | 86,189 |
| Depreciation* | 0 | -50,154 | 0 | -50,154 |
| Total | 2,043 | 313,332 | 0 | 277,297 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from additions from the DEL reserve of £3,500,000 for human resources restructuring, draw down of £140,000 end year flexibility on Invest to Save funding provided to the Centre for Management and Policy Studies and net transfers to other government departments of £2,458,000.

The change in the capital element of the DEL arises from transfers from other departments of £861,000.

## SOLICITOR-GENERAL

### Supplementary Estimates

**The Solicitor-General (Ms Harriet Harman):** Subject to Parliamentary approval of any necessary supplementary estimate, the Attorney-General's DEL will be increased by £19,955,000 from £568,904,000 to £588,859,000 and the administration costs limits will be increased by £9,683,000 from £429,591,000 to £439,274,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *New DEL Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 19,575,000 | 573,179,000 | 0 | 573,179,000 |
| Capital | 380,000 | 15,680,000 | 0 | 15,680,000 |
| Depreciation* | 0 | -4,573,000 | 0 | -4,573,000 |
| Total | 19,955,000 | 584,286,000 | 0 | 584,286,000 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The Crown Prosecution Service's element of the Attorney-General's DEL will be increased by £16,574,000 from £511,661,000 to £528,235,000 and the Administration Costs Limit will be increased by £7,683,000 from £401,574,000 to £409,257,000.

The change in the resource element of the DEL arises from:

Administration costs changes resulting from the take up of DEL End-Year Flexibility of £5,000,000, as set out in the Public Expenditure Outturn White Paper (Cm 5884); a transfer of £543,000 from the Department of Constitutional Affairs to support Effective Trial Management pilots; a transfer of £500,000 from the Home Office to support Local Criminal Boards in increasing local confidence in the Criminal Justice System; a transfer of £40,000 from the Department of Constitutional Affairs to fund Local Criminal Justice Board support; and an internal transfer of £1,600,000 from programme expenditure to administration costs to support the increased deployment of Higher Court Advocates in the Crown Court; and

Programme expenditure changes in respect of the take-up of DEL End-Year Flexibility of £6,792,000, as set out in the Public Expenditure Outturn White Paper (Cm 5884); a transfer of £3,300,000 from the Home Office to support the joint delivery of government targets for recovering Proceeds of Crime; a transfer of £210,000 from the Home Office Recovered Assets Incentivisation Fund to fund a Scoping Study and Framework Agreement for the Appointment of Receivers; a transfer of £189,000 from the Home Office to support joint working and improve effective use of enforcement measures for Anti-Social Behaviour; a internal transfer of £1,600,000 programme expenditure to administration costs to support the increased deployment Higher Court Advocates in the Crown Court; and a transfer of £7,000,000 from non-voted Departmental Unallocated Provision to voted programme expenditure in resource DEL.

The Serious Fraud Office's DEL will be increased by £3,000,000 from £28,850,000 to £31,850,000 and the Administration Costs Limit will be increased by £2,000,000 from £18,475,000 to £20,475,000.

The change in the resource element of the DEL arises from a part claim on the DEL Reserve of £1,000,000 in respect of additional costs relating to two blockbuster cases; the take-up of End-Year Flexibility of £1,000,000 administration costs and £1,000,000 resource programme costs.

The change in the capital element of the DEL arises from the take-up of end year flexibility of £380,000 capital relating to the increase in IT expenditure.

The Treasury Solicitor's Departmental DEL will be increased by £1,000 from £13,093,000 to £13,094,000. A £1,000 token increase arises from additional demand for legal services provided to other Government Departments.

There is no increase in the Treasury Solicitors Administration Cost Limit and no claims on the DEL Re serve or End-Year Flexibility have been made.

## DEFENCE

### Nimrod MRA4

**The Secretary of State for Defence (Mr. Geoffrey Hoon):** We announced, in February last year, that agreement had been reached with BAE SYSTEMS on the way ahead for the Nimrod MRA4 programme and undertook to report significant developments to the House. We are pleased to announce that, following detailed negotiations, a contract amendment, formally embodying the Agreement, was signed on 23 February 2004.

Signature of the contract amendment demonstrates the positive relationship between the MOD and the Company and the joint commitment to deliver this important military capability within the terms of our agreement. This contract amendment, however, although important, is not an end in itself. The work over the past year in putting the Agreement into effect has set the programme on a much sounder footing for the future. Risks and challenges remain however, and we are working hard, with the Company, to assure the long-term stability of the programme.

## TRADE AND INDUSTRY

### Supplementary Estimates

**The Secretary of State for Trade and Industry (Ms Patricia Hewitt):** Subject to Parliamentary approval of any necessary supplementary estimate, the Office of Gas and Electricity Markets DEL will be decreased by £799,000 from £1,531,000 to £732,000 and the administration costs limits will remain unchanged at

£1,398,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 1,000 | 682,000 | - | 682,000 |
| Capital | - | 50,000 | - | 50,000 |
| | 800,000 | | | |
| Depreciation* | - | - | - | - |
| | | 1,300,000 | | 1,300,000 |
| Total | - | - | - | 568,000 |
| | 799,000 | 568,000 | | |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from additional programme costs of £1,201,000 in respect of higher than expected costs of energywatch. There is no change in the administration cost due to a compensating increase in appropriations in aid of £1,200,000.

The change in the capital element of the DEL arises from higher than expected receipts from the sale of capital assets.

**The Secretary of State for Trade and Industry (Ms Patricia Hewitt):** Subject to Parliamentary approval of the necessary Supplementary Estimate, the Department of Trade & Industry's DEL will be increased by £280,472,000 from £5,297,355,000 to £5,577,827,000 and the administration costs limits will be increased by £2,998,000 from £431,695,000 to £434,693,000.

Within the DEL change, the impact on resources and capital is as set out in the following table:

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource (£000) | 224,012 | 1,072,089 | 3,870,623 | 4,942,712 |
| Capital (£000) | 56,460 | 310,301 | 324,814 | 635,115 |
| Depreciation* (£000) | 0 | - 20,841 | - 93,159 | - 114,000 |
| Total (£000) | 280,472 | 1,361,549 | 4,102,278 | 5,463,827 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

*RfR1*

i) a transfer of £11,200,000 from the Ministry of Defence in support of dual-use Aero Engine technology programmes;

ii) a transfer of £67,000 to the Foreign and Commonwealth Office in respect of the subscription to UNCLOS;

iii) a transfer of £385,000 from the Home Office in respect of the Prison Services Pay Review Body;

iv) a transfer from the Ministry of Defence of £43,000 in respect of the Armed Forces Pay Review Body and £16,000 in respect of the Senior Salaries Review Body;

v) a transfer of £58,000 from the Northern Ireland Office in respect of the Prison Services Pay Review Body;

vi) a transfer of £15,000 from the Cabinet Office in respect of the Senior Salaries Pay Review Body;

vii) a transfer of £79,000 from the Department for Education and Skills in respect of the School Teachers Pay Review Body;

viii) a transfer of £49,000 from the Department for Transport in respect of the FP6 Sustainable Surface Transport programme;

ix) a transfer of £195,000 to the Department for Transport for the Low CVP Permanent Secretariat;

x) reclassification of £24,000,000 in respect of OFCOM establishment costs from resource to capital expenditure;

xi) a virement of £9,786,000 from voted Cost of Capital to non-voted Cost of Capital in respect of Companies House and the Patent Office;

xii) transfer of £1,000,000 to the Department of Health in respect of Genetic Knowledge Parks;

xiii) utilisation of £12,200,000 from the unused balance of the Department's End-Year Flexibility entitlement in respect of Nuclear Support for the former Soviet Union;

(xiv) utilisation of £3,862,000 from the unused balance of the Department's End-Year Flexibility entitlement in respect of the Rover Task Force;

(xv) utilisation of £19,541,000 from the unused balance of the Department's End-Year Flexibility entitlement in respect of Innovation and Space;

(xvi) utilisation of £12,000,000 from the unused balance of the Department's End-Year Flexibility entitlement in respect of the Modernisation of the Post Office Network;

(xvii) utilisation of £50,000 from the Capital Modernisation Fund in respect of the Evidence Based Policy Fund study of the UK's e-business performance;

(xviii) an increase of £1,498,000 in the non-voted expenditure of Postwatch and an equivalent increase in voted receipts;

(xix) a classification change of £17,683,000 from capital to current expenditure in respect of the National Measurement System PFI deal;

(xx) an increase of £63,893,000 in the non-voted expenditure of the Regional Development Agencies and an equivalent increase in voted receipts;

(xxi) utilisation of £4,500,000 of the unused balance of the Department's End-Year Flexibility entitlement in respect of non-voted expenditure of the United Kingdom Atomic Energy Authority;

(xxii) utilisation of £15,260,000 of the unused balance of the Department's End-Year Flexibility entitlement for non-voted expenditure of the Competition Commission.

*RfR2*

i) utilisation of £2,930,000 from the unused balance of the Department's End-Year Flexibility entitlement for non-voted expenditure of the Biotechnology and Biological Sciences Research Council;

ii) utilisation of £461,000 from the unused balance of the Department's End-Year Flexibility entitlement for non-voted expenditure of the Medical Research Council;

iii) utilisation of £1,541,000 from the unused balance of the Department's End-Year Flexibility entitlement for non-voted expenditure of the Council for the Central Laboratory of the Research Councils;

iv) utilisation of £9,456,000 for resource and £239,000 for capital grants from the unused balance of the Department's End-Year Flexibility entitlement for non-voted expenditure of the Natural Environment Research Council;

v) utilisation of £22,569,000 from the unused balance of the Department's End-Year Flexibility entitlement for non-voted expenditure of the Particle Physics and Astronomy Research Council;

(vi) a transfer of £200,000 from the Department for Education and Skills in respect of Women's Resource Centres;

vii) utilisation of £24,012,000 from the unused balance of the Department's End-Year Flexibility entitlement for the Higher Education Innovation Fund.

**Office of Deputy Prime Minister Estimate**

i) utilisation of £67,427,000 from the unused balance of the Department's End-Year Flexibility entitlement for European Regional Development Fund expenditure borne of the Office of the Deputy Prime Minister's Estimate;

ii) utilisation of £22,000,000 from the unused balance of the Department of Work and Pension's End-Year Flexibility entitlement under the PES pool arrangement for European Development Fund expenditure borne on the Office of the Deputy Prime Minister's Estimate.

**Also within the change to resource DEL, the changes to administration costs limit are:**

*RfR1*

i) a transfer of £32,000 from the Home Office in respect of the Prison Services Pay Review body;

ii) a transfer of £17,000 from the Department of Constitutional Affairs in respect of the Senior Salaries Pay Review body;

iii) a transfer of £105,000 from the Department of Environment Food and Rural Affairs in respect of the Farm Business Advice Service;

iv) a transfer of £300,000 from the Foreign and Commonwealth Office in respect of UK Trade and Investment E-business;

v) implementation of an agreed classification change of £824,000 from capital to administration in respect of UK Trade and Investment E-business;

vi) utilisation of £290,000 of Invest to Save funding in respect of Claims Handling in the Redundancy Payments Service;

vii) implementation of an agreed virement from programme to administration of £1,500,000 in respect of the Liabilities Management Authority.

*RfR2*

i) a transfer of £70,000 to the Department of Health in respect of the Human Genetics Commission.

The change in the capital element of the DEL arises from:

*RfR1*

i) utilisation of £14,100,000 of capital from the unused balance of the Department's End-Year Flexibility entitlement for non-voted expenditure of the United Kingdom Atomic Energy Authority;

ii) an increase of £21,995,000 in the non-voted capital expenditure of the Regional Development Agencies and an equivalent increase in voted receipts;

iii) reclassification of £24,000,000 in respect of OFCOM establishment costs from resource to capital expenditure;

iv) utilisation of £20,000,000 from the unused balance of the Department's End-Year Flexibility entitlement for research establishment capital in respect of the National Measurement System and the Teddington PFI deal;

v) implementation of a classification change of £824,000 from capital to current expenditure in respect of E-business;

vi) a transfer of £816,000 to the Foreign and Commonwealth Office in respect of E-business;

vii) implementation of an agreed virement of £17,683,000 from capital to resource in respect of the National Measurement System Private Finance Initiative deal, and a classification change of £17,683,000 to reflect the on-balance sheet impact of the National Physical Laboratory virement.

## CONSTITUTIONAL AFFAIRS

### Supplementary Estimates

**The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie):** Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department for Constitutional Affairs, Northern Ireland Court Service and National Archives: Public Records Office and Historical Manuscripts Commission Departmental Expenditure Limit (DEL) will be increased by £213,545,000 from £3,129,794,000 to £3,343,339,000 and the administration costs limit will be increased by £96,333,000 from £832,843,000 to £929,176,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

| | Change | New DEL Voted | New DEL Non-voted | Total |
|---|---|---|---|---|
| Resource | 166,106,000 | 1,128,447,000 | 2,112,305,000 | 3,240,752,000 |
| Capital | 49,737,000 | 167,539,000 | 11,107,000 | 178,646,000 |
| Depreciation* | -2,298,000 | -74,592,000 | -1,467,000 | -76,059,000 |
| Total | 213,545,000 | 1,221,394,000 | 2,121,945,000 | 3,343,339,000 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the Department of Constitutional Affairs DEL arises from:

**Request for Resources 1**

A transfer of £2,000 resources to the Home Office in relation to costs for Contribution to Group of States Against Corruption (GRECO); a transfer of £24,000 resources to the Home Office in relation to Strategic Grant Funding of Mediation UK; a transfer of £7,460,000 admin costs to the Home Office in relation to Criminal Justice Information Technology (CJIT) transfers; a transfer of £500,000 resources from the Home Office in relation to Criminal Justice Service Confidence Unit (CJSCU) funding for local Boards; a transfer of £60,000 resources from the Home Office in relation to Victims & Witnesses Survey; a transfer of £63,000 administration costs from Home Office in relation to staff costs for prison adjudicators; a transfer of £775,000 administration costs from the Department for Work and Pensions in relation to the State Pension Credit Act 2002; a transfer of £425,000 administration costs from the Office of the Deputy Prime Minister in relation to Machinery of Government changes for devolution; a transfer of £7,000 administration costs from the HM Customs in relation to Funding for Civil Penalties & for Sections 17/18 FA 2003 Missing Traders Intra-Community (MTIC); a transfer of £17,000 administration costs to the Department of Trade & Industry being contribution to the apportionment of the fees for Senior Salaries Review Body (SSRB) members; an increase of £24,000 administration costs in relation to receipts from the Office for National Statistics; a transfer of £543,000 administration costs to the Crown Prosecution Service in relation to costs for Effective Trial Management Programme (ETMP) Officers; a transfer of £40,000 administration costs to the Crown Prosecution service in relation to Local Criminal Justice Board (LCJB) Funding Suffolk; a transfer of £12,300,000 resources to the Northern Ireland Court Service in relation to funding the Legal Services Commission in Northern Ireland; a transfer of £87,000,000 administration costs from HM Treasury in relation to the Libra Reserve claim; a transfer of £43,300,000 administration costs, £60,700,000 resource costs from HM Treasury in relation to the Single Asylum Fund; an increase of £2,667,000 resources in relation to Machinery of Government; a reclassification of £5,572,000 from admin resource to programme resource in relation to CUT transfers (Crown); a reclassification of £115,000 from admin resource to programme resource in relation to an Invest to Save (ISB) Award; a reclassification of £23,598,000 resources from admin resource to capital DEL;

**Request for Resources 3**

£21,000 in relation to timing adjustments for the Wales Office.

*The following transfers do not form part of the Department of Constitutional Affairs DEL, but impact on the separate DEL in relation to the spending of the National Assembly for Wales:*

The take up of end year flexibility of £180,000,000 for the National Assembly for Wales;

Net transfers from Other Government Departments to the National Assembly for Wales of £2,311,000 as follows:

£200,000 from the Department of Works and Pensions for the Adult Learning Inspectorate; £43,000 from the Home Office for Wales Business Crime Reduction; £50,000 from the Northern Ireland Office for Out of Area Treatments; £20,000 from the Department of Health for a Prison Health Co-ordinator; £349,000 from the Home Office for Prison Service Health Care; £250,000 from the Home Office for Through-care and Aftercare; £34,000 from the Home Office for Golden Jubilee Awards; £1,158,000 from the Department of Works and Pensions for Pension Credit Passports; £250,000 from the Forestry Commission, which is the final settlement associated with the transfer of responsibility for forestry to the Assembly; £43,000 to the Scotland Office for Out of Area Treatments.

The change in the resource element of the Northern Ireland Court Service DEL arises from:

a Public Expenditure Survey (PES) transfer from the Department for Constitutional Affairs of £12,300,000 in respect of the funding of publicly funded legal services in Northern Ireland and the virement of £185,000 from capital to meet a corresponding increase in "other current" expenditure.

The change of £2,063,000 in the resource element of the National Archives DEL arises from the funding of electronic service delivery developments, which relate to the Government's 2005 target.

The change in the capital element of the Department of Constitutional Affairs DEL arises from:

**Request for Resources 1**

a transfer of £22,324,000 capital from the Home Office in relation to CUT transfers; a transfer of £4,000,000 capital from HM Treasury in relation to the Single Asylum Fund; a reclassification of £23,598,000 from admin resources to capital DEL.

The change in the capital element of the Northern Ireland Court Service DEL arises from:

the virement of £185,000 from capital to "other current" to meet a corresponding increase in "other current" expenditure.

The increase in non-voted expenditure arises from the resource consumption requirements of the Northern Ireland Legal Services Commission, a Non Departmental Public Body, which was established on 1 November 2003.

## Mental Incapacity Bill

**The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy):** The Government has today published its response to the Joint Committee on the Draft Mental Incapacity Bill report which was published on 17 November 2003 (HL189–1 and HC 1083–1). Copies of the response have been placed in the Libraries of both Houses (Command Paper 6121).

The Government would like to thank the Committee for publishing such a comprehensive report in a short period of time, and in obtaining such a wide range of evidence on the Bill. We are pleased that the Committee

agrees this new statutory framework is needed and that it endorses the principles and general direction of the draft Bill.

The Committee suggested that the Bill, being about how to maximise mental capacity, should be renamed the Mental Capacity Bill and we agree with this recommendation.

The Bill will reform the law in order to improve and clarify the decision making process for those aged 16 and over who are unable to make decisions for themselves. It will also offer, to people who have capacity, the choice to decide how they are cared for in the future by introducing new ways to plan ahead for a time when they might lose capacity.

Over 2 million adults in England and Wales are currently affected by a lack of capacity. Many more care for someone who may need help with decision making. With increasing ageing most of us will face the risk of losing mental capacity at some point in our lives. The Bill therefore has the potential to help a high proportion of the population.

The Department of Constitutional Affairs is working closely with the Department of Health on a revised Bill. We plan to introduce the revised Bill later in this Parliamentary session. We will also have a draft outline of the codes of practice for Parliament to see at Committee stage.

## TREASURY

### Supplementary Estimates

**The Financial Secretary to the Treasury (Ruth Kelly):** Subject to Parliamentary approval of any necessary Supplementary Estimate the Government Actuary's Department DEL will be increased by £642,000 from £983,000 to £1,625,000 and the administration costs limit will be increased by £838,000 from £2,145,000 to £2,983,000. Within the DEL change, the impact on resources and capital are set out in the following table:

| | *Change* | Voted | New DEL Non-voted | Total |
|---|---|---|---|---|
| Resource | £642,000 | £1,625,000 | - | £1,625,000 |
| Capital | 0 | £1,538.000 | - | £1,538,000 |
| Depreciation* | £196,000 | -£180,000 | - | -£180,000 |
| Total | £838,000 | £2,983,000 | - | £2,983,000 |

**Depreciation which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets and would lead to double counting.*

The change in the resource element of the DEL arises from:

(i) an increase of £477,000 to reflect the benefit it has received on a reduced rent currently in the first full five years of tenancy by spreading the value of the rent reduction over the 20 years of the lease,

(ii) a claim on the DEL reserve of £165,000 to cover a sub-letting void for the property Finlaison House,

(iii) a reduction in expenditure and associated receipts to reflect changes to GAD's 2003–04 recruitment plans.

There is no change to the capital element of the DEL.

### Inland Revenue

**The Paymaster General (Dawn Primarolo):** Subject to Parliamentary approval of the necessary Supplementary Estimate, the Inland Revenue net administration costs limit will be increased by £4,638,000 from £3,034,649,000 to £3,039,287,000. Within the DEL change, the impact on resources and capital is as set out in the following table:

*£000's*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 4,638 | 2,684,502 | 340,440 | 3,024,942 |
| Capital | -4,638 | 202,743 | - | 202,743 |
| Depreciation* | - | -158,564 | - | -158,564 |
| Total | - | 2,693,681 | 340,440 | 3,069,121 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource and capital element of the DEL arises from the transfer of £4,638,000 from capital to resource.

**The Financial Secretary to the Treasury (Ruth Kelly):** Subject to Parliamentary approval of any necessary supplementary estimate, National Savings and Investments DEL will be increased by £10,000,000 from £170,154,000 to £180,154,000 and the administration costs limits will be increased by £9,500,000 from £172,068,000 to £181,568,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | *Change* | *Voted* | *New DEL Non-voted* | *Total* |
|---|---|---|---|---|
| Resource | 9,500 | 172,068 | | 181,568 |
| Capital | 0 | 1,300 | | 1,300 |
| Depreciation* | 0 | -2,714 | | -2,714 |
| Total | 9,500 | 170,654 | | 180,154 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from end year flexibility being drawn down to support expenditure on major project commitments. Such projects include the implementation of the new savings product and continued research on customer needs. Other projects include compliance with the Banking Code/Customer Code, Electronic Data Records Management, and others starting this financial year, which will carry forward the modernisation process of National Savings and Investments.

There is no change in the capital element of the DEL.

**The Financial Secretary to the Treasury (Ruth Kelly):** Subject to Parliamentary approval of any necessary Supplementary Estimate, HM Treasury DEL will be increased by £9,067,000 from £209,836,000 to £218,903,000 and the administration costs limits will be increased by £6,800,000 from £139,588,000 to

£146,388,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

| | | New DEL | | |
|---|---|---|---|---|
| | *Change* | *Voted* | *Non-voted* | *Total* |
| Resource | 9,067,000 | 187,799,000 | 31,104,000 | 218,903,000 |
| Capital | 0 | 7,668,000 | 0 | 7,668,000 |
| Depreciation* | 0 | -9,055,000 | 0 | -9,055,000 |
| Total | 9,067,000 | 186,412,000 | 31,104,000 | 217,516,000 |

**Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.*

The change in the resource element of the DEL arises from:

an increase in total Treasury administrative costs of £6,800,000 resulting from:

a partial draw down of eyf of £6,050,000 for the central Treasury;

a draw down of £250,000 from the Invest to Save Budget (ISB) to administer the ISB;

a partial draw down of eyf of £500,000 for the Debt Management Office (DMO);

an increase in AinA of £2,500,000 from secondments and the Lambert review of business-university collaboration, with matching spend;

an increase in AinA of £2,200,000 from receipts for fees and charges made by the Public Works Loan Board and the Commissioners for the Reduction of the National Debt, with matching spend;

a draw down of £131,000 programme from the Evidence Based Policy Fund to finance three projects on—team based incentives (£64,000), research into benefit savings at the local authority level (£45,000), productivity and public sector performance (£22,000);

an increase in programme AinA of £450,000 from increased revenue for the Office of Paymaster General (OPG), with matching expenditure;

an increase in DMO programme AinA of £350,000 for receipts from recovery of the auction costs of the National Loans Fund, with matching spend;

a partial draw down of programme eyf of £2,136,000 for the Office of Government Commerce (OGC);

a decrease in OGC programme AinA of £1,101,000, with matching reduction in expenditure.

**The Economic Secretary to the Treasury (John Healey):** Subject to Parliamentary approval of any necessary supplementary estimate, the HM Customs and Excise DEL will be increased by £7,046,000, from £1,291,195,000 to £1,298,241,000 and the administration costs limits will be decreased by £2,235,000, from £1,132,722,000 to £1,130,487,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | | New DEL | | |
|---|---|---|---|---|
| | *Change* | *Voted* | *Non-voted* | *Total* |
| Resource | 7,461,000 | 1,215,820,000 | - | 1,215,820,000 |
| Capital | -415,000 | 81,421,000 | 1,000,000 | 82,421,000 |
| Depreciation* | 6,852,000 | -46,128,000 | - | -46,128,000 |
| Total | 13,898,000 | 1,251,113,000 | 1,000,000 | 1,252,113,000 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

administration costs changes resulting from a claim on the reserve of £5,000,000 to allow for the extension of the VAT strategy programme; a transfer of £805,000 to the Foreign and Commonwealth Office; virement of £6,430,000 from administration costs to programme expenditure; and

programme expenditure changes in respect of a transfer of £1,570,000 from the Home Office to cover additional costs of anti-terrorism work; a transfer of £1,003,000 from the Home Office from the Recovered Assets Incentivisation Fund to cover the costs of a new litigation team; a transfer of £840,000 from the Home Office from the Recovered Assets Incentivisation Fund to cover the costs of new operational asset recovery teams; a transfer of £140,000 to the Home Office in respect of two special projects and Electro Mechanical services; a transfer of £7,000 to the Department for Constitutional Affairs to meet additional penalty costs.

The change in the capital element of the DEL arises from:

capital expenditure changes in respect of a transfer of £401,000 from the Home Office to cover additional costs of anti-terrorism work; and a transfer of £816,000 to the Foreign and Commonwealth Office.

As a result of the specified resource DEL changes mentioned in the above paragraph, the administration costs limit has decreased by £2,235,000 from £1,132,722,000 to £1,130,487,000.

**The Financial Secretary to the Treasury (Ruth Kelly):** Subject to Parliamentary approval of any necessary supplementary estimate, the Office for National Statistics DEL will be increased by £1,845,000 from £145,514,000 to £147,359,000 and the administration costs limit will be increased by £2,295,000 from £139,823,000 to £142,118,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

*£'000s*

| | | New DEL | | |
|---|---|---|---|---|
| | *Change* | *Voted* | *Non-voted* | *Total* |
| Resource | 1,845 | 142,026 | - | 142,026 |
| Capital | 0 | 19,170 | - | 19,170 |
| Depreciation* | - | -13,837 | - | -13,837 |
| Total | 1,845 | 147,359 | - | 147,359 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from the draw down of £2,750,000 administration costs end year flexibility as set out in the Public Expenditure Outturn White Paper (Cm 5884). This is partially offset

by a transfer of £455,000 in total to other government departments in relation to work to develop the Neighbourhood Statistics programme. The transfers comprise £381,000 to the Office of the Deputy Prime Minister, £24,000 to the Department for Constitutional Affairs and £50,000 to the Home Office. The change also takes account of Treasury's revised budgeting and accounting treatment for income from competitively, or commercially, let research contracts funded from the EU Budget. The effect is to reduce the "Other Current" Budget, which forms part of Resource DEL, by £450,000 to £550,000. The Administration costs limit will be increased by £2,295,000 from £139,823,000 to £142,118,000.

# Written Ministerial Statements

*Wednesday 25 February 2004*

## HOME OFFICE

### Anti-terrorism, Crime and Security Act

**The Secretary of State for the Home Department (Mr. David Blunkett):** In advance of debate in the House later today, I am laying before Parliament, and making publicly available, a discussion paper "Counter-Terrorism Powers: Reconciling Security and Liberty in an Open Society". This paper also contains the Government's response to the Report of Lord Newton and his Committee into the operation of the ATCSA and in particular Part IV of that Act which concerns the detention pending deportation of foreign nationals suspected of terrorism. Alongside that as further background for the debate, I am also publishing the following update on resilience and civil contingency matters.

Update on resilience and civil contingencies matters:

> In March last year I placed before the House a written statement, *Official Report*, Vol. 400, Part 354, column 72WS, setting out improvements in contingency planning that had taken place and announcing the next steps in improving our resilience, including progress in delivering Civil Contingencies legislation. Almost 12 months on, we have made considerable progress and have in place plans to cover a wide range of both civil emergencies and terrorist attacks. Such plans include the purchase of equipment, the identification and training of personnel, the preparation of policy guidance and crisis management arrangements, liaison with other nations, and exercises. There has been excellent co-operation across Government and the wider public service and I would like to place on record my thanks, particular to local authorities and the emergency services for their continuing hard work.

Review of progress at time of last update:

> Since the outbreak of the foot and mouth disease and the September 11 atrocity, we have been planning for larger-scale challenges and at the time of my last update to the House, substantial progress had already been made. A horizon scanning capability had been established within the Cabinet Office to anticipate and prepare for the potential impact of any large-scale incident, and this complemented the work of the Joint Intelligence Committee in providing assessments on domestic and overseas terrorist threats. Guidance had been published on decontamination of people following a Chemical, Biological, Radiological or Nuclear (CBRN) incident for use by the emergency services and other responders, and a UK national stockpile of countermeasures had been established before the end of 2001 including antibiotics, antidotes, and respiratory support equipment in strategic locations around the UK.

In London, the London Resilience Forum had been established to drive forward the resilience agenda bringing together representatives from the emergency services, local government, military, transport, utilities, health sector and business. Substantial progress had been made, and plans for a range of contingencies now exist including new pan-London command and control arrangements and a well-developed programme of exercises.

Update of progress in the last 12 months to the present:

*Organisation:*

The programme of work to enhance the key generic resilience capabilities, co-ordinated within the civil contingencies secretariat in the Cabinet Office, remains the core framework through which the Government are seeking to build resilience across all parts of the United Kingdom. This centrally led programme constitutes an efficient and effective way of harnessing the expertise and resources that already exist within Government without duplicating or creating new structures. The programme has expanded in the past twelve months and now comprises seventeen separate workstreams.

Central response
Regional response
Local response
Essential services—DoH
Essential services—DEFRA
Essential services—HMT
Essential services—DFT
Essential services—DTI
CBRN Resilience
Assessment of risk and consequence
Mass casualties
Treatment of infectious diseases (human)
Treatment of infectious diseases (animal & plant)
Mass evacuation
Warning and informing
Mass fatalities
Site clearance

Work is progressing well on all fronts although inevitably some areas are more advanced than others not least because of the necessity to keep our plans under constant review to enable us to respond effectively to new threats and challenges. I and ministerial colleagues receive regular updates and reports on the progress of these workstreams and ensure that attention is focused where most required. We have also worked closely with the Devolved Administrations and clear responsibilities have been established so that the Devolved Administrations are able to undertake their own resilience preparations whilst ensuring that UK—wide resilience can be ensured.

*Preparedness of the Emergency Services:*

Under the New Dimension programme, 4,400 personal protective suits have been delivered, enabling fire fighters to decontaminate safely and effect rescues. Purpose-built decontamination vehicles are now coming into operation around the country and fire fighters are being trained in their use. The rolling training programme for police has seen over 5,000 officers trained and equipped in CBRN response and we are on target to have increased this to 5 per cent. of the police service by June.

Every acute hospital and ambulance service now has a stock of personal protective suits, and is equipped with mobile decontamination units, to allow safe working and decontamination of patients. Some 3,200 protective

suits were provided for hospitals and 4,300 for the ambulance service. Of the 360 mobile decontamination units procured, 200 have gone to hospitals and 160 to the ambulance service. These units offer shelter, power and water management systems to NHS personnel who are decontaminating patients. In addition, a central stockpile of protective suits has been established and agreement reached with the Fire Service for support in the event of a need for mass decontamination.

Since late 2002, senior ambulance staff have been participating in Joint Emergency Service CBRN Incident Commander Courses. All ambulance services in the UK will have received this training by April 2004. A cadre of instructors has also been trained to enable the local training of decontamination teams. Courses are being held regionally and about 180 trainers have successfully completed it to date. By early summer this figure will have increased to around 300.

Considerable investment has been made across Government in providing equipment for the emergency services and will continue to be made in areas such as developing the urban search and rescue capability within the Fire Service, and improving first responders' ability to detect and monitor CBRN substances. The Office of Government Commerce now has a dedicated CBRN procurement team in place to ensure economies of scale, assist with equipment interoperability issues, and streamline procedures for our partners and contractors.

*Strengthening Regional Resilience:*

One of the capabilities added to the programme since last March focuses on developing new regional resilience arrangements to co-ordinate both planning for and responding to disruptive events. Since April 2003, Regional Resilience Teams have been operational in each of the Government Offices in the nine English regions. These teams have taken the lead in managing key relationships with local responders, communications between regional partners, and between the regions and government. Regional Resilience Forums, comprising representatives from key partners and agencies, now meet regularly in all the English regions.

*Health:*

The Department of Health, together with the NHS and other key stakeholders, has developed a national strategy for major incident planning at an operational level, with a supporting framework for the NHS. The document "Handling Major Incidents—An Operational Doctrine" was published on 7 January 2004 and builds on current guidance by setting out general principles to help the NHS develop its existing emergency plans to respond to new potential threats. Revised smallpox guidelines were published in December 03 and can be found on the Department of Health website: http://www.doh.gsi.gov.uk/smallpox/keydocs.htm

*Civil Contingencies Legislation:*

In January this year we introduced the Civil Contingencies Bill into Parliament. The Bill, and the accompanying non-legislative measures, will deliver a single framework for civil protection in the UK to meet the disruptive challenges of the 21st century. The Bill is separated into two substantive parts: local arrangements for civil protection (Part 1) and emergency powers (Part 2). Both parts of the Bill replace existing outdated legislation, notably the Emergency Powers Act 1920 and the Civil Defence Act 1948. The Bill has now completed its report stage.

Key stakeholders have been involved in the policy development process, including the Local Government Association, the Emergency Planning Society, the Association of Chief Police Officers, the Chief and Assistant Chief Fire Officers' Association and the Ambulance Service Association, They have played an important role in helping to shape the legislative proposals.

A major public consultation of the Bill's proposals was carried out last summer. Around one half of local authorities and emergency services responded. The consultation exercise was supported by events held in each of the English regions and the Devolved Administrations, attended by over 1,000 civil protection practitioners. This was supplemented by attendance at national conferences and local events. The Government continue to consult widely as the Bill passes through Parliament. Regular bulletins on progress are sent to all civil protection professionals and a programme of outreach visits is eliciting views directly from individual local areas. The feedback has been very positive.

*Civil Contingencies Reaction Forces:*

Civil Contingency Reaction Forces (CCRFs) achieved full operating capability on target by 31 December. Fourteen CCRFs are now available to support the civil authorities as required providing both general and specialist support. Possible ways in which CCRFs might be used include assistance with evacuation, providing temporary accommodation and feeding facilities, and general logistical support. A programme of exercises between local CCRFs and the emergency services began in 2003 to test working together in an emergency.

*Co-ordinated Exercise Programme:*

Central to our work to develop resilience capabilities is a co-ordinated approach to exercises designed to test our responses to a range of major incidents including natural disasters and accidents. Over the last year we have brought together Government Departments, regional and local authorities, the Devolved Administrations, and agencies, to create a focused cross-government exercise programme. This exercise programme tests the emerging capabilities and highlights areas for further development. Training exercises are also an important part of counter-terrorism, as they ensure we are prepared to respond to any kind of terrorist attack. Three large-scale live counter-terrorist exercises are held each year, involving participants from central Government, police, agencies and the military. In addition, twelve table-top or workshop exercises are held annually, carried out across the UK and involving the police, lead Government Departments, and emergency recovery agencies. The live exercise held at Bank Tube station in September last year was a good example of a multi-agency exercise designed to ensure that plans and procedures we have developed will be effective on the day. UK also took part in an international table-top exercise called Global

Mercury last autumn to test international communications between health agencies in the event of a smallpox outbreak.

The current exercise programme includes the joint UK/US exercise in the Metropolitan Police Service area, mentioned to the House on 3 July. We will continue to carry out a range of exercises throughout the country, in particular, to validate emerging regional plans, and ensure civil emergency and counter-terrorist exercises are utilised to test our capability both to respond to and manage the consequences of a CBRN incident.

*Exercise Counter Balance:*

Under the CBRN Resilience Programme, the Home Office, in conjunction with the Emergency Planning Society, Regional Resilience Teams and Devolved Administrations has continued Exercise Counter Balance, a programme of CBRN training seminars originally run in 2002. The seminars continue to be delivered throughout the UK at local level and feature a combination of presentations, discussion groups and table-top exercises based around the response to a range of CBRN scenarios. The seminars provide the opportunity for local authorities, in particular, to give feedback on the revised CBRN guidance to local authorities published in August 2003. Eight of the twelve planned seminars have been delivered to date with the remainder due by May 2004. Participants have included representatives from Fire and Rescue Services, Government Agencies, Health Services, Local Authorities, the Armed Forces, Police Services, the utilities and the voluntary sector.

*Communications:*

Communication is a vital element in ensuring that we have the ability to respond to a crisis effectively and rapidly. Over the last year we have made considerable efforts to engage with those upon whom we will rely in the event of an incident. This has enabled us to make the best use of expertise not only from within central government but also from other organisations and sectors such as the business community and the voluntary sector. Examples of communication include working with the emergency services to develop the first responder role; engaging with health workers so staff are aware of what is required and trained to respond appropriately; and liaising with key contractors to ensure the necessary capacity and flexibility is available to deliver essential services. During a crisis, the media's ability to deliver factual information and advice will be essential. Thus News Co-ordination Centre facilities have been set up and there is close liaison with the media and press officers over emergency media arrangements both nationally and around the country.

In London, the London Resilience Team hold regular meetings with the business community including senior representatives from umbrella organisations such as the Oxford Street Traders' Association, the British Bankers Association, and London Chamber of Commerce. Last summer, the National Association of Counter Terrorist Security Officers (NACSO), together with London First and the British Continuity Institute, published a booklet and CD-Rom entitled "Expect the Unexpected" providing continuity planning advice for business. This has been distributed to 44, 000 London businesses.

The British public, regrettably, are used to living with the threat of terrorism and have in the past demonstrated commendable resilience and common sense in dealing with it. We are, however, conscious that the new scale of potential attacks on our society pose new challenges. While it is necessary for us to limit the flow of information on our resilience planning for understandable reasons of security, we have made large amounts of information available on our government websites www.ukresilience.info/ and http://www.homeoffice.gov.uk/terrorism. We plan over the next few months to be issuing further advice and guidance for the public.

## HEALTH

### "Securing Good Health for the Whole Population"

**The Secretary of State for Health (Dr. John Reid):** Derek Wanless has today published his report, "Securing Good Health for the Whole Population", which has been commissioned jointly by the Prime Minister, the Chancellor of the Exchequer and me. Copies have been placed in the Library.

The report makes recommendations to the Government on implementing cost-effective approaches to improving population health, prevention and reducing health inequalities, and advises on whether current action is consistent with the fully engaged scenario which was outlined in the first Wanless Report, "Securing Our Future Health: Taking A Long-Term View" (2002).

The Government will address the report through the formal consultation on public health which will be launched next week and through the forthcoming White Paper on public health.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Weapons of Mass Destruction

**The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw):** Over the past year, there have been some significant breakthroughs in countering the proliferation of weapons of mass destruction (WMD). The United Kingdom has worked effectively with the United States in the case of Libya's programmes and in countering AQ Khan's network. We have played a leading role, with France and Germany, on the issue of Iran's nuclear programme. We have enforced UN Security Council Resolutions on Iraq. We have been active on the proliferation security initiative designed to interdict the passage of cargoes intended for use in WMD programmes. We support the six party talks in North Korea. All of this demonstrates effective multilateralism in action.

I would like to set out for the House other steps we are taking and further proposals we will be discussing with our partners to deter, check and roll back WMD programmes in countries of concern, and to prevent WMD equipment and expertise falling into the hands of terrorists.

*Proliferation security initiative*

The proliferation security initiative has developed well since it was launched in May 2003. Some 60 countries have indicated their support for it and their intention to apply its principles. There is more that we can do to extend its possibilities:

we are working in the International Maritime Organisation to secure amendment to the Suppression of Unlawful Acts at Sea Convention, which will make it an internationally recognised offence to transport WMD, their delivery systems and related materials on commercial vessels. It is already an offence under the Chicago Convention of the International Civil Aviation Organisation to transport WMD on civil aircraft.

agreements have been concluded in the past providing for the boarding of vessels which may be carrying drugs. We now plan to negotiate similar agreements with the main commercial flag states allowing for the boarding of vessels which may be carrying cargoes which could be used in WMD programmes. Shipping of the 10 largest commercial flag states covers some 70% of maritime trade. So with a relatively small number of such agreements, a large proportion of the world's shipping would be covered. The options available to the proliferator and rogue supplier would be reduced.

we will consider with our partners whether new penalties should be introduced to deter air or shipping lines from seeking to transport such cargoes. Might the vessels and planes of any companies found to have engaged in such transport be denied landing or port rights around the world? Should we consider an international register of companies and individuals convicted of proliferation offences?

we support President Bush's call to use Interpol and all other means to help law enforcement agencies work against the traffickers.

within the EU, we see a case for Customs experts considering how to tighten regulations and practices, and how better to exchange information in order to prevent the trafficking of WMD.

in the UK, we have begun work on the screening of traffic for the illicit movement of radioactive materials. This will eventually cover all air, sea and Channel Tunnel traffic—passengers, parcels, vehicles, freight and containers.

*Global Partnership*

Eighteen months ago, the Kananaskis G8 Summit established a Global Partnership against the spread of weapons and materials of mass destruction. Under this initiative G8 leaders decided to support specific cooperation projects, initially in Russia, to assist the destruction of chemical weapons, the dismantlement of decommissioned nuclear submarines, the disposition of fissile materials and the employment of former weapons scientists. The United Kingdom announced that it would make up to $750 million available over 10 years for this work. The first report of work undertaken by the UK was published in December.

Since Kananaskis, we have had the Iraq conflict and Libya's decision to dismantle its WMD programmes. Work is under way to develop a programme for the employment of former weapons scientists in Iraq. The UK has offered to help with a similar programme in Libya. We would like to see the Global Partnership expanded so that it is fully global in its geographical extent, and for the number of donor states to be expanded so that the target of $20 billion can become a floor rather than a ceiling.

*The United Nations and Counter Proliferation*

An anomaly in the field of counter proliferation has been the lack of discussion since 1992 of proliferation in an overall sense by the UN Security Council. Following a proposal by President Bush last September, work is now under way on a resolution which will call on states to adopt tough national legislation to criminalise the possession, manufacture or trafficking of WMD, in particular for terrorist purposes; to develop effective export controls where these do not exist; and to maintain effective physical protection of sensitive materials. I hope the Council will pass this soon.

We also believe that the Council should also consider establishing an appropriate follow-up mechanism, perhaps a counter proliferation committee, just as the Council's Counter Terrorism Committee was established in 2001.

*The European Union*

The European Security Strategy, adopted by the European Council in December, highlights the importance of work against WMD. The month before its adoption, the EU agreed that agreements with other countries should include a non-proliferation clause. We are working with our EU partners and the Commission to see this introduced as new agreements arise or existing ones are renewed.

*Non proliferation treaty and International Atomic Energy Agency*

The non proliferation treaty obliges states party to enter into safeguards agreements with the International Atomic Energy Agency to verify that nuclear activities are and remain legitimate. Article IV of the treaty confirms states' rights to develop and use nuclear energy for peaceful purposes.

But states which fail to comply with their safeguards obligations inevitably lose the confidence of the international community. The bargain which is at the heart of the treaty is then called into question. We should consider whether such states should not forfeit the right to develop the nuclear fuel cycle, particularly the enrichment and reprocessing capabilities which are of such proliferation sensitivity. That does not mean that they would be deprived of the possibility of constructing and running civil nuclear power stations. These could still operate with fuel supplied by countries honouring their safeguards obligations. The fuel would be subject to agency monitoring while in the receiving country, and would be returned to the country of supply when spent. This would prevent a seemingly civil programme masking a weapons programme.

Experience in recent years has shown the need for more wide-ranging agency inspections of national nuclear industries. The agency's additional protocol provides the basis for carrying out such inspections. It is important that all members of the international community adopt one. Suppliers of nuclear technology should increasingly see this as a key commitment when they judge export licence applications.

The agency has done well to meet a growing verification workload within the constraints of its budget, but we should not ask it forever to do more

within the same resources. We may need seriously to consider further strengthening of its Safeguards Division.

*Biological and Toxins Weapons Convention*

The Government set out in a Green Paper in April 2002 ideas on how to verify compliance with the Biological and Toxins Weapons Convention. We continue to believe that we need a mechanism, possibly under the authority of the Secretary-General of the United Nations, for investigating instances of alleged use and suspect biological weapons facilities. We will be putting forward proposals to follow this up at the next meeting of states party of the Convention in Geneva in July.

*Conclusion*

Countering proliferation remains as important today as it ever was. The part our intelligence services play in it is vital. We and they can be proud of what we have achieved over the past year. But we cannot let up. There is much work still to do. The proposals I have outlined are designed to assist that.

### Spring Supplementary Estimate

**The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell):** Subject to Parliamentary approval of any necessary supplementary estimate, the Foreign and Commonwealth Office Departmental expenditure limit (DEL) will be increased by £60,035,000 from £1,708,768,000 to £1,768,784,000 and the administration costs limit will be increased by £34,778,000 from £795,600,000 to £830,378,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

| | | *New DEL* | | |
|---|---|---|---|---|
| | *Change* | *Voted* | *Non-voted* | *Total* |
| Resource | 46,596 | 1,524,729 | 173,527 | 1,698,256 |
| Capital | 13,439 | 64,728 | 5,800 | 70,528 |
| Depreciation* | -25,000 | -124,194 | -6,800 | -130,994 |
| Total | 35,035 | 1,465,263 | 172,527 | 1,637,790 |

The change in the resource element of the DEL arises from:

A public expenditure survey (PES) transfer from the Home Office of £2,088,000 for European residence permits.

A PES transfer from the Home Office of £740,000 for biometrics trials in connection with the issue of UK visas.

An increase of £4,171,000 to fund increased contributions to international organisations subscriptions. A decrease of £2,783,000 in respect of an adjustment for overseas price movements.

A PES transfer from the Cabinet Office of £500,000 in respect of Coalition Information Centre (CIC) costs.

A PES transfer to the Department of Trade and Industry (DTI) of £300,000 in respect of the E-business programme.

PES transfers from the DTI and Department for Transport totalling £134,000 (£67,000 each) in respect of the UN Convention on the Law of the Sea (UNCLOS).

An increase of £5,725,000 in respect of increases in providing consular and visa services overseas.

An increase of £27,149,000 in respect of increased Iraq related security costs.

A PES transfer from HM Customs & Excise (HMC&E) of £806,000 and from the Home Office of £1,000,000 and £2,000,000 in respect of the FCO Afghanistan Drugs Plan and an additional £122,000 from the Home Office to continue research techniques for identifying and measuring opium cultivation.

A PES Transfer to the Home Office of £20,000 as a contribution to the Group of States Against Corruption (GRECO).

A PES transfer from the Department for International Development (DFID) of £10,150,000 in respect of the remainder required to fund planned programme activity to the end of the financial year.

Take up of end- year flexibility (EYF) of £18,215,000 from a combination of underspends on the 2002-03 conflict prevention departmental unallocated provision (DUP) and DFID and FCO conflict pool (CP) underspends.

A PES transfer to DFID and the Ministry of Defence (MoD) of £11,000,000 and £2,000,000 respectively for the remainder required to fund planned programme activity to the end of the financial year.

PES transfers to the Security and Intelligence Agencies (SIA) of £7,016,000 and £85,000 to reflect funding revisions for CP.

PES transfers to the MoD of £1,800,000 and £1,200,000 to reflect funding revisions for CP.

The change in the capital element of the DEL arises from:

An increase of £9,000 in respect of an adjustment for overseas price movements.

An increase of £9,751,000 in respect of increased Iraq related security costs.

A PES transfer from the Home Office of £1,013,000 in respect of the setting up of a new visa regime in Kingston.

A PES transfer from the Home Office of £912,000 for European residence permits.

A PES transfer from the Home Office of £122,000 for biometrics trials in connection with the issue of UK visas.

A PES transfer from HMC&E of £816,000 in respect of the FCO Afghanistan Drugs plan.

A PES transfer from the DTI of £816,000 in respect of the E-business programme.

## TRADE AND INDUSTRY

### Directors' Remuneration, Contracts, Performance and Severance

**The Secretary of State for Trade and Industry (Ms Patricia Hewitt):** My Department published a consultation document on 3 June 2003 seeking views on the extent to which further measures might be required to enable shareholders to ensure that any compensation paid reflects performance when directors' contracts are terminated.

This statement explains how the Government intend to proceed in the light of the responses to the consultation document, including that from the Trade and Industry Committee "Rewards for Failure" HC 914 16 September 2003. I am grateful to the Committee and to all those who commented. A summary of the responses is today being placed on the DTI website at http://www.dti.gov.uk/cld/published.htm and in the Libraries of both Houses. My Department are today also replying to the Trade and Industry Committee Report.

This consultation generated a large response from a wide range of parties: institutional investors, companies, trades unions, accountants, remuneration advisers and many representative organisations. This demonstrates the high level of interest in this issue and

the concern, which I share, about cases where poor company performance is accompanied by excessive remuneration.

That is why, before publishing the consultation document, the Government have already taken significant action, through the Directors Remuneration Report Regulations, introduced in 2002, requiring quoted companies to produce a detailed annual directors' remuneration report and to submit it to shareholders for approval at the Annual General Meeting. These Regulations give the UK a corporate governance framework for Directors pay which leads the world in terms of transparency and accountability. They have had an immediate impact in terms of increasing the focus on directors' remuneration by shareholders and promoting constructive dialogue between them and companies about remuneration strategy and practices.

The full impact of the 2002 Regulations, however, cannot be measured after one year alone. For this reason, my Department will be commissioning a detailed assessment of compliance with the Regulations in the course of this year's AGM season, and an assessment of changes in remuneration practices.

The challenge for remuneration committees and their advisers is to produce rewards packages, which tie pay and performance targets to the creation of long-term value for shareholders and are transparent to shareholders. All can agree that directors deserve high rewards for good performance but companies need to think creatively about the design of remuneration packages with those objectives in mind. Shareholders must be vigilant to ensure that situations where directors enjoy rich rewards whilst companies perform poorly and shareholders and employees suffer are challenged. The improved design of all aspects of Directors remuneration packages will play an important part in creating an environment where good businesses can prosper: businesses which produce goods and services of high quality; are honest and fair in their dealings with consumers, employees and suppliers and careful with their reputation; and thereby create sustainable long term value for their shareholders.

Building on the Regulations, the consultation document set out a range of options for tackling the problem of excessive compensation payments made to directors who leave companies, which have performed poorly. The great majority of respondents considered that this was an area where the focus should be on promoting the take up and implementation of best practice. In particular, the responses demonstrated a good deal of support for reducing notice periods and the use of mechanisms such as phased payments and liquidated damages in order to reduce the problem of rewards for failure when contracts are terminated.

I have therefore been very pleased to see the further development in recent months of guidance on directors' contracts, both by the Association of British Insurers and National Association of Pension Funds, and separately by the Confederation of British Industry. I welcome their contributions and commend them to remuneration committees and their advisers. Shareholders too have an important role to play in holding boards to account for their policies in line with the code on activism agreed by the Institutional Shareholders' Committee.

I have considered very carefully the question of whether to introduce further legislation in this area and have concluded that this is not necessary at this stage. I agree with the conclusions of the Trade and Industry Committee report and the comments of its Chairman that "the recent examples of increased activism by institutional investors, and the promotion of best practice have the potential to remedy the situation. The Government should wait to see the effect of these developments before it considers legislative remedies".

I have specifically ruled out legislation of the type introduced by the hon. Member for Tunbridge Wells (Archie Norman) in his Company Directors Performance and Compensation Bill. The overwhelming view of the respondents to the consultation was that this would be wholly unworkable in practice for a number of reasons: It would interfere with the operation of existing contracts; create a large degree of unnecessary uncertainty and complexity in the negotiation of new contracts; would be incapable of taking account of the wide range of recruitment circumstances; act as a deterrent to the recruitment of good quality directors; and could potentially lead to lengthy litigation which would be costly to shareholders.

I will be paying close attention to developments over the next 12 months. I am clear that the best way forward is through the application and development of best practice in negotiating contracts, which deal with performance issues effectively. But if the monitoring which I am commissioning demonstrates that further changes to the Companies Act are required, I will not hesitate to take appropriate action in the context of wider company law reform.

## DEPUTY PRIME MINISTER

### Review of the Planning Enforcement System in England

**The Minister for Housing and Planning (Keith Hill):** I yesterday tabled an amendment to the Planning and Compulsory Purchase Bill that is currently being considered by the House of Lords as a result of the "Review of the Planning Enforcement System in England".

The responses to the review supported our belief that the existing system of planning enforcement is basically sound, and does not need to be re-invented. That is not to say that there is no scope for improvements. We received a wide range of ideas and proposals on how to make planning enforcement more effective and better able to play its part in ensuring that people have confidence in the planning system as a whole. We will be publishing our full conclusions on the review later in the year.

One particular proposal for new powers in the review generated a large amount of support. This was for a provision that would enable local planning authorities (LPAs) to issue a "temporary stop notice" at the start of unauthorised development, before an enforcement notice is served. Having carefully considered these views and the opportunity presented by this Bill to make such

changes—to give LPAs the opportunity to speed up the process of enforcement—I have decided to introduce an amendment to this effect.

The amendment is intended to enable local planning authorities to issue a temporary stop notice immediately upon the commencement of a breach of planning control. The proposed amendment differs from stop notices currently provided for in the Town and Country Planning Act 1990 because it is not necessary to serve an enforcement notice at the same time and the proposed temporary stop notice will only have effect for 28 days at most. Local authorities will be able to stop breaches of planning control before the effects become too great and will have a period of time to consider whether further enforcement action is appropriate, such as service of an enforcement notice with a related stop notice.

## E-Government

**The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Phil Hope):** The Government announced on 12 February that £220 million of e-Government funding is being allocated to support further local authorities in England to e-enable their priority services by 2005. An additional £28 million is to be allocated to specific projects focusing on the national roll out of the National Projects and the take-up of e-services.

This money should assist all local authorities to deliver our shared target of e-enabling all priority services by end of 2005. We are beginning to see the results of the various projects across the country and this funding gives local authorities the support they need to deliver further improved e-services for the people in their area. Local authorities have been developing and improving their services using IT to give their customers the modern services they want and need. This support will help them to continue to improve and increase the use their customers make of them.

All local authorities will receive £500K over the next two years (£350k in 04/05 and £150k in 05/06 subject to submitting satisfactory Implementing Electronic Government progress reports). In addition to these flat rate payments, there will be extra non-financial help available to councils to help them meet the target.

Copies of the press notice announcing this funding are available on the Office's website at www.odpm.gov.uk.

## INTERNATIONAL DEVELOPMENT

### Commission for Africa

**The Secretary of State for International Development (Hilary Benn):** The Prime Minister is today launching a new initiative—the Commission for Africa—to take a fresh look at the challenges Africa faces. The Commission aims to generate increased support for the G8 Africa Action Plan and the New Partnership for African Development (NePAD).

The Commission will conclude its work and report next spring. The Commission will set out the facts on Africa and its assessment of policy on Africa (both within Africa and internationally): where it has worked; where it has failed; where more could be done; and where more support is needed from the international community

The commissioners will be politicians and opinion formers, drawn from developed countries and Africa. Gordon Brown, Hilary Benn, Prime Minister Meles of Ethiopia, K.Y. Amoako (Head of the UN Economic Commission for Africa), Trevor Manuel (South African Minister of Finance), Michel Calmness's (President Chirac's Africa Personal Representative) and Sir Bob Geldof are already confirmed as commissioners. The Prime Minister will chair meetings of the Commission and will agree the final report. The International Development Secretary will oversee the ongoing work of the Commission on the Prime Minister's behalf.

The commissioners, supported by a secretariat, will consult a wide range of experts and thinkers on each issue. The process will be open with public seminars and meetings to discuss the themes and issues. We hope that many organisations will contribute to this work. Each commissioner will host meetings, hold debates and call for papers on the theme he/she is leading. The full Commission will meet once or twice before the report is finalised to discuss and agree its overall direction.

Over the next 12 months the commissioners will take forward discussions on the key challenges to Africa's development. The themes of the report—and commissioners' responsibilities—will be decided at the first meeting of the Commission in April, but are likely to include some or all of the following: the economy (including development finance, economic integration and trade); education; conflict resolution and peacebuilding; health; the environment; HIV/AIDS; governance; and culture.

The Commissioners' work will help inform the UK's agenda for Africa during its G8 and EU presidencies next year.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Framework for Sustainable Development (Government Estate)

**The Minister for the Environment (Mr. Elliot Morley):** The Government is publishing the fifth part of the *"Framework for Sustainable Development on the Government Estate (Framework)"* on energy today. This will be available from the sustainable development in Government website. Copies of the website, on CD-Rom, will be placed in the Libraries of both Houses.

The energy section of the framework breaks new ground: it sets a Government-wide commitment to reduce carbon on the Government estate that will make an important contribution to the UK's Kyoto target, and will help to deliver our Energy White Paper commitments. The framework will now require all estate management contracts to take account of measures and opportunities for reducing carbon emissions and collecting energy data.

Our ongoing work on the framework defines a set of cross-Government targets for sustainable development, and outlines the mechanisms by which Departments will be expected to achieve them. These challenging targets give a clear indication of the Government's continued determination to take a lead in the practical implementation and achievement of sustainable development.

The framework for sustainable development on the Government estate can be viewed at www.sustainable-development.gov.uk/sdig/improving/index.htm.

## CABINET OFFICE

### Civil Defence Grant

**The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander):** The aggregate of civil defence grants to be made for the financial year 2004–05 is £19,038,000. Some £100,000 will be retained as discretionary grant for special projects and special events deemed of benefit to the wider civil protection community in England and Wales. The remaining £18,938,000 will be allocated to individual authorities as set out below.

| *Local Authority* | *Grant Allocation 2004–05 (£)* |

| Waltham Forest | 83,532 |
| Wandsworth | 79,155 |
| Warrington | 72,804 |
| Warwickshire | 181,722 |
| West Berkshire | 67,815 |
| West Midlands FCDA | 60,386 |

| *Local Authority* | *Grant Allocation 2004–05 (£)* |
|---|---|
| West Sussex | 225,386 |
| West Yorkshire FCDA | 61,593 |
| Westminster | 86,804 |
| Wigan | 84,497 |
| Wiltshire | 194,786 |
| Windsor and Maidenhead | 66,796 |
| Wirral | 89,861 |
| Wokingham | 66,525 |
| Wolverhampton | 82,030 |
| Worcestershire | 186,835 |
| Wrexham | 72,926 |
| York | 72,220 |

To determine the individual allocations the following formula was adopted:

Each authority received £53,000. Each county council received £12,000 in respect of each shire district within the authority's boundaries. These flat-rate payments accounted for approximately 65 per cent. of the aggregate grant, in recognition of the fact that every authority, regardless of size and population, would incur similar unavoidable costs in conducting the basic civil protection function.

The remaining 35 per cent. of the aggregate grant was distributed according to the Bellwin threshold, using population size as a proxy for the scale of civil protection that authorities need to undertake.

This formula is retained by agreement with the Local Government Association.

## PRIME MINISTER

### COE/WEU (Information Bulletin)

**The Prime Minister (Mr. Tony Blair):** I have placed in the Library today the latest Information Bulletin on the activities of the United Kingdom Delegation to the Parliamentary Assembly of the Council of Europe and the Assembly of Western European Union covering the period November to October 2003.

## NORTHERN IRELAND

### Independent Monitoring Commission (Abduction Incident)

**The Secretary of State for Northern Ireland (Mr. Paul Murphy):** On Friday 20 February the Police Service of Northern Ireland made a number of arrests in connection with an alleged assault and abduction. The case is sub judice.

Four people now face serious charges, including grievous bodily harm, possession of articles likely to be of use to terrorists and unlawful imprisonment. The PSNI are following a number of very definite evidential lines, including video material and the items, clothing and other forensic material recovered at the scene. The Chief Constable of the PSNI has made it clear to me that he is satisfied that there was Provisional IRA involvement in the incident.

These events are a matter of serious concern. As far as the overall situation is concerned, my assessment of the various paramilitary organisations' ceasefires, in the light of information I have received, remains unchanged. But all the indications are that there has been a serious breach of the requirement set out by the British and Irish Governments in paragraph 13 of the joint declaration for an end to all forms of paramilitary activity.

Such behaviour is wholly unacceptable. As the Government has repeatedly made clear, parties cannot be half-in, half-out of the democratic process. All paramilitary activity must stop.

These developments have inevitably had a serious impact on this week's discussions with the Northern Ireland political parties within the review of the operation of the Belfast agreement. At those meetings, we listened carefully to the views of the parties and, in particular, to their concerns about the implications of these events for the establishment of the trust and confidence required to achieve a successful outcome to the review and to restore devolved Government in Northern Ireland.

Both Governments are now asking the Independent Monitoring Commission, which was established in January, to examine Friday's incident in the context of the preparation of its first report on paramilitary activity. We have also asked the Commission to bring that report forward from July to May. The report is expected to take account of all paramilitary incidents and activities within its remit since the Commission's establishment. The Commission is obliged by law not to do anything in carrying out its functions that might have a prejudicial effect on any legal proceedings.

Both the British and Irish Governments are very clear that the achievement of a sustainable basis for political progress in Northern Ireland requires a full and permanent cessation of all paramilitary activity. As part of the wider agenda of the review, it is vital that we intensify engagement with the parties on this core issue, and we envisage that next week there will be a significant focus on it.

### Prison Service

**The Minister of State, Northern Ireland Office (Jane Kennedy):** On 8 September 2003, the Secretary of State formally accepted the recommendations of the Steele Review of Safety at Maghaberry Prison. The review recommended that prisoners with paramilitary affiliations should be accommodated separately from each other, and from the rest of the prison population, on a voluntary basis.

One aspect of implementation has been the development of a prisoner compact, which makes clear the routine and facilities available to separated prisoners and what will be required of them in return. These proposals were issued for public consultation in December.

The Government have considered the representations made and, have made some adjustments to the compact where these do not reduce the ability of prison staff to maintain good order. The revised compact is published today and I have placed copies in the Libraries of both Houses. This is the compact that will set the parameters of the regime in the separated facilities.

As I have made clear on numerous occasions, no-one wants a return to the conditions that pertained at Maze where staff were threatened, intimidated and subjected to brutal attacks and where prisoners could threaten and intimidate other prisoners with impunity.

Many have voiced their concerns that separation could ultimately lead us back to a Maze style regime. I am determined that that should not happen. I firmly believe that the additional security measures which have been incorporated at Maghaberry, taken together with this Compact, will ensure that it does not.

Another of the Steele Review's recommendations was that we should consider the appointment of a prison ombudsman. We will be bringing forward proposals for public consultation shortly.

The publication of the compact now clears the way for full implementation of Steele's recommendations. Most of the physical work required in Maghaberry has now been completed and staff training is well underway. The Prison Service aims to achieve full implementation by the middle of March.

### Police and Criminal Evidence Review

**The Minister of State, Northern Ireland Office (Jane Kennedy):** A review of the Police & Criminal Evidence (Northern Ireland) Order 1989 and the accompanying codes of practice is being undertaken by officials in the Northern Ireland Office.

The review, which aims to bring the existing PACE legislation and the codes of practice in Northern Ireland into line with that in England and Wales, will adopt much of the new or amended legislation and revisions to the codes of practice introduced by the Home Office as a result of their fundamental review of PACE in 2002.

It is my intention to issue a draft Police & Criminal Evidence (Northern Ireland) Order and associated codes of practice for consultation in autumn 2004 with the aim of them becoming operational by summer 2005.

## DEPUTY PRIME MINISTER

### 2012 Olympic Games

**The Deputy Prime Minister (Mr. John Prescott):** London's bid to host the 2012 Olympic Games and Paralympic Games is focused on the Olympic Park in the Lower Lea Valley. The London Development Agency submitted an outline planning application for the Park and four ancillary applications to the Joint Planning Authorities Team (representing Newham, Hackney, Tower Hamlets and Waltham Forest London Boroughs) on 30 January 2004. Decisions on these, and any subsequent applications, are matters for the local authorities concerned. However, it is possible that decisions in relation to these applications could fall to be determined by me as First Secretary of State (either on appeal or if applications were to be called in). I and other Ministers in the Office of the Deputy Prime Minister have other policy responsibilities, including the delivery of development and regeneration in the Thames Gateway and the role that the London Olympics bid might play in achieving these objectives. In order to ensure that the Office of the Deputy Prime Minister's "Guidance on Propriety Issues in the Handling of Planning Casework" is followed, I have decided that any planning decisions arising for the First Secretary of State in respect of development related to the Olympics bid will be dealt with by my hon. Friend the Member for Pontefract and Castleford (Yvette Cooper). She will not be involved in any other matters relating to the Olympics bid.

# Written Ministerial Statements

## EDUCATION AND SKILLS

### Schools (Surplus Places)

**The Minister for School Standards (Mr. David Miliband):** We are today publishing data on surplus places in primary and secondary schools in England.

The survey returns indicate that there were 482,078 surplus primary places in January 2003. This is 11 per cent. of the total capacity of 4,450,723, and an increase in surplus of 33,041 places since 2001 when the last survey was conducted. This reflects the recent and continuing fall in numbers of primary aged children. In the secondary sector there were 231,391 surplus places, representing 7 per cent. of the total capacity of 3,455,993, and a fall in surplus of 19,342 places since 2001.

Dealing effectively and sensitively with falling rolls presents a real challenge to individual schools and to local education authorities (LEAs). While it is for individual LEAs to consider the scope for removing surplus places, the Department encourages them, when planning, to concentrate on those schools with 25 per cent. or more surplus (and at least 30 surplus places) which are also performing badly.

In some cases it is sensible to propose the closure or amalgamation of schools. In others, surplus places can provide opportunities for extended schools providing a range of other services alongside schooling and for wider community use of school premises.

Recognising the scale of the challenge faced by many LEAs with falling primary rolls, the Department proposes to establish a working group with our partner organisations to explore the options and opportunities available to schools and communities.

The table attached sets out the numbers of primary and secondary surplus places by local authority area as at January 2003. The table also highlights the number of schools which had surplus of 25 per cent. or more, and at least 30 surplus places. The number of schools in this category has decreased by 25, from 2,441 in January 2001 to 2,416.

The number of LEAs having high levels of surplus places (20 per cent. of schools with 25 per cent. or more surplus and at least 30 surplus places) fell from 22 in 2001 to 19 in 2003.

Note 1: Primary figures show surplus after taking account of summer entry.
Note 2: Actual surplus is defined as the difference between capacity and number on roll for all schools where capacity exceeds number on roll.
Note 3: Schools with less than 30 surplus places are not included.
Note 4: Blanks denote no surplus.

## HOME DEPARTMENT

### Passport and Records Agency

**The Minister for Citizenship and Immigration (Beverley Hughes):** The Passport and Records Agency Accounts 2002–03 have been published today and I am pleased to say that copies of the report have been placed in the Library of the House.

## TREASURY

### Financial Services and Markets Act

**The Financial Secretary to the Treasury (Ruth Kelly):** I announced the start of the two year review of the Financial Services and Markets Act 2000 in a written statement to Parliament on 4 November 2003, *Official Report*, (Col 28WS). In that statement I said that the Government intended to issue during February a public

consultation document on changes to the boundary of financial services regulation. A consultation document was issued today. Copies have been placed in the Libraries of both Houses.

## WORK AND PENSIONS

### Draft Disability Discrimination Bill

**The Secretary of State for Work and Pensions (Mr. Andrew Smith):** When I published the draft Disability Discrimination Bill on 3 December 2003, (Cm 6058), I emphasised a priority to meet our 2001 manifesto commitment in the lifetime of this Parliament—on extending rights of disabled people and removing barriers to their participation in society. I also announced our intention to publish a further clause which would protect disabled local councillors from discrimination by the local authority of which they are a member. This meets the commitment in *"Towards Inclusion"*, the Government's response to the recommendations of the disability rights taskforce.

I am pleased to announce that I have today laid before Parliament the draft clause which becomes clause 15 of the draft Disability Discrimination Bill (Cm 6126, Draft Disability Discrimination Bill—Clause 15: relationships between locally-electable authorities and their members). Alongside the clause are published explanatory notes, prepared by my Department, to assist the Joint Scrutiny Committee of Parliament which is considering the draft Bill. The draft clause and notes are also available on http:// www.disability.gov.uk.

## DEFENCE

### Free Packet Service (Gulf)

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** On 17 April 2003, with the generous support of the Royal Mail Group, the Ministry of Defence introduced a free postal service to enable families to post packets up to 2kg free of charge to BFPO addresses in the Gulf. The provision of a free packet service recognised the difficult conditions personnel were operating in and that it was not possible to provide the full spectrum of welfare support normally available to personnel on operations. Whilst southern Iraq is not yet a benign environment, the level of welfare support and the facilities available on Operation TELIC are now comparable to those provided in other operational theatres.

It has therefore been decided that from 8 April 2004 with the handover of 20 Armoured Brigade to 1 Mechanised Brigade this free service will cease. This date should allow for any Easter gifts to be sent under the free service.

In common with other operations, personnel in Iraq are provided with free forces air letters and their electronic counterparts ("Blueys" and "eblueys") in addition to free Internet access and free 20 minute phone calls each week. Families may also send packets up to 2kg in weight to personnel in the Gulf at a concessionary rate—the equivalent of the UK inland First Class postal rate. The NAAFI/Expeditionary Forces Institute also sells through its outlets in theatre many of the small consumable items that families were previously sending to personnel and this has led to a significant decline in the demand for the free packet service.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Council of the European Union

**The Minister for Europe (Mr Denis MacShane):** The forthcoming business in the Council of the European Union is as follows:

| | | |
|---|---|---|
| *March* | | |
| 1–2 | Cork | ASEM Finance Deputies' Meeting |
| 2 | Brussels | Environment Council |
| 3 | Brussels | COREPER 1 |
| 3 | Brussels | COREPER 2 |
| 4–6 | Co. Clare | Youth Ministerial Conference |
| 4–5 | Brussels | Employment, Social Policy, Health & Consumer Affairs (Ministerial Informal) |
| 8 | Brussels | Meeting of Eurogroup |
| 8–9 | Ankara | EU Ministerial Troika with Turkey |
| 8–9 | Brussels | Transport, Telecom & Energy Council |
| 9 | Brussels | ECOFIN |
| 10 | Brussels | COREPER 2 |
| 10 | Brussels | COREPER 1 |
| 11 | Dublin | EU/Russia Ministerial Meeting (Troika) |
| 12 | Brussels | COREPER 1 |
| 17 | Brussels | COREPER 1 |
| 18 | Brussels | COREPER 2 |
| 18 | Ottawa | EU Canada Summit (Troika) |
| 18–19 | Dublin | OECD Ministers Conference |
| 19 | Brussels | COREPER 1 |
| 22 | Brussels | Agriculture & Fisheries Council |
| 22–23 | Brussels | General Affairs & External Relations (GAERC) |
| 24 | Brussels | COREPER 1 |
| 24 | Brussels | COREPER 2 |
| 24–25 | Brussels | Meeting of the Economic and Financial Committee |
| 25–26 | Brussels | EUROPEAN COUNCIL |
| 30 | Dublin | EU/Ukraine Ministerial Meeting (Troika) |
| 30 | Brussels | Justice & Home Affairs (Ministerial Informal) |
| 31 | Brussels | COREPER 1 |
| *April* | | |
| 2 | Punchestown | Meeting of Eurogroup |
| 2–3 | Punchestown | ECOFIN |
| 7–8 | Co. Wicklow | Ministerial Conference on Communicating Europe |
| 16–17 | Tullamore | GYMNICH |
| 17 | Co. Kildare | ASEM Foreign Ministers Meeting |
| 26–27 | Brussels | General Affairs & External Relations (GAERC) |
| 26–27 | Brussels | Agriculture & Fisheries Council |
| 27 | Luxembourg | EU/Russia Permanent Partnership Council (Troika?) |
| 29–30 | Brussels | Meeting of the Economic and Financial Committee |
| 29–30 | Brussels | Justice & Home Affairs (Ministerial Informal) |
| *May* | | |
| 6–7 | Dublin | EuroMed Foreign Ministers |
| 7 | Limerick | Meeting of Ministers with responsibility for Equality |

| | | |
|---|---|---|
| 9–11 | Killarney | Agriculture Informal Ministerial Meeting |
| 10 | Brussels | Meeting of Eurogroup |
| 11 | Brussels | ECOFIN |

| 22 | Brussels | Coreper 2 |
| 23 | Brussels | Coreper 1 |

*August*

*No meetings planned*

# Written Ministerial Statements

*Monday 1 March 2004*

## DEFENCE

### Reserve Forces Call-out Order

**The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin):** A new call-out order has been made under Section 56 of the Reserve forces Act 1996 so that reservists may continue to be called out to support operations in Sierra Leone and the Democratic Republic of the Congo. The order will take effect from 1 March 2004, the date the previous order expires. There are no plans to call-out reservists compulsorily under this order as it is expected that the small numbers needed will be met through volunteers for service in those countries.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Falkland Islands

**The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell):** I made a statement to this House on airlinks between the Falklands and Argentina, *Official Report*, 19 January 2004, 51WS. I would like to report on developments since then.

I travelled to Argentina on 16–17 February on a pre-planned bilateral visit. I held talks on a wide range of international, regional and bilateral issues. The question of airlinks featured in my talks with the Argentine Foreign Minister, Dr Rafael Bielsa. The talks were frank and constructive and we made some progress. Some proposals were discussed which we each agreed to look at further. These proposals primarily focused on temporary arrangements for charter flights for 2004. I made it clear that any arrangements would need to be acceptable to the Falkland Islanders.

Regrettably, shortly following my visit, an article appeared in an Argentine newspaper, giving details of my talks and wrongly asserting that a deal on airlinks had been agreed. As I have indicated, this was not the case.

I spoke subsequently to Falkland Councillors. They concluded that the proposals for temporary arrangements did not meet their concerns. However, they agreed that we should continue to discuss the issue with the Argentine Government with a view to securing a permanent solution to the question of charter flights rather than having further temporary arrangements.

We are now taking this forward with the Argentine Government, with the full agreement of Councillors. I will keep the House informed of progress.

## INTERNATIONAL DEVELOPMENT

### Afghanistan

**The Secretary of State for International Development (Hilary Benn):** Afghanistan remains a high priority for the Government. A lot has been achieved during the past two years. Around 3 million refugees have been helped to return to Afghanistan. Improvements have been made in education, with more than 4 million children back at school. Some 37 per cent. of pupils are now girls, up from 5 per cent. in 2001. Some 12 million children have been immunised against polio and 16 million against measles since 2002, saving 30,000 lives. Women are increasingly taking part in politics and the new constitution guarantees women 25 per cent. of seats at the new parliament and equal rights and duties before the law. But there are still challenges ahead.

As part of the UK's continuing commitment to Afghanistan I will be announcing, at the donor conference taking place in Berlin on 31 March and 1 April, an increase in our assistance to at least £500 million over five years. This represents an increase of 150 per cent. on our original commitment for the reconstruction of Afghanistan made in Tokyo in January 2002 to provide £200 million over these five years (the financial years 2002/03–2006/07). So far we have provided £110.5 million of this. This new pledge will include at least £75 million a year for reconstruction, plus assistance for counter-narcotics and conflict prevention.

One of the major challenges Afghanistan faces is security, particularly in the south and east of the country, and the need to tackle the drugs trade. The UK is working to support the Afghan police and helping to build a new Afghan National Army. We are also assisting with the disarmament, demobilisation and reintegration of former combatants. Our new financial commitment will help to address all these issues.

# Written Ministerial Statements

*Tuesday 2 March 2004*

## HEALTH DEPARTMENT

### Health Care Practitioners

**The Minister of State, Department of Health (Mr. John Hutton):** In the interest of public safety, we have today published two consultation papers on the statutory regulation of healthcare practitioners. The papers seek views on the extension of regulation to a wider range of healthcare staff and on proposals for the statutory regulation of herbal medicine and acupuncture practitioners.

A related consultation paper on the reform of the regulation of unlicensed herbal remedies made up to meet the needs of individual patients has also been published today by the Medicines and Healthcare products Regulatory Agency.

Copies of the three consultation papers have been placed in the Library.

### NHS Pharmaceutical Services

**The Minister of State, Department of Health (Ms Rosie Winterton):** I have today placed in the Library copies of the executive summary of the report of the advisory group on the reform of the NHS (Pharmaceutical Services) Regulations 1992. It is also available on the Department's website at:

http://www.advisorybodies.doh.gov.uk/pharmacyregulationconsultation/advisorygroup.htm

The Government are considering the group's advice carefully and will make further announcements as soon as possible. We will publish the report in full when we publish changes to the Regulations later this year.

I have also placed in the Library copies of the summary of responses, which was published on Monday 1 March, to the consultation on "A Vision for Pharmacy in the New NHS". It is available on the Department's website at:

http://www.dh.gov.uk/consultations/responsestoconsultations/fs/en

## CONSTITUTIONAL AFFAIRS

### Lord Chancellor (Ecclesiastical Functions)

**The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie):** I should like to make a statement on the Government's approach to certain functions of the Lord Chancellor in the light of responses to the consultation document "Constitutional Reform: Reforming the office of Lord Chancellor". A summary of the responses was published on 26 January. Last week my right hon. and noble Friend the Secretary of State for Constitutional Affairs, Lord Falconer of Thoroton, introduced a Constitutional Reform Bill into Parliament. The Bill provides for the abolition of the office of Lord Chancellor, as well as for the establishment of a Judicial Appointments Commission, and the creation of a Supreme Court, and will, where necessary, make statutory provision to give effect to our approach.

#### Ecclesiastical Patronage

Since the fourteenth century, the Lord Chancellor, on behalf of the Crown, has exercised patronage in relation to a number of parishes and Cathedral Canonries. This patronage is administered with other Crown patronage through a combined office.

With the abolition of the office of Lord Chancellor, the Government propose that the Lord Chancellor's patronage should revert to the Crown. Legislation is not required to achieve this. This reversion to the Crown will ensure administrative consistency and take full advantage of existing mechanisms and expertise. Respondents to the consultation and others have made clear how much they value the role of the Crown in a mixed pattern of patronage.

#### Other Ecclesiastical Functions

The Secretary of State for Constitutional Affairs, who has Ministerial responsibilities in relation to the Church, will assume the Lord Chancellor's role as Church Commissioner. Similarly, the Secretary of State for Constitutional Affairs will take the Lord Chancellor's role in relation to certain ecclesiastical judicial or legal appointments. Where these appointments concern a serving judge in the secular courts he will first consult the Lord Chief Justice. Relevant provisions will be included in the Constitutional Reform Bill.

#### Visitatorial Jurisdiction

The Sovereign is visitor at certain charitable institutions where no other visitor is named. By convention, the Sovereign's visitatorial jurisdiction is usually delegated to the Lord Chancellor. In addition, the Lord Chancellor holds the title of visitor to a number of organisations in his own right. In these cases the Lord Chancellor's visitatorial functions will revert to the Sovereign with the abolition of his office.

For the future, proposals in the Higher Education Bill will remove the jurisdiction of the visitor over student complaints, the majority of visitorship issues. For other visitorship responsibilities we propose that the Secretary of State advise the Sovereign on a case-by-case basis and where appropriate appoint a suitably qualified person, such as a serving or retired judge, to undertake the function on behalf of the Queen. This change will not require primary legislation.

#### Charitable and other institutions

The Lord Chancellor has a specific role in respect to a number of institutions and schools where he is mentioned in their governing documents. Unless specific action is taken, that absence of the office of Lord Chancellor could cause problems for some of these institutions. Some academic institutions will be affected by the change of visitor. In consultation, some of these institutions have indicated that they wish to amend their governing instruments to reflect the abolition of that office.

To assist such organisations, I am proposing to take a power in the Constitutional Reform Bill to be able to amend Charters, Orders in Council or other instruments as a consequence of the abolition of the office of Lord Chancellor.

GREAT SEAL

The Great Seal is used to signify the Royal Will and authenticate acts of the Sovereign or the Government acting in the name of the Monarch. As I made clear in the consultation document "Reforming the office of Lord Chancellor", his responsibilities in relation to the Great Seal are to transfer to the Secretary of State for Constitutional Affairs, who is (after the Prime Minister) the principal source of advice on matters relating to the Crown, and who will have a specific duty to defend and uphold the independence of the judiciary.

Appointments to the senior judiciary are made under the Great Seal. It is an important part of safeguarding the independence of the judiciary, and the new partnership with the executive, that the custody of the Great Seal can only be changed with a clear decision by Parliament through primary legislation. Provisions in the Bill make clear that custody of the Great Seal can only be moved away from the Secretary of State for Constitutional Affairs by primary legislation.

## CULTURE, MEDIA AND SPORT

### S4C

**The Secretary of State for Culture, Media and Sport (Tessa Jowell):** Following a request from the S4C Authority, I have commissioned an independent review of S4C, to be carried out by Roger Laughton, Head of Bournemouth university media school. Mr. Laughton will be assisted by Meurig Royles as Welsh language assessor to the review.

The terms of reference for the review are: 1) to assess, in light of the Communication Act's reaffirmation of S4C's status and remit, *(a)* the efficiency with which S4C utilises the resources made available to deliver its statutory responsibilities, *(b)* the extent to which other sources of funding, including efficiency savings, could make a greater contribution alongside that which S4C receives as grant-in-aid, and *(c)* the extent to which S4C's latest strategic plan provides an effective basis on which to plan for the future; 2) to examine the particular implications for S4C of the Government's proposal on the future of digital broadcasting.

The review will include: *(a)* consultation with a wide range of interests, including organisations representative of those sectors where the role of S4C is of particular significance; and *(b)* consideration, to the extent that the reviewer judges appropriate, of the outcome of and evidence generated by S4C's recent internal review process.

In addition to the consultation outlined above, there will be an opportunity for members of the public to make representations to the review team, via a website set up by the Department for Culture, Media and Sport.

The Government remain committed to the provision by S4C of a high-quality, diverse Welsh language television service forming a key part of the public service broadcasting landscape. I was, therefore, pleased to agree to the S4C Authority's request for a review which could address some of the important challenges S4C faces as it approaches analogue switch off. The Authority has already completed its own internal review and Mr. Laughton will be able to take its conclusions into account.

Ofcom's statutory review of the fulfillment of the public service broadcasting remit will also provide an opportunity to consider S4C's contribution to that wider remit. The relationship between S4C and the BBC will in addition be considered in detail as part of BBC charter review.

I have asked Mr. Laughton to report back to me at the beginning of May.

## TREASURY

### Main Estimates and Spring Reports

**The Chief Secretary to the Treasury (Mr. Paul Boateng):** Following the announcement that the Budget will take place on 17 March, HM Treasury plans to publish the 2004–05 main estimates, the supplementary budgetary information publication that accompanies the main estimates, and the public expenditure statistical analyses 2004 on Monday 19 April 2004.

### Cash Ratio Deposits

**The Chief Secretary to the Treasury (Mr. Paul Boateng):** Cash ratio deposits are non-interest bearing assets deposited with the Bank of England by banks and building societies. They are used by the bank to finance its unremunerated activities, in particular its sterling liquidity operations and its efforts to secure price stability and the stability of the financial system in general, from which these institutions are key beneficiaries. The cash ratio deposit scheme was placed on a statutory basis when the Bank of England Act became law in 1998. In February 2003, the Paymaster General announced by written statement a review of the operation of the statutory scheme in its first five years.

My written statement of 18 September 2003 set out the review's conclusions, one of which was that the minimum threshold for making deposits should be raised from £400 million to £500 million, freeing 18 institutions from the scheme and benefiting all remaining contributing institutions by reducing the level of their deposits by £150,000 each. This proposal would require a change to secondary legislation under the Bank of England Act 1998. HM Treasury has therefore consulted publicly about this change and invited views on the review's other recommendations.

The Government's response to this consultation exercise was published yesterday. Given the general support among respondents for the proposal set out above, I am today laying before Parliament a draft statutory instrument designed to increase the threshold for making deposits under the CRD scheme from £400 million to £500 million, scheduled to come into force on 1 June 2004.

### Tax Avoidance

**The Paymaster General (Dawn Primarolo):** Legislation to prevent tax avoidance by individuals through the creation of deficiency relief on life insurance policies is to be included in the 2004 Finance Bill. The legislation will restrict the deficiency relief available to an individual to amounts of earlier gains which formed part of that same individual's income. The change will have effect from today. It will apply to all new policies. It will also apply to all existing policies which are assigned, or become used as security for a debt, or into which policyholders choose to pay further premiums, on or after today.

A copy of today's Inland Revenue news release giving the relevant background to this measure is being deposited in the Libraries of both Houses and is also accessible on the Inland Revenue website: http://www.inlandrevenue.gov.uk/.

## INTERNATIONAL DEVELOPMENT

### Afghanistan (Election Registration Funding)

**The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas):** Ensuring the legitimacy of the Afghan Government within the timescale set down by the Bonn agreement is an important part of the Government's strategy for Afghanistan.

Elections are due to take place later this year and the Government has already provided £1 million from the Department for International Development (DFID) and £2 million from the joint DFID/FCO/MOD global conflict prevention pool towards the UN's programme of voter registration in Afghanistan. So far just over 1.2 million of an estimated 10.5 million electorate has been registered.

DFID will now be providing an additional £6 million to the UN to support the registration process. Combined with a US pledge of US$12 million this takes the total funding from US$48 million to US$71 million out of a total budget of around US$98 million. This will allow registration to continue while we work with other donors to fill the remainder of the shortfall, and help to ensure the success of Afghanistan's first free and fair elections.

# Written Ministerial Statements

*Thursday 4 March 2004*

## TREASURY

### Tax Law Rewrite Project

**The Paymaster General (Dawn Primarolo):** I am pleased to tell the House that the tax law rewrite project will today reach another major milestone. The Inland Revenue will publish the project's third draft Bill, on trading, property, savings and investment and miscellaneous income, for a final round of consultation. The Bill will also cover the special rules for foreign income and partnerships and the relief rules for rent-a-room and foster carers. The Bill will be ready for introduction in Parliament by the end of the year.

Earlier versions of this rewritten legislation have been extensively revised in the light of comments and suggestions from tax professionals and other interested parties. This continuous dialogue between the project team and business interests, tax practitioners, the legal profession and Inland Revenue specialists is a key feature contributing to the success of the project.

## DEFENCE

### Deepcut Barracks (Surrey Police Final Report)

**The Minister of State, Ministry of Defence (Mr. Adam Ingram):** The Chief Constable of the Surrey Police has today published his report following the completion of the police examinations into wider issues identified during police investigations into the deaths of Privates Sean Benton, Cheryl James, Geoff Gray and James Collinson at the Princess Royal Barracks Deepcut between 1995 and 2002. We welcome the conclusion of the police investigation and the report. The report makes recommendations which we are considering carefully. I intend to make a further announcement on this subject in the near future.

Each of these four deaths was an individual tragedy in its own right and we very much regret the loss of these young lives. The Police report acknowledges that we have been working energetically to ensure that lessons have been learnt and to improve the Army's care regime. It concludes by recommending that the Ministry of Defence considers a broader inquiry into how the care regime can be further improved and to provide assurance that the momentum that has developed will be sustained.

As the report highlights, one key element of the work we have undertaken has been the Army Learning Account, which is a continuous record of lessons learned and the action taken as a result. The report also refers to work undertaken by the Directorate of Operational Capability (DOC) into the care of recruits in initial training, which I published last year. This was followed some five months later by a further report assessing progress in implementing recommendations (*Official Report*, 10 February 2003, column 35WS and 16 July 2003, column 42WS refer).

We are committed to continuous improvement in the training and care regime, and will look carefully at what benefits a broader investigation might offer and what form such an investigation might take.

The Army has co-operated fully with the Surrey police throughout all their investigations, and we have been as open as possible with the families within the constraints imposed on us by the ongoing police investigation. In recognition of the degree of Parliamentary interest in the Deepcut deaths, the Chief Constable has asked that copies of his report be placed in the Libraries of both Houses. I am making the necessary arrangements to do so.

## TRANSPORT

### Digital Tachographs

**The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson):** I am announcing today that the Government will allow industry more time to introduce digital tachographs in the UK.

Most drivers of large commercial vehicles are subject to the EU drivers' hours rules. These rules are enforced using the tachograph. Under an EU Regulation the existing chart-based, or analogue, tachographs are due to replaced by digital tachographs.

The deadline for the introduction of the digital tachograph is 5 August 2004. This deadline cannot be met because no digital tachograph has yet been type approved. This is an EU-wide issue—all member states are placed in a similar position.

The Government remains committed to the introduction of digital tachographs but after informal consultation with the industry I have decided that:

> The UK will not enforce the fitting of digital tachographs to all new vehicles subject to the EU drivers' hours rules from August 2004.
>
> We will continue to work with the European Commission and other EU Member States to agree a new date for the fitting of digital tachographs to all new vehicles. This date is unlikely to be before June 2005.
>
> Between August 2004 and the new date, vehicles used within the scope of the EU drivers' hours rules must be fitted either with analogue tachographs or, when they become available, digital tachographs but the latter will not be compulsory until the new deadline.
>
> The DVLA, who will issue the four types of smart-card associated with digital tachographs, remain on-track to be able to issue cards in good time for the introduction of digital tachographs. A decision when to commence the issue of cards will be taken in the light of the availability of digital tachographs.

## TRADE AND INDUSTRY

### Oil and Gas Licensing Round

**The Minister for Energy, E-Commerce and Postal Services (Mr. Stephen Timms):** I am pleased to inform the House that I am today inviting applications for petroleum licences over a large number of blocks in the

southern, central and northern North sea and for the area west of the Shetland Islands which will form the 22nd round of offshore petroleum licensing. In parallel to this offshore round I am also inviting applications for the onshore area of the UK. This will be the 12th onshore licensing round.

In deciding which blocks to make available for licensing in the offshore area, I have considered the results of the strategic environmental assessments undertaken by my Department, the most recent on which consultation closed in December 2003. After considering the assessments and the responses to the consultation, I have decided to take a precautionary approach and not offer for licence 23 blocks or part blocks because of their proximity to existing conservation sites as highlighted by the environmental assessments. In addition, 20 blocks will not be offered for licensing in these SEA areas at the request of the Ministry of Defence.

Any licences awarded in the round will contain conditions to protect environmental interests and the interests of other sea users. In addition, activities carried out under the licences will be subject to a range of legislation which is designed to protect the marine environment, including regulations which apply the Environmental Impact Assessment and Habitats directives to offshore oil and gas activities. This will be particularly relevant to certain blocks in Quadrant 217, which contain unusual seabed features.

The licences will also contain provisions to ensure that licensees either undertake exploration work within a relatively short timescale or relinquish the licence at the earliest possible opportunity so that other companies are able to take forward exploration of the area. These requirements support PILOT initiatives to remove barriers to activity on the UKCS.

## WORK AND PENSIONS

### General and Compensation Levies

**The Minister for Pensions (Malcolm Wicks):** I am pleased to announce that there will be no increase in the General Levy rates for 2004–05. Rates will remain at the 2000–01 level as set out in the table.

On 11 June 2003, the Government published—"Simplicity, Security and Choice: Working and Saving for Requirement—Action on Occupational Pensions" (Cm 5835), which sets out plans for a new, risk-focused pensions regulator, that also provides support, advice and guidance to the pensions industry.

A significant claim for compensation has been made to the Pensions Compensation Board and, in view of payments which have already been made and future expected payments, the Pensions Compensation Board believe it is necessary to use current regulations to raise a Compensation Levy in 2004–05 at 23p per member. This is only the second time they have needed to collect the Compensation Levy since its inception in 1997. I am pleased that the Pensions Compensation Board has been able to provide financial support for members of those schemes whose assets have been removed dishonestly. It is vital that the Board has adequate funds to be able to provide financial help when appropriate.

The General Levy rates for 2004–05 are as follows:

*Table 1—Occupational Pension Schemes*

| *Scheme Size (Number of Members)* | *Basis* | *Amount per Member* | *Minimum Payment Per Scheme*[1] |
|---|---|---|---|
| 2 to 11 | £12 Per scheme | - | - |
| 12 to 99 | Per Member | £1.25 | - |
| 100 to 999 | Per Member | £0.90 | £125 |
| 1,000 to 4,999 | Per Member | £0.70 | £900 |
| 5,000 to 9,999 | Per Member | £0.53 | £3,500 |
| 10,000 or more | Per Member | £0.37 | £5,300 |

*Table 2—Personal Pension Schemes*

| *Scheme Size (Number of Members)* | *Basis* | *Amount per Member* | *Minimum Payment Per Scheme*[1] |
|---|---|---|---|
| 2 to 11 | £5.20 Per scheme | - | - |
| 12 to 99 | Per Member | £0.50 | - |
| 100 to 999 | Per Member | £0.35 | £50 |
| 1,000 to 4,999 | Per Member | £0.30 | £350 |
| 5,000 to 9,999 | Per Member | £0.20 | £1,500 |
| 10,000 or more | Per Member | £0.15 | £2,000 |

NOTE: [1] Minimum payments ensure that schemes in the lower bands do not pay more overall than those in the higher bands.

## DEPUTY PRIME MINISTER

### Regional Fire and Rescue Control Rooms

**The Minister for Local and Regional Government (Mr. Nick Raynsford):** On 11 December when the draft national framework for the "Fire and Rescue Service" was published I issued a consultation document on the proposals on regional control rooms in England. Those proposals were outlined in the White Paper, "Our Fire and Rescue Service", and detailed in the draft national framework.

A copy of my response on the issues raised in the consultation paper is available in the Libraries of both Houses. The responses broadly endorsed the proposed approach of regional control rooms on the basis of one per region and the proposed governance arrangements.

I have written to the chair of the Practitioners Forum and the chairs of authorities confirming this.

# Written Ministerial Statements

*Friday 5 March 2004*

## CULTURE, MEDIA AND SPORT

### Waterways Ireland

**The Parliamentary Under-Secretary of State for Northern Ireland (Angela Smith):** Copies of the Waterways Ireland Annual Report and Accounts for the year ended 31 December 2001 have been placed in the Libraries of both Houses.

This document provides details of Waterways Ireland's activities, its performance, and its expenditure for that year.

## EDUCATION AND SKILLS

### Supplementary Estimates

**The Secretary of State for Education and Skills (Mr. Charles Clarke):** Subject to Parliamentary approval of any necessary supplementary estimate, the Department for Education and Skills DEL (including the Office for Her Majesty's Chief Inspector of Schools (OFSTED) which has a separate estimate) will be increased by £652,759,000 from £26,142,100,000 to £26,794,859,000 and the administration costs limits will be increased by £18,245,000 from £250,660,000 to £268,905,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

| | *Resources* | | | | *Capital* | | | |
|---|---|---|---|---|---|---|---|---|
| *DfES* | *Change £0* | *New DEL £0* | *Of which: Voted £0* | *Non-voted £0* | *Change £0* | *New DEL £0* | *Of which: Voted £0* | *Non-voted £0* |
| RfR 1 | 276,464 | 22,161,756 | 7,258,103 | 14,903,653 | 72,049 | 3,410,719 | 2,290,128 | 1,120,591 |
| RfR 2 | 215,797 | 695,928 | 695,928 | 0 | 2,911 | 30,536 | 30,536 | 0 |
| RfR 3 | 85,463 | 285,476 | 285,476 | 0 | 0 | 51 | 51 | 0 |
| OFSTED | 1,217 | 208,635 | 208,635 | 0 | -1,142 | 1,758 | 1,758 | 0 |
| Sub Total | 578,941 | 23,351,795 | 8,448,142 | 14,903,653 | 73,818 | 3,443,064 | 2,322,473 | 1,120,591 |
| Depreciation* | -556 | -47,544 | -11,847 | -35,697 | 0 | 0 | 0 | 0 |
| Total | 578,385 | 23,304,251 | 8,436,295 | 14,867,956 | 73,818 | 3,443,064 | 2,322,473 | 1,120,591 |

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

Within the administration cost limits changes, the impact is set out in the following table:

| *DfES* | *Original £'000* | *Change £'000* | *Revised £'000* |
|---|---|---|---|
| DfES (RfR1) | 207,124 | 12,796 | 219,920 |
| Sure Start (RfR2) | 9,136 | 4,268 | 13,404 |
| Children's Fund (RfR3 | 4,400 | 1,181 | 5,581 |
| OFSTED | 30,000 | | 30,000 |
| Total | 250,660 | 18,245 | 268,905 |

#### Resource DEL

The change in the resource element of the DEL of £578,941,000 arises from a £220,452,000 decrease in the voted element of the resource DEL and an increase of £799,393,000 in the non-voted element of the resource DEL mainly to the Department's non-departmental public bodies.

#### Voted Resource DEL

The £220,452,000 decrease in the voted element of the resource DEL arises from a £522,929,000 decrease in RfR1; from the movement of £312,996,000 to non-Voted Resource DEL; the movement of £44,370,000 to voted capital grants and £208,000 to non-voted capital; the decrease in Voted provision as a result of receiving Voted Appropriations in Aid (A-in-A) of £259,638,000 towards the Higher Education Funding Council for England's Non-Voted expenditure; the net transfer to the Department of Health of £4,372,000 for the Teenage Pregnancy Fund and the Children's Trust; the net transfer to the Home Office of £880,000 for Prison Education; the transfer to the Department of Environment Food and Rural Affairs of £500,000 for the school milk subsidy scheme; the transfer to the Department of Trade and Industry of £279,000 for the Women's Resource Centre and the School Teachers Pay Review Body; the transfer to the Department for Work and Pensions of £93,000 for the Parental involvement in Action Team; the net transfer in from the Office of the Deputy Prime Minister of £1,303,000 for the Neighbourhood Renewal Unit; the take up of £95,816,000 End of Year Flexibility (EYF) provision; the take up of £761,000 for the Education in Prisons scheme and the take up of Invest to Save Budget of £100,000 for the Core Cluster Pilot project. The transfer to the Office of Her Majesty's Chief Inspector of Schools in England (OFSTED) of £75,000 for the project on best practice to food and nutrition in primary schools and early years, the net virement of £4,802,000 from RfR2 for Standards Fund Grants, and the net virement of £2,300,000 to RfR3 for Children's Fund Grants are departmental DEL neutral.

The £215,797,000 increase in RfR2; arises from the take up of £221,599,000 End of Year Flexibility (EYF) provision for Sure Start administrative expenditure (£468,000) and for Sure Start programmes (£221,131,000); the DEL neutral virements of £4,802,000 to RFR1 for Standards Fund Grant payments and the £1,000,000 virement to RfR3 Children's Fund for Children and Young People programmes.

The £85,463,000 increase in RfR3 arises from the take up of £82,163,000 End of Year Flexibility provision for Children's Fund administration (£1,090,000) and for programme expenditure (£81,073,000); the net DEL neutral virements of £2,300,000 from RfR1 and £1,000,000 from RfR2 for Children's Fund Current Grants.

The £1,217,000 increase in the Office of Her Majesty's Chief Inspector of Schools in England (OFSTED) arises from a £75,000 DEL neutral transfer from RfR1 for the whole school project on best practice to food and nutrition in primary schools and early years; the £450,000 virement to capital and the increase of £1,592,000 due to the reclassification of voted A-in-A to Non-Operating A-in-A.

ADMINISTRATION COST LIMITS

The £18,245,000 increase in the Administration Cost limit arises from a £12,796,000 increase in the Administration Cost limit for RfR1 from the take up of £14,942,000 end of year flexibility; the residual machinery of Government transfer in from the Department of Health of £1,733,000; the transfer in from the Home Office of £248,000 for shared services and residual machinery of Government changes and the transfer out of £47,000 to the Office of the Deputy Prime Minister for Regional Government Office core work agenda; the decrease in admin costs from an increase in admin receipts of £280,000 for matching secondment expenditure and the DEL neutral virement of £3,800,000 to RfR2 Sure Start Administrative expenditure.

The increase in the administration cost limit for RfR2 of £4,268,000 arises from the take up of £468,000 end of year flexibility and the DEL neutral virement of £3,800,000 to RfR2 Sure Start administrative expenditure.

The £1,181,000 increase in the administration cost limit for RfR3 arises from the take up of £1,090,000 end of year flexibility and the reclassification of £91,000 programme to administrative expenditure.

NON-VOTED RESOURCE DEL

The £799,393,000 increase in Non-Voted Resource DEL arises from a £312,996,000 virement of Voted Resource DEL for various non-Departmental Public Bodies (of which £202,638,000 is for the Learning Skills Council for the delivery of key programmes: Employer Training Pilots and for the Higher Education Excellence Challenge); the take up of end of year flexibility of £210,815,000 (of which £136,900,000 is to the Learning Skills Council for current grants); the £259,638,000 increase in Higher Education Funding Council for England's expenditure with matching voted Resource A-in-A for Science Research Investment Fund and Higher Education Innovation Fund programmes; the transfer in from the Department of Health of £16,745,000 to the Higher Education Funding Council for England to fund various hospital and university projects; the draw down of £872,000 provision for Adult Learning Inspectorate and the Learning Skills Council and the virement of £1,673,000 to non-voted capital.

CAPITAL DEL

The change in the capital element of the DEL of £73,818,000 arises from a £60,988,000 increase in the voted element of the capital DEL and an increase of £12,830,000 in the non-voted element of the capital DEL.

VOTED CAPITAL DEL

The £60,988,000 increase to the voted element of the Capital DEL arises from a £59,219,000 increase in RfR1 Voted Capital from a virement increase of £44,370,000 from Voted Resource DEL; from the £700,000 decrease to Non-Voted Capital for the Student Loans Company, from the Machinery of Government transfer from the Department of Health of £171,000; from the take-up of End of Year flexibility of £7,289,000 and the DEL neutral virement of £8,089,000 from RfR2 Sure Start.

The £2,911,000 increase in RfR2 Voted Capital, from the take up of £11,000,000 End of Year Flexibility (EYF) provision for Sure Start Local Authority Capital Grants and the DEL neutral virement of £8,089,000 to RfR1 for Standards Fund Capital grants to Local Authorities.

The £1,142,000 decrease in OFSTED Voted capital, from the classification of £1,592,000 Voted A-in-A receipts to Non-Operating capital receipts and the virement of £450,000 voted resource to voted capital.

NON-VOTED CAPITAL DEL

The £12,830,000 increase to the non-voted element of Capital DEL arises from the take-up of EYF of £7,457,000 (of which £3,957,000 to the Learning Skills Council for the delivery of capital programmes); the virement of £1,673,000 of NDPB resource for capital activity; the virement of £700,000 voted capital for Student Loans Company capital programmes; the virement of £208,000 from voted resource and the In-Year take up of £2,792,000.

## Teachers' Pension Scheme

**The Minister for School Standards (Mr. David Miliband):** Parliamentary approval for additional resources of £111.8 million is being sought in a spring supplementary estimate for the Teachers' Pension Scheme. Pending that approval, expenditure estimated at £30 million will be met by a repayable cash advance from the Contingencies Fund.

The Teachers' Pension Scheme Fund is managed by the Department for Education and Skills and administered under contract by Capita Business Service Ltd. The Department's funding to Capita is completed on a daily basis with the funded amount being determined by the "net cash requirement" for payments that Capita makes on behalf of the Teachers' Pension Scheme.

Cash drawn down from the Consolidated Fund is greater at the beginning of each month because income and related cash arrives too late to fund this expenditure. To enable the Department to meet its funding obligations the £30 million will be required to make up the shortfall between the funding requirement and the Spring Supplementary Estimate provision becoming available.

## INTERNATIONAL DEVELOPMENT

### Water Action Plan

**The Secretary of State for International Development (Hilary Benn):** I have placed in the Libraries of both Houses a copy of DFID's new Water Action Plan. It sets out how DFID will contribute to meeting the Millennium Development Goals (MDGs), through our commitments to water supply, sanitation and water resource management.

Over one billion people do not have access to safe water to drink. Over two billion lack adequate sanitation. Hundreds of millions of people live in areas where there is an overall and increasing shortage of water. Polluted ecosystems and poor water management have a detrimental effect on the health and livelihoods of poor people, and on economic growth. Water and sanitation are consistently among the top priorities of poor people in most developing countries. This does not however always result in action by Governments.

The problems are complex. The approach set out in the Water Action Plan recognises that efforts to improve water supply, sanitation or water resource management are most effective when they support developing country Governments' own plans. Against this background, DFID's Water Action Plan sets out a plan of work at international regional and national levels. This includes: making sure water and sanitation figure prominently in policy discussions with our main partner countries; providing evidence of the links between improved water management, water supply and sanitation and achieving all the MDGs, and ensuring that we are making use of this evidence in our policy dialogue; and improving the way the international system works, by focusing support on key international partnerships and networks, particularly those that can improve co-ordination in the water sector.

The next step is putting this Action Plan into operation, to ensure a coherent approach to water and sanitation issues at national, regional and international levels. This will include developing milestones against which progress can be assessed. As part of its review of progress, DFID will also establish a regular water and sanitation forum in the UK for sharing knowledge and ideas with development partners.

The Water Action Plan is also available on the DFID website: www.dfid.gov.uk.

## HOME DEPARTMENT

### Police Information Technology Organisation

**The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears):** I am announcing today the appointment of Chris Earnshaw to succeed Lieutenant General Sir Edmund Burton as Chair of the Police Information Technology Organisation (PITO). He will take up the appointment with immediate effect.

This is an important and high-profile post. PITO has a key role in bringing forward the Government's plans for delivering a "joined-up" criminal justice system and improving the efficiency and effectiveness of the police. I would like to pay tribute to Sir Edmund Burton for his significant contribution. Mr. Earnshaw, as his successor, brings very considerable experience at senior levels in industry and a substantial Information and communications technology background. I am confident that, under his leadership, PITO will continue to deliver the key IT programmes and services on which the police service depends.

## HEALTH

### NHS Trusts

**The Secretary of State for Health (Dr. John Reid):** Pursuant to the dissolution of 16 national health service trusts since 1 August 2002 and their reconfiguration through the establishment of seven new NHS trusts, I propose to create originating capital for the new NHS trusts equal to the net assets transferred to them and therefore to remit the outstanding debt of the dissolved trusts.

Assets from some of the dissolved trusts were also transferred to primary care trusts. Public dividend capital is not required as a financing transaction for these transfers as primary care trusts are subject to a different financial regime. Net assets transferred from dissolving NHS trusts to primary care trusts are reflected in an increase to the general fund of the primary care trust.

These operations involved no overall loss to the Exchequer. Her Majesty's Treasury has today presented a minute to the House giving particulars and circumstances of the proposed remission, which it has approved in principle.

## TRADE AND INDUSTRY

### Council for Science and Technology

**The Secretary of State for Trade and Industry (Ms Patricia Hewitt):** My right hon. Friend the Prime Minister today appointed 16 members to the Council for Science and Technology following its recent review. The appointments represent a wide range of experience from the scientific community, business and charities. The 16 appointments are:

Professor Sir John Beringer CBE
Professor Geoffrey Boulton QBE FRS FRSE
Professor Janet Finch CBE DL AcSS
Mr Andrew Gould
Professor Wendy Hall CBE FREng
Dr Hermann Hauser FREng CBE CPhys FInstP
Dr Dieter Helm
Professor Alan Hughes
Dr Sue Ion QBE FREng
Dr Rob Margetts CBE FREng
Sir Paul Nurse FRS
Sir Keith Peters FRS PMedSci
Dr Raj Rajagopal FREng CEng FIEE FIMechE FIE FCMI
Professor Michael Sterling FREng
Professor Kathy Sykes
Dr Mark Walport FMedSci

The Council for Science and Technology is Government's top-level independent advisory body on strategic policy for science, engineering and technology. Its advice has been instrumental in helping the Government develop its present strategies for improving the excellence of the research base and putting it on a sustainable footing, for improving science education and for making effective use of science, engineering and technology. On 22 July 2003, the Government announced updated terms of reference and a new organisation for CST to reflect the needs of the UK Government and the Devolved Administrations for advice in coming years.

CST will report to the Prime Minister and the First Ministers of the Devolved Administrations. The 16 members will choose one of their number to act as co-chair alongside the Government's Chief Scientific Adviser, Sir David King.

Full details of CST's terms of reference and organisation, and biographies of the members, can be found at www.cst.gov.uk.

Decisions on appointments have been made following open competition and wide consultation with key players.

*Tuesday 9 March 2004*

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan (International Counter Narcotics Conference)

**The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell):** The Afghan Government, United Kingdom (UK) and United Nations Office on Drugs and Crime (UNODC) co-hosted an International Counter Narcotics Conference on Afghanistan in Kabul on 8/9 February to support implementation of the Afghan National Drug Control Strategy. I was, in the event, unable to attend, due to planes being unable to land in Kabul because of adverse weather conditions. I was represented by HM Ambassador, Rosalind Marsden. Over 300 Afghan and international delegates attended, including 18 Afghan Governors and 32 Police Chiefs as well as officials from all the key Afghan Ministries, representatives from 18 countries, the European Commission, World Bank and Asia Development Bank. President Karzai opened the conference, which was also addressed by Afghan Ministers.

The Government welcome the success of this event, which was the first time that Afghans had gathered at such a high level and in such large numbers to discuss implementation of the Afghan National Drug Control Strategy. The plenary meeting and working group sessions were all chaired by Afghans. Active participation from Afghans from the floor demonstrated increased commitment to the counter narcotics agenda from all parts of the Afghan government.

The Government fully share the view of those members of the Afghan government who spoke out forcefully against drugs and agrees with President Karzai, who stressed that the drugs trade was damaging Afghanistan's efforts to develop into a secure, stable democracy with a prosperous economy; that it was in the interests of all Afghans to fight against drugs; that Afghanistan needed the help of the international community to win the battle but the Afghan government was committed to tackling the drugs problem with its own resources also. International speakers also delivered the message that urgent action was required, including tackling corruption.

Conference participants discussed draft action plans in five areas: law enforcement, judicial reform, alternative livelihoods, public awareness and demand reduction. These action plans have been finalised and form part of a final report of the conference to be published by the UNODC and circulated in Afghanistan and beyond. They include work to:

increase interdiction activity, for example by increasing the numbers and effectiveness of the Counter Narcotics Police of Afghanistan and mobile detection teams

tackle corruption and involvement of officials and commanders in the drugs trade

increase resources for programmes with maximum alternative livelihoods impact and support the design and implementation of programmes to fill existing gaps, for example in pro-poor agricultural livelihoods, rural finance, off farm activities and micro/small enterprise development

The UK remains fully committed to support the Afghan Government in implementation of its National Drug Control Strategy, which will in part be secured through delivery of the agreed action plans in key areas. We have committed £70 million over three years for this purpose and will also encourage the participation of other international partners to take on specific activity.

## TRANSPORT

### GLA Transport Grant 2003–04

**The Parliamentary Under-Secretary of State for Transport (Mr. Tony McNulty):** The Secretary of State for Transport has today re-determinded the GLA transport grant at £1,681,932,000 for 2003–04 following consultation with the Mayor of London, as required under section 101 of the GLA Act 1999. This represents a net reduction of £2,408,000, following lower than envisaged ring fenced expenditure by Transport for London on bus innovation projects.

## DEPUTY PRIME MINISTER

### Planning Delivery Grant

**The Minister for Housing and Planning (Keith Hill):** In July 2002 my right hon. Friend the Deputy Prime Minister announced that the Office of the Deputy Prime Minister would be making an additional £350 million available to local authorities over the period 2003–06 to improve the delivery of planning services. The grant is being paid out of additional resources from Spending Review 2002 for planning. We have now decided the basis on which we will distribute the Planning Delivery Grant in 2004–05 and will be informing recipients of their allocations.

The grant is performance related. Our aim is to enhance the resourcing of the planning system in a way that drives performance improvement and ensures effective delivery of our objectives for sustainable communities which we set out in the document "*Sustainable Communities: Building for the Future*". It is specifically targeted towards meeting the Office of the Deputy Prime Minister's Public Service Agreements (PSA) 5 and 6. PSA 5 aims to achieve a better balance between housing availability and demand. PSA 6 requires all authorities to have local development frameworks in place (in accordance with agreed Local Development Schemes) and to meet the Best Value development control targets by the end of 2006–07.

I can confirm today the amount of grant distributed in 2004–05 is £130 million. It will be paid to local planning authorities, regional planning bodies and the Greater London Authority. A small amount of the grant, £2.61 million, will be top-sliced to support a number of national initiatives directly related to improving local authority planning performance. The allocation criteria

have been broadened this year and the grant is not just about speed of decision taking. Local authorities are rewarded for both improvement towards and achievement of Best Value development control targets in the period October 2002 to September 2003. The grant also rewards authorities for having an up to date local development plan or for taking steps to introduce a new plan, or make a significant revision to an existing plan, in the period March 2002–September 2003. Grant allocations are enhanced for local authorities within the high housing demand and growth areas identified in the Communities Plan in proportion to their contribution towards delivering net additions to the housing stock. Local authorities are also awarded £5,000 for each Enterprise Area within their boundary, up to a maximum of £100,000.

The Office of the Deputy Prime Minister has been concerned to hear allegations that authorities have been refusing applications or putting pressure on applicants to withdraw in order to qualify for increased grant. We have carried out extensive analysis and have found no consistent statistical relationship between the indicators said to represent these practices and improved performance. We remain concerned, however, to ensure that local authorities are not rewarded for providing a poor service. Where a local planning authority's performance on appeal is poor we are abating initial allocations by 10 per cent.

In 2003–04 the grant was paid without condition. In 2004–05 two conditions will be imposed on PDG payments. The conditions are designed to ensure that the Office of the Deputy Prime Minister has the power to act appropriately to partly withhold payment or recover part or all of grant paid where there are concerns over the accuracy or proven inaccuracies in the information on which allocations were made. We will be withholding part of the grant allocated to authorities whose Best Value Performance Indicator 109 (BVPI 109) has been qualified by the auditor until we have written to the authorities concerned to investigate the reason for the qualification and the reliability of the data on which grant was allocated. Following this we may seek to recover some or all of the monies paid to those authorities.

Grant allocations are not ring-fenced and authorities have complete discretion in the way they spend this money. Areas that authorities may consider concentrating on include: contributing to the preparation of regional planning guidance and the future regional spatial strategies; completing current reviews of existing development plans and preparing for the new system of local development frameworks; better resourcing of IT systems; assistance from consultants; outsourcing of certain planning services; increasing staffing levels; training for staff and councillors; supporting mediation services; encouraging a more diverse planning workforce; bursaries for employees to gain planning qualifications and more use of technical staff.

Regional Planning Bodies receive grant to support their work preparing regional spatial strategies and in recognition of the additional work which the strengthened regional planning function envisaged by the Planning and Compulsory Purchase Bill, currently before Parliament, will involve. In 2004–05 this totals just under £7 million. The Greater London Authority receives grant in recognition of its plan making responsibilities and is allocated funds on its progress towards publishing the London Plan.

County Councils will receive resources from the grant in recognition of their minerals and waste plan responsibilities. They do not receive direct resources from the grant to prepare structure plans. The counties' planning functions are being changed under the Planning and Compulsory Purchase Bill currently before Parliament. Subject to Royal Assent, County Councils will cease to have a duty to prepare structure plans but their resources will not be reduced accordingly. Therefore as this function winds down they will be able to take advantage of freed up resources. It will be important that these freed up resources, and the expertise available in county councils, are retained and used to deliver other county planning responsibilities and to undertake their function as statutory consultees in the preparation of regional spatial strategies (RSS), which are due to replace regional planning guidance under the Bill, and local development frameworks. Counties can also be engaged to conduct RSS related work on an agency basis.

Decisions have yet to be taken on the basis of the grant for 2005–06. However, the requirement to meet PSA 5 and 6 means that the Office of the Deputy Prime Minister will continue to link grant awards to improved planning performance so as to incentivise authorities to reach and exceed the development control handling targets and produce local development documents in a timely manner and to incentivise delivery of housing in areas of high housing demand. Authorities should be aware that they will need to continue to secure improvement in these areas. We will monitor performance in respect of both development control and plan making in order to inform future decisions on this. In 2005–06 we will be rewarding authorities for their progress in implementing e-planning. The nature of this assessment has not yet been decided. We will consult on full proposals for allocations before any final decisions are taken.

A table showing the amounts payable and letters to all Leaders of local and county planning authorities; Chief Executives of the regional planning bodies; and the Mayor of London are available in the libraries of the House. They set out the details of each recipient's grant.

### Growth Areas Fund

**The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper):** "*Creating sustainable communities: Making it Happen: Thames Gateway and the Growth Areas*" published in July 2003 announced outline plans for a £164 million package for the three newer growth areas of Ashford, Milton Keynes-South Midlands, and London-Stansted-Cambridge-Peterborough. Commitments were made then to fund individual schemes to a total value of £88 million, and a further £63 million was announced on 14 January this year.

My right hon. Friend the Deputy Prime Minister is announcing today a further £22 million of funding, which will support sustainable growth in the London

Stansted Cambridge Peterborough Growth Area. We are providing these resources to help site assembly and remediation of brownfield land, additional affordable housing and essential infrastructure in the growth area. The inclusion of Peterborough in the area takes into account its history of successful growth and its potential for contributing to the growth area as a whole.

A full list of the further projects that we are supporting will be made available in the House Libraries. They include over £10 million for redevelopment and to enable the more rapid delivery of at least 2,000 new homes in Peterborough. It also includes almost £500,000 to open up the River Roding in Ilford as a green space and improve the local ecological environment, and £1.8 million to kick-start a major development at Tottenham Hale, including remodelling the major transport interchange. Other projects will include over £1.2 million to unlocking and improving access to development sites in Walthamstow to provide potential for 500 new homes and jobs.

# Written Ministerial Statements

*Wednesday 10 March 2004*

## HOME DEPARTMENT

### Immigration Documents

**The Minister for Citizenship and Immigration (Beverley Hughes):** During the summer of 2003 the Government consulted stakeholders about the introduction of a charge for extension of leave to remain for immigration employment documents such as work permits. Responses to the consultation were published on 7 January 2004.

I am announcing today that following the consultation a charge of £121 will be introduced for the consideration of each application from 1 April 2004 (within the range proposed in the consultation document). A new form for applications for leave to remain for immigration employment documents will also be introduced. A full Regulatory Impact Assessment has been carried out, and this is available from today in the House of Commons library.

I am also announcing an increase in the fee for Convention Travel Documents, issued to refugees; Stateless Persons' Travel Documents; and one way documents of identity. From 1 April 2004 the charge for application for these documents will increase from £28 to £42 to bring fees in line with those for the UK passports. Statutory instruments that set out the regulations for the new fees and leave to remain application form will be available from today.

### Crime Reduction and Drugs Misuse

**The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears):** Through the Building Safer Communities Fund I am making a total of £74 million directly available to local Crime and Disorder Reduction Partnerships in 2004–05, to assist them in delivering their crime reduction and drugs priorities in the light of local needs.

This will be the second year of the Building Safer Communities Fund, and builds on the progress made in 2003–04. I remain keen to help local Partnerships to focus on reducing crime through having one crime reduction funding stream, with an emphasis on less paperwork. This fund will continue to assist in strengthening Partnerships' capacity to deliver.

The money can again be used in a variety of ways and Partnerships are showing that they can use their programme funding to deliver a wide range of interventions. They are using it to reduce gun crime; to disrupt drugs markets through direct police work; running activities designed to divert children from getting involved in crime and drugs; paying for more CCTV cameras or targeted campaigns on particular crimes or drugs hotspots; or for warden schemes. These are just examples and the views of the community are key to inform local decisions.

I want to continue to give Partnerships the resources and flexibility to target investment where it will reduce crime and deliver real change on the ground, in accordance with local priorities. The single fund will enable local agencies on the front line to boost the work they do to tackle crime and drug abuse.

## TRADE AND INDUSTRY

### Equal Pay

**The Secretary of State for Trade and Industry (Ms Patricia Hewitt):** Along with other Government organisations DTI and its Agencies completed equal pay audits in 2003 and put in place action plans to address any concerns.

The Cabinet Office produced an overview of audits from across the Civil Service on 27 November 2003

(see http://www.cabinet-office.gov.uk/civilservice/performanceandreward/performance.html).

All DTI organisations are already taking steps to deliver on their action plans and will review equal pay as part of future pay rounds.

Action Plans and summaries have now been placed in the Libraries of the House and published on websites

(see http://www.dti.gov.uk/about_dti_documents.html).

## WORK AND PENSIONS

### Housing Benefit Reform

**The Secretary of State for Work and Pensions (Mr. Andrew Smith):** In October 2002, I announced a wide ranging programme of Housing Benefit reforms aimed at giving tenants choice and promoting personal responsibility. The centrepiece of those reforms is the Local Housing Allowance—a set amount allowance for housing costs based simply on household composition and location, and reflecting market rents.

We are testing this new scheme, for tenants renting accommodation in the private sector, in nine pathfinder local authorities, representing different types of housing markets, before rolling it out nationally. When we launched the policy I promised to keep colleagues updated on progress and I know there has been interest from many hon. Members in these groundbreaking reforms. I am pleased to report as of 9 February all pathfinders are up and running and implementation has gone smoothly.

Already some 19,000 tenants are enjoying the benefits of Local Housing Allowance in the Pathfinder areas, and a further 25,000 will transfer over the coming months.

For tenants in the private rented sector the local housing allowance means, for the first time, they will know in advance how much they will receive towards housing costs. This greater certainty about the amount of benefit that will be paid will help people make the move from benefits to work. Tenants will be able to choose where to live and whether to spend all, less or more than this on rent, out of their total income. These are the same choices that we all make.

It follows that to have this freedom of choice, and to exercise this personal responsibility, payments of local housing allowance are normally made to the tenant rather than the landlord.

We recognise that some tenants, who have not been used to having those choices and responsibilities, will need help and support. We also recognise that it is important to provide safeguards for landlords against tenants who default on their rent. We are providing a range of safeguards for landlords, and support and advice for tenants.

It is too early to provide any firm analysis but I am pleased to report that there are already signs of tenants exercising choice by negotiating rent, and moving to accommodation that is more appropriate to their needs, and that landlords are working with pathfinders and claims are being processed more quickly.

We will continue to closely monitor and evaluate the pathfinder stage before extending the benefits of the Local Housing Allowance nationally.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Fisheries

**The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw):** Effective monitoring, control and surveillance are critical to the operation of the Common Fisheries Policy and measures to conserve fish stocks. Towards the end of last year the European Commission drew attention to shortcomings in the United Kingdom's control arrangements and compliance with the rules and regulations of the Common Fisheries Policy. Concerns have also been expressed by the National Audit Office and the Public Accounts Committee and more recently by the Cabinet Office Strategy Unit, which will report shortly on a sustainable future for the fishing industry.

With increasing emphasis on the sustainable use of naturally occurring resources, a culture of high compliance becomes ever more important. To encourage such culture and to respond to the concerns raised by the European Commission and others, the Fisheries Departments in the UK are taking a number of measures to strengthen fisheries monitoring, control and surveillance. These include:

consideration of moving away from the current system of criminal sanctions towards a potentially more responsive system of administrative penalties for breaches of fisheries regulations;

improved accountability and traceability of fish landings through the designation of fish markets and the registration of all sellers and buyers of first sale fish;

improvements in the weighing of fish before it is sold or before it leaves the port of landing for sale elsewhere;

extending the existing arrangements for designated landing ports and for the prior notification of catch to vessels below 20 metres;

the wider use of single area or single species licensing;

the fitting of tamper proof satellite position reporting terminals to all vessels over 15 metres;

the better utilisation of resources with a greater focus on land-based inspection.

Some measures are already being put into effect and others are or will be the subject of consultation with the industry. Together the measures will complement other action that is being taken at both national and Community level to safeguard fish stocks and the long-term interests of the fishing industry.

A more detailed note on the action that is being taken has been placed in the library of each House and copies are to be sent to fishermen and other stakeholders.

# Written Ministerial Statements

*Thursday 11 March 2004*

## TRANSPORT

### Light Dues

**The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson):** I am pleased to announce that for 2004–05 light dues rates will be reduced from 40p to 39p per ton and that the tonnage cap will be reduced from 40,000 tons to 35,000 tons.

The Government remain committed to a cost recovery system yet rates have been reduced significantly in the last 11 years. They were last reduced in 2002. Much of the credit for being able to sustain these charges must go to the General Lighthouse Authorities—Trinity House Lighthouse Service, the Northern Lighthouse Board and the Commissioners of Irish Lights—that continue to maintain high standards while keeping costs down.

The final report of the Economic Study of the Impact of Light Dues is nearing completion. The consultants, MDS Transmodal and DTZ Pieda have undertaken a wide-ranging review of statistical and economic evidence and interviewed a number of interests. The completion of the report has been put back to take account of suggestions and information received from industry representatives. We expect the report to be published in the next few weeks. An announcement concerning the Government's reaction to the report and proposed next steps will be made after we have fully considered the report and heard the views of stakeholders.

## CULTURE, MEDIA AND SPORT

### Television Licence Fees

**The Secretary of State for Culture, Media and Sport (Tessa Jowell):** On 11 November 2003, *Official Report*, column 11WS, the Government announced that, from 1 April 2004, the fee for a colour television licence would rise to £121 and the black and white licence fee to £40.50.1 will today lay before the House the regulations necessary to bring these new fees into force.

The new regulations also:

Incorporate the 50 per cent. licence fee concession for blind persons originally introduced by the Secretary of State's determination under section 2(2) of the Wireless Telegraphy Act 1949, dated 31 March 2000.

Incorporate provision for free television licences for persons aged 75 and over, originally introduced by the Secretary of State's direction to the BBC under section 1(2) of the Wireless Telegraphy Act 1949, dated 30 October 2000.

Define "television receiver" for the purposes of the requirement to have a TV licence under Part 4 of the Communications Act 2003.

Define "television dealer" and "television set" for the purposes of Part 1 of the Wireless Telegraphy Act 1967 (which imposes upon television dealers an obligation to notify the BBC, as the authority responsible for TV licensing, of the sale or hire of a television set).

Amend the definition of "accommodation for residential care" for England, Wales and Scotland to reflect changes in the care homes legislation; clarify the definition of certain expressions relating to this concession and provide that a group of dwellings may be within the definition of "a group of specially provided dwellings" even if one of the dwellings is occupied by a caretaker.

Clarify the operation of the easy payment schemes.

Amend the definition of "hotel", for the purposes of television licence fees for hotels, to impose a maximum stay for guests of 28 days in any consecutive period.

## TRADE AND INDUSTRY

### Offshore Licence

**The Minister for Energy, E-Commerce and Postal Services (Mr. Stephen Timms):** I am pleased to inform the House that I am today offering RWE Dea UK SNS Limited an Oil and Gas Production licence on Seaward Block 43/20c in the Southern North Sea.

The successful applicant will have a fixed period in which to decide whether or not to accept the offer

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Water Price Limits (Periodic Review)

**The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett):** I have today issued my Principal Guidance to the Director-General of Water Services (Ofwat) on policies affecting the 2004 Periodic Review of water price limits in England. The review will produce price limits, set by Ofwat, for the years 2005–10.

This guidance is the second public contribution to the 2004 Periodic Review. My Initial Guidance was published in January 2003.

This Principal Guidance sets out my main decisions and views on a wide range of relevant policies and legal requirements which bear on price limits. It takes account of the information and advice so far to hand, including the proposals and costings put forward by companies in their draft business plans in August 2003, views on these cost estimates from Ofwat, further policy advice from Ofwat and from the other regulators, and the views of customers and other interested parties.

The main areas for decision by Government now are the drinking water and environment programmes. Previous Periodic Reviews have raised the standards of our drinking water and of water in the environment. It is our policy to continue these improvements, while taking account of the effects on customers' bills.

Companies' programmes must deliver existing commitments including our EU obligations and other statutory obligations. These will produce very significant benefits to the environment and for customers. I have also selected for inclusion in companies' final business plans and Ofwat's draft price

limits, some further programmes that go beyond what is strictly required under EU commitments, and which appear to offer good value for money.

Two existing long-term programmes to improve customers' drinking water will be completed during the 2005–10 period. One is a programme of improvements to remove contaminants at water treatment works to ensure that they can continue to provide wholesome drinking water supplies. The other is a 20-year programme to replace or reline old, corroding water mains. Work will continue to lower yet further the level of lead in drinking water.

The programme of environmental improvements to our inland and coastal waters recognises the need to build on the achievements already made and start work towards the demanding future objectives set by the EU Water Framework Directive. But it also stands in its own right and addresses a range of issues including the need to improve further the condition of water and wetland sites of special scientific interest, bring more waters up to the standards required for fresh water fish and improve bathing waters.

The whole programme must be carried out at the minimum cost to customers. The process of challenge and refining has already substantially reduced the potential programmes. This process has yet some way to go and I would expect costs to be driven down further. My Department will continue to work with the Drinking Water Inspectorate, English Nature and the Environment Agency on how they should translate the guidance into regulatory requirements. I expect those regulators to work with companies to identify how legal commitments and the other policy outcomes specified in this guidance can be delivered by pragmatic cost-effective solutions.

It is then for Ofwat to challenge the costs that companies need to deliver the requirements of the regulators and the policies in this guidance. I am confident that Ofwat will scrutinise and challenge with equal attention all aspects of companies' costs underlying their business plans, including the costs that companies assign to delivering the commitments and policies set out in this guidance.

I am also clear that achievement of future water quality standards will require significant action by a much wider range of actors than the water industry, including land managers as well as others who are responsible for diffuse water pollution. As part of this process, we will be shortly publishing an action plan outlining a full range of options for addressing diffuse pollution from agriculture.

The policies contained in this guidance are strongly informed by the interests of customers. I am concerned about the effect of water bills, especially on those least able to pay. I will be reviewing the way in which lower income households are helped with their water and sewerage charges.

My Department will work with the regulators to refine the cost benefit analysis and will also prepare and publish a regulatory impact assessment of the improvement policies in this guidance that go beyond existing commitments and the costs to customers that they imply. These processes will inform the final guidance.

In the light of companies' final business plans, the draft price limits published by Ofwat and their implications for customers' bills, as well as any further advice from the regulators and the regulatory impact assessment, I shall issue my final guidance in Autumn 2004.

## HEALTH

### Doctors' and Dentists' Remuneration

**The Secretary of State for Health (Dr. John Reid):** I am responding on behalf of my right hon. Friend the Prime Minister to the Thirty-third Report of the Review Body on Doctors' and Dentists' Remuneration (DDRB) which is published today. Copies of the report are available in the Vote Office and the Library. I am grateful to the chairman and members of the Review Body for their hard work.

This year's report deals primarily with general dental practitioners, doctors and dentists in training, non-consultant career grade doctors, medical and dental consultants who have chosen not to take up new contracts, and ophthalmic medical practitioners. For consultants taking up new contracts, general medical practitioners and the salaried primary dental care services, 2004–05 will be the second year of three-year pay deals agreed as part of NHS pay reforms.

The Review Body has recommended with effect from April 2004 general increases in remuneration of 2.7 per cent. for doctors and dentists in training and non-consultant career grade doctors, 2.5 per cent. for consultants who remain on the old contract and an increase of 2.9 per cent. in gross fees for general dental practitioners. The Review Body has also recommended adjustments to some features of the pay scales for associate specialists, staff grade practitioners and specialist registrars and additional funding to support a structured change management programme for dentists and their staff.

The Review Body's pay recommendations are being accepted in full and without staging.

### Paroxetine

**The Minister of State, Department of Health (Mr. John Hutton):** Following continuing interest in both Houses about the issues surrounding the safety of Selective Serotonin Re-uptake Inhibitors (SSRIs), including Seroxat (paroxetine), this statement informs the House of further conclusions of the Committee on Safety of Medicines (CSM) based on the work of the Expert Working Group on SSRIs.

In reviewing clinical trial data on the dosage of paroxetine and prescribing data suggesting that as many as 17,000 patients were started on doses above 20mg in the last year, the Committee concluded that a reminder to prescribers was necessary in the following terms; that

(i) the starting dose of paroxetine in the treatment of depression should be 20mg, as per the current Summary of Products Characteristics (SPC);

(ii) there was no evidence from clinical trials of increased efficacy in the treatment of depressive illness above 20mg;

(iii) the adverse events that occur soon after starting therapy may be difficult to distinguish from the underlying condition. There is evidence that increasing the dose in this situation may be detrimental;

(iv) rapid upward titration may increase the risk of serious adverse events;

(v) those currently on a higher dose and responding well to treatment should remain on the same dose and be reviewed at their next regular treatment review;

(vi) patients should not stop treatment suddenly. Any cessation of treatment should proceed by a gradual downward titration.

Detailed communications to patients and prescribers are taking place today. These will include a summary of clinical trial data on which the conclusions of the CSM and its Expert Group are based. This has been placed in the Library, and is available on the MHRA web-site.

The Expert Working Group will continue its work to conclude their full review of the safety and efficacy of SSRIs and will examine what implications, if any, these latest findings have for the use of other SSRIs.

## DEPUTY PRIME MINISTER

### Professional Conduct Committee

**The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Phil Hope):** In July 2003, the Office of the Deputy Prime Minister consulted a number of professional organisations on a draft Statutory Instrument providing for the enlargement of the membership of the above Committee and amending the rules concerning its quorum. The responses to that consultation have now been analysed, and an amended Statutory Instrument was laid before Parliament yesterday.

The amendments to the draft Statutory Instrument are only minor and the effect remains that the pool of PCC members will be enlarged by seven additional persons. The Statutory Instrument will come into effect on 1 April 2004.

A number of consultees made other points concerning the Board, and one organisation requested a setting up of a Parliamentary Committee to investigate certain matters about the Board and its work. I have considered all of the representations received and have met the Chairman and other members of the Board to discuss. I have full confidence in the Board and the way it operates under the powers given in the Architects Act 1997 and have concluded that there is no need to set up such an inquiry.

# Written Ministerial Statements

*Friday 12 March 2004*

## HOME DEPARTMENT

### Coroner and Death Certification Service

**The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins):** Today I am publishing and placing in the Library a paper setting out the Government's position on the arrangements we propose to introduce to replace our existing systems for the certification and investigation of deaths in England and Wales and Northern Ireland.

In June last year we published the report of the independent Fundamental Review of the Coroner Services. In July, the Third Report of the Shipman Inquiry was published following the conclusion of Phase Two of Stage Two of the Inquiry's investigation of our death certification and investigation arrangements. This discharged the Inquiry's remit to enquire into relevant issues concerning the registration of deaths, cremation certification and the coroner system as a result of the murders perpetrated by Harold Shipman.

Both reports identified similar problems with our existing arrangements. They recommended similar, but not identical solutions. My right hon. Friend the Home Secretary invited Tom Luce, the chairman of the Fundamental Review, to advise him on the links between the two reports. We have now received that advice and have considered the reports further. I would like to take this opportunity of saying how very grateful the Government are to both Tom Luce and Dame Janet Smith for all the help they and their teams have given the Government as we take forward change in this important and complex area.

We intend to sweep away the existing procedures and structures. We must have a coherent system with oversight of all deaths based around full-time judicial coroners with appropriate medical expertise in close support. We must be able to ensure that families can find out how their relatives died, and that avoidable deaths can be prevented in future. Our public health strategies need to be informed by robust mortality data. Our paper now maps out the broad procedures and structures we would wish to see in place to achieve this in the future. The proposals I am publishing today take account of the requirements across all Government Departments.

The paper does not, and cannot, provide a detailed blueprint for the reformed service. It offers an outline of our proposals, which will need to be firmed up in the course of discussions with practitioners and other stakeholders. Once we have this more detailed information on practicalities and costs, and can be satisfied both on effectiveness and affordability, we propose to come forward, later this year, with a detailed White Paper and draft legislation.

### EU Association Agreements

**The Minister for Citizenship and Immigration (Beverley Hughes):** I announced in response to a Question from the right hon. Member for Haltemprice and Howden (David Davis) 8 March 2004, *Official Report*, columns 1245–52, that I had ordered a full investigation of how it came about that guidance was issued to staff in the Sheffield office of the Immigration and Nationality Directorate on the handling of applications under the European Union Accession agreements without my knowledge or that of senior IND management.

The investigation is being conducted by Ken Sutton, Senior Director (Asylum), who is outside the management line for the Sheffield office. Its terms of reference are:

"To investigate:

> The circumstances in which guidance has been issued to IND staff in the General Casework Section in Sheffield since September 2003 on the handling of applications made under the EC Association Agreements; on what authority this guidance was issued; and what steps, if any, were taken to seek higher authority or consult more -widely within the organisation;

To establish the facts; and

To make recommendations for addressing deficiencies in management which are revealed, to prevent any recurrence;

To make an interim report on the factual position by 18 March, and a final report by the end of March".

Mr Sutton commenced his investigation on 9 March, and has interviewed most of the staff involved. He is now piecing together the precise circumstances in which the guidance was issued. I have asked him to give me an interim report on the facts of the matter by 18 March. I have also asked Mr Sutton to report on current, longstanding and any previous exercises over the last 10 years for dealing with backlogs.

In the meantime, IND senior management has decided that management in the Sheffield general casework office needs to be significantly strengthened. An experienced senior manager is being moved in to take charge of this office with effect from Monday.

There have been questions about the number of ECAA applications. From internal management information, it is estimated that just over 19,000 applications under the ECAA route were received in 2002–03 and around 36,000 to date in 2003–04. Of these, just over 18,500 and 29,000 respectively were from people already lawfully in the country but who are simply seeking to extend their stay or change the basis on which they are here. Some 600 applications in 2002–03 and just over 7,000 to date in 2003–04 were from people overseas seeking entry clearance. The total number of decisions in these cases from September 2003 to date is around 26,000. Again, the vast majority of these individuals were already here lawfully. Of these, just over 25,000 were approved and nearly 800 were either refused or fell for other reasons.

The Department has a duty of confidentiality regarding discipline and employment and a general duty of care to staff. In accordance with our normal policy, we will not release or confirm the names of members of staff during the course of this investigation.

## NORTHERN IRELAND

### Department of Agriculture and Rural Development's Science Service

**The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Ian Pearson):** I am today announcing my decision to extend the role of the new Non-Departmental Public Body, which will take over responsibility for the functions of the Department of Agriculture and Rural Development's Science Service in 2006.

I previously announced the Government's decisions in response to the O'Hare Report on the Department of Agriculture and Rural Development's arrangements for the provision of agri-food education and R&D in Northern Ireland on 31 March 2003. Within that statement, I announced that provision was to be retained within DARD to provide emergency response and surveillance. However, following further analysis and consideration of the functions and organisation of the new NDPB, it has become clear that this emergency response capability should also transfer to the new body.

I am confident that this extended role for the NDPB will enable DARD, working in close co-operation with the body, to handle any future emergencies in the animal health sector. Furthermore, I believe that the decision that I am announcing today will ensure a more coherent organisation, without duplication or overlap, better placed to provide the services required by its customers. It is estimated that around 220 staff who would have been retained within DARD, will now move to the new NDPB, bringing its total staff numbers, including those moving from the Agricultural Research Institute for Northern Ireland (ARINI) to around 850.

The decision to place ARINI in the NDPB is unaffected by this change.

## TREASURY

### Mortgage Market

**The Chancellor of the Exchequer (Mr. Gordon Brown):** Professor David Miles' report "*The UK Mortgage Market: Taking a Longer-term View, Final Report and Recommendations*", is published today. Copies are available in the Vote Office.

# Written Answers to Questions

*The following answers were received between Friday 13 February and Friday 20 February 2004*

## HOME DEPARTMENT

### Mobile Phones

**Mr. Amess:** To ask the Secretary of State for the Home Department how many people have been charged with offences in relation to the use of mobile phones while driving since the new measures were introduced. [148600]

**Ms Blears:** Information on the number of people charged is not collected centrally.

Prosecution data for the new offence of driving while using a hand-held mobile telephone will not be available until the autumn of 2004.

## DEFENCE

### Iraq

**Mr. Alan Campbell:** To ask the Secretary of State for Defence what access to legal representation is available to persons detained by United Kingdom forces in Iraq under Article 78 of the IV Geneva Convention (1949); what criteria are used to determine whether they continue to pose a threat to security; and if he will make a statement. [154539]

**Mr. Ingram:** As set out in Article 80 of Geneva Convention IV internees retain their full civil capacity. This principle is reflected in Article 113 which provides, inter alia, that the Detaining Power shall provide all reasonable facilities for the transmission of wills, powers of attorney, letters of authority, or any other documents intended for internees or despatched by them. The Detaining Power is also obliged to facilitate the execution and authentication in due legal form of such documents on behalf of internees, in particular allowing them to consult a lawyer. In accordance with these provisions the United Kingdom provides access to legal advice when requested by an internee for such matters. The UK does not specifically provide for legal advice to be available to internees.

A review is carried out after 10, 28 and thereafter every 90 days to determine whether, on the balance of probabilities, internment is necessary for reasons of security. In accordance with Article 78 of the Fourth Geneva Conventions, the review takes into account all of the evidence and intelligence available relating to an internee.

**Mr. Swayne:** To ask the Secretary of State for Defence how much was spent on quick impact projects authorised by the UK military command in the *(a)* first 100 days and *(b)* six months following the end of high intensity military operations in Iraq. [150225]

**Mr. Ingram:** $5.3 million was spent on quick impact projects authorised by the United Kingdom military command in the first six months following the end of high intensity military operations in Iraq, of which $1.1 million was spent in the first 100 days.

**Richard Ottaway:** To ask the Secretary of State for Defence when he was informed that the 45-minute assertion related to battlefield mortar shells or small calibre weaponry. [154024]

**Norman Lamb:** To ask the Secretary of State for Defence on what date he was informed that the 45-minute claim related to battlefield weapons. [154102]

**Sir John Stanley:** To ask the Secretary of State for Defence on what date he first became aware to which Iraqi weapons the 45-minute claim in the Iraq's weapons of mass destruction dossier applied. [154180]

**Mr. Hoon:** I first became aware of 'the 45-minute claim' when I read drafts of the Government's dossier and the Joint Intelligence Committee's assessment dated 9 September 2002. The Intelligence and Security Committee (ISC) in their report of 9 September 2003 (cm 5972) published, at paragraph 50, the relevant passage from the assessment. This stated:

> "Intelligence also indicates that chemical and biological munitions could be with military units and ready for firing within 20 to 45 minutes."

The ISC also commented (para 57):

> "The JIC did not know precisely which munitions could be deployed from where to where and the context of the intelligence was not included in the JIC Assessment".

I became aware that this intelligence referred to battlefield weapons soon after the publication of the Government's dossier on Iraq's weapons of mass destruction.

**Mr. Swayne:** To ask the Secretary of State for Defence if he will list the incidents for which Boards of Inquiry have been initiated since the commencement of military operations in Iraq; and which such Boards have reported. [154038]

**Mr. Ingram** *[holding answer 10 February 2004]:* I assume that the question is seeking information on those incidents in Iraq that occurred during recent operations there.

Boards of Inquiry have been convened to inquire into the following incidents:

*Royal Navy*

Collision of two Sea Kings from 849 Naval Air Squadron on 22 March 2003; and

Death of Marine Maddison on 30 March 2003.

Internal reports have been issued into both incidents.

*Army*

Death of Lance-Corporal Brierley on 30 March 2003;

Deaths of Lieutenant Tweedie and Lance-Corporal Shearer on 1 April 2003;

Death of Private Smith on 13 August 2003; and

a Board of Inquiry will be convened on Friday 13 February into a serious injury suffered by Lance-Corporal Stesel on 6 April 2003

No formal reports have yet been issued.

*RAF*

Patriot/Tornado GR4 incident on 23 March 2003.

No formal report has yet been issued.

Further Boards of Inquiry may be convened into other incidents when the relevant initial investigations are complete.

**Mr. Hoyle:** To ask the Secretary of State for Defence if he will make a statement on embedding in the Iraq war. [155134]

**Mr. Ingram:** I assume that my hon. Friend is referring to the embedding of journalists as war correspondents with our Armed Forces during the conflict in Iraq.

I refer my hon. Friend to paragraph 10.11 on page 59 of the MOD publication "Operations in Iraq: lessons for the future" which was published on 11 December. A copy of this publication has been deposited in the Library of the House and is available for reference.

**Mr. Tyler:** To ask the Secretary of State for Defence when he expects to publish the Government's full response to the National Audit Office's investigation report into Operation Telic; and if he will make a statement. [150197]

**Mr. Hoon** *[holding answer 26 January 2004]:* Departments do not publish full responses directly to National Audit Office reports.

In due course, the Public Accounts Committee will issue a report into Operation Telic. That report will be informed by the National Audit Office's investigation report. After the Public Accounts Committee report has been issued, the Government will issue a response (in the form of a Treasury minute) within the normal timeframe and in the normal way.

**Military Assistance (Asia)**

**Sir Menzies Campbell:** To ask the Secretary of State for Defence what military assistance has been provided to *(a)* Uzbekistan, *(b)* Turkmenistan, *(c)* Kazakhstan, *(d)* Kyrgyzstan, *(e)* Pakistan, *(f)* Georgia and *(g)* Azerbaijan since 2000; and if he will make a statement. [154545]

**Mr. Ingram:** All these countries are situated in a region of increasing strategic importance to the United Kingdom. The UK has small but carefully focused programmes of bilateral co-operation with most of them facilitated by our resident Defence Attachés.

The UK's military assistance to Uzbekistan has focused on training and advice to assist the Uzbekistan Ministry of Defence with its defence reform efforts. It has stressed the importance of respect for the rule of law and human rights, and has included English language training and assistance with the development of junior staff officer and NCO training. The UK also provided a modest amount of military aid to Uzbekistan in March 2002—100 combat helmets and 15 mine detectors.

The UK provides no military assistance to Turkmenistan apart from a small English language training programme.

The UK's military assistance to Kazakhstan has focused on training and advice to help enhance Kazakhstan's peacekeeping capability and support its defence reform efforts. It has included English language training and assistance with the development of NCO training.

Military assistance to Kyrgyzstan has centred on English language training and assistance with mountain patrolling techniques. The UK also provided a modest amount of military aid to Kyrgyzstan in March 2002—100 combat helmets and 15 mine detectors.

The UK has close historical ties with the armed forces of Pakistan. Over the past four years Pakistan has received military assistance in the form of places on training courses in the UK at the Royal College of Defence Studies, the Joint Services Command and Staff College, the Royal Military Academy Sandhurst and other Service establishments. In Pakistan the UK has provided assistance with flight safety and military band training and has agreed to respond to Pakistani requests for emergency humanitarian escape and rescue assistance for their small submarine fleet.

UK military assistance to Georgia has focused on training and advice to help defence reform. Our efforts concentrate on advisory visits and have included English language training and assistance with the development of NCO training. Defence reform is also supported by a UK Civilian Special Defence Adviser to the Georgian Ministry of Defence and a resettlement programme which re-trains retired service personnel.

The UK's military assistance to Azerbaijan has been confined to English language training.

**Afghanistan**

**Patrick Mercer:** To ask the Secretary of State for Defence whether enhanced body armour is issued to all British troops operating in Afghanistan. [152376]

**Mr. Ingram:** Yes.

**Patrick Mercer:** To ask the Secretary of State for Defence what personal protection clothing is issued to British troops operating in Afghanistan. [152379]

**Mr. Ingram:** All troops in Afghanistan are issued with a Kevlar helmet and Enhanced Combat Body Armour. They are also issued a S10 respiration. Sufficient Individual Protection Equipment is also held in theatre for all deployed troops.

**Patrick Mercer:** To ask the Secretary of State for Defence what *(a)* quantity and *(b)* type of radar equipment is deployed for British troops to use in Afghanistan. [153037]

**Mr. Ingram:** I am withholding the information required in accordance with Exemption 1 of the Code of Practice on access to Government Information.

**Mr. Soames:** To ask the Secretary of State for Defence (1) what plans there are for Eurocorps to take over the NATO International Security Assistance Force operation in Afghanistan; [155207]

(2) what plans there are for Eurocorps to assume command of the Kabul Multi-national Brigade. [155211]

**Mr. Ingram:** No decisions have been made on deploying Eurocorps to Afghanistan.

### Aircraft Carriers

**Mr. Hancock:** To ask the Secretary of State for Defence when he will agree the *(a)* final projected costs and *(b)* demonstration and manufacturer contracting arrangements for the aircraft carrier programme. [154629]

**Mr. Ingram:** The Future Carrier (CVF) programme is currently in Stage 3 of the Assessment Phase. It is expected that a decision on the CVF programme will be made in Spring this year at the conclusion of the Assessment Phase.

**Mr. Hancock:** To ask the Secretary of State for Defence what the expected *(a)* cost and *(b)* commissioning date is of the two new aircraft carriers; what estimates were made when the contract was let; and if he will make a statement on the reasons for the difference. [154630]

**Mr. Ingram:** The CVF programme is still in the Assessment Phase, which is intended to reduce risk in emerging design solutions, and balance the key parameters of performance, time and cost. The current target acquisition cost for the two carriers is around £3 billion with target in-service dates of 2012 and 2015. Estimates are being refined during the Assessment Phase, taking into account the maturing design and cost information. Agreed targets will be included in the demonstration and manufacturing contract arrangements.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what his latest estimate is of *(a)* the cost and *(b)* the in-service dates of each of the two future aircraft carriers. [154660]

**Mr. Ingram:** The CVF programme is still in the Assessment Phase, which is intended to reduce risk in emerging design solutions and balance the key parameters of performance time and cost. The current target acquisition cost for the two carriers is around £3 billion with target in-service dates of 2012 and 2015 respectively.

### Armed Forces (Pensions and Compensation) Bill

**Mr. Dismore:** To ask the Secretary of State for Defence whether the proposals for reform of *(a)* the pension scheme and *(b)* the compensation scheme in the Armed Forces (Pensions and Compensation) Bill are (i) individually cost-neutral and (ii) cost-neutral combined; and if he will make a statement. [153875]

**Mr. Caplin:** The costs of the new Armed Forces pension and compensation schemes have been and will continue to be assessed individually. However, there are links between the two schemes, as income payments from the pension and associated early departure schemes are offset against the loss of earnings income payments in the compensation scheme. Both schemes are considered to be broadly cost-neutral when compared with current provision. Benefits will be paid against entitlement from centrally management Government funds.

**Mr. Dismore:** To ask the Secretary of State for Defence if he will make a statement on the estimate produced by the Royal British Legion of the likely number of cases that would fail under the provisions of the Armed Forces (Pensions and Compensation) Bill under *(a)* the proposed balance of probability test, *(b)* the proposed time limits for compensation claims and *(c)* both. [153876]

**Mr. Caplin:** I have been in correspondence with the Royal British Legion about its assessment of the combined effect on recent War Pension claims of the changes planned for the new compensation scheme to time limits and standard of proof. We do not accept the Royal British Legion's analysis, which was based on a sample which was not representative of the full spectrum of claims. Nor do we accept that data for the time lapse between leaving service and making a claim under the War Pensions Scheme (WPS) can be extrapolated to the new scheme. We expect the timing of claims under the new scheme to take account of the time limit.

No work has been undertaken to assess how the particular provisions in the new scheme for time limits and standard of proof would have affected the decisions that we have taken on claims under the War Pension Scheme. Rather, our approach has been to consider the future requirement for a compensation scheme from first principles. We have sought to design a scheme which offers fair and proportionate compensation to anyone who, within a sensible timescale, can provide reasonable evidence that they are suffering from a condition due to service. The scheme will allow claims for specified late-onset conditions outside the limit, and will provide for exceptional review and an independent appeals tribunal. An independent review of our proposals commissioned from Watson Wyatt, a firm of actuaries and consultants, has confirmed that this approach is appropriate and reasonable. Copies of this report have been placed in the Libraries of both Houses entitled "Armed Forces Compensation Scheme—A report on the proposals for a revised compensation scheme for members of the Armed Forces".

**Mr. Dismore:** To ask the Secretary of State for Defence if he will make a statement on how the new tariff-based compensation scheme will *(a)* assess compensation for (i) injuries and (ii) financial losses consequent on injury and *(b)* be administered, with particular reference to appeal arrangements. [153881]

**Mr. Caplin:** The new scheme will assess compensation by matching an injury accepted as due to service to a tariff description and the corresponding fixed level award. For those injuries lying within tariff levels 1 to 11, where it is assessed that earnings capacity will be significantly affected, there will be an additional Guaranteed Income Stream, paid at graduated levels, up-rated for inflation, and based on salary at service termination. It will be paid for life.

Decisions in the scheme will be the responsibility of lay administrators, but with access to medical and legal advice. They will be evidence-based, reflecting case specific facts and contemporary generally accepted medical understanding. Adjudication guidance in the scheme will be published, with medical aspects externally validated.

The new compensation scheme will be implemented by the Veterans Agency, which has considerable experience of assessing and determining claims for injury, illness or death due to Service. There will be an internal disputes resolution procedure for claimants who are dissatisfied with the decision on their claims. Following this, claimants can appeal to the independent Pensions Appeal Tribunal (who currently support the War Pensions Scheme). For appeals on points of law, a Social Security Commissioner will provide the new second tier of independent appeal, with a final level of appeal to the Court of Appeal.

**Mr. Dismore:** To ask the Secretary of State for Defence what types of injury case will receive *(a)* less and *(b)* more compensation under the new scheme proposed in the Armed Forces (Pensions and Compensation) Bill; and if he will make a statement. [153882]

**Mr. Caplin:** A key principle of the new scheme is a better scaling of compensation to the level of disablement. The War Pensions Scheme provides neither awards that are reasonably proportionate to level of disablement nor significant up-front sums to help people adapt their lives to their new circumstances. However, the new Armed Forces Compensation Scheme for death, injury and ill-health due to Service provides lump sums for pain and suffering that are set out in a 15-level tariff, graduated for level of disablement, with substantial amounts payable, particularly at the higher levels. This also means that money will be available to help people adapt their lives. Where earning capacity is significantly impaired, there will also be a Guaranteed Income Stream (GIS), graduated according to level of impairment. For those with more minor conditions, which are not expected to have a significant impact on earnings capacity, a lump sum for pain and suffering is paid, but no GIS. Details of the compensation scheme, including example tariffs, have been placed in the Library of the House and can be found on the MOD internet site at: www.mod.uk/issues/pensions (A Framework Document For The Armed Forces Compensation Scheme for Injury, Illness and Death Due to Service).

### Armed Forces Personnel (Medical Services)

**Mrs. Calton:** To ask the Secretary of State for Defence what assessment has been made of the availability of *(a)* general practitioner services and *(b)* NHS dental services to families of armed forces personnel located in the UK. [153830]

**Mr. Caplin:** Issues of concern to Service families are monitored regularly through continuous attitude surveys and meetings with the Service family associations. We are aware that some families can find it difficult to find a GP but we are not aware of families not being able to register with a GP. Service families are in the same position as other member of local communities in relation to NHS dentists. However, the MOD is continuing to look at ways we can reduce these problems through local discussions.

### Armoured Vehicles

**Mr. Soames:** To ask the Secretary of State for Defence how many FV432 series vehicles were deployed to the Gulf during Operation Telic. [153000]

**Mr. Ingram:** Approximately 480 FV432 and FV432 variant vehicles were deployed to the Gulf during Operation Telic.

### Aviation Noise

**Mr. Paterson:** To ask the Secretary of State for Defence what research his Department has *(a)* published and *(b)* commissioned into helicopter noise. [153968]

**Mr. Ingram:** I will write to the hon. Member and place a copy of the letter in the Library of the House.

### Civil Servants

**Dr. Cable:** To ask the Secretary of State for Defence how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150254]

**Mr. Caplin:** I refer the hon. Member to the answer given to him on 10 February 2004, *Official Report*, columns 1293–98W, by my hon. Friend the Minister of State, Cabinet Office.

### Civilian Staff

**Angus Robertson:** To ask the Secretary of State for Defence pursuant to the answer of 8 December 2003, *Official Report*, column 273W, when his Department last compiled reliable data for civilians at individual defence installations; and if he will make a statement. [155188]

**Mr. Caplin:** There are no centrally held reliable data on the number of civilians at individual defence installations.

### Defence Estate Organisation

**Mr. Soames:** To ask the Secretary of State for Defence if he will place in the Library a copy of the Defence Estate Organisation's Annual Report and Accounts for 1997–98. [155206]

**Mr. Caplin:** No publication exists for the period stated. The Defence Estates Organisation was not directed to produce qualified accounts during the first year as an Agency.

### Defence Fire Service

**Mr. Hancock:** To ask the Secretary of State for Defence what the cost to the Defence Fire Service was of Operation Fresco, broken down by main budget. [155215]

**Mr. Ingram:** Information on the discrete costs incurred by the Defence Fire Service during Operation Fresco could be provided only at disproportionate cost. However the overall additional costs incurred by the Ministry of Defence during Operation Fresco are charged to the Office of the Deputy Prime Minister.

### Defence Spending (Scotland)

**Angus Robertson:** To ask the Secretary of State for Defence (1) how much of the personnel budget of the *(a)* United Kingdom Hydrographic

Office, *(b)* Defence Export Services Organisation, *(c)* Defence Medical Services Department and *(d)* Army Base Repair Organisation was spent in Scotland in financial year 2002–03 (i) in monetary terms and (ii) as a percentage of the total; what the figures were in the previous year; and if he will make a statement on the figures for each agency; [155085]

(2) pursuant to the answer of 4 December 2003, *Official Report*, columns 133–36W, how much of its total personnel budget the *(a)* Defence Estates, *(b)* Defence Geographic and Imagery Intelligence Agency, *(c)* Naval Manning Agency, *(d)* Defence Analytical Services Agency, *(e)* Defence Housing Executive, *(f)* Defence Intelligence and Security Centre, *(g)* Army Personnel Centre and *(h)* Army Training and Recruitment Agency spent in Scotland in financial year 2002–03, (i) in monetary terms and (ii) as a percentage of the total; what the figures were in the previous year; and if he will make a statement; [155190]

(3) pursuant to the answer of 4 December 2003, *Official Report*, columns 133–36W, how much of its total personnel budget the *(a)* Defence Communications Services Agency, *(b)* Defence Storage and Distribution Agency, *(c)* Veterans Agency, *(d)* Disposal Services Agency, *(e)* Pay and Personnel Agency, *(f)* Defence Aviation Repair Agency and *(g)* Meteorological Office spent in Scotland in financial year 2002–03, (i) in monetary terms and (ii) as a percentage of the total; what the figures were in the previous year; and if he will make a statement; [155191]

(4) pursuant to the answer of 4 December 2003, *Official Report*, columns 133–36W, how much of its total personnel budget the *(a)* RAF Personnel Manning Agency, *(b)* RAF Training Group Defence Agency, *(c)* Warship Support Agency, *(d)* British Forces Post Office, *(e)* Defence Vetting Agency, *(f)* Defence Medical Education and Training Agency and *(g)* Armed Forces Personnel Administration Agency spent in Scotland in financial year 2002–03, (i) in monetary terms and (ii) as a percentage of the total; what the figures were in the previous year; and if he will make a statement; [155192]

(5) how much of the personnel budget of the *(a)* Defence Evaluation and Research Agency and *(b)* Defence Secondary Care Agency was spent in Scotland in financial year 2002–03 (i) in monetary terms and (ii) as a percentage of the total; what the figures were in the previous year; and if he will make a statement on the figures for each agency; [155086]

(6) pursuant to the answer of 4 December 2003, *Official Report*, columns 133–36W, how much of its total personnel budget the *(a)* Service Children's Education, *(b)* Duke of York's Royal Military School, *(c)* Naval Recruiting and Training Agency, *(d)* Defence Procurement Agency, *(e)* Defence Transport and Movements Agency, *(f)* Medical Supplies Agency, *(g)* Defence Dental Agency and *(h)* Defence Bills Agency spent in Scotland in financial year 2002–03, (i) in monetary terms and (ii) as a percentage of the total; what the figures were in the previous year; and if he will make a statement. [155193]

**Mr. Caplin:** I refer the hon. Member to the answer I gave him on 4 December 2003, *Official Report*, columns 132–35W, and the answer given to him by my right hon. Friend the Minister of State for the Armed Forces on 3 December 2003, *Official Report*, columns 67–68W.

### Departmental Minutes

**Mr. Lilley:** To ask the Secretary of State for Defence whether it is his Department's policy to make notes of *(a)* meetings and *(b)* telephone conversations involving Ministers; and under what circumstances no notes would be taken. [149530]

**Mr. Caplin** *[holding answer 20 January 2004]:* The Ministry of Defence follows the central "Guidance on the Management of Private Office Papers" which makes clear that good record management procedures are necessary not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

### Environmental Impact Assessments

**Llew Smith:** To ask the Secretary of State for Defence what projects have received an environmental impact assessment since his policy statement on the management of safety and environmental protection in July 2000. [154695]

**Mr. Caplin:** I will write to my hon. Friend and a copy of my reply will be placed in the Library of the House.

### Equipment Programme

**Mr. Soames:** To ask the Secretary of State for Defence if he will place in the Library a copy of his Department's Equipment Programme. [153032]

**Mr. Ingram:** Information on a range of major equipment projects, which together form the substantial part of the Ministry of Defence's forward equipment programme, is routinely made available, for example in support of the PAC's annual Major Projects Report and the HCDC's annual inquiry into defence procurement. This detail is set in broader context by the publication every two years of the MOD's overarching Defence Investment Strategy.

In addition, the principal output of the MOD's annual equipment planning round is a set of detailed planning assumptions and financial data about the proposed content and timing of the future equipment programme. This forms part of the internal advice to Ministers on the overall affordability of the defence programme and of individual projects at the time they come forward for approval. It therefore anticipates decisions still to be taken by Ministers. In parts it also contains information which is commercially sensitive. I am therefore withholding the information in accordance with Exemptions 2 and 13 of the Code of Practice on Access to Government Information.

### European Defence

**Mr. Soames:** To ask the Secretary of State for Defence what plans there are to set up a joint Franco-British rapid deployment force; and if he will make a statement. [155208]

**Mr. Ingram:** There are no plans to set up a joint Franco-British rapid deployment force. However, as part of the Helsinki Headline Goal, member states agreed to develop rapid response elements available and deployable at very high readiness. The British, French and German governments are proposing that EU member states create Battle Group-sized forces, deployable within 15 days, by 2007. Member states would be able to offer such formations individually—as is likely to be the case for the United Kingdom—or on a multi-national basis.

**Mr. Soames:** To ask the Secretary of State for Defence if he will make a statement on the progress achieved by the Helsinki Project Catalogue groups tasked with studying *(a)* air-to-air refuelling, *(b)* combat search and rescue, *(c)* strategic unmanned air vehicles, *(d)* nuclear, biological and chemical protection, *(e)* headquarters, *(f)* special operations forces, *(g)* theatre ballistic missile defence, *(h)* strategic airlift, *(i)* interoperability, *(j)* space, *(k)* intelligence, surveillance, target acquisition and reconnaissance, *(l)* strategic sealift, *(m)* collective medical protection, *(n)* attack helicopters and *(o)* support helicopters. [155210]

**Mr. Ingram:** Progress is continuing across the 15 Project Groups established under the European Capabilities Action Plan since May 2003, although all are at different stages in their development. In strategic mobility, for example, and in conjunction with NATO, the Project Group is introducing a 'Strategic Air Lift Interim Solution' or SALIS, (in place until A-400M becomes available) and the co-ordinated use of assets by a Strategic Air Lift Co-ordination Centre, co-located with the European Airlift Co-ordination Centre at Eindhoven. There are also important qualitative outputs under development across the Project Groups, for example in systems interoperability, operational doctrine, and training. The Council Conclusions of 17 November 2003 underlined the need to disseminate Project Group objectives, timelines and reporting procedures more widely, and this information will be presented shortly as an integral part of the Single Progress Report compiled once during each Presidency. It is anticipated that a Capability Improvement Chart showing the state-of-play of the Project Groups in a clearly digestible format will accompany the Single Progress Report.

### Future Integrated Soldier Technology Programme

**John Robertson:** To ask the Secretary of State for Defence if he will make a statement on the effectiveness of the Future Integrated Soldier Technology programme. [154585]

**Mr. Ingram:** The Future Integrated Soldier Technology (FIST) programme has almost completed the first year of a 32 month Assessment Phase and is making good progress. The project will bring the benefits of improved technology to the soldier by providing an integrated suite of personal equipment to enhance dismounted close combat capability.

### Gulf War Illnesses

**Mr. Flook:** To ask the Secretary of State for Defence how many Gulf War veterans suffering from Gulf War illnesses have been tested for *(a)* depleted uranium poisoning, *(b)* squalene antibodies and *(c)* microplasmal organisms. [155172]

**Mr. Caplin:** A voluntary programme to test for depleted uranium (DU) in the urine of veterans will begin in pilot form in March, with the full programme expected to become available during the summer. The test will be available for all eligible veterans and civilians, irrespective of their state of health. In addition, a very small number of veterans have been tested for total uranium following referral by the Gulf Veterans' Medical Assessment Programme. I understand that some veterans have been tested for exposure to DU by private arrangement.

The Ministry of Defence has not tested veterans for squalene antibodies or mycoplasmal infections, to which I believe the hon. Member is referring. I understand that some veterans have been tested for squalene antibodies by private arrangement.

### Joint Strike Fighter

**Mr. Hoyle:** To ask the Secretary of State for Defence who owns the intellectual property rights of the joint strike fighter system; and whether this is shared with UK and US companies. [154684]

**Mr. Ingram:** Intellectual Property Rights (IPR) in the Joint Strike Fighter system are owned by the contractor or sub-contractor generating them, whether UK or US companies. The IPR generated under the contracts and sub-contracts can be used by the MOD for purposes associated with that programme.

### Lieutenant Lewis Page

**Dr. Julian Lewis:** To ask the Secretary of State for Defence pursuant to the Answer of 30 January, *Official Report*, column 574W, on Lieutenant Lewis Page, whether *(a)* authorisation was sought by Lieutenant Page and *(b)* permission which fell short of proper authorisation was given to Lieutenant Page. [154665]

**Mr. Caplin:** Lieutenant Lewis Page did not seek authorisation to publish an article in *Prospect* magazine, nor was permission of any kind given to him.

### Nuclear Weapons

**Norman Baker:** To ask the Secretary of State for Defence if he will make a statement on the renewal of the 1958 Agreement for Co-operation on the Uses of Atomic Energy for Mutual Defence Purposes. [154776]

**Mr. Ingram:** Discussions continue between the United Kingdom and United States Governments on the renewal of this agreement. Subject to the outcome of those discussions, we expect to lay any amendments before the House later this year in accordance with normal procedures for treaty renewals.

### Operation Artemis

**Mr. Gray:** To ask the Secretary of State for Defence what use will be made of the armed forces for covert surveillance on upland estates as part of Operation Artemis. [154732]

**Mr. Ingram:** None. Operation Artemis was an EU led operation to help stabilise the town of Bunia in the Democratic Republic of Congo which ended in September 2003. The UK contributed 85 personnel to the Operation. Their role was to increase the capacity of the airfield in Bunia.

### Overseas Bribery

**Mr. Simon Thomas:** To ask the Secretary of State for Defence how many allegations of overseas bribery the MOD Police has received since November 1997; how many of these allegations resulted in investigations; and what the outcome of these investigations was. [151397]

**Mr. Caplin:** There have been six allegations of bribery overseas received by the Ministry of Defence Police since 1998. Records do not go back as far as November 1997. As a result of these allegations, four investigations were conducted. One investigation at the British embassy Washington in December 1999 resulted in internal MOD discipline procedures being carried out and an employee returning to the UK. The second investigation at Rhine Garrison in September 2000 resulted in no further action being taken. There is one ongoing investigation which commenced in July 2002 at the Royal Mint Llantrisant which is soon to be brought to a close. The investigation in Sierra Leone in December 2002 resulted in no crime being found.

### Parliamentary Questions

**Harry Cohen:** To ask the Secretary of State for Defence when he will reply to Questions with reference numbers 146471 and 146688, tabled on 5 January. [153340]

**Mr. Ingram:** I replied to my hon. Friend on 9 February 2004, (*Official Report*, columns 1173–74W)

**Mr. Hancock:** To ask the Secretary of State for Defence if he will make it his policy to ensure that answers to parliamentary questions which are in the form of letters which are lodged in the Library are, subject to issues of confidentiality, made available to the public by posting them on the Ministry website. [153521]

**Mr. Caplin:** The office of my right hon. Friend the Leader of the House, is working with House officials to explore what might be done to improve the accessibility of subsequent correspondence.

### RAF Fairford

**Mr. Drew:** To ask the Secretary of State for Defence what building work is under way at RAF Fairford, with particular reference to hangar capacity. [155116]

**Mr. Caplin:** The building work currently under way at RAF Fairford involves a number of general infrastructure upgrade programmes. These include a fuel complex, a 4.5km perimeter road around the south-east portion of the airfield, some airfield pavement works, the construction of a single-bay portable aircraft shelter and a two-bay aircraft maintenance hangar capable of housing a wide variety of aircraft, including the USAF B-2 aircraft.

The current operational status of RAF Fairford as a NATO designated standby base will not change and no aircraft will be permanently stationed at the base.

**Mr. Drew:** To ask the Secretary of State for Defence what plans he has to further secure the boundary fence at RAF Fairford. [155187]

**Mr. Caplin:** Every aspect of security at all RAF bases, including RAF Fairford, is under constant review and improvements are made when necessary.

### Recruitment

**Mr. Soames:** To ask the Secretary of State for Defence up to what percentage of its liability the *(a)* Royal Corps of Signals, *(b)* Corps of Royal Engineers, *(c)* Infantry, *(d)* Royal Logistics Corps, *(e)* Royal Armoured Corps, *(f)* Royal Artillery, *(g)* Royal Air Force and *(h)* Royal Navy is allowed to recruit. [155204]

**Mr. Ingram:** The Army, and individual capbadges within the Army, do not recruit as a percentage of liability. The Army is resourced to approximately 94 per cent. of liability in FY 2004–05; this defines, through a process of detailed manpower forecasting, the level of recruits required each year. The Director of Manning (Army) divides the total requirement of new recruits each year by capbadge and this will be consistent with the Army Board's endorsed manning priorities. The level of funding is set to increase gradually to nearly 99 per cent. of its liability by 2008.

In the Royal Navy and the RAF, recruiting targets are set in order to provide a level of input that will sustain manpower levels in the long-term against the projected requirement. Both Services strive to recruit 100 per cent. of their manning target in any one financial year. Royal Navy recruiting targets are variable and not a fixed percentage of the requirement.

### Reserve Forces

**Mr. Swayne:** To ask the Secretary of State for Defence how many reservists who are fit for role are available for mobilisation. [R] [154877]

**Mr. Caplin:** As at 31 January 2004, the number of Volunteer Reservists who were currently fit for role and available for mobilisation was 19,810. In addition, 112,040 members of the Regular Reserve were also available for mobilisation.

### Royal Fleet Auxiliary

**Angus Robertson:** To ask the Secretary of State for Defence pursuant to the answer of 8 December 2003, *Official Report*, column 273W, how many Royal Fleet auxiliaries are employed in Scotland. [155189]

**Mr. Caplin:** There are currently no Royal Fleet Auxiliaries permanently based on-shore in Scotland.

### Surplus Equipment

**Harry Cohen:** To ask the Secretary of State for Defence what sales of surplus equipment have been

approved in the last 12 months, broken down by *(a)* equipment type, *(b)* country to which it was sold and *(c)* value; what further equipment is being considered for sale to other countries; and if he will make a statement. [154456]

**Mr. Ingram:** The contracts signed by the Ministry of Defence's Disposal Services Agency (DSA) in the calendar year 2003 for equipments directly sold (in some cases still to be exported) on a Government-to-Government basis are listed as follows:

| *Equipment* | *Country* |
|---|---|
| Type 23 Frigate HMS Sheffield | Chile |
| 6 Watchman Auto Radar Displays | Finland |
| Various 105MM light gun spares | Republic of Ireland |
| Various test/training equipment | Jordan |
| 95 Scammell Commander Tank transporters | Jordan |

It is not our practice to reveal sales values and, so as to protect third party commercial confidentiality, I am therefore withholding that information in accordance with Exemption 13 of the Code of Practice on Access to Government Information.

The DSA markets most capital equipments declared surplus to requirements to overseas Governments for further use. It is currently actively marketing Landing Ships Logistics, Combat Vehicles Reconnaissance (Tracked), Sea Harrier and Sea Kings (among other primary equipments).

### Welsh Regiments

**Mr. Wiggin:** To ask the Secretary of State for Defence how many soldiers in Welsh regiments in Iraq have not been issued with flak jackets. [150358]

**Mr. Ingram:** There is sufficient Enhanced Combat Body Armour in Iraq for every member of the armed forces who requires it.

**Mr. Wiggin:** To ask the Secretary of State for Defence how many soldiers in Welsh regiments are fighting in Iraq. [150369]

**Mr. Ingram:** As at 11 February 2004, 486 soldiers were serving in Iraq with the Royal Regiment of Wales.

**Mr. Wiggin:** To ask the Secretary of State for Defence how many soldiers in Welsh regiments have been killed in Iraq, broken down by cause of death. [150370]

**Mr. Ingram:** As at 11 February 2004, three soldiers who were serving with Welsh regiments have been killed in Iraq. All these deaths were the result of operational accidents.

## LEADER OF THE HOUSE

### Parliamentary Questions

**Mr. Brady:** To ask the Leader of the House how many days on average his Office took in Session 2002–03 to give a substantive answer to a parliamentary Question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155926]

**Mr. Hain:** On average, it took my office 2.5 days to give a substantive answer to an ordinary written parliamentary question[1].

The greatest number of days to answer such a question was nine days (excluding recess days).

Performance on handling parliamentary questions is available on the Leader of the Commons website www.commonsleader.gov.uk.

[1] Questions tabled during Session 2002–03 included those to the President of the Council

## TREASURY

### National Statistics

**Andrew George:** To ask the Chancellor of the Exchequer how many new cases of osteosarcoma have been diagnosed in *(a)* children, *(b)* adolescents and *(c)* adults in each of the last 10 years for which figures are available. [155079]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Andrew George dated 19 February 2004:*

As National Statistician I have been asked to reply to your recent question concerning how many new cases of osteosarcoma have been diagnosed in *(a)* children, *(b)* adolescents and *(c)* adults in each of the last 10 years for which figures are available.

Newly diagnosed cases of osteosarcoma are coded to malignant neoplasm of bone and articular cartilage. It is not possible to say exactly how many such cases are osteosarcoma, because some records do not identify the specific cell type. Of the total numbers of cases of malignant neoplasms of bone and articular cartilage, osteosarcomas represent about 50% in children and adolescents and about 25% in adults.

The numbers of registrations of newly diagnosed cases of malignant neoplasm of bone and articular cartilage in England for the age groups requested for the years 1991 to 2000 (the latest available year) are given in the table below. The age groups; children, adolescents and adults are those used in recent published studies of the incidence of cancer in England.

*Number of newly diagnosed cases of malignant neoplasm of bone and articular cartilage in England, by age group, 1991–2000*

| | *1991* | *1992* | *1993* | *1994* | *1995* | *1996* | *1997* | *1998* | *1999* | *2000* |
|---|---|---|---|---|---|---|---|---|---|---|
| Children (aged under 15) | 41 | 37 | 51 | 50 | 63 | 51 | 49 | 47 | 58 | 55 |
| Adolescents (aged 15–24) | 72 | 73 | 63 | 52 | 75 | 56 | 75 | 76 | 59 | 68 |
| Adults (aged 25 and over) | 254 | 252 | 228 | 249 | 277 | 296 | 276 | 252 | 305 | 312 |
| Total | 367 | 362 | 342 | 351 | 415 | 403 | 400 | 375 | 422 | 435 |

*Note:*

For the years 1991 to 1994, International Classification of Disease, Ninth Revision Code (ICD-9) code 170. For the years 1995 to 2000, International Classification of Diseases, Tenth Revision (ICD-10) codes C40 and C41.

*Source:*

Office for National Statistics.

**Andrew George:** To ask the Chancellor of the Exchequer how many patients have died in circumstances where the primary tumour was an osteosarcoma in each of the last 10 years for which figures are available. [155080]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Andrew George dated 19 February 2004:*

As National Statistician I have been asked to reply to your recent question concerning how many patients have died in circumstances where the primary tumour was an osteosarcoma in each of the last 10 years for which figures are available.

No figures are available on the number of deaths from osteosarcoma because it is defined in terms of cell type, and this information is not collected at death registration. Deaths from osteosarcoma are included in figures for malignant neoplasm of bone and articular cartilage.

The number of deaths from malignant neoplasm of bone and articular cartilage in England in each of the last 10 years for which figures are available are given in the table below.

*Number of deaths from malignant neoplasm of bone and articular cartilage in England 1993–2002*

| *Year* | *Number of deaths* |
|---|---|
| 1993 | 187 |
| 1994 | 188 |
| 1995 | 175 |
| 1996 | 214 |
| 1997 | 212 |
| 1998 | 195 |
| 1999 | 201 |
| 2000 | 202 |
| 2001 | 248 |
| 2002 | 229 |

*Note:*
For the years 1993 to 2000, International Classification of Diseases, Ninth Revision Code (ICD-9) code 170. For the years 2001 to 2002, International Classification of Diseases, Tenth Revision (ICD-10) codes C40 and C41.
*Source:*
Office for National Statistics

**Mrs. Roche:** To ask the Chancellor of the Exchequer what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if he will make a statement. [154363]

**Dawn Primarolo:** I refer my hon. Friend to the answer my hon. Friend the Parliamentary Under-Secretary of State for Work and Pensions gave to her on 12 February 2004, *Official Report*, columns 1590–91W.

**Chris Ruane:** To ask the Chancellor of the Exchequer what the average weekly income was in each ward in each principal seaside town in England and Wales in the last month for which figures are available, listed in descending order with Welsh Seaside Town clusters disaggregated. [154942]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Len Cook to Mr. Chris Ruane, dated 19 February 2004:*

As National Statistician I have been asked to reply to your recent Parliamentary Question about average weekly income in each ward in principal seaside towns. (154942)

The Office for National Statistics does not produce earnings estimates at the requested level of detail for current wards. The lowest geographic area for which these estimates are produced from the New Earnings Survey is local authority and unitary authority level. The latest available figures for average weekly earnings at this level relate to April 2003 and are published on the National Statistics website: http://www.statistics.gov.uk/downloads/theme_labour/NES2003_Analyses_By_Region/NES2003_Analyses_By_Region.pdf

The estimates given in the New Earnings Survey are for the gross earnings of employees who are members of Pay-As-You-Earn (PAYE) schemes. They do not include income from other sources, or the earnings of individuals who are not members of such schemes.

## Civil Servants (Relocation)

**Bob Russell:** To ask the Chancellor of the Exchequer how many civil servants he expects will be relocated from London as a result of the assessment by Sir Michael Lyons; from which Government departments relocation of staff is being considered; when he expects the first staff to move from London; and if he will make a statement. [154701]

**Mr. Boateng:** The Independent Review of Public Sector Relocation led by Sir Michael Lyons will report its findings and recommendations in March 2004. It would be inappropriate to pre-empt his final report. Sir Michael's interim report is available on the Treasury website at www.hm-treasury.gov.uk.

**Bob Russell:** To ask the Chancellor of the Exchequer which towns and cities have been assessed by Sir Michael Lyons for possible relocation of civil servants from London; which have been short-listed; how many locations will be selected; when he expects to make an announcement; and if he will make a statement. [154702]

**Mr. Boateng:** Sir Michael Lyons retained King Sturge Property Consultants to conduct an analysis of over 100 locations to better understand local property and labour markets. This information is available on the Treasury website www.hm-treasury.gov.uk and will inform Sir Michael's final report which will be published in March 2004.

## Defence Capabilities

**Mr. Soames:** To ask the Chancellor of the Exchequer pursuant to the answer of 9 February 2004, *Official Report*, column 1170W, on provision for defence capability, on which page of the Ministry of Defence's Report and Accounts 2002–03 the net cash requirement for Request for Resources 1: Provision for Defence Capability for financial years 2001–02 to 2002–03 can be found. [155205]

**Mr. Boateng:** Net Cash Requirement (NCR) covers the consequences of all requests for resources (RfR) together with other cash implications and, as such, is not recorded on an individual RfR basis.

The total NCR outturn figures for 2001–02 and 2002–03 can be found on page 88 of MOD's Report and Accounts 2002–03.

## Gulf War

**Dr. Cable:** To ask the Chancellor of the Exchequer how much was received by the Government from overseas governments in respect of costs incurred during

the Gulf War, *(a)* in total and *(b)* from (i) Germany, (ii) Japan, (iii) Saudi Arabia, (iv) Kuwait and (v) other Gulf states. [154954]

**Mr. Boateng:** I refer the hon. Gentleman to the National Audit Office Report on MOD: Of the Costs and Receipts Arising from the Gulf Conflict (2 December 1992).

### Penrose Inquiry

**Norman Lamb:** To ask the Chancellor of the Exchequer whether any *(a)* Minister and *(b)* official of (i) HM Treasury and (ii) the Treasury Solicitor's Department has (A) held discussions with, (B) written to and (C) provided any part of the Penrose report into Equitable Life to anyone in the office of the Parliamentary Commissioner for Administration; and if he will make a statement. [155067]

**Ruth Kelly:** Treasury officials have had contact with the office of the Parliamentary Commissioner for Administration on a range of matters, but no part of the Penrose report into Equitable Life has been provided to that office.

### Property Ownership

**Mr. Hoyle:** To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of people who work abroad and own property in the UK; [155235]

(2) if he will estimate how many people resident overseas own property in the UK but do not pay income tax. [155236]

**Ruth Kelly:** It is not possible to estimate the number of people who work or are otherwise resident abroad and own property in the UK, or the number of those who do not pay UK income tax. However there are currently around 100,000 individuals who are resident outside the UK and have notified the Inland Revenue that they are letting out UK property. All of them are subject to UK income tax on any profits they make from such letting out.

### Ministerial Travel

**Bob Russell:** To ask the Chancellor of the Exchequer when he last used a train in connection with his ministerial duties. [154697]

**Mr. Gordon Brown:** On 18 November 2003.

I travelled from Euston to Birmingham by train to speak at the CBI Conference, returning on the same day.

## CONSTITUTIONAL AFFAIRS

### Civil Servants

**Dr. Cable:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150262]

**Mr. Lammy:** I refer the hon. Member to the answer given to him by the Minister of State for the Cabinet Office, on 10 February 2004, *Official Report*, column 1294W.

### Department Branding

**Mr. Laws:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how much the Department and its predecessors spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154063]

**Mr. Lammy:** The information is provided in the following table. To date, my Department has not spent anything on rebranding for the Department for Constitutional Affairs. Our executive agency, the Public Guardianship Office, has spent £56,695 on new branding to reflect its change of name from the Public Trust Office. A contract for £25,000 has recently been let to provide a style re-design for DCA HQ stationery and publications.

### Hutton Report

**Andrew Mackinlay:** To ask the Parliamentary Secretary, Department for Constitutional Affairs who authorised, and for what purpose, members of the Intelligence and Security Committee to be given access to the contents of the Hutton Inquiry Report on the morning of 28 January in advance of its publication. [152520]

**Mr. Leslie:** I refer my hon. Friend to the answer provided on 3 February 2004, *Official Report*, column 758W, by my right hon. Friend the Prime Minister, to the hon. Member for Southend West (Mr. Amess).

**Mr. Amess:** To ask the Parliamentary Secretary, Department for Constitutional Affairs who in his office saw an embargoed copy of the Hutton Report. [152675]

**Mr. Leslie:** I refer the hon. Member to the answer provided, by my right hon. Friend the Prime Minister on 3 February 2004, *Official Report*, column 758W.

**Jon Trickett:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what his estimate is of the total amount of staff hours spent in support of Lord Hutton's Inquiry; what the budget allocated to it was; and if he will make a statement. [153384]

### Laganside Courts Complex

**Mr. Carmichael:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what monthly payments have been made to date to Consul Services Ltd. for the Laganside courts Private Finance Initiative scheme; what abatements have been applied; and what the reasons were for each abatement. [152911]

**Mr. Leslie:** The average monthly payment is £350,000 and, to date, 22 monthly payments totalling £7,682,926.57 have been made to Consul Services Ltd. 11 abatements totalling £4,226.84 have been applied and all were in respect of water ingress.

### Legal Aid

**Nick Harvey:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average annual percentage salary rise awarded to those employed in dealing with or administering criminal legal aid was between 1 January 1996 and 30 November 2003; and if he will make a statement. [154289]

**Mr. Lammy:** The Commission is unable to answer the question in the format requested as neither the Legal Services Commission nor the former Legal Aid Board make a distinction between staff administering civil and criminal work.

The Commission is able to provide figures on the average annual percentage salary rise—awarded with effect from 1 April—for each year since 1997, but cannot provide a figure for 1996. The figures are as follows:

| | *Percentage* |
|---|---|
| 1997 | 4 |
| 1998 | 3.5 |
| 1999 | 4 |
| 2000 | [1]4 |
| | [2]0.5 |
| 2001 | [1]4.3 |
| | [2]0.9 |
| 2002 | [1]4.3 |
| | [2]1.1 |
| 2003 | [1]3.6 |
| | [2]1.1 |

[1] Consolidated
[2] Non-consolidated

All annual salary increases are subject to a pay remit, which must be approved by the Department for Constitutional Affairs. Prior to 2003 remits also required approval of HM Treasury.

**Mr. Leslie:** A precise cost for the inquiry, which will include four members from the Department of Constitutional Affairs seconded to the inquiry team, is not yet available. We will publish the figure once it is available.

Hours spent by other staff in support of the inquiry or in general will have been part of their normal duties and at no cost to the inquiry. Records of hours spent on the inquiry are not maintained centrally.

### Departmental Staff

**Mr. Russell Brown:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what percentage of staff employed within the Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145772]

**Mr. Lammy:** I refer my hon. Friend to the answer given to him by the Minister of State for the Cabinet Office, on 6 February 2004, *Official Report*, columns 1084–86W.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Iraq

**Adam Price:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many visits by *(a)* UK and *(b)* foreign journalists to Basra have been facilitated by the Government in the last month; on which dates such visits took place; and which journalists were involved. [153903]

**Mr. Ingram** *[holding answer 9 February 2004]:* I have been asked to reply.

Information on the number of government sponsored visits by both United Kingdom and foreign journalists to Basra in the last month is shown in the following table:

| *Name* | *Nation* | *Media* | *Dates* |
|---|---|---|---|
| Gareth Furby | UK | BBC London News | 9–18 January |
| John Walsh | UK | BBC London News | 9–18 January |
| Herr Rainer Hirst | Germany | ZDF TV Germany | 12–20 January |
| Herr Lukas Rosenberg | Germany | ZDF TV Germany | 12–20 January |
| Herr Lars Schwietjke | Germany | ZDF TV Germany | 12–20 January |
| Herr Christian Schubert | Germany | Frankfurter Allgemeine Zeitung | 15–20 January |
| M. Olivier Lucazeau | France | AFP | 15–20 January |
| Nevsal Elevi | Turkey | Milliyet | 15–20 January |
| Ms Heidi Kingstone | Canada | Johannesburg Star | 15–20 January |
| Herr Frank Herman | Germany | Rheinische Poste | 19–23 January |
| Herr Markus Ziener | Germany | Handelsblatt | 19–23 January |
| Herr Christoph Mahlzahm | Germany | Spiegel | 19–23 January |
| Herr Christoph von Marschall | Germany | Tages Spiegel | 19–23 January |
| Dr. Greg Mills | South Africa | South African Institute of International Affairs | 19–25 January |
| Andrew Redvers Collinson | UK | HTV Wales | 19–25 January |
| Richard Hooper | UK | HTV Wales | 19–25 January |
| Iolo Ap Dafydd | UK | BBC Wales | 19–25 January |
| Rhys Williams | UK | BBC Wales | 19–25 January |
| Oliver Wright | UK | Times | 24–29 January |
| Jack Hill | UK | Times | 24–29 January |
| Mme Florence Saugues | France | Paris Match | 7–12 February |
| M. Bernard Wis | France | Paris Match | 7–12 February |
| Mlle Sophie Shihab | France | Le Monde | 7–12 February |
| M. Frederic Gerschel | France | Le Parisienne | 7–12 February |

*Note:*
Those for which we have provided international air transport

This list does not include information on journalists who may have accompanied either a royal or ministerial party, details of which are not held centrally.

In addition to the sponsored visits, we have provided facilities to many journalists based in or visiting Iraq independently.

## DEPUTY PRIME MINISTER

### Advertising

**Miss Kirkbride:** To ask the Deputy Prime Minister how much has been spent on recruitment advertisements in the press, broken down by publication, by *(a)* his Department, *(b)* quangos under the Department and *(c)* non-departmental Government bodies under the Department (i) in the last year and (ii) since 1997. [145805]

**Yvette Cooper:** The Office of the Deputy Prime Minister was created on 29 May 2002.

The total cost of recruitment advertising in the press from 29 May 2002 to 31 December 2003 is £343,000.

The provision of a breakdown of costs by publication could only be provided at a disproportionate cost. The Office of the Deputy Prime Minister use the most appropriate publication for recruitment advertising, be it national, regional, trade magazine or website, depending on the nature of the vacancy to be filled.

Information on costs incurred by quangos and NDPBs is not held centrally and could only be obtained at disproportionate cost.

### Civil Servants

**Mr. Curry:** To ask the Deputy Prime Minister how many civil servants were employed in his Department, broken down by *(a)* gender, *(b)* age, *(c)* Civil Service classification and *(d)* tenure since May 2002. [145991]

**Yvette Cooper:** The Office of the Deputy Prime Minister was established on 29 May 2002.

The staffing position for the Office, as at December 2003 is shown in the following table:

| | *Headcount* |
|---|---|
| *Gender* | |
| Female | 1,048 |
| Male | 1,214 |
| Total | 2,262 |
| *Age Group* | |
| 16 to 25 | 147 |
| 26 to 35 | 591 |
| 36 to 45 | 670 |
| 46 to 55 | 607 |
| 56 plus | 247 |
| Total | 2,262 |
| *Civil Service Classification* | |
| Senior Civil Service | 148 |
| Pay Group 7 | 59 |
| Pay Group 6 | 375 |
| Pay Group 5 | 253 |
| Pay Group 4 | 529 |
| Pay Group 3 | 476 |
| Pay Group 2 | 355 |
| Pay Group 1 | 40 |
| Pay Group EM1 to 4 | 27 |
| Total | 2,262 |
| *Tenure* | |
| Casual | 66 |
| Permanent | 2,054 |
| Other (fixed-term appointment and inward secondments) | 142 |
| Total | 2,262 |

Staffing information is also available in Table C of the annual publication, "Civil Service Statistics", which covers permanent staff numbers in each Department and agencies from 1995 to 2002. Copies of the publication are available in the Libraries of both Houses. The latest edition, based on April 2002 data, was published on 24 July 2003.

Alternatively, this information is available at the following address on the Cabinet Office Statistics website: http://www.civil-service.gov.uk/statistics/css.htm

### Council Housing

**Mr. Purchase:** To ask the Deputy Prime Minister pursuant to his oral answer of 4 February 2004, *Official Report*, column 748, what estimate he has made of the return anticipated by investors on the £8 billion private investment made in former council housing to which he referred; and what part of the £8 billion private investment and servicing charges being made in former council housing will be recouped by investors in charges *(a)* to the Exchequer and *(b)* to tenants. [154312]

**Keith Hill:** Private Finance raised by registered social landlords (RSLs) in order to purchase and improve former council housing will be obtained on a competitive basis at the market rate at the time of borrowing. The National Audit Office report "Improving social housing through transfer" published in March 2003 recorded that transfers in 2000–01, the last full year covered by the report, secured loans with margins ranging from 0.1 per cent. to 0.5 per cent. above base rates. Provision for the repayment of the loan principal and associated interest will be included with in the RSL's business plan.

### Departmental Information

**Mr. Curry:** To ask the Deputy Prime Minister if he will list the information or public relations campaigns conducted by his Department since May 2002. [145992]

**Yvette Cooper:** Information and public relations campaigns conducted by the Office of the Deputy Prime Minister since May 2002 are as follows:

The Fire safety campaign aimed at reducing the number of deaths and serious injuries from domestic fires.

The Elected Regional Assemblies campaign—to create public awareness of, and encourage informed debate on, our policies on regional government.

The advertising and promotional campaign to inform people about and encourage the uptake of the Starter Homes scheme.

### Departmental Staff

**Mr. Russell Brown:** To ask the Deputy Prime Minister what percentage of staff employed within his Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145927]

**Yvette Cooper:** I refer the hon. Member to the answer given by my hon. Friend the Member for Paisley South on the 20 January 2004, *Official Report*, col. 1130W.

### Development Sites

**Mr. Hoban:** To ask the Deputy Prime Minister through what mechanism he may require reserve housing development sites to be released for building. [154831]

**Keith Hill:** It is premature for my right hon. Friend the Deputy Prime Minister to consider how to require the release of reserve housing sites at this time. In general my right hon. Friend the Deputy Prime Minister has powers to modify or call-in development plans, and is responsible for deciding planning application appeals. In relation to Hampshire, my right hon. Friend the Deputy Prime Minister will decide what further action, if any, is necessary following the decision of the Joint Advisory Panel on 10 March.

### Fire Service

**Gregory Barker:** To ask the Deputy Prime Minister what estimate he made of the cost to East Sussex Fire Authority of becoming a precepting authority. [154551]

**Mr. Raynsford:** The Government are carefully considering responses to the consultation on alternative notional amounts for Combined Fire Authorities, including that received from East Sussex Fire Authority.

**Gregory Barker:** To ask the Deputy Prime Minister whether, under his plans for modernisation of the Fire Service, smaller fire authorities will have less scope to make savings than larger fire authorities. [154553]

**Mr. Raynsford:** The Independent Review of the Fire Service predicted that the metropolitan brigades would gain the biggest savings. However, it may be too simplistic to compare larger versus smaller authorities. That, and the profound changes to the fire and rescue service announced in the White Paper "Our Fire and Rescue Service" is why the Government recognises that revisiting the fire formula spending share formula could be an issue. A working group of officials has been set up to examine the case for change and possible alternatives. The Office of the Deputy Prime Minister will consider any proposals for changes to the formula in the light of the working group's conclusions.

**Gregory Barker:** To ask the Deputy Prime Minister what plans he has to introduce a mechanism to redistribute grant to those smaller fire authorities that may have less scope to make savings under the Fire Service Modernisation agenda than larger fire authorities. [154554]

**Mr. Raynsford:** The Government recognises that revisiting the fire formula spending share formula could be an issue, given the profound changes to the fire and rescue service announced in the White Paper "Our Fire and Rescue Service". A working group of officials has been set up to examine the case for change and possible alternatives. The Office of the Deputy Prime Minister will consider any proposals for changes to the formula in the light of the working group's conclusions.

**Mr. Jim Cunningham:** To ask the Deputy Prime Minister what steps he takes to ensure that the staff in fire service control rooms in Coventry have adequate levels of local knowledge. [155442]

**Mr. Raynsford:** There are no fire control rooms in Coventry.

### Give as You Earn Scheme

**John Barrett:** To ask the Deputy Prime Minister how many and what percentage of staff in his Department contribute to a charity through the Give As You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143895]

**Yvette Cooper:** The latest available data for the Office of the Deputy Prime Minister's payroll are for November 2003. In this month 261 staff donated £4,962.46 to 'Give As You Earn' (GAYE) out of a total headcount of 2,385 staff. This means that the percentage of the Office of the Deputy Prime Minister's staff making donations in this manner currently stands at 10.95 per cent.—the target rate is 10 per cent.

The Office of the Deputy Prime Minister recognises the importance in continuing to raise awareness among its staff and intends carry out a promotion campaign and to integrate promotion of this scheme in our induction materials.

### Houses in Multiple Occupation

**Mr. Davey:** To ask the Deputy Prime Minister what assessment he has made of the fire risk in houses in multiple occupation of two storeys. [153130]

**Mr. Raynsford:** Government research published in 1997—Fire Risk in Houses in Multiple Occupation: Research Report—revealed that the risk of death from fire in HMOs of two storeys is about four times less than those of three storeys or more.

The Office of the Deputy Prime Minister has also recently completed a study into the effectiveness of residential sprinkler systems in a range of premises, including houses in multiple occupation. A summary of that project is available from the Building Regulations area of the Office of the Deputy Prime Minister's website. The full report of the work is available from the Building Research Establishment.

### House Building

**Mr. Hoban:** To ask the Deputy Prime Minister when he assesses which reserve sites should be released to meet county level house building targets; and to what extent those borough councils that have already met their targets will be exempt from having to release reserve sites. [154820]

**Keith Hill:** It would be premature to take any decisions on where the release of the 'reserve' provision in Hampshire should take place, until after the Joint Advisory Panel have made their decision. The Strategic Planning Authorities have recently consulted upon a draft addendum to the Supplementary Planning Guidance 'Implementing Policy H4', which sets out a process for deciding the location of release. Performance against housing requirements is listed as one of the factors to be considered.

**Mr. Hoban:** To ask the Deputy Prime Minister how many local authorities have been assessed as not meeting their target for house building. [154821]

**Yvette Cooper:** Information on how many local authorities have been assessed as not meeting their house building target has not been collected centrally. However, performance on house building has formed part of the assessments made at the regional and strategic level for the preparation of revised Regional Planning Guidance and structure plans in each region.

Each local planning authority will be required, under the Planning and Compulsory Purchase Bill, to report on their performance against their local development scheme and on the impact of their policies on the ground in their Annual Monitoring Report (AMR). Local planning authorities would be required to include information on housing policy and performance. Under draft clause 25 of the Bill, if the AMR indicates that they are not performing as desired, this should trigger the authority to revise their local development scheme (and subsequently their local development documents). If they fail to do so, my right hon. Friend the Deputy Prime Minister can direct the authority to do so.

### Information Technology

**Mr. Allan:** To ask the Deputy Prime Minister what cost savings have been made in his Department since the introduction of the Information Technology procurement Centre of Excellence; and how these were calculated. [151040]

**Yvette Cooper:** A Centre of Excellence was established within in June 2003 to integrate the essential functions which underpin the successful delivery of all types of acquisition based programmes and projects. As cost benefits will not accrue until improvements start to take effect, it is too early to measure cost savings. All Centres of Excellence are currently developing future plans and as part of this process measurement of savings will be defined.

### Local Government Finance

**Sir Paul Beresford:** To ask the Deputy Prime Minister what the total English local authority expenditure was for each year since 1992–93. [155443]

**Mr. Raynsford:** Local authority revenue expenditure for the period 1992–93 to 2003–04 is tabled as follows:

| | *£ million* |
|---|---|
| 1992–93 | 42,020 |
| 1993–94 | 41,506 |
| 1994–95 | 43,602 |
| 1995–96 | 44,827 |
| 1996–97 | 46,532 |
| 1997–98 | 47,256 |
| 1998–99 | 50,189 |
| 1999–2000 | 53,651 |
| 2000–01 | 57,329 |
| 2001–02 | 61,952 |
| 2002–03 | [1]65,919 |
| 2003–04 | [2]72,473 |

[1] provisional
[2] budget

Revenue expenditure is financed from formula grant (which includes revenue support grant, redistributed non-domestic rates, police grant), and specific grants within Aggregate External Finance (AEF).

It excludes expenditure financed by specific grants outside AEF, including mandatory rent allowances, mandatory rate rebates, mandatory student awards and, from 2002–03, grants for adult education and sixth forms which are funded by the Learning and Skills Council.

Data is taken from RS outturn form for 1992–93 to 2002–03 and RA budget form for 2003–04.

### Neighbourhood Renewal Budget

**Mr. Edward Davey:** To ask the Deputy Prime Minister what the budget was for each project funded by Neighbourhood Renewal for *(a)* 2002–03 and *(b)* 2003–04, broken down by (i) English region and (ii) neighbourhood renewal area. [151879]

**Yvette Cooper:** Figures on Neighbourhood Renewal funding for 2002–03 and 2003–04, broken down by English region and neighbourhood renewal area are available in the Library of the House.

### Out-of-town Retail Developments

**Mr. Michael Foster:** To ask the Deputy Prime Minister what guidance he gives to local planning authorities assessing applications for out-of-town retail developments which provide enabling development for the benefit of local communities. [155038]

**Yvette Cooper:** The Office of the Deputy Prime Minister does not provide any specific guidance on this issue. Section 54A of the Town and Country Planning Act 1990 requires planning applications to be determined in accordance with the development plan unless material considerations indicate otherwise. Key material considerations include national planning policy such as PPG13: Transport, on the location of development, and PPG6 on Town Centres and Retail Developments. PPG6 indicates that all out-of-centre retail development should be assessed in line with the policy. Other material considerations, as draft PPS6: Planning for Town Centres indicates, may include physical regeneration, employment, economic growth and social inclusion, but the draft guidance does not specifically refer to enabling development.

### Periodicals

**Mr. Curry:** To ask the Deputy Prime Minister if he will list the annual cost of periodicals that *(a)* his ministerial

office, *(b)* other ministerial offices within his Department, *(c)* non-departmental bodies, *(d)* executive agencies and *(e)* his Department have subscribed to since 1997. [146025]

**Yvette Cooper:** The Office of the Deputy Prime Minister was created on 29 May 2002. The total expenditure on periodicals, including newspapers, by the Office of the Deputy Prime Minister for the period from formation until 31 March 2003 was £300,072, and for 1 April until 22 December 2003 was £237,371.

This breaks down as follows:

£

| | *29 May 2002 to 31 March 2003* | *1 April to 22 December 2002* |
|---|---|---|
| *(a)* Ministerial Office | 1,262 | 1,710 |
| *(b)* Other ministerial offices in ODPM | 7,827 | 5,235 |
| *(c)* Non-departmental bodies (Rent Assessment Panels only) | 1,609 | 1,431 |
| *(d)* Executive agencies | No data available | No data available |
| *(e)* ODPM total | 300,072 | 237,371 |

Information on how much NDPBs and Agencies spend on periodicals is not held centrally, and could be provided only at disproportionate cost. The exception to this is expenditure by Rent Assessment Panels, which is processed centrally by the Office of the Deputy Prime Minister.

### Press/Public Relations Officers

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by his Department in each year since 1997. [146026]

**Yvette Cooper:** The Office of the Deputy Prime Minister was created on 29 May 2002. The press office provides a centralised media service on behalf of ODPM*(c)* . At 1 April 2003, there were 21.8 full time equivalent press officers.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by the Audit Commission in each year since 1997. [146027]

**Yvette Cooper:** The information requested is as follows.

*(a)* The Audit Commission used an external consultancy for Press Officers until October 2001, up to that time the Commission did not directly employ Press officers. The Commission employed Press Officers from the following dates:

1 April 2002—6

1 April 2003—7

*(b)* The Audit Commission used an external consultancy for Public Relation officers until 1999. Since then this work has been handled by in-house staff and/or outside consultancies. Since 1999 the role has involved the equivalent of one full-time job. As from February 2004 the Press Officer/Public Relation Officer roles will be combined and will result in a total of seven employees.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by the Housing Corporation in each year since 1997. [146028]

**Yvette Cooper:** Since 1999, as at 1 April, the Housing Corporation has employed a Head of Communications and one full-time Communications/Media Officer.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by English Partnerships in each year since 1997. [146029]

**Yvette Cooper:** Since 1999–2000, English Partnerships have employed a total of six press officers and no public relations officers. Records for earlier periods are not held centrally, and could be provided only at disproportionate cost.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by the Standards Board for England in each year since 1997. [146030]

**Yvette Cooper:** The Standards Board for England was set up in 2001. It currently employs two officers supported by an administrator who provide a service to the press in addition to other general communications duties such as organising events.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by the Boundary Commission for England in each year since 1997. [146035]

**Yvette Cooper:** The Office of the Deputy Prime Minister was created on 29 May 2002. Since then no press officers or public relation officers have been employed by the Boundary Commission for England.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by the Boundary Commission for Wales in each year since 1997. [146036]

**Yvette Cooper:** The Office of the Deputy Prime Minister was created on 29 May 2002. Since then no press officers or public relations officers have been employed by the Boundary Commission for Wales.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by the Residential Property Tribunal Service in each year since 1997. [146037]

**Yvette Cooper:** None.

**Mr. Curry:** To ask the Deputy Prime Minister how many *(a)* press officers and *(b)* public relations officers were employed by the Valuation Tribunals in each year since 1997. [146038]

**Yvette Cooper:** The Valuation Tribunals have never employed press or public relation officers.

### Procurement (Outsourcing)

**Norman Lamb:** To ask the Deputy Prime Minister if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147578]

**Yvette Cooper:** The Office of the Deputy Prime Minister procures IT in line with Government procurement policy, having due regard to propriety and regularity and the need to comply with the requirements of the EU Treaty, including the principle of non-discrimination, the EC procurement directives and the UK's international obligations.

The Office of the Deputy Prime Minister has two outsourced IT contracts, totalling £10.7 million, neither of which is with an offshore company. Of these, one is a Department for Transport contract providing joint services to the Office of the Deputy Prime Minister and the other is the sole responsibility of the Office of the Deputy Prime Minister. These contracts were let with:

LogicaCMG for the provision of the corporate payroll service for the Office of the Deputy Prime Minister and the Department for Transport; and

Fujitsu for the provision of IT infrastructure and desktop services for the Government Office Network.

### Protective Suits

**Mr. Oaten:** To ask the Deputy Prime Minister how many nuclear, biological, chemical protective suits are available to *(a)* emergency services and *(b)* military personnel in the London area. [155036]

**Mr. Raynsford:** The London Ambulance Service currently has 400 Personal Protective Equipment (PPE) suits immediately available for use in response to CBRN (Chemical, Biological, Radiological or Nuclear) incidents. The Service plans to increase the number of suits available to 1,400 during the next financial year.

The London Fire Brigade has 1,500 gas-tight suits immediately available for use in response to CBRN incidents, as well as for day-to-day operations.

The Military in London has approximately 1,000 PPE suits immediately available.

The total number of CBRN trained police officers nationally is now over 5,000. This is in line with the Association of Chief Police Officers' desired level of training to ensure that police forces nationally have the necessary resilience to deal with a CBRN incident. It would not be appropriate, on security grounds, to give more specific information regarding the CBRN response capability in each police force.

The deployment of CBRN-protective equipment to the emergency services and to the Military is not tied to geographical regions and, depending on the nature and scale of any incident, London may receive extra equipment from or supply extra equipment to other regions.

### Regional Assemblies

**Mr. Jenkin:** To ask the Deputy Prime Minister how the costs of local government reorganisation would be distributed if an elected regional assembly is established in *(a)* the North West, *(b)* Yorkshire and the Humber and *(c)* the North East. [155137]

**Mr. Raynsford:** It is too early to say what the costs and savings of any reorganisation will be since these will depend ultimately on the pattern of unitary authorities introduced and on the decisions that the new unitary authorities take about how to discharge their functions. The Office of the Deputy Prime Minister will be discussing how any costs will be funded with local government.

### Security Passes

**Mr. Oaten:** To ask the Deputy Prime Minister how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [147977]

**Mr. Burstow:** To ask the Deputy Prime Minister how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [151607]

**Yvette Cooper:** Two security passes have been reported stolen by staff in the HQ buildings of the Office of the Deputy Prime Minister during the period January 2003 to January 2004. A further 165 replacement security passes have been issued in the same period. It is not possible to say how many of the passes were lost other than by theft. Security passes may need to be replaced for a variety of reasons including loss, theft, damage or change of name, and the Office does not record the reasons for the replacement of a security pass. Figures for GOs North East and London are not available but a further 153 passes have been replaced in the remainder GO network. Although ODPM has overall responsibility for these, the Government Offices carry out functions on behalf often Departments.

Procedures are in place to ensure that electronic passes are de-activated as soon as their loss is reported. In addition pass designs do not identify the building or organisation.

### Tenancy Deposit Scheme

**Matthew Green:** To ask the Deputy Prime Minister if he will make a new cost-benefit analysis of a statutory tenancy deposit scheme in England, taking account of the interest generated on deposits held in a custodial scheme. [154995]

**Yvette Cooper:** In considering proposals for dealing with tenancy deposits and in preparing a response to the consultation that concluded a year ago the Office of the Deputy Prime Minister shall be revisiting the cost-benefit analysis on which the partial regulatory impact assessment that was included in the consultation paper.

**Matthew Green:** To ask the Deputy Prime Minister what estimate his Department has made of the *(a)* maximum and *(b)* minimum potential (i) benefit and (ii) cost of a tenancy deposit scheme. [154996]

**Yvette Cooper:** An analysis of the costs and benefits of providing for tenancy deposit protection was contained in a partial regulatory impact assessment included in the consultation paper published in November 2002. This suggested that against costs of £19 million there could be benefits of around £20 million. The Office of the Deputy Prime Minister is reviewing those estimates as the various elements of measures to safeguard deposits are assessed and we will do so against a range of assumptions.

**Matthew Green:** To ask the Deputy Prime Minister if he will list the organisations attending the seminar held in December to discuss the case for linking legislation for compulsory measures to protect tenancy deposits to the Law Commission's findings. [154997]

**Yvette Cooper:** The following organisations attended:

Ashton Wingate Insurance
Association of Letting and Managing Agents
Association of Residential Letting Agents
Association of Student Residential Accommodation
Association of Tenancy Relations Officers
Brent London Borough
Brent Private Tenants
Brighton and Hove BC
British Property Federation
Camden London Borough
Council of Mortgage Lenders
Croydon London Borough
Empty Homes Agency
Hastings and Rother Bond Bank
HMO Network
Independent Housing Ombudsman
Islington London Borough
Law Commission
Legal Action group
Manchester City Council
NALS Homelet
National Approved Letting Scheme
National Association of Citizens Advice Bureau
National Association of Estate Agents
National Federation of Residential Landlords
National Union of Students
Newcastle New Deal
Office of Fair Trading
Shelter
Small Landlords Association
South Norfolk DC
The Chartered Institute of Housing
The Law Society
The Rent Service
The Royal Institution of Chartered Surveyors
Thomas Winter Insurance
Universities UK

**Matthew Green:** To ask the Deputy Prime Minister whether the estimated cost of a tenancy deposit scheme took account of the proportion of cases requiring adjudication in *(a)* the pilot schemes and *(b)* other countries. [155212]

**Yvette Cooper:** The consultation paper on tenancy deposits contained a partial regulatory impact assessment that took account of the costs involved in the pilot tenancy deposit scheme managed by the Independent Housing Ombudsman. In the subsequent final period of the pilot the proportion of cases requiring adjudication has grown. Although international experiences make a useful comparison they are unlikely to provide a robust method of estimating what might happen in this country because of cultural differences such as attitudes to litigation. The circumstances in other countries may also reflect significant differences in the housing market, not least of all in the way in which it is regulated.

*Monday 23 February 2004*

## CABINET OFFICE

### Public Services Audit

**Mr. Gibb:** To ask the Minister for the Cabinet Office pursuant to his answers of 5 February 2004, *Official Report*, column 1048W and 26 January 2004, *Official Report*, column 72W, on public services audit, whether he knows who gave the unauthorised briefing to Rosemary Bennett of *The Times* newspaper. [155294]

**Mr. Alexander:** I refer the hon. Member to my answer of 5 February 2004, *Official Report*, column 1048W.

### Regulatory Reform

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office what the timetable is for the full implementation of the revised regulatory reform action plan. [155291]

**Mr. Alexander:** Details of the timetable for implementing measures in the Government's Regulatory Reform Action Plan are contained in the updated version of the Plan, published in December 2003.

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office if he will place in the Library a copy of the Regulatory Impact Unit business regulation team end of year report for 2003. [155318]

**Mr. Alexander:** The Business Regulation Team's end of year report for 2003 was published on 16 February 2004. Copies have been placed in the Libraries of the House and can be accessed at www.cabinet-office.gov.uk/regulation/business/endofyear.htm.

### Strategy Unit (Fisheries Report)

**Mr. Carmichael:** To ask the Minister for the Cabinet Office pursuant to his answer of 9 February 2004, *Official Report*, column 1136W, on the Strategy Unit Fisheries Report, when he will announce the date on which the report will be made public. [155951]

**Mr. Alexander:** The report will be published shortly. We will inform the House when the exact date for publication has been decided.

## CULTURE, MEDIA AND SPORT

### "All Our Futures"

**Mr. Peter Ainsworth:** To ask the Secretary of State for Culture, Media and Sport how many of the detailed recommendations made by the National Advisory Committee on Creative and Cultural Education in the Report, "All Our Futures", have been implemented; and if she will make a statement. [154964]

**Estelle Morris:** The National Advisory Committee on Creative and Cultural Education reported jointly to the Secretaries of State for Culture, Media and Sport and Education and Employment in 1999 via the report "All Our Futures". The report contained 59 detailed recommendations for action by a range of bodies including Government, schools and higher education institutions.

Many of the recommendations in "All Our Futures" are framed quite broadly. However, my Department has worked closely with the Department for Education and Skills, and external partners, to implement all of those which fall to DCMS.

Among the key examples are the Creative Partnerships programme, which aims to build long-term, sustainable relationships between creative professionals and schools. With £110 million of funding over four years, the programme, which began in September 2002, has enabled over 110,000 pupils to become involved in over 1,400 projects so far.

The £130 million Space for Sport and Arts (SSA) programme is funding the building of nearly 300 facilities in primary schools in the 20 per cent. most deprived wards in the country. 138 SSA projects have now been completed and 84 more have work ongoing.

To support new music making opportunities for young people, Youth Music was established in 1999 with £10 million per annum of Lottery funding. It has already reached over one million young people and their wider communities. Alongside this, the Music Standards Fund, also established in 1999, provides £60 million per annum established to protect and expand LEA music services.

Another relevant initiative is Artsmark, which seeks to recognise those schools which offer a wide range of arts provision. Nearly 2,000 schools now have awards, including one in five secondary schools nationally.

### BBC

**Mr. Simon Thomas:** To ask the Secretary of State for Culture, Media and Sport what guidelines she issues to BBC Governors on their appointment relating to *(a)* party political work and *(b)* commenting on the policies of political parties other than those policies directly affecting the work of the BBC. [154222]

**Tessa Jowell:** The guidelines issued by me as Secretary of State to BBC Governors on appointment, in relation to these matters, are contained in the Cabinet Office Code of Best Practice for Board Members of Public Bodies. The BBC requires Governors, as detailed in the Board of Governors Standing Orders, to declare any activity that might affect their ability to perform their duties as Governors.

### Consultations

**Mrs. Lait:** To ask the Secretary of State for Culture, Media and Sport if she will list those individuals and organisations *(a)* to whom (i) her Department, (ii) its executive agencies and (iii) the non-departmental public bodies for which her Department is responsible sent a copy of the consultations (A) Review of lottery funding: a consultation paper on Lottery distribution policy, (B) New services: BBC public consultation final report and (C) Draft Media Ownership (Local Radio) Order 2003 and *(b)* from who each received a response in each case. [151652]

**Mr. Caborn:** The individuals and organisations to which the DCMS sent a copy of the relevant consultation and the responses in each case are shown as follows:

*(A) Review of lottery funding: a consultation paper on Lottery Distribution Policy:*

*(a)* Sport England, the Heritage Lottery Fund, the Community Fund, the New Opportunity Fund, Awards For All, Arts Council England, The Film Council, UK Sport, Local Authorities, Members of Parliament, Regional Cultural Consortiums, Lottery Monitor, National Lottery Commission, Devolved Administrations and The Millennium Commission all received copies of this Consultation. The document was also made available on the Department's website.

*(b)* A list of those individuals and, where indicated, organisations who commented on this consultation will be placed in the Libraries of both Houses.

*(B) New services: BBC public consultation final report:*

*(a)* 'New services: BBC public consultation final report' is not a Departmental Publication and was not sent by the Department to any individuals or organisations.

*(C) Draft Media Ownership (Local Radio) Order 2003:*

*(a)* Commercial Radio Companies Association (CRCA), the ITC and the Radio Authority received copies of the Draft Media Ownership (Local Radio) Order 2003.

*(b)* Comments were received from CRCA and the Radio Authority.

Information relating to the distribution of these documents by the Department's (ii) executive agencies and (iii) the non-departmental public bodies for which DCMS is responsible is not held centrally and could be provided only at disproportionate cost.

### Seaside Towns

**Chris Ruane:** To ask the Secretary of State for Culture, Media and Sport what *(a)* capital and *(b)* revenue expenditure was provided through Lottery funding in each of the past seven years for each principal seaside town in England and Wales, with figures for Welsh seaside town clusters disaggregated; and if she will make a statement. [154999]

**Estelle Morris:** The information requested is being placed in the Libraries of both Houses.

### Ministerial Interview

**Mr. Andrew Turner:** To ask the Secretary of State for Culture, Media and Sport to whom she was referring when she referred to testosterone-charged men in her interview with the Daily Telegraph on 7 February. [155032]

**Tessa Jowell:** This is a point that I have made in many interviews over recent years. It refers to an unacceptable style of politics that exists on every side of the House, which frequently alienates the wider public.

### National Stud

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what estimates her Department has made of the sale value of the National Stud; and if she will make a statement. [155912]

**Mr. Caborn:** The asset value of the National Stud is set out in the annual report of the Horserace Betting Levy Board, a copy of which is in the Libraries of both Houses. Our preference is to transfer the Stud, without consideration, to a new independent charitable trust with a broad remit which would include training for stud staff; thoroughbred breeding which genuinely and distinctively contributes to the long-term quality of British racing; and a centre displaying the British horse heritage as a whole and providing information about breeding. We will continue to assess the progress being made by the new Board of the Stud, with the support of the Levy Board, towards the point at which such a transfer could appropriately take place, with the proviso that closure of the Stud and sale of the assets remains the fall-back option.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport how much has been spent from public funds on the National Stud in each year from 1990; and if she will make a statement. [155938]

**Mr. Caborn:** The National Stud has received no Government funding during this period.

### National Lottery

**Dr. Murrison:** To ask the Secretary of State for Culture, Media and Sport what return on investment has been made by the National Endowment for Science, Technology and the Arts since its inception. [155147]

**Estelle Morris:** The total return on NESTA's investments for Fund A (NESTA's core endowment, invested on their behalf by the Commissioners for the Reduction of the National Debt in accordance with NESTA's Financial Directions) between the financial year (FY) 1999 to FY 2003 is £40,166.

The total return on NESTA's investments for Fund B (the Endowments income, invested by NESTA, between FY 1999 and FY 2003 is £2,037.

The following table shows the breakdown for each year.

*Final Investment income per audited accounts*

*£000*

| *Income and Investment* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *Total* |
|---|---|---|---|---|---|
| Fund A | 11,618 | 11,599 | 9,006 | 7,943 | 40,166 |
| Fund B | 161 | 591 | 656 | 630 | 2,037 |
| Total | 11,778 | 12,190 | 9,662 | 8,574 | 42,204 |

**Dr. Murrison:** To ask the Secretary of State for Culture, Media and Sport how much was allocated in grants by the National Endowment for Science, Technology and the Arts in the last year for which figures are available; and what its operating costs were in the last year for which figures are available. [155148]

**Estelle Morris:** The amount of awards given through NESTA's Fellowship, Learning and Invention and Innovation programmes in the last financial year available (2002–03) stands at £7,271,000. Through their other programmes, including Planet Science and Future Lab as well as £157,000 support for competitions and partnerships they spent £4,613,000. Hence a total of £11,884,000 of support was given by NESTA. This does not include £4,669,000 worth of programme support. Together this amounts to £16,553,000, which is the total support NESTA gave to its programmes.

The operating costs for the last year available (2002–03) stands at £1,270,000; this includes a portion of staff salary not tied to the programme support, rent and other costs.

**Dr. Murrison:** To ask the Secretary of State for Culture, Media and Sport what the expenditure of the National Endowment for Science, Technology and the Arts in *(a)* science, *(b)* technology and *(c)* the arts was in each year since inception. [155149]

**Estelle Morris:** The data come from NESTA's Learning, Fellowship and Invention and Innovation Awards, Science Year/Planet Science and NESTA Futurelab. Expenditure on:

*NESTA*

| *Project type* | *1999–2000 (£)* | *Percentage* | *2000–01 (£)* | *Percentage* | *2001–02 (£)* |
|---|---|---|---|---|---|
| Science only | 188,689 | 10 | 690,985 | 13 | 3,605,915 |

| Science, Technology and Arts | 1 | 260,752 | 2 | 457,014 | 2 |
| Total | — | 11,728,886 | — | 27,328,973 | — |

**Mr. Swire:** To ask the Secretary of State for Culture, Media and Sport if she will list projects in East Devon which have received funding from the National Lottery; and what amount was received in each case. [155295]

**Estelle Morris:** The Department's Lottery Awards database, using information supplied by the distributing bodies shows that 196 Lottery awards to a total of £5,499,026 have been made to the East Devon constituency.

I am arranging for the list to be placed in the Libraries of both Houses.

## Royal Parks

**Norman Baker:** To ask the Secretary of State for Culture, Media and Sport what *(a)* salary and *(b)* bonuses were paid to (i) the Chief Executive and (ii) the senior staff of the Royal Parks Agency in the latest year for which figures are available. [154769]

**Mr. Caborn:** The latest year for which details are available of the salary and bonuses paid to the Chief Executive and senior staff of the Royal Parks Agency is financial year 2002–03. Details are set out in the Agency's Annual Report and Accounts, copies of which have been placed in the Libraries of both Houses.

**Norman Baker:** To ask the Secretary of State for Culture, Media and Sport how many *(a)* animals and *(b)* birds were culled in the Royal Parks in the last two years, broken down by (i) species, (ii) culling method used and (iii) use made of the carcass. [154770]

**Mr. Caborn:** Responsibility for this question has been delegated to the Royal Parks Agency, under its Chief Executive, William Weston.

*Letter from William Weston to Mr. Norman Baker:*

I have been asked by the Secretary of State to reply to your Parliamentary Question about animals and birds culled in the Royal Parks in the past two years, and the use made of their carcasses.

A total of 149 Red deer and 287 Fallow deer were shot during the annual deer culls; their carcasses were sold as venison, and the antlers for use in the craft trade. In addition, 37 adult Canada Geese were shot and 60 Canada Geese eggs pricked to prevent hatching. The bird carcasses were destroyed.

## DEFENCE

### 45 Commando

**Mr. Weir:** To ask the Secretary of State for Defence what plans he has to relocate 45 Commando from RM Condor. [155875]

**Mr. Ingram:** The Ministry of Defence keeps the size and location of its estate under constant review. Following on from Department-wide studies undertaken last year, the MOD is currently examining areas where rationalisation of the estate may be possible. RM Condor, Arbroath, which is the home of 45 Commando Royal Marines and 7 Battery Royal Artillery, is included in one such piece of work. A report has yet to be submitted, however, and no decisions have been taken on the future of this establishment. Any proposals arising from this—and any other study—will be subjected to full consultation.

### Airfield Support Services Project

**Mr. Grogan:** To ask the Secretary of State for Defence when he expects to make a decision on whether to proceed with a public private partnership solution for the Airfield Support Services Project. [155790]

**Mr. Ingram:** I refer my hon. Friend to the answer that I gave him on 15 December 2003, *Official Report*, column 1307.

### Astute Class Submarine

**Mr. Todd:** To ask the Secretary of State for Defence when he will place an order for long lead items for the fourth Astute Class boat; and whether he has assessed the impact on the supply chain of delay in placing such an order. [147610]

**Mr. Ingram:** The Ministry of Defence has been working closely with UK industry to assess the implications for sub component suppliers arising from delays to the Astute submarine programme. Purchase of some long lead items for the fourth boat has begun and further measures are under consideration.

### Education

**Mr. Swayne:** To ask the Secretary of State for Defence what plans he has to make changes to boarding school allowances; and if he will make a statement. [155183]

**Mr. Caplin:** Education allowances are provided to assist parents in ensuring continuity of education for their children, where it would otherwise be unacceptably disrupted by postings at home or abroad. There are no plans to change this approach.

### Commanding Officers' Advice

**Mr. Swayne:** To ask the Secretary of State for Defence for what reasons a number of commanding officers have been told that individuals who have given notice to terminate their engagement may be given the option to leave sooner. [155269]

**Mr. Caplin:** As a result of the success we have had in recent years with various measures aimed at improving recruitment and retention, in-year targets have been exceeded and measures are therefore being taken to control whole Army strength. Commanding Officers have been told that individuals who have already given notice to terminate their service before 30 September 2004 may be permitted to depart early if this is acceptable to both the individual and the unit.

### Dark Winter Anti-terrorist Exercise

**Llew Smith:** To ask the Secretary of State for Defence if he will make a statement on the conduct of, and lessons learned from, the Dark Winter anti-terrorist exercise. [155863]

**Mr. Ingram:** We have no record of a United Kingdom anti-terrorist exercise called Dark Winter. The United States authorities did, however, carry out an exercise with that name in 2001.

### Defence Estates Core Sites

**Mr. Djanogly:** To ask the Secretary of State for Defence whether *(a)* RAF Brampton and *(b)* RAF Wyton have been designated as core sites within the Defence Estates Core Sites Report of March 2003. [155555]

**Mr. Caplin:** I can confirm that RAF Brampton and RAF Wyton were designated as Core Sites, although following the recent announcement by the Chief of Defence Logistics about a proposed framework of changes to the current structure of the Defence Logistics Organisation, further work is in hand to assess the feasibility of collocating additional parts of the DLO alongside or close to the existing Ministry of Defence site at Abbeywood in Bristol. This will be followed by more detailed work which will also consider whether there are alternative Defence uses for RAF Brampton and RAF Wyton.

**Mr. Djanogly:** To ask the Secretary of State for Defence how many civil servants have been employed at *(a)* RAF Wyton and *(b)* the MOD premises at Abbeywood in each of the last five years. [155551]

**Mr. Caplin:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Department Branding

**Mr. Laws:** To ask the Secretary of State for Defence how much his Department spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154073]

**Mr. Caplin:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Departmental Property

**Mr. Weir:** To ask the Secretary of State for Defence when he will publish his review into Ministry of Defence property. [155876]

**Mr. Caplin:** In the Estate Strategy, "In Trust and On Trust" the Department defined its mainland Great Britain sites as "core" or "non-core" sites. Initial classification work was conducted last year but it is not our intention to publish the list. This is a working document and subject to constant detailed revision as the Department undertakes further work to clarify where estate rationalisation may be possible.

### Depleted Uranium Oversight Board

**Mr. Randall:** To ask the Secretary of State for Defence when he expects the Depleted Uranium Oversight board *(a)* to report and *(b)* to be wound up; and when it last met. [155801]

**Mr. Caplin:** Under its terms of reference, the Depleted Uranium Oversight Board (DUOB) is required to report to the Under-Secretary of State for Defence on its progress, and additionally reports its proceedings publicly on the internet at www.duob.org.uk

The DUOB last met on 27 January 2004. The main DU testing programme is expected to begin in mid 2004. The period over which testing will continue will depend on demand. It is not possible to say at this stage when the DUOB will be in a position to summarise its findings or when it might be wound up.

### EU Defence

**Mr. Soames:** To ask the Secretary of State for Defence if he will list the military capabilities that have been fully implemented as specified in the *(a)* Helsinki Headline Goal Catalogue 2003, *(b)* the Helsinki Force Catalogue and *(c)* the Helsinki Progress Catalogue. [155203]

**Mr. Hoon:** There is no Helsinki Headline Goal Catalogue 2003. The Helsinki Headline Goal Catalogue first compiled in 2000, and refined in 2001 and 2002, lists 144 military capability areas required of the EU in order to conduct the Petersberg Tasks within recognised crisis management scenarios. The Helsinki Force Catalogue 2003 and Supplementary Catalogue—which together list the actual forces and capabilities offered by member, accession and third states—show that at least 118 of these capability areas have been met. The Helsinki Progress Catalogue 2003 assesses the progress made overall in the delivery of Headline and Capability Goals, and outlines when new capabilities will feed in to the Force Catalogue. Work now continues—in conjunction with the European Capabilities Action Plan—to address those shortfalls that remain. New Force and Progress Catalogues are expected later this year, and will incorporate the offers made by the ten new members of the EU.

**Mr. Soames:** To ask the Secretary of State for Defence what changes have been introduced in the implementation of the EU Headline Goal; and if he will make a statement. [155209]

**Mr. Hoon:** No changes have been introduced to the implementation of the Helsinki Headline Goal. However, with the evolution of the strategic environment and of technology, and following the inter-governmental conference and redefinition of the Petersberg Tasks, and with EU accession, continued progress in the European Capabilities Action Plan, the elaboration of rapid response elements, a European Security Strategy, and further work on rotation, readiness, concurrency and redundancy, a successor Headline Goal is now under discussion, with a target date of 2010. This Goal will place a new emphasis on interoperability, deployability and sustainability as its major themes. We anticipate an announcement at the European Council in June.

### Foreign Ships

**Mr. Carmichael:** To ask the Secretary of State for Defence pursuant to the answer of 9 February 2004, *Official Report*, column 1178W, on foreign ships, whether European Union guidelines prevent his Department from having a bias in favour of chartering ships flying the shipping flags of European Union member states rather than those of non-EU countries; and what changes were made to the process for chartering freight-carrying commercial ships following his Department's review in 2003. [155512]

**Mr. Ingram:** MOD procurement, which reflects the Public Procurement Regulations that have their origins in the 1972 European Communities Act, is governed by the fundamental principle that there should be equal opportunity to tender for work without discrimination on the grounds of nationality. Charter of commercial shipping is, therefore, arranged using a panel of commercial shipping brokers on the global market.

The 2003 internal Defence Transport and Movements Agency review of charter arrangements for freight-carrying commercial ships led to the introduction of a Safety Management System (SMS) incorporating a greater risk-based process. The SMS has been approved by the MOD Ship Safety Management Board. The comprehensive assessment of suitability for charter covers: the flag, as per the Paris Memorandum of Understanding; the ship's age; port state inspection record; classification society; nationality of owners/operators; Marine Superintendent's assessment; and previous record of MOD usage.

### HMS Coventry/HMS London

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what the present state of negotiations is between the United Kingdom and Romania for the sale of HMS Coventry and HMS London in return for Romanian military equipment; and if he will make a statement. [154666]

**Mr. Ingram:** Following detailed negotiations, the Acquisition Agreement between the United Kingdom and Romania for the sale of ex-HMS Coventry and ex-HMS London (regenerated and updated) was signed on 19 December 2002 (and countersigned in January 2003). A 'Back to Back' contract between the MOD and BAE Systems was signed on 20 March 2003, permitting the Acquisition Agreement to become effective on 26 March 2003. Subsequently, the regeneration package has been refined and a suite of alterations and additions to the original design has been developed. The parameters of the offset programme were agreed in the negotiations leading up to the Acquisition Agreement.

The disposal of these ships is not in exchange for Romanian military equipment. The agreed price will be paid in pounds sterling. Payments will be made in accordance with an agreed schedule of milestones.

### Iraq

**Paul Flynn:** To ask the Secretary of State for Defence how many prisoners are being held by coalition forces in Iraq. [145337]

**Mr. Ingram:** As at 15 February 2004 there are 103 individuals held by UK forces in Iraq. We are not in a position to comment on the number of individuals held by other coalition partners.

**Adam Price:** To ask the Secretary of State for Defence if he will publish the reports of investigations carried out by the Special Investigations Branch into civilian fatalities in Iraq allegedly caused by British forces which have concluded that no further action should be taken. [147698]

**Mr. Ingram:** Reports of investigations carried out by the Special Investigations Branch will not be published.

**Adam Price:** To ask the Secretary of State for Defence how many suspected suicides among UK forces in Iraq have been investigated by the Royal Military Police. [148285]

**Mr. Ingram:** There have been no suspected suicides in Iraq during Operation Telic.

**Adam Price:** To ask the Secretary of State for Defence what the process is by which the rules of engagement for UK forces in Iraq are *(a)* agreed and *(b)* amended. [148290]

**Mr. Ingram:** Rules of engagement, are drafted by operational staff taking into account the UK's obligations under national and international law and treaties such as the Geneva Protocols. Each rules of engagement profile is subject to approval by the Secretary of State for Defence, who may take farther advice from specialist advisers on any aspect. Requests for amendments are made by operational Commanders and submitted for approval by the Secretary of State in the same way.

**Adam Price:** To ask the Secretary of State for Defence whether Coalition forces in Iraq have common rules of engagement. [148292]

**Mr. Ingram:** No. Rules of engagement remain a national responsibility governed by the domestic legislation of contributing states as well as by international law. Within that framework, however, Coalition partners liaise closely over rules of engagement, and harmonise them wherever possible.

**Mr. Llwyd:** To ask the Secretary of State for Defence how many meetings with parents of Service personnel killed in the Iraq conflict he has arranged. [150063]

**Mr. Hoon:** I have had four meetings with the families of individual Service personnel who died on operations in Iraq. I have had one meeting with the families of the six Royal Military Police killed in Majar Al-Kabir. Five of the six families attended.

I also met relatives of those killed at the Operation Telic service of remembrance and reception in October 2003 and during the repatriation ceremonies I attended at Brize Norton in the spring of last year.

**Mr. Swayne:** To ask the Secretary of State for Defence how many civilian contractors were employed under UK command to repair and maintain civil infrastructure in the *(a)* first 100 days and *(b)* six months following the end of high intensity military operations in Iraq. [150227]

**Mr. Ingram:** No civilian contractors engaged in the repair and maintenance of the civil infrastructure in Iraq come under command of the United Kingdom military. However, the majority of projects being funded through the UK military's Quick Impact Project programme (more than 800 projects, valued at over $17 million) have relied, for their success, upon Iraqi contractors and sub-contractors. This is in line with our policy of supporting the use of skilled local labour and the stimulation of legitimate local economic activity wherever possible.

**Alan Simpson:** To ask the Secretary of State for Defence what his assessment was of the number of Al Hussein ballistic missiles possessed by Iraq prior to the onset of war; how this assessment differed from the assessment of the weapons inspectors; how many of the Al Hussein missiles had their long range capabilities removed prior to the onset of war; how many Al Hussein missiles were used against coalition forces during the war in Iraq; and how many Al Hussein missiles have been identified in Iraq since the war ended. [154985]

**Mr. Hoon:** The Al Hussein missile is a version of the Scud B missile modified to increase its range to 650 km.

As stated in the Government's dossier on Iraq's Weapons of Mass Destruction, it was assessed that Iraq had retained up to 20 Al Hussein missiles. These were either complete missiles; missiles broken down for concealment; or separate missile components capable of being reassembled. The UNMOVIC weapons inspectors assessed that it was possible that Iraq possessed a small number of Al Hussein missiles. The UNMOVIC report of March 2003 stated that the consumption of some Scud and Al Hussein missiles could not be independently verified and there were also unanswered questions about the number of indigenously produced warheads and training engines destroyed by Iraq. We have no knowledge of any Al Hussein missiles being modified to reduce their long range capabilities.

There were no Al Hussein missiles used against coalition forces during the war in Iraq and, to date, there have been no Al Hussein missiles identified in Iraq since the war ended.

### Ministerial Travel

**Bob Russell:** To ask the Secretary of State for Defence when he last used a train in connection with his ministerial duties. [155161]

**Mr. Caplin:** A Defence Minister last travelled by train on 8 January 2004.

All ministerial travel on official business is undertaken in accordance with the rules set out in Travel by Ministers.

### MOD Police

**Mr. Gray:** To ask the Secretary of State for Defence what plans he has to change the MOD Police manpower in North Wiltshire; and if he will make a statement on the MOD Police in North Wiltshire. [155792]

**Mr. Caplin:** All Ministry of Defence Police Area Policing Teams (APT), including that at Corsham, are being withdrawn in April 2004 and being replaced by Divisional Support Groups which will give the Chief Constable highly trained groups of officers which can be quickly deployed to respond to a variety of operational requirements. The nearest will be at Bulford Garrison and DSDC Ashchurch.

There will continue to be an MDP complement at the Joint Support Unit Corsham.

Due to shortage of office space there will be three officers from CID Foxhill based temporarily in the offices soon to be vacated by the APT Corsham unit.

**Mr. Gray:** To ask the Secretary of State for Defence how many MOD Police are stationed at *(a)* Corsham, *(b)* Colerne, *(c)* Hullavington and *(d)* Lyneham. [155793]

**Mr. Caplin:** The number of Ministry of Defence Police (MDP) officers at the Joint Support Unit Corsham is 23. An MDP Area Policing Team of eight officers currently operates from Corsham. There are no MDP officers stationed at Colerne, Hullavington and Lyneham.

**Mr. Gray:** To ask the Secretary of State for Defence how many arrests the MoD Police in North Wiltshire made in the last 12 months of *(a)* civilians and *(b)* servicemen. [155794]

**Mr. Caplin:** The following arrests have been made by the Ministry of Defence Police based at the Area Policing Team (APT) Corsham, during the last 12 months.

| | *Number* |
|---|---|
| Civilians arrested by APT Corsham | 7 |
| Civilians arrested by Joint Support Unit (JSU) Corsham | 1 |
| Service personnel arrests by APT | 7 |
| Service personnel arrests by JSU Corsham | 2 |

**Mr. Gray:** To ask the Secretary of State for Defence what changes have recently been made with regard to patrolling and other procedures by the MOD Police in North Wiltshire as a result of the heightened security state. [155795]

**Mr. Caplin:** No changes have been made to the Area Policing Team (APT) Corsham, with regard to patrolling and other procedures as a result of the heightened security state.

### Naval Vessels

**Mr. Kevan Jones:** To ask the Secretary of State for Defence what the Government's policy is on placing of orders for naval vessels in overseas shipyards. [153790]

**Mr. Ingram:** It remains the policy of this Government that all warships for the Royal Navy will continue to be built in the United Kingdom. This entails all fabrication and assembly of new warship hulls but excludes weapon, command and propulsion systems, which may be procured from overseas, following open competition.

### Royal Navy

**Mr. Martyn Jones:** To ask the Secretary of State for Defence if he will make a statement on progress on trials of the Royal Navy's combat support system. [155019]

**Mr. Ingram:** The trials of the Royal Navy Command Support System (RNCSS) in HMS Albion during April and November 2003 were the culmination of a series of demonstrations designed to test the effectiveness of the Royal Navy's command support capability. The trials were a success, with the 72 terminals in HMS Albion meeting the challenges presented in a number of exacting scenarios.

### Typhoon

**Mr. Hoyle:** To ask the Secretary of State for Defence how many Typhoon aircraft he estimates will be ordered by each partner in the third tranche. [155130]

**Mr. Ingram:** Under the 4-nation memorandum of understanding, the UK has undertaken to order 88 Typhoon aircraft in the third tranche, Germany 68, Italy 46 and Spain 34.

### United States Bases/Forces

**Norman Baker:** To ask the Secretary of State for Defence if he will list the United States bases that have been handed back to the United Kingdom Government since 1974, indicating in each case *(a)* who paid for the restoration of the area and *(b)* what the cost was. [154761]

**Mr. Caplin:** The United States bases that have been returned to the Ministry of Defence since 1988 are listed as follows. No earlier information is available.

Records about who paid for the restoration and at what cost are not held centrally and could be provided only at disproportionate costs.

*US bases handed back to MOD since 1988*

| *Site/Facility* | *Type* | *Service* | *Returned to MOD* |
|---|---|---|---|
| Bramley | (S/S) | USAF | 1 January 1988 |
| RAF Ridgewell | (S/S) | USAF | 3 August 1989 |
| RAF Wethersfield | (SDB) | USAF | 1 October 1990 |
| RAF Chessington | (Hosp) | USAF | 18 September 1991 |
| RAF Kirknewton | (Hosp) | USAF | 26 September 1991 |
| RAF Hullavington | (S/S) | USAF | 30 September 1991 |
| RAF Lanark | (Hosp) | USN | 3 December 1991 |
| Greatworth | (Comms) | USAF | 8 February 1992 |
| Great Bromley | (Comms) | USAF | 1 May 1992 |
| Holy Loch | (S/S) | USN | 17 June 1992 |

**Norman Baker:** To ask the Secretary of State for Defence how many members of the US National (Reserve) Guard are deployed on RAF bases occupied and controlled by the US Visiting Forces, *(a)* in total and *(b)* broken down by base. [155413]

**Mr. Ingram:** A total of 208 US Army National Guards are currently deployed to RAF bases made available to the US Visiting Force, and are based at the following locations:

| *Location* | *Number* |
|---|---|
| RAF Lakenheath | 84 |
| RAF Mildenhall | 84 |
| RAF Croughton | 14 |
| RAF Molesworth | 26 |
| Total | 208 |

### Nuclear Weapons

**Llew Smith:** To ask the Secretary of State for Defence if he will place in the Library a copy of the latest version of the Mutual Defence Agreement on Atomic Energy Matters, as amended in 1994. [155864]

**Mr. Hoon:** Copies of the 1958 Mutual Defence Agreement with the United States and its subsequent amendments are already in the Library of the House.

**Llew Smith:** To ask the Secretary of State for Defence whether the United Kingdom *(a)* is involved and *(b)* plans to be involved, under the US-UK Mutual Defence Agreement on Atomic Energy matters, in the Hafnium-178 research at the US Air Force Research Laboratory at Kirtland in New Mexico; and what research Atomic Weapons Establishment is conducting into military uses of Hafnium-178. [155884]

**Mr. Hoon:** The United Kingdom is not involved with Hafnium-178 research in the United States under the 1958 Mutual Defence Agreement, and has no current plans to become involved. There is no current research programme into the military uses of Hafnium-178 at the Atomic Weapons Establishment.

## HOUSE OF COMMONS COMMISSION

### Visitors Centre

**Mr. Robathan:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission whether he has consulted UNESCO regarding building a reception room for visitors to the Palace of Westminster. [155510]

**Sir Archy Kirkwood:** The steering group preparing the UNESCO World Heritage Site Management Plan for Westminster has been fully informed and consulted.

## TRANSPORT

### Fuel Duty Rebate

**Mr. Kidney:** To ask the Secretary of State for Transport (1) if he will make a statement on the outcome of his consultation on the fuel duty rebate; [155178]

(2) if he will give control of fuel duty rebate to those local transport authorities that have *(a)* a statutory quality partnership and *(b)* a quality contract scheme. [155179]

**Mr. McNulty:** The April 2003 Budget announced that the Government would continue work on the review of bus subsidies as part of the wider review of the Transport 10-Year Plan. This includes consideration of Bus Service Operators' Grant (previously called fuel duty rebate). Further work will be guided by the need to ensure that local bus services better meet the needs of local people and communities and make effective use of public subsidy to deliver public aims. The review of the Transport 10-Year Plan is being taken forward in parallel with Spending Review 2004, which is expected to conclude in the summer.

### Birmingham Airport

**Mr. John Taylor:** To ask the Secretary of State for Transport what compensation arrangements are available to Solihull constituents whose properties are blighted by the possibility of a second runway at Birmingham airport. [155534]

**Mr. McNulty:** We have specified that the operators of airports where runway development is supported by the White Paper "The Future of Air Transport" should develop and bring forward local schemes to address the problem of generalised blight. I understand that Birmingham International Airport Ltd. hopes shortly to bring forward compensation schemes to deal with property affected by the proposals for a second runway.

### Child Poverty

**Mrs. Roche:** To ask the Secretary of State for Transport what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if he will make a statement. [154365]

**Mr. McNulty:** I refer my hon. Friend to the answer given by the Parliamentary Under-Secretary of State for Work and Pensions my hon. Friend the Member for Gravesham (Mr. Pond) on 12 February 2004, *Official Report*, columns 1590–91W.

### Civil Servants

**Dr. Cable:** To ask the Secretary of State for Transport how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150270]

**Mr. McNulty** *[pursuant to my answer, 12 February 2004, Official Report, c. 1661W]:* I would refer the hon. Member to the answer given by my hon. Friend the Minister for the Cabinet Office (Mr. Alexander) on 9 February 2004, *Official Report*, columns 1293–98W.

### Local Authority Parking Places

**John Mann:** To ask the Secretary of State for Transport how much surplus income from parking places each local authority received in the last year for which figures are available. [154959]

**Mr. McNulty:** Separate statistics on surplus income from parking places are not collected centrally. Information is provided by local authorities down to district council level showing gross income and expenditure on all activities relating to parking. I have arranged for a table showing income and expenditure for authorities in England for 2002/03 to be placed in the Libraries of the House.

### Low-sulphur Diesel

**Norman Baker:** To ask the Secretary of State for Transport what steps he is taking to encourage the use in diesel trains of low-sulphur diesel; what percentage of diesel trains use low-sulphur diesel; and if he will make a statement. [155415]

**Mr. McNulty:** The Sulphur Content of Liquid Fuels (England and Wales) Regulations 2000 set a maximum sulphur limit of 0.1 per cent. which will come into effect in 2008. Currently the maximum permissible level is 0.2 per cent. Diesel trains on the UK network operate on gas oil, which typically has a sulphur content of 0.15 per cent. The Strategic Rail Authority is planning a summit of rail industry bodies to manage a transition to low sulphur gas oil.

### Motorways

**Mr. Greg Knight:** To ask the Secretary of State for Transport if he will establish a road safety campaign to discourage heavy goods vehicles from using the third lane on motorways. [153251]

**Dr. Howells:** Heavy goods vehicles have been prohibited from using the right hand lane of motorways with three or more lanes, since 1967. This is explained in Rule 239 of the Highway Code. The evidence is that the law is appropriate, respected by drivers and effective.

### Public Transport

**Llew Smith:** To ask the Secretary of State for Transport what assessment he has made of the benefits of the introduction of reward cards to users of public transport. [155021]

**Mr. McNulty:** The introduction of reward or loyalty cards is a commercial matter for public service operators and the Department has made no direct assessment of their benefits. But the Department will continue to encourage all public transport operators to explore new approaches with the potential to increase patronage and provide benefits to passengers.

### Rail Services

**Mr. Swire:** To ask the Secretary of State for Transport what plans he has to reinstate railway track between Salisbury and Exeter on the Waterloo Line. [155301]

**Mr. McNulty:** There are no such plans at present. However, South West Trains will be introducing an hourly service from Waterloo to Yeovil in December. The Strategic Rail Authority has agreed with local authorities that they will then assess whether likely demand would justify extending the hourly service to Exeter and whether any infrastructure enhancements would be needed to allow this to happen.

### Road Accidents

**Mr. Chope:** To ask the Secretary of State for Transport how many accidents resulting in death or serious injury have occurred on the hard shoulders of motorways in England in each of the last five years. [155542]

**Mr. Jamieson:** The table shows the number of accidents resulting in death or serious injury that have occurred on the hard shoulders of motorways in England for which The Highways Agency is responsible. This is shown in each of the last five years for which validated data are currently available.

| | *Number of accidents* |
|---|---|
| 1998 | 63 |
| 1999 | 38 |
| 2000 | 40 |
| 2001 | 49 |
| 2002 | 44 |
| Total | 234 |

### Road Noise

**Mrs. May:** To ask the Secretary of State for Transport what budget was set for noise mitigation measures on roads in each financial year since 2001–02; and what percentage of this budget was used for noise mitigation measures in each year, including 2003–04 to date. [155102]

**Mr. Darling:** A budget of £5 million was set for noise mitigation measures on roads for 2001–02, 2002–03 and 2003–04. 100 per cent. of the budget was used for noise mitigation purposes in 2001–02 and 2002–03 and we estimate that 100 per cent. of the budget will be used for noise mitigation purposes in 2003–04.

### Road Safety

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport if he will make a statement on the Government's progress towards its targets of reducing the number of *(a)* road deaths and serious injuries by 40 per cent. and *(b)* child deaths and serious injuries on roads by 50 per cent. by 2010. [153020]

**Mr. Jamieson** *[holding answer 10 February 2004]:* Good progress is being made towards our casualty reduction targets for 2010 set in the Government's Road Safety Strategy. Overall deaths and serious injuries in 2002 were 17 per cent. down from their baseline, which is nearly halfway to the 40 per cent. target. Child deaths and serious injuries were 33 per cent. down, which is

two-thirds of the way to that 50 per cent. reduction target. We aim to publish the first three-year review of the Road Safety Strategy in April, analysing the progress made in detail.

### Ryanair

**Mr. Tyler:** To ask the Secretary of State for Transport pursuant to his answer of 9 February 2004, *Official Report*, column 1241W, on Ryanair Decision, when he expects to receive the full text of the European Commission's decision on the case of Ryanair at Charleroi Airport; and if he will make a statement on its implications for regional airports in the UK. [155237]

**Mr. McNulty:** The European Commission will publish its Decision on Ryanair once the parties to the case have had the opportunity to consider it. We do not know how long that will take. We will need to see the full Decision before we can make a proper assessment of the implications, if any, for UK aviation.

### Speed Management

**Mr. Baron:** To ask the Secretary of State for Transport how much was raised in fines from speed cameras in Essex in each financial year since 1996–97, broken down by *(a)* court proceedings and *(b)* fixed penalties. [152475]

**Mr. Jamieson** *[holding answer 3 February 2004]:* I refer the hon. Member to the answer I gave him on 27 January 2004, *Official Report*, columns 243–44W. These are the latest figures available.

**Mr. Amess:** To ask the Secretary of State for Transport when speed cameras were first introduced in Southend; and what the total number of speed cameras introduced was in each year since that date. [153808]

**Mr. Jamieson:** Fixed speed cameras were first introduced in Southend in March 1995. The number of locations introduced in each year since that date is shown in the following table:

| | *Additional locations established* |
|---|---|
| 1995 | [1]4 |
| 1996 | 0 |
| 1997 | 0 |
| 1998 | 0 |
| 1999 | 0 |
| 2000 | 0 |
| 2001 | [2]51 |
| 2002 | 0 |
| 2003 | [2]13 |

[1] Fixed camera locations.

[2] Fixed and mobile camera locations.

The increase in sites in 2001 coincides with the Essex Partnership joining the safety camera netting off scheme.

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport what plans the Government have to commission a review of speed limits according to levels of risk on each category of road. [155809]

**Mr. Jamieson:** The Department's review of speed management policy, published in March 2000, concluded that there was no case for a general change in the present 30 mph and 70 mph limits, but indicated that we intended to update the guidance to local authorities on the setting of local speed limits. The Transport Select Committee also recommended revised guidance in their 2002 report on Road Traffic Speed policy. Copies of these documents are available in the House of Commons Library.

We plan to issue the new guidance later this year, following consultation with local authorities and other interested parties.

### Stansted

**Mrs. May:** To ask the Secretary of State for Transport further to the written statement of 10 February 2004, *Official Report*, column 68WS, what supporting documentation he intends to publish in relation to increased airport capacity at Stansted. [155238]

**Mr. Darling:** Supporting documentation for the decisions in "The Future of Air Transport" White Paper at Stansted and other locations has been published and placed in the Libraries of the House.

### Vehicle Insurance/Taxation

**Mr. Laurence Robertson:** To ask the Secretary of State for Transport if he will introduce a requirement for drivers to display proof of insurance on their vehicles; and if he will make a statement. [155006]

**Mr. Jamieson:** The Government are determined to take effective action to tackle the problem of uninsured driving. With that in mind we commissioned, last August, an independent review of motor insurance with uninsured driving as a key focus. The reviewer, Professor David Greenaway of Nottingham University, is expected to report in April. The Government will be taking a close interest in his recommendations and take appropriate action on them as soon as practicable.

## TRADE AND INDUSTRY

### Iraqi Oil

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry which body is responsible for monitoring the volume and price of Iraqi oil exports; and if she will make a statement. [154549]

**Mr. Timms:** UNSCR 1483 charges the International Advisory and Monitoring Board (IAMB) with, inter alia, auditing the sale of Iraqi oil.

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry if she will list the *(a)* average spot price paid for and *(b)* volume sold of Iraqi oil on the international market in each month since June 2003; and if she will make a statement. [154550]

**Mr. Timms:** The average spot prices for sales of Iraqi crude oil each month since June 2003 are given in Table 1. Only a small volume of Iraqi oil has been sold on a spot basis.

*Table 1: Monthly average of the spot price of Iraqi oil*
*US dollars per barrel*

| | *Basrah Light*[1] | *Kirkuk*[2] |
|---|---|---|
| June 2003 | 26.1 | 24.2 |
| July 2003 | 26.5 | 26.4 |
| August 2003 | 27.5 | 28.3 |
| September 2003 | 24.8 | Not applicable |
| October 2003 | 27.4 | Not applicable |
| November 2003 | 27.3 | Not applicable |
| December 2003 | 29.3 | Not applicable |
| January 2004 | 30.1 | Not applicable |

[1] Monthly average of the daily spot price assessment of Iraqi Basrah Light crude delivered to the United States Gulf.
[2] Monthly average of the daily spot assessment of Iraqi Kirkuk crude loading at Ceyhan in Turkey. Note that Kirkuk crude has been exported since August 2003. Kirkuk prices are on a Free On Board basis, meaning that all delivery, inspection and elevation or loading costs involved in putting the crude on board a carrier have been paid.

Platts

### Business Internet Access

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to increase the proportion of businesses with internet access greater than 2 Mbps. [155263]

**Mr. Timms:** The Government have recognised for some time the importance of broadband for business use. Through its UK online for business programme the DTI has worked to promote the benefits that broadband can bring. The Government have also worked hard with industry to extend broadband availability and will continue to promote broadband through its package of support to business. Increasingly, this will include pointing out the added benefits that can be gained through higher-speed broadband access.

### Business Regulation

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many regulations on business have been lifted since 2000; and if she will make a statement on future lifting of regulatory burdens on businesses. [153141]

**Nigel Griffiths:** The figures for number of regulations lifted are not held centrally.

The Regulatory Reform Action Plan includes deregulatory measures and simplification of exiting compliance requirements. The original RRAP was published in February 2002 and contained 250 reforms, the update in December 2003 contained over 600.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry which regulatory impact assessments have been put forward by the Better Regulation Task Force for the National Audit Office to review; and what subsequent action has been taken in each instance. [153552]

**Mr. Alexander:** I have been asked to reply.

The National Audit Office (NAO) has published the Regulatory Impact Assessments in its pilot year sample on its website at the following address: www.nao.gov.uk/publications/workinprogress/rias.htm

The NAO will shortly be publishing a Compendium Report on its findings.

**Mr. Pollard:** To ask the Secretary of State for Trade and Industry what assessment she has made of trends in the amount of time businesses spend on dealing with regulation; and if she will make a statement. [153774]

**Nigel Griffiths** *[holding answer 9 February 2004]*: The World Bank's "Doing business in 2004" survey of 130 countries ranked the UK in top 10 countries with least regulations, and the New Year survey of EU Business leaders by Handelsblatt ranked the UK No. 1 for competitiveness. The OECD has found the UK has almost the lowest administration cost and fewer regulations for entrepreneurs than any other EU country, while tax burdens on small businesses are lowest in the UK. A NatWest Survey of 851 UK companies showed a welcome fall in their concerns about red tape. Government policies which have contributed to this include; the following:

the abolition of automatic fines for late VAT payment for 200,000 SMEs. In 1996–97 fines totalled £99 million;

cutting form-filling and red tape for up to 700,000 SMEs with the flat rate VAT scheme;

raising the statutory audit requirement to £5.6 million turnover to save 219,000 small businesses up to £274 million a year.

The Government continue to work to reduce the burdens on business.

### Business Support

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will list each business support scheme that has been *(a)* launched and *(b)* terminated in each year since 1997; and if she will make a statement. [153533]

**Ms Hewitt:** All DTI funded business support schemes are being replaced with a small set of more strategically focussed products. Since January 2003, the DTI has launched the following:

Small Firms Loan Guarantee

Grant for Research and Development

Grant for Investigating an Innovative Idea

Knowledge Transfer Partnerships

Advanced Metals Technologies Initiative

Supply Chain Groups

Coal Investment Aid and

Micro and Nanotechnology applied research programme

The following products are to be made available during 2004:

Collaborative R&D

Knowledge Transfer Networks

Access to Business Best Practice

Support to implement best business practice

Finance to encourage investment in specific areas of England and

Enterprise Capital Funds

It is not possible to list all the business support schemes launched in years prior to 2003.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what plans she has to reduce the number of business support schemes sponsored by her Department. [153562]

**Ms Hewitt:** All DTI funded business support schemes are being replaced with a small set of more strategically focussed products. Four of these new products (Small Firms Loan Guarantee, Grant for Research and Development, Grant for Investigating an Innovative Idea and Knowledge Transfer Partnerships) have been available since spring 2003. Further products will be made available from April this year.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will list the business support schemes supported by her Department. [153563]

**Ms Hewitt:** I have nothing further to add to the reply I gave the hon. Member on 5 February 2004, *Official Report*, column 998W.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many United Kingdom small businesses she estimates have failed as a result of the late payment or non-payment of debt in each of the last five years. [153564]

**Nigel Griffiths:** Accurate information regarding the number of business failures specifically attributable to late or non-payment of debt is not available.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what the estimated cost to United Kingdom small businesses was of the late payment or non-payment of debt in the last 12 months for which figures are available. [153565]

**Nigel Griffiths:** Accurate information regarding the cost to small businesses of late payment or non-payment of debt is not available.

### Call Centres

**Mr. Hepburn:** To ask the Secretary of State for Trade and Industry (1) which call centres have relocated abroad from *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* the UK in each year since 2000; and where they have relocated to; [153228]

(2) how many *(a)* call centres and *(b)* call centre-related jobs there are in (i) the Jarrow constituency, (ii) South Tyneside, (iii) Tyne and Wear, (iv) the North East and (v) the UK. [153229]

**Ms Hewitt:** The Government are well aware of the heightened interest and concerns expressed about the offshoring of UK service operations, including call centres, to countries such as India, China and Eastern Europe. My Department has commissioned research on the key factors contributing to the relative competitiveness of UK call centre operations. We are conducting this research because reliable figures on call centre employment, including jobs lost and created, do not currently exist, and there are conflicting predictions on future employment trends. However, we are still seeing growth in UK call centres; for example, in the North East region Hays Travel is creating 160 job opportunities at its call centres in Sunderland, Newcastle and Stockton.

**Jeff Ennis:** To ask the Secretary of State for Trade and Industry how many *(a)* call centres and *(b)* call centre jobs there are in (i) South Yorkshire and (ii) Yorkshire and the Humber. [153720]

**Ms Hewitt:** The Government are well aware of the heightened interest and concerns expressed about the offshoring of UK service operations, including call centres, to countries such as India, China and Eastern Europe. My Department has commissioned research on the key factors contributing to the relative competitiveness of UK call centre operations. We are conducting this research because reliable figures on call centre employment, including jobs lost and created, do not currently exist, and there are conflicting predictions on future employment trends. However, we are still seeing growth in UK call centres; for example, in the Yorkshire and Humberside region Ventura is creating 300 new job opportunities at its call centre in Rotherham.

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many *(a)* call centres and *(b)* call centre jobs there are in (i) the North West and (ii) Lancashire. [154315]

**Ms Hewitt:** The Government are well aware of the heightened interest and concerns expressed about the offshoring of UK service operations, including call centres, to countries such as India, China and Eastern Europe. My Department has commissioned research on the key factors contributing to the relative competitiveness of UK call centre operations. We are conducing this research because reliable figures on call centre employment, including jobs lost and created, do not currently exist, and there are conflicting predictions on future employment trends. However, we are still seeing growth in UK call centres; for example, in the North West region Vertex is creating 1,000 new job opportunities at its call centres in Knowsley, Speke and Bolton.

### Child Poverty

**Mrs. Roche:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if she will make a statement. [154366]

**Mr. Timms:** I refer my hon. Friend to the answer given by my hon. Friend the Parliamentary Under-Secretary of State for Work and Pensions on 12 February 2004, *Official Report*, columns 1590–91W.

### Climate Change

**Bob Spink:** To ask the Secretary of State for Trade and Industry what representations she has received from *(a)* business and *(b)* industry representatives on the Government's Climate Change Programme, with particular reference to the viability of the emissions targets for (i) 2010 and (ii) 2020. [154227]

**Mr. Morley:** I have been asked to reply.

The UK Climate Change Programme sets out the policy framework to ensure that the UK meets its Kyoto target, to reduce emissions of greenhouse gases by

12.5 per cent. below base year levels, and moves towards its domestic goal to reduce emissions of carbon dioxide by 20 per cent. below 1990 levels by 2010.

The Climate Change Programme, published in November 2000, was developed in close consultation with business, local authorities and a wide range of public and private sector organisations. Responses from all groups identified significant business opportunities for the UK from moving to a more energy efficient, lower carbon economy and less than 5 per cent. of businesses who responded believed that the programme would damage UK's competitiveness.

Many respondents to the consultation on the draft Climate Change Programme noted the need to develop a longer term policy framework that would reduce emissions beyond 2010. The February 2003 Energy White Paper did just this, with its goal to put the UK on a path to reduce carbon dioxide emissions by 60 per cent. by 2050, with real progress by 2020.

In developing the Energy White Paper, the Government held a large number of meetings and expert workshops along with a written consultation. There was concern, mostly from companies and trade associations, that competitive advantage should not be compromised by measures to address climate change. However there was also recognition of the advantages that would arise from moving towards a low carbon economy, such as through export opportunities in new renewable technology and engineering expertise, and through opportunities arising from job creation. A summary of the responses, and individual replies from businesses, to the written consultation can be found on the DTI website.

### Coke Imports (China)

**Mr. Bailey:** To ask the Secretary of State for Trade and Industry what representations she has made to the European Union on the suspension of duties on coke imported from China. [144922]

**Mr. Mike O'Brien:** None. The anti-dumping measures currently in force relating to imports of coke originating in China are due to expire in 2005, but are currently being reviewed by the European Commission. We must wait for the outcome of that review before deciding whether any approach to the European Commission is necessary.

### Comoros Islands

**Keith Vaz:** To ask the Secretary of State for Trade and Industry what the level of bilateral trade between Britain and the Comoros Islands was in the last year for which figures are available; and what steps are being taken to establish a diplomatic presence on the Comoros Islands. [154220]

**Mr. Mike O'Brien:** According to figures published by HM Customs and Excise, UK imports of goods from the Comoros Islands in 2002 were worth £211,000 while UK exports were worth £743,000. Our ambassador to Madagascar is cross-accredited to Comoros. He is due to present his credentials to the Comoran Government this week.

### Company Ownership (Voting Rights)

**Harry Cohen:** To ask the Secretary of State for Trade and Industry what her policy is on company ownership arrangements which grant a majority voting right for a minority share holding. [154453]

**Jacqui Smith:** Differential voting structures in companies (such as multiple voting rights or non-voting shares) were considered by the independent Company Law Review sponsored by the Department of Trade and Industry, which reported in November 2000 on this issue and concluded ("Completing the Structure", paragraph 5.47):

> We propose that the law should continue to place no restriction on the freedom of companies to have separate classes of shares with different voting (or other) rights.

On the basis of the review's findings, my overall approach to such differential voting structures is that, provided they are properly disclosed to the markets and others having dealings with the company, they do enhance freedom and flexibility for companies to structure themselves according to their needs. I shall, however, continue to keep this matter under review.

The Company Law Review documents are published on the DTI website at http://www.dti.gov.uk/cld/review.htm.

### Debt Repayment

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what proportion of small businesses she estimates were forced to take legal action against late or non-payers of debt in the last year for which figures are available. [153566]

**Nigel Griffiths:** A survey by the Royal Bank of Scotland, conducted in January 2004, suggested that up to two fifths of small businesses have taken legal action against a customer for non-payment. The DTI does not make a separate estimate.

### Employment Regulation

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what plans she has to extend the common commencement pilot for employment regulations to other areas of regulation. [155322]

**Nigel Griffiths:** In January, the Government gave a commitment in their recently published Action Plan for Small Business that they will consider extending the adoption of common commencement dates to other areas of domestic law, subject to the results of the current DTI pilot. Government will consult business on the priority areas and preferred dates.

### Energy Innovations

**Llew Smith:** To ask the Secretary of State for Trade and Industry what energy innovation breakthroughs have been made in the United Kingdom since the publication of the Energy White Paper in February 2003. [155022]

**Mr. Timms:** Technological progress tends to follow an incremental path and major breakthroughs are less common. Notable events since February 2003 in relation to energy innovation include the commissioning of the

UK's first large offshore wind farm (60MW) at North Hoyle, North Wales, the launch of the SUPERGEN sustainable energy research initiative, and the opening in the UK of the first marine energy test centre in Europe, which will help develop key tidal and wave technologies with support from DTI and others, including the Scottish Executive.

### EU Chemical Regulations

**Bob Spink:** To ask the Secretary of State for Trade and Industry what recent representations she has received on proposed EU regulation of chemicals. [153078]

**Jacqui Smith:** The Department of Trade and Industry has received representations about the proposed legislation from a wide range of stakeholders, including the UK chemical industry and NGOs. My noble Friend the Minister for Science recently joined my hon. Friend the Minister of State for the Environment, in a round-table discussion about this issue, which, in addition to industry and NGOs, also included representatives from the retail sector and trade unions.

The Government will shortly issue a public consultation paper, which will offer all interested parties a further opportunity to provide us with their views. There are also plans to hold a stakeholder conference during the consultation period.

The Government will continue to work with all interested parties to ensure the legislation is workable and delivers protection for human health and the environment. Representations from the UK and other member states have already helped to improve the proposal.

### EU Structural Funds

**Ann Winterton:** To ask the Secretary of State for Trade and Industry whether departmental funding is used for EU matched funding. [155222]

**Jacqui Smith:** Yes, where appropriate. For example, substantial amounts of funding are made available via the Small Business Service. In addition, the department is exploring the option for co-financing structural funds with some of the new DTI business support products. Discussions on this and other aspects of match funding are taking place with a number of Regional Development Agencies and the Government Offices.

### Export Licences (Ministry of Defence)

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry for what proportion of export licences in respect of equipment for which advice is sought from the Ministry of Defence a substantive response was received from that Department within 20 working days of receipt in the last 12 months. [154977]

**Nigel Griffiths:** Since May 1997 the Government have published an Annual Report on Strategic Export Controls containing details of all goods authorised for export from the UK and to which destinations. These Annual Reports also contain information on 'performance in processing licence applications' providing a breakdown of the performance of the main Government Departments involved in the processing of SIELs (DTI, FCO, MOD, DFID) in that year. The Government's Annual Reports are available from the Libraries of the House.

### Fuel Poverty

**David Davis:** To ask the Secretary of State for Trade and Industry how many *(a)* children and *(b)* elderly people are living in fuel poor households in the East Riding of Yorkshire. [154165]

**Nigel Griffiths:** The current published official estimates of fuel poverty are extrapolated from a sample survey of 175,000 dwellings and fuel poverty is defined as occurring when a household needs to spend more than 10 per cent. of its income including housing benefit and income support for mortgage interest on all fuels in order to maintain a satisfactory heating regime.

The available information from the English House Condition Survey indicates that in 2001 there were an estimated 238,000 households affected in the Yorkshire and Humber Region.

More detailed estimates for sub-regional areas are not available from this survey as the sample sized is not large enough to enable reliable detailed estimates at a more local level to be produced.

### Iraq

**Mr. Gardiner:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 13 January 2004, *Official Report*, column 703W, on Iraq, what support the *(a)* UK, *(b)* US and *(c)* EU are giving to facilitate Iraq's ability to take responsibility for the necessary administration. [149450]

**Ms Hewitt:** The UK recognises the importance of re-establishing normal conditions for trade in Iraq. This is detailed in the UK's Country Assistance Plan.

The UK, through Her Majesty's Customs and Excise Department (HMCE), has been very active training, working with and restoring the operations of the Iraqi Customs Service. Chambers of Commerce are emerging in Baghdad, Basra, Kirkuk and in the area controlled by the Kurdish Regional Government, and are receiving support from the Coalition Provisional Authority (CPA) to create viable trade organisations in Iraq.

The Commission have said that they will consider re-establishing GSP preferences for the country, when such viable trade organisations and a functioning and internationally recognised political authority exist in Iraq.

### Manufacturing

**Paul Holmes:** To ask the Secretary of State for Trade and Industry what the levels of *(a)* manufacturing output and *(b)* employment in the manufacturing sector were in each region of the United Kingdom in each of the last five years; and if she will make a statement on changes in the size of the manufacturing sector in the United Kingdom in the last five years. [152667]

**Jacqui Smith:** Output at regional level is measured using Gross Value Added (GVA). The latest estimates of the output of the manufacturing sector for the regions run to 2000 and are provided in Table A. Estimates of

the number of employee jobs within the manufacturing sector in each region and devolved administration of the UK run to 2002 and are provided at Table B.

Between 1998 and 2002, across the United Kingdom, the total number of manufacturing jobs fell by just under 640,000—a fall of 15.4 per cent.

During the same period, the index of output for UK manufacturing, measured at constant (2000) prices, fell by 1.8 percentage points.

*Table A: Total gross value added of the manufacturing sector by region/devolved Administration 1996 to 2000*

£ million

| | 1996 | 1997 | 1998 | 1999 | 2000 |
|---|---|---|---|---|---|
| UK | 146,078 | 152,299 | 153,412 | 152,402 | 153,671 |
| North East | 6,772 | 6,799 | 6,660 | 6,433 | 6,427 |
| North West | 19,151 | 19,471 | 19,388 | 19,323 | 19,423 |
| Yorks and Humber | 13,621 | 14,125 | 13,948 | 13,438 | 13,322 |
| East Midlands | 13,412 | 14,155 | 14,183 | 13,952 | 14,011 |
| West Midlands | 16,517 | 17,185 | 17,161 | 16,625 | 16,565 |

| Northern Ireland | 3,104 | 3,313 | 3,423 | 3,565 | 3,731 |

*Source:*
Regional Economic Accounts, ONS

Estimates of regional GVA are presented at current basic prices. They do not include taxes on products (such as Value Added Tax), and take no account of the impact of price inflation.

Regional GVA by industry estimates allocate the earnings of commuters to their region of residence and not the region where they work (in those cases where the two differ).

*Table B: Annex A: Employee jobs within manufacturing 1998 to 2002*

| | 1998 | 1999 | 2000 | 2001 | 2002 |
|---|---|---|---|---|---|
| UK | 4,150,449 | 4,028,762 | 3,894,620 | 3,703,061 | 3,512,244 |
| North East | 186,729 | 173,208 | 169,357 | 159,595 | 158,873 |

*Source:*
GB Annual Business Inquiry, ONS and the Northern Ireland Annual Business Inquiry, NISRA

The manufacturing jobs estimates refer to December of each year.

These estimates cover the total number of both full and part-time jobs in the manufacturing sector and cover the number of employee jobs, not necessarily the number of people in jobs. If a person has more than one employee job it is possible that they could be counted twice in this measure.

### Royal Mail

**Mr. Caton:** To ask the Secretary of State for Trade and Industry if she will make a statement on the recent loss of mail in the Swansea area. [154921]

**Mr. Timms:** These are matters that fall within the day-to-day responsibility of Royal Mail. I have therefore asked the Chief Executive to reply direct to the hon. Member.

### Metal Finishing Industry

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what action is proposed to meet the Commission of the European Communities communication COM (2003) 354 in respect of assistance to small operators in meeting administrative burdens and environmental challenges, with particular regard to the metal finishing industry. [152512]

**Mr. Morley:** I have been asked to reply.

This June 2003 Communication from the European Commission set out the Commission's view on implementation of the 1996 directive concerning integrated pollution prevention and control (IPPC) and invited responses to seven questions, among which was one about what support measures should be taken at EU, national, regional or local level to facilitate compliance by installations, in particular small and medium-sized enterprises (SMEs). The Government response, submitted to the Commission on 12 September 2003 and available at http://www.defra.gov.uk/environment/ppc/cipp.htm, pointed out that, in the UK's experience, it is essential for regulators to work closely with operators—whether or not SMEs—to explain as precisely as possible what IPPC requires.

In the case of the metal finishing industry, the Environment Agency is working with the Surface Engineering Association (SEA) to do that, raising awareness of the requirements and providing draft sector guidance. An Agency Sector Co-ordinator has been appointed to provide advice and support to the

industry. Three IPPC Launch Workshops were held in January 2004 for the sector, each including a presentation by the SEA. The agency is supporting the Association's IPPC "club" arrangement under which a series of workshops will be held (led by a consultant and with Agency staff contributing) to help operators write their applications in a common and therefore more efficient approach to IPPC permit application and compliance. Revised IPPC guidance for the sector will be issued by the Environment Agency in mid-February.

### Miners' Compensation/Pensions

**Jeff Ennis:** To ask the Secretary of State for Trade and Industry what the average level is of final settlements that have been agreed so far to former miners suffering from *(a)* chronic bronchitis and emphysema and *(b)* vibration white finger. [155026]

**Nigel Griffiths:** As of 1 February 2004 the average payment figure to each miner for respiratory disease was £7,715. The average payment figure for vibration white finger (VWF) was £8,354.

**John Mann:** To ask the Secretary of State for Trade and Industry how many people are in receipt of a pension from the Mineworkers Pension Scheme; and how much has been paid from the scheme in each year since it was established. [154613]

**Nigel Griffiths** *[holding answer 12 February 2004]*: The information requested is in the table.

| | *Number of pensioners in payment* | *Amount of pension benefit paid (£ million)* | *Amount of bonus payments (£ million)* |
|---|---|---|---|
| 1994 | 251,674 | 355 | |
| 1995 | 243,147 | 359 | |
| 1996 | 243,257 | 364 | |
| 1997 | 241,217 | 398 | 23 |
| 1998 | 241,068 | 483 | 69 |
| 1999 | 237,132 | 485 | 76 |
| 2000 | 234,568 | 488 | 82 |
| 2001 | 234,455 | 531 | 119 |
| 2002 | 237,929 | 584 | 127 |

### National Grid

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what the current replacement rate of assets operated by the national electricity grid is. [152040]

**Mr. Timms:** Capital expenditure on asset replacement by the National Grid Company plc is currently of the order of £120 million per year, approximately one-third of NGC's total annual capital expenditure under its current regulatory price control. The value of the company's network assets is approximately £5 billion, which gives an average replacement rate of 42 years.

NGC's asset replacement expenditure is based on a careful assessment of asset condition and not on a simple average asset age approach to replacement rate.

### Offshoring

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry when the deadline is for the consultation document on the practice of offshoring which her Department has recently issued. [151827]

**Ms Hewitt:** The consultation document invited comments by 30 January 2004. But we would still welcome comments from others who were not able to respond by this date. We are currently studying the information we have received carefully.

### Post Office

**Sir Paul Beresford:** To ask the Secretary of State for Trade and Industry what representations Postwatch South East has received on Post Office Ltd.'s proposal to close the Fetcham sub-Post Office; and if she will make a statement. [155432]

**Mr. Timms:** I understand that Postwatch South East received 98 representations during the public consultation period in Post Office Ltd.'s proposal to close Fetcham sub-Post Office under its urban network reinvention programme.

**Sir Paul Beresford:** To ask the Secretary of State for Trade and Industry (1) if she will undertake to take the final decision if Post Office Ltd. intends to fufil its proposal to close Fetcham sub-Post Office; [155433]

(2) when she expects to be able to make a decision on Post Office Ltd.'s proposal for closure of the Fetcham sub-Post Office. [155435]

**Mr. Timms:** Following public consultation on a post office closure proposal, as required under the Code of Practice agreed between Post Office Ltd. and Postwatch, the final decision on closure is an operational matter for the company.

**Sir Paul Beresford:** To ask the Secretary of State for Trade and Industry what recent changes there have been to the rural to urban classification of post offices and sub-post offices in Mole Valley. [155434]

**Mr. Timms:** I understand from Post Office Ltd. that there have been no recent changes of rural to urban classification of post offices and sub-post offices in Mole Valley.

**Mrs. Ellman:** To ask the Secretary of State for Trade and Industry what criteria the Post Office will use in deciding the future of post offices in Liverpool, Riverside which is recommended for closure. [155668]

**Mr. Timms:** Decisions on post office closures are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to my hon. Friend.

### Productivity

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the impact that Faraday Partnerships have had on *(a)* the overall productivity of UK businesses and *(b)* reducing disparities in regional productivity. [153576]

**Ms Hewitt:** The 24 Faraday Partnerships were designated on the basis of the needs of their respective sectors to accelerate new product development based on research. They feed into DTI's overall objectives for improving productivity and competitiveness in the UK.

The Partnerships operate against business plans that are individually agreed with the public sectors sponsors (typically DTI and one or more Research Councils). Progress against the business plan is regularly assessed.

Partnerships do not have a specific objective to reduce disparities in regional productivity; their aims are to improve knowledge transfer and overall performance in UK businesses wherever they are to be found.

### Regional Development Agencies

**Mr. Goodman:** To ask the Secretary of State for Trade and Industry whether regional development agencies only fund organisations located within the regions they serve; and if she will make a statement. [155981]

**Jacqui Smith:** Section 4 of the Regional Development Act 1998 sets out the five purposes of the Regional Development Agencies (RDAs). These purposes relate to the region covered by the RDA. RDAs may fund organisations, located outside their regions, if this benefits their regions and furthers their strategic objectives for the region.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what proportion of regional development agencies *(a)* achieved their targets and *(b)* delivered their regional economic strategies and corporate plans in the last year for which figures are available. [153585]

**Jacqui Smith:** Information on regional development agencies' achievements against targets set for 2002–03 was published on 7 July 2003, copies of which are available in the Libraries of the House.

As regards the Regional Economic Strategies, the East Midlands Development Agency, One North East, the Northwest Development Agency, the South East of England Development Agency, the South West Regional Development Agency and Yorkshire Forward, published their Regions' current strategies in 2002, Advantage West Midlands and the London Development Agency published theirs in 2003 and the East of England Development Agency will publish a revised Strategy in 2004. The current Corporate Plans for each RDA cover the period 2003–06 and were approved by Ministers and published in 2003. The Regional Economic Strategies and Corporate Plans are available on each RDA's website.

**Mr. Betts:** To ask the Secretary of State for Trade and Industry how many staff each Regional Development Agency employs; what the total salary bill of each agency was in the last year for which figures are available; what the average salary per employee was in each case; and what the proportion of staff salary per thousand head of population was in each case. [154335]

**Jacqui Smith** *[holding answer 11 February 2004]:* The information is set out according to the most recent RDA annual reports for year ending 31 March 2003 (for reference the website for each RDA is provided in the table).

| *RDA* | *Number of staff* | *Total salary bill (£000)* | *Average salary per employee (£)* | *Midyear population estimate for 2002*[1] | *Proportion of staff salary per 1,000 head of population (£)* |
|---|---|---|---|---|---|
| AWM | 216 | 9,159 | 42,403 | 5,304,124 | 1,726.77 |
| EEDA | 139 | 5,435 | 39,101 | 5,420,360 | 1,002.70 |
| EMDA | 170 | 5,569 | 32,759 | 4,215,492 | 1,321.08 |
| LDA | 236 | 7,541 | 31,953 | 7,355,354 | 1,025.24 |
| NWDA | 291 | 10,784 | 37,058 | 6,770,981 | 1,592.68 |
| ONE | 249 | 9,186 | 36,892 | 2,513,274 | 3,654.99 |
| SEEDA | 182 | 8,118 | 44,604 | 8,037,140 | 1,010.06 |

### Regional Venture Capital Fund

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what measures are being taken to *(a)* raise awareness of regional venture capital funds and *(b)* reduce regional disparities in application levels, especially within areas of lower entrepreneurial activity. [153582]

**Nigel Griffiths:** Government have invested £120,000 to raise awareness of the Regional Venture Capital Funds including holding a National Conference. We have also supported the regional launches of the nine Regional Venture Capital Funds and I have attended several events to launch or promote RVCF.

Officials regularly review the performance of all the Funds including the number of applications received. Any areas of concern are raised by my officials at the regular Advisory Committee meetings. I have asked officials to investigate any regional disparities and to report their findings back me.

### Renewable Energy Conference

**Llew Smith:** To ask the Secretary of State for Trade and Industry how her Department was represented at the

European Conference for Renewable Energy—Intelligent Policy Options, held in Bonn on 19 to 21 January; and what response she plans to make to the recommendations and conclusions of the conference. [155018]

**Mr. Timms:** The Director of Energy Innovation and Business Unit represented DTI at the Berlin Conference.

We note the conclusions and recommendations of the conference, which will form the basis of a more detailed discussion at the upcoming International Conference for Renewable Energies, Bonn, 1 to 4 June, 2004, the preparations for which are already under way. The Government support efforts at the international level to strengthen commitment to achieving progress on the penetration of renewables in the energy market.

### Bribery

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry how much her Department has spent on implementing *(a)* the OECD convention on combating bribery in each year since 1997 and *(b)* Part 12 of the Anti-Terrorism Crime and Security Act 2001 in each year since it came into force. [155010]

**Mr. Mike O'Brien:** The Department's main role in implementing the OECD convention and the relevant part of the Anti-Terrorism Crime and Security Act is promoting awareness of them among UK businesses and liaising with the OECD on policy development and implementation. As a result, the majority of DTI expenditure in implementing these instruments has been on human resources, with a number of officials contributing. Their time is equivalent to at least one full time post. Our expenditure is not recorded in such a way as to permit a precise analysis of the year-by-year spend against-implementing these specific instruments.

### Small Business

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry which statutory inspectors have a right of entry to small businesses; and if she will make a statement. [151990]

**Nigel Griffiths:** DTI responsibilities where there is a right of entry relevant to small businesses include the following; Export Control, Employment Agency Standards, Trading Standards (enforced through local authorities). I encourage all appropriate enforcement authorities to sign up to the Enforcement Concordat to ensure that inspections are carried out fairly.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 2 February 2004, *Official Report*, column 650W, on the Small Business Service, what the cost was of the programmes delivered by the Small Business Service for each year between 2000 and 2003. [155364]

**Nigel Griffiths:** The Programme cost of Small Business Service for each year between 2000 and 2003 are shown below. These figures are available in the Small Business Service Annual reports deposited in the Libraries of the House.

| | *Programme cost (£ million)* |
|---|---|
| 2000–01 | 244 |
| 2001–02 | 268 |
| 2002–03 | 336 |

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 2 February 2004, *Official Report*, column 650W, on the Small Business Service, what the running costs of the Small Business Service were for 2000, including agency staff and secondments. [155365]

**Nigel Griffiths:** The running cost of the Small Business Service for 2000–01 including agency staff and secondments was £10,195,000.

### SMART Awards

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many and what value of SMART awards were issued for each year between 1998 and 2003. [153555]

**Nigel Griffiths:** The information is as follows:

*£ million*

| *Financial year* | *Number of awards*[1] | *Value of awards*[1] |
|---|---|---|
| 1998–99 | 402 | 24.0 |
| 1999–2000 | 396 | 19.3 |
| 2000–01 | 578 | 28.6 |
| 2002–03 | 829 | 34.0 |
| 2003–04[2] | 618 | 28.5 |

[1] Offers of grant.

[2] To end of Q3.

The figures are for offers of grant made under the Smart scheme between 1 March 1998 and 31 December 2003. Smart formally closed to applications on 31 August 2003. The new Grant for Research and Development which replaces the Smart scheme, began accepting applications on 1 June 2003.

### Euro

**Mr. Bellingham:** To ask the Secretary of State for Trade and Industry what representations she has received from British business on the possible effects of the collapse of the euro area stability and growth pact. [153622]

**Ms Hewitt:** I have received representations from several members of the business community. The Government support a prudent interpretation of the Stability and Growth Pact, taking into account the economic cycle, sustainability and the important role of public investment.

### Statutory Audit Threshold

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what recent consultation she has undertaken on raising the statutory audit threshold; and if she will make a statement. [153548]

**Jacqui Smith:** In July 2003 the Department published a consultation document on the proposal to increase the thresholds below which most small companies can be exempt from audit. A copy of the consultation document is available for reference in the Libraries of the House. Copies of responses to the consultation are available from the DTI library.

The Regulation increasing the audit exemption thresholds came into force on 30 January 2004 and applies in respect of financial years ending two months later.

### Sustainable Energy

**Llew Smith:** To ask the Secretary of State for Trade and Industry if she will make a statement on the operation and effectiveness of the Sustainable Energy Policy Network since its establishment under the Energy White Paper of February 2003; and how many times the Sustainable Energy Policy Advisory Board has met since its inception. [155229]

**Mr. Timms:** The Sustainable Energy Policy Network (SEPN) was established to drive forward the implementation of the Energy White Paper and will be judged on that basis. It comprises Government Departments, regulators, agencies and regional organisations which have a direct role to play in delivering the White Paper's commitments. The Government will report on progress in 2003–04 shortly after the Easter recess.

The network includes a number of structures:

the Ministerial Group offers strategic direction and is chaired jointly by the Secretary of State for Trade and Industry and the Secretary of State for Environment, Food and Rural Affairs;

the Sustainable Energy Policy Advisory Board provides independent expert advice to Ministers. The Board met for the first time in December 2003 and its second meeting will be in March;

the Programme Board comprises senior officials accountable to ministers for delivering the commitments set out in the White Paper.

Further details are set out in the SEPN website at http://www.dti.gov.uk/energy/sepn/index.shtml.

### Asbestos Claims (T&N Ltd.)

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry when she last met the administrators of T&N Ltd. to discuss compensation for former employees suffering from asbestos-related illnesses; and if she will make a statement. [153910]

**Jacqui Smith** *[holding answer 11 February 2004]*: My right hon. Friend the Secretary of State for Trade and Industry has not had a meeting with the Administration of T&N Ltd. to discuss this issue, as the payment of compensation to the former employees does not fall within her areas of responsibility.

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry how much has been paid for the services of the UK administrators of T&N Ltd. since they were appointed; and what the weekly fee paid to *(a)* them and *(b)* their solicitor is. [153911]

**Jacqui Smith** *[holding answer 11 February 2004]*: Administration is a collective insolvency procedure and it is for creditors to determine the administrators' remuneration. Insolvency legislation provides that creditors who consider an administrator's remuneration to be excessive can apply to the court for it to be reduced.

**Mr. Clapham:** To ask the Secretary of State for Trade and Industry what the latest estimate is of when Federal Mogul are likely to be out of administration; what is being done to protect the interests of the former T&N employees suffering from asbestos-related illnesses in the meantime; and if she will make a statement. [153912]

**Jacqui Smith** *[holding answer 11 February 2004]*: T&N went into administration when Federal Mogul a US-based manufacturing group filed for bankruptcy in the US. T&N's discharge from administration is dependent on Federal Mogul's discharge from bankruptcy.

A Global Reorganisation Plan for Federal Mogul, which includes a Trust Distribution Plan to handle payments to all asbestos claimants in the group, is to be put before the US Bankruptcy Court this week. If the plan is approved the Administrators hope to be in a position to apply for the discharge of the administration order against T&N in the final quarter of 2004.

Asbestos claimants of T&N were represented on a committee established in the US bankruptcy proceedings that have been involved in negotiating the Trust Distribution Plan. The Administrators have negotiated to improve the treatment of UK asbestos claimants within the Plan and have taken legal proceedings against T&N's Employer Liability insurers, which, if ultimately successful, will directly benefit T&N's employee claimants.

Administration is a collective court-based insolvency procedure and it would be inappropriate for my right hon. Friend the Secretary of State for Trade and Industry to make a statement regarding this administration.

### Communications Masts

**Tim Loughton:** To ask the Secretary of State for Trade and Industry how many TETRA masts in England are *(a)* in place and *(b)* planned in total for complete roll-out in (i) the United Kingdom and (ii) Sussex. [155652]

**Mr. Timms:** Ofcom has provided the following figures.

*United Kingdom*

The Airwave network currently has around 2,200 sites and has plans to install a further 1,100. Dolphin operates 951 live sites and subject to customer requirements plans to install a further 10. The West Midlands Ambulance service has six sites with no plans at present for more. London Underground plans to install 270 sites, with rollout to commence shortly.

*Sussex*

Airwave have 65 sites in place and plan to install a further 15. Dolphin have 20 sites with no further installations planned for 2004 unless customer requirements change.

### University Challenge Seed Funds

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the impact that University Challenge Seed Funds have had on *(a)* the overall productivity of UK businesses and *(b)* reducing disparities in regional productivity. [153574]

**Ms Hewitt:** Since their establishment the Challenge funds have invested £47.3 million in projects which will improve UK productivity by making our excellent science and engineering base more easily accessible to business.

### Radioactive Waste

**Llew Smith:** To ask the Secretary of State for Trade and Industry what meetings have been held between her Department's liabilities management unit and the Committee on Radioactive Waste Management (CoRWM); what matters have been discussed with CoRWM at such meetings; and what decisions have been taken. [154690]

**Mr. Timms:** My Liabilities Management Unit (LMU) and NDA Team have held two meetings with CoRWM to discuss the establishment of the NDA, as part of the on-going work of the Committee.

This dialogue will continue.

### Wind Farms

**Mr. Peter Duncan:** To ask the Secretary of State for Trade and Industry if she will make a statement on the number of wind turbines which will be required to meet Government targets on renewable energy in the United Kingdom. [155481]

**Mr. Timms:** To meet the Government's target of 10 per cent. of electricity generated from renewable sources by 2010 we expect that approximately 3,500 to 5,000 wind turbines will be required. This includes both onshore and offshore turbines, and assumes that around 7 per cent. to 8 per cent. of electricity is generated from wind with the remaining 2 per cent. to 3 per cent. from other renewable sources.

**Llew Smith:** To ask the Secretary of State for Trade and Industry what assessment has been made of the potential hazard posed by wind turbines to migrating bats. [155023]

**Mr. Timms:** Studies[1] of the impact of wind farms on wildlife suggest that there is a small risk of bat strikes from the operation of wind turbines but that this occurs on a very irregular basis due to the good echolocation systems that bats use to navigate.

In addition, under the normal planning regime and for consent under section 36 of the Electricity Act 1989 regime or the Transport and Works Act 1992 wind farm developers are required to consider all environmental aspects of wind energy projects and produce an Environmental Impact Assessment. These assessments are available to the public.

The great majority of British bat species do not undertake large scale migrations and so would not be expected to interact with offshore wind farms. The exception to this is Nathusius's pipistrelle which is known to undertake long distance migrations in Europe (including sea crossings), but this is an uncommon species in the UK. The potential for bat interactions with wind turbines is recognised and are being considered in the Strategic Environmental Assessments that will precede any future offshore wind farm licensing rounds.

Similarly, bats are listed as a consideration in guidance "Background document on problems and benefits associated with the development of offshore wind farms" issued by the Convention for the Protection of the Marine Environment of the North East Atlantic (OSPAR document EIHA 03/4/6-E(L)) and thus potential effects on bats would be expected to be assessed in project specific Environmental Impact Assessments for offshore wind farms.

[1] National Wind Co-ordinating Committee, December 1999. Studying wind energy/bird interactions: A Guidance document: NWCC, Washington DC (USA)

**Llew Smith:** To ask the Secretary of State for Trade and Industry what research has been undertaken by *(a)* her Department, *(b)* the Energy Technology Support Unit on behalf of her Department and *(c)* consultants for her Department on (i) shadow flicker and (ii) noise from wind farms. [155024]

**Mr. Timms:** Research on wind turbine noise has been carried out under the Department's New and Renewable Energy Programme. Copies of the reports[1] from those studies are available on the DTI website at www.dti.gov.uk/publications. No research has been carried out into shadow flicker from wind turbines under the DTI's New and Renewable Energy Programme. However, others have conducted research in this area and references[2] to those studies are provided as follows.

## MINISTER FOR WOMEN

### Gender Pay Gap

**Miss McIntosh:** To ask the Minister for Women what the difference in pay was between *(a)* full-time and *(b)* part-time male and female workers in each year since 1997. [152065]

**Ms Hewitt:** The following table shows *(a)* the full-time hourly pay gap and *(b)* the part-time hourly pay gap, measured as the difference in hourly pay between women working part time and men working full time since 1997.

*Percentage*

| | *Full-time pay gap* | | *Part-time pay gap* |
|---|---|---|---|
| | *Mean* | *Median* | *Mean* |
| 1997 | 19.8 | 16.2 | 42 |
| 1998 | 20.0 | 16.2 | 43 |
| 1999 | 19.2 | 15.4 | 42 |
| 2000 | 18.9 | 15.0 | 40 |
| 2001 | 18.5 | 14.5 | 41 |
| 2002 | 19.0 | 14.3 | 41 |
| 2003 | 18.0 | 12.9 | 40 |

The Government are taking steps to address the underlying causes of the full-time and part-time gender pay gap. The part-time pay gap, which closed by two full percentage points over the period 1997 to 2003, is significantly bigger than the full-time pay gap.

To some extent this reflects the occupations that part-time work has historically been concentrated in. The Government are seeking to encourage alternative ways of working for both women and men through initiatives such as the Work-Life Balance campaign, and legislation such as the new law for working parents which enables parents with children under six or disabled children under 18 to request to work flexibly, whilst placing a duty on employers to seriously consider such requests.

## PRIME MINISTER

### 10 Downing Street

**Norman Baker:** To ask the Prime Minister if he will list the hon. Members who are not Cabinet Ministers who have *(a)* security clearance for and *(b)* passes to No. 10 Downing street. [155431]

**The Prime Minister:** We do not comment on security arrangements for No. 10 Downing street.

**Mr. Grogan:** To ask the Prime Minister what his policy is on the serving of beer at official receptions held at No. 10 Downing street. [155789]

**The Prime Minister:** Catering at official functions held at No. 10 Downing Street is provided by the Government Hospitality Section of the Foreign and Commonwealth Office, and a mixture of soft and alcoholic drinks including beer is served as appropriate.

### Dr A. Q. Khan

**Mr. Dalyell:** To ask the Prime Minister if he will discuss with President Musharraf of Pakistan the case of Abdul Qader Khan. [155911]

**The Prime Minister:** We remain in contact with the Pakistani Government over counter-proliferation issues, including the case of Dr. A. Q. Khan.

### EU Migrants

**Keith Vaz:** To ask the Prime Minister what recent discussions he has had with *(a)* the presidents of (i) Austria, (ii) Finland, (iii) France, (iv) Italy and (v) Spain, *(b)* the Prime Ministers of (A) Belgium, (B) Denmark, (C) Greece, (D) Ireland, (E) Luxembourg, (F) Portugal, (G) Sweden and (H) the Netherlands and *(c)* the Chancellor of Germany about the expected number of migrants coming to their respective countries after enlargement of the European Union. [155625]

**The Prime Minister:** I have regular discussions with Governments of EU countries on a wide range of international and European issues including on migration and the forthcoming enlargement.

### Iraq

**Norman Lamb:** To ask the Prime Minister for what reason the words

'if he believes his regime is under threat'

were excised from the final version of the September 2002 dossier; and if he will make a statement. [156010]

**The Prime Minister:** As Lord Hutton said in his report, the Chairman of the Joint Intelligence Committee (JIC) had overall responsibility for the dossier of 24 September and accepted only drafting suggestions which were consistent with the intelligence known to the JIC.

### Middle East

**Sir Menzies Campbell:** To ask the Prime Minister whether it is his policy that Israel should cease building settlements and the security wall on Palestinian territory unconditionally; and if he will make a statement. [155284]

**The Prime Minister:** As we have made clear, we consider all settlements in the Occupied Territories illegal under international law and an obstacle to a comprehensive peace in the region. The Government regularly presses the Israeli Government to freeze settlement activity and dismantle outposts in line with Israel's commitments under the roadmap.

We condemn unequivocally the suicide bombing of Israeli civilians and we understand Israel's need to take steps, within international law, to protect itself from terrorist attack. But we have made clear that we regard the wall Israel is building on occupied Palestinian land as unlawful.

**Sir Menzies Campbell:** To ask the Prime Minister what assessment he has made of the principal barriers to peace in the Middle East; and if he will make a statement. [155285]

**The Prime Minister:** The path towards a renewed political process is through the Quartet (US, UN, EU and Russia) roadmap. Both the Palestinian and the Israeli Governments should implement their roadmap commitments without delay.

The Palestinian leadership should renew its determination to tackle violence and dismantle terrorist capabilities and make further progress on Palestinian Authority reform. Israel should remove settlement outposts erected since March 2001, freeze all settlement activity and reroute the fence away from Palestinian land. Israel should also seek to improve the humanitarian situation in the Occupied Territories.

### Minister for Women

**Tim Loughton:** To ask the Prime Minister if he will add interests in parental contact to the responsibilities of the Minister for Women. [155108]

**The Prime Minister:** I have no plans to do so.

### Headed Paper

**Mr. Andrew Turner:** To ask the Prime Minister what authority members of the Prime Minister's staff have to use 10 Downing street headed paper subsequent to employment in his Office. [154888]

**The Prime Minister:** I have nothing further to add to my previous answer.

## SOLICITOR-GENERAL

### Iraq

**Mr. Dalyell:** To ask the Solicitor-General if the Attorney-General will release his full opinion on the legality of the war in Iraq to Parliament before the Butler Committee has reported. [155100]

**The Solicitor-General:** No. As I indicated in my reply to the hon. Member for Blaenau Gwent (Llew Smith) of 23 October 2003, *Official Report*, column 693W, there is a long-standing convention, observed by successive Governments, that advice which the Law Officers have given to the Government is not publicly disclosed. This is consistent with paragraphs 2 and 4(d) of Part II of the Code of Practice on Access to Government Information.

### Sir Roy Meadow

**Tim Loughton:** To ask the Solicitor-General what directions she has issued to local authority departments to identify and secure documents relating to cases involving infanticide or harm to children which relied on expert testimony from Sir Roy Meadow. [151028]

**The Solicitor-General:** With regard to the review of criminal cases, a total of 258 convictions over the past 10 years for the murder, manslaughter or infanticide of a child under two by its parent have been identified. Of those, a total of 72 relate to persons still serving a custodial sentence. These will be accorded the utmost priority. Currently, some 365 boxes of evidence relating to 52 high profile cases have been recovered from central storage and dispatched to CPS areas for them to conduct an initial review. The remaining high profile cases are being recovered from the areas themselves.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Butler Inquiry

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether individuals will be able to put themselves forward as prospective expert witnesses to the Butler Inquiry into weapons of mass destruction intelligence; [153779]

(2) what the *(a)* contact postal address and *(b)* e-mail address of the Butler Inquiry into intelligence gathering and use are. [155066]

**Mr. Straw:** On 12 February the Butler Review announced that the Committee would in due course be taking oral evidence from a number of witnesses at its own invitation. But it is also inviting anyone who has information that might assist it in considering its remit to submit evidence by 31 March 2004 by post to the Secretary, The Butler Review, Cabinet Office, 70 Whitehall, London SW1A 2AS; by email to secretary@butlerreview.org.uk.

### Democratic Republic of the Congo

**Mr. Gray:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what his involvement has been in planning Operation Artemis; and what discussions he has had with the police with regard to Operation Artemis; [154727]

(2) what the likely cost to the police is of Operation Artemis; [154729]

(3) when he last met the Chief Constable of North Wales to discuss Operation Artemis; [154730]

(4) if he will make a statement on his policy on Operation Artemis. [154731]

**Mr. Rammell:** At the request of the UN Secretary-General, the Security Council agreed to the deployment in June 2003 of an Interim Emergency Multinational Force (Operation Artemis) to Bunia in the Democratic Republic of the Congo. The purpose of the operation was to support the UN Mission present in the country and to provide a secure environment under which the interim Administration could function. Operation Artemis was a French-led European Security and Defence Policy force, over which the EU's Political and Security Committee exercised political control and strategic direction. It was deployed for a short period until 15 September 2003 and was a military mission with no civilian police involvement.

The UK contributed some 85 military personnel to Operation Artemis. The Operation's mandate expired on 15 September 2003, by which time all forces involved had been withdrawn from the territory of the Democratic Republic of the Congo.

### Outer Space Treaty

**Alan Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government continue to support the outer space treaty. [154984]

**Mr. MacShane:** Yes.

### Colombia

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Colombian Government regarding human rights issues, with particular reference to *(a)* press, *(b)* trade union and *(c)* religious freedoms. [155352]

**Mr. Rammell:** Both I and our Embassy in Bogota have regular discussions with the Colombian government, and also with NGOs and trades unions, about human rights issues. We frequently raise specific cases with the Colombian government. The Colombian Constitution guarantees freedom of the press, the right to establish and participate in trades unions and religious choice. We continue to urge the Colombian Government to bring the perpetrators of human rights crimes swiftly to justice and to take effective measures to protect all vulnerable groups at risk from illegal armed groups in Colombia. We have underlined the importance of the Colombian government implementing the specific recommendations of the UN High Commissioner for Human Rights.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent arrests of church leaders in Colombia. [155353]

**Mr. Mullin:** Neither our Embassy nor the Office of the UN High Commissioner for Human Rights in Bogota is aware of recent arrests of Church leaders in Colombia. If additional information can be provided we would be willing to investigate further.

### Department Branding

**Mr. Laws:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154067]

**Mr. Rammell:** The Foreign and Commonwealth Office does not spend funds on branding the Department.

### Departmental Expenditure

**Malcolm Bruce:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on implementing *(a)* the OECD convention on combating bribery and *(b)* Part 12 of the Anti-terrorism Crime and Security Act 2001 in each year since 1997. [155009]

**Mr. MacShane:** Foreign and Commonwealth Office expenditure in this area involves work by staff at home and abroad and is not recorded in such a way as to permit an answer to this question. UK Trade and Investment, which is co-funded by my Department and the Department for Trade and Industry, has produced a guidance leaflet on UK Bribery and Corruption Law. A small amount of other expenditure, for example on travel costs, has been incurred but is not accounted for separately from other related activities.

### Drugs Production

**Paul Flynn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the results of Plan Colombia on drugs production and use *(a)* in Colombia and *(b)* elsewhere. [154939]

**Mr. Mullin:** According to the United Nations Office on Drugs and Crime's (UNODC) latest survey, available on the UN website: www.un.org, there was a 30 per cent. decrease in the amount of coca cultivated in Colombia in 2002: 102,071 hectares at the end of 2002, compared with 144,807 hectares at the end of 2001.

While cultivation in Colombia decreased in 2002, there was an increase in Peru and Bolivia and farmers have increased productivity through the introduction of higher yielding varieties of coca and by increasing the number of plants planted per hectare.

Drug consumption is believed to be rising in Colombia. Latest UN figures for global consumption indicate that the number of people consuming drugs regularly were 200 million worldwide in the period 2000–01 compared with 185 million worldwide in the period 1998–2000.

**Paul Flynn:** To ask the Secretary of State for Foreign and Commonwealth Affairs what changes have taken place since the end of the war in Afghanistan in levels of *(a)* poppy cultivation and *(b)* heroin production in areas previously controlled by (i) the Taliban and (ii) the Northern Alliance. [155001]

**Mr. Rammell:** The United Nations Office on Drugs and Crime (UNODC) conducts an annual survey into the level of opium poppy cultivation and production in Afghanistan.

According to the UNODC annual survey, the estimated volume of opium production and cultivation in each of the last three years is as follows:

| | *Hectares* | *Tonnes* |
|---|---|---|
| 2001 | 8,000 | 185 |
| 2002 | 74,000 | 3,400 |
| 2003 | 80,000 | 3,600 |

Since the end of the war in 2001, survey figures have recorded rises in opium poppy cultivation and production in all provinces, including those controlled previously by the Taliban and the Northern Alliance. However the low level of cultivation and low production figure in 2001 reflect the Taliban ban on opium cultivation, which did not address the underlying causes of poppy cultivation in Afghanistan and was enforced with a mix of threat and bribery.

### Somalia

**Mr. Robathan:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will investigate the allegations of *(a)* genocide, *(b)* crimes against humanity and *(c)* war crimes against General Mohammed Hersi Morgan, while Governor of Hargeisa in 1988; [154132]

(2) if he will pursue at the United Nations the allegations of *(a)* genocide, *(b)* war crimes and *(c)* crimes against humanity in Hargeisa in 1988; [154133]

(3) if he will assist the Government of the Republic of Somaliland in pursuing those responsible for the alleged war crimes in Hargeisa in 1988. [154135]

**Mr. Mullin:** In 1988 the then British Government expressed concern at reports of serious human rights violations in Somalia and suspended their aid programme. We have no current plans to take further action in relation to those events. Our priority for the moment is to achieve stability and peace in the south.

### Iran

**Mr. McFall:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Iranian Government on *(a)* cultural and *(b)* educational programmes. [154094]

**Mr. Mullin:** My right hon. Friend the Foreign Secretary has discussed educational and cultural matters with the Iranian Government, most recently during the visit of the Iranian Foreign Minister to London in February 2003.

In the last few years, the Government has stepped up its promotion of educational and cultural links with Iran, for example through the Foreign and Commonwealth Office Chevening Scholarships scheme, which enables a number of high-achieving Iranians to study at UK universities each year. The British Council reopened in Tehran in 2001.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had while in Iran on the treatment of *(a)* different ethnic groups and *(b)* women within that country; and if he will make a statement. [155833]

**Mr. Rammell:** My right hon. Friend the Foreign Secretary last visited Iran in October 2003, with his French and German counterparts. On that occasion, the three Ministers decided to focus their discussion with Iranian leaders solely on the nuclear issue. But in his other frequent contacts with the Iranian Government, he has made clear our serious concerns about discrimination against and persecution of women and minorities in Iran.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had while in Iran on the development of democracy in that country; and if he will make a statement. [155834]

**Mr. Rammell:** My right hon. Friend the Foreign Secretary last visited Iran in October 2003, with his French and German counterparts. On that occasion, the three Ministers decided to focus their discussion with Iranian leaders solely on the nuclear issue. However, in other contacts with the Iranian Government, he has made clear our support for the development of democracy and reform, and our deep concern at the disqualification of candidates from the parliamentary elections on 20 February.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he *(a)* received and *(b)* made while on his recent visit to Iran on religious freedoms. [155835]

**Mr. Rammell:** My right hon. Friend the Foreign Secretary last visited Iran in October 2003, with his French and German counterparts. On that occasion, the three Ministers decided to focus their discussion with Iranian leaders solely on the nuclear issue. However, in other contacts with the Iranian Government, he has made our serious concerns about restrictions on religious freedom in Iran and the persecution of people for their beliefs.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he *(a)* received and *(b)* made while on his recent visit to Iran, on the recent mass resignation of Iranian MPs; and if he will make a statement. [155836]

**Mr. Rammell:** My right hon. Friend the Foreign Secretary last visited Iran in October 2003, before the disqualification of candidates for the Majlis elections and the mass resignation of Iranian MPs. In contacts with Iranian leaders since the current dispute began, he has made clear our deep concerns. For elections in any country to be free and fair, it is essential that voters should be able to choose from a range of candidates.

## Iraq

**Norman Lamb:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) for what reason elements of the PhD thesis by Dr. Ibrahim al Marashi were incorporated into the Government's second dossier on Iraqi weapons of mass destruction; and if he will make a statement; [153061]

(2) for what reason elements of the PhD thesis by Dr. Ibrahim al Marashi were altered before incorporation into the Government's second dossier on Iraqi weapons of mass destruction; who authorised these alterations; and if he will make a statement; [153062]

(3) who authorised the use of parts of the PhD thesis by Dr. Ibrahim al Marashi in the Government's second dossier on Iraqi weapons of mass destruction; when the decision to do so was taken; and if he will make a statement. [153063]

**Mr. Rammell:** The circumstances surrounding the inclusion of Dr. Al Marashi's PhD thesis in the document produced by the Communications Information Centre in February 2003, and the roles of the officials involved, were set out in a memorandum to the Foreign Affairs Committee by the then Director of Communications at 10 Downing street dated 24 June 2003 (paragraphs 11–16), and in his evidence before the Committee on 25 June 2003 (questions 1064–1090).

**Joan Ruddock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Iraqi Governing Council regarding Sharia law in Iraq. [153703]

**Mr. Rammell:** It is for the Iraqis to debate and decide the future laws suitable for their country. We will seek to use our influence, however, to ensure that Iraqi law is compatible with international human rights standards.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what he expects will become of the *(a)* International Advisory and Monitoring Board and *(b)* Iraq Development Fund after a sovereign government of Iraq is established; to whom control of the monies will be passed; and if he will make a statement. [154547]

**Mr. Straw:** According to UN Security Council Resolution 1483, Iraqi revenues from the export of petroleum, petroleum products and natural gas should be deposited into the Development Fund for Iraq (DFI) until an

"internationally recognised, representative government of Iraq"

is formed. Unless the Security Council decides otherwise, it will then be for that government to decide how they handle future revenues. At the same time, there will remain a continuing obligation on UN member states to transfer financial assets or economic resources of the former Iraqi regime to the DFI.

Resolution 1483 does not envisage an end to the International Advisory Monitoring Board (IAMB) with the formation of an Iraqi government. Unless the Security Council decides otherwise, we would expect the IAMB to continue in existence after the formation of that government.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many British representatives sit on the Programme Review Board which determines expenditure in Iraq; what the relationship of the Board to *(a)* the United Kingdom Government, *(b)* the US Government and *(c)* the Iraqi Governing Council is; and if he will make a statement. [154548]

**Mr. Straw:** The Programme Review Board (PRB) was established to enable emergency or unanticipated extra-budgetary spending requests to be brought to a joint Iraqi-Coalition Provisional Authority (CPA) body for assessment and authorisation. CPA Regulations 2–4 (available online at www.cpa-iraq.org) outline the criteria for the PRB's operations.

The relationship of the UK and US Governments and the Iraqi Governing Council to the PRB is reflected in the distribution of voting members of the PRB. which includes representatives of:

the Governments of the United Kingdom and Australia;

the Iraqi Minister of Finance (who is accountable to the Iraqi Governing Council);

Officials from the US and other coalition members from the CPA's Economic Affairs, Governance and Security Policy Offices, and Office of Infrastructure and Operations;

the Iraqi Council for International Co-operation;

and the Coalition Military (Combined Joint Task Force 7).

One UK Voting Member may attend the Board.

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what definition he uses of humanitarian intervention, with particular reference to the invasion of Iraq. [154978]

**Mr. Rammell:** Our decision to take military action was to enforce Iraq's disarmament obligations, in accordance with the relevant United Nations Security Council resolutions. It was taken as a last resort. The Iraqi regime's refusal to cooperate left us with no option. Authority to use force against Iraq derived from the combined effect of UNSCRs 678, 687 and 1441; and all of these resolutions were adopted under Chapter VII of the UN Charter, which allows the use offeree for the express purpose of restoring international peace and security.

Clearly, however, the removal of Saddam Hussein's oppressive regime has had humanitarian benefits for the Iraqi people. The coalition and international community are helping to rebuild Iraq's infrastructure. Donors have committed $33 billion in grants and concessional loans; and Iraq's assets and oil revenue are now being used for the benefit of the Iraqi people.

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the UN Monitoring Verification and Inspection Commission inspectors discovered at the Al-Rafah test site; whether additional information has since been found by the Iraq Survey Group; and whether the Government has obtained further information since September 2002 on Al-Rafah in addition to that produced by the UN Special Commission on Iraq and the Iraq Survey Group. [155057]

**Mr. Mullin:** As reported by Dr. Hans Blix in the UN Monitoring Verification and Inspection Commission (UNMOVIC) working document on unresolved disarmament issues published on 6 March 2003, UNMOVIC inspectors discovered the construction of a new liquid propellant test stand at Al-Rafah designed for both horizontal and vertical testing of engines for Al-Samoud missiles.

The Iraq Survey Group is continuing to carry out investigations at sites throughout Iraq. They will present their findings in due course.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library all minutes in English of the Coalition Provisional Authority Program Review Board to date. [155287]

**Mr. Straw:** Yes. These minutes are also available on-line at the Coalition Provisional Authority website: www.cpa-iraq.org/budget/program_review_board.html.

**Mr. Tynan:** To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* financial and *(b)* other support the Government are giving to promote inter-religious dialogue in Iraq. [155564]

**Mr. Rammell:** The UK Government are funding an inter-faith conference in Baghdad this month, organised by Iraqis with support from the International Centre for Reconciliation based at Coventry Cathedral. Participants have been drawn from the leaderships of mainstream Iraqi religious communities. This is one of a number of initiatives which aim to promote religious dialogue in Iraq. UK and Coalition Provisional Authority officials are in regular dialogue with religious leaders about a range of issues.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the organisation of regional caucuses in the British-controlled areas of Iraq. [155858]

**Mr. Straw:** On 15 November 2003, the Iraqi Governing Council announced the process and timetable for the handover of power to a sovereign Iraqi Government and democratic elections. Since then the Coalition Provisional Authority has engaged in a process of consultation with the Governing Council and others on the best way to establish a transitional national administration before full democratic elections are held. The UN Secretary-General sent a technical team to Iraq this month to examine the options for elections. His team's report was due on 21 February. We look forward to receiving its recommendations, to which we will give serious consideration.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the proposed deadline for transfer of power to a transitional Government in Iraq. [155859]

**Mr. Straw:** On 15 November 2003, the Iraqi Governing Council announced the process and timetable for the hand-over of power in Iraq, including the establishment of an Iraqi transitional Government by 30 June 2004. We believe that deadline remains realistic and are working hard to achieve the hand-over by that date.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the mandate of a transitional Government in Iraq; and if he will make a statement. [155860]

**Mr. Straw:** On 15 November 2003, the Iraqi Governing Council (IGC) announced the process and timetable for the hand-over of power in Iraq. This includes the drafting of the Transitional Administrative Law (TAL), which will define the powers and principles of the Iraqi transitional administration. It is important that the TAL gains wide acceptance among Iraqis. It is currently being debated within the IGC. We will use our influence to help ensure that the TAL safeguards fundamental rights and contributes to the building of a free, democratic Iraq at peace with its neighbours.

### Israel

**Dr. Tonge:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning Israel's citizenship law. [154195]

**Mr. Rammell:** The British Embassy in Tel Aviv last lobbied the Israeli Ministry of Foreign Affairs on the issue of citizenship on 11 August 2003. Embassy staff raised concerns about the implementation of the revised citizenship law and the discriminatory effect it would have on certain sectors of the population, including many Palestinians. We continue to monitor the situation closely.

### Lord Hutton's Report

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will reconcile paragraph 14 of "A Further Response of the Secretary

of State for Foreign and Commonwealth Affairs to the Ninth Report of the Foreign Affairs Committee's Session 2002–03" (Cm 6123) with Appendix 13 of the Hutton Report. [153747]

**Mr. Mullin:** No reconciliation is called for. Lord Hutton's conclusion on the basis of the evidence was clear:

"As the dossier was one to be presented to, and read by, Parliament and the public, and was not an intelligence assessment to be considered only by the Government, I do not consider that it was improper for Mr. Scarlett and the JIC to take into account suggestions as to drafting made by 10 Downing Street and to adopt those suggestions if they were consistent with the intelligence available to the JIC."

(Paragraph 228 (7) of Lord Hutton's Report of the Inquiry into the Circumstances Surrounding the Death of Dr. David Kelly CMG.)

### MEPs and EU Officials

**Mr. Swire:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with other EU Foreign Ministers about *(a)* the harmonisation of salaries for MEPs and *(b)* ensuring greater transparency in the travel expenses of MEPs and EU officials. [155044]

**Mr. MacShane:** Salaries and travel expenses for MEPs were most recently discussed at the General Affairs and External Relations Council on 27 January, where the Council failed to reach agreement on a revised Statute for MEPs. We nonetheless hope the European Parliament will implement its Expenses Regulation—which it can do with or without a Statute—so reforming its travel expenses system.

Draft revised Staff Regulations for all EU officials are currently being discussed at working group level; they have not been discussed by the Council. We hope that they will be implemented on 1 May and will make the travel expenses system for EU officials simpler and more transparent.

### Middle East

**Mr. Tynan:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken to secure a Middle East free of weapons of mass destruction and their delivery systems as envisaged in UN Security Council Resolution 1284, in respect of *(a)* Israel and *(b)* Syria. [155562]

**Mr. Mullin:** The Government have consistently supported Resolutions in the UN General Assembly calling for the establishment of a zone free of weapons of mass destruction in the Middle East.

We take every available opportunity to urge all states in the region to sign, ratify and abide by the obligations of all Treaties and Conventions covering the proliferation of weapons of mass destruction and the means for their delivery.

### Mozambique

**Mr. Gibb:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* independence and *(b)* integrity of the Mozambican judicial system. [155310]

**Mr. Mullin:** The independence of the Mozambican judiciary is enshrined in Section 1, Article 164 of the Mozambican constitution. This states that, "In the discharge of their functions, judges are independent and only owe obedience to the law". The Government of Mozambique is committed to ensuring an independent and fair judicial system.

**Mr. Gibb:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library the list lodged with his Department of United Kingdom claimants for property appropriated without compensation by the Mozambique Government since 1975. [155311]

**Mr. Mullin:** Under Exemption 15 (Statutory and other restrictions: Data Protection Act in this case) of the Code of Practice on Access to Government Information, the Government is prohibited from placing in the Library the list of UK claimants for property appropriated without compensation by the Mozambique Government since 1975 without the written permission of all those listed.

**Mr. Gibb:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions in the last 12 months in which the issue of claims for compensation for confiscated property have been raised with the Mozambican authorities. [155312]

**Mr. Mullin:** Our High Commission in Maputo last raised the issue of claims for compensation for confiscated property with the Mozambican authorities in July 2003. We will continue to raise the matter with the Mozambicans as and when appropriate opportunities present themselves.

### Nigeria

**Mr. Tynan:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the acquisition of ballistic missiles and associated technology by Nigeria from North Korea. [155563]

**Mr. MacShane:** I refer my hon. Friend to the answer I gave to the hon. Member for Blaby (Mr. Robathan) on 10 February 2004, *Official Report*, column 1305W.

### North Korea

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what evaluation he has made of recent evidence from North Korea of continuing human rights abuses, with specific reference to use of political prisoners to test chemical weapons. [155572]

**Mr. Mullin:** We fully share my hon. Friend's concerns about reports of continued and widespread human rights violations in North Korea, and we raise the issue regularly with the Democratic People's Republic of Korea (DPRK) authorities. My hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Bill Rammell) raised the allegations concerning chemical weapons tested on North Korean prisoners with the DPRK Ambassador on 12 February and urged the DPRK government to allow independent monitors access to the country to verify or disprove such allegations, as called for in the Resolution adopted by the UN Commission on Human

Rights in 2003. We will continue to encourage the DPRK government to co-operate fully with UN human rights mechanisms.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of China on its policy of sending back North Korean refugees. [155613]

**Mr. Mullin:** We regularly raise the issue of North Korean refugees with the Chinese, including at the biannual UK/China Human Rights Dialogue. At the last round of the Dialogue, on 10/11 November 2003, we urged China to allow the UNHCR access to the border areas and to observe its obligations under the 1951 Refugee Convention. In addition, my hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Bill Rammell) raised the issue with the Chinese Vice-Foreign Minister Zhang Yesui in December 2003.

We will continue to encourage China's greater co-operation with the UNHCR on this issue.

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155925]

**Mr. Straw:** My Department took an average of four days to answer parliamentary questions for ordinary written answer in Session 2002–03, within the five working day Parliamentary guidelines.

The greatest number of days taken to provide an ordinary written answer in Session 2002–03 is 102 working days, which includes the summer recess.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155530]

**Mr. Mullin:** The information requested is as follows:

Total cost of advertising April 2002 to March 2003: £716,234.16.

We advertise widely for jobs in the Diplomatic Service and specialist positions, as well as general careers advertisements placed in diversity publications and websites. The placement of adverts is reviewed regularly according to the nature of the position, cost and response from previous advertisements. The above breakdown for the years 2000–02 could be provided only at disproportionate cost.

### Serbia and Montenegro

**Mr. Robathan:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to EU partners on *(a)* the situation in Serbia and *(b)* Serbian co-operation with international institutions; [155670]

(2) what assessment he has made of the co-operation of the Serbian Government with *(a)* UN authorities and *(b)* the War Crimes Tribunal; [155671]

(3) what assessment he has made of UN reports that Radovan Karadzic and Ratko Mladic are in Belgrade; and what representations he has made to the Serbian authorities on this matter. [155672]

**Mr. MacShane:** We and our European Union partners regularly discuss the situation in Serbia and the rest of the Balkans region. The General Affairs and External Relations Council on 26 January noted the results of the recent Serbian parliamentary elections of 28 December 2003. It urged all democratic parties to help form a government committed to reform and further integration with the European Union.

While the relationship between Belgrade and the United Nations Administration Mission in Kosovo (UNMIK) has been difficult, the Serbian Deputy Prime Minister and Head of the Co-ordination Centre for Kosovo and Metohija, Nebojsa Covic, has recently made helpful statements on the Direct Dialogue Working Groups. These talks will cover areas such as environmental issues, energy and missing persons. This is a positive step towards building a stable future for Kosovo.

The UK fully supports the International Criminal Tribunal for the former Yugoslavia (ICTY), which helps foster reconciliation and stability in the region. Serbia and Montenegro (SaM) made some progress in early 2003, but co-operation has since stalled. We take every opportunity to remind Belgrade that in order to realise her Euro-Atlantic aspirations, SaM must fulfil the international obligation of full and complete co-operation with the ICTY.

We believe that SaM could do more to co-operate with the ICTY, particularly by assisting in the arrest and transfer of Bosnian Serb leaders Ratko Mladic and Radovan Karadzic. Through both bilateral and EU initiatives, we continue to put pressure on the SaM Government to transfer all remaining ICTY indictees, including Mladic and Karadzic, and to allow ICTY full access to documents and witnesses.

### Somali National Reconciliation Conference

**Mr. Robathan:** To ask the Secretary of State for Foreign and Commonwealth Affairs who attended the Somali National Reconciliation Conference at the Safari Park Hotel outside Nairobi. [154137]

**Mr. Mullin:** The main Somali political and faction leaders attended these consultations, although leaders from Somaliland did not. A UK observer was also present.

**Mr. Robathan:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was to the UK Government of the Somali National Reconciliation Conference held at the Safari Park Hotel outside Nairobi. [154138]

**Mr. Mullin:** The UK Government made a voluntary contribution of US$100,000 to support these consultations.

### Terrorism

**Mrs. Iris Robinson:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 28 January 2004, *Official Report*, column 415W, on terrorism (political parties), what means have been used to persuade Hizbollah to abandon all terrorist activity. [154659]

**Mr. Rammell:** Hizbollah's terrorist wing, the External Security Organisation, is proscribed in the UK. We maintain contact with the political wing of the organisation, on which we press the pursuit of legitimate political engagement and the abandonment of terrorist activity. We have also urged Lebanon, Iran and Syria to exercise any influence they have with Hizbollah in a positive manner.

### Train Travel

**Bob Russell:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last used a train in connection with his ministerial duties. [155158]

**Mr. Straw:** 16 January 2004.

### Tristan da Cunha

**Norman Baker:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the division of responsibilities between his Department and the local council on Tristan da Cunha in respect of the Convention on International Trade in Endangered Species. [148621]

**Mr. Mullin:** The Department for Environment, Food and Rural Affairs takes the policy lead on Convention on International Trade in Endangered Species (CITES) related matters for the UK. The UK's ratification of CITES applies to Tristan da Cunha. Under the latter's current legislation, which is under review, the functions of the CITES Management Authority are carried out by the Administrator, who is a Foreign and Commonwealth Office official. The Island Council would not be involved.

### Turkey

**Bob Russell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek the consent of the Turkish Government for British officials to monitor the Turkish local elections on 28 March. [155581]

**Mr. MacShane:** No. The British Embassy in Ankara will follow the local elections in Turkey closely. This will include consultations with political parties, non-governmental organisations and electoral authorities.

**Bob Russell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek the consent of the Turkish Government for British officials to monitor the Kurdish New Year Newroz celebrations on 21 March. [155582]

**Mr. MacShane:** No. Non-governmental organisations will observe the Newroz celebrations and the British Embassy in Ankara, which follows developments in Turkey closely, is in regular contact with them.

### Ukraine

**Mr. Grogan:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Ukraine on the importance of free and fair elections there; and if he will make a statement. [155937]

**Mr. MacShane:** My right hon. Friend the Foreign Secretary made clear to Foreign Minister Kostyantyn Gryshchenko in January that Ukraine's aspirations towards membership of the EU and NATO were dependent on its democratic progress. The extent to which the 2004 presidential elections are free and fair will be a test of Ukraine's readiness for closer relationships with the EU and NATO.

### United Nations Compensation Commission

**Mr. Cousins:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the Government's policy to support *(a)* new approvals and *(b)* new payments of claims from the United Nations Compensation Commission. [154555]

**Mr. Mullin:** As a permanent member of the United Nations Compensation Commission's (UNCC) Governing Council, the UK actively supports the work of the UNCC, including any Governing Council decisions relating to new approvals and new payments.

### Weapons of Mass Destruction

**Mr. Rosindell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the scope of international monitoring of weapons of mass destruction proliferation, with particular reference to biological and chemical weapons. [154858]

**Mr. MacShane:** The threat of proliferation of WMD has, in recent years been successfully limited by international arms control and effective multilateral treaties including the Nuclear Non-Proliferation Treaty (NPT), Comprehensive Test-Ban Treaty (CTBT), Chemical Weapons Convention (CWC) and the Biological Weapons Convention (BWC).

The NPT is the cornerstone of the non-proliferation regime, with 188 States Parties. It forbids acquisition or possession of nuclear weapons, except by the five acknowledged nuclear weapons States, who are required to pursue negotiations on nuclear disarmament. The NPT requires non-nuclear weapons Parties to enter into safeguards agreements with the International Atomic Energy Agency (IAEA) in order to verify compliance. The IAEA's safeguards system is being strengthened by the introduction of an Additional Protocol expanding the IAEA's access. The UK is working with EU partners to see this Additional Protocol accepted as an international norm.

The CTBT provides for a global system of monitoring stations, using four complementary technologies, to record data necessary to verify compliance. Its aim is to achieve a total ban of explosive testing of nuclear weapons.

The CWC bans the production, acquisition and retention of chemical weapons and requires CW possessors to destroy, under supervision, CW stockpiles

and production facilities. CWC implementation is verified by the Organisation for the Prohibition of Chemical Weapons (OPCW) through on-site monitoring of CW destruction activity, and regular inspection of relevant industrial facilities. The CWC also provides for any Party with a concern about another's compliance to seek a challenge inspection. The CWC has 159 Parties, most recently including Libya's welcome accession.

The BWC has 151 Parties. The Fifth Review Conference of the BWC agreed in November 2002 on a three-year programme of work leading up to the Sixth Review Conference in 2006. This process is designed to strengthen the Convention, which currently has no ability to verify compliance. Assistance with the establishment of national legislation and regulation was provided to two States Parties following the annual Meeting of States Parties in 2003. The UK actively encourages universality of the Convention and urges all States that have not yet done so to sign and ratify the Convention.

### Western Sahara

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the decision of the UN to extend the Mission for the Referendum in Western Sahara until 30 April; and what impact he expects this to have on Morocco. [154462]

**Mr. Rammell:** We have consistently supported the efforts of the UN Secretary General and James Baker III, his Personal Envoy, to find a solution to the dispute over Western Sahara. We supported UN Security Council Resolution 1523, which extended the mandate of the UN Mission for the Referendum in Western Sahara (MINURSO) until 30 April, allowing Morocco the opportunity to consult further with Mr. Baker on the final Moroccan response to the latest UN Proposals, known as the Peace Plan. We continue to urge Morocco to engage constructively with Mr. Baker.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the situation with regard to the imprisonment of Western Sahara Polisario activists in Morocco. [154463]

**Mr. Rammell:** Ministers and officials regularly call upon the parties to the Western Sahara dispute to take action on human rights issues and we also raise specific cases. For example, my officials raised with the Moroccan authorities the cases of some of the 12 Saharawi activists who were subsequently released by the Moroccan authorities on 7 January 2004. We also raise with the Polisario and Algerian authorities the over 600 Moroccan prisoners of war who continue to be held by the Polisario, many on Algerian territory. We will continue to monitor the situation closely, taking action with the appropriate authorities where necessary.

### Zimbabwe

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs at which EU General Affairs Council meetings in the last six months he has called for the toughening of EU sanctions against the Mugabe regime in Zimbabwe; and what specific measures he called for. [155437]

**Mr. Straw:** We have been consistent advocates of tough EU sanctions against Mugabe. The present measures consist of an arms embargo on Zimbabwe, and an assets freeze and travel ban on leading members of the regime. I have raised the matter with relevant EU Foreign Minister colleagues on a number of occasions and so have officials on my behalf with their counterparts. The result is that with our strong support, these measures were extended on 19 February for a further year.

We also sought and secured an increase in the number of senior ZANU-PF figures subject to the travel ban and assets freeze, from 79 to 95. This includes several additional individuals who bear particular responsibility for the abuses of human rights in Zimbabwe.

The 23 February General Affairs and External Relations Council (GAERC), which I attended, issued a strong statement deploring the failure of the government of Zimbabwe to address the EU's concerns over the deteriorating situation in the country. The GAERC also made clear the EU's intent to continue to provide humanitarian assistance to the people of Zimbabwe, on the basis of need.

## INTERNATIONAL DEVELOPMENT

### Agriculture (Africa)

**Mr. Bercow:** To ask the Secretary of State for International Development what proportion of *(a)* employment, *(b)* exports and *(c)* gross national income in *(a)* Nigeria, *(b)* Ghana, *(c)* Tanzania and *(d)* Kenya is accounted for by agriculture. [155405]

**Hilary Benn:** Accurate data on agriculture in sub-Saharan Africa are not always available. For example, some smallholder farmers may not be taken into account in those agricultural censuses and surveys that focus on 'formal' agriculture. DFID does not produce its own data—the following have been collated from other sources which we believe to be among the best available:

| | *2001 labour force employed in agriculture*[1] *(percentage)* | *2001 agricultural exports as percentage of total*[2] | *2001 agricultural production as percentage GDP*[3] |
|---|---|---|---|
| Nigeria | 32 | 3 | 35 |
| Ghana | 57 | 22 | 36 |
| Tanzania | 80 | 28 | 45 |
| Kenya | 75 | 39 | 19 |

[1] World Resources Institute (2001) sourced from FAOstat.
[2] World Bank (2003) African Development Indicators 2003.
[3] World Bank (2003) World Development Indicators 2003.

**Mr. Bercow:** To ask the Secretary of State for International Development what proportion of *(a)* employment, *(b)* exports and *(c)* gross national income in (i) Mozambique, (ii) Malawi and (iii) Lesotho is accounted for by agriculture. [155407]

**Hilary Benn:** The SADC 2000 Human Development Report suggests that in 1990 the percentage of the labour force deriving its primary source of income from agriculture was 87 per cent. in Malawi, 83 per cent. in Mozambique and 40 per cent. in Lesotho (where only

10 per cent. of the land area is suitable for cultivation). These figures are broadly in line with more recent assessments in the three countries. In all three countries, a higher percentage of households derive at least some of their livelihood from farming.

Agriculture contributes 93 per cent. of export earnings in Malawi, 6 per cent. in Mozambique and 1 per cent. in Lesotho.

Agriculture represents 33 per cent. of GDP in both Malawi and Mozambique, and 18 per cent. in Lesotho.

### Palestine

**Mr. Swire:** To ask the Secretary of State for International Development what discussions he has had with his EU counterparts on the allegations that foreign aid to the Palestinian Authority from the EU has been diverted to the Al-Aqsa brigade. [155043]

**Hilary Benn:** The European Union takes such allegations extremely seriously, and has responded by in investigating the matter. The Commission, on the basis of the material it has examined, has not found any evidence of European funds being used for terrorism or other purposes other than those agreed with the Palestinian Authority. A comprehensive report on the matter, by the EU's Anti Fraud Office, is due to be published shortly.

### Bush Meat

**Mr. Gardiner:** To ask the Secretary of State for International Development when the inter-departmental ministerial group on biodiversity will discuss bushmeat. [153152]

**Mr. Morley:** I have been asked to reply.

The first meeting of this group is likely to take place soon after my return from the Conference of Parties to the Convention on Biological Diversity later this month. Bushmeat is an issue that the Group will want to consider, but all arrangements for this meeting, including the agenda, still have to be finalised.

### Central America

**Mrs. Curtis-Thomas:** To ask the Secretary of State for International Development what measures are in place to deal with Central American garment factories that are found not to comply with the relevant codes of conduct. [155279]

**Mr. Gareth Thomas:** If a Central American garment factory is found not to comply with codes of conduct enshrined in national legislation, the relevant government institution is responsible for taking remedial actions, as laid out within the legislation. If, however, a garment factory is found not to comply with the corporate codes of conduct specified by the retailers with which the garment factory has a contract, remedial actions are identified by the independent monitor by the retailers to ensure compliance. If these actions are not taken, the factory is liable to be fined by the retailers, or in serious breaches, to losing the contract. The threat of losing a contract is a powerful incentive for a factory to implement these actions.

### Chad-Cameroon Pipeline

**Mr. Bercow:** To ask the Secretary of State for International Development (1) when independent external audits of the Chad/Cameroon pipeline project will be undertaken; [155408]

(2) when the mandatory fiscal accountability and transparency measures for the Chad/Cameroon pipeline project will be in place; [155409]

(3) what assessment he has made of the level of compliance of the Chad/Cameroon pipeline project with statutory international requirements for safety and environmental protection; [155410]

(4) when the area special oil spill response plan for the Chad/Cameroon pipeline project *(a)* was due to be in place and *(b)* is expected to be in place. [155411]

**Hilary Benn:** DFID is not directly involved in funding or implementing this World Bank project. DFID therefore does not have first-hand information on detailed implementation issues concerning external auditing, fiscal accountability, environmental and safety compliance or oil spill response plans.

However, DFID is confident that the World Bank's systems for the monitoring and implementation of this project, and for the investigation of any warranted complaints are appropriate.

Since the project was approved in June 2000, exceptional resources have been allocated by the World Bank and the International Finance Corporation, to monitor and support the project's implementation against Internationally agreed standards. This includes the establishment of the Independent Inspection Panel (IIP) and the External Compliance Monitoring Group (ECMG).

In relation to the quality of auditing and fiscal accountability, the World Bank policy identifies two sets of appropriate auditing standards: the International Standards on Auditing published by the International Federation of Accountants (IFAC) and the Auditing Standards published by the International Organisation of Supreme Audit Institutions. Project arrangements provide for regular audits of the Chad-Cameroon pipeline projects accounts, plus independent opinions from the International Advisory Group (IAG) and the External Compliance and Monitoring Group (ECMG), which carries out regular independent supervisions of the technical and environmental aspects of the project, and from the Inspection Panel which may investigate complaints from people who believe they have been negatively affected by a World Bank project.

The Chad-Cameroon pipeline is subject to a number of monitoring and supervision controls to ensure quality control, application of environmental regulations, design and implementation adhere to International rules and regulations. The Environmental Management Plan (EMP) has strict requirements and specifications, and compliance with these by all parties is spelled out in legally binding agreements. Strong remedies are provided in legal agreements with all parties in case they fail to comply with this obligation. The EMP represents an extensive analysis of the potential environmental and social impacts of the project.

The World Bank are being advised by the ECMG in monitoring the implementation of the Environmental Management Plan, and by an International Advisory Group on broader implementation issues, including those that need to be addressed to achieve the project's developmental objectives. Both the ECMG and IAG make regular site visits. These third party reviews supplement the Bank's own monitoring and supervision of the project which includes site visits, internal reporting and continual discussions with the project sponsors.

The above measures are additional to on-going monitoring by the Consortium and by the Governments of Chad and Cameroon. The Consortium provides quarterly reports which are publicly available.

DFID's interest is as a member of the Executive Board of the World Bank. We do and will continue to take our role on the Executive Board seriously, ensuring that issues identified by the Independent Inspection Panel and External Compliance Monitoring Group are raised, monitored and rectified.

The investigation reports mentioned above are publicly available and can be found on http://www.worldbank.org/afr/ccproj/index.htm.

## Civil Servants

**Dr. Cable:** To ask the Secretary of State for International Development how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150267]

**Mr. Gareth Thomas:** Details of the numbers of current civil servants in DFID (there are no agencies), broken down by grade, are contained in the following table.

| *Grade (highest first)* | *Staff numbers* |
|---|---|
| Senior Civil Service | 71 |
| A1 (Level 6) | 178 |
| A2 (Level 7) | 368 |
| A3 (Senior Executive Officer) level | 139 |
| B1 (Higher Executive Officer) level | 297 |
| B2 (Executive Officer) level | 295 |
| C1 (Administrative Officer) level | 306 |
| C2 (Administrative Assistant) level | 90 |
| Total | 1,744 |

There were 1,177 Civil Servants in DFID, in 1997. A breakdown of that figure by grade, is not available.

## CDC

**Sue Doughty:** To ask the Secretary of State for International Development if he will make a statement on the estimated annual amount of investment that the Government will make through CDC when it becomes a Government-owned investment company. [153421]

**Hilary Benn:** The Commonwealth Development Corporation Act of 1999 transformed CDC into a Government-owned investment company that deploys some £1.1 billion of public capital for investment. This capital was injected into CDC by the Government over several decades up to the mid-1990s. We have no current plans to invest additional funds in CDC.

All new investments made by CDC in the future will be funded from the proceeds of realisation of existing investments. CDC's business plan for the next few years estimates that between £200 million and £300 million will be invested each year into the new funds to be managed by Actis. The intention is that, in the medium term, third party investors will be attracted to commit capital to these funds alongside CDC.

**Sue Doughty:** To ask the Secretary of State for International Development what the environmental sustainability requirements of Actis and the Commonwealth Development Corporation will be following the reorganisation announced in his Written Statement of 8 January. [153445]

**Hilary Benn:** Since 1999, CDC has been required to follow a set of business principles that require compliance with best practice, both at fund and investee company level. These principles include environmental standards, where, as a minimum, World Bank rules must be applied, or at least met within an agreed timeframe.

The other business principles cover the areas of personal and corporate integrity, social issues such as child or forced labour or discriminatory practices, health and safety, transparency and legal and fiscal compliance.

The reorganisation does not affect these principles. They will in future apply to both Actis and CDC.

**Sue Doughty:** To ask the Secretary of State for International Development what *(a)* objectives and *(b)* return requirements will be required for investment of capital provided to an Actis-managed fund by the CDC following the reorganisation announced in his Written Statement of 8 January. [153446]

**Hilary Benn:** As set out in my Written Statement of 8 January, *Official Report*, column 15WS, CDC's objective is to maximise the creation and long-term growth of viable businesses in poorer developing countries by making responsible investments and mobilising private capital alongside public funds. This objective will remain unchanged under the reorganisation proposals and will apply to all CDC capital invested in any Actis-managed fund.

The rates of return of the different Actis funds will vary according to the region or sector at which a particular fund is targeted; for example, the rate of return for the Africa fund will differ from that for the Power fund. Target rates of return will be set according to the requirements of businesses in the region or sector in question and according to the requirements of potential co-investors in the fund.

**Sue Doughty:** To ask the Secretary of State for International Development whether ventures managed by Actis that are fully commercial will be eligible for investment capital from the Commonwealth Development Corporation. [153455]

**Hilary Benn:** Actis will be a fully commercial organisation and all ventures that it manages will be on fully commercial terms. CDC will only invest its capital in businesses that offer the prospect, with the help of the investment offered by CDC, of generating returns acceptable to CDC and co-investors. CDC's mission is to develop the private sector in the poorer developing countries. It does not plan to make available any form of concessional financing

**Sue Doughty:** To ask the Secretary of State for International Development if he will list the *(a)* salaries and *(b)* bonuses awarded to each board member and member of senior management of the Commonwealth Development Corporation for each year since 1997. [153456]

**Hilary Benn:** The salaries, bonuses and/or fees paid to the executive and non-executive directors of Commonwealth Development Corporation each year are published in the directors' remuneration report included in CDC's Annual Report. For the period 1997 to 2002, they were as follows:

£

| | *Salary/fee* | *Bonus* |
|---|---|---|
| *2002* | | |
| *Non-Executive Directors* | | |
| Lord Cairns (Chair) | 48,000 | |
| Jayne Almond (Deputy Chair) | 22,432 | |
| Jonathan Kydd | 16,658 | |
| Lalith de Mel | 17,000 | |
| Pen Kent (to 1 December 2001) | 10,250 | |
| Russel Seal (to 2 May 2001) | 4,375 | |
| Peter Smitham (from 15 March 2001) | 17,000 | |
| Tim Parker (from 1 December 2001) | 17,000 | |
| *Executive Directors* | | |
| Alan Gillespie (CEO to 30 November 2002) | 143,055 | 90,000 |
| Paul Fletcher (from 17 January 2001) | 141,225 | 90,000 |
| Richard Laing | 139,425 | 75,000 |
| Andrew Reicher (from 17 January 2001) | 137,000 | 90,000 |
| Nicholas Selbie (from 17 January 2001) | 147,900 | 67,500 |
| *2001* | | |
| *Non-Executive Directors* | | |
| Lord Cairns (Chair) | 37,500 | |
| Jayne Almond (Deputy Chair) | 16,333 | |
| Jonathan Kydd | 10,833 | |
| Lalith de Mel (from 13 April 2000) | 10,916 | |
| Pen Kent (to 1 December 2001) | 10,250 | |
| Russel Seal (to 2 May 2001) | 4,375 | |
| Peter Smitham (from 15 March 2001) | 8,637 | |
| Tim Parker (from 1 December 2001) | 1,416 | |
| *Executive Directors* | | |
| Alan Gillespie (CEO) | 170,000 | 43,350 |
| Richard Laing (from 24 January 2000) | 135,000 | 35,000 |
| Paul Fletcher (from 17 January 2001) | 128,769 | 42,300 |
| Andrew Reicher (from 17 January 2001) | 128,769 | 32,300 |
| Nicholas Selbie (from 17 January 2001) | 138,308 | 32,100 |
| *2000* | | |
| *Non-Executive Directors* | | |
| Lord Cairns (Chair) | 32,250 | |
| Jayne Almond (Deputy Chair) | 13,146 | |
| Pen Kent | 9,000 | |
| Jonathan Kydd | 8,250 | |
| Russel Seal | 10,260 | |
| Lalith de Mel (from 13 April 2000) | 5,909 | |
| *Executive Directors* | | |
| Alan Gillespie (CEO) | 160,000 | 57,600 |
| Richard Laing (from 24 January 2000) | 114,583 | 45,000 |

£

| | *Salary/fee* | *Bonus* |
|---|---|---|
| *1999* | | |
| *Members of the Corporation (to 7 December 1999) and Non-Executive Directors of CDC Group plc (from 8 December 1999)* | | |
| Lord Cairns (Chair) | 30,813 | |
| Jayne Almond (Deputy Chair) | 11,625 | |
| Pen Kent | 9,000 | |
| Jonathan Kydd | 8,250 | |
| Russel Seal | 8,953 | |
| *Chief Executive Officer (to 7 December 1999)* | | |
| Roy Reynolds | 148,750 | 35,000 |
| *Executive Director of CDC Group plc* | | |
| Alan Gillespie (CEO from 8 December 1999) | 13,333 | |
| *Members of the Corporation (to 7 December 1999)* | | |
| Carolyn Hayman | 7,728 | |
| Roger Murray | 7,728 | |
| David Pearce | 7,728 | |
| Hari Shankar Singhania (to June 1999) | 3,750 | |
| *1998* | | |
| Chairman (Lord Cairns) | 29,000 | |
| Other Members of the Corporation (Board) | 68,000 | |
| CEO (Roy Reynolds) | [1]168,189 | |
| Executive Management Committee members | 819,429 | |
| *1997* | | |
| Chairman (Lord Cairns) | 27,000 | |
| Other Members of the Corporation (Board) | 68,000 | |
| CEO (Roy Reynolds) | [1]153,762 | |
| Executive Management Committee members | 747,071 | |

[1] Inclusive of bonus.

*Notes:*

1. The remuneration committee of the board (made up of the independent directors) is responsible for recommending the total remuneration of executive directors including any bonuses. Bonuses reflect individual performances in the context of the overall performance of CDC including performance against the investment policy.

2. Prior to transformation into CDC Group PLC in 1999, remuneration data for the former Commonwealth Development Corporation was not published in full detail.

**Sue Doughty:** To ask the Secretary of State for International Development what proportion of Commonwealth Development Corporation investment capital was directed to agriculture ventures for each year since 1997. [153457]

**Hilary Benn:** The proportion by year of CDC's new and total investments in the agricultural sector were as follows:

| | *Percentage of new investment into agricultural sector* | *Percentage of total portfolio in agricultural sector* |
|---|---|---|
| 1998 | 23 | 25 |
| 1999 | 23 | 18.5 |
| 2000 | 20 | 17 |
| 2001 | 10.2 | 10.2 |
| 2002 | 11.3 | 11.3 |
| 2003 | 5.4 | 10.9 |

I regret that the figures for 1997 are not readily available.

**Sue Doughty:** To ask the Secretary of State for International Development what proportion of Commonwealth Development Corporation investment capital was directed to the poorest quartile of Commonwealth countries in each year since 1997. [153472]

**Hilary Benn:** The mandate of the former Commonwealth Development Corporation was widened to include all developing countries in 1969. After transformation into CDC in 1999, we gave it a target of making at least 70 per cent. of its new investments in the poorer developing countries (basically those with a GNI per capita of less than US$1,750).

The poorest quartile of Commonwealth countries all fall within this grouping. For the years 1997 to 2001 (which is the latest year for which data are available) these countries were Bangladesh, Cameroon (1997 only), Gambia, Ghana, India, Kenya, Lesotho (1998 to 2001 only), Malawi, Mozambique, Nigeria, Pakistan, Sierra Leone, Tanzania, Uganda, Zambia and Zimbabwe.

The proportion of CDC's new investment that were made in these countries is as follows:

1997—32 per cent.

1998—47 per cent.

1999—25 per cent.

2000—26 per cent.

2001—44 per cent.

2002—24 per cent.

2003—61 per cent.

*Note:*
2002 and 2003 figures are based on the countries in the poorest quartile in 2001.

**Sue Doughty:** To ask the Secretary of State for International Development if he will make a statement on the measures that will be in place to ensure that Actis does not obtain capital from the CDC that could be obtained through private investors. [153454]

**Hilary Benn:** Under a five-year contract, CDC will place 95 per cent. of its investment capital into the funds that Actis will launch and manage. Actis will be encouraged to raise as much further capital from private and other third party investors as possible for investment in the poorer developing countries. Maximising the mobilisation of third party capital is the key feature of the reorganisation proposals.

CDC's investment policy (set by DFID) obliges it to concentrate its investment in the poorer developing countries where the private sector is generally reluctant to invest. We believe that in practice there is a wide gap between the demand for investment capital in the poorer countries and the amount actually available to them. It is our aim that CDC will help bridge this gap.

We are aware that CDC's investments must not crowd out or otherwise discourage private investors already active in developing countries. This .is the opposite of its purpose and we will expect the Board of CDC to be particularly vigilant about this issue.

### Conflict Resolution

**Mr. Tynan:** To ask the Secretary of State for International Development what funds his Department has committed to conflict resolution in 2003–04; and what percentage of the Department's budget this represents. [155565]

**Hilary Benn:** In 2003–04, it was forecast that £22 million would be allocated to DFID for conflict prevention work through the Africa Conflict Prevention Pool (ACPP) and £16 million through the Global Conflict Prevention Pool (GCPP). £4.4 million was committed to Conflict Policy and Projects within DFID's Conflict and Humanitarian Affairs Department.

DFID's total programme budget for financial year 2003–04 is £3,611 million. Therefore, committed and specific conflict related spending is equivalent to 1.2 per cent. of DFID's total programme budget. However, this does not incorporate the full extent of DFID's spending on conflict issues in this financial year.

DFID's total budget for its bilateral country and regional programmes is £1,429 million. A significant proportion of this budget is committed to countries affected by conflict and many of DFID's poverty reduction programmes in these countries will have a positive impact on conflict. However, further breakdown by sector is not possible until all actual programmes spending for 2003–04 has been recorded.

These spending commitment figures are available in the 2003 DFID Departmental Report, a copy of which is available in the House of Commons Library.

### Department Branding

**Mr. Laws:** To ask the Secretary of State for International Development how much his Department spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154078]

**Mr. Gareth Thomas:** Since its establishment in 1997 as the successor to the Overseas Development Administration, this Department has spent the following amounts on creating a new logo and departmental identity:

*(a)* Consultancy fees—£6,000 plus licensing typeface—£5,000 and producing guidelines for contractors on logo/identity—£5,600.
*(b)* All major items of stationery requiring the new logo were held in electronic form so costs for design and new stock were negligible.
*(c)* There were no significant Website re-design costs.
*(d)* Publications featuring the old logo continued in use until stocks were exhausted or until the publication became obsolete. Write off costs were therefore negligible.

### Departmental Expenditure

**Mr. Sheerman:** To ask the Secretary of State for International Development what proportion of his Department's funding was paid to *(a)* governments and *(b)* non-governmental organisations in each year since 1997. [154250]

**Hilary Benn:** In recent years, around 7 per cent. of DFID's programme has been channelled through non-governmental organisations and some 23 per cent. directly through governments. The remainder also supports governments and NGOs indirectly, but the initial cash payment is made to multilateral organisations (45 per cent.) or companies and research institutes for development programmes that they manage or goods and services provided by them (25 per cent.).

### Direct Budget Support

**Tony Baldry:** To ask the Secretary of State for International Development what indicators he intends to use to assess whether direct budget support is effective. [152085]

**Hilary Benn:** DFID continuously monitors the effectiveness in reducing poverty, and the value for money, of its direct budget support. Assessing effectiveness means both monitoring the fiduciary risks we take as we use budget support, and also evaluating budget support in terms of its actual effects on poor people.

DFID monitors fiduciary risk in order to have a basic indication of whether our budget support is being used effectively. Indicators for monitoring fiduciary risk include:

- whether the objectives for which funds were allocated have been achieved;
- whether reporting is accurate and timely;
- whether actual expenditure matches the agreed budget allocations;
- whether value for money and transparency have been demonstrated in procurement;
- what progress has been made towards improving financial management.

In addition to this, a joint donor evaluation of general budget support is under way, which will provide a comprehensive assessment of the effects of budget support on developing countries and their people. DFID has the lead in this process which is co-funded by 15 other donors, through the Development Assistance Committee of the Organisation for Economic Co-operation and Development.

The evaluation's indicators of effectiveness will include:

- whether there are macroeconomic benefits from budget support (for example: recession avoided, inflation controlled);
- whether the recipient Government has greater control over externally-funded activities and resources;
- whether public expenditure is made more efficient;
- whether public administration is made more effective (due to focus on national budget rather than off-budget financing);
- whether democratic accountability is enhanced.

Ultimately the evaluation will assess whether budget support reduces poverty and reduces social exclusion. This assessment will be made using developing countries' own monitoring systems.

Full details of the indicators used by the evaluation will be published in April in the document "Joint Evaluation of GBS: Evaluation Framework". A copy of this document will be placed in the House of Commons Library.

### Ethiopia

**John Barrett:** To ask the Secretary of State for International Development what representations he has made to the Government of Ethiopia about human rights in the country. [153344]

**Hilary Benn:** During my recent visit to Ethiopia I raised the issue of human rights with Prime Minister Meles and Members of his Government about how respect for human rights—as enshrined in Ethiopia's own Constitution—can be improved. The Prime Minister told me of his commitment to improving human rights as enshrined in the constitution and it will be important for the people to see this happen. He nevertheless accepted that there are problems with human rights in Ethiopia. He gave an undertaking to build the capacity of the judiciary and security sectors to help in the securing and protection of constitutional rights for all. Our office in Ethiopia also frequently discusses such issues with the Government.

Representations concerning human rights form part of a wider ongoing dialogue with the Government of Ethiopia. This dialogue centres on a Memorandum of Understanding (MoU)—signed between DFID and the Government of Ethiopia in 2003—that sets out undertakings by each side. The improvement of human rights is one such undertaking given by the Government of Ethiopia.

We have also ensured that indicators and targets relating to human rights will be linked to our direct budget support in Ethiopia. This will allow us to track the direction of change and inform decisions on future support.

### Iraq

**Clare Short:** To ask the Secretary of State for International Development pursuant to his answer of Thursday 4 December 2003, *Official Report*, column 115W, on Iraq, whether the Treasury provided an additional £60 million to his Department to help meet the Madrid pledge. [153321]

**Hilary Benn:** The £60 million set aside by the Chancellor from the Treasury Reserve to meet additional needs in Iraq was included in the United Kingdom's Madrid pledge of £544 million for the three years from April 2003, which covers actual and planned expenditure on reconstruction by DFID, the MOD and the FCO.

To date, the Foreign and Commonwealth Office has been allocated £35.7 million of the £60 million to meet the costs of civilian staff seconded to the Coalition Provisional Authority and to the office of the UK's Special Representative to Iraq, including the costs of providing suitably secure accommodation and transport. These staff are engaged in rebuilding Iraqi government capacity and facilitating progress towards a stable, effective and representative Iraqi government. DFID has been allocated £6.5 million for reconstruction work in southern Iraq and funding for NGOs. The remainder has yet to be allocated.

**Sir Menzies Campbell:** To ask the Secretary of State for International Development what payments have been made by his Department into the Development Fund for Iraq; and if he will make a statement. [155334]

**Hilary Benn:** DFID has made no payments into the Development Fund for Iraq. The Fund was established to hold Iraq's own revenues, principally from oil sales.

**Sir Menzies Campbell:** To ask the Secretary of State for International Development if he will list direct payments from his Department to the Coalition Provisional Authority; what the payments were for in each case; and if he will make a statement. [155336]

**Hilary Benn:** DFID has made no direct payments to the Coalition Provisional Authority (CPA). Payments for DFID support to the CPA are made to individuals undertaking secondments and to companies providing consultancy, recruitment, security, equipment supply and other services.

### Ministerial Travel

**Bob Russell:** To ask the Secretary of State for International Development when he last used a train in connection with his ministerial duties. [155167]

**Hilary Benn:** I regularly travel to Brussels by Eurostar. The last time was 3 February. When undertaking ministerial duties in the UK, depending on time constraints, I travel by train.

All my ministerial travel on official business is undertaken in accordance with the rules set out in "Travel by Ministers".

### Nigeria

**Mr. Robathan:** To ask the Secretary of State for International Development what the implications for UK aid assistance to Nigeria are of the Nigerian Government's attempts to procure ballistic missiles and associated weapons technology; and what representations he has made to Nigerian representatives on the issue. [155489]

**Hilary Benn:** Speculation that Nigeria has attempted to procure military equipment from North Korea has not been substantiated and Nigerian Government spokesmen claim to have been misreported. The Foreign and Commonwealth Office has nonetheless made representations to the Nigerian authorities about Britain's policy and position. DFID's criterion for allocating development assistance is where we can make the greatest impact on reducing poverty—as expressed by the UN Millennium Development Goals. The Nigerian Government has embarked on an ambitious programme of reform that provides the best opportunity for substantial and lasting poverty reduction in a generation. DFID is committed to supporting this.

**Mr. Tynan:** To ask the Secretary of State for International Development what assessment he has made of the situation in Plateau State, Nigeria; and what action the Government are taking to support peace and conflict resolution initiatives there. [155566]

**Hilary Benn:** Violent outbreaks throughout Nigeria are a matter of great concern to the Nigerian Government. The roots of conflicts can be hard to establish: groups tend to divide on religious and ethnic grounds but the underlying causes are often more complex.

DFID, the FCO and the MOD have developed a joint conflict prevention strategy for Nigeria, in partnership with the Nigerian Institute for Conflict Prevention and Resolution. As part of this strategy, the British Government are supporting the International Centre for Reconciliation at Coventry Cathedral, who has been supporting reconciliation and conflict transformation work in Plateau State, at the invitation of the Governor. The British High Commission maintains close contact with the Nigerian authorities, and regularly visits afflicted areas.

### Opium Production (Afghanistan)

**Norman Lamb:** To ask the Secretary of State for International Development what the estimated volume of opium production in Afghanistan is for the current year; and what the estimated volume was in each of the last five years. [154884]

**Mr. Rammell:** I have been asked to reply.

The United Nations Office on Drugs and Crime (UNODC) conducts an annual survey into the level of opium poppy cultivation and production in Afghanistan. The UNODC is in the process of preparing the 2004 report on behalf of the Afghan government, which will be published in the autumn. According to the UNODC annual survey, the estimated volume of opium production and cultivation in each of the last five years is as follows:

| *Year* | *Hectares* | *Tonnes* |
|---|---|---|
| 1999 | 91,000 | 4,600 |
| 2000 | 82,000 | 3,300 |
| 2001 | 8,000 | 185 |
| 2002 | 74,000 | 3,400 |
| 2003 | 80,000 | 3,600 |

The low level of cultivation and low production figure in 2001 reflect the Taliban ban on opium cultivation; the ban did not however address the underlying causes of poppy cultivation in Afghanistan, and was enforced with a mix of threat and bribery.

### Recovery Infrastructure Group

**Sir Menzies Campbell:** To ask the Secretary of State for International Development into which bank account the assistance for the Recovery Infrastructure Group is paid; who controls the account; and if he will make a statement. [155335]

**Hilary Benn:** The Recovery and Infrastructure Group project rehabilitates and refurbishes Government and other public buildings. Project funds are paid into an account managed by Crown Agents Financial Services Ltd. Halcrow Group Ltd. design and supervise the implementation of projects by local firms. Progress is reviewed by DFID staff.

### Serbia and Montenegro

**Mr. Robathan:** To ask the Secretary of State for International Development what assessment he has made of the impact of Serbian co-operation with *(a)* international institutions and *(b)* the War Crimes Tribunal on development assistance to Serbia; and what representations he has made to (i) EU partners and (ii) the Serbian government about this. [155669]

**Mr. Gareth Thomas:** For the three-year period to the end of 2003, positive dialogue between Serbia and the International Community, including the IMF, World Bank, and European Commission led to a programme of reform backed up by substantial assistance programmes from key donors. In 2003, The European

Commission allocated some £160 million (UK share of which was about £30 million) and the World Bank had committed nearly £210 million of a three-year allocation of £286 million approved in 2001.

Although Serbia and Montenegro (SaM) made some progress in co-operating with the International Criminal Tribunal for the Former Yugoslavia (ICTY) in early 2003, co-operation has since stalled. We and our partners in the International Community take every opportunity to remind Belgrade that in order to realise her Euro-Atlantic aspirations, SaM must fulfil the international obligation of full and complete co-operation with the ICTY. Through both bilateral and EU initiatives, we continue to put pressure on SaM to arrest and transfer all remaining ICTY indictees, including Serb leaders Ratko Mladic and Radovan Karadzic and to allow ICTY full access to documents and witnesses.

We and our European Partners regularly discuss the situation in Serbia. It is unclear how Serbia's relations with international institutions and ICTY will now develop since Serbia has yet to form a government following last December's parliamentary elections. We will continue to liaise closely with EU and other International Community partners, to identify the most effective ways to support and promote both reform and co-operation with ICTY.

### Small Arms Global Pool

**Mr. Robathan:** To ask the Secretary of State for International Development what assessment he has made of the Small Arms Global Pool. [155673]

**Hilary Benn:** The Global and Africa Conflict Prevention Pools (GCPP) as a whole are currently undergoing a full and independent evaluation after the first three years of operation. A report will be published shortly.

The GCPP's Small Arms and Light Weapons (SALW) Strategy is that it has achieved a number of notable outcomes in a short period of time.

The strategy has helped to ensure that recent UN and regional agreements could be implemented in many arms-affected regions. We have supported practical measures to combat the supply, demand and availability of weapons at local, national and regional levels in Africa, Asia, Latin America and Europe; notably the establishment in Tanzania of the first ever government-endorsed national action plan, which tackles in a comprehensive way the problem of small arms proliferation. New legislation in Brazil banning the carrying of weapons by civilians is another initiative supported by the strategy that has resulted in lasting change.

However, more needs to be done to raise awareness and to integrate small arms control and reduction measure into wider defence relations, foreign policy, conflict, security and development programmes. A new SALW strategy (2004–07) is currently being developed and this will seek to address this.

**Mr. Robathan:** To ask the Secretary of State for International Development if he will list the weapons destroyed so far as a result of the Small Arms Global Pool, broken down by type. [155674]

**Hilary Benn:** A key element of the UK Government's Global Conflict Prevention Pool (GCPP) Small Arms and Light Weapons (SALW) Strategy is to reduce the availability of SALW through support for weapons stockpile management, collection and destruction programmes.

Within the framework of the UN Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons (2001), the UK supports a number of governments including those of developing countries to dispose of small arms stocks, preferably by destruction, that are surplus to national requirements.

The UK is supporting the development of five-year National Action Plans in Tanzania, Kenya, Uganda, Mozambique and Namibia. These plans will provide a comprehensive approach to weapons controls in these countries and include elements for the disarmament, management and destruction of weapons.

Since 2001, the GCPP-funded Small Arms and Demobilisation Unit of UNDP have supported the destruction of over 360,000 weapons and in excess of 24 million items of ammunition (i.e. small arms cartridges) and 1,090 tonnes of ammunition as part of their global weapons collection management and destruction programme.

The UK has also funded a Brazilian NGO, Viva Rio, which has, as part of its awareness raising campaign, worked with the police and military in organising ceremonial public destructions of firearms. In excess of 114,000 have been destroyed since UK support for the project started in 2001. Destruction of weapons is done in partnership with the Rio State Government.

The UN Regional Centre for Peace and Disarmament in Lima, Peru, which is supported by the GCPP, has a programme for capacity building and training of law enforcement officials in Latin America. As a component of this work the Regional Centre has been involved in supporting local military and police with weapons destruction exercises.

The UK is also one of a number of countries contributing to an ammunition destruction programme carried out in Albania by the NATO Maintenance and Supply Agency (NAMSA), which aims to destroy 11,600 tonnes of small arms and light weapons ammunition over a four-year period.

Further statistics on the type of weapons and ammunitions destroyed are not readily available.

**Mr. Robathan:** To ask the Secretary of State for International Development if he will list the countries in which activities are taking place under the Small Arms Global Pool; and what the *(a)* targets and *(b)* achievements of those initiatives were in each case. [155675]

**Hilary Benn:** Under the UK Government's Global Conflict Prevention Pool (GCPP), the Small Arms and Light Weapons (SALW) Strategy (£19.5 million,

2001–04) seeks to control and reduce the supply, demand and availability of weapons. It does this by supporting policy development and programmes that assist a wide range of international organisations, regional organisations, Governments and NGOs to combat the proliferation and misuse of small arms.

The four key areas that the strategy seeks to promote are:

Policy focused research and analysis to evaluate the impact of programmes and design more effective arms control and reduction policies;

Building consensus among Governments on the need for increased arms controls;

Implementing practical projects such as weapons collection, management, and destruction, training of police and customs officers; and

Integrating small arms controls into wider conflict prevention and poverty reduction programmes.

For example, the UK has supported regional and sub regional efforts to combat SALW proliferation, and the development of long-term national programmes. The strategy has also supported work to build regional and international consensus on the need for an international agreement on small arms transfers and trade. This is done within the framework provided by the UN Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons (2001).

The UK has contributed to the UN Development Programme's Small Arms and Demobilisation Unit global programme of weapons collection, stockpile management, capacity building and destruction within the context of disarmament, demobilisation, reintegration of ex-combatants and community development. UNDP is active in 45 countries in many parts of Africa, Asia, Europe and Central America.

The GCPP has also supported a number of other initiatives including the work of:

The NGO, Viva Rio, which works with police and communities in Brazil to improve security policy and tackle gun violence;

The Nairobi Secretariat, which co-ordinates action for Governments and civil society in East Africa, Great Lakes Region and the Horn of Africa;

National Governments, which are developing Action Plans, with civil society participation, in Tanzania, Uganda, Mozambique, Malawi and Kenya;

SaferAfrica, Saferworld, and the Security Research and Information Centre, which undertake research, analysis, policy facilitation and practical programmes in East Africa, the Horn, Great Lakes Region and Southern Africa;

International Alert, which carries out research and analysis projects in Europe, Latin America and West Africa; and

International Action Network on Small Arms, which has established a global network and co-ordinates advocacy, awareness raising and campaigns among 500 civil society groups around the world.

I have placed in the Library a table providing details of the work funded under the GCPP SALW strategy during the period 2001–04.

### Water Supply/Sanitation

**Mr. Donaldson:** To ask the Secretary of State for International Development what steps the UK Government are taking to ensure that the agreement on sustainable development reached at the World Summit is fully implemented in respect of the halving by 2015 of the number of people without access to an adequate water supply and proper sanitation. [155491]

**Hilary Benn:** The key commitments on water and sanitation made at the World Summit on Sustainable Development (WSSD) were:

a re-affirmation of the Millennium Development Goal (MDG) to halve, by the year 2015, the proportion of people without access to safe drinking water;

halving by the year 2015 the proportion of people who do not have access to basic sanitation; and

an agreement to develop integrated water resources management and water efficiency plans by 2005.

In May 2003, a Sustainable Development Task Force was established to help ensure effective follow-up of the UK's WSSD commitments, and monitor progress towards sustainable development against the UK's 1999 sustainable development Strategy, "A Better Quality of Life". The Task Force, chaired by Defra Secretary of State, Margaret Beckett, brings together Ministers from across Whitehall with colleagues from Wales, Scotland and Northern Ireland, and some key stakeholders.

The last Task Force meeting, on 4 February 2004, considered DFID's draft Water Action Plan, which describes how DFID intends to take forward its commitments in water and sanitation, and continue to contribute to achieving the MDGs in a way that recognises that such efforts are most effective when they support plans drawn up by developing countries themselves. This will be presented to Parliament shortly.

### World Trade Organisation

**Bob Spink:** To ask the Secretary of State for International Development what representations he has received from the World Trade Organisation on *(a)* meeting the targets and *(b)* implementing the policies agreed in Cancun. [155150]

**Hilary Benn:** Since Cancun all World Trade Organisation members have committed themselves to working to implement the Doha development commitments. While this is welcome, it is imperative that we turn these commitments into progress. The recent WTO General Council agreed on chairs being appointed to the general council and the negotiating groups. We must now seek to ensure that these negotiating groups agree adequate work plans on agriculture and Non Agricultural Market Access (NAMA), and on a resolution to the Singapore issues.

## TREASURY

### National Insurance

**Ms. Drown:** To ask the Chancellor of the Exchequer what estimate he has made of the annual cost to *(a)* employees and *(b)* others in (i) 10, (ii) 20 and (iii) 40 years of reducing the lower earnings limit for National Insurance (A) by £17 and (B) altogether. [155939]

**Dawn Primarolo:** Estimated increases in National Insurance contribution income of (A) reducing the primary threshold by 17 per week in 2003–04 or (B) reducing the primary threshold to zero, are shown in the following table.

*(£ billion)*

| | *(i) 2013–14* | *(ii) 2023–24* | *(iii) 2043–44* |
|---|---|---|---|
| *(a) Effect on primary contributions of reducing the primary threshold* | | | |
| (A) by 17 per week | 2.2 | 2.3 | 2.3 |
| (B) to zero | 12.0 | 12.3 | 12.2 |
| *(b) Effect on secondary contributions if the secondary threshold is also reduced* | | | |
| (A) by 17 per week | 2.6 | 2.7 | 2.7 |
| (B) to zero | 14.2 | 14.4 | 14.3 |

*Notes:*
Figures are for Great Britain, on an accruals basis and the effect on total contributions allocated to both the NIF and NHS in 2003–04 price terms.
Results based on the long-term estimates published in the Quinquennial Review of the National Insurance Fund as at April 2000 (Cm 6008) assuming 2 per cent. a year real earnings growth. No allowance has been made for the effects of the most recent (2002-based) population projections, or any other information which has become available since the results underlying the Quinquennial Review were prepared.

**Norman Lamb:** To ask the Chancellor of the Exchequer what the value was of underpayments not pursued by the National Insurance Contributions office for tax years *(a)* 1999–2000, *(b)* 2000–01, *(c)* 2001–02 and *(d)* 2002–03; how many underpayments of less than £150 were not pursued in each of those tax years; how much these totalled in each of those tax years; and if he will make a statement. [153288]

**Dawn Primarolo:** National insurance contributions identified as due, but not paid and subsequently written off, amounted to £189 million in 1999–2000; £180 million in 2000–01; £145 million in 2001–02; and £275 million in 2002–03. The amount in 2002–03 includes insolvent companies' debts accrued before July 2001 which were cleared from the accounts as part of a special exercise in that year.

National insurance contributions may be written off where pursuit is unlikely to be successful, for example, because a company is insolvent; or where it is regarded as neither practical nor cost effective to pursue the debt, for example, because the debtor has gone abroad. Underpayments of less than £150 are not identified separately and the information could be obtained only at disproportionate cost.

### Close Companies

**Mr. Drew:** To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of close companies that may currently be operated with the primary purpose of reducing owners' personal tax liability; [151943]

(2) what estimate he has made of the loss to the Treasury from close companies that may currently be operated with the primary purpose of reducing owners' personal tax liability. [151944]

**Dawn Primarolo:** The vast majority of companies are run with the primary purpose of generating profits for shareholders, and a wide variety of strategies might be employed to minimise owners' tax liabilities. Consequently, it is impossible to say how many close companies are operating with the primary purpose of reducing owners' personal tax liability.

**Mr. Hunter:** To ask the Chancellor of the Exchequer what estimate he has made of the number of close companies which may operate with the primary purpose of reducing their owners' personal tax liability; and what value of tax revenues he estimates may thus be lost to the Exchequer. [154863]

**Dawn Primarolo:** The vast majority of companies are run with the primary purpose of generating profits for shareholders, and a wide variety of strategies might be employed to minimise owners' tax liabilities. Consequently, it is impossible to say how many close companies are operating with the primary purpose of reducing owners' personal tax liability or estimate the tax and national insurance that might be lost from such companies.

### Copyright

**Dr. Cable:** To ask the Chancellor of the Exchequer what estimate HM Customs and Excise has made of the loss of government revenue from counterfeiting and copyright theft in each of the last five years. [154956]

**John Healey:** No such estimates have been made.

### Corporation Tax

**Mr. Dodds:** To ask the Chancellor of the Exchequer what representations he has received on the impact of corporation tax rates on business in Northern Ireland. [155483]

**Dawn Primarolo:** The Government has received a number of representations on a wide range of subjects. The Government has cut corporation tax rates for all companies—since 1997 the main rate has been reduced from 33 per cent. to 30 per cent. and the small companies' rate from 23 per cent. to 19 per cent. The UK now has the lowest rates of corporation tax in history.

### Demography

**Mr. Hoyle:** To ask the Chancellor of the Exchequer what the size of population in the Chorley constituency was in each of the last five years; and what projections have been made for each of the next five years. [155307]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Lindsay Hoyle, dated 23 February 2004:*

As National Statistician, I have been asked to reply to your recent question concerning the population of the Chorley constituency over the last five years, and the projected population for the next five years. (155307)

The Office for National Statistics does not currently produce mid-year population estimates on parliamentary constituency boundaries. The lowest geography at which mid-year population estimates are currently published is local authority areas. However, Chorley is an unusual case in that the Parliamentary Constituency currently has the same boundaries as the Chorley Borough Council area. Therefore, the population estimates for the two areas will be the same.

The population estimates for Chorley Borough Council area for the latest five years available, are given below. Published population estimates are rounded to the nearest 100 people.

*Mid-year population estimates for Chorley local authority, 1998–2002*

| | *Population (Thousand)* |
|---|---|
| 1998 | 98.4 |
| 1999 | 98.8 |
| 2000 | 100.0 |
| 2001 | 100.6 |
| 2002 | 101.3 |

There are currently no official subnational population projections consistent with this series. The last official long-term subnational projections were based on 1996 population data and did not take account of the significant new information produced by the 2001 Census.

### Departmental Minutes

**Richard Ottaway:** To ask the Chancellor of the Exchequer whether it is his Department's policy to make notes of *(a)* meetings and *(b)* telephone conversations involving Ministers; and under what circumstances no notes would be made. [149803]

**Ruth Kelly:** HM Treasury follows the central "Guidance on the Management of Private Office Papers" which makes clear that good record management procedures are necessary not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

### Financial Services

**Mr. Love:** To ask the Chancellor of the Exchequer what research has been undertaken to estimate the impact of Basel 2 on *(a)* the UK lending industry and *(b)* those lenders with assets of less than £1 billion; and if he will make a statement. [155861]

**Ruth Kelly:** The new Basel Accord will be an international agreement on prudential capital, applying mainly to internationally active banks. Implementation of the new Basel Accord in Europe will be through a new Capital Adequacy Directive, which is expected to apply to all UK credit institutions and investment firms (as was the case for the implementation of the existing Basel Accord). The Treasury is currently consulting on the expected impact on all UK lenders ahead of a formal proposal from the European Commission expected later in the year.

### Gold Reserves

**Mr. Swire:** To ask the Chancellor of the Exchequer what plans he has to sell more of the Bank of England's gold reserves. [155676]

**Ruth Kelly:** The Government currently have no plans to sell holdings of gold from their International Currency Reserves. We remain firmly committed to transparency so, if our plans were to change in the future, we would announce this publicly.

### Illegal Meat Imports

**Mr. Gardiner:** To ask the Chancellor of the Exchequer (1) what assessment has been made of the effectiveness of Her Majesty's Customs and Excise illegal meat enforcement strategy, with particular regard to the number of prosecutions that have been pursued; [155685]

(2) how many prosecutions there have been as a result of illegal meat seizures by Her Majesty's Customs and Excise in the last 12 months; [155686]

(3) what Her Majesty's Customs and Excise's policy is on prosecuting people caught in possession of illegal meat at United Kingdom ports of entry. [155689]

**John Healey:** Customs' illegal meat enforcement strategy aims to deter and detect illegal imports and thereby reduce the risk of disease from such imports. The strategy delivers this aim through:

*(a)* increasing passengers' awareness of the rules and regulations, encouraging the voluntary surrender of any illegal meat on arrival and increasingly discouraging the public from embarking on their journey to the UK with illegal meat in their possession;

*(b)* anti-smuggling checks to detect illegal imports on the basis of risk assessment and intelligence;

*(c)* seizing imports surrendered by passengers in the Red Channel or detected in the possession of passengers in the Green Channel;

*(d)* issuing a seizure notice and warning letter to the owner where the illegal meat was not declared or surrendered;

*(e)* responding flexibly to formal notifications by Defra or the Food Standards Agency by imposing additional restrictions in the event of an outbreak of animal disease or other circumstances which may present a risk to animal or human health.

Within that overall policy, Customs consider cases for investigation and prosecution where suitable evidence is available, and in particular:

serious cases involving repeat offenders;

large scale imports;

commercial smuggling;

other aggravating circumstances.

Customs have not undertaken any prosecutions since taking on responsibility for these anti-smuggling controls on 11 April 2003.

The effectiveness of Customs' strategy is kept under continual review.

**Mr. Gardiner:** To ask the Chancellor of the Exchequer what trials Her Majesty's Customs and Excise has undertaken of x-ray equipment to detect illegal meat imports; and when they took place. [155690]

**John Healey:** Customs have undertaken a number of informal trials using their own x-ray equipment as well as external trials involving developments in x-ray technology offered by other manufacturers. The most recent trials took place in June last year.

This is a constantly developing area and Customs remain committed to working with other UK and overseas agencies as well as manufacturers to make the most of new technology where it can provide good value for money.

### Inland Revenue

**Mr. Dodds:** To ask the Chancellor of the Exchequer how many people are employed by the Inland Revenue in Northern Ireland. [155484]

**Dawn Primarolo:** At 1 April 2003, the number of people employed by the Inland Revenue in Northern Ireland was 1,840, which represents 1,727 Full-Time Equivalent Units.

### Iraq

**Mr. Cousins:** To ask the Chancellor of the Exchequer what sums in United Kingdom claims on Iraq have been notified to the Paris Club, including interest, broken down by *(a)* government and *(b)* non-government claims. [154556]

**John Healey:** The Government have notified to the Paris Club unrecovered claims of £623 million arising from commercial export contracts with Iraq signed prior to the first Gulf conflict in 1991 insured by the Export Credits Guarantee Department. This amount does not include interest, which it is estimated could bring the figure to around £1.15 billion. The Paris Club deals only with claims arising out of government loans or government-insured commercial credits.

The Government believe that Iraq's external debt is unsustainable and that creditors will need to agree a significant reduction through a clear multilateral process in order to restore Iraq to sustainability. That is likely to involve writing off the vast majority of Iraq's external debt.

### Labour Statistics

**Chris Ruane:** To ask the Chancellor of the Exchequer what the unemployment rate was in England and Wales on the latest date for which figures are available; what the unemployment rate was in each ward in each principal seaside town of England and Wales on the latest date for which figures are available, listed in descending order, with figures for Welsh seaside town clusters disaggregated; and if he will make a statement. [154962]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Chris Ruane dated 23 February 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question on what the unemployment rate was in England and Wales on the latest date for which figures are available; what the unemployment rate was in each ward in each principal seaside town of England and Wales on the latest date for which figures are available, listed in descending order, with figures for Welsh seaside town clusters disaggregated. (154962)

The unemployment rate in England and Wales for the period October-December 2003, the latest date for which information is available, was 4.8 per cent. This rate is seasonally adjusted and calculated using the standard International Labour Organisation (ILO) definition of unemployment.

The most recent data on unemployment rates by ward are taken from the 2001 Census. They are based on the number of people aged between 16 and 74 who were unemployed and seeking work at April 2001 as a proportion of all economically active people aged 16–74, apart from full-time students, at that date. This measure is not directly comparable with the rate using the ILO definition of unemployment above. The average unemployment rate at April 2001 for England and Wales as a whole was 5.2 per cent. on this basis.

Data on the number of unemployed people who were seeking work in England and Wales was released in Table KS09a of the Census Key Statistics. The table showing information for wards in England and Wales can be viewed from the National Statistics web site at: http//neighbourhoodstatistics.gov.uk/Downloads.asp?nsid = = false&CE = True&SE = Tme&T: = D&d sid = 2891

I am placing in the House of Commons Library a table, which shows the figures for all wards which are situated on the coast, and ordered by the unemployment rate as measured by the 2001 Census.

### Land Transactions

**Mrs. Lait:** To ask the Chancellor of the Exchequer if the Inland Revenue will prioritise the delivery of land transaction *(a)* forms and *(b)* certificates to Scottish solicitors to ensure that they meet the time limits to secure title to land imposed by Scottish law. [155814]

**Ruth Kelly:** The Inland Revenue is committed to issuing certificates within five working days of receipt of a properly completed return. It would not be practicable to give priority to the issue of certificates to Scottish addresses. However, in certain circumstances certificates in respect of transactions in Scotland can be obtained by personal attendance at Edinburgh Stamp Office. Return forms can be obtained in advance of settlement of land transactions so I see no reason why obtaining a return form should delay matters. In addition the Inland Revenue, and some software suppliers, offer the scope for forms to be completed on-line or on-screen and then printed off for signature.

**Mrs. Lait:** To ask the Chancellor of the Exchequer what has been the reasons for delay in the Inland Revenue's distribution of land transaction *(a)* returns and *(b)* certificates to Scottish solicitors. [155815]

**Ruth Kelly:** The Inland Revenue is committed to issuing certificates within five working days of receipt of a properly completed return. This target has been achieved across the United Kingdom. In addition, in certain circumstances certificates in respect of transactions in Scotland can be obtained by personal attendance at Edinburgh Stamp Office.

Return forms have been and are being sent out to all those who ask for them.

**Mrs. Lait:** To ask the Chancellor of the Exchequer what representations he has received from Scottish solicitors about the effect of changes in stamp duty land tax on their work. [155816]

**Ruth Kelly:** The Inland Revenue has received many representations on several aspects of stamp duty land tax, including some from Scottish solicitors. In addition Inland Revenue officials are in regular discussion with the Law Society of Scotland on all aspects of stamp duty land tax.

### London City Bonds

**Norman Lamb:** To ask the Chancellor of the Exchequer if he will make a statement on the London City Bond bonded warehouse cases. [155354]

**John Healey:** I refer the hon. Gentleman to the answer I gave to the hon. Member for Surrey Heath (Mr. Hawkins) on 12 February 2004, *Official Report*, columns 1552–53W.

**Norman Lamb:** To ask the Chancellor of the Exchequer if he will list the registered customs informants used since 1994 in the London City Bond cases. [155355]

**John Healey:** Consistent with long standing convention, it is not Customs policy to disclose publicly the identity of registered informants, except where necessary as part of the legal process.

### Mr. Ed Balls

**Mr. Kenneth Clarke:** To ask the Chancellor of the Exchequer whether he authorised the giving of a speech by his principal special adviser, Mr. Ed Balls, in Leeds on 3 February which included comments on the policy behind setting the level of interest rates; and whether the authorisation of such a speech on the day before a meeting of the Monetary Policy Committee of the Bank of England complies with the Government's policy on the independence of the Bank and the proper conduct of monetary policy. [153775]

**Ruth Kelly** *[holding answer 9 February 2004]*: The Chief Economic Adviser's speech reiterated the Government's long-standing position on monetary policy as set out most recently by the Chancellor in his 18 June 2003 speech to the Mansion House and is consistent with the Bank of England Act 1998.

### Oil/Gas Sector

**Mr. Peter Duncan:** To ask the Chancellor of the Exchequer how many people were employed in the oil and gas sector in Scotland in each of the last five years. [155472]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Peter Duncan, dated 23 February 2004:*

As National Statistician, I have been asked to reply to your Parliamentary Question about jobs in the oil and gas sector in Scotland. (155472)

The table below shows the number of people in Scotland working in industries whose primary activities were described as:

extraction of crude petroleum/natural gas

service activities in oil and gas extraction

manufacture of refined petroleum products

manufacture/distribution of gas.

Figures are provided for the years 1998 to 2002, the last five years for which data are available, and are obtained from the Annual Business Inquiry (ABI).

*Number of people in Scotland working in the oil and gas sector, 1998–2002*

| | *Number of people (Thousand)* |
|---|---|
| 1998 | 26.6 |
| 1999 | 24.5 |
| 2000 | 21.6 |
| 2001 | 23.6 |
| 2002 | 22.9 |

### Private Health Care

**Mr. Dobson:** To ask the Chancellor of the Exchequer what his policy is regarding whether a taxpayer's contribution towards the cost of private health care should be taxable. [155106]

**Dawn Primarolo:** I assume my right hon. Friend is referring to the provision of tax relief for these contributions. It is not the Government's policy that tax relief for private health care costs should be introduced. The Government's belief is that the best way to fund the nation's health needs is directly through the NHS from public expenditure, and not by subsidising those people who, for whatever reason, choose to make alternative arrangements.

### Recruitment Advertising

**Pete Wishart:** To ask the Chancellor of the Exchequer what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155533]

**Ruth Kelly:** I refer the hon. Gentleman to the answer I gave the hon. Member for Bromsgrove (Miss Kirkbride) on 14 January 2004, *Official Report*, columns 812–15W.

### Seaside Towns

**Chris Ruane:** To ask the Chancellor of the Exchequer how many and what percentage of people in each ward in each principal seaside town in England and Wales had a limiting long-standing illness on the latest date for which figures are available, listed in descending order with Welsh seaside town clusters disaggregated; and if he will make a statement. [154950]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Chris Ruane, dated 23 February 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning limiting long-standing illness in seaside towns. (154950)

The latest source of information on this topic is the 2001 Census of Population and Housing. Data on the number of people with a limiting long-term illness in England and Wales was released in Table KS08 of the Census Key Statistics. The table showing information for wards in England and Wales can be viewed from the National Statistics web site at: http://neighbourhood.statistics.gov.uk/Downloads.asp?nsid = false&CE = True&SE = True&T = D&dsid = 2919

I am placing in the House of Commons Library a table that shows the figures for all wards which are situated on the coast, and ordered by the percentage of people with a limiting long-term illness. There is no definitive list of principal seaside towns so this table includes those wards in England and Wales which have a boundary on the coast.

**Chris Ruane:** To ask the Chancellor of the Exchequer what the economic inactivity rate in the UK was in the latest month for which figures are available; what percentage of the population of each ward in each principal seaside town in England and Wales was economically inactive in the latest month for which

figures are available, listed in descending order, with figures for Welsh seaside town clusters disaggregated, and if he will make a statement. [154965]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Chris Ruane, dated 23 February 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question on what the economic inactivity rate in the UK was in the latest month for which figures are available; what percentage of the population of each ward in each principal seaside town in England and Wales was economically inactive in the latest month for which figures are available, listed in descending order, with figures for Welsh seaside town clusters disaggregated. (154965)

The economic inactivity rate in the UK for people for the period October–December 2003, the latest date for which information is available, was 21.5 per cent. The data are seasonally adjusted and relate to all people aged between 16 and normal retirement age (64 for men, 59 for women).

The most recent data on economic inactivity rates by ward are taken from the 2001 Census. They are based on the number of people aged between 16 and 74 who were retired, students, looking after home or family, permanently sick or disabled, or otherwise economically inactive at April 2001 as a proportion of all people aged 16–74 at that date. The average rate of economic inactivity at April 2001 for England and Wales as a whole was 33.5 per cent. on this basis. This figure is not on a comparable basis with that quoted above because the census based measure includes more retired people.

Data on the number of people who were economically inactive in England and Wales was released in Table KS09a of the Census Key Statistics. The table showing information for wards in England and Wales can be viewed from the National Statistics web site at http://neighbourhood.statistics.gov.uk/Downloads.asp?nsid = false&CE = True&SE = True&T = D&dsid = 2891

I am placing in the House of Commons Library a table, which shows the figures for all wards which are situated on the coast, and ordered by the unemployment rate as measured by the 2001 Census.

### Spirit Duty

**Mr. Carmichael:** To ask the Chancellor of the Exchequer if he will make a decision on the introduction of strip stamps on bottles of spirits before the Comptroller and Auditor General completes his review of the level of spirit duty fraud. [155913]

**Angus Robertson:** To ask the Chancellor of the Exchequer what the remit is of the National Audit Office investigation into Customs and Excise estimates of duty diversion on spirits; what the timescale of the inquiry to report is; and whether the Treasury will implement its plans on strip stamps before the NAO conclusions are published. [155842]

**John Healey:** I refer the hon. Gentlemen to the answer I gave to the hon. Member for Orkney and Shetland on 12 February 2004, *Official Report*, column 1554W. The Chancellor announced in the Pre-Budget Report that the Government intends to introduce tax stamps for spirits as part of a reinforced strategy, to tackle alcohol fraud. However, the Government has also invited the industry to put forward alternative proposals equally effective in tackling fraud. Detailed discussions with the industry on this issue are continuing.

### Tax Credits

**Lynne Jones:** To ask the Chancellor of the Exchequer what money was paid to private contractors in *(a)* 2002–03 and *(b)* so far in 2003–04; and what the expected total payment is in 2003–04 for the delivery of the tax credit programme. [145812]

**Dawn Primarolo:** I refer my hon. Friend to the answer I gave to the hon. Member for Havant (Mr. Willetts) on 28 April 2003, *Official Report*, column 161W.

**Mr. Swire:** To ask the Chancellor of the Exchequer how many people *(a)* have taken up and *(b)* are entitled to tax credit in East Devon. [155325]

**Dawn Primarolo:** The number of families in each constituency and local authority receiving tax credits are shown in "Child and Working Tax Credit Statistics. Geographical Analyses. January 2004." This is available on the Inland Revenue website at: www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm

No estimates are available of the number of families in each constituency or local authority that are entitled to these tax credits.

### Tax Revenues

**Mr. Swire:** To ask the Chancellor of the Exchequer how much has been received from East Devon in respect of *(a)* inheritance tax, *(b)* capital gains tax and *(c)* stamp duty in each of the past seven years. [155296]

**Ruth Kelly:** The information requested is not available.

### UK Overseas Territories

**Mr. Tynan:** To ask the Chancellor of the Exchequer what recent assessment he has made of the *(a)* financial and *(b)* taxation systems of the UK Overseas Territories. [155567]

**Dawn Primarolo:** The Government welcomes the progress made so far by the Overseas Territories in adopting international standards on financial regulation and transparency in tax matters, and is committed to encouraging them to meet international standards.

### VAT Directive

**Mr. Carmichael:** To ask the Chancellor of the Exchequer when the review of Annex H of the Sixth VAT Directive will be concluded. [156018]

**John Healey:** The review of the reduced rate provisions in Annex H of the Sixth VAT Directive will not be concluded until European Commission proposals are either accepted by all Member States, or withdrawn. We have made clear that the current proposal, which challenges a number of the UK's VAT zero rates, is unacceptable.

### Wage Payments (Overseas Accounts)

**Mr. Hoyle:** To ask the Chancellor of the Exchequer what estimate he has made of how many people domiciled in the UK are paid wages into overseas accounts. [155541]

**Dawn Primarolo:** I regret that this information is not available.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agricultural Shows

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how many agricultural shows she has visited in the last three years. [153440]

**Margaret Beckett:** Since the formation of Defra on 8 June 2001 the Department's Ministers have attended a total of 27 agricultural shows.

### Agriculture and Environment Biotechnology Committee

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the Agriculture and Environment Biotechnology Committee report on co-existence and liability; and if she will make a statement. [153893]

**Mr. Morley:** We are currently considering the AEBC report and will give our response in due course.

### Avian Influenza

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her counterparts in *(a)* Thailand and *(b)* other countries in South East Asia about the recent outbreak of avian influenza in the region. [151964]

**Mr. Bradshaw** *[holding answer 30 January 2004]:* The Secretary of State has not had any discussions with her counterparts in Thailand or other countries in South East Asia. Defra, the Food Standards Agency and the Department of Health have been closely monitoring the development of avian influenza in Thailand and other countries in South East Asia. The European Commission have been in constant contact with the Thai authorities and are reporting their findings to all member states.

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs which countries no longer export chickens to the UK following the outbreak of bird influenza. [155097]

**Mr. Bradshaw:** Outbreaks of avian influenza have been reported in Cambodia, Indonesia, Japan, Laos, Pakistan, the People's Republic of China, including the Territory of Hong Kong, South Korea, Thailand and Vietnam. Under EU rules none of these countries is allowed to export live poultry or hatching eggs to the EU. Imports of poultry meat are permitted from Thailand only.

The risk of the avian influenza virus spreading through meat is low. However, the European Commission took action on 23 January to ban imports from Thailand of fresh/frozen poultry meat and cooked poultry meat that has not been heat treated to at least 70°C, unless it is accompanied by additional certification confirming that it was from birds slaughtered before 1 January 2004. Poultry meat products which have been cooked to 70°C or more are not considered to be a risk and may still be exported to the EU. The UK took immediate action to implement these measures in domestic law.

### Bio-accumulative Chemicals

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent research has been carried out *(a)* by and *(b)* for her Department on the levels of persistent and bio-accumulative chemicals in the food chain and environment in the Thames Estuary. [153111]

**Mr. Morley:** The Department has not recently undertaken research specifically on the levels of persistent and bio-accumulative chemical in the food chain and environment in the Thames Estuary. However, the Environment Agency has an on-going monitoring programme in the Thames Estuary which includes the following persistent and bio-accumulative substances:

1,2,3 trichlorobenzene; 1,2,4 trichlorobenzene; 1,3,5 trichlorobenzene; Aldrin; Anthracene; Benzo *(a)* pyrene; DDE (pp); DOT (op); DOT (pp); DOT total; Dieldrin; Drins total; Endosulphan a; Endosulphan b; Endrin; Fenitrothion; HCB; HCH alpha; HCH beta; HCH delta; HCH gamma; HCH Total; Hexachlorobenzene; Hexachlorobutadiene; Isodrin; Lambda-cyhalothrin; PCB 101; PCB 118; PCB 138; PCB 153; PCB 180; PCB 28; PCB 52; PCB Total (Congeners 28,52, 101,118, 138,153,180); TDE (pp); Tributyltin; Trichlorobenzene total; Trifluralin

In addition, the Food Standards Agency has a statutory monitoring programme to detect marine biotoxins in shellfish sampled from shellfish harvesting waters. The Agencies also keep abreast of research relating to Thames Estuary, including a recent study on tributyl tin levels.

### Biodegradable Plastic Bags

**Mr. Peter Ainsworth:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage the use of biodegradable plastic bags. [153745]

**Mr. Morley:** Government are not taking steps to promote the use of biodegradable plastic bags. The use of degradable plastics that are made from fossil fuel, and specifically designed for disposal with no beneficial recovery potential, runs counter to the Government's aim to increase recycling. In addition, if disposed of in landfill rather than, for example, being composted, biodegradable waste breaks down to release methane, a highly potent greenhouse gas.

The Government do support the development of biodegradable plastics from non-fossil sources. The Government-Industry Forum on Non-Food Uses of Crops has concluded that there is an opportunity to produce compostable packaging materials in the UK.

Defra is currently drawing up a Non-Food Crops Strategy. A draft is expected to be issued for consultation later in 2004.

### Bovine TB

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the spread of bovine TB in *(a)* the North West and *(b)* each county in the North West. [153887]

**Mr. Bradshaw:** Statistics are collected by areas covered by Animal Health Divisional Offices (AHDOs). Carlisle AHDO covers Cumbria. Preston AHDO covers Lancashire, Greater Manchester and Merseyside.

In Cumbria, there were 3,969 registered herds in 2003, with 1,949 TB herd tests carried out. Provisional data show there were 70 new herd TB incidents in 2003, of which 15 were confirmed (three remain unclassified). In 2002. there were 4,041 registered herds, and 1,504 herd tests carried out. There were 33 new herd incidents, of which 10 were confirmed.

The increase in incidence in Cumbria is giving some concern. TB testing is now being carried out on all farms in an area of South West Cumbria known as the Furness Peninsula, concurrent with a survey of badgers (killed in Road Traffic Accidents) and deer (culled, or found dead, with suspicious lesions) in the same geographical area. It is hoped the data collected will help inform decisions about TB controls in the area.

In the area covered by Preston AHDO, there were 3,160 registered herds in 2003, with 918 herd tests carried out. Provisional data show five TB herd incidents, with one confirmed. In 2002, there were 3,303 registered herds, and 1,126 herd tests. These resulted in nine TB incidents, with none confirmed.

There has been a recent breakdown in a herd in Greater Manchester, but this has not yet been confirmed at post-mortem.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the preferred foods of adult badgers are; and on what foods they rely when their preferred foods are in short supply. [153966]

**Mr. Bradshaw:** Badgers eat both animal and plant material and are considered to be largely opportunistic in their choice of food. Although they feed on a wide range of foodstuffs, earthworms are the most important single item in the diet of British badgers. Because these and other food types are taken according to their availability, the diet of badgers varies both geographically and seasonally[1].

[1] The Handbook of British Mammals (1991). Third Edition. Edited by GB Corbet and S. Harris. Blackwell Scientific Publications, Oxford.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs to what diseases, other than tuberculosis, badgers are susceptible. [153978]

**Mr. Bradshaw:** Rabies and distemper have been found in badgers in other European countries but these diseases have not been detected in UK populations. Badgers are also susceptible to bacterial infections, including leptospirosis and salmonellosis.

**Paul Flynn:** To ask the Secretary of State for Environment, Food and Rural Affairs what the total paid in compensation to farmers for bovine tuberculosis was in each of the last five years; and what percentage of the total was paid in excess of the market value of the animals destroyed. [155000]

**Mr. Bradshaw:** The following table gives the compensation paid to farmers for cattle slaughtered under TB control measures 1998 to 2002.

£

| | *Compensation paid* |
|---|---|
| 1998 | 3,605,242 |
| 1999 | 5,770,983 |
| 2000 | 7,307,797 |
| 2001 | 7,074,125 |
| 2002 | 23,138,512 |

There is evidence from a National Audit Office study carried out in Wales in 2002 and from other sources that, overall, average compensation payments are significantly higher than average market prices. However, it is difficult to quantify the extent of this disparity.

### Carbon Dioxide Emissions

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's progress towards reducing carbon dioxide emissions by 60 per cent. by 2050. [153803]

**Mr. Morley** *[holding answer 11 February 2004]*: Provisional data for 2002 shows that carbon dioxide emissions decreased by 8.7 per cent. between 1990 and 2002.

The Government aims to cut the UK's carbon dioxide emissions by 60 per cent. by around 2050, with real progress towards this goal by 2020. To put us on course, we estimate that in addition to the cuts from existing policies in the Climate Change Programme we will need to aim for further cuts of 15–25 MtC (million tonnes of carbon) by 2020. As set out in the Energy White Paper, published in February 2003, the key measures to achieve this goal will be to increase the share of renewable energy and reduce energy demand by increasing energy efficiency.

On renewables, the Government's target is for 10 per cent. of UK electricity to be supplied from renewable sources by 2010, with an aspiration to double this share to 20 per cent. by 2020. Though we have started from a low base we are making encouraging progress towards the 2010 target. The Government has also announced its intention to raise the levels of the Renewables Obligation beyond 2010/11. Further yearly targets have been set, reaching 15.4 per cent. in 2015/2016.

On energy efficiency, the Government plans to publish its Energy Efficiency Implementation Plan in the spring, which will set out how it intends to deliver the White Paper commitments.

### Carbon Trust

**Mr. Carmichael:** To ask the Secretary of State for Environment, Food and Rural Affairs what proportion

of the Carbon Trust budget for the last financial year has been allocated for projects in (i) Scotland, (ii) England, (iii) Wales and (iv) Northern Ireland; what proportion remains unallocated; what funds have been allocated to hydrogen demonstration and innovation projects; and what proportion of funds have been allocated to small and medium enterprises. [153937]

**Mr. Morley:** The Carbon Trust is a private company limited by guarantee that receives funding from: the Climate Change Levy (via Defra for England and via separate relationships with the Devolved Administrations); Defra for the non-domestic element of the UK wide Energy Efficiency Best Practice Programme (EEBPp). The Carbon Trust was allocated a total of £49.6 million for 2002–03 (including £17.1 million from the EEBPp) by my Department.

The Carbon Trust carried out an assessment of the technologies needed to deliver a low carbon economy to inform the development of its Innovation Programme. Suitable proposals for hydrogen based technologies such as fuel cells, infrastructure and hydrogen production will be considered as priorities. But no specific sum has been set aside for these technologies.

The Carbon Trust manages Action Energy, the UK's main energy efficiency information, advice and research programme for organisations in the public and business sectors. Action Energy services including site visits are available to UK businesses regardless of size. The Carbon Trust also run the Action Energy Loan fund that provides loans of between £5,000 and £50,000 specifically to Small and Medium Enterprises for energy efficiency projects.

### Chicken Welfare

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent research into broiler chicken welfare she has *(a)* commissioned and *(b)* received, with particular reference to issues of lameness in broiler chickens kept at stocking densities above 30 kilograms per square metre. [154774]

**Mr. Bradshaw:** Defra has commissioned research projects into a number of areas. This includes projects on the effect of stocking density and the causes and management of leg health problems. These issues are highly complex and there are many factors influencing the welfare conditions of meat chickens. The Department continues to review the results of research and assess proposals that have been received. Details of the Department's research programme are published on the Defra website at: http://www.defra.gov.uk

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government will support the recommendations of the report from the EU Scientific Committee for Animal Health and Animal Welfare on chicken welfare. [154775]

**Mr. Bradshaw:** The report of the European Commission's Scientific Committee on Animal Health and Animal Welfare is the first step in enabling the Commission to produce proposals on specific welfare standards for meat chickens. The UK will take account of the recommendations alongside other evidence during the negotiations on the proposals. The Commission expects to issue proposals later this year.

### Chlorofluorocarbons

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs what the average recovery level achieved by licensed UK plants in respect of CFC R12 from refrigeration equipment was in each year for which figures are available. [154285]

**Mr. Morley:** For 2003, the average recovery level of CFC R12 achieved at fridge destruction facilities in England and Wales was 50.5 g per unit and for CFC R11 186.13 g, therefore giving a total of 236.63 g per fridge.

For 2001 and 2002, figures for CFC R12 and CFC R11 are not separately available.

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs how many items of equipment containing chlorofluorocarbons (CFCs) were processed in each year for which CFC recovery figures are available. [154286]

**Mr. Morley:** For the year 2002, 299,000 items of equipment containing refrigerants were treated in England and Wales and 418,000 units were exported for recovery to Germany and the Netherlands.

For the year 2003, 979,336 items of equipment containing refrigerants treated in England and Wales and 377,168 units exported for treatment to Germany, Netherlands and Denmark.

Not all the refrigerants within the equipment were CFCs. Reporting mechanisms for future years will undertake to distinguish between different refrigerants.

### Civil Liability (Claims/Actions)

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs how many civil liability *(a)* claims and *(b)* actions (i) have been initiated and (ii) are pending, by or on behalf of her Department against (A) contractors, (B) farmers and (C) others, in respect of claims made for works undertaken on behalf of her Department; how many court hearings have been completed; how many cases have been successful; and how much money has been (1) recovered and (2) saved as a result of these actions. [150554]

**Alun Michael:** The Department launched civil proceedings against one contractor in the Mayors and City of London county court and obtained judgment against the contractor on 6 January 2004.

Three prosecutions were commenced into fraudulent claims for compensation by farmers: one farmer pleaded guilty, two farmers were acquitted. There are no outstanding civil or criminal prosecutions against farmers.

Currently, there are five civil cases in the Courts pertaining to expenditure with contractors on goods, services and works during the FMD outbreak in 2001. It would be inappropriate to comment on cases that are

the subject of ongoing court proceedings. Similarly, public comment cannot be made on civil or criminal cases that are pending.

### Civil Servants

**Dr. Cable:** To ask the Secretary of State for Environment, Food and Rural Affairs how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150265]

**Alun Michael:** I refer the hon. Member to the Answer given by my hon. Friend, the Minister of State, Cabinet Office (Mr. Douglas Alexander) on 9 February, *Official Report*, column 1293W.

### Combustion Plants

**Mr. Bill O'Brien:** To ask the Secretary of State for Environment, Food and Rural Affairs how many states in the EU who operate indigenous coal industries have applied for the Emissions Limited Values option within the Large Combustion Plant Directive. [148756]

**Mr. Morley:** The Directive requires that member states send their National Plan to the Commission if they propose to follow this option. According to the latest information provided by the European Commission, two other member states, Ireland and Finland, have submitted a National Plan in addition to the UK. There is no requirement on member states to notify the Commission if they intend to adopt the alternative Emissions Limit Value option

### Committee on Radioactive Waste Management

**Llew Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs what use has been made by the Committee on Radioactive Waste Management of the final report of the information needs research project commissioned by her Department in 2002; and if she will place a copy of the report in the Library. [154691]

**Mr. Morley:** The Committee will consider this and other relevant reports when drawing up its work programme, agreeing this work programme with sponsoring Ministers, and subsequently implementing this agreed programme. The report, published in October 2002, under the reference Defra/RAS/02.014, may be accessed via Defra's Radioactive Substances Research website (www.defra.gov.uk/environment/radioactivity/research/index.htm). I have arranged for copies of the report to be placed in the Library.

**Llew Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs what the annual budget in 2003–04 for the Committee on Radioactive Waste Management is; and what plans she has, in consultation with the devolved Administrations, to increase its budgets. [154693]

**Mr. Morley:** For this financial year, CoRWM is working within existing Defra budgets to formulate its detailed work programme and associated estimates of resource needs. This programme and estimates, once agreed with sponsoring Ministers, will provide the basis for formally allocated Committee budgets for subsequent financial years.

**Llew Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the Committee on Radioactive Waste Management is empowered to sub-contract research to consultants. [154694]

**Mr. Morley:** It is for CoRWM to judge what contracts, or sub-contracts may be required to enable it to carry out its programme. Contracts will be placed by my Department on behalf of CoRWM. All contracts and sub-contracts, which, in CoRWM's view, materially impact on its work programme, will be subject to approval by CoRWM. In all cases, Government procurement procedures will apply.

### Comprehensive Performance Assessment

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Office of the Deputy Prime Minister on including energy in the comprehensive performance assessment. [153805]

**Mr. Morley** *[holding answer 11 February 2004]*: Defra Ministers have had a number of discussions involving colleagues in the Office of the Deputy Prime Minister on the interaction between the comprehensive performance assessment (CPA) and Defra's policies that relate to local government. Similar discussions have also taken place at official level. These discussions have included issues relating to energy.

Proposals for redesigning the CPA methodology are currently the subject of an Audit Commission consultation paper. A key objective of these proposals is for CPA to respond to the shared priorities agreed between central and local government. This is intended to improve the ability of CPA to reflect cross cutting issues like sustainable energy, including energy efficiency and related issues such as fuel poverty.

### Correspondence

**Mr. Kaufman:** To ask the Secretary of State for Environment, Food and Rural Affairs when she intends to reply to the letter to her dated 9 December 2003 from the right hon. Member for Manchester, Gorton with regard to Mr. A. Warrich. [149551]

**Margaret Beckett:** I replied to my right hon. Friend on 16 February 2004.

### Dee Cockle Regulation Order

**Mr. Ben Chapman:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will hasten implementation of the Dee Cockle Regulation Order following the incident in Morecambe Bay on Thursday 5 February. [154461]

**Mr. Bradshaw:** The Department will take action to make a Regulating Order under the Sea Fisheries (Shellfish) Act 1967 once the prospective grantee, the Environment Agency in Wales, has submitted a formal application for an Order. I understand that the Agency has made good progress in obtaining the necessary

written consents from landowners and that it expects to forward its formal application to the Department in March.

### Departmental Bodies

**Keith Vaz:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) who the members of *(a)* the governing board of Royal Botanic Gardens, Kew, *(b)* the Sea Fisheries Committee and *(c)* the Sugar Beet Research and Education Committee were on 1 January; what the term of office of each member is; and what their remuneration is; [150838]

(2) who the members of *(a)* the Home Grown Cereals Authority, *(b)* Horticulture Research International, *(c)* the Meat and Livestock Commission, *(d)* the Plant Varieties and Seeds Tribunal and *(e)* the Regional Floods Defence Committee were on 1 January; what their term of office is in each case; and what their remuneration is; [150839]

(3) who the members of *(a)* the Advisory Committee on New Foods and Processes, *(b)* the Agricultural Dwelling House Advisory Committee, *(c)* the Apple and Pear Research Council, *(d)* the British Potato Council and *(e)* the Consultative Panel on Badgers and Bovine Tuberculosis were on 1 January; what their term of office is in each case; and what their remuneration is. [150840]

**Alun Michael:** I am sending a copy of the information requested to my hon. Friend and a copy has been placed in the Library of the House.

### Departmental Minutes

**Mr. Lilley:** To ask the Secretary of State for Environment, Food and Rural Affairs whether it is the Department's policy to make notes of *(a)* meetings and *(b)* telephone conversations involving ministers; and under what circumstances no notes would be taken. [149527]

**Margaret Beckett:** My Department follows the central "Guidance on the Management of Private Office Papers" which makes clear that good record management procedures are necessary not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

### Environment Agency

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs how many people were employed by the Environment Agency in January *(a)* 1997, *(b)* 2000 and *(c)* 2004. [152076]

**Mr. Morley:** The number of staff employed by the Environment Agency (including temporary and part-time staff) was as follows:

*(a)* January 1997—9,123

*(b)* January 2000—10,296

*(c)* January 2004—11,532

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the Environment Agency's budget in *(a)* 1999–2000 and *(b)* 2003–04 was spent on national insurance contributions. [152077]

**Mr. Morley:** The proportion of the Environment Agency's budget spent on National Insurance contributions is as follows:

*(a)* 1999–2000: 2.6 per cent.

*(b)* 2003–04: 2.7 per cent. (forecasted)

### Environmental Education

**Mrs. Helen Clark:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether funding for environmental education in schools will change when the landfill tax credit scheme is amended. [154458]

**Mr. Morley:** No formal assessment has been made by this Department of the funding of environmental education in schools.

Environmental education forms a part of the national curriculum for schools. A number of non-curriculum waste education projects received funding through the Landfill Tax Credit Scheme. The reform of the Landfill Tax Credit Scheme was announced in the Pre-Budget Report in 2002. As a result, waste projects are no longer eligible for funding. However, certain types of environmental educational projects are eligible for funding under the current scheme, for example, in the biodiversity category.

A sustainable waste delivery public spending programme, administered by Defra, has been established following the reform of the Landfill Tax Credit Scheme, to ensure that sustainable alternatives to landfill disposal are widely available. Under the public expenditure programme the Waste and Resources Action Programme is responsible for taking forward work on waste awareness.

### European Commission Payments

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated value is of payments due from the European Commission in respect of expenditures incurred and payments made by her Department, for which no claim has yet been made. [150849]

**Alun Michael:** The payments due from the European Commission for expenditures incurred as at December 2003 are £235,575,256.02.

The Rural Payments Agency's (RPA) December 2003 claim was lodged with the Commission on 9 January 2004 for reimbursement at the beginning of February 2004.

The payments made by the RPA as at January 2004 for which no claim has yet been made are £184,382,364.07.

The January 2004 claim is due to be lodged with the Commission on 10 February 2004 for reimbursement to the RPA at the beginning of March 2004.

## Transgenic Fish

**Adam Price:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list applications for licences to import transgenic fish made in the last three years. [153870]

**Mr. Bradshaw:** There have been no applications for licences to import transgenic fish.

## Fisheries

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to the United Kingdom is in 2003–04 of maintaining the International Council for the Exploration of the Seas Fishing Technology and Fish Behaviour Working Group. [150241]

**Mr. Bradshaw:** It is not possible to give the annual cost of maintaining the International Council for the Exploration of the Seas Fishing Technology and Fish Behaviour Working Group because the ICES budget does not separately identify individual working groups.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the financial contribution made by the United Kingdom Government to the International Council for the Exploration of the Seas was for each of the last five financial years; and what proportion of those contributions was spent on fisheries research. [150246]

**Mr. Bradshaw:** The United Kingdom Government contributed the following amounts:

| | *Danish Krona* |
|---|---|
| 2003–04 | 1,425,600 |
| 2002–03 | 1,384,000 |
| 2001–02 | 1,354,000 |
| 2000–01 | 1,314,480 |
| 1999–2000 | 1,276,200 |

It is not possible to determine how much of the UK's contribution was spent on fisheries research because the ICES budget does not separately identify such research. Individual countries' contributions are not allocated to specific areas of work.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what research she has conducted into the extent to which the level of one fish stock is affected by the levels of fish stocks of similar species sharing the same habitat. [150304]

**Mr. Bradshaw:** Models which look at the interaction between species are still being developed by the International Council for the Exploration of the Sea (ICES). However, the evidence to date suggests that, in most cases, the level of one species is a relatively minor factor in the level of similar species, due to the rich marine food webs.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for the relative decline in cod biomass in the North Sea; and to what extent stocks have been affected by *(a)* long-term changes in sea temperatures, *(b)* predation and competition by other fish species, *(c)* commercial exploitation of food supplies upon which cod stocks rely, *(d)* seals, *(e)* overfishing and *(f)* other factors. [150306]

**Mr. Bradshaw:** Scientists advise that over the last 20 years the fishing rate on cod has been five times that required to promote optimal use of the cod stock, and the fishery captures too many immature fish. On average less than 5 per cent. of each new brood now survives to maturity, and the cod age structure is very restricted. The stock is severely overfished, the biomass of mature fish has shown a prolonged decline, and the number of young cod entering the stock decreased in the mid-1980s.

The ICES Advisory Committee on Fishery Management (ACFM) advises that the reduction in recruitment can be at least partly explained by a reduction in the quantity and quality of eggs produced by a reduced spawning stock. There is speculation about the effect of environmental change and species interactions because of increased water temperature, and various contemporaneous changes in other species, but work carried out on these factors does not yet allow them to be quantified. ACFM notes that there may be some changes to the natural mortality of cod, such as a decrease on younger ages, possibly due to reduced cannibalism, and an increase on older ages due to seal predation, but the supporting evidence for these changes is weak.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what independent scientific advice she uses in relation to fisheries management; and if she will publish the advice she has received in relation to increased fishing effort for haddock while protecting cod stocks. [150307]

**Mr. Bradshaw:** We and other EU member states receive independent advice on fish stocks from the International Council for the Exploration of the Seas (ICES). The latest such advice on haddock has already been published by ICES on their website: http// www.ices.dk/

The European Union's Scientific, Technical and Economic Committee on Fisheries has also considered the mixed cod and haddock fisheries but the European Commission has yet to publish its work.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the accuracy of scientific assessments of the levels of fish stocks. [150317]

**Mr. Bradshaw:** ICES stock assessments are carried out internationally using landings and biological and survey data that are analysed in a standard way by methods that are well-known and are accepted by the international fisheries science community. Results are dependent on the quality of the data, and on our understanding of biological processes in the sea. It is accepted that the data and the methods are not perfect, but they are the best available. Assessment results are reviewed within ICES by ACFM, as well as by the North Sea Fisheries Commission Partnership in the case of the North Sea stocks, and ACFM is further developing quality assurance and review processes.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned on the effect of escape behaviour between different species on mortality rates for cod in North Sea fisheries. [150941]

**Mr. Bradshaw:** Differences in escape behaviour alone are not significant determinants of fishing mortality. The combination of escape behaviour and net design can be a factor and considerable research has been conducted into net designs which will, for example, reduce fishing mortality of juvenile cod. One option is to separate cod from other species within the trawl and then subject them to a different selection process (e.g. a larger mesh size) when they try to escape. Alternatively, it may be possible to design nets so that some species, including cod, avoid the net completely. Each fishery targeting different ranges of species may require a different complex design with the aim of catching the marketable species and releasing the unwanted species. Research is ongoing in the UK, in collaboration with commercial fishermen.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* EU, *(b)* UK and *(c)* French fisheries observers have spent research time on board (i) industrial trawlers, (ii) bass pair trawlers and (iii) other pelagic trawl fisheries vessels operating in areas (A) VII and (B) VIII in each of the last five years; and if she will make a statement. [152856]

**Mr. Bradshaw** *[holding answer 4 February 2004]:* As part of Defra-funded research into cetacean bycatch, the Sea Mammal Research Unit (SMRU) carried out eight days of observations at sea in 2000, 25 days in 2001 and four in 2002 in the following UK pelagic fisheries in Area VII: mackerel, pilchard, whiting and anchovy.

In the offshore pair trawl fishery for bass in Area VII, SMRU undertook 72 days of observations in 2001, 40 days in 2002 and 87 in the spring of 2003. Further observations have been taking place in the bass fishery since December 2003 but data are not yet available. Defra does not hold records of observations undertaken by other member states in these areas.

In addition, observers from the Centre for Environment, Fisheries and Aquaculture Science (CEFAS) undertook 13 days' monitoring of English or Welsh registered vessels fishing for pelagic species in 2003 in Area VII and Area VIII. This work, which observed about 33 hours fishing, met obligations under the EU discard monitoring programme. CEFAS also undertook monitoring in Area VIId in 2001 for a total of about 21 hours fishing.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of whether fishing effort managed by limiting days at sea, including the banning of discards, is an effective fisheries management tool. [150851]

**Mr. Bradshaw:** Scientific assessments have shown that fishing mortality on key species such as cod is too high in waters around the UK. Total Allowable Catches (TACs) and quotas on their own have not been effective in reducing fishing mortality to sustainable levels. In December 2002 and again in December 2003, EU Fisheries Ministers agreed limitations on days at sea to complement reductions in TACs—it is too early to assess what impact these restrictions will have had on fishing mortality.

A discards ban is a separate management tool to a days at sea scheme. At present a ban on discards is not yet considered to be practicable. The European Commission published an action plan in November 2002 which suggested a number of options to reduce discarding, including consideration in the medium term of a discards ban. The UK and other member states have welcomed the Commission's intention to try out the ideas in its action plan through a series of pilot projects.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what research has been conducted on the effectiveness of hybrid systems which use total allowable catches, days at sea and individual species quotas. [150852]

**Mr. Bradshaw:** There is no such research available applicable to EU waters because the EU has only recently introduced days at sea rules to support the Total allowable catches (TACs) set for cod and other threatened species. In the past, TACs alone have not been respected. It is too soon for research to show whether the new approach is more effective.

### Flood Defence (Chorley)

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the flood defence works in the Chorley constituency; how many contracts have been let in connection with it; and what the value of the contracts is. [148227]

**Mr. Morley:** The following contracts have been awarded by the Environment Agency:

*Capital Works:*

Croston Flood Wall—Works started on the 5 January 2004 to improve existing flood defence walls along the River Yarrow, which protect the village of Croston: (estimated cost £680,000).

Strategic Studies and Investigations—A strategic study of flood risk management need is currently under way covering the River Douglas catchment area: (estimated cost £100,000).

In addition, EA's own maintenance works include:

*Revenue Works :*

Heavy Maintenance—Work is to be carried out along the north bank, upstream of Fishery Bridge at the west side of Croston village. This will safeguard the existing flood defences against erosion: (estimated cost £20,000).

Routine Maintenance—(estimated cost £75,000).

### Fresh Water Fisheries

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs which of the recommendations of the Warren Committee on Fresh Water Fisheries she plans to implement; and when. [R] [154881]

**Mr. Bradshaw:** As explained in the Government response to the report of the Salmon and Freshwater Fisheries Review Group chaired by Professor Lynda

Warren, issued in February 2002, the Government accepted (in full or in part) most of the 195 recommendations made by the review group. Those which can be implemented without the need for primary legislation have now been implemented. Work is proceeding towards the development of primary legislation required to implement other accepted recommendations, and this will be taken forward as and when the pressure of the legislative programme on parliamentary time permits.

### Game Laws

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what costs have been incurred in administering game licences in each of the last four years for which figures are available; and what fee income was raised in each year. [155181]

**Mr. Bradshaw:** The estimated costs and revenue from game licensing for the last three years[1] are given in the following table.

| | *Number of licences* | *Cost of administering (excluding VAT) (£)* | *Gross revenue (£)* |
|---|---|---|---|
| 2001-02 | 48,385 | 261,900 | 251,884 |
| 2000-01 | 42,310 | 224,792 | 217,408 |
| 1999-2000 | 39,262 | 217,822 | 195,617 |

[1] There are no figures available for the years prior to 1999 and information for 2002-03 has yet to be received from the Post Office.

These values refer to game licences issued by Post Offices in England, Wales, Scotland and Northern Ireland.

In addition to the licences referred to above, district councils and London borough councils issue licences to deal in game. No figures are collected centrally for the numbers of licences issued by councils. We understand that arrangements and charges vary.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to review game *(a)* laws and *(b)* licences. [155175]

**Mr. Bradshaw:** It is our intention to review the game laws, including the licensing provisions established by the Game Licences Act, 1861. Announcements about timing and scope of a review and consultation arrangements will be made in due course.

### GM Crops

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to commission independent research into the environmental effects of growing GM maize using pesticides other than Atrazine. [153892]

**Mr. Morley:** Further research investigating the environmental effects of growing GM maize in relation to the phasing-out of Atrazine was recommended by the Government's statutory advisers on GM crop releases—The Advisory Committee on Releases to the Environment (ACRE)—in January 2004 (see www.Defra.gov.uk/environment/acre). Accordingly, we are currently considering our research requirements in this area.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the maximum level of GM material in seed for planting to ensure a harvested crop does not contain more than the 0.9 per cent. threshold of GM material required under EU regulations for produce to be classified GM-free. [153894]

**Mr. Morley:** I refer the right hon. Member to the assessment made by the EU Scientific Committee on Plants which advises that the Commission's proposed labelling thresholds for the marketing of seeds are based on the need to achieve the separate 0.9 per cent. labelling threshold for adventitious GM presence in non-GM food and feed products. Table 1 of the Scientific Committee's Opinion suggests that the Commission's proposed thresholds could achieve harvested crop thresholds of 0.81 per cent. for oilseed rape, 0.57 per cent. for maize and 0.67 per cent. for sugar beet.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the economic *(a)* benefits and *(b)* disbenefits to UK farmers of growing GM maize. [153895]

**Mr. Morley:** As part of the GM Dialogue the Strategy Unit carried out a study of the costs and benefits of GM crops. Their report "Field Work: weighing up the costs and benefits of GM crops" was published on 11 July last year. The Unit concluded that GM crops could offer some cost and convenience advantages to UK farmers, although any economic benefit is likely to be limited in the short-term as only a narrow range of existing GM crops are currently suited to UK conditions, and weak consumer demand may limit take-up. In the longer term it concluded that future developments in GM crops have the potential to offer more wide-ranging benefits, to both farmers and consumers.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to commission independent research on *(a)* gene transfer and *(b)* co-existence in relation to GM crops. [153896]

**Mr. Morley:** Details of previously commissioned research on gene flow from GM crops are available at www.defra.gov.uk/environment/gm/research/index.htm. Several Defra-funded projects looking at aspects of gene flow that are relevant to co-existence are still in progress. We constantly review our research requirements and may commission further work in future. The Government is currently considering a report on co-existence by the Agriculture and Environment Biotechnology Commission.

**Gregory Barker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to vote to maintain the GM moratorium in Europe on 18 February. [154709]

**Mr. Morley:** No such vote is proposed on 18 February as there is no official moratorium on this matter in the EU. The Government supports the European Commission's view that the EU has an operating legislative framework for the consideration of applications for consent to market GM food and crops on the basis of proper human health and environmental

safety criteria. The vote on 18 February was in relation to one such application for consent made within this framework

The application under consideration is for the import and marketing of GM maize line NK603 for processing for use as animal feed. Consent for this GM maize, if granted, would not permit cultivation or use in food. Four varieties of GM maize already have EU marketing consents which were granted in 1997–98.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what advice her Department has *(a)* given to and *(b)* received from the UK delegates attending European Commission regulatory standing and management committees on GM seed. [153905]

**Mr. Morley** *[holding answer 9 February 2004]:* The Government has advised UK delegates attending EU committee meetings on GM seeds to support, in principle, the introduction of measures, including labelling provisions, to control adventitious GM presence in non-GM seeds. UK delegates have reported on the discussions that have taken place. The Government is still considering its position with regard to the levels at which any thresholds for the adventitious presence of GMOs in seeds should be set.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to *(a)* announce her policy on growing GM crops in the UK and *(b)* decide the outcome of applications for licences to grow GM crops which are the responsibility of the UK to determine. [153906]

**Mr. Morley** *[holding answer 9 February 2004]:* The Government is now considering its overall policy on GM crops in the light of all the available information. This includes the reports of the public debate and science review, the study of the costs and benefits, the Agriculture and Environment Biotechnology Commission's report on co-existence and liability and the Advisory Committee on Releases to the Environment's advice on the Farm Scale Evaluation research. We are aiming to set out our conclusions shortly.

The procedures for considering applications to release or market genetically modified organisms are set out in EC Directive 2001/18. Currently 13 applications to place GM crops on the market for cultivation have been submitted to EU member states, none of these applications have been made through the UK as the lead member state.

If the lead member state considers that an application complies with the Directive it is required to forward its assessment report to the European Commission. The application is then subject to a collective decision by all member states.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will ensure that UK decisions on applications to *(a)* grow and *(b)* use GM crops and foodstuffs are subject to parliamentary approval. [153907]

**Mr. Morley** *[holding answer 9 February 2004]:* The procedures for assessing applications are set out in the relevant EU legislation, either Directive 2001/18 on the deliberate release of genetically modified organisms or the Novel Foods Regulation 258/97, and in the implementing legislation. These were subject to parliamentary scrutiny at the time. The legislation provides for decisions to be taken on individual applications by Government. Final decisions on commercial approvals for GM crops and foodstuffs are taken collectively by EU member states.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the basis of the decision by the Belgian Government to refuse an application for a licence to grow GM oilseed rape in the EU. [154000]

**Mr. Morley:** Applications for the deliberate release of GM organisms into the environment are assessed under the procedures set out in EC Directive 2001/18. No assessment has been made by the UK Government of the application to import and cultivate "Ms8xRf3" GM oil seed rape because notification of the Belgian competent authority's opinion has not yet been circulated by the Commission. When the application and the Belgian assessment is forwarded to us we will consider it very carefully in the light of the scientific evidence of any risks it may pose to human health and the environment.

### Hazardous Waste

**Mr. Stephen O'Brien:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the conclusions of the recent report by the Hazardous Waste Forum in respect of her Department's hazardous waste management strategy. [154188]

**Mr. Morley** *[holding answer 10 February 2004]:* The Hazardous Waste Forum published its Action Plan in December. The Forum's recommendations centre around four main themes:

(i) There should be clarity and firm and fair enforcement of regulatory and legislative requirements, particularly with respect to the Landfill Directive.

(ii) There should be greater awareness raising amongst business and industry to promote waste minimisation and environmentally sound management of hazardous wastes.

(iii) There needs to be clear information on the likely capacity requirements for treatment and disposal of hazardous waste, and that a task force should be set up to review progress on the provision of this capacity.

(iv) That for the longer term, work should be put in hand to build on Waste Strategy 2000 to develop policy instruments to encourage waste minimisation and environmentally sound management, to develop better data on hazardous waste arisings and develop targets for hazardous waste reduction, and to address issues concerned with household hazardous waste.

Actions are and have been taken with respect to these recommendations. In particular the Government will shortly be announcing the outcome of the consultation on the implementation of the EU Council Decision on Waste Acceptance Criteria under the Landfill Directive. In addition, a treatment and capacity task force has been set up under the chairmanship of the waste industry to get better information on industry plans for

treatment and disposal facilities. The consideration and development of further policy instruments is likely to form part of the Forum's work for this year.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the possible impact of implementing EU Directives relating to hazardous waste on the number of available dumping sites after July. [154190]

**Mr. Morley** *[holding answer 10 February 2004]:* I refer the hon. Member to the answer I gave to the hon. Member for Guildford (Sue Doughty) on 14 January, *Official Report*, column 737W.

The treatment and disposal capacity task force of the Hazardous Waste Forum are currently assessing and updating the information in this table as industry plans develop.

### Hill Farmers (Environmental Standards)

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on the impact on hill farmers on the implementation by English Nature of EU directives setting environmental standards in *(a)* North Yorkshire, *(b)* Cumbria and *(c)* other parts of England. [154445]

**Mr. Bradshaw:** The Department receives a number of representations from farmers on a range of issues but I am not aware of any specifically concerning the impact on hill farmers of the implementation of EU directives by English Nature.

### Elephant Ivory

**Mr. Olner:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made regarding the fulfilment of conditions for the proposed sales of elephant ivory stockpiles under the Convention on Trade in Endangered Species from Botswana, Namibia and South Africa in *(a)* importing countries and *(b)* exporting countries. [154014]

**Mr. Morley:** It was an essential part of the decision at the last Conference of Parties to the Convention on International Trade in Endangered Species (CITES) that a number of strict conditions should be fulfilled before any of the proposed sales of ivory stockpiles went ahead. These included the provision of baseline data on elephant populations and poaching levels under the MIKE process (Monitoring of Illegal Killing of Elephants) and confirmation by the CITES Secretariat that the potential importing countries could effectively regulate their domestic ivory markets. These issues will be discussed at the CITES Standing Committee meeting in Geneva next month. It is therefore too soon to make a definitive assessment but the UK Government remains clear that these sales must not proceed if these conditions have not been fulfilled.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her policy on the trade in elephant ivory; what discussions she has had with Ministers from other countries about the trade in elephant ivory; and if she will make a statement. [154207]

**Mr. Morley:** I have discussed the ivory trade with Ministers from other countries on a number of occasions, most recently during my visit to Kenya in October 2003. Officials have also discussed this issue several times in the EC CITES Committee (the Committee on Trade in Wild Fauna and Flora), most recently on 29 January 2004. The UK Government are strongly opposed to the illegal and unsustainable trade in elephant ivory.

**Paul Holmes:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the results from the Elephant Trade Information System; and if she will make a statement. [152670]

**Mr. Morley:** The last comprehensive report on the Elephant Trade Information System (ETIS) was presented by TRAFFIC at the 12th Conference of the Parties to CITES (the Convention on International Trade in Endangered Species) in November 2002. This concluded that the illegal trade in ivory is directly correlated to the presence of large-scale, unregulated ivory markets, predominantly found in West and Central Africa, China and Thailand. The report attributed the upward trend in seized ivory since 1998 to the increased demand for ivory consequent upon increased economic prosperity within China.

The UK shares TRAFFIC's concerns about the need to regulate domestic ivory markets around the world. Within the UK and the EU as a whole, trade in ivory is strictly regulated through a licensing system. Permits for the sale of ivory are not issued unless it can be shown that the ivory was legally acquired before the current world-wide ban on commercial trade in ivory came into force in 1990.

Last year the Government contributed some £60,000 to help ETIS continue its good work in monitoring the illegal trade in ivory and we will be providing an additional £20,000 this year.

**Paul Holmes:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate has been made of the amount of illegal ivory sold in the United Kingdom through the antiques trade in each of the last five years; and if she will make a statement. [152671]

**Mr. Morley:** We have made no such estimates. If we were given evidence that illegal ivory was being sold through the antiques trade we would ask the appropriate enforcement authorities to investigate any allegations that are brought to our attention.

All imports, re-exports and sales of antique ivory are controlled under the appropriate EC regulations, and permits and certificates are not issued unless we are satisfied as to their origin. In addition, my Department, HM Customs and Excise and the police, along with non-governmental organisations such as LAPADA (the Association of Art and Antique Dealers), work together to increase public awareness of the wildlife trade controls.

## Ivory Trade

**John Barrett:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with other members of the European Union regarding the ivory trade in advance of the Convention on International Trade in Endangered Species in March. [152986]

**Mr. Morley:** This issue has been discussed on several occasions in the EC CITES Committee (the Committee on Trade in Wild Fauna and Flora), most recently on 29 January 2004. The UK Government is strongly opposed to the illegal and unsustainable trade in elephant ivory and this is reflected in the European Union stance on this issue. EU Member States will insist at the CITES Standing Committee in Geneva in March 2004, that all the very strict conditions governing the one-off sale of ivory by Botswana, Namibia and South Africa are met in full before any trade is allowed to go ahead.

**John Barrett:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she will take at the Convention on International Trade in Endangered Species to prevent an expansion in the ivory trade; and if she will make a statement. [152987]

**Mr. Morley:** We do not yet know what proposals on elephant ivory, if any, will be made at the Conference of Parties to the Convention on International Trade in Endangered Species (CITES) in Bangkok in October. However, we are concerned that the market for ivory may be poorly regulated in a number of countries around the world, thereby allowing the illegal trade to continue. We will, therefore, work with our partners within the EU and other CITES Parties to ensure that there is no relaxation of the current ban on commercial trade in ivory, unless it can be shown that very strict measures are in place to ensure that such trade would not be detrimental to the conservation of this species in the wild.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 29 January 2004, *Official Report*, column 496W, on ivory, what assessment she has made of the reasons for the increase in ivory imports in 2003. [153333]

**Mr. Morley** *[holding answer 6 February 2004]:* Defra has not made a formal assessment. It is clear, however, that very little ivory has been imported to the UK in recent years. There was an increase in 2003, but as far as we can establish, this was largely as a result of shipments from other EU member states which are allowed to move freely within the Community.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how many Article 10 certificates her Department *(a)* granted and *(b)* refused for (i) ivory and (ii) items containing ivory in each year since 1997. [154810]

**Mr. Morley** *[holding answer 12 February 2004]:* Our records do not distinguish between sales of items of elephant ivory or items containing ivory, although both are included in the figures in the table. The number of certificates issued or refused were as follows:

| | *Asian (Elephas maximus)* | *African (Loxodonta africana)* |
|---|---|---|
| *1997* | | |
| Total certificates issued | 8 | 81 |
| Quantity of items sold | 24 | 157 |
| Number refused | 0 | 0 |
| *1998* | | |
| Total certificates issued | 6 | 76 |
| Quantity of items sold | 6 | 1,172 |
| Number refused | 0 | 0 |
| *1999* | | |
| Total certificates issued | 0 | 19 |
| Quantity of items sold | 0 | 78 |
| Number refused | 0 | 3 |
| *2000* | | |
| Total certificates issued | 0 | 63 |
| Quantity of items sold | 0 | 443 |
| Number refused | 0 | 2 |
| *2001* | | |
| Total certificates issued | 2 | 32 |
| Quantity of items sold | 2 | 33 |
| Number refused | 0 | 14 |
| *2002* | | |
| Total certificates issued | 13 | 44 |
| Quantity of items sold | 13 | 50 |
| Number refused | 0 | 0 |
| *2003* | | |
| Total certificates issued | 0 | 38 |
| Quantity of items sold | 0 | 45 |
| Number refused | 0 | 1 |

## Landfill

**Joan Walley:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of disposal costs per tonne of contaminated soils to landfill after July; what assessment she has made of additional treatment facilities required by July; and if she will make a statement. [152542]

**Mr. Morley:** It is estimated that, from mid July, the requirements of the Landfill Directive could increase the disposal costs per tonne for contaminated soils to landfill by between 10 per cent. to 100 per cent. depending on the degree and type of contamination.

The treatment and disposal facilities required will depend on the volume of contaminated soil arising which in turn will be affected by a number of factors which include:

The classification of more contaminated soil as hazardous under the revised hazardous waste list.

The expected increase in disposal costs will provide a greater incentive to minimise, recycle and re-use waste and shift the management of waste up the waste hierarchy.

The greater incentive for on-site treatment, which can decrease the demand for landfill.

The requirement in the Landfill Directive for all waste to be pre-treated before landfill —this can both increase and decrease the volume for disposal.

Furthermore, the types of any additional facilities that will be required will be site-specific and based on a number of variables such as size of the site and type of

contaminate within the soil. The Hazardous Waste Forum task force on treatment and disposal capacity is currently assessing all these interlinking factors, continues to monitor closely the provision of facilities, and will advise on the issues that need to be addressed so that all waste is subject to environmentally sound management and disposal. Overall the Government's policy is to reduce the UK's reliance on landfill, which, as well as its negative environmental impacts, makes little practical use of waste and is a missed opportunity to recover value from waste.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs on what grounds landfill sites can be closed. [153889]

**Mr. Morley:** Landfill sites can be closed in the following circumstances:

(i) When the conditions specified in the landfill permit are satisfied (e.g. the site is full);

(ii) When the Environment Agency approves the initiation of the closure procedures following a request from the operator; or

(iii) By a reasoned decision of the Environment Agency to initiate closure procedures (e.g. because the requirements of the landfill permit are not being met).

### Meat Sales

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her counterparts in the *(a)* Scottish Executive and *(b)* National Assembly for Wales about the promotion of sales of (i) beef and (ii) lamb; and what assessment she has made of the level of spending on promotion in (A) Scotland and (B) Wales. [154319]

**Alun Michael:** No specific discussions have been held nor assessments made. The promotion of beef and lamb in Scotland and Wales is a matter for their industries representative bodies who receive proportionate funding from the Meat and Livestock Commission levy.

### National Waste Strategy

**David Davis:** To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has a national waste strategy. [154290]

**Mr. Morley:** Yes. The Government's national waste strategy for England and Wales was set out in the document "Waste Strategy 2000", published in May 2000.

### Parliamentary Questions

**Mr. Peter Ainsworth:** To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the employment of secondees from commercial organisations to draft parliamentary answers; and if she will make a statement. [154600]

**Alun Michael:** Defra's Ministers see secondments and interchange as a key means of complementing the skills and experience of the Civil Service, drawing in expertise from such fields as business, local government and the voluntary sector as well as other Government Departments. This is assisting Defra's commitment to play its part in developing a modern, flexible, outward looking Civil Service that works in partnership with all sectors of society. Interchange is seen as a key tool in meeting this commitment. Defra continues to promote and encourage the interchange of personnel between the Department and a range of other organisations.

The term 'secondee' is used within the Civil Service in a more limited sense than the meaning used outside the Civil Service. In the Civil Service a secondee is a person who is 'borrowed' from an organisation outside the Civil Service for a period of between three months and three years (exceptionally five years), without affecting employment status. Great care is taken in setting up any secondment to ensure that conflicts of interest do not arise. During the secondment period the secondee would remain an employee of the parent organisation but would be expected to abide by the Defra staff handbook and the Official Secrets Act. At the end of the secondment the secondee would return to the parent organisation.

The duties performed day to day are a matter for the secondee's managers and may include drafting answers to parliamentary questions.

### Radioactive Waste

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her plans for the long-term storage of high-level radioactive waste. [152613]

**Mr. Morley:** The Committee on Radioactive Waste Management (CoRWM) has been set up, under the "Managing Radioactive Waste Safely" programme, to recommend the best option, or combination of options, for the long-term management of the UK's higher activity wastes. As the "Managing Radioactive Waste Safely" consultation document itself indicated, the Committee will be assessing long-term storage options alongside other long-term management options that are available. Both the public and stakeholder groups will be extensively involved in this assessment process.

It will then be for UK Government and the Devolved Administrations to decide the UK's long-term management policy for this waste in the light of CoRWM's recommendations.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her policy in respect of the reprocessing of radioactive material. [152614]

**Mr. Morley:** Decisions about whether to reprocess spent nuclear fuel depend on the commercial judgment of the operator concerned.

The Department's responsibility is to ensure that where reprocessing takes place it is in accordance with appropriate environmental objectives, including the United Kingdom's regulatory requirements and international obligations.

### Recycling

**Mr. Sheerman:** To ask the Secretary of State for Environment, Food and Rural Affairs what household recycling levels have been attained in each year since 1997. [154245]

**Mr. Morley:** The annual Municipal Waste Management Survey, produced by the Office for National Statistics and Defra, shows the following household waste recycling rates for England:

| | *Percentage* |
|---|---|
| 1996–97 | 7.5 |
| 1997–98 | 8.2 |
| 1998–99 | 9 |
| 1999–2000 | 10.3 |
| 2000–01 | 11.2 |
| 2001–02 | 12.4 |

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs whether home composting is taken into account in the setting of recycling targets at *(a)* local and *(b)* national level. [154294]

**Mr. Morley:** Home composting activity is not measured as part of the local authority best value performance indicator (BVPI) for composting. Its contribution to recycling and composting rates is therefore excluded from statutory performance standards for local authorities and from the national targets for recycling and composting. This is because there is not yet a workable and auditable method of calculating the amount of waste diverted through home composting schemes, or one which properly reflects the local authority's contribution to the activity.

The impact of home composting on reducing waste arisings is already reflected at a local level by BVPI 84, which measures kilograms of household waste collected per head of population. Local authorities are required to set their own local targets for BVPI 84 which has to be included in their Best Value Performance Plans. The Government have concluded a number of Local Public Service Agreements in which home composting activity contributes directly to the achievement of the local authority's target.

Home composting will contribute to achievement of both national and local targets under the Landfill Directive to reduce the amount of biodegradable municipal waste sent to landfill.

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to include home composting in recycling figures at *(a)* local and *(b)* national level. [154300]

**Mr. Morley:** The Government are working with expert bodies, including the Waste and Resources Action Programme, to develop a robust methodology to calculate the amount of waste diverted from the household waste stream through home composting schemes. If a workable and auditable methodology is found, the Government will then review whether and how home composting can be incorporated into future local and national recycling and composting figures.

The impact of home composting on waste reduction is already reflected at local level by Best Value Performance Indicator 84, which measures kilograms of household waste collected per head of population. Home composting activity will also be reflected in local and national progress towards meeting targets under the Landfill Directive to reduce the amount of biodegradable municipal waste sent to landfill.

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the Environmental Agency plans to audit all refrigerator recycling plants, with particular reference to those licensed to recover chlorofluorocarbons from the refridgeration circuit. [154307]

**Mr. Morley:** The Environment Agency is auditing all the fridge destruction facilities. The audit will include an assessment of recovery of CFC from the refridgeration circuit.

### Research and Development

**Mr. Cousins:** To ask the Secretary of State for Environment, Food and Rural Affairs to whom her Department distributes expenditure on research and development; how many staff are employed as a result; and how many research establishments of *(a)* her Department and *(b)* its agencies there are in each region of England. [154359]

**Alun Michael:** The Defra spend on research and development is some £150 million annually. We fund about 250 contractors including our laboratory agencies, the institutes of the Research Councils, a range of universities, and private sector providers of research such as ADAS. There are approximately 1,500 research projects in our portfolio and details of these can be found at www.defra.gov.uk/science. It is not possible to provide details of precise staff numbers employed on Defra R and D contracts. These will vary over the lifetime of projects, and will often involve less than full-time inputs from a number of researchers or in some cases sub-contractors. The main laboratory agencies of the Defra are:

the Central Science Laboratory—York

the Veterinary Laboratories Agency—Weybridge

the Centre for Environment, Fisheries and Aquaculture Science—Lowestoft, Burnham on Crouch and Weymouth

### Sudden Oak Death

**Mr. Caton:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the threat to British woodlands posed by the fungus phytophthora ramorum. [155227]

**Mr. Bradshaw:** A Pest Risk Analysis (PRA) for Phytophthora ramorum was first conducted in the UK by Forest Research in September 2000.

The PRA has undergone a number of revisions and is currently under further review and will take account of the recent findings of the organism on ten trees of six species in Great Britain. Copies of the most recent revision were placed in the Library of the House on 13 February 2003 and updates have since been placed on the Defra website at http://www.defra.gov.uk/planth/pra.htm.

The Forestry Commission is currently undertaking a survey of around 1,000 woodland sites across Great Britain in order to help determine whether the disease is

present in our woodland environment. This survey, which is due to be completed by April, will help us better determine the threat to Britain's trees.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs how the Department handles plants or trees affected with sudden oak death. [149618]

**Mr. Bradshaw:** All ornamental shrubs found to be infected with "Phytophthora ramorum" are destroyed either by burning or deep burial.

For infected trees there are two options: either the destruction of the whole tree by burning or deep burial, or the debarking and disinfection of the trunk and main branches which can then be removed and processed. The removed bark, all other branches and debris such as leaves and soil litter are similarly destroyed by burning or deep burial.

### Sustainable Energy

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to demonstrate to local authorities the potential benefits of developing sustainable energy policy. [153804]

**Mr. Morley** *[holding answer 11 February 2004]*: In the Energy Efficiency White Paper published in February 2003 the Government set out its strategy to help local authorities take a more proactive role in the delivery of sustainable energy policy. This includes establishing a new Beacon Council theme on sustainable energy, promoting energy efficiency as an area to be considered for Public Service Agreements and reviewing guidance to Energy Conservation Authorities on complying with the requirements of the Home Energy Conservation Act (HECA). The Government will publish in the spring an implementation plan for delivery of the energy efficiency policy commitments made in the White Paper.

The Government funded Carbon Trust and Energy Saving Trust (EST) provide support to local authorities to develop sustainable energy policy. For example, through its Carbon Management initiative the Carbon Trust assists local authorities in developing long term, strategic carbon emissions reductions plans. It is also piloting an energy-financing scheme aimed at local authorities. The EST helps local authorities to deliver their Home Energy Conservation Act and other sustainable energy responsibilities through initiatives such as the Local Authority Support Programme, the Practical Help website and funding for the National and Regional HECA Fora Secretariats.

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs how her Department disseminates best practice in sustainable energy management programmes to local authorities. [153807]

**Mr. Morley** *[holding answer 11 February 2004]*: The Department disseminates best practice in sustainable energy management programmes to local authorities through its funding of the Energy Saving Trust and the Carbon Trust.

The Energy Saving Trust and Carbon Trust have developed a range of programmes aimed at supporting local authorities sustainable energy activities.

### Toxic Waste Disposal

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the potential use of salt mine workings for toxic waste disposal. [154758]

**Mr. Morley:** The Government have set out a policy and planning framework, in Waste Strategy 2000 and Planning Policy Guidance Note 10 Planning and Waste Management, which is concerned with reducing the amount of waste produced and where waste is produced, for dealing with in a way that supports sustainable development. Proposals for waste management facilities should be developed and considered within that framework. The criteria and procedures for the acceptance of waste are set out in the Landfill Directive (1999/31/EC) and the associated Council decision (2003/33/EC), including those applicable to underground waste disposal sites such as salt mine workings.

### US Ships (Decommissioning)

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answers of 14 January 2004, *Official Report*, column 739W, on Tees Estuary, whether ballast water has been removed or disposed of from the ships *(a)* in accordance with a detailed method statement and *(b)* without such a statement. [152749]

**Mr. Morley:** No ballast water has yet been removed or disposed of from the ships. No removal is permitted until the Environment Agency has approved a method statement. Able UK has not yet submitted a method statement to the Agency for its approval.

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs when she intends to instruct that the four ghost ships moored in Hartlepool be returned to America. [151641]

**Mr. Morley** *[holding answer 29 January 2004]*: The US authorities accept that the four ships will have to return to the US, unless environmentally suitable and legally acceptable methods for their disposal have been identified. The immediate return of the vessels is not practicable.

### Waste Electrical and Electronic Equipment Directive

**Mr. Edwards:** To ask the Secretary of State for Environment, Food and Rural Affairs whether she has met representatives from the printer cartridge remanufacturing industry to discuss the scope of the Waste Electrical and Electronic Equipment Directive. [153198]

**Mr. Morley:** I have not met any representatives from the printer cartridge remanufacturing industry to discuss the scope of the Waste Electrical and Electronic Equipment Directive.

**Mr. Edwards:** To ask the Secretary of State for Environment, Food and Rural Affairs which Ministers in her Department have met *(a)* Lexmark and *(b)* Hewlett Packard to discuss the Waste Electrical and Electronic Equipment Directive; and what the dates were of such meetings. [153199]

**Mr. Morley:** In October 2002, my right hon. Friend, the then Minister of State for Environment (Mr. Meacher), met with industry representatives to discuss the Waste Electrical and Electronic Equipment (WEEE) Directive. A representative of Hewlett Packard was present at the meeting.

**Mr. Edwards:** To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Government's transposition of the Waste Electrical and Electronic Equipment Directive *(a)* included only whole products and *(b)* did not include consumables. [153200]

**Mr. Morley:** The Government have not yet transposed the Waste Electrical and Electronic Equipment (WEEE) Directive but is working to do so by the August 2004 deadline.

The WEEE Directive applies to electrical and electronic equipment that falls into one of 10 indicative categories set out in an annex to the directive.

The directive applies only to whole products because it makes producers financially responsible for the environmentally sound end of life management of their products. A very large number of producers are affected by this legislation as it is, and adding consumables to the scope of the directive would have significantly increased the number of producers obligated by the legislation, making the directive significantly harder, if not impossible to enforce, as well as more costly.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the implications for hazardous waste regulations arising from the bring-back requirements of the Waste Electrical and Electronic Equipment Directive. [152616]

**Mr. Morley:** The potential implications of the bring-back requirements of the Waste Electrical and Electronic Equipment (WEEE) Directive on the control of hazardous waste are being assessed in the on-going review of the special waste regulations. These issues will be explained in the forthcoming consultation on replacement hazardous waste regulations.

### Waste Implementation Programme

**Mr. Sheerman:** To ask the Secretary of State for Environment, Food and Rural Affairs what meetings she has had with ministerial colleagues from other departments to ensure that the Waste Implementation Programme has a co-ordinated approach with waste-related programmes in other Departments. [154243]

**Mr. Morley:** The Waste Implementation Programme (WIP) is putting England on the path to more sustainable waste management with measures to slow the growth in the amount of waste, investment in recycling infrastructure and support for new alternative waste management technologies. This new programme was explicitly created to provide clear responsibilities and accountabilities, and a strong focus at the centre of government to drive forward implementation in specific areas. The initial direction and implementation arrangements for WIP were overseen by a ministerial group answering jointly to the Secretary of State for Environment, Food and Rural Affairs and the Chief Secretary to the Treasury.

Underpinning the programme are effective mechanisms for cross-government working. A Steering Committee, representing key interests engaged in waste management, has been established to drive forward the implementation of WIP workstreams. This group also provides strategic advice on the new programme, and reports direct to the Secretary of State for Environment, Food and Rural Affairs. Meetings are attended by representatives from several Government Departments. In addition, there are regular meetings with ODPM, DTI and HMT at official level.

### Water/Sewerage Charges

**Tony Lloyd:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with Ofwat and United Utilities about the decision to allow an increase in water and sewerage charges for the remaining year of the current price review period by more than the amount originally set by the regulator; and if she will review the safeguards in place to protect low income households. [154486]

**Mr. Morley** *[holding answer 12 February 2004]:* Price limits for water companies are set or modified independently by the Director General of Water Services. The Director General and United Utilities have kept me informed of this interim price determination that revises price limits for the charging year beginning on 1 April 2004.

I am considering the responses to the consultation on revisions to the Vulnerable Groups Regulations that provide protection to vulnerable metered households.

### Wildlife Management

**Mr. Gardiner:** To ask the Secretary of State for Environment, Food and Rural Affairs if her Department will make representations to the European Commission for the inclusion of the management of wildlife in the criteria for the definition of legality in the European Commission's proposal for an action plan on European Forest Law Enforcement Governance and Trade proposal. [153266]

**Mr. Morley:** The European Commission's Action Plan on Forest Law Enforcement, Governance and Trade (FLEGT) includes proposals to prevent the import into the EU of illegally logged timber, through the voluntary licensing of timber exports from FLEGT partner countries. Under these voluntary agreements export permits would be granted only if the timber has been harvested in conformity with relevant national legislation.

The Government's view is that it is for each producer state to define legality in reference to the national laws and regulations of that state and for them to decide if the management of wildlife should be included in such a definition. It would not be appropriate to make representations to the European Commission concerning the criteria for defining legality. We would however be willing to work with individual countries to address this as a criteria.

### Wildlife Trade

**Mr. Olner:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures the Government is taking to tackle illegal wildlife trade on the internet. [154013]

**Mr. Morley:** We monitor the major internet sales sites, and take enforcement action when possible illegal sales of wildlife items are identified. This is one of the areas that I am asking the National Wildlife Crime Intelligence Unit to focus on.

### Wind Turbines

**Dr. Murrison:** To ask the Secretary of State for Environment, Food and Rural Affairs for what reason noise from wind turbines has been excluded from the study at Salford University into low frequency noise sponsored by her Department. [154767]

**Alun Michael:** The study being carried out by Salford University aims to provide a method for assessing low frequency noise. Salford University has been asked to identify a number of examples of different types of low frequency noise for detailed investigation to determine how assessment of such noises could be carried by Local Enforcement Practitioners. Salford University are due to report shortly on the examples recommended for detailed investigation.

## NORTHERN IRELAND

### A-level Results

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what percentage of pupils in Northern Ireland achieved three grade As or above at A level in each of the last five years. [155426]

**Jane Kennedy:** The information requested is as follows:

| | *Percentage* |
|---|---|
| 1998–99 | 9 |
| 1999–2000 | 11 |
| 2000–01 | 11 |
| 2001–02 | 13 |
| 2002–03 | 12 |

### Academic Qualifications

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what percentage of Northern Ireland pupils left school with no qualifications in each of the last five years. [155427]

**Jane Kennedy:** Figures for 2002–03 are not yet available. The percentage of Northern Ireland pupils leaving school with no qualifications in each of the previous five years is as follows:

| *Year* | *Percentage* |
|---|---|
| 2001–02 | 5.2 |
| 2000–01 | 4.8 |
| 1999–2000 | 3.6 |
| 1998–99 | 2.7 |
| 1997–98 | 3.1 |

### Asbestos

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland which Education and Library Boards in Northern Ireland have taken steps to manage asbestos by *(a)* undertaking a survey of all premises, *(b)* compiling a register indicating where asbestos is present and *(c)* preparing a plan for managing any associated risks. [154158]

**Jane Kennedy:** I understand from the Chief Executives of the Education and Library Boards that all five Boards are currently undertaking surveys of all premises to determine the location and condition of material likely to contain asbestos. As these surveys are completed, the Boards are compiling registers that record the location and condition of asbestos. Four Boards have completed asbestos management plans, while the fifth Board (Belfast) intends to complete its plan by the end of February 2004.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many *(a)* schools and *(b)* premises used by school children are assessed as properties with a (i) low, (ii) medium and (iii) high risk of asbestos having been used. [154159]

**Jane Kennedy:** Education and Library Boards are currently engaged in surveys of all schools and Board premises. The surveys should all be completed by May 2004 at which stage the information requested would be available.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what measures are in place to train maintenance staff in the *(a)* management, *(b)* surveying and *(c)* sampling of asbestos in Education and Library Boards in Northern Ireland. [154160]

**Jane Kennedy:** I understand from the Chief Executives of the Education and Library Boards that all relevant maintenance staff have received training in the management, surveying and sampling of asbestos. The training has consisted of the following standard modules provided by the British Occupational Hygiene Society:

(1) P402—Building Surveys and Bulk Sampling for Asbestos

(2) P405—Managing Asbestos in Buildings.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what work each Education and Library Board in Northern Ireland has carried out to inform schools in their area of procedures to safeguard children, staff and members of the public in relation to asbestos in schools and other board properties. [154161]

**Jane Kennedy:** All Education and Library Boards are organising awareness training for relevant staff at schools and other board properties aimed at providing them with sufficient knowledge to assist safely in asbestos management. This training is expected to be completed by all boards by May 2004. Asbestos management plans, which include details of the procedures to be followed in the management of asbestos, will be provided to schools and other board properties. Registers are also being drawn up as boards complete surveys of properties, which will include details of the location and condition of any asbestos. Individual properties will be provided with a copy of the register relevant to them.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many asbestos leaks occurred in buildings owned by each of the Education and Library Boards in Northern Ireland in each year since records were kept; and where these leaks occurred. [154162]

**Jane Kennedy:** I understand from the Chief Executives of the Education and Library Boards that only the South Eastern Education and Library Board has recorded an asbestos leak. This was at the Board's Headquarters in 2002 when elevated fibre counts were detected as part of a routine monitoring programme during an asbestos removal project. In addition to this leak, the South Eastern Board has recorded five occasions involving disturbances of asbestos during the carrying out of maintenance work. These are:

| | *Education centre* |
|---|---|
| 1992 | Braniel Primary School |
| 1999 | Killyleagh Outdoor Education Centre |
| 2000 | Board Headquarters |
| 2001 | Castlewellan Library |
| 2003 | Ardnabannon Outdoor Education |

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many Education and Library Boards in Northern Ireland have in place *(a)* an Asbestos Register and *(b)* an Asbestos Management Plan. [154414]

**Jane Kennedy:** I understand from the Chief Executives of the Education and Library Boards that all Boards are currently compiling asbestos registers as they complete surveys of premises. Four Boards have completed Asbestos Management Plans and the fifth (Belfast) intends to have its plan completed by the end of February 2004.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what steps he has taken to ensure that there is a recognised procedure in place to minimise the risk of exposure to asbestos in *(a)* schools and *(b)* premises used by schoolchildren in Northern Ireland. [154415]

**Jane Kennedy:** The Department of Education has issued guidance to all schools and education authorities on asbestos management and the requirements of the Control of Asbestos at Work Regulations (Northern Ireland) 2003. The Department has provided funding to enable the Education and Library Boards to survey all schools in Northern Ireland, including controlled, maintained, Voluntary Grammar, Grant Maintained Integrated Schools and any other relevant Board premises, to determine the location and condition of asbestos. The Asbestos Management Plans, which are currently being finalised, will outline the processes and actions required to contain and manage any risk from asbestos, where it has been detected. Education and Library Boards have also provided professional training to technical staff and will be organising awareness training for all relevant non-technical staff.

### Assets Recovery Agency

**Mr. Gregory Campbell:** To ask the Secretary of State for Northern Ireland what actions have been taken by the Assets Recovery Agency against *(a)* Republican and *(b)* Loyalist paramilitary groups. [153846]

**Jane Kennedy:** There are currently 17 cases under active investigation by the Agency in Northern Ireland with potential assets recoverable of over £7.5 million. These cases cover the whole range of organised crime among all groupings and areas across Northern Ireland.

The Agency determines which cases should be adopted from those cases referred by law enforcement and other agencies. Its objective is that, some 80 per cent. of cases to be pursued this year, will focus on property obtained by, or in the hands of, paramilitaries and other organised criminals.

### Asthma

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many patients *(a)* over and *(b)* under 45 years were admitted to hospital for asthma in the last 12 months for which figures are available. [154566]

**Angela Smith:** The information requested is in the following table.

*Number of patients admitted to hospital during 2002–03 where the primary diagnosis was asthma*

| *Age* | *Number of admissions*[1] |
|---|---|
| Over 45 | 756 |
| Under 45 | 1,785 |
| All Ages | 2,541 |

[1] Discharges and deaths are a proxy for admissions.
*Note:*
Figures include elective and emergency admissions.
*Source:*
Hospital Inpatients System

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many deaths from asthma there were in Northern Ireland in each of the last five years. [154567]

**Mr. Pearson:** Mortality statistics for 2003 have not been fully collated and therefore the latest available data relates to the five-year period 1998 to 2002. The following table gives the number of deaths resulting from asthma[1] registered in Northern Ireland in each year between 1998 and 2002.

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 493 (1998–2000) and Tenth Revision (ICD-10) codes J45 or 146(2001–2002).

*Number of registered deaths due to asthma by year in Northern Ireland (1998–2002)*

| | *Deaths* |
|---|---|
| 1998 | 44 |
| 1999 | 38 |
| 2000 | 33 |
| 2001 | 38 |
| 2002 | 36 |

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many asthma sufferers in the Province had their condition reviewed at least once in the last year for which figures are available. [154568]

**Angela Smith:** This information is not collected centrally and could be collated only at disproportionate cost.

### Barnett Formula

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Chancellor of the Exchequer on the operation of the Barnett Formula as regards Northern Ireland; and if he will make a statement. [155199]

**Mr. Pearson:** The Barnett formula has worked well over the years and continues to deliver high levels of public spending and investment to the people of Northern Ireland. I do not therefore propose to raise this matter with the Chancellor of the Exchequer.

### Breast Cancer

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what the latest survival rate for breast cancer is in Northern Ireland. [154843]

**Angela Smith:** The most recent estimate of the five-year relative survival rate for female breast cancer patients, based on persons diagnosed in 1993–96, is 78 per cent.

The one-year relative survival rate, based on persons diagnosed in 1993–96, is 92 per cent.

### Cervical Screening

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what plans he has for introducing human papilloma virus testing for screening against cervical cancer; and if he will make a statement. [155418]

**Angela Smith:** The UK National Screening Committee (NSC) commissioned a pilot scheme to examine the role of human papilloma virus testing in cervical screening. The pilot ran for two years and an evaluation report to the NSC is expected in the near future. I will await the advice and recommendations of the NSC before making any decision about this matter.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland whether the liquid-based cytology cervical screening technique will be introduced within the NHS in Northern Ireland at the same time as in the rest of the United Kingdom; and if he will make a statement. [156020]

**Angela Smith:** The other home countries are now in the process of rolling out the liquid based cytology technique. This is expected to take up to five years to complete. My Department has set up a regional group to advise, as soon as possible, on the introduction of this technology to N. Ireland. On receipt of the advice of this group the Department will be in a position to consider how best to take this forward and will seek then to identify funding. Roll-out here should be well within five years.

### Chiropody

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what chiropody service is available within the Ulster Community and Hospitals Trust Area, with particular reference to Ards and Bangor Community Hospitals. [155422]

**Angela Smith:** Chiropody services are provided at Ards and Bangor Community Hospitals and in nine other health facilities in the North Down and Ards area. A service is also provided to 40 nursing and residential homes, to training and resource centres, in GP based diabetic clinics and to the homes of patients who are housebound. An additional two podiatrists were recruited in January 2004.

Priority in the provision of services is given to patients whose medical conditions place feet and legs at risk of developing complications.

### Christian Education Movement

**Lady Hermon:** To ask the Secretary of State for Northern Ireland, what funding will be made available for the Christian Education Movement for 2004–07; and if he will make a statement. [156024]

**Jane Kennedy:** The Christian Education Movement has applied to the Department of Education for funding for the period April 2004—March 2007 under the Department's Community Relations Core Funding Scheme. All applications for such funding are currently under consideration and decisions will be announced in the near future.

### Cross-community Schools

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland how many pupils attend cross-community schools. [154839]

**Jane Kennedy:** The numbers of pupils attending integrated (i.e. cross-community) schools are as follows:

| | *Integrated enrolment* |
|---|---|
| Nursery schools | 0 |
| Primary schools | 6,417 |
| Post-primary schools | 10,077 |
| Total | 16,494 |

### Decommissioning

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland which paramilitary organisations are formally engaged with the International Independent Commission on Decommissioning. [155576]

**Jane Kennedy:** The Provisional IRA remains in formal contact with the Independent International Commission on Decommissioning.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what plans he has to introduce legislation requiring full transparency in the decommissioning process. [155577]

**Jane Kennedy:** There are no plans to introduce legislation requiring full transparency. The scheme and Regulations allow for confidentiality at the request of those participating. Any loss of confidentiality would make it less likely that acts of decommissioning would take place.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the total amount of arms and ammunition so far decommissioned is under the supervision of the International Independent Decommissioning Commission. [155578]

**Jane Kennedy:** To date there have been four acts of decommissioning.

In 1998 the LVF carried out an act of decommissioning and the items were listed. PIRA has carried out three acts of decommissioning—2001, 2002 and 2003. The IICD made an inventory of the arms concerned, which will be provided to the two governments when its task is completed.

The Prime Minister has stated clearly that all arms must be put beyond use through the IICD.

### Demography

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what the latest rate of population change is in Northern Ireland. [154847]

**Mr. Pearson:** Between mid-year 2001 and mid-year 2002 the estimated population of Northern Ireland increased by 0.43 per cent., from 1,689,300 to 1,696,600 people. This rate of population increase is in line with longer-term trends; on average over the decade from 1992 to 2002 the estimated population increased by 0.44 per cent. annually.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of future population trends in Northern Ireland; and how he expects public services in Northern Ireland to adapt to these trends. [155201]

**Mr. Pearson:** In line with the rest of the United Kingdom, the Government Actuary's Department published population projections for Northern Ireland on 18 December 2003. The population of Northern Ireland is projected to increase overall by 5 per cent. from a base of 1.697 million in 2002 to 1.788 million in 2017. Within this figure, the number of children aged under 16 is projected to decrease by 12 per cent., the population aged 16–64 is projected to increase by 6 per cent., and the population aged 65 and over is projected to increase by 32 per cent.

Northern Ireland's demographic trends are a key factor determining policy development and resource allocation. Although demographic changes have implications for all departments those most affected are the Department of Education and the Department of Health, Social Services and Public Safety.

The Department of Education takes into account future population trends when deciding how many teachers will be needed. Similarly, population trends are recognised by the Department of Health, Social Services and Public Safety when drawing up Health and Social Care in Northern Ireland: a statistical profile and will inform the Regional Health Strategy currently in development.

### Dental Health

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what steps he is taking to ensure socially disadvantaged young people are receiving appropriate dental care. [154597]

**Angela Smith:** Children living in the greatest deprivation have four times more tooth decay than the most affluent. My Department's Investing for Health Strategy sets a target to increase the levels of 5-year-old children with no dental decay to 55 per cent. and to reduce the gap between the best and worse decayed/missing/filled scores by 20 per cent. by 2010.

My Department's policy is to prevent oral disease. In the absence of fluoridation of water supplies, Health and Social Services Boards are taking forward and monitoring other methods of oral disease prevention. These include the provision of toothbrushes and toothpaste to young children in socially deprived areas, schemes to encourage registration from birth with a dentist and sealing permanent teeth with a protective resin to prevent decay. There are also schemes to promote the use of sugar free medicines and offer dietary advice to young mothers.

### Depression

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will estimate the *(a)* financial cost of treating depression in Northern Ireland and *(b)* the cost to the economy in terms of lost working hours in 2003. [154573]

**Angela Smith:** The information requested is not available.

### Disabled People (Workplace Participation)

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many projects in Northern Ireland received funding to promote participation by disabled people in the workplace in each year since 1997. [154157]

**Jane Kennedy:** From the information available the number of projects that received funding from Northern Ireland Government Departments to promote participation by disabled people in the workplace in each year since 1997 is contained in the following table.

| *Year* | *Number of Projects* |
|---|---|
| 1997–98 | 62 |
| 1998–99 | 67 |
| 1999–2000 | 71 |
| 2000–01 | 68 |
| 2001–02 | 42 |
| 2002–03 | 58 |
| 2003–04 | 50 |

The answer contains information on projects that provide a range of workplace participation including paid employment (full-time and part-time), voluntary work and work placements. The answer does not take account of disabled people working in Government Departments.

### Disabled Parking

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland how many orange disabled parking badges have been issued in each of the last five years in Northern Ireland. [154844]

**Mr. Spellar:** I have asked the Chief Executive of Roads Service to write to the hon. Gentleman in response to this question. A copy of the letter will be placed in the Library.

### Economic Growth

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what the latest level of economic growth is in Northern Ireland. [154837]

**Mr. Pearson:** Figures for headline gross value added (GVA) provided by National Statistics estimate Northern Ireland growth of 3.8 per cent. in 2001.

Employment information is often used as a proxy for economic growth as more up to date figures are available. In September 2003, there were an estimated 669,470 (seasonally adjusted) employee jobs in Northern Ireland. This represents an increase of 0.8 per cent. since September 2002 (compared with a UK decline of 0.01 per cent.) and an increase of 8.4 per cent. (51,790 people) over five years, almost twice as fast as the UK average growth rate of 4.3 per cent.

### Football

**Kate Hoey:** To ask the Secretary of State for Northern Ireland when the money from the Soccer Strategy will be made available to the Irish Football Association. [154736]

**Angela Smith:** Money for the Soccer Strategy can be released to the Irish Football Association once the department is satisfied that the necessary Governance and Accountability arrangements have been agreed.

**Kate Hoey:** To ask the Secretary of State for Northern Ireland when he last met the Irish Football Association; and when he next plans to do so. [154737]

**Angela Smith:** There are on-going meetings with the Irish Football Association (IFA) at official level within the Department of Culture, Arts and Leisure on a number of issues. The last of these took place on 12 February 2004. In addition, a DCAL working level group, which includes the Sports Council and IFA officials, meets to agree the details for taking forward the Soccer Strategy initiative. This group last met on 7 November 2003. The group will meet again in the very near future. I have also indicated my willingness to meet with the IFA after that meeting.

**Kate Hoey:** To ask the Secretary of State for Northern Ireland what plans he has to help improve Windsor Park. [154738]

**Angela Smith:** The future of Windsor Park is primarily a matter for the owners, Linfield Football Club, and the Irish Football Association, who use Windsor Park for Northern Ireland's home international fixtures under an agreement with Linfield FC. Both are considering their future facility needs as are the other main spectator sports and to assist them I have asked the Strategic Investment Board to commission the preparation of a business plan which will test the viability of the concept of a new purpose built multi-sport stadium. Discussions on Windsor Park must await the outcome of this work.

**Kate Hoey:** To ask the Secretary of State for Northern Ireland what plans he has to help pay for floodlight improvements at Windsor Park. [154739]

**Angela Smith:** Windsor Park is owned by Linfield Football Club and is used by the Irish Football Association as the venue for Northern Ireland's home international fixtures. To date I have not had any specific requests for funding for floodlighting improvements at Windsor Park. Any proposals for such improvements should first be discussed with the Sports Council, which has responsibility for the development of sport in Northern Ireland including the distribution of funds.

### Higher Education

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what plans he has to offer additional financial support to Northern Irish higher education students to take into account the costs of travelling to universities in Great Britain. [154841]

**Jane Kennedy:** The student loan, which is available to Northern Irish students attending higher education institutions in the United Kingdom and the Republic of Ireland, is intended to meet students' living costs such as accommodation, food and travel. Northern Ireland students who study at institutions in Great Britain or the Republic of Ireland, or at institutions in Northern Ireland which are not within reasonable travelling distance of the parental home are currently able to access a higher rate of student loan than those students living in the parental home.

The Department has no plans to offer additional financial support to Northern Irish higher education students travelling to universities in Great Britain.

**Mr. Beggs:** To ask the Secretary of State for Northern Ireland what recent meetings he has held with *(a)* the Secretary of State for Education and *(b)* representatives from universities to discuss the implications of the Higher Education Bill for Northern Ireland's universities and students; and if he will make a statement. [154127]

**Jane Kennedy:** While the Higher Education Bill, does not, in the main apply to Northern Ireland, it has significant implications in view of the strong links between the HE Sectors and the level of student flows between Northern Ireland and Great Britain.

Since the publication of the White Paper, I have had discussions with the Secretary of State for Education on the potential implications of the proposals in the Bill for Northern Ireland, and I am fully aware of the respective views of the two universities.

It is my intention to bring forward proposals soon for the way forward in Northern Ireland, taking into account discussions with local stakeholders, including the universities and the student representative body the NUS/USI, and advice from the Northern Ireland Higher Education Council (NIHEC).

### Home Economics

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what representations he has received from home economics teachers about the proposal to teach this subject as a non-examinable component of the curriculum at Key Stage Three; and if he will make a statement. [155492]

**Jane Kennedy:** As part of the consultation process on the review of the curriculum, the Council for the Curriculum, Examinations and Assessment received representations from Home Economics teachers as to the form that provision for this subject should take. The Council's proposals would make aspects of Home Economics a statutory entitlement for all pupils in Key Stage 3. I am currently considering the Council's proposals for the Key Stage 3 curriculum as a whole. No decisions have yet been taken.

### Inward Investment

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland how much inward investment Northern Ireland has attracted since the start of the peace process. [154838]

**Mr. Pearson:** Since the signing of the Good Friday Agreement Northern Ireland has attracted £242 million of New Inward Investment. In addition, during the same period expansions by externally owned companies totalled £936 million.

### Learning Disabilities

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what progress has been made in improving education opportunities for those aged 16 to 19 years who have moderate learning disabilities. [154572]

**Jane Kennedy:** Through its Careers Service and enhanced funding for the Further Education sector, the Department for Employment and Learning provides a range of support services aimed at improving the provision for all students with learning difficulties and/or disabilities.

In addition, an Inter Departmental Working Group is examining the transition of all young people with statements of special educational needs to adult life. The group consists of representatives from the Departments of Education, Employment and Learning, and Health, Social Services and Public Safety. The group has consulted widely and plans to produce an Action Plan in Spring 2004.

### Maghaberry Prison

**David Burnside:** To ask the Secretary of State for Northern Ireland whether the prison authorities at Her Majesty's Prison, Maghaberry, negotiate with the leaders of the *(a)* Provisional IRA, *(b)* UDA and *(c)* UVF on conditions within the prison. [154804]

**Jane Kennedy:** The prison authorities do not negotiate with paramilitary leaders on conditions within the prison. It is important that control of the prison regime remains with the prison authorities.

**David Burnside:** To ask the Secretary of State for Northern Ireland what the cost was of damage by prisoners to prison property and equipment in each of the last 12 months at Her Majesty's Prison, Maghaberry. [154866]

**Jane Kennedy:** The cost of damage by prisoners to prison property and equipment in each of the last 12 months at Her Majesty's Prison, Maghaberry was as follows:

| *Month* | *Total (£)* |
|---|---|
| February 2003 | 951 |
| March | 5,644 |
| April | 4,217 |
| May | 204 |
| June | 1,516 |
| July | 15,889 |
| August | 41,987 |
| September | 6,906 |
| October | 32,944 |
| November | 15,481 |
| December | 18,791 |
| January 2004 | [1]115,580 |

[1] A disturbance occurred in Bann House on 14 January 2004 resulting in damage estimated at £100,000. Repair work has commenced but invoices for the actual cost of repairs have not yet been received.

**David Burnside:** To ask the Secretary of State for Northern Ireland how many prisoner officers, and what percentage of total staff, have been on sick leave in each of the last 12 months at Her Majesty's Prison, Maghaberry. [154869]

**Jane Kennedy:** The information requested is in the following table.

| *Month* | *Number of staff absent sick* | *Staff in post* | *Percentage of staff in post absent sick* |
|---|---|---|---|
| February 2003 | 113 | 842 | 13.42 |
| March 2003 | 97 | 842 | 11.52 |
| April 2003 | 91 | 841 | 10.82 |
| May 2003 | 92 | 837 | 10.99 |
| June 2003 | 90 | 836 | 10.77 |
| July 2003 | 101 | 831 | 12.16 |
| August 2003 | 115 | 828 | 13.89 |
| September 2003 | 100 | 829 | 12.06 |
| October 2003 | 99 | 825 | 12.00 |
| November 2003 | 97 | 823 | 11.79 |
| December 2003 | 102 | 821 | 12.42 |
| January 2004 | 87 | 820 | 10.61 |

### Manufacturing Industry

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what his policy is on removing rate relief on manufacturing industries. [153831]

**Mr. Pearson:** The policy rationale for retaining industrial derating in Northern Ireland no longer exists. This view is supported by leading business and economic commentators and by the outcomes of various studies and an extensive consultation exercise in 2002. An assessment of the impact of removal on manufacturers concluded that any increase in costs would be limited and the impact significantly reduced by phasing it out in the manner announced in April 2003.

The phase out period will begin on 1 April 2005 and end on 1 April 2011. This means that manufacturers will have been given eight years to adjust and plan for paying full rates which is longer than the timeframe proposed by the former DFP and DETI Assembly Committees. They will have to pay only 15 per cent. of their full rates liability in 2005–06. This percentage will rise but on a very gradual basis over the next six years. This is a sensible, modernising reform measure that will bring Northern Ireland into line with the rest of the UK. There are other more effective ways of supporting businesses than retaining a blanket exemption for which there is no supporting rationale. Proposals for a hardship rate relief scheme for all businesses are being examined and will be published after consultation with Councils and business organisations.

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland how much revenue he estimates will be generated by the removal of rate relief on manufacturing industries. [153832]

**Mr. Pearson:** The estimated long-term yield from the rating of the manufacturing sector is around £55 million per year. This allows for possible valuation reductions as a result of appeals and is based on around 5,100 properties currently in the Valuation List becoming liable to full rates in 2011. Applying the 15 per cent. rate liability applicable in the first year (2005–06), the yield in that year is expected to be around £8 million. This additional revenue will be invested through the Reinvestment and Reform Initiative (RRI) to help fund a significant programme of major infrastructure projects in Northern Ireland over the next five years. Projects contained within the Strategic Investment Programme and totalling some £2.7 billion in value have already been announced. Investment in our public service infrastructure is essential for sustained economic growth and development. This scale of planned investment will significantly enhance Northern Ireland's prospects for long-term economic prosperity and future business success. The retention of industrial derating will not achieve these outcomes.

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what steps are being taken by the Department of Enterprise, Trade and Industry and its agencies to ensure Northern Ireland's manufacturing industries are not disadvantaged by the enlargement of the European Union, with particular reference to the accession of low-wage economies in Eastern Europe. [153839]

**Mr. Pearson:** Invest NI is working with companies in the manufacturing and internationally-traded services sectors to help them increase their competitiveness in home and international markets. Early results of research commissioned into the impact of EU enlargement on the NI economy, indicate that the overall impact is likely to be relatively limited. They also suggest that enlargement will offer opportunities, particularly for sectors with the greatest prospects for high value-added growth.

Around 60 Northern Ireland companies are already doing business valued at approximately £100 million in the Accession States. Invest NI has been active in organising a number of trade-related activities, targeted at certain Accession States.

### Northern Ireland Assembly Members

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what the ratio of Northern Ireland population to Northern Ireland Assembly members is. [154859]

**Mr. Pearson:** There are 108 elected members of the Northern Ireland Assembly and the estimated population of Northern Ireland at mid-year 2002 is 1,696,600 people. This gives a ratio of one Assembly member per 15,710 population.

### Nurses

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland whether there is a maximum age for nurses within the NHS in Northern Ireland; and if he will make a statement. [155428]

**Angela Smith:** There is no compulsory retirement age for nurses, although local employers may have their own policy regarding retirement age.

The Nursing and Midwifery Council (NMC) does not place upper age limits in relation to fitness to practice and registration.

The NMC is currently consulting on a proposal that as from 1 April 2004 it will require registrants to make a declaration in relation to good health and good character as part of their application for renewal of the periodic three year renewal of registration.

### Nursing Vacancies

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many *(a)* hospital and *(b)* community nursing vacancies there are within North and West Belfast Health and Social Services Trust. [155805]

**Angela Smith:** The information requested is in the following table.

*Number of hospital and community nursing vacancies (including long-term vacancies) within North and West Belfast HSS Trust as at 30 September 2003*

| *Headcount* | *WTE*[1] |
|---|---|
| *Hospital nursing vacancies* | |
| 0 | 0.00 |
| *Community nursing vacancies* | |
| 9 | 8.43 |

[1] Whole Time Equivalent

*Number of long-term (vacant more than three months) hospital and community nursing vacancies within North and West Belfast HSS Trust as at 30 September 2003*

| *Headcount* | *WTE*[1] |
|---|---|
| *Hospital nursing vacancies* | |
| 0 | 0.00 |
| *Community nursing vacancies* | |
| 3 | 2.04 |

[1] Whole Time Equivalent

### Obesity

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what estimate he has made of the cost

to the NHS of treating obesity in Northern Ireland for each of the last five years; and if he will make a statement. [155419]

**Angela Smith:** By extrapolating from figures in a National Audit Office report relating to England and Wales, it has been estimated that obesity may cost the HPSS £15 million-£20 million a year.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what action is being taken to combat increases in obesity; and if he will make a statement. [155420]

**Angela Smith:** Action to tackle obesity is being taken forward through programmes to promote a healthy diet such as the "Fresh Fruit in Schools" initiative and also through a range of initiatives to promote physical activity, including the "Get a life, get active" campaign.

Revised strategies and action plans on food and nutrition and physical activity are currently being developed by inter-sectoral working groups. Both documents will be issued for consultation later in the year. In addition, a task force to address the specific issue of childhood obesity is being established under the auspices of the Ministerial Group on Public Health, which I chair.

### Orthopaedic Surgeons

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what plans he has to introduce a protected elective centre devoted solely to orthopaedic surgery. [154596]

**Angela Smith:** Musgrave Park Hospital, which is part of Green Park Health and Social Services Trust, serves as a protected elective centre for orthopaedic surgery and has recently been expanded by the building of two new modular theatres.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many consultant orthopaedic surgeons there are in the Province; and for how many weekly NHS sessions each is employed. [154598]

**Angela Smith:** Number of consultant orthopaedic surgeons employed in the Province as at 31 December 2003 and the number of weekly NHS sessions they are employed for.

| *HSS Trust* | *Count* | *WTE* | *Number of weekly NHS sessions employed for* |
|---|---|---|---|
| Altnagelvin Group HSS Trust | 6 | 5.91 | 5 work 11 NHS sessions per week<br>1 works 10 NHS sessions per week |
| Greenpark Healthcare HSS Trust | 17 | 15.15 | 1 works 8.5 NHS sessions per week<br>7 work 10 NHS sessions per week<br>8 work 11 NHS sessions per week<br>1 works as and when required |
| Royal Group of Hosp. HSS Trust | [1]Not available | 8.09 | Total of 89 NHS sessions worked by consultants per week[2] |
| Ulster Comm. and Hosp. HSS Trust | 6 | 4.64 | 1 works 2 NHS sessions per week<br>1 works 2.5 NHS sessions per week<br>1 works 3 NHS sessions per week<br>1 works 4 NHS sessions per week<br>2 work 5 NHS sessions per week |
| Total | Not available | 33.79 | Total of 342 NHS sessions worked per week by consultant orthopaedic surgeons |

[1] Headcount figure for number of consultant orthopaedic consultants working in Royal Group of Hosp. HSS Trust was not available.
[2] It was not possible to breakdown the number of NHS sessions worked by consultant orthopaedic consultants in Royal Group of Hosp. HSS Trust.

### Osteoporosis

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what steps he is taking to increase the availability of the osteoporosis drug Evista in Northern Ireland; and if he will make a statement on the treatment of osteoporosis in Northern Ireland. [155202]

**Angela Smith:** Evista (generic name Raloxifene) is one of a number of interventions used to prevent and treat osteoporosis. Raloxifene is available to patients on health service prescription in Northern Ireland.

The choice of any intervention in the treatment of osteoporosis is a clinical one taken in consultation with the patient and based upon the best evidence available. Key factors include the nature and stage of disease progression, the risk and benefits of treatment, the patient age and underlying co-morbidities.

Clinical Resource Efficiency Support Team (CREST) Guidelines on the Prevention and Treatment of Osteoporosis were issued to Health Service professionals in Northern Ireland in 2001. The guidelines identify evidence-based strategies for the prevention and treatment of osteoporosis, including population approaches to promote smoking avoidance, regular exercise and an adequate diet including calcium and Vitamin D. In addition, the guidelines promote selective case finding approaches to the identification and treatment of those at risk of osteoporosis as well as those with established disease.

### Pension Credit

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many pensioner households in Northern Ireland are in receipt of pension credit; and what steps he is taking to increase take-up. [155200]

**Mr. Spellar:** There are currently 82,000 households receiving pension credit. Between April 2003 and October 2004 the Social Security Agency will have written to every pensioner household where they are not already receiving pension credit to advise them about the new pension credit.

To maximise the benefit take-up, there is also a publicity campaign in local and national newspapers and also on television. In addition to this the Social

Security Agency has also appointed a Pension Adviser to each of its office areas to actively promote the take up of pension credit and other benefits.

**Mr. Beggs:** To ask the Secretary of State for Northern Ireland pursuant to the answer of 2 February 2004, *Official Report*, column 720W, on pension credit, by what date he expects the current backlog of pension credit applications to be cleared; and how long he estimates it will take to process a new application for a pension credit. [155628]

**Mr. Spellar:** A recovery plan is being put in place and the situation is being addressed as a matter of urgency. Clearing the backlogs and improving the unsatisfactory standards of service to pensioners is the Social Security Agency's top priority.

It is estimated that it will take on average of 50 days to process a new application for pension credit.

### Personal Details

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many *(a)* prison officers, *(b)* police officers, *(c)* political representatives and *(d)* others have been informed since October 2002 that their personal details were held by the Provisional IRA. [151219]

**Jane Kennedy:** Records researched by PSNI would indicate that since October 2002 some 2,841 persons have been informed that their details may be in the possession of the Provisional IRA. The breakdown is as follows:

(a) Prison officers: 1,427

(b) Police officers: 84

(c) Political representatives: 40

(d) Other: 1,340

Please note that notification is handled at regional level and therefore these figures may be subject to slight adjustment.

### Police Service

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland how many Catholics have joined the Police Service of Northern Ireland since its creation. [154848]

**Jane Kennedy:** I am advised that as at 1 February of this year, 544 Catholics had been appointed to the Police Service of Northern Ireland as recruits since its creation.

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland how many successful applicants to join the Police Service of Northern Ireland are awaiting training. [154849]

**Jane Kennedy:** The Police Service of Northern Ireland is currently in the process of appointing candidates from its fifth recruitment campaign, which was launched in March 2003. Thirty nine candidates have been appointed and have commenced training. There are currently 861 qualified candidates from the fifth competition, although some applicants are still in the process of going through security vetting and this number may increase.

Up to around 270 recruits would be appointed in a six month period.

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland how many applications were received for recruitment to the Police Service of Northern Ireland in each of the recruitment campaigns held in 2003. [155503]

**Jane Kennedy:** I am advised that competition 5, which was launched in March 2003, attracted 6,044 applications; competition 6, which was launched in September 2003, attracted 5,419 applications.

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland how many applications were received from *(a)* Protestants, *(b)* Roman Catholics and *(c)* others in each recruitment campaign for the Police Service of Northern Ireland in 2003. [155504]

**Jane Kennedy:** Of the 6,044 applications received for competition 5, launched in March 2003, 3,747 were of a perceived Protestant background, 2,194 were of a perceived Catholic background and 103 were not determined.

Of the 5,419 applications received for competition 6, launched in September 2003, 3,406 were of a perceived Protestant background, 1,909 were of a perceived Catholic background and 104 were not determined.

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland how many *(a)* Protestants, *(b)* Roman Catholics and *(c)* others were successful in entering the merit pool for each of the campaigns for recruitment to the Police Service of Northern Ireland in 2003; and how many applicants in each category were subsequently offered a place on the training course following completion of each recruitment campaign. [155505]

**Jane Kennedy:** 1,096 qualified candidates formed the pool for competition 5. Of this number, 778 were of a perceived Protestant background, 307 were of perceived Catholic background and 11 were not determined.

Appointments from competition 5 started in January 2004. So far, 83 qualified candidates have been appointed as police trainees. 45 of these appointments were of perceived Protestant background, 38 were of perceived Catholic background and none were classified as not determined.

The pool of qualified candidates for competition 6 will not be formed until April.

**David Burnside:** To ask the Secretary of State for Northern Ireland what the total cost to date is of implementing the Patten Report on policing in Northern Ireland. [154867]

**Jane Kennedy:** It is not possible to provide the precise total cost to date of implementing the Patten Report on policing in Northern Ireland. The costs associated with the police early retirement/severance scheme and implementation of specific projects related to some of the individual recommendations from 1 April 2000 to December 2003 amount to some £197 million. Moreover there would have been other costs, which cannot be exactly identified, incurred by PSNI from its grant in support of the implementation of Patten.

**David Burnside:** To ask the Secretary of State for Northern Ireland how many officers of the full-time police reserve have been *(a)* killed and *(b)* injured (i) on duty and (ii) off duty in each year since its formation. [154868]

**Jane Kennedy:** The information requested is not available in the format requested. The following tables set out the statistic available.

*Full-time reserve officers who were killed or died on duty*

| | Reason | | | | |
|---|---|---|---|---|---|
| | *Death accident gun shot* | *Death by terrorist* | *Death non-terrorist* | *Death traffic accident* | *Grand total* |
| 1975 | 0 | 2 | 0 | 0 | 2 |
| 1976 | 0 | 3 | 0 | 0 | 3 |
| 1977 | 0 | 2 | 0 | 0 | 2 |
| 1978 | 0 | 1 | 0 | 0 | 1 |
| 1979 | 0 | 1 | 0 | 0 | 1 |
| 1981 | 0 | 2 | 0 | 0 | 2 |
| 1982 | 0 | 2 | 0 | 0 | 2 |
| 1983 | 0 | 5 | 0 | 0 | 5 |

| 2003 | 0 | 0 | 0 | 0 | 1 | 1 |

*Note:*
If a year is not listed it is because no officer was killed or died in that particular year

*Full-time reserve officers injured on duty*

| | *Number injured on duty* |
|---|---|
| 1986 | 3 |
| 1987 | 3 |
| 1988 | 11 |
| 1989 | 7 |
| 1990 | 76 |
| 1991 | 361 |
| 1992 | 401 |
| 1993 | 426 |
| 1994 | 344 |
| 1995 | 474 |
| 1996 | 509 |
| 1997 | 529 |
| 1998 | 570 |
| 1999 | 616 |
| 2000 | 609 |
| 2001 | 640 |
| 2002 | 455 |
| 2003 | 221 |
| Total | 6,255 |

It should be noted that records were computerised in the late 1980's and the PSNI can only stand over the figures from 1991.

### Post-primary Education

**Mr. Beggs:** To ask the Secretary of State for Northern Ireland what *(a)* data and *(b)* methodology were used to produce the statistical tables which appear in the Costello Report. [154125]

**Jane Kennedy:** The information in the statistical tables in the Costello Report was drawn from a variety of sources including the Northern Ireland Statistics and Research Agency, the Department of Education, the Council for the Curriculum Examinations and Assessment, and the Programme for International Student Assessment (OECD).

### Provisional IRA/Sinn Fein

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland pursuant to his answer of 8 January 2004, *Official Report*, column 470W, in what ways the Provisional IRA and Sinn Fein are inextricably linked; and on what evidence he judges that they are so linked. [154664]

**Jane Kennedy:** As I made clear to the hon. Member for South Antrim (David Burnside), the Government do not comment on intelligence matters.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Northern Ireland what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155525]

**Mr. Pearson:** Information on expenditure by NIO is not readily available and could be obtained only at disproportionate cost.

Expenditure by the Recruitment Service on advertising vacant posts in the Northern Ireland Civil Service is as follows:

| | *£ million* |
|---|---|
| 2001 | 0.5 |
| 2002 | 0.5 |
| 2003 | 0.5 |

Information broken down by publication is not held but most recruitment advertising is placed in the Belfast Telegraph, News Letter and Irish News.

### Regeneration

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what action is being taken to regenerate under-populated residential areas. [154846]

**Mr. Spellar:** There a number of policies, both specific and general, designed to help regenerate under populated residential areas.

The Northern Ireland Housing Executive actively seeks to revitalise areas that have experienced population loss and which may also suffer from unfit or vacant housing stock by the use of statutory powers to designate Redevelopment Areas and Urban Regeneration Areas, together with programmes of Renovation Grant activity. The NI Housing Executive is also currently engaged in developing a range of strategies and programmes which seek to facilitate regeneration and sustainable communities such as:

Empty Homes Strategy.

The Rural Strategy.

Estate Renewal, Neighbourhood Renewal and Community Development Strategies.

Living over the shop and town centre living.

Arterial Routes Studies.

Additionally, the Regional Development Strategy for Northern Ireland has the objective of creating sustainable communities and regenerating urban areas. It requires that 60 per cent. of future new build housing be sited within the existing urban footprint. The NI Housing Executive contributes to the Policy Planning Strategy 12 document in respect of Housing Need Assessments that are to be completed as part of each Development Plan. These highlight the housing needs required to achieve sustainable and affordable housing within settlements across Northern Ireland.

In addition, while not specifically targeting under-populated areas, the Department for Social Development's tools for regeneration clearly impact on such areas, and in particular, Northern Ireland's most disadvantaged communities. The Department's wide range of strategies and programmes such as the Urban Development Programme, Urban Development Grant, Environmental Improvement Schemes, and the recently launched Neighbourhood Renewal Strategy, aim to revitalise areas of slower growth, promote social cohesion, and help build more socially, economically and environmentally sustainable neighbourhoods.

### Regional Rates

**Mr. Gregory Campbell:** To ask the Secretary of State for Northern Ireland what the percentage increases to the regional rate in Northern Ireland were in each of the past five years. [153844]

**Mr. Pearson:** The percentage increases to the regional rate in Northern Ireland for the past five years is as follows.

*Percentage*

| | *Non-domestic* | *Domestic* |
|---|---|---|
| 1998–99 | 3.2 | 5.9 |
| 1999–2000 | 5.5 | 8 |
| 2000–01 | 4.6 | 8 |
| 2001–02 | 3.3 | 7 |
| 2002–03 | 3.3 | 7 |

### Royal Belfast Hospital for Sick Children

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many operations were performed at the Royal Belfast Hospital for Sick Children by surgeons from *(a)* the Republic of Ireland and *(b)* Great Britain in each of the last five years. [155421]

**Angela Smith:** This information could be provided only at disproportionate cost.

### Sports Funding

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how much funding has been provided from *(a)* central Government funds, *(b)* European funds and *(c)* other public funds to (i) football, (ii) rugby, (iii) hockey, (iv) cricket and (v) Gaelic games in Northern Ireland in each financial year since 2000–01. [154154]

**Angela Smith:** Funding provided from *(a)* central Government funds, *(b)* European funds and *(c)* other public funds to (i) football, (ii) rugby, (iii) hockey, (iv) cricket and (v) Gaelic games in each financial year from 2000–01 is as follows:

*(a) Central Government Funds*

£

| | *2000–01* | *2001–02* | *2002–03* | *Total* |
|---|---|---|---|---|
| Football | 1,264,009 | [1]951,803 | [1]981,188 | 3,197,000 |
| Rugby | 152,843 | 157,551 | 92,536 | 402,930 |
| Hockey | 27,464 | 61,225 | 54,902 | 143,591 |
| Cricket | 20,000 | 22,000 | 26,330 | 68,330 |
| Gaelic games | 652,085 | 381,333 | 557,676 | 1,591,094 |
| Totals | 2,116,401 | 1,573,912 | 1,712,632 | 5,402,945 |

[1] These figures include £100,000 and £500,000 allocated to Soccer from the Football Development Centre Programme for 2001–02 and 2002–03.

*(b) European Funds*

The following table provides information on European Funds administrated by DFP and DARD to football, rugby, hockey, cricket and Gaelic games for each financial year from 2000–01.

£

| | *2000–01* | *2001–02* | *2002–03* | *Total* |
|---|---|---|---|---|
| Football | 915 | 0 | 10,800 | 11,715 |
| Rugby | 0 | 939 | 0 | 939 |
| Hockey | 0 | 0 | 0 | — |
| Cricket | 4,067 | 0 | 0 | 4,067 |
| Gaelic games | 18,557 | 1,885 | 5,594 | 26,036 |
| Totals | 23,539 | 2,824 | 16,394 | 42,757 |

DFP has also provided European funding (Peace II) to numerous sports which include, football, rugby, hockey, cricket and Gaelic games. This funding was for projects that included more than one of the above sports, the details are as follows.

| | Numerous sports (£) |
|---|---|
| 2000–01 | 0 |
| 2001–02 | 0 |
| 2002–03 | 3,906 |
| Total | 3,906 |

*(c) Other Public Funds*

The following table details the amount of Sports Lottery funding that has been allocated to football, rugby, hockey, cricket and Gaelic games for financial years 2000–01, 2001–02 and 2002–03 by the Sports Council for Northern Ireland.

£

| | 2000–01 | 2001–02 | 2002–03 | Total |
|---|---|---|---|---|
| Football | 942,492 | 642,710 | 609,131 | 2,194,333 |
| Rugby | 312,053 | 144,000 | 76,860 | 532,913 |
| Hockey | 47,625 | 199,850 | 68,800 | 316,275 |
| Cricket | 282,500 | 57,202 | 16,000 | 355,702 |
| Gaelic games | 1,694,182 | 1,025,420 | 689,962 | 3,409,564 |
| Totals | 3,278,852 | 2,069,182 | 1,460,753 | 6,808,787 |

## Special Educational Needs

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland how many children are registered as having special needs in Northern Ireland. [154845]

**Angela Smith:** The information requested is not available.

## Waiting Lists/Times

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland when a patient referred on 9 February by his or her family doctor can expect to have *(a)* an initial out-patient assessment and *(b)* routine elective surgery in orthopaedics. [154588]

**Angela Smith:** This information is not available in the form requested.

It should be noted, that over 80 per cent. of in-patients for trauma and orthopaedics and 90 per cent. of out-patients are seen in less than 12 months.

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland how many patients have been waiting for *(a)* less than six months, *(b)* six to 12 months, *(c)* one to two years, *(d)* two to three years and *(e)* more than three years to have an (i) in-patient admission and (ii) initial out-patient assessment in orthopaedic surgery. [154589]

**Angela Smith:** Waiting list statistics are submitted to the Department at specialty level. The information in this answer relates to people waiting in the trauma and orthopaedics specialty at 30 September 2003 (the most recent information available). Waiting list statistics are collected in three-month time bands for all patients waiting up to 24 months. Patients waiting 24 months or more are grouped together within one category therefore patients waiting two to three years and more than three years cannot be separately identified.

| | Number awaiting in-patient admission | Number awaiting initial out-patient assessment |
|---|---|---|
| <6 months | 2,748 | 8,871 |
| 6–12 months | 1,780 | 3,750 |
| 1–2 Years | 1,121 | 3,646 |
| 2+ years | 604 | 3,352 |

*Source:*
CH1 and CH3

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what steps he is taking to tackle waiting lists in orthopaedic surgery; and if he will make a statement. [154599]

**Angela Smith:** A number of initiatives are being taken to reduce the length of time people are waiting for orthopaedic surgery. These include:

Increasing the number of trainees in this specialty.

A review of acute trauma services, which is underway at present. This review is expected to make recommendations for improvements in the delivery of trauma services and will provide strategic direction in the future development of the orthopaedic/fracture service.

The building of two new modular theatres for Musgrave Park Hospital. This has increased theatre capacity, which will improve fracture services, stabilise and reduce waiting lists and facilitate the mix of elective, trauma and out-patient work of consultant orthopaedic surgeons.

The appointment earlier this year at Green Park Health and Social Services Trust of a waiting list manager and the establishment of a centralised waiting list team.

The increase in waiting times in recent years reflects a general rise in demand on the orthopaedic service and there is a considerable commitment and determination to deal with it.

## Wayleave Compensation

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what Government policy is in relation to wayleave compensation payable to landowners affected by measures to facilitate the provision of public services; and what recent changes there have been relating to payments for wayleaves. [154579]

**Mr. Pearson:** The primary legislation governing compensation for the acquisition of pipeline wayleaves in Northern Ireland is The Water and Sewerage Services (Northern Ireland) Order 1973. The rules for assessing any compensation payable under this Order are contained in the Land Compensation (Northern Ireland) Order 1982. The principal thrust of this legislation and the associated case law decisions has been to ensure that compensation is based on the actual loss in every case.

The legal basis of compensation has therefore not changed but each individual case must be looked at on its merits with the aim of establishing what the actual loss is.

The Valuation and Lands Agency (VLA) act on behalf of Water Service in the assessment of wayleave compensation. In most cases the compensation amount is agreed between VLA and the landowner or his agent. If agreement is not possible the landowner then has the option of referring the matter to the Lands Tribunal for Northern Ireland.

## EDUCATION AND SKILLS

### CAFCASS

**John Mann:** To ask the Secretary of State for Education and Skills what measures are undertaken by the Children and Family Court Advisory and Support Service to ensure that full medical and psychiatric reports of a parent who is not a UK citizen are examined when making their report. [152401]

**Margaret Hodge:** CAFCASS officers are able to make inquiries of health and psychiatric services if it is deemed necessary to take such information into account to ensure the best interests of the child are met when preparing their reports.

If the circumstances require, CAFCASS officers are able to seek a direction from the Court to request relevant information. They are also able to contact International Social Service, or the relevant consulate to obtain necessary documents from abroad.

**John Mann:** To ask the Secretary of State for Education and Skills what procedures are followed by the Children and Family Court Advisory and Support Service in cases where one parent is a non-UK resident. [154080]

**Margaret Hodge:** The role of CAFCASS is professionally and impartially to inquire into individual cases, in order to assist the court in reaching decisions that are in the best interests of the children who are the subject of court proceedings.

The same procedures are followed by CAFCASS in cases where one parent may be a non-UK resident. In addition to collecting and assessing documentation for each case, CAFCASS officers are able to contact International Social Service, or the appropriate consulate, to obtain relevant documentary information from abroad.

### Adoption and Children Act

**Dr. Tonge:** To ask the Secretary of State for Education and Skills when he expects to implement the provisions of the Adoption and Children Act 2002; and if he will publish a timetable for implementation. [148913]

**Margaret Hodge:** The Government have already implemented the following key provisions of the Adoption and Children Act 2002 (the Act):

1 June 2003: restrictions on adoptions from overseas;

31 October 2003: adoption support for adoptive families; and

1 December 2003: parental responsibility for unmarried fathers who jointly register the birth of their child with the mother.

The first phase of the independent review mechanism, which will cover prospective adopters whose adoption agency is minded not to approve them, will become operational on 30 April 2004.

We expect the provisions on Independent Reviewing Officers to come into force in September 2004.

Consultation documents have been published on provisions in the Act regarding advocacy services for children and young people; the review of children's cases; arranging adoptions and assessing prospective adopters; and adoption reports and adoptions with a foreign element. Copies are available in the Library. The Government will be consulting on the remaining provisions over the next few months.

The regulations, court rules and guidance required to implement the core of the Act should be in place by the end of 2004. After a period for preparation and training, we expect the legislation to come into force in September 2005.

The provisions on domestic violence and the definition of harm are being considered separately and the Government will make an announcement on these provisions in due course.

### Adult Learning

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills (1) how many courses for adult learning have been made available in each year since 1997; [154232]

(2) how many courses are provided for adult learning in 2003–04 in the whole of England and Wales. [154233]

**Mr. Ivan Lewis:** Information on the number of courses made available for adult learning is not held centrally. What is held centrally, is information on the number of adults actually participating in further and adult education courses. Figures for *(a)* the number of adults aged 19 and over participating in LSC funded further education in sector colleges and external institutions and *(b)* the number of enrolments on adult education courses offered by local education authorities (LEAs), are set out separately as follows. Data on the number of learners participating in 2003/04 are not yet available.

*Adult learners (in thousands) on FE provision funded by the LSC in colleges and external institutions in England: 1997/98 to 2002/03*

| | *Adult learners* |
|---|---|
| 1997/98 | 2,774.6 |
| 1998/99 | 2,669.5 |
| 1999/2000 | 2,611.6 |
| 2000/01 | 2,777.4 |
| 2001/02 | 3,220.8 |
| 2002/03 | 3,234.9 |

*Source:*
LSC Statistical First Release ILR/SFR02

*Enrolments by learners aged 19 and over (in thousands) on adult education courses offered by LEAs at 1 November 1997 to 2002*

| *1 November* | *Enrolments* |
|---|---|
| 1997 | 1,014.7 |
| 1998 | 1,055.9 |
| 1999 | 1,007.2 |
| 2000[1] | 983.8 |
| 2001[2] | 1,015.4 |
| 2002 | 993.2 |

[1] Revised estimate: enrolments were over reported by some LEAs in this year

[2] Revised estimate: enrolments were inaccurately reported by some LEAs in this year, overall there was a net under-reporting

*Source:*
Local education authorities

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how much funding will be made available for adult learning in further education colleges for 2003/04. [154235]

**Alan Johnson:** The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). In the 2003/04 academic year the LSC's planned allocation for adult learning in further education colleges is £1.923 billion. This figure includes planned funding for Additional Learner Support.

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how many adults have been trained at local colleges in each year since 1997. [154236]

**Mr. Ivan Lewis:** The numbers of Learning and Skills Council (formerly Further Education Funding Council) funded adult learners (aged 19 and over) enrolled in further education sector colleges in each year since 1997/98 are shown in the following table.

*Adult learners (in thousands) on FE provision funded by the Council in colleges in England: 1997/98 to 2002/03*

| | *Learners* |
|---|---|
| 1997/98 | 2,480.1 |
| 1998/99 | 2,383.4 |
| 1999/2000 | 2,316.1 |
| 2000/01 | 2,441.8 |
| 2001/02 | 2,832.7 |
| 2002/03 | 2,844.5 |

*Source:*
LSC Statistical First Release ILR/SFR02

### Adult Learning Grant

**Stephen Hesford:** To ask the Secretary of State for Education and Skills how many adults are entitled to adult learning grant; and what steps his Department is taking to promote take-up. [154560]

**Mr. Ivan Lewis:** We estimate that some 6,000 adults may be eligible for the grant in the 10 pilot areas. So far there have been over 2,600 applications.

We are working with the Learning and Skills Council, Further Education colleges, and advice and guidance agencies in the 10 pilots to promote this new grant. At this stage, the main focus is on promoting the grant to new learners who started courses during January 2004 and to existing learners who may be eligible but have not applied.

### Arts and Humanities Research Council

**Chris Grayling:** To ask the Secretary of State for Education and Skills what the subject remit of the Arts and Humanities Research Council will be. [152634]

**Mr. Charles Clarke:** The Arts and Humanities Research Council (AHRC) will cover the same broad range of areas of the arts and humanities as currently covered by the Arts and Humanities Research Board.

### Asylum Seekers (Education)

**Chris Grayling:** To ask the Secretary of State for Education and Skills what estimate he has made of the number of places in *(a)* further and *(b)* higher education provided to (i) asylum seekers and (ii) their children in the last year for which figures were available. [143647]

**Alan Johnson:** The Learning and Skills Council (LSC) estimate that about 41,000 asylum seekers participated in LSC funded further education in 2001/02. It is not possible to identify how many learners were children of asylum seekers.

Data collected by the Higher Education Statistics Agency (HESA) covering students on higher education courses does not separately identify asylum seekers.

### Basic Skills Training

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how much funding will be made available for basic skills training for adults in each year from 2003 to 2006. [154974]

**Mr. Ivan Lewis:** Spending Review 2002 ensured that we are able to continue to support the Skills for Life strategy to enable 1.5 million adults to improve their literacy and numeracy skills by 2007. Over £1.6 billion has been made available to deliver the Skills for Life strategy for the three years to 2005–06 across Government Departments.

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how many adults he plans should participate in basic skills training in each year from 2003 to 2006; and what the figures were for each year from 1997 to 2003. [154975]

**Mr. Ivan Lewis:** The following table shows the number of adults participating in basic education in the Further Education sector from 1997 to 2001.

| | *Learners (Thousand)* |
|---|---|
| 1997–98 | 158 |
| 1998–99 | 182 |
| 1999–2000 | 270 |

The number of learners participating each year in Skills for Life programmes since the launch of the strategy in April 2001 are shown in the following table.

| | *Learners (Thousand)* |
|---|---|
| 2000–01 | 449 |
| 2001–02 | 655 |
| 2002–03[1] | 664 |

[1] Includes an estimated component due to incomplete enrolment data.

We expect this level of participation to continue enabling us to meet our targets of improving the skills of 750,000 adults by 2004 and 1.5 million adults by 2007.

### Benefit Fraud

**Mr. Webb:** To ask the Secretary of State for Education and Skills how many staff in his Department have been *(a)* investigated, *(b)* suspended, *(c)* dismissed, *(d)* prosecuted and *(e)* convicted for involvement in benefit fraud in each of the last six years; and what amounts were involved in each case. [153207]

**Mr. Charles Clarke:** One member of staff from my Department (formerly The Department for Education and Employment) was investigated and suspended for allegedly claiming benefit while working during this

period. Following an investigation the Department was satisfied that there was no benefit fraud involved. We do not have records of the amounts involved.

No staff were dismissed, prosecuted, or convicted for involvement in benefit fraud in each of the last six years.

### Child Deaths

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many cases of parents gaoled for shaking their babies to death are to be reviewed in the light of the Angela Cannings appeal judgement. [152133]

**The Solicitor-General:** I have been asked to reply.

Since the release of Angela Cannings by the Court of Appeal and its published judgment, the Attorney General has instigated a number of measures. A total of 258 convictions over the last 10 years for the murder, manslaughter or infanticide of a child under two by its parent have been identified. Of those, a total of 72 relate to persons still serving a custodial sentence. These will be accorded the utmost priority. Currently, some 365 boxes of evidence relating to 52 high priority cases have been recovered from central storage and dispatched to CPS areas for them to conduct an initial review. The remaining high priority cases are being recovered from the areas themselves.

Once the review becomes fully under way, the offences comprising the 258 convictions and the issue at trial will become clearer. Once that stage has been reached and more information is known on these cases it will be possible for me to write further to you with additional information.

### Child Removals

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many children have been removed from their parents following a younger sibling's death, without evidence that one of the parents was responsible beyond reasonable doubt for the death of the first child, in the past 10 years. [152028]

**Margaret Hodge:** The information requested is not held centrally.

### Children's Fund

**Norman Lamb:** To ask the Secretary of State for Education and Skills when his Department will confirm final allocation of funds for 2004–05 in respect of the Children's Fund. [153464]

**Margaret Hodge:** I expect to announce the Children's Fund allocations for 2004–05 shortly.

### Children's Social Services

**David Taylor:** To ask the Secretary of State for Education and Skills what recent discussions he has had about the provision of children's social services in England. [152939]

**Margaret Hodge:** As the Minister for Children, Young People and Families I meet regularly with a range of people to discuss the provision of children's social services in England.

### Connexions

**Charles Hendry:** To ask the Secretary of State for Education and Skills what proportion of time Connexions personal advisers have spent with young people from each socio-economic class, broken down by Connexions partnership. [154780]

**Margaret Hodge:** Information about the proportion of time Connexions personal advisers spend with young people from each socio-economic class is not collected by Connexions Partnerships.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what examinations and assessments of existing services for young people were carried out in each region before Connexions partnerships were established; and what the nature of such assessments was. [154784]

**Margaret Hodge:** All Connexions partnerships were subject to a rigorous assessment process before "going live" to ensure they were ready to provide a high quality service. As part of developing their business plans, partnerships were expected to undertake a local needs assessment to draw out the key needs of young people, the extent to which existing provision met those needs, and to identify gaps in services.

The Connexions Service National Unit provided a mapping tool to assist this process. Partnerships also drew upon local mapping information collected for other purposes.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what the budget allocation is for each Connexions partnership for 2004–05. [154785]

**Margaret Hodge:** The budget allocation for each Connexions Partnership for 2004–05 is as follows:

£

| *Connexions partnership* | *2004–05 allocation* |
|---|---|
| *South East* | |
| M. Keynes, Oxfordshire and Bucks | 10,595,357 |
| Berkshire | 6,669,629 |
| Surrey | 8,110,651 |
| Kent and Medway | 13,144,292 |
| Sussex | 11,229,894 |
| South Central | 14,247,867 |
| *London* | |
| West London | 12,661,008 |
| Central London | 15,338,641 |
| North London | 10,026,144 |
| East London | 22,055,084 |
| South London | 10,574,964 |
| *East of England* | |
| Norfolk | 6,508,049 |
| Cambridgeshire and Peterborough | 5,981,683 |
| Suffolk | 5,408,558 |
| Bedfordshire and Luton | 5,070,064 |
| Hertfordshire | 7,913,832 |
| Essex, Southend and Thurrock | 12,848,412 |
| *South West* | |
| Gloucestershire | 4,512,252 |
| Wiltshire and Swindon | 4,979,619 |
| West of England | 8,089,632 |
| Somerset | 3,951,306 |
| Bournemouth, Dorset and Poole | 5,060,675 |
| Cornwall and Devon | 12,513,950 |

£

| Connexions partnership | 2004–05 allocation |
|---|---|
| *West Midlands* | |
| Shropshire, Telford and Wrekin | 3,841,302 |
| Staffordshire | 9,236,197 |
| Black Country | 11,473,924 |
| Birmingham and Solihull | 13,045,649 |
| Coventry and Warwickshire | 7,199,993 |
| Hereford and Worcester | 5,652,538 |
| *East Midlands* | |
| Derbyshire | 8,009,441 |
| Nottinghamshire | 9,644,783 |
| Lincolnshire and Rutland | 5,413,738 |
| Leicestershire | 8,351,533 |
| Northamptonshire | 5,759,611 |
| *Yorks and the Humber* | |
| York and North Yorks | 5,392,793 |
| West Yorkshire | 20,546,411 |
| Humber | 8,689,130 |
| South Yorkshire | 12,385,536 |
| *North West* | |
| Cumbria | 4,281,199 |
| Lancashire | 12,712,765 |
| Greater Manchester | 26,256,913 |
| Greater Merseyside | 17,411,643 |
| Cheshire and Warrington | 6,850,581 |
| *North East* | |
| Northumberland | 3,011,745 |
| Tyne and Wear | 11,667,484 |
| County Durham | 4,829,615 |
| Tees Valley | 7,143,913 |
| Total England | 446,300,000 |

**Charles Hendry:** To ask the Secretary of State for Education and Skills what research has been carried out into the proportion of young people who are aware of the Connexions service in each partnership area, broken down by *(a)* ethnicity, *(b)* age and *(c)* gender. [154786]

**Margaret Hodge:** Information on the awareness of young people of the Connexions service has been obtained from two recent Department for Education and Skills research studies.

In 2002, the Youth Cohort Study found that 51 per cent. of young people were aware of a Connexions service in their area. Of those, slightly more females said they were aware of a Connexions Service in this area (53 per cent. compared to 50 per cent. of males). Just over one-third of non-white respondents claimed awareness (36 per cent.) compared with 53 per cent. of white respondents.

In 2003, a customer satisfaction survey of 16,000 young people found that awareness of Connexions was generally high. 92 per cent. of both male and female respondents contacted said they had heard of the service. For minority ethnic groups, awareness levels were 88 per cent. compared with 93 per cent. for white respondents. Young people aged 16–17 had the highest levels of awareness (94 per cent.), followed by 13 to 15-year-olds (92 per cent.) with those over 18 (89 per cent.) being the least aware of the service.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what qualifications and training Connexions' personal advisers are expected to have on *(a)* working with young offenders and *(b)* health matters; and what proportion are trained to this level within each area partnership. [154787]

**Margaret Hodge:** Detailed information on specific qualifications held by PAs working with young offenders and with individuals who have health concerns is not collected.

Connexions Personal Advisers are drawn from a broad range of professional backgrounds including youth justice, social work, probation, youth work and career guidance. To be fully qualified Connexions Service personal advisers are required to have an NVQ level 4 or equivalent in a relevant professional discipline and have undertaken Connexions specific training.

Connexions Personal Advisers are not expected to be experts in all areas but are trained to broker and refer to specialists where appropriate.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what proportion of Connexions' personal advisers within each area partnership have *(a)* a Qualification in Careers Guidance, *(b)* NVQ Level 4 in Advice and Guidance, including specified units and *(c)* a Diploma in Careers Guidance. [154788]

**Margaret Hodge:** My department does not collect data on the proportion of specific specialist qualifications held by Connexions personal advisers.

In our guidance to Partnerships we require that any Personal adviser responsible for providing young people with in-depth career guidance must hold a Qualification in Career Guidance, NVQ4 in Advice and Guidance (including specified units) or the Diploma in Careers Guidance. Connexions Partnerships are responsible for ensuring that this requirement is met.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what proportion of Connexions personal advisers within each area partnership are qualified to give guidance on all advisory services. [154789]

**Margaret Hodge:** To be fully qualified, Connexions PAs are required to have a NVQ level 4 or equivalent in a relevant professional discipline and have undertaken Connexions specific training in delivering a wide range of support services to young people. Connexions training equips personal advisers to recognise the boundaries of their existing professional competence and refer to specialist services where necessary.

We do not collect information in the form requested. However, we expect that by April 2005 all Connexions personal advisers will have completed Connexions specific training.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what safeguards exist to ensure that young people are given in-depth advice only by properly qualified Connexions personal advisers. [154790]

**Margaret Hodge:** The safeguards are through training and supervision. Connexions personal advisers are either qualified to NVQ level 4 or equivalent in a relevant professional discipline or they are actively working to a level 4 qualification. They are also required

to complete or be actively working towards Connexions specific training which equips them to recognise the boundaries of their own professional competence.

All Connexions Service Partnerships have in place professional supervision arrangements.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how the quality of advice given by Connexions personal advisers is monitored. [154791]

**Margaret Hodge:** The quality of advice given by Connexions personal advisers is monitored on three levels:

1. It is a condition of grant that every Connexions partnership has effective procedures in place to evaluate the professional practice of personal advisers and takes appropriate steps to improve individual performance. Partnerships are also required to have robust professional supervision arrangements in place for all personal advisers.

2. Connexions partnerships undertake a comprehensive annual self-assessment of their performance which is based on the document "Connexions Partnerships: A Framework for Inspection—April 2002". One of the key criteria addressed is the overall quality of advice given by personal advisers. Areas for improvement are identified and addressed by improvement actions in the following year's business plan. Currently progress against these improvement actions is monitored on a quarterly basis by the Government Office.

3. The independent element of scrutiny of personal advisers' practice is provided by the Office for Standards in Education (Ofsted) over a four-yearly cycle. Ofsted make judgements about the partnership, using the seven key questions within the Ofsted inspection framework. Within this framework Key Question 4 assesses the effectiveness of Connexions practice, assessment, support, teaching and guidance and contains a specific quality statement that addresses the quality of impartial information, advice and guidance provided to young people by personal advisers. Following the report of Ofsted's findings, partnerships are required to address any issues arising from the inspection in an action plan. Progress against this action plan is again monitored by the Government Office.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how *(a)* parents' and *(b)* clients' complaints against the service provided by Connexions are dealt with. [154792]

**Margaret Hodge:** Connexions partnerships are required to put in place a complaints procedure, which is the primary mechanism for all complaints from parents and clients. Should complaints not be resolved at that stage, the local Government office and Connexions teams within DfES investigate and provide support both to the public and partnerships to continually improve the level of service Connexions provides to clients and their families.

Partnerships are required to have strategies to ensure young people are involved in the design, delivery, evaluation and continuous improvement of the service. This, in part, ensures the number of complaints is reduced. They must respond positively to any complaints made by young people and are required to publish a Youth Charter explaining what Connexions is and offers; its standards of service; and how to complain.

**Charles Hendry:** To ask the Secretary of State for Education and Skills by what criteria Ofsted assess the performance of a Connexions partnership. [154794]

**Margaret Hodge:** This is a matter for Ofsted. HM Chief Inspector, David Bell, will write to the hon. Member and place a copy of his letter in the Library.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what proportion of Connexions personal advisers within each area partnership has undergone Criminal Records Bureau checks. [154795]

**Margaret Hodge:** Although Connexions Partnerships provide us with the numbers of personal advisers they have recruited, they are not required to provide data on the numbers who have been subject to List 99 and Criminal Records Bureau checks. To do so would serve no purpose as it is a legal requirement for employers to ensure that personal advisers have been subjected to completed List 99 checks before they can come into direct contact with young people. We also require Partnerships to ensure a Criminal Records Bureau check is completed for all Connexions staff working with young people.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how much time has been spent by Connexions personal advisers upon each advisory service. [154796]

**Margaret Hodge:** It is not possible to provide the information requested. Connexions advisers offer a broad range of advice on many issues. We do not ask them to account for their time by category of advice.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what steps are being taken to ensure that Connexions works effectively with the voluntary sector. [154797]

**Margaret Hodge:** In October 2002, we published our first strategy for engaging the Voluntary and Community Sector [VCS] in Connexions. We have made considerable progress since then in working with the VCS:

Connexions Partnerships awarded more than £10 million in grants and contracts to the VCS in 2002–03.

There has been an increase in the number of personal advisers based within, or coming from, the VCS. Recent figures show that around 13 per cent. of Connexions personal advisers came from the VCS.

Nearly every partnership board and local management committee now has VCS representation.

Most partnerships have at least one full-time VCS co-ordinator or development worker.

A working group, composed of representatives from the VCS, has been working with the Connexions Service National Unit advising on operational issues as they affect the sector, and sharing good practice.

An updated strategy, "Involving the Voluntary and Community Sector in Connexions: Strategy and Guidance 2004–05" will be published later this month. This document was developed jointly with the VCS and is endorsed by the National Council for Voluntary Youth Services.

From April 2004, Connexions Partnerships will also be required to work with local VCS partners and other organisations to develop a clear and systematic local strategy for the involvement of the VCS in service design, planning, delivery and evaluation.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what assistance is provided to voluntary organisations by Connexions in *(a)* ensuring staff undergo Criminal Records Bureau checks, *(b)* applying for funding and *(c)* ensuring they fulfil requirements. [154798]

**Margaret Hodge:** Connexions Partnerships are required to ensure enhanced Criminal Records Bureau checks are completed for all staff they recruit, including those who are employed through a subcontractor or voluntary agency. Connexions Service Partnerships are encouraged to provide assistance to voluntary organisations when they apply for funding and are committed to keeping procedures simple. Partnerships are able to provide grant funding and in-kind support to voluntary organisations who might otherwise be able to engage with Connexions.

It is the responsibility of contractors—including voluntary organisations—to ensure they fulfil contractual requirements, which partnerships monitor to ensure compliance.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what the total cost of the Connexions Card scheme has been. [154799]

**Margaret Hodge:** My Department has so far spent £35,884,000 on the Connexions Card scheme.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how many young people have Connexions cards within each partnership area. [154800]

**Margaret Hodge:** The number of young people who have a Connexions Card in each Connexions Partnership area is as follows:

| *Connexions Partnership* | *Number of young people who have a Connexions Card* |
|---|---|
| Bedfordshire and Luton | 8,502 |
| Berkshire | 6,981 |
| Birmingham and Solihull | 4,075 |
| Black Country | 8,213 |
| Bournemouth, Dorset and Poole | 3,816 |
| Cambridgeshire and Peterborough | 6,318 |
| Central London | 6,084 |
| Cheshire and Warrington | 4,507 |
| Cornwall and Devon | 18,267 |
| County Durham | 6,740 |
| Coventry and Warwickshire | 7,877 |
| Cumbria | 3,771 |
| Derbyshire | 4,194 |
| East London | 19,156 |
| Essex, Southend and Thurrock | 14,304 |
| Gloucestershire | 2,255 |
| Greater Manchester | 19,619 |
| Greater Merseyside | 14,938 |
| Herefordshire and Worcestershire | 1,434 |
| Hertfordshire | 8,235 |
| Humber | 16,653 |
| Kent and Medway | 19,560 |
| Lancashire | 4,294 |
| Leicestershire | 11,887 |
| Lincolnshire and Rutland | 6,986 |
| Milton Keynes, Oxfordshire and Buckinghamshire | 6,938 |
| Norfolk | 6,198 |
| North London | 14,506 |
| Northamptonshire | 8,421 |
| Northumberland | 4,138 |
| Nottinghamshire | 10,455 |
| Shropshire, Telford and Wrekin | 3,015 |
| Somerset | 1,562 |
| South Central | 10,109 |
| South London | 11,533 |
| South Yorkshire | 7,127 |
| Staffordshire | 6,142 |
| Suffolk | 2,905 |
| Surrey | 10,759 |
| Sussex | 8,277 |
| Swindon and Wiltshire | 5,429 |
| Tees Valley | 20,052 |
| Tyne and Wear | 18,897 |
| West London | 8,396 |
| West of England | 8,738 |
| West Yorkshire | 11,857 |
| York and North Yorkshire | 3,721 |
| Total | 417,841 |

**Charles Hendry:** To ask the Secretary of State for Education and Skills how many young people used Connexions Direct, on average, in each of the last six months broken down by *(a)* age and *(b)* ethnic origin. [154801]

**Margaret Hodge:** In the past six months (August 2003 to January 2004) Connexions Direct advisers handled an average of 16,000 contacts per month. In addition there were 70,000 visits per month to the Connexions Direct website.

Many young people choose to remain anonymous when they contact Connexions Direct. Of those that chose to provide information, around 14 per cent. were aged 13 to 14, 39 per cent. 15 to 16 and 38 per cent. 17 to 19. Of those remaining around 1 per cent. were under 13 and the remainder were over 19. Information about ethnic origin is not available as reports over the past six months show no disclosure from young people.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how complaints from *(a)* parents and *(b)* young people about Connexions Direct are dealt with. [154802]

**Margaret Hodge:** All complaints from parents and young people are logged and investigated. If the complaint is during a call or webchat, the Connexions Direct duty manager will take over and deal with it immediately.

In the past six months 15 complaints and 68 praise calls have been logged.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how much money has been spent on the *(a)* purchase and *(b)* rental of buildings by each Connexions area partnership in each year since its establishment. [154803]

**Margaret Hodge:** The information requested is provided in the following table.

| | | Spend (£s) | | | |
|---|---|---|---|---|---|
| | | 2001–2002 | | 2002–2003 | |
| *Partnership* | *Start date* | *Purchase of buildings* | *Rental of buildings* | *Purchase of buildings* | *Rental of buildings* |
| Bedfordshire and Luton | September 2002 | | | 0 | 0 |
| Cambridgeshire and Peterborough | April 2002 | | | 0 | 257,825 |
| Essex Southend and Thurrock | September 2002 | | | 0 | 0 |
| Hertfordshire[1] | April 2002 | | | 0 | 0 |
| Norfolk[1] | January 2003 | | | 18,000 | 0 |
| Suffolk[1] | September 2001 | 0 | 0 | 0 | 0 |

| York and North Yorkshire | September 2002 | | | 8,647 | 0 |

[1] These are Lead Body Partnerships for which we have separate accounting arrangements that do not require details of rental expenditure
[2] Accounts are not submitted yet

*Note:*
A zero indicates that a Partnership did not incur any expenditure on buildings (e.g. because it took over existing premises). The absence of any figure for 2001–02 means that the Partnership did not start until 2002–03

*Source:*
Partnerships' Annual Statutory Accounts

**Charles Hendry:** To ask the Secretary of State for Education and Skills what qualifications are required of Connexions personal advisers who give drugs counselling to clients. [154805]

**Margaret Hodge** *[holding answer 12 February 2004]:* To be fully qualified Connexions Service personal advisers are required to have an NVQ level 4 or equivalent in a relevant professional discipline and have undertaken Connexions specific training in delivering and brokering a wide range of support for young people. This includes information on drugs and alcohol issues. Connexions training equips advisers to recognise the boundaries of their existing professional competence and to refer to specialist services when necessary. In 2003–04, £1 million has been made available to Connexions Service Partnerships to provide additional training to personal advisers on drugs related issues.

**Charles Hendry:** To ask the Secretary of State for Education and Skills how much funding has been distributed to voluntary organisations through the Connexions service in each year since its establishment. [154806]

**Margaret Hodge** *[holding answer 12 February 2004]:* Connexions Partnerships make both grant awards and contract payments to voluntary organisations. In

2001–02 these totalled £2.2 million, in 2002–03 £10.1 million and in the first six months of 2003–04 (the latest data available) £4.3 million.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what the average salary of a Connexions personal adviser is in *(a)* each area partnership and *(b)* England. [154807]

**Margaret Hodge** *[holding answer 12 February 2004]*: My Department does not keep any data on the average salaries of Connexions personal advisers. Under their financial memorandum, partnerships are able to set their own salary rates taking account of qualification levels and local labour market factors.

### Contact and Residence Disputes

**Tim Loughton:** To ask the Secretary of State for Education and Skills (1) what assessment he has made of whether a legal presumption of contact as a principle to the consideration of contact and residence disputes would generally be in the best interests of the child; [152997]

(2) what assessment he has made of whether a legal presumption of contact would contradict the best interest principle of the Children Act 1989. [152998]

**Margaret Hodge:** I refer the hon. Gentleman to the answer I gave on 5 January 2004, *Official Report*, column 67W. The Government support the view that, in general, children benefit from a continuing relationship with both parents following parental separation, where it is in the best interests of the child and safe for all family members. The fundamental principle of the Children Act 1989 is that

> "the child's welfare shall be the court's paramount consideration".

There is no automatic "right" to contact for either fathers or mothers, but in practice the courts have taken the view that, in most cases, the child's welfare is best served by contact with both parents.

### Education Funding

**Mr. Dorrell:** To ask the Secretary of State for Education and Skills what the total *(a)* schools funding spending share, *(b)* school pupil numbers and *(c)* schools funding spending share per pupil was in (i) Leicestershire, (ii) Leicester City, (iii) Lincolnshire, (iv) Nottinghamshire, (v) Derbyshire and (vi) Northamptonshire for (A) 2003–04 and (B) 2004–05. [155400]

**Mr. Miliband:** The figures requested are shown in the following table. The Schools Formula Spending Share (SFSS) formula comprises a basic entitlement for each pupil, which is the same across the country, plus a top-up for each pupil with additional educational needs, which is again the same across the country, plus top-ups for areas where it costs more to recruit and retain teachers and for areas which are sparsely populated. Local education authorities with a greater proportion of pupils with additional educational needs or higher average earnings or with significant sparsity will receive a higher level of funding per pupil.

| | *SFSS (£ millions)* | *3 to 15 pupil numbers used in SFSS calculation* | *SFSS per pupil (£)* |
|---|---|---|---|
| *2004–05* | | | |
| Leicestershire | 261.260 | 94,914 | 2,753 |
| Leicester City | 154.136 | 46,910 | 3,286 |
| Lincolnshire | 290.926 | 100,708 | 2,889 |
| Nottinghamshire | 332.137 | 115,506 | 2,875 |
| Derbyshire | 322.361 | 113,154 | 2,849 |
| Northamptonshire | 298.063 | 102,153 | 2,918 |
| *2003–04* | | | |
| Leicestershire | 246.965 | 94,898 | 2,602 |
| Leicester City | 145.959 | 47,196 | 3,093 |
| Lincolnshire | 271.211 | 99,652 | 2,722 |
| Nottinghamshire | 314.974 | 116,298 | 2,708 |
| Derbyshire | 302.640 | 113,297 | 2,671 |
| Northamptonshire | 282.783 | 102,576 | 2,757 |

### Educational Achievement

**Mrs. Iris Robinson:** To ask the Secretary of State for Education and Skills what percentage of pupils left school with no qualifications in each of the last five years. [155424]

**Mr. Miliband:** The information requested is as follows:

| *Academic year* | *Percentage of 15 year old pupils with no GCSE/GNVQ passes* |
|---|---|
| 1999 | 6.0 |
| 2000 | 5.6 |
| 2001 | 5.5 |
| 2002 | 5.4 |
| 2003 | 5.2 |

### Environmental Education

**Mrs. Helen Clark:** To ask the Secretary of State for Education and Skills what changes will be made to the sources of funding for environmental education in schools when the landfill tax credit scheme is amended. [154460]

**Mr. Miliband:** I refer my hon. Friend to the answer I gave to the hon. Member for Guildford (Sue Doughty) on 29 January 2004, *Official Report*, columns 525–26W.

### Further Education

**Simon Hughes:** To ask the Secretary of State for Education and Skills how many new *(a)* sixth forms, *(b)* sixth form centres and *(c)* sixth form colleges have opened in each London borough under the London Challenge Planning since May 2003. [153092]

**Mr. Stephen Twigg:** Since May 2003, the following new provision for 16–19 year olds has opened:

*(a) Sixth forms:*

Brent: Capital City Academy (11–18 Academy), replacing Willesden High School (11–18 school).

Ealing: West London Academy (11–18 Academy), replacing Compton High School and Sports College (11–18 school).

Lambeth: new sixth form at Dunraven School.

Lambeth: new sixth form at St. Martin in the Fields High School.

Southwark: The Academy at Peckham (11–18 Academy), replacing Warwick Park (11–16 school).

*(b) Sixth form centres:*

Ealing: new sixth form centre as part of Ealing, Hammersmith and West London College in Southall.

Islington: new sixth form centre as part of City and Islington College at the Angel.

Southwark: new sixth form academy as part of Southwark College at Waterloo.

*(c) Sixth form colleges:*

No sixth form colleges have opened since May 2003.

### Golden Hellos

**Geraldine Smith:** To ask the Secretary of State for Education and Skills what plans he has to introduce golden hellos that write off tuition fees for graduates taking up public service careers in areas where there are shortages of personnel. [154108]

**Alan Johnson** *[holding answer 12 February 2004]:* I stated in the House on 27 January that I was commissioning a report to examine the gateways into the professions. On 12 February I was pleased to inform the House that Sir Alan Langlands, Vice Chancellor of the University of Dundee has agreed to lead this work.

The report will examine how the public sector and the professions can sustain and improve recruitment opportunities for graduates, especially those who do not qualify for the full £3,000 support. Sir Alan will be reporting to us by mid-2005.

However, the Government is already spending in excess of £700 million to support the recruitment and retention of graduates into the public services, for example teachers, dentists and social workers. Part of Sir Alan's work will be to examine this current support and analyse its effectiveness. Additionally he will research current practice in the private sector with a view to determining how employers might respond in a variable fee environment.

### Holiday Prices

**Tim Loughton:** To ask the Secretary of State for Education and Skills if he will discuss with the travel industry the differential pricing of holidays out of school term time. [152073]

**Mr. Ivan Lewis:** My Department has an on-going relationship with the Association of British Travel Agents (ABTA), with whom we are in discussion on the issue of holiday pricing. ABTA advises that if parents book early, discounts may be made available for holidays out of term time. We also know that some local education authorities work in partnership with local tour operators to offer incentives to parents to take their children on holiday outside term time. Good practice on this issue is available at: www.dfes.gov/schoolattendance I am currently considering how this good practice could be implemented in all areas.

The Office of Fair Trading has the power to look into holiday pricing if there is evidence of anti-competitive behaviour. At present, they have no such evidence.

### Independent Schools

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many independent schools have applied for conversion to state schools since 1997; how many of these applications have been accepted; and what reasons have been given when applications have been declined. [154818]

**Mr. Miliband:** Since 1997, 22 independent schools have applied to become maintained schools; of these 19 have been approved. Where approval was not given the reasons included a lack of basic need; surplus places in the area; questions on the longer term education and financial viability of the proposed schools; and being dissatisfied about the school's ability to deliver the full range of the National Curriculum.

### Individual Learning Accounts

**Mr. Wilshire:** To ask the Secretary of State for Education and Skills what the average waiting time has been for claims for payment from the terminated individual learning accounts to be assessed and paid. [154339]

**Mr. Ivan Lewis:** Since the closure of the Individual Learning Account (ILA) programme on the 23 November 2001, due to serious potential fraud and abuse, the average waiting time for payment of ILA incentives, in cases where validation checks to confirm the propriety of payments from public funds are straightforward, is 20 days. The average waiting time for payment to learning providers in cases where validation checks have proved complex is some 17 months. This takes into account procedures for obtaining sufficiently robust evidence from both learning providers and learners to ensure the propriety of payments from the public purse and lengthy settlement negotiations.

Where registered learning providers have submitted a claim following the Ombudsman's Report into ILAs of 10 April 2003, the average waiting time for payment, including validation checks, is a little under 5 months.

**Mr. Wilshire:** To ask the Secretary of State for Education and Skills what steps he is taking to ensure that claims for payment to training providers are settled promptly from the terminated individual learning accounts. [154340]

**Mr. Ivan Lewis:** To ensure the propriety of payments and to protect public funds the Department requires registered learning providers to supply appropriate evidence to support all Individual Learning Account (ILA) claims. This evidence is subject to thorough validation checks before payments are made. Since closure of the ILA programme on 23 November 2001, due to serious potential fraud and abuse, to the end of January 2004 the Department's process for validating claims has resulted in £12.9 million being paid to 3,420 registered learning providers.

Where we have unresolved complaints or there are other on-going concerns, payments continue to be withheld pending the outcomes of inquiries and investigations. Currently, following closure, £14.8 million is withheld.

### Information Sharing

**Tim Loughton:** To ask the Secretary of State for Education and Skills how the new information referral and tracking system protocols and technical developments will interrelate with the wider e-Government programme; and how they will be integrated to ensure that local authorities are not unduly burdened. [155074]

**Margaret Hodge:** Any new systems will conform to the e-GIF (e-Government Interoperability Framework) and we are working with the Office of e-Envoy to ensure that those requirements are met.

We are consulting other Government Departments on potential links with their e-Government developments and also liaising with ODPM colleagues in regard to the local e-Government programme. Our proposals in this area would only be commenced subject to a proper assessment of impact on local authorities and their capacity to deliver.

**Tim Loughton:** To ask the Secretary of State for Education and Skills how much additional funds will be available to support the implementation of new information referral and tracking systems. [155075]

**Margaret Hodge:** Funding for the implementation of our proposals on information sharing systems will depend on the outcome of the 2004 spending review.

### Research Grants

**Chris Grayling:** To ask the Secretary of State for Education and Skills what his policy is on the regional dimension of future research grant allocation. [152639]

**Alan Johnson:** The Higher Education Funding Council for England (HEFCE) allocates research funding selectively to universities by a formula according to the quality and volume of their research activity. The funding formula has no explicit regional element. The Government's policy is to target available resources on the highest quality research wherever it exists to ensure our global competitiveness.

The report of the Lambert Review of Business-University Collaboration in December 2003 recommends that there should be a new stream of funding for business-led collaborative research, which should be delivered at a regional level through Regional Development Agencies. The Government expect to respond fully to the report this summer.

### Learning and Skills Councils

**John Mann:** To ask the Secretary of State for Education and Skills what criteria are set for dispute resolution within learning and skills councils. [154860]

**Alan Johnson:** This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the Library.

**John Mann:** To ask the Secretary of State for Education and Skills what criteria he uses in determining value for money from learning and skills councils; and what account he takes of value for money from councils when deciding upon re-appointment of council *(a)* directors and *(b)* board members. [154861]

**Alan Johnson:** The Learning and Skills Council Remit Letter, issued in November 2000, places a duty on the LSC to make the best use of its resources. It requires the Council to take account of the findings from individual provider and area inspection reports, and the assessments of the Inspectorates about whether the financial resources made available to providers are managed effectively and used in ways which provide value for money.

The appointment of directors to the LSC is an operational matter for the LSC. Over 600 local Council 'board' members bring a wealth of knowledge, skills and expertise to bear on the delivery of the skills agenda at the local level. They make this commitment on a voluntary basis (which clearly yields excellent value for money). Appointments of Council members is in line with the Nolan principles of fair and open competition and operated in accordance with the guidance issued by the Office of the Commissioner for Public Appointments. Reappointments are a matter for the LSC. Mark Haysom, the Council's Chief Executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the Library.

### Learning Disabilities

**Mr. Nigel Jones:** To ask the Secretary of State for Education and Skills if he will make a statement on education provision for *(a)* children and *(b)* adults with profound and multiple learning disabilities. [153785]

**Mr. Stephen Twigg:** The Education Act 1996 places duties on local education authorities (LEAs) and all LEA-maintained schools to identify, assess and make suitable provision to meet children's special educational needs (SEN), including the SEN of children with profound and multiple learning difficulties. In doing so, maintained schools and LEAs must have regard to the SEN Code of Practice, which gives practical guidance on identifying and meeting children's SEN, covering all areas of need—communication and interaction; cognition and learning; behaviour, emotional and social development and sensory and physical needs.

The Government's new SEN Strategy "Removing Barriers to Achievement", launched on 11 February, will build on the improvements to the statutory framework brought about by the Special Educational Needs and Disability Act and the SEN Code of Practice, both 2001. Children with Profound and Multiple Learning Disabilities will benefit particularly from the proposals in the Strategy to improve early support for children with special needs from birth, to improve multi-agency working throughout education and in the transition to adult life, and to transform special schools, giving them an important role to play in providing education for children with the most severe and complex needs and sharing their specialist skills and knowledge with mainstream schools to provide children with a range of inclusive experiences.

My Department has strengthened the rights of people with learning difficulties and/or disabilities (LDD), including those with profound and multiple learning

disabilities, to appropriate post-16 provision through a combination of legislative change and collaborative work with key organisations representing disabled learners. Under Section 13 of the Learning and Skills Act 2000, the Learning and Skills Council (LSC) has a specific responsibility to help young people and adults with LDD. Although the LSC does not develop policies relating to specific groups of learners, its broad remit means that it can fund a wide range of provision to ensure these learners have access to suitable provision which meets their needs and, where appropriate, the additional support they require to undertake it.

### Lifelong Learning

**Mr. Boswell:** To ask the Secretary of State for Education and Skills what assessment he has made of the paper from the National Institute for Adult and Continuing Education on the implementation of lifelong learning. [155691]

**Mr. Ivan Lewis:** I have only recently received the paper which NIACE is circulating to key partners in advance of the Government's forthcoming Spending Review. The Government will consider the submission during the Spending Review.

### Mathematics Degrees

**Mr. Willis:** To ask the Secretary of State for Education and Skills if he will list, for the most recent year for which information is available, the *(a)* first degree subjects studied and *(b)* first degree classifications achieved by those completing PGCEs in mathematics; and if he will make a statement. [154928]

**Mr. Miliband:** Information on the first-degree subjects studied by students on Postgraduate Certificate in Education (PGCE) courses is not collected centrally. However, all candidates training to teach secondary school pupils in England must, by law, demonstrate a knowledge and understanding of their subject at a standard equivalent to degree level before Qualified Teacher Status may be awarded.

Of those candidates who successfully completed PGCE courses in mathematics in 2001/02, the latest year for which data are available, and whose first-degree classification is known, 10 per cent. held First-class Honours; 31 per cent. Upper Second-class Honours; 37 per cent. Lower Second-class Honours; and 13 per cent. Third-class Honours. A further 8 per cent. held Ordinary degrees.

### Modern Apprenticeship (Sporting Excellence)

**Dr. Iddon:** To ask the Secretary of State for Education and Skills (1) if he will trial the modern apprenticeship in sporting excellence scheme before it is introduced to all relevant sporting organisations; [146458]

(2) how the more academically gifted young footballers' academic requirements will be taken into account when the modern apprenticeship in sporting excellence scheme is introduced; [146459]

(3) if he will delay the introduction of the modern apprenticeship in sporting excellence scheme until full consultation has been possible with all those involved; [146460]

(4) if he will allow sporting organisations more flexibility than provided for in the proposed modern apprenticeship in sporting excellence scheme to adapt the scheme to allow progression in careers other than sport. [146461]

**Mr. Ivan Lewis:** It was the intention to introduce the new Modern Apprenticeship in Sporting Excellence MA SE for football from August 2004. I have decided that the current football scholarship will be available for a further year while work to develop a Modern Apprenticeship framework appropriate for football is continued. We ensure that all relevant football interests are consulted about the design of the framework. The scholarship will then be phased out from 2005.

### Munchausen Syndrome by Proxy

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many fathers have been imprisoned in the last 30 years based on expert witness evidence of Munchausen syndrome by proxy. [152114]

**The Solicitor-General** *[holding answer 30 January 2004]:* I have been asked to reply.

Neither the prison service nor the Crown Prosecution Service keeps records of cases in accordance with the type of expert evidence given at trial.

Since the release of Angela Cannings by the Court of Appeal and its published judgment, the Attorney General has instigated a number of measures. Over the last 10 years, a total of 258 convictions over the last 10 years for the murder, manslaughter or infanticide of a child under two by its parent have been identified. Of those, a total of 72 relate to persons still serving a custodial sentence. These will be accorded the utmost priority. Currently, some 365 boxes of evidence relating to 52 high priority cases have been recovered from central storage and dispatched to CPS areas for them to conduct an initial review. The remaining high priority cases are being recovered from the areas themselves.

Once the review becomes fully underway, the offences comprising the 258 convictions and the issue at trial will become clearer. Once that stage has been reached and more information is known on these cases it may be possible for me to write further to you with additional information that you seek.

**Tim Loughton:** To ask the Secretary of State for Education and Skills when he received a letter from Jan Loxley-Blount warning of the occurrence of misdiagnosis of Munchausen syndrome by proxy and subsequent miscarriages of justice. [152029]

**Margaret Hodge:** The first correspondence from Jan Loxley-Blount that the Department for Education and Skills has on record is dated 17 May 2000.

**Tim Loughton:** To ask the Secretary of State for Education and Skills when the term Munchausen syndrome by proxy changed to fabricated or induced illness; and what the reasons for the change were. [152030]

**Margaret Hodge:** The consultation document: "Safeguarding Children in Whom Illness is Fabricated or Induced" issued in June 2001 addressed this issue at paragraph 1.4:

> "The use of terminology to describe the fabrication or induction of illness in a child has been the subject of considerable debate between professionals. These differences of opinion may result in a loss of focus on the welfare of the child. In order to keep the child's safety and welfare as the primary focus of all professional activity, this Guidance refers to the 'fabrication or induction of illness in a child by a carer' rather than using a particular term. If, as a result of a carer's behaviour, there is concern that the child is likely to suffer significant harm, this guidance should be followed. The key issue is not what term to use to describe this type of abuse, but the impact of fabricated or induced illness on the child's health and development, and consideration of how best to safeguard the child's welfare."

**Tim Loughton:** To ask the Secretary of State for Education and Skills (1) what measures he intends to put in place to reduce the numbers of parents wrongly accused of Munchausen syndrome by proxy; [152032]

(2) what measures he intends to put in place in social services to reduce the number of parents wrongly accused of Munchausen syndrome by proxy. [152132]

**Margaret Hodge:** The Government Guidance "Safeguarding Children in Whom Illness is Fabricated or Induced" was published in August 2002. It is supplementary guidance to "Working Together to Safeguard Children" (1999), the Government's interagency guidance on child protection. The Guidance sets out a clear process for all agencies to follow in relation to cases involving fabricated or induced illness in a child. It requires evidence-based decisions to be taken at each stage of the process by a multi-agency, multi professional team.

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many children have been removed from their parents since changes to social services guidance in 1998 which made reference to Munchausen syndrome by proxy. [152015]

**Margaret Hodge:** The Government did not issue any guidance to social services in 1998 in relation to Munchausen syndrome by proxy. In February 1998 it issued a consultation paper entitled "Working Together to Safeguard Children: New Government Proposals For Inter-Agency Co-operation". This document did not contain any reference to Munchausen syndrome by proxy. Following the consultation, "Working Together to Safeguard Children" was issued in 1999. Subsequently, supplementary guidance, "Safeguarding Children in Whom Illness is Fabricated or Induced", was issued in August 2002.

We do not hold information about the numbers of children looked after where they have had illness fabricated or induced. However, statistics from the Department of Health's statistics of Children Looked After by Local Authorities for the Year Ending 31 March 2002, about all children who started to be looked after in each year from 1998 to 2002, are as follows:

*Children who started to be looked after during the years ending 31 March 1998 to 2002 by legal status on starting[1]—England*

| | *Numbers* | | | | | *Percentages* | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| *Legal status* | *1998* | *1999* | *2000* | *2001* | *2002* | *1998* | *1999* | *2000* | *2001* | *2002* |
| *All children*[2] | 29,700 | 28,400 | 28,600 | 25,100 | 24,600 | 100 | 100 | 100 | 100 | 100 |
| Care order | 4,200 | 4,300 | 4,300 | 4,300 | 4,100 | 14 | 15 | 15 | 17 | 17 |
| Interim care order | 3,300 | 3,500 | 3,800 | 3,900 | 3,800 | 11 | 12 | 13 | 15 | 16 |
| Full care order | 910 | 880 | 510 | 450 | 270 | 3 | 3 | 2 | 2 | 1 |
| *Youth Justice legal statuses* | 1,600 | 1,400 | 1,300 | 840 | 720 | 5 | 5 | 5 | 3 | 3 |
| On remand or committed for trial | 1,400 | 1,200 | 1,200 | 760 | 680 | 5 | 4 | 4 | 3 | 3 |
| Detained under PACE[3] | 200 | 180 | 150 | 60 | 40 | 1 | 1 | 1 | 0 | 0 |
| Supervision order | 10 | 10 | 20 | 20 | 10 | 0 | 0 | 0 | 0 | 0 |
| *Detained for child protection* | 3,100 | 3,300 | 3,300 | 2,700 | 3,000 | 11 | 12 | 12 | 11 | 12 |
| Police protection | 1,500 | 1,500 | 1,600 | 1,500 | 1,600 | 5 | 5 | 6 | 6 | 7 |
| Emergency protection order | 1,600 | 1,800 | 1,700 | 1,300 | 1,400 | 6 | 6 | 6 | 5 | 6 |
| Under child assessment order | — | 10 | 0 | 10 | 20 | — | 0 | 0 | 0 | 0 |
| *Freed for adoption* | 80 | 110 | 20 | 20 | 20 | 0 | 0 | 0 | 0 | 0 |
| *Voluntary agreement under S20 CA 1989 (single placements)* | 20,500 | 19,100 | 19,500 | 17,200 | 16,700 | 69 | 67 | 68 | 68 | 68 |
| *Others legal status* | 140 | 160 | 70 | 0 | 0 | 0 | 1 | 0 | 0 | 0 |

[1] Only the first occasion on which a child started to be looked after in the year has been counted.
[2] Figures for children looked after in this table exclude agreed series of short-term placements.
[3] Children detained in local authority accommodation under section 38(6) of the Police and Criminal Evidence Act.

## Muslim School Children

**Mr. Hoban:** To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary schools have been assessed as having more than (i) 50, (ii) 75 and (iii) 90 per cent. of pupils who are classified as Muslim; and for how many of these schools this is a consequence of admissions criteria based on religious denomination. [154817]

**Mr. Stephen Twigg:** Information on the religion of pupils is not collected centrally.

In January 2003 there were 1,647 primary schools and 115 secondary schools reporting selective intake where the main criterion for offering a place was based on religion. This is equivalent to 9.2 per cent. of maintained primary schools and 3.3 per cent. of maintained secondary schools.

The religious character of two primary schools and two secondary schools was Muslim (as at January 2003).

### Post-16 Education

**John Mann:** To ask the Secretary of State for Education and Skills what discussions he has had with the Learning and Skills Council on engagement with industry in post-16 education. [154538]

**Alan Johnson:** As a member of the national Skills Alliance the Learning and Skills Council has a major part to play in securing the effective implementation of our Skills Strategy. The Strategy sets a new framework for tackling our long-standing skills gaps and meeting the needs of industry.

### Savings Schemes (Secondary Schools)

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills what savings account schemes operate in secondary schools; and what steps his Department is taking to encourage and support the development of such schemes. [154944]

**Mr. Miliband:** The Department does not hold information about savings account schemes operating in secondary schools and has no plans to support the development of such schemes.

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills what provisions there are in the national curriculum to provide education on the management of personal finances and savings to secondary school pupils. [154946]

**Mr. Miliband:** Personal finance education, which includes budgeting and saving, is provided in the curriculum through the framework of personal, social and health education. There is also provision for schools to teach financial management through other subjects such as mathematics.

Personal Finance Education Guidance for schools was produced by the Department in July 2000.

## EDUCATION

### School Construction

**Mr. Collins:** To ask the Secretary of State for Education and Skills if he will list the new schools to be built in *(a)* Bassetlaw, *(b)* Birmingham, Northfield, *(c)* Birmingham, Perry Barr, *(d)* Blaydon, *(e)* Blyth Valley, *(f)* Bootle, *(g)* Bradford, West, *(h)* Braintree, *(i)* Burton, *(j)* Coventry, North-West, *(k)* Coventry, South, *(l)* Dover, *(m)* Ealing, North, *(n)* Eltham, *(o)* Feltham and Heston, *(p)* Forest of Dean, *(q)* Gateshead, East and Washington, West, *(r)* Hammersmith and Fulham, *(s)* Hendon, *(t)* Hornsey and Wood Green, *(u)* Ilford, North, *(v)* Kettering, *(w)* Knowsley, South, *(x)* Lancaster and Wyre, *(y)* Leeds, North-East, *(z)* Leeds, West, *(aa)* Leicester, East, *(bb)* Lewisham, Deptford, *(cc)* Liverpool, Riverside, *(dd)* Loughborough, *(ee)* Manchester, Withington, *(ff)* Milton Keynes, North-East, *(gg)* Northampton, South, *(hh)* North-West Leicestershire, *(ii)* Reading, East, *(jj)* Reading, West, *(kk)* Rugby and Kenilworth, *(ll)* Sheffield, Attercliffe, *(mm)* Sheffield, Hillsborough, *(nn)* Sittingbourne and Sheppey, *(oo)* Stevenage, *(pp)* Stockton North, *(qq)* Stoke-on-Trent, *(rr)* Stourbridge, *(ss)* Thurrock, *(tt)* Tyne Bridge, *(uu)* Wallasey, *(vv)* Wansbeck, *(ww)* Waveney, *(xx)* West Lancashire, *(yy)* Wirral, West, *(zz)* Wolverhampton, North-East and *(aaa)* Wolverhampton, South-East; and when the decision was taken to build them. [153776]

**Mr. Miliband:** The following annex lists the schools and academies that, to our knowledge, are being built or are scheduled to be built in the near future.

However, as the majority of capital funding is now allocated to local education authorities by formula, so that they can fund locally agreed priorities, the Department does not collect detailed information about all new schools being built within an authority. Therefore additional information on this should be held locally.

Overall capital investment is set to rise from £3.8 billion this year to over £5 billion in 2005–06, compared to under £700 million in 1996–97. Within the overall funding for 2003–04, £512 million has been allocated on the basis of demonstrated basic need (new pupil places). However, it is for local education authorities to decide whether or not they need to build a new school in order to accommodate all pupils in their area.

The hon. Member will be aware that we have just announced successful projects for the first wave of the Building Schools for the Future programme, which aims to rebuild or renew all secondary schools within a 10–15 year period.

*List of schools being built or due to be built in the near future*

| *Constituency* | *School name* |
|---|---|
| *(a)* Bassetlaw | Bassetlaw post 16 and community learning centre—December 2002 |
| | Bircotes and Harworth Community Secondary School—December 2002 |
| | Hartland Comprehensive School—December 2002 |
| | Portland Comprehensive—December 2002 |
| | Retford Oaks High—December 2002 |
| | The Elizabethan High School—December 2002 |
| | The King Edward VI School—December 2002 |
| | Tuxford Comprehensive School—December 2002 |
| | Valley Comprehensive School—December 2002 |
| *(c)* Birmingham, Perry Bar | Kingsland Primary School—March 2003 |
| | St. James CE JI School (VC)—March 2003 |
| *(k)* Coventry, South | St. Mary's and St. Benedict's Catholic Primary—2002 |
| *(m)* Ealing, North | West London Academy—December 2002 |
| *(q)* Gateshead, East and Washington, West | St. Edmund Campion Roman Catholic—2003 |
| *(s)* Hendon | Akiva—2004 |
| *(y)* Leeds, North-East | Allerton Grange—November 2003 |
| | Carr Manor new High School—November 2003 |
| *(bb)* Lewisham, Deptford | Ashmead Primary School—April 2002 |
| | Childeric Primary School—April 2002 |
| | Lewisham 2 Haberdashers—March 2004 |
| | Crofton School—April 2002 |
| | Gordonbrock Primary School—April 2002 |
| *(cc)* Liverpool, Riverside | Shorefields School—June 1999 |
| | Vauxhall VA Primary School—June 1999 |
| | Liverpool 2 Kensington—August 2003 |
| *(ff)* Milton Keynes | Christ the Sower—2003 |
| | St. Bernadettes—2002 |
| *(gg)* Northampton, South | Delapre Middle School—December 2002 |
| | Duston Upper School—December 2002 |
| | St. Crispins Primary—December 2002 |
| *(ll)* Sheffield, Attercliffe | Westfield School—November 2002 |
| *(rr)* Stourbridge—Dudley | Colley Lane Primary School—June 2000 |
| *(xx)* West Lancashire | Guerdon Church—2003 |

### School Deficits

**Mr. Hoban:** To ask the Secretary of State for Education and Skills if he will the list the deficit for each school as at 31 March 2003, broken down by local education authority. [154605]

**Mr. Miliband:** The information requested is not yet available. The Department is awaiting a complete dataset relating to the 2002–03 financial year from a number of local education authorities. I shall write to the hon. Member when all of the information for 2002–03 is to hand.

### School Funding

**Miss McIntosh:** To ask the Secretary of State for Education and Skills what *(a)* financial and *(b)* other assistance is available to help schools adapt to the change in funding they receive as a result of falling rolls. [152134]

**Mr. Miliband:** The minimum funding guarantee, which is part of the package of measures to restore stability and certainty to school funding over the next two years announced by the Secretary of State on 29 October, specifically recognises that schools with falling rolls have fixed costs for items such as cleaning, repairs and heating which do not reduce when pupil numbers go down. Such schools are guaranteed a per pupil funding increase in 2004–05 of more than 4 per cent., which is our guaranteed increase for schools where numbers do not change. In addition, LEAs can have safety nets in their local funding formulae to assist schools with falling rolls, and the mechanism which provides revenue support grant to authorities has one year data lag built into it designed to assist LEAs with overall falling rolls in their schools.

### School Meals

**Mr. Hurst:** To ask the Secretary of State for Education and Skills what the net cost of the provision of school meals was to Essex county council in each year from 1990 to 2003. [150910]

**Mr. Miliband:** My Department does not collect this information from schools or local education authorities.

**David Davis:** To ask the Secretary of State for Education and Skills how much money on average was spent per pupil per day on school meals by East Riding of Yorkshire local education authority in each of the last three years in *(a)* primary schools and *(b)* secondary schools. [153284]

**Mr. Miliband:** My Department does not collect this information from schools or local education authorities.

**Bob Russell:** To ask the Secretary of State for Education and Skills how many local authorities have delegated the school meals service to primary schools; and if he will make a statement. [151764]

**Mr. Miliband:** My Department does not collect this information.

### Schools (Nottingham)

**Mr. Allen:** To ask the Secretary of State for Education and Skills what advice his Department gave to the City of Nottingham on its bid under the Building Schools for the Future programme; and if he will make a statement on the quality of the bid. [152954]

**Mr. Miliband:** In July 2003, we announced guidance on the Building Schools for the Future programme which invited all authorities to apply for funding in the first wave of the programme, or to express an interest in inclusion in later waves. My officials then held a series of road shows around the country, to which all authorities were invited, where they were able to discuss the programme and the guidance in open sessions and also in one-to-one sessions with my officials.

Proposals for inclusion in the first wave of funding from 2005–06 have now been rigorously appraised against the criteria for prioritisation in the guidance, and we are shortly to make an announcement. Announcements on subsequent wave funding will be made later this year.

We propose to give detailed feedback to authorities which are not successful in applications for wave one funding.

### Schools for the Future

**Mr. Allen:** To ask the Secretary of State for Education and Skills what the criteria are for his decisions on the allocation of money for Schools for the Future; and if he will place a copy in the Library. [154604]

**Mr. Miliband:** I refer my right hon. Friend to the answer I gave on 15 January 2004, *Official Report*, column 896W. We published our criteria for prioritisation in the Building Schools for the Future Programme in July 2003, and is available for reference in the Libraries of the House.

### Secondary Schools

**Helen Jones:** To ask the Secretary of State for Education and Skills what steps he is taking to improve educational attainment in the early years of secondary school; and if he will make a statement. [154657]

**Mr. Miliband** *[holding answer 12 February 2004]*: The Government are committed to improving the attainment of all 11 to 14-year-olds through the Key Stage 3 National Strategy which is central to our wider plans for transforming secondary education. The strategy aims to improve the quality of teaching and learning in the classroom by investing in teachers' professional development.

The strategy is starting to make a significant impact on standards after only one full year of implementation. The 2003 Key Stage 3 test results stand as the best ever on record with improvements in every subject and at every level. OFSTED have also endorsed the positive impact of the strategy and that it has been welcomed by teachers. Our priority is to build on the gains so far by further embedding the strategy, tackling under performance and supporting teachers in tailoring teaching and learning to better meet the needs of pupils and so personalise their learning experience.

### Sir Roy Meadow/David Southall

**Tim Loughton:** To ask the Secretary of State for Education and Skills what discussions he has had with the General Medical Council about Professor Sir Roy Meadow. [152016]

**Margaret Hodge:** I have not spoken to the General Medical Council, but my officials sought confirmation from GMC officials in autumn last year of press reports that Professor Sir Roy Meadow was under GMC investigation.

**Tim Loughton:** To ask the Secretary of State for Education and Skills when *(a)* he, *(b)* his Ministers and *(c)* officials in his Department last met (i) Sir Roy Meadow and (ii) David Southall. [154403]

**Margaret Hodge:** As far as we can tell from available records, no Minister or official from this Department has ever met with either in an official capacity.

### Skill Shortages

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills which region had the highest proportion of vacancies as a result of skill shortages in 1997. [154237]

**Mr. Ivan Lewis:** We can not say which region had the highest proportion of vacancies as a result of skill shortages in 1997 as this data were not reported in the employer survey of that time.

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how many job vacancies he estimates are unfilled as a result of skill shortages. [154238]

**Mr. Ivan Lewis:** We do not know how many job vacancies are unfilled as a result of skill shortages. It is estimated that 135,000 job vacancies were hard to fill for skill-related reasons at the time of the Learning and Skills Council's National Employer Skills Survey but this does not mean that the vacancies will go unfilled.

### Special Educational Needs

**Mr. Laurence Robertson:** To ask the Secretary of State for Education and Skills what the total cost is of providing special needs education in *(a)* mainstream and *(b)* special schools in Gloucestershire in 2003–04; what percentage this forms of the total education budget; and if he will make a statement. [153405]

**Mr. Miliband** *[holding answer 6 February 2004]*: The information requested is given in the table:

*Total cost of providing special needs education in both mainstream and special schools in Gloucestershire in 2003–04*

| | £ |
|---|---|
| SEN element of schools budget[1] | 9,320,818 |
| SEN element of LEA budget[2] | 1,830,229 |
| ISB for special schools[3] | 12,223,481 |
| Funding delegated to primary and secondary schools identified as "Notional SEN"[4] | 10,176,629 |
| Cost of providing special needs education[5] | 33,551,157 |
| Total education budget[6] | 286,597,291 |
| Cost of providing special needs education as a percentage of total education budget | 12 |

[1] As recorded in lines 1.1.1 to 1.1.5 of Table 1 of the budget statement.
[2] As recorded in line 2.2.6 of Table 1 of the budget statement.
[3] As recorded in line 1.0.1 of Table 1 of the budget statement.
[4] As recorded on Table 2 of the budget statement (figures are only indicative of the amount that might be spent by schools on SEN).
[5] Sum of 1 to 4.
[6] As recorded on line 3 of Table 1 of the budget statement.

*Note:*
The data are taken from 2003–04 Section 52 Budget Statements as reported by Gloucestershire LEA.

**Mr. Hague:** To ask the Secretary of State for Education and Skills what recent assessment he has made of the comparative employment prospects of pupils with special needs educated in *(a)* mainstream schools and *(b)* special schools. [155999]

**Mr. Stephen Twigg:** No central record is kept of the outcomes for all young people with special educational needs (SEN) who attended mainstream or special schools. However, my Department has commissioned a longitudinal study of the post-16 transitions of young people with SEN. Wave one, which took place between January 2000 and September 2001 when the young people in the study were still aged 15–16, found that more mainstream school pupils with SEN wanted to look for a job at the end of their compulsory schooling than special school pupils (28 per cent. as against 16 per cent.). The results from wave two of the study will be published in the spring and a wave three has been commissioned. These waves will show the development of any differential employment outcomes as between mainstream and special school pupils.

The new SEN strategy "Removing Barriers to Achievement", launched on 11 February, announced cross-Government action to improve the opportunities for progression beyond school for young people with SEN. A multi-agency group has been established to take this work forward and promoting employment as an aim in planning for the futures of almost all young people with SEN is one of the main objectives of this group. The group's work will take account of the findings of the SEN longitudinal study.

### Special Measures

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what discussions he had with the Chief Inspector of Schools about the publication of the list of schools in special measures. [154834]

**Mr. Miliband:** My right hon. Friend has frequent discussions with HM Chief Inspector of Schools, David Bell, about a range of matters relating to standards in schools.

### Specialist Schools

**Mr. Willis:** To ask the Secretary of State for Education and Skills how many selective schools are also specialist schools; what arrangements are in place for pupils who fail the entry tests to these schools to be able to attend a school with a similar specialism; and if he will make a statement. [154932]

**Mr. Miliband:** 98 of the 1,686 designated specialist schools are selective grammar schools. On the basis of the latest collated information, 40 specialist schools have chosen to select a proportion of their pupils by aptitude.

The admissions process for specialist schools is the same as for all other maintained schools. Applicants must be considered against the school's published admission arrangements, including, where applicable, selection.

If a parent is refused a place for their child because the child fails an entry test to a selective maintained school, they have the right to appeal against that decision to an independent appeal panel.

Local education authorities have a duty to ensure that they provide sufficient schools for the children living in their area who need one. There is no duty to provide schools with a particular specialism.

### Student Finance

**Chris Grayling:** To ask the Secretary of State for Education and Skills whether the Government's figures for the cost of student loan subsidies include an element for *(a)* administration and *(b)* bad debt. [152790]

**Alan Johnson:** The Government's figures for the cost of student loan subsidies do include a provision for bad debt and for loans not recovered from borrowers meeting the criteria for cancellation of the outstanding debt. The costs for administering student loans is not included but are accounted for separately and, are recorded annually in the Departmental Report.

**Mr. Frank Field:** To ask the Secretary of State for Education and Skills how many one-and two-parent households will be eligible for the maximum combined up-front university grant for academic year 2006/07. [154012]

**Alan Johnson:** We expect around 30 per cent. of students will be eligible for a full combined grant of £2,700 in 2006/07, of which we expect around two thirds to be dependent students (who may be from one or two-parent households). Future numbers and proportions of students receiving grants will depend on changes in demand for higher education.

**Mrs. Calton:** To ask the Secretary of State for Education and Skills how many former students have outstanding loan accounts; how many of these are being repaid; how many are not being repaid because of the low income of the borrower; and what factors, apart from income, are taken into account when repayment is demanded. [153825]

**Alan Johnson:** Most borrowers who started their course from the 1998/99 academic year will repay income-contingent loans. Loans for those who started their course before 1998/99 are repayable on a mortgage-style basis. There are differences in the repayment terms for the two types of loan.

Borrowers enter repayment status in the April following graduation or otherwise upon leaving their course. There were 1,492,000 student loan borrowers in the United Kingdom in repayment status at the end of the end of the financial year 2002–03. Of these, some 815,000 borrowers had mortgage-style accounts that were up to date with repayments, or income-contingent accounts which are repaid through the tax system.

Some 559,000 borrowers who had mortgage-style loan accounts which they were liable to repay had been granted deferment because their income was below the threshold (£21,022 per annum from 1 September 2002, £21,364 from 1 September 2003).

No repayments are collected from income-contingent borrowers whose income falls below £10,000 per annum. Repayments of income-contingent loans are collected through the tax system and are notified to the Student Loans Company after the end of the tax year for reconciliation with their records. Therefore the data on the number of borrowers with income-contingent loans, where repayments have not been deducted because the borrower's income is below the repayment threshold, are not yet available.

The income-contingent loan repayment system takes into account whether the borrower is in receipt of disability related benefits, and whether they are covered by the Repayment of Teacher Loans scheme. Loans are cancelled: when the borrower reaches 65 years of age; if the borrower is in receipt of a disability related benefit and is permanently unfit for work; or if the borrower dies.

The mortgage-style loan repayment system takes into account whether the borrower is in receipt of disability related benefits; whether they are covered by the Repayment of Teacher Loans scheme; and the number of loans taken out. Loans are cancelled: after 25 years or when the borrower reaches the age of 50 (60 if the borrower was aged over 40 when he/she last borrowed), whichever is the earlier; if the borrower is in receipt of a disability related benefit and is permanently unfit for work; or if the borrower dies.

**Mr. Clappison:** To ask the Secretary of State for Education and Skills what estimate he has made of what the cost of providing maintenance loans to students from 2006/07 would be *(a)* under existing arrangements and *(b)* under the proposals in the Higher Education Bill. [154763]

**Alan Johnson:** The Department's future spending plans on maintenance loans under existing arrangements and under the proposals in the Higher Education Bill will depend on the outcome of Spending Review 2004.

As stated in the Regulatory Impact Assessment published on 8 January, the resource cost[1] of raising the maximum rate of maintenance loan to match the basic living costs expenditure of the mid-range student is estimated at £65 million in 2006/07 terms. This is the resource cost to the Government of both the additional amount of maintenance loan advanced and the resulting impact on the repayments of fee loans.

[1] Estimates of the resource cost of the loans represent the real economic cost to the Government of providing the loans and take into account the forecast loan repayments, the cost of charging an interest rate below the government's cost of funds and any loan write offs

### Higher Education

**Mr. Peter Duncan:** To ask the Secretary of State for Education and Skills how many students at higher education institutions in England and Wales are ordinarily resident in Scotland; and if he will make a statement. [145687]

**Alan Johnson:** In 2002/03, there were 5,833 full-time undergraduate students ordinarily resident in Scotland who were enrolled at English and Welsh HE institutions.

**Mr. Peter Duncan:** To ask the Secretary of State for Education and Skills how many students from England and Wales are studying at higher education institutions in Scotland; and if he will make a statement. [145688]

**Alan Johnson:** In 2002/03, there were 14,238 full-time undergraduate students ordinarily resident in England and Wales who were enrolled at Scottish HE institutions.

### Teachers

**Mr. Willis:** To ask the Secretary of State for Education and Skills whether teachers employed under Schedule 2 of SI 2003 No.1663 are required to register with the General Teaching Council for England; and if he will make a statement. [154929]

**Mr. Miliband:** All teachers with qualified teacher status who are employed in maintained and non-maintained special schools in England are required to register with the General Teaching Council for England. None of the persons referred to in Schedule 2 to The Education (Specified Work and Registration) (England) Regulations 2003 are qualified teachers and so are not eligible to register with the Council. The Education Act 2002 provides for a new category of provisional registration which by regulation can be applied to teachers who are not qualified and can be made compulsory. These provisions are not yet in force.

**Mr. Willis:** To ask the Secretary of State for Education and Skills if he will list the local education authorities where the number of unqualified teachers employed in January 2003 was greater than in January 1998. [154930]

**Mr. Miliband:** The number of full-time equivalent regular teachers without Qualified Teacher Status rose in all local education authorities in England between January 1998 and January 2003. Over the same period, the number of full-time equivalent regular teachers with Qualified Teacher Status also rose in all local education authorities except the City of London.

**Mr. Willis:** To ask the Secretary of State for Education and Skills whether the General Teaching Council for England can discipline a teacher who has not paid its subscription; and if he will make a statement. [154931]

**Mr. Miliband:** The General Teaching Council has two sets of powers in relation to non-payment of the registration fee. It can remove a teacher's name from the register which would prevent the teacher from teaching in a maintained or non-maintained special school. However, the Council also has powers to require an employer to deduct the fee from a teacher's salary. Its policy is to use these powers wherever possible, providing it holds employment data on the teacher.

### Tuition Fees

**Diana Organ:** To ask the Secretary of State for Education and Skills (1) what assessment he has made of the ability of *(a)* Birkbeck College, University of London and *(b)* the Open University to compete with other higher education institutions once the new proposals for tuition fees and funding are in place in 2006; [154645]

(2) what investment plans he has assessed for *(a)* Birkbeck College, University of London and *(b)* the Open University; and whether these are included in the Higher Education Bill. [154647]

**Alan Johnson:** The proposals for variable fees in the Higher Education Bill relate to full-time undergraduate students. The Government do not impose restrictions on the fees that may be charged for part-time undergraduate students, such as those attending Birkbeck College and the Open University. The Higher Education Funding Council for England will shortly be conducting a comprehensive review of how their funding for teaching is allocated. In accordance with the statement by my right hon. friend the Secretary of State to the House on 8 January 2004, a major focus of this review will be how the funding system might further support the development of part-time study.

**Jim Dowd:** To ask the Secretary of State for Education and Skills how much income was generated from fees paid by students for courses in colleges of further education in each of the past five years. [155219]

**Mr. Ivan Lewis:** Information from the Learning and Skills Council shows that tuition fee income collected by further education institutions from Council funded adult students, their employers or other sources was as follows for the last three years:

| *Year* | *£m* |
|---|---|
| 2000–01 | [1]153 |
| 2001–02 | 159 |
| 2002–3 | 171 |

[1] Includes income from some 16 to 18-year-olds on part-time courses.

Data for earlier years on a consistent basis are not available without disproportionate cost.

### University Access

**Chris Grayling:** To ask the Secretary of State for Education and Skills how he will define non-traditional backgrounds for students when replacing the postcode premium. [152780]

**Alan Johnson:** The "postcode premium" formed part of the widening access and improving retention funds distributed by the Higher Education Funding Council for England (HEFCE) via the teaching grants awarded to higher education institutions (HEIs). For 2004/05 HEFCE has advised HEIs that the distribution of widening access funding will be based on a method that weights:

young (under 21 on entry) full-time undergraduate new entrants according to higher education (HE) participation by ward; and

part-time and mature full-time undergraduates according to average educational achievement by ward.

In addition, weightings of 8 per cent. for inner London and 5 per cent. for outer London are incorporated in the funding formula. These refinements will result in a more transparent funding formula that better reflects levels of educational disadvantage, as well as allowing for additional costs of institutions operating in London.

### University Attendance

**Mr. Hepburn:** To ask the Secretary of State for Education and Skills (1) which local education authority had the highest number of school leavers attending university in each year since 1996; and what percentage this represented of the total number of school leavers in these local education authorities; [148445]

(2) which constituency had the highest number of people attending university in each year since 1996; [148446]

(3) which constituency had the highest number of school leavers attending university in each year since 1996; and what percentage these were of the total number of school leavers in those constituencies. [148447]

**Alan Johnson:** Figures by constituency are not available centrally.

The available figures by local education authority (LEA) are given in the table. They currently only hold figures for entry into higher education at 18.

*LEAs with the highest proportion of 18-year-olds accepted for entry to full-time undergraduate courses via the Universities and Colleges Admissions Service (UCAS)*

| *Year of entry* | *LEA* | *Number of 18-year-olds accepted to HE courses* | *Percentage of 18-year-olds in LEA* |
|---|---|---|---|
| 1996 | Hampshire | 3,714 | 20.5 |
| 1997 | Kent | 3,983 | 20.0 |
| 1998 | Surrey | 3,549 | 26.1 |
| 1999 | Kent | 3,628 | 21.7 |
| 2000 | Kent | 3,575 | 22.1 |
| 2001 | Kent | 3,622 | 22.0 |
| 2002 | Kent | 3,863 | 23.4 |

**Mr. Hoyle:** To ask the Secretary of State for Education and Skills (1) how many people attended university from *(a)* Chorley and *(b)* Lancashire in each year since 1997; and what percentage this represents of the number of school leavers; [149170]

(2) how many people attended universities from Chorley in each year since 1996. [151272]

**Alan Johnson:** Numbers and participation rates at constituency level are not held centrally. The available information by local education authority (LEA) is taken from the Universities and Colleges Admissions Service (UCAS) and covers 18-year-old applicants who were accepted to full-time undergraduate courses in the UK. Figures for Lancashire LEA for the years since 1996 are shown in the table.

*Numbers and participation rates of 18-year-olds from Lancashire LEA accepted through UCAS*

| *Year of entry* | *Number* | *Participation rate (percentage)* |
|---|---|---|
| 1996 | 3,237 | 19.6 |
| 1997 | 3,902 | 21.8 |
| 1998 | 3,256 | 21.9 |
| 1999 | 3,296 | 22.6 |
| 2000 | 3,303 | 23.0 |
| 2001 | 3,418 | 23.1 |
| 2002 | 3,511 | 23.7 |

*Source:*
UCAS.

**Mrs. Humble:** To ask the Secretary of State for Education and Skills how many people attended university from the Blackpool North and Fleetwood constituency in each year since 1996. [151084]

**Alan Johnson:** Figures by constituency are not held centrally.

The available information is taken from the Universities and Colleges Admissions Service (UCAS). It covers 18-year-old applicants, domiciled in Lancashire Local Education Authority (LEA), who were accepted to full time undergraduate courses in the UK and is given in the table.

*Number of 18-year-old applicants, domiciled in Lancashire[1] LEA, accepted to HE courses through UCAS*

| | *Year of Entry* | | | | | | |
|---|---|---|---|---|---|---|---|
| *LEA* | *1996* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* |
| Lancashire | 3,237 | 3,902 | 3,256 | 3,296 | 3,303 | 3,418 | 3,511 |
| Blackburn | n/a | n/a | 297 | 360 | 384 | 368 | 375 |
| Blackpool | n/a | n/a | 240 | 250 | 263 | 254 | 272 |

[1] Prior to entry In 1999, figures were recorded as Lancashire LEA. Due to Local Government re-organisations, figures for 1999 entry onwards for Lancashire LEA were split into three LEAs: Lancashire, Blackburn and Blackpool.

UCAS

### Vocational Training

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills what schemes other than the Modern Apprenticeship scheme are in place for the provision of skills and vocational training. [154970]

**Mr. Ivan Lewis:** The aim of the national Skills for Life strategy is to improve adult literacy, language and numeracy skills. The target is to improve the basic skills of 1.5 million adults by 2007. From September this year, we will be phasing in an entitlement to free provision for level 2 learning for adults who do not already have a qualification at this level. For those already in the workforce, there are 12 Employer Training Pilots testing ways of encouraging employers to train low-skilled workers to a first level 2 or basic skills qualification. A further six pilots will begin in September this year.

Entry to Employment (E2E) is a new work-based programme for young people aged 16–18. It will enable those with few or no qualifications to make a successful transition into a Modern Apprenticeship, sustained employment or further vocational learning opportunities. The Increased Flexibility for 14–16 year olds programme is providing vocational courses for around 90,000 pupils at Key Stage 4.

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how much funding per capita will be provided for vocational education training schemes other than the Modern Apprenticeship in each year from 2003 to 2006. [154971]

**Mr. Ivan Lewis:** This is a matter for the Learning and Skills Council. Mark Haysom, the council's chief executive, will write to the hon. Gentleman with this information and a copy of his reply will be placed in the Library.

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how much funding will be provided for Modern Apprenticeship schemes in each year from 2003 to 2006. [154972]

**Mr. Ivan Lewis:** This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with this information and a copy of his reply will be placed in the Library.

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how much funding per capita will be provided for *(a)* skills-based learning, *(b)* vocational education, *(c)* evening classes run by colleges, *(d)* skills and vocational training and *(e)* skills training run by colleges for employers in each year from 2003 to 2006. [154973]

**Alan Johnson:** The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). Neither the Department nor the LSC allocate separate funding to the specific areas identified at *(a)* to *(e)* above. Funding for these specific areas will be drawn from funds allocated to the LSC for either Work Based Learning or Further Education.

The Average in Learning cost for Work Based Learning in 2003–04 is £2,687 for those in the 16–18 age range, and £2,361 for those aged 19 and above. Based upon indicative budgets these figures are expected to rise to £2,896 and £2,552 respectively in 2004–05; and to £2,967 and £2,608 respectively in 2005–06.

Assumed total funding per full time equivalent student in further education allocated to the LSC is £4,240 in 2003–04; £4,460 in 2004–05; and £4,650 in 2005–06.

## CONSTITUTIONAL AFFAIRS

### 1911 Census

**Mr. Alan Duncan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if his Department will agree to the early release of the 1911 Census data. [155844]

**Mr. Leslie:** I refer the hon. Member to the answers I have given to the hon. Member for Orkney and Shetland (Mr. Carmichael) on 10 December 2003, *Official Report*, column 457W, and on 18 December 2003, *Official Report*, column 1112W.

### Independent Advocacy

**Mr. Jim Cunningham:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how his Department is ensuring that people with sensory, physical, communication and profound and multiple impairments are able to access appropriate independent advocacy provision. [155033]

**Mr. Lammy:** The legal professional bodies with advocacy provision are the Law Society; the General Council of the Bar; and the Institute of Legal Executives. Each of these bodies have made provisions under the Disability Discrimination Act 1995 to ensure that people with sensory, physical, communication and profound multiple impairments have access to the appropriate independent advocacy provisions. In addition, the Government established the Partnership Initiative Budget, as part of the Community Legal Service, which funds innovative projects designed to improve services for vulnerable groups, including the disabled.

### Damages Claims

**Mr. Todd:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what representations he has received concerning the regulation of those businesses which collect damages claims for processing by solicitors. [155574]

**Mr. Lammy:** The Department received representations on regulating claims intermediaries in response to the consultation paper 'Simplifying CFAs' published in June 2003. A summary of the responses will be published in the spring.

The Government have commissioned Sir David Clementi to review the regulatory framework of the legal services industry. Sir David announced in October 2003 that he will consider unregulated providers and regulatory gaps as part of his review. Sir David is expected to issue a consultation paper shortly and is due to report by December 2004.

### Data Sharing

**Mr. Todd:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps he is taking to ensure local authorities are fully acquainted with his Department's guidance, Public Sector Data Sharing: Guidance on the Law; and if he will make a statement. [155228]

**Mr. Leslie:** The legal guidance, Public Sector Data sharing: Guidance on the Law was published in November 2003. On publication, a press notice was issued and two copies were sent to all local authority Chief Executives in England and Wales. The guidance is also available on the Department's website at http://www.dca.gov.uk/foi/sharing/toolkit/lawguide.htm. An electronic alert containing this link has been issued to local authority legal services, clerks to police, and joint fire and transport authorities by the Local Government Association. It has also been referred to at a number of conferences for local authority staff where DCA officials have spoken on data sharing issues. The guidance was widely anticipated by local authorities and I am confident that it has been made accessible to them.

### Hutton Inquiry

**Mr. Sanders:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the cost of the Hutton Inquiry was. [154704]

**Mr. Leslie:** The full cost to Government is still being determined, and we will publish the figure once it is available.

### Immigration Adjudicators

**Mr. Hawkins:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what plans he has to change the basis upon which immigration adjudicators are employed; and if he will make a statement; [154885]

(2) if he will make a statement on his plans to terminate the current judicial appointment contracts for immigration adjudicators and issue new terms of contract equivalent to Civil Service terms and conditions. [154886]

**Mr. Lammy:** The Asylum and Immigration (Treatment of Claimants, etc.) Bill provides for the existing judicial members of the Immigration Appellate Authority (IAA) to form the judicial complement in the proposed single tier Asylum and Immigration Tribunal (AIT).

The terms of appointment to the AIT will continue to safeguard the independence of judicial office holders and will not be amended to reflect equivalent terms and conditions of employment in the Civil Service.

### Land Registry

**Mr. Wilson:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on progress on the Land Registry Quinquennial Review proposals regarding beneficial ownership of land. [155084]

**Mr. Lammy:** The report on the Land Registry's Quinquennial Review, published in June 2001, recommended that consideration be given to including details of the beneficial or true ownership of land on the land register for England and Wales. In response to a question from the hon. Member for Truro and St. Austell (Matthew Taylor) on 24 June 2002, *Official Report*, column 709W, it was announced that the Land Registry and the then Lord Chancellor's Department would jointly consider and consult other Government departments on the recommendation by autumn 2003. Depending on the outcome of that consultation and ministerial agreement consultation with stakeholders and the public on the principles and details would follow.

This work has been deferred pending a review of the consultations to be carried out by the Land Registry, including those jointly with the Department for Constitutional Affairs, in the light of the difficulties of multiple simultaneous consultations. I have asked my officials to complete this review and to report to me by summer 2004 with their recommendations as to when the several consultations, including that relating to beneficial or true ownership, should be carried out.

### Mr. Balwant Singh

**Keith Vaz:** To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to the letter sent by the hon. Member for Leicester, East to Miss Fitzmaurice on 2 December 2003, what progress has been made in finding the file of Mr. Balwant Singh. [151575]

**Mr. Lammy** *[pursuant to his answer, 2 February 2004, Official Report, c. 726W]:* The previous answer stated that checks with the Immigration Nationality Directorate (IND) had confirmed that IND had not received the appeal papers for Mr. Balwant Singh. Following further checks with IND the appeal papers have been located and are currently being processed by IND before being lodged with the Immigration Appellate Authority for a substantive hearing.

### Public Guardianship Office

**Mr. David:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to improve the efficiency of the Public Guardianship Office. [154816]

**Mr. Leslie:** The Public Guardianship Office (PGO) expects to meet almost all of its key service delivery targets this financial year, and plans to set more challenging measures for next year so that, among other things, it answers a higher percentage of correspondence within target and deals with applications more efficiently. During 2004–05, the PGO will focus on quality improvement further to increase customer satisfaction in its services. A review of how complaints are handled has recently been initiated.

**Mr. David:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the efficiency of the Public Guardianship Office. [154822]

**Mr. Leslie:** The Public Guardianship Office (PGO) experienced severe service delivery problems during 2002–03 resulting in a large number of complaints (1,338 for the year) and key performance measures being missed. It has addressed these problems, so that this year numbers of complaints are well below those from the previous year (456 to end December 2003) and the PGO is on track to achieve almost all of its key performance measures at the end of March 2004.

### Regional Assemblies

**Mr. Rosindell:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on constitutional changes necessary for the transfer of powers to regional assemblies. [154392]

**Mr. Raynsford:** I have been asked to reply.

Voters in a region will first need to vote "yes" in a referendum under the Regional Assemblies (Preparations) Act 2003. An Act of Parliament will then be needed to establish elected regional assemblies, allow elections to take place, set out their constitution and transfer powers to them.

The Office of the Deputy Prime Minister will do its best to publish before the first referendums a draft Regional Assemblies Bill addressing these issues.

### Sentencing

**Norman Baker:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the benches in England and Wales which have not yet signed up to the Magistrates National Sentencing Guidelines; and what percentage of benches this figure represents. [154759]

**Mr. Leslie:** The information requested is not collected or held centrally.

The Judicial Studies Board incorporated the revised Magistrates Court Sentencing Guidelines into the Adult Court Bench Book that was recently issued to all magistrates and their legal advisers via their Magistrates Courts' Committees. The guidelines will therefore be available within every magistrates court in England and Wales.

In court lay magistrates sit with their Justices' Clerk or a legal adviser. The Justices' Clerk has a statutory duty to provide advice to the magistrates on questions of law, practice and procedure. This will include advice on applying any case law and relevant Court of Appeal judgments when making decisions on sentence.

### Small Claims Track

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) in how many small claims track cases the power to remit or waive court fees was exercised in 2002–03; [155376]

(2) how many times the power under article 6 of the county court rules to excuse payment of fees for exceptional financial hardship was used in 2002–03. [155378]

**Mr. Leslie:** Information concerning the use of the powers mentioned above is not collected centrally. Information concerning the number of applications made for exemption or remission of court fees is collected but not in a manner that would enable it to be broken down as requested. During 2002–03 there were 234,872 such applications made in the county courts of England and Wales.

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs in what percentage of cases in the small claims track *(a)* the complainant and *(b)* the defendant was legally represented in 2002–03. [155380]

**Mr. Leslie:** During 2002–03 there were 56,988 small claims cases dealt with in the county courts of England and Wales. Based on sample data collected centrally, in just over 41 per cent. of these cases the complainant was legally represented while the comparative figure for the defendant was nearly 32 per cent.

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs when the fee bands for cases in the small claims track were fixed; and what plans there are to change them. [155382]

**Mr. Leslie:** The fee bands for claims in the small claims track (claims up to £5,000) were last fixed on 1 April 2003. My Department has no plans to change the fee bands for these claims.

### Tied Agricultural Property

**Mr. Flook:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many owners of properties with agricultural ties there are, broken down by land registry office area. [155173]

**Mr. Lammy:** Her Majesty's Land Registry does not hold information on agricultural ties.

## HOME DEPARTMENT

### EU Enlargement

23. **Sir Teddy Taylor:** To ask the Secretary of State for the Home Department what steps he is taking to restrict the admission of residents of the east European states which will be admitted to the EU in May. [155767]

**Beverley Hughes:** From 1 May nationals of the Accession States have the right to free movement through all member states. The United Kingdom welcomes those who can contribute to our economy but will not allow people here purely to claim benefits. We will take the necessary action to ensure the United Kingdom is not open to abuse and will be announcing further details.

### Asylum and Immigration (Treatment of Claimants, etc) Bill

**Annabelle Ewing:** To ask the Secretary of State for the Home Department what recent discussions he has had with Scottish Ministers about the Asylum and Immigration (Treatment of Claimants, etc) Bill. [155765]

**Beverley Hughes:** Officials have been in contact with officials in the Scotland Office and the Scottish Executive as appropriate.

### Correspondence

**Bob Spink:** To ask the Secretary of State for the Home Department if he will ensure that the letter of 4 December 2003 from the hon. Member for Castle Point on the future contracts for housing asylum seekers is answered within five days. [153486]

**Beverley Hughes:** I wrote to the hon. Member on 9 February 2004.

**Mr. Salmond:** To ask the Secretary of State for the Home Department when he intends to reply to the letter dated 8 December 2003 from the hon. Member for Banff and Buchan regarding his constituent, Mr. C. Ming of Fraserburgh. [149783]

**Beverley Hughes:** I wrote to the hon. Member on 16 February 2004.

**Mr. Clelland:** To ask the Secretary of State for the Home Department when he expects to reply to the letter from the hon. Member for Tyne Bridge of 8 January 2004. [151906]

**Beverley Hughes** *[holding answer 30 January 2004]:* My hon. Friend the Member for Slough (Fiona Mactaggart) wrote to my hon. Friend on 29 January 2004.

**Mr. Kaufman:** To ask the Secretary of State for the Home Department (1) when he intends to reply to the letter to him dated 15 December 2003 from the right hon. Member for Manchester, Gorton with regard to Shaikh Ijaz Ahmed; [152643]

(2) when he will reply to the letter to him dated 15 December 2003 from the right hon. Member for Manchester, Gorton, with regard to Shaikh Ijaz Ahmed. [155843]

**Mr. Blunkett:** I wrote to the right hon. Member for Manchester, Gorton on 17 February 2004.

**Mr. Kaufman:** To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 1 December 2003 from the right hon. Member for Manchester, Gorton, with regard to Mrs. S. Ahmed. [153254]

**Mr. Blunkett:** I wrote to the right hon. Member for Manchester, Gorton on 12 February 2004.

**Mr. Andrew Turner:** To ask the Secretary of State for the Home Department when he will reply to the letter of the hon. Member for the Isle of Wight to the Immigration and Nationality Directorate, dated 13 December 2003, reference A485596; and what the reason is for the delay in responding to this inquiry. [154750]

**Beverley Hughes** *[holding answer 12 February 2004]:* I wrote to the hon. Member on 12 February 2004.

### Sex Offenders

**Mr. Mahmood:** To ask the Secretary of State for the Home Department what plans he has to increase the protection of the public from known sex offenders living in the community. [155750]

**Paul Goggins:** Provisions in both the Criminal Justice Act and the Sexual Offences Act will help to strengthen public protection from known sex offenders. These include enhancing the Multi-Agency Public Protection Arrangements, tightening sex offender registration requirements, introducing new orders to prevent sex offenders from committing further offences and making the prosecution of sexual offences easier.

### Gun Crime

**Mr. Clapham:** To ask the Secretary of State for the Home Department what measures he is taking to support communities in the fight against gun crime. [155761]

**Caroline Flint:** We recognise the importance of supporting local communities to resist gun crime and gun culture. This is why we have provided support for the Disarm Trust to work directly with affected communities, and have allocated 1.2 million of recovered assets money to support community action in the most affected areas. We also hosted a major gun crime community engagement conference in January bringing together local community groups, voluntary organisations and others to help identify what more can be done.

### Civil Liberties

**Norman Baker:** To ask the Secretary of State for the Home Department what mechanism is in place to ensure that respect for civil liberties is considered at each stage of his Department's policy-making process. [155763]

**Fiona Mactaggart:** The Human Rights Act ensures that all legislation complies with the European convention on human rights. For all proposed legislation, section 19 of the Act requires the Minister to make a statement as to the compatibility with the convention. Throughout the policy making process we assess the effects on individuals and society through discussions with independent and representative bodies and where appropriate full public consultation.

### Acceptable Behaviour Contracts

**Miss McIntosh:** To ask the Secretary of State for the Home Department how many acceptable behaviour contracts were issued in *(a)* York and *(b)* North Yorkshire; and if he will make a statement. [155764]

**Ms Blears:** The Home Office does not routinely collect statistics on the use or otherwise of acceptable behaviour contracts (ABCs). ABC schemes, also known as acceptable behaviour agreements, are voluntary and have been developed by a range of agencies whose role it is to prevent such behaviour.

Research conducted in April 2002 showed that there were 173 ABC schemes running in England and Wales, with 1,868 contracts signed. A Home Office RDS publication on the evaluation of an ABC Scheme in the London borough of Islington was published on 20 January this year.

### Asylum Amnesty

**Ross Cranston:** To ask the Secretary of State for the Home Department how many families he expects to fall within the asylum amnesty. [152463]

**Beverley Hughes:** We expect up to 15,000 families to qualify under the ILR exercise.

### Asylum Policy

**Mr. Hancock:** To ask the Secretary of State for the Home Department if he will make a statement on the measures his Department is taking to ensure there is a co-ordinated asylum policy across EU member states. [146542]

**Beverley Hughes:** The UK Government are engaged in the on-going negotiations to ensure that European measures on asylum allow member states to deal effectively with applications while retaining flexibility to respond to the particular circumstances they face domestically.

The UK has participated actively in negotiations on all EU asylum initiatives to date, and for example, played a major role in shaping the Eurodac and Dublin II Regulations, which have helped us identify and return asylum shoppers to EU countries where they first arrived or claimed asylum. We retain the right to opt in to European asylum measures on a case-by-case basis, and will do so where it is in the United Kingdom's interests.

For further details on the measures taken, I refer my hon. Friend to the answer I gave my hon. Friend the Member for Crosby on 17 November 2003, *Official Report*, columns 673–74W.

### Asylum Seekers

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many Iraqi asylum seekers *(a)* have been refused asylum or other legal status to remain in the UK and *(b)* exhausted their rights of appeal in each year since 1997. [150620]

**Beverley Hughes:** The tables show the available information, relating to the outcomes of initial decisions, including refusals of leave to remain, and grants of asylum and the outcome of appeals at the IAA, for Iraqi nationals, who have applied for asylum in the United Kingdom, for each year from 1997 to September 2003. Data by nationality are not available for outcomes at the other levels of appeal.

Information on the numbers of asylum applications by nationality and on the outcome of appeals is published in quarterly web pages and in the annual statistical bulletin Asylum Statistics United Kingdom, available from the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next quarterly publication, covering the fourth quarter of 2003 and provisional full year data, will be published on 24 February.

[1] Figures rounded to nearest 5 (except percentages). Figures may not add up due to independent rounding.
[2] Figures include cases withdrawn by the Home Office, as well as the appellant.
[3] Figures are based on the cases for which information is recorded on the Refugee Index.
[4] Equals 1 or 2
[5] Not available.
[6] Provisional figures

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department which defences are under statute not to be considered as reasonable causes for asylum seekers no longer in possession of relevant documents. [152842]

**Beverley Hughes:** For the purpose of the offence set out in clause 2 of the Asylum and Immigration (Treatment of Claimants, etc.) Bill, whether or not an excuse for failing to have a document is reasonable will depend on the circumstances of the particular case.

However, the offence explicitly rules out deliberate destruction or disposal as an excuse, unless that destruction or disposal is for a reasonable cause or beyond the control of the person concerned. Certain behaviour does not amount to a reasonable cause, namely if the destruction or disposal was with a view to delaying or enhancing a claim or on the instructions or advice of a facilitator.

As I said during Committee stage of the Bill, we are looking at the defences in clause 2. If we consider any amendments to be necessary, we intend to table them at Report stage.

**Mr. Tom Harris:** To ask the Secretary of State for the Home Department how many asylum seekers living in Glasgow were granted refugee status in the last year for which figures are available. [153201]

**Beverley Hughes:** Initial decision outcomes are not available relating to persons living in particular areas of the UK. The requested information could be obtained only at disproportionate cost by examination of individual case records.

Information on the numbers of initial decisions on asylum applications by nationality and on the outcome of appeals is published in quarterly web pages and in the annual statistical bulletin 'Asylum Statistics United Kingdom', available from the Home Office website at: http://www.homeoffice.gov.uk/rds/immigration1.html. The next quarterly publication, covering the fourth quarter of 2003 and provisional full year data, will be published on 24 February.

**Dr. Cable:** To ask the Secretary of State for the Home Department how many asylum seekers who were qualified doctors have applied to work in the UK as doctors in each of the last five years; how many applications were *(a)* accepted and *(b)* rejected; and how many rejections were overturned on appeal. [153617]

**Beverley Hughes:** Generally speaking asylum seekers are not allowed to work in the United Kingdom while their claim for asylum is being processed. The Government are aware that some applicants use the asylum system as an alternative route for economic migration and we believe it is vital to discourage this and to send out a message that we will not tolerate abuse of the asylum system.

Until 23 July 2002 asylum seekers who had not received an initial decision on their asylum claim within six months of its being lodged could seek exceptional permission to work under the terms of the employment concession. No detailed statistics were kept on the number of asylum seekers given permission to work under the terms of the concession and the type of job they wished to undertake.

This concession has now been withdrawn. It is our policy to speed up the length of time asylum seekers are awaiting a decision on their status. The latest published figures show that 81 per cent.[1,2] of applications received in the period April to June 2003 had initial decisions reached and served within two months[3], compared with 75 per cent. for the previous quarter. Proposals in the Asylum and Immigration Bill currently before Parliament will simplify and speed up the appeals process. In this context, we feel it is inappropriate for asylum seekers of any occupation to work.

[1] *Source:*
A-CID database as at 31 October 2003.

[2] Excludes withdrawals and third country cases which may be the responsibility of other EU member states under the Dublin Convention. Home Office's Public Service Agreement target for 2001–02 was 60 per cent. and for 2002–03 was 65 per cent. The target for 2003–04 is 75 per cent. Details of the targets are given in the 2000 Spending Review Public Service Agreements White Paper at http://www.treasury.gov.uk/. Excludes asylum applications lodged by Iraqis between 1 February and 31 May 2003.

[3] "Two months" is defined as 61 days.

**Mr. Tom Harris:** To ask the Secretary of State for the Home Department how many asylum seekers resident in Glasgow were granted refugee status in the last year for which figures are available; and what proportion of all applications this represents. [153733]

**Beverley Hughes:** Initial decision outcomes are not available relating to persons residing in particular areas of the UK. The requested information could be obtained only at disproportionate cost by examination of individual case records.

Information on the numbers of initial decisions on asylum applications by nationality and on the outcome of appeals is published in quarterly web pages and in the annual statistical bulletin "Asylum Statistics United Kingdom", available from the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next quarterly publication, covering the fourth quarter of 2003 and provisional full year data, will be published on 24 February.

**Mr. Tom Harris:** To ask the Secretary of State for the Home Department what percentage of applications for refugee status were successful in the latest period for which figures are available. [153752]

**Beverley Hughes:** There were 14,210 initial decisions on asylum applications in the period July to September 2003, the latest published figures, of which 5 per cent. of the decisions were grants of refugee status. A further 6 per cent. were granted discretionary leave and a minimal number (less than one per cent.) humanitarian protection. Information on appeals relating to initial decisions made in this period is unavailable but a percentage may be allowed.

Information on the numbers of initial decisions on asylum applications is published in quarterly web pages and in the annual statistical bulletin "Asylum Statistics United Kingdom", available from the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next quarterly publication, covering the fourth quarter of 2003 and provisional full year data, will be published on 24 February.

**Mr. Betts:** To ask the Secretary of State for the Home Department from which countries, other than Iraq, Zimbabwe and Somalia, asylum seekers can claim hard case support if their claims are refused on appeal. [154336]

**Beverley Hughes** *[holding answer 12 February 2004]:* As a matter policy accommodation under section 4 of the Immigration and Asylum Act 1999 (hard case support) may be provided to failed asylum seekers who are unable to leave immediately due to circumstances entirely

beyond their control. Currently accommodation will be provided to Kurds from the Kurdish Autonomous Zone of Iraq because until recently there was no viable route of return. Now that Kurds from Iraq can leave under the Voluntary Assisted Return and Reintegration Programme the policy of providing accommodation is being reviewed. It is possible for nationals of Zimbabwe and Somalia to make a voluntary return and accommodation will be provided only where they are seeking to return but cannot do so immediately. No other countries are routinely provided with accommodation if their claims for asylum are finally refused.

**Mr. Betts:** To ask the Secretary of State for the Home Department whether there is a time frame in which failed Iraqi asylum seekers are expected to return home. [154337]

**Beverley Hughes** *[holding answer12 February 2004]:* Failed Iraqi asylum seekers are expected to return to Iraq voluntarily once they have exhausted the appeal process; they can do so through the Voluntary Assisted Return and Reintegration Programme operated by the International Organisation for Migration. We are currently working on proposals for enforced return.

**Mr. Viggers:** To ask the Secretary of State for the Home Department what factors he is taking into account before deciding whether to proceed with a possible accommodation centre for asylum seekers at the Daedalus site in Lee-on-the-Solent. [151616]

**Beverley Hughes** *[holding answer 29 January 2004]:* All prospective sites for accommodation centres are evaluated against a set of criteria including size, configuration, location, technical characteristics and planning considerations.

I announced on 3 February that we have decided not to seek planning approval to develop an accommodation centre for asylum seekers at HMS Daedalus. Following a careful evaluation, we have concluded that the difficulties associated with the conversion of historic buildings and the creation of a suitable access point make the site unsuitable for the purposes of the trial.

### Bail Hostels

**Mrs. Helen Clark:** To ask the Secretary of State for the Home Department what criteria are used to decide which sex offenders from outside the city are sent to Peterborough Bail Hostel. [153237]

**Paul Goggins** *[holding answer 6 February 2004]*: The decision to admit anyone to an approved probation and bail hostel is only taken after a careful consideration of risk. Peterborough Approved Premises is part of a national estate of 100 premises managed by the National Probation Service of England and Wales. From time to time offenders are released from custody who cannot return to their home area for a variety of reasons, including victim issues. As part of a national service, Peterborough Approved Premises, having taken into careful consideration all the relevant risks, will accept "out of area" referrals.

**Mrs. Helen Clark:** To ask the Secretary of State for the Home Department what arrangements are made to protect vulnerable young residents of bail hostels from residents who are known sex offenders. [153238]

**Paul Goggins** *[holding answer 6 February 2004]*: There are 100 approved premises (approved probation and bail hostels) managed by the National Probation Service for England and Wales. As a general rule, none of these approved premises admit anyone under the age of 18 years as a resident. In exceptional circumstances they may do so for short periods, but only if there were no Schedule I offenders at the approved premises at that time. The decision to admit anyone to an approved probation and bail hostel is only taken after a careful consideration of risk. This includes the risk to other residents.

**Mrs. Helen Clark:** To ask the Secretary of State for the Home Department (1) what records are kept of the number of sex offenders resident in bail hostels; [153239]

(2) how many sex offenders there were in Peterborough Bail Hostel in the last month for which figures are available; what percentage of the hostel's inmates this represented; and what the average percentage of sex offenders in bail hostels in England was in the last month for which figures are available. [153240]

**Paul Goggins** *[holding answer 6 February 2004]*: No published data is available on the numbers of offenders convicted or charged with sexual offences who are resident in approved premises.

### Cannabis

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what research the Department is carrying out into cannabis-related psychosis. [152708]

**Caroline Flint:** None. We rely upon the advice of the Advisory Council on the Misuse of Drugs. The Council's advice is based upon a wide-ranging review of the available research. The Council will continue to monitor the research carefully.

The Department of Health has commissioned research projects during 2002 and 2003 relating to cannabis and other substance misuse and harmful effects. Accordingly, I refer the hon. Member to the reply given by my right hon. Friend, the Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson), on 27 January 2004, *Official Report*, column 317W.

### Centre for the 3Rs

**Mr. Hancock:** To ask the Secretary of State for the Home Department if he will make a statement on the recommendation in the House of Lords report on Animals in Scientific Procedures for a Centre for the 3Rs, with particular regard to its projected *(a)* terms of reference and *(b)* budget. [154277]

**Caroline Flint:** In its report published in July 2002, the House of Lords Select Committee on animals in scientific procedures recommended the establishment of a United Kingdom centre for research into the 3Rs—the replacement of animal use, reduction of the number of animals used and the refinement of the procedures

involved to minimise suffering—consisting of a small, administrative hub co-ordinating research unit embedded in existing centres of scientific excellence.

In its response to the Select Committee's report, published in January 2003, the Government accepted this recommendation in principle and undertook to explore the case for such a centre. The Inter-Departmental Group for the 3Rs led by the Home Office, and including officials from the Department of Health, the Department for the Environment, Food and Rural Affairs, the Department of Trade and Industry, the Office of Science and Technology, the Food Standards Agency, the Health and Safety Executive, and other agencies, was tasked with taking this work forward.

The Inter-Departmental Group reported to me on its initial findings in September 2003 and I expect to receive its final report shortly. including advice on the possible activities of a centre and funding issues. Subject to that advice, we will announce how we intend to proceed with the Select Committee's recommendation in the next few weeks.

### Child Curfew Orders

**David Davis:** To ask the Secretary of State for the Home Department how many child curfew orders have been issued in England and Wales, broken down by local authority area. [152474]

**Paul Goggins:** Figures broken down by local authority areas are not available. The available information relating to the number of persons aged 10 to 17 years who have received a curfew order at court, by police force area, England and Wales 2002, is contained in the table.

Statistics on court proceedings for 2003 will be published in the autumn.

*Number of persons aged 10 to 17 years sentenced to a curfew order at all courts for all offences, by police force area: England and Wales 2002*[1]

| *Police force area* | *Sentenced to a curfew order* |
|---|---|
| Avon and Somerset | 67 |
| Bedfordshire | 20 |
| Cambridgeshire | 40 |
| Cheshire | 12 |
| Cleveland | 64 |
| Cumbria | 9 |
| Derbyshire | 37 |
| Devon and Cornwall | 17 |
| Dorset | 39 |
| Durham | 44 |
| Essex | 33 |
| Gloucestershire | 13 |
| Greater Manchester | 309 |
| Hampshire | 97 |
| Hertfordshire | 28 |
| Humberside | 14 |
| Kent | 75 |
| Lancashire | 87 |
| Leicestershire | 53 |
| Lincolnshire | 6 |
| London, City of | — |
| Merseyside | 29 |
| Metropolitan Police | 293 |
| Norfolk | 31 |
| Northamptonshire | — |
| Northumbria | 38 |
| North Yorkshire | 16 |
| Nottinghamshire | 48 |
| South Yorkshire | 68 |
| Staffordshire | 43 |
| Suffolk | 25 |
| Surrey | 8 |
| Sussex | 45 |
| Thames Valley | 89 |
| Warwickshire | 10 |
| West Mercia | 61 |
| West Midlands | 143 |
| West Yorkshire | 177 |
| Wiltshire | 5 |
| Dyfed Powys | 4 |
| Gwent | 11 |
| North Wales | 58 |
| South Wales | 87 |
| England and Wales | 2,353 |

[1] These data are on the principal offence basis.

### Constituency Case

**Kate Hoey:** To ask the Secretary of State for the Home Department when his officials will make a decision on the application of a constituent of the hon. Member for Vauxhall (HO Ref: T1129612). [155580]

**Beverley Hughes:** The Home Office received the application on 27 January 2004. Officials will aim to make a decision on the application within the published 13 week target date.

### Crime and Disorder Partnerships

**Chris Ruane:** To ask the Secretary of State for the Home Department how many *(a)* anti-social behaviour orders, *(b)* acceptable behaviour contracts, *(c)* child curfew orders and *(d)* injunctions have been issued in the County of Denbighshire in each year since 1998. [154313]

**Ms Blears:** The information requested is as follows:

*Anti-social behaviour orders (ASBOs).* No notifications have been received by the Home Office of ASBOs issued within the county of Denbighshire since their introduction from 1 April 1999 up to 30 September 2003 (latest available).

*Acceptable behaviour contracts (ABCs).* Data on the number of ABCs are not collected centrally.

*Child curfew Orders.* Data extracted from the Home Office Court Proceedings Database shows that, of juveniles (aged 10 to 17) sentenced to a curfew order, at all courts for all offences, in the Denbighshire Petty Sessional Area, between the years 1998 to 2002, there was one imposed in 2000 and six in 2002.

*Injunctions.* Data are not collected centrally by my Department on the number of injunctions issued.

### Criminal Justice Act

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make a statement on the sentencing arrangements in the Criminal Justice Act 2003. [152849]

**Paul Goggins:** The Criminal Justice Act 2003 introduced wide changes to the sentencing powers of the courts;

For the first time, we have made explicit the purposes of sentencing and put them into statute. They are: public protection, punishment, crime reduction and reparation and the reform and rehabilitation of offenders.

We have also put in place key principles to guide the Court when determining the seriousness of the offence and the severity of the resulting sentence. The most important of these is that previous convictions (where they are recent and relevant) should be treated as an aggravating factor when determining sentence severity.

The courts must treat offences as aggravated, for sentencing purposes, where the victim's race, religion, sexual orientation or disability has been a contributing factor.

The Act establishes a new Sentencing Guidelines Council whose role will be to promote consistent sentencing and which will be responsible for issuing guidelines on sentencing for the range of criminal offences.

Magistrates will be able to sentence offenders for terms of imprisonment of up to 12 months instead of the current six months maximum.

The Act provides a new indeterminate sentence for dangerous offenders, which means such an offender can be kept in custody until the Parole Board assesses him as presenting a risk which is manageable in the community.

We are transforming the structure of short prison sentences so that they will be more effective at addressing the needs of offenders. New custodial sentences of less than 12 months will consist of a short 'custodial period' of between two weeks and three months followed by a 'licence period' of at least six months.

The Act introduces intermittent custody for low risk offenders where the term of imprisonment is between 28 and 51 weeks duration. Intermittent custody allows for the sentence to be served either during weekdays or weekends, so that offenders can maintain jobs and relationships that contribute to rehabilitation.

The generic community sentence will allow sentencers a much greater degree of flexibility in putting together tough community sentences that will be tailored to the needs of offenders at any level of seriousness. Where a court decides to impose a community sentence this can be tailored to fit the individual and may include an order to perform unpaid work or specific activities. It may also include exclusion orders or orders for treatment for drug or alcohol abuse.

### Czech Migrants

**David Davis:** To ask the Secretary of State for the Home Department (1) if he will make a statement on the content of the advertising campaign his Department commissioned from the International Organisation for Migration regarding immigration from the Czech Republic to Britain; [154151]

(2) how much his Department has paid to the International Organisation for Migration to launch an advertising campaign in the Czech Republic regarding migration to Britain; and if he will make a statement; [154152]

(3) for what reasons his Department asked the International Organisation for Migration to launch an advertising campaign in the Czech Republic; and whether such campaigns have been considered for other countries joining the European Union on 1 May. [154153]

**Beverley Hughes:** We will make an announcement on these matters shortly.

### Departmental Relocation

**Ms Walley:** To ask the Secretary of State for the Home Department how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146909]

**Fiona Mactaggart:** In January 2004, the number of staff employed by the Home Office in the West Midlands was 5,856 and North Staffordshire was 176.

### Disclosure Notices

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many notices imposing a disclosure requirement have been made under section 49 of the Regulation of Investigatory Powers Act 2000. [155053]

**Caroline Flint:** None. Part III of Regulation of Investigatory Powers Act 2000, which includes the provision for giving notices under section 49, has not yet been implemented.

### Driving Convictions

**Mr. Milburn:** To ask the Secretary of State for the Home Department how many convictions for *(a)* causing death by dangerous driving, *(b)* dangerous driving and *(c)* careless driving there were in each of the last five years. [154333]

**Ms Blears:** Information for England and Wales from the years 1997 to 2001 is given in the table. 2002 data will be available in the spring.

*Findings of guilt at all courts for specific offences, England and Wales, 1997–2001*

*Number of offences*

| *Offence* | *1997* | *1998* | *1999* | *2000* | *2001* |
|---|---|---|---|---|---|
| Causing death by dangerous driving[1] | 237 | 235 | 190 | 210 | 273 |
| Dangerous driving[2] | 5,926 | 5,742 | 5,243 | 5,184 | 5,375 |
| Careless driving[3] | 55,758 | 52,144 | 46,763 | 41,326 | 36,939 |

[1] Offence under the Road Traffic Act 1988, s1 as amended by the Road Traffic Act 1991 s1 and Criminal Justice Act 1993 s67.
[2] Offence under the Road Traffic Act 1988 s2 as amended by the Road Traffic Act 1991 s2.
[3] Offence under the Road Traffic Act 1988 s3, ss 12(1), 26(2), 33(3) & 168; Road Vehicles (Construction & Use) Regulations 1986 Regs. 19, 104–107 & 109.
*Note:*
Figures amended since publication of the Home Office 'Offences relating to motor vehicles England and Wales 2001 Supplementary tables'.

### Eulisa de Freitas

**Mr. Steen:** To ask the Secretary of State for the Home Department pursuant to the answer of 18 December 2003, *Official Report*, column 1057W, on Miss Eulisa de Freitas, and following receipt of new information provided to her by the Chief Justice of the Supreme Court of Saint Helena and disclosure that Miss de Freitas' father, holds a British passport, if the Minister of State (Citizenship, Immigration and Counter-terrorism) will now meet the hon. Member for Totnes to discuss the renewal of Miss Eulisa de Freitas' British passport for a further period. [146656]

**Beverley Hughes** *[holding answer 12 January 2004]:* I refer the hon. Member to my letter of 27 January 2004.

### Fear of Crime

**Dr. Murrison:** To ask the Secretary of State for the Home Department what steps are being taken to combat the fear of crime among elderly people. [153817]

**Ms Blears:** We are committed to reducing the levels of fear of crime among older people. We are addressing the misperceptions about crime by promoting the facts about crime levels and common sense precautions which individuals can take to prevent becoming a victim. In order to do this we have been working with charities such as Help the Aged and Age Concern to find new and better ways of tackling fear among the older population, as well as tackling the crimes committed against them.

A Fear of Crime Toolkit was published on the Home Office Crime Reduction website in May 2003 to provide best practice to all the practitioners who are working towards reducing fear of crime within communities and vulnerable groups.

### Firearms

**Mr. Paice:** To ask the Secretary of State for the Home Department if he will ensure, following his decision not to renew the Firearms Consultative Committee, that account will be taken of the interests of legal owners of firearms for sporting purposes in his review of firearms legislation; and what measures he proposes to ensure that these interests will be represented on a future firearms advisory body. [155308]

**Caroline Flint:** We are currently considering the establishment of a new consultative structure and will certainly wish to ensure that all interested parties, including sports shooters, are properly represented.

### Georgia

**Tom Cox:** To ask the Secretary of State for the Home Department what assistance his Department has offered to the new President of Georgia in reforming its police force; and if he will make a statement. [154469]

**Ms Blears:** The UK, together with its international partners, is presently considering what assistance we can provide to Georgia. My Department has not yet offered any assistance to the new President of Georgia in reforming its police force. However, I will give careful consideration to any future requests for either bilateral police assistance, or policing assistance through the international community, that my Department receives.

### Hillingdon Judgment

**Mr. Malins:** To ask the Secretary of State for the Home Department (1) what decision has been made regarding increased funding for local authorities affected by the Hillingdon judgment of 2003; and if he will make a statement; [153014]

(2) how much extra funding has been *(a)* earmarked for and *(b)* paid (i) to each local authority which has a UK port or airport and (ii) specifically in respect of (A) Heathrow airport, (B) Gatwick airport, (C) Stansted airport and (D) the ports of Dover and Folkestone following the Hillingdon judgment of 2003. [153015]

**Beverley Hughes** *[holding answer 5 February 2004]:* The Hillingdon judgment mainly concerns the availability of leaving care services for former unaccompanied asylum seeking children who have turned 18. Funding for leaving care services is provided by the Department for Education and Skills. My right hon. friend, the Secretary of State for Education and Skills announced on 19 November 2003 that an additional £10 million would be made available from 2004–05 to top up the existing funding for care leavers.

The Home Office provides funding for the support of unaccompanied asylum seeking children aged under 18 through an annual grant to local authorities. The unit cost rates for 2003–04 were announced in a letter from the Director of NASS to local authorities on 15 January. For those aged 16 and 17 the rate is £300 per child per week. This represents a 15 per cent. increase over the previous year. For those aged 15 and under the rate is £670 per child per week, an increase of 17 per cent.

The arrangements announced on 15 January also allow for authorities who believe they have incurred significant additional costs to seek to have their level of grant considered under special circumstances arrangements. It is not possible to specify the amounts any authority will receive until these processes are complete. I would expect authorities receiving higher numbers of unaccompanied asylum seeking children, for example those with major air or sea ports in their area, to seek additional funding under these arrangements.

### Illegal Immigrants

**Mr. Lilley:** To ask the Secretary of State for the Home Department how many people who originally entered the UK illegally in 2002 and previous years were *(a)* granted asylum, *(b)* granted exceptional leave to remain and *(c)* removed in 2002. [152861]

**Beverley Hughes** *[holding answer 4 February 2004]:* The information requested is not available. Information is not collated centrally on how many asylum applicants

enter the UK illegally in any given year. The available information could be obtained only at disproportionate cost by examination of individual case records and would be unreliable.

Overall it is estimated that 42 per cent. of total asylum applications made in 2002 resulted in grants of asylum (10 per cent.), or of exceptional leave to remain (23 per cent.) or in allowed appeals (10 per cent.), including outcomes occurring after 2002. Corresponding information on the numbers of failed asylum seekers who applied in 2002 and have subsequently been removed is not available and could be produced only at disproportionate cost by examination of individual case files.

Information on the outcomes of asylum-related initial decisions, and appeals, and removals is published in the annual statistical bulletin 'Asylum Statistics United Kingdom 2002', a copy of which is available from the Library, and quarterly on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next publication will be available on 24 February 2004.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department what estimate he has made of how many illegal immigrants will be prevented from entering the UK in a year by photocopying air passengers' passports. [153125]

**Beverley Hughes:** A requirement for carriers to provide copies of travel documents would enable quicker determination of genuine identity, thereby speeding up processing times for asylum claims, which reduces detention and support costs. This would also assist with the redocumentation and removal process for those passengers who subsequently make unfounded asylum claims. The application of such a power should also deter a number of unfounded asylum applicants and illegal entrants from travelling to the UK in the first place. The proposed targeted approach of this power would allow effort to be concentrated on routes and areas of greatest concern. We are discussing with the airlines proposals for a voluntary trial scheme, whose results will help to establish how the new power would be most effective.

## Immigration (Wales)

**Mr. Wiggin:** To ask the Secretary of State for the Home Department how many *(a)* asylum applicants, *(b)* failed asylum applicants, *(c)* successful asylum applicants and *(d)* settled asylum seekers there are in Wales; and what the estimated number of illegal immigrants is in Wales, broken down by (i) police force, (ii) constituency and (iii) local authority area for each year since 1997. [151737]

**Beverley Hughes:** The information is not available in the form requested.

Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. Asylum seekers currently in the UK are either in receipt of support from the National Asylum Support Service (NASS) or from local authorities, or are supporting themselves.

Information on numbers of asylum applications and decision outcomes relating to asylum seekers in particular areas of the UK is unavailable as are statistics regarding the location of asylum seekers not in receipt of NASS support. There are no reliable figures available on the refugee or illegal immigrant population.

The following table shows the number of asylum seekers (including dependants) accommodated by MASS and receiving subsistence only support in Wales as at the end of each quarter since December 2001.

| *As at end:* | *In receipt of subsistence only support* | *Supported in MASS accommodation* |
|---|---|---|
| December 2001 | 140 | 700 |
| March 2002 | 160 | 1,020 |
| June 2002 | 175 | 1,150 |
| September 2002 | 180 | 1,405 |
| December 2002 | 180 | 1,585 |
| March 2003 | 185 | 1,870 |
| June 2003 | 175 | 2,130 |
| September 2003 | 160 | 2,350 |

*Note:*
Figures are rounded to the nearest 5.

Information on NASS supported asylum seekers can be broken down to local authority level and parliamentary constituency level.

The following table shows the numbers of asylum seekers in Wales at local authority level (available from December 2002).

| *As at end:* | *Cardiff* | *Neath Port Talbot* | *Newport* | *Swansea* | *Wrexham* | *Other*[1] |
|---|---|---|---|---|---|---|
| *December 2002* | | | | | | |
| Subsistence | 70 | — | 25 | 15 | — | 70 |
| Accommodation | 1,000 | * | 115 | 410 | 55 | — |
| *March 2003* | | | | | | |
| Subsistence | 75 | — | 20 | 20 | — | 70 |
| Accommodation | 1,105 | 5 | 135 | 585 | 45 | — |
| *June 2003* | | | | | | |
| Subsistence | 65 | — | — | 25 | — | 85 |
| Accommodation | 1,165 | 5 | 200 | 710 | 50 | — |
| *September 2003* | | | | | | |
| Subsistence | 60 | — | — | 20 | — | 75 |
| Accommodation | 1,230 | 5 | 280 | 790 | 45 | — |

[1] Local authorities with fewer than 20 asylum seekers in receipt of subsistence only support are grouped as 'other'.

*Note:*
Figures are rounded to the nearest 5 with * = 1 or 2.

The following table shows the number of asylum seekers in Wales at parliamentary constituency level (available only as at end September 2003).

| | *In receipt of subsistence only support* | *Supported in NASS accommodation* |
|---|---|---|
| Aberavon | 5 | 5 |
| Alyn and Deeside | 5 | — |
| Caerphilly | 10 | — |
| Cardiff Central | 25 | 530 |
| Cardiff North | 5 | 85 |
| Cardiff South and Penarth | 20 | 420 |
| Cardiff West | 10 | 200 |
| Clwyd South | — | 5 |
| Clwyd West | 5 | — |
| Conwy | 5 | — |
| Cynon Valley | 5 | — |
| Gower | 5 | 15 |
| Llanelli | 5 | — |
| Newport East | 5 | 115 |
| Newport West | 10 | 165 |
| Swansea East | 5 | 470 |
| Swansea West | 10 | 305 |
| Torfaen | 5 | — |
| Wrexham | 5 | 40 |

*Note:*

Figures are rounded to the nearest five and parliamentary constituencies with one or two asylum seekers resident are excluded from the table. The parliamentary constituency boundaries have been created using the November 2003 Office for National Statistics definitions.

### Immigration and Asylum Fingerprint System

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many times the Immigration and Asylum Fingerprint System has been accessed by *(a)* Interpol, *(b)* the National Criminal Intelligence Service, *(c)* the anti-terrorism branch of the Metropolitan police and *(d)* metropolitan and provincial forces. [151411]

**Beverley Hughes:** Locally held Immigration Service records show that the following requests were made for access to the Immigration and Asylum Fingerprint System (IAFS) between January and December 2003:

| | *Number of requests for access to IAFS* |
|---|---|
| Interpol/NCIS | 132 |
| Anti terrorist branch (Metropolitan police) | 664 |
| Metropolitan and provincial forces | 230 |

In November 2003 an electronic link was established between the police fingerprint database (NAFIS) and the Immigration and Asylum Fingerprint System. The Police IT Organisation (PITO) have provided the following figures for searches made following the establishment of this link:

November 2003: 177 (of which 23 were made by the metropolitan and provincial forces)

December 2003: 181 (of which 57 were made by metropolitan and provincial forces)

January 2004: 394 (of which 43 were made by metropolitan and provincial forces).

We are unable to specify the number of searches requested by NCIS, Interpol or the Anti Terrorist branch of the Metropolitan police without detailed examination of the cases concerned which would be at a disproportionate cost.

**Mr. Oaten:** To ask the Secretary of State for the Home Department whether the Sri Lankan authorities have accessed fingerprints taken from visa applicants under the six-month pilot scheme, *(a)* directly through the UK authorities and *(b)* indirectly through Interpol. [151412]

**Beverley Hughes:** The Sir Lankan authorities have not accessed fingerprints taken from visa applicants under the six-month pilot scheme, either *(a)* directly through the UK authorities or *(b)* indirectly through Interpol.

### Immigration and Crime

**Bob Spink:** To ask the Secretary of State for the Home Department what research has been conducted into links between *(a)* legal immigration, *(b)* illegal immigration and *(c)* failed asylum bids and levels of (i) violent crime, (ii) property crime and (iii) car crime. [153099]

**Beverley Hughes:** The Research, Development and Statistics Directorate of the Home Office commissions and undertakes a broad programme of research on asylum and immigration. Within this, research is currently being developed which will explore the links between legal and illegal migration.

At present there is no evidence to suggest that asylum seekers are more likely to commit crime than any other person living in the United Kingdom.

### Immigration and Nationality Directorate

**Mr. Love:** To ask the Secretary of State for the Home Department what training is available to Immigration and Nationality Directorate caseworkers before they begin work processing asylum applications. [153701]

**Beverley Hughes:** All new asylum caseworkers receive intensive training, comprising an initial 11-day course on all aspects of asylum work, 13 days in a special mentoring unit, and a 3-day intensive interviewing course (which is followed up by a consolidation workshop after 3 months in post). They receive continual support and mentoring from more experienced colleagues in a team working environment where the sharing and pooling of acquired expertise is actively encouraged. They also receive any additional training or mentoring necessitated by changes in legislation, policy and procedures, and attend developmental presentations or seminars provided by organisations such as UNHCR and the Medical Foundation. The effectiveness of the training is regularly evaluated to ensure that it continues to match the induction and development needs of new caseworkers.

### Immigration Service (Child Detainees)

**Mrs. Brooke:** To ask the Secretary of State for the Home Department how many children are being detained in centres run by the Immigration Service. [151862]

**Beverley Hughes** *[holding answer 29 January 2004]:* The Immigration and Nationality Directorate (IND) internal management information indicates that on 26 January 2004, 35 children were in detention.

Information on the number of people detained solely under Immigration Act powers at 27 December 2003 is due to be published on 24 February 2004 in the Asylum Statistics: 4th Quarter 2003 publication on the Home Office website: www.homeoffice.gov.uk/rds/immigration1.html.

### Khat

**Mr. Rosindell:** To ask the Secretary of State for the Home Department what estimate he has made of how much crime is committed by people under the influence of khat. [154856]

**Caroline Flint:** Khat is not a controlled drug and no routine statistics are collected about its use to enable a quantitative exploration of the extent of link with crime. However, the Home Office is in the process of commissioning a small-scale study, to report in the first half of next year, which will look at khat use in specific communities and explore qualitatively whether there may be a link with use of controlled drugs or offending behaviour.

**Mr. Rosindell:** To ask the Secretary of State for the Home Department what plans he has to ban khat. [154857]

**Caroline Flint:** The Government have no plans at present to ban khat or to control it under the Misuse of Drugs Act 1971, but the Advisory Council on the Misuse of Drugs, which advises on these matters, keeps its legal status under review.

The Government are also considering ways to address the problems of khat misuse as part of a wider diversity initiative to ensure that the national drug strategy meets the needs of all our communities. This will include the development of appropriate drug prevention materials and information to raise awareness about khat misuse.

### Marriages

**Mr. Malins:** To ask the Secretary of State for the Home Department whether it is his policy to permit persons to marry in this country without both parties satisfying the authorities, prior to the marriage ceremony, as to their immigration status; and if he will make a statement. [143215]

**Beverley Hughes:** In order to marry in the United Kingdom, a couple must demonstrate that they have the legal capacity to marry and are not of a blood relationship. The immigration status of a person is not a legal impediment to them marrying here.

A person will only be granted leave to remain in the United Kingdom on the basis of marriage if the requirements of the Immigration Rules relating to marriage are met.

The Immigration and Asylum Act 1999, places a statutory duty on registrars to report to the Home Office those marriages where they have reasonable grounds for suspecting that the marriage will be a sham.

Last year there were around 2,700 reports of suspicious marriages from registrars. On receipt, the reports are examined to ensure that the suspicions warrant further investigation. If appropriate, the papers are passed to whichever office is in the best position to deal with it. This would normally be the local Immigration Service enforcement office.

Action has led to the successful apprehension of immigration offenders. Several "professional" spouses, and their prospective husbands and wives, have gone to prison for sentences ranging from three to nine months.

### Metropolitan Police

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many firearms are *(a)* in use and *(b)* on order by the Metropolitan police. [155050]

**Ms Blears:** The Commissioner of Police of the Metropolis informs me that there are *(a)* 2,965 firearms owned by the Metropolitan Police Service and *(b)* a further 40 firearms on order.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what plans the Metropolitan police has to increase the number of trained firearms officers. [155051]

**Ms Blears:** The Commissioner of Police of the Metropolis informs me that the number of trained firearms officers is constantly kept under review to ensure that sufficient officers are available to provide an appropriate response and to meet contingencies, perceived risk and anticipated threat levels.

### Migrant Workers

**Angela Eagle:** To ask the Secretary of State for the Home Department what steps his Department is taking to tackle illegal exploitation of migrant workers; and what steps his Department is taking to improve coordination with the Department of Work and Pensions on this issue. [154631]

**Beverley Hughes:** We are pursuing our policy of managed migration so that those who want to apply to come and work in the United Kingdom lawfully to meet the country's economic needs can do so on the basis of informed choice and with access to the rights and freedoms available to other workers. In combination, we are strengthening action against illegal working. The Asylum and Immigration (Treatment of Claimants) Bill, currently before Parliament, will create a new offence of trafficking for exploitation, including forced labour, with a maximum penalty of 14 years. We intend to strengthen the document checks employers are required to carry out under section 8 of the Asylum and Immigration Act 1996. We have been active tackling issues related to gangmasters and support the objectives set out in the Gangmasters (Licensing) Bill introduced by the hon. Member for West Renfrewshire (Jim Sheridan). We are increasing the number of illegal working operations generally and are targeting organised traffickers under the auspices of the Reflex taskforce.

The Immigration Service already has close working-level contacts with the Department for Work and Pensions (DWP), and regularly carries out joint

enforcement operations with officials from that Department. We have established a joint intelligence cell with the DWP National Identity Fraud Unit to facilitate closer co-ordination.

### Ministerial Meetings

**Richard Ottaway:** To ask the Secretary of State for the Home Department whether it is his Department's policy to make notes of *(a)* meetings and *(b)* telephone conversations involving Ministers; and under what circumstances no notes would be made. [149805]

**Mr. Blunkett:** My Department follows the central "Guidance on the Management of Private Office Papers" which makes clear that good record management procedures are necessary, not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

### Murder Cases

**Kevin Brennan:** To ask the Secretary of State for the Home Department how many murder cases were brought to trial in each police force area in England and Wales between 1982 and 2003 which resulted in *(a)* conviction, *(b)* acquittal and *(c)* conviction later overturned on appeal. [152535]

**Paul Goggins:** The latest figures for England and Wales are given in Home Office Statistical Bulletin number 01/04, "Crime in England and Wales 2002–03: Supplementary Volume 1: Homicide and Gun Crime", a copy of which is available from the House of Commons Library or internet site: http://www.homeoffice.gov.uk/rds/hosbpubs1.html

Information on appeals is not held centrally.

In England and Wales from January 1982 to March 2003, 13,897 suspects were indicted for homicide. Of these, 10,387 were convicted of homicide and 2,666 were acquitted.

### National Offender Management Service

**Mr. Hancock:** To ask the Secretary of State for the Home Department how he will ensure that links with criminal justice boards, crime reduction partnerships and multi-agency public protection panel arrangements are retained under the arrangements for the National Offender Management Service. [151622]

**Paul Goggins** *[holding answer 4 February 2004]:* Inter-agency work to protect the public and encourage rehabilitation will be a central element of the work of the National Offender Management Service.

The details of the National Offender Management Service and its links with Criminal Justice Boards, Crime Reduction Partnerships and Multi Agency Protection Panels will be developed as part of the implementation of the Reducing Crime-Changing Lives reforms.

**Mr. Hancock:** To ask the Secretary of State for the Home Department what lines of accountability will lie between local offender managers and regional offender managers under the arrangements for the National Offender Management Service. [151623]

**Paul Goggins** *[holding answer 4 February 2004]:* The structure of the National Offender Management Service is yet to be finalised. As part of the implementation of the Reducing Crime—Changing Lives reforms the implementation team will consider the lines of accountability between local offender managers and regional offender managers which will be subject to full consultation with staff and unions.

**Mr. Hancock:** To ask the Secretary of State for the Home Department whether human resource and finance facilities for probation areas will be provided at regional level under the arrangements for the National Offender Management Service. [152204]

**Paul Goggins** *[holding answer 4 February 2004]:* The structure of the National Offender Management Service (NOMS), including the human resource and finance facilities, is not yet finalised. The implementation team will work closely with staff and unions to get the structure of NOMS right. No decisions have been made at this stage about changes to numbers terms of service or work locations and there will be full consultation on any proposed changes.

### Nurses

**Mr. Burstow:** To ask the Secretary of State for the Home Department for what reasons nurses working in the UK with a work permit are barred from registering with a nursing agency. [153102]

**Beverley Hughes:** Work permits are not issued to employment agencies and similar businesses for any employment because we wish to ensure that the employer is directly responsible for the duties of the post for which the work permit is issued. Work supplementary to that for which the permit is issued is also subject to this restriction. Overseas nurses are free to use the services of employment agencies and similar types of business to search for further employment opportunities, but it is for the employer, not the agency, that should apply for the work permit.

### Operation Puma

**Mr. Hawkins:** To ask the Secretary of State for the Home Department if he will make a statement on the *(a)* policing and *(b)* criminal justice implications of the collapse of the London City Bond and Operation Puma cases. [154654]

**Caroline Flint** *[holding answer 12 February 2004]:* Her Majesty's Customs and Excise are implementing the recommendations of the report by Mr. Justice Butterfield which reviewed a number of cases including those two. The Government have been reviewing the process for securing prosecutions in organised crime cases generally, and proposals will appear in a consultation document on tackling organised crime which we intend to publish shortly.

### Persistent Offenders

**Mr. Drew:** To ask the Secretary of State for the Home Department if he will change the definition of persistent offenders, with particular reference to rural areas. [151941]

**Paul Goggins:** The national Persistent Offender Scheme that came into effect in April 2003 defines a Core Persistent Offender as "someone who is 18 or over and has been convicted of six or more recordable offences in the last 12 months". The definition was developed in order to provide an objective test of persistent offending that can be applied across the criminal justice system. However the scheme recognises that there are individuals who do not meet this definition, who may be suspected of being prolific offenders on the basis of local intelligence. Therefore Local Criminal Justice Areas have the flexibility also to apply persistent offender strategies to "Local Persistent Offenders", identified on the basis of local intelligence and priorities, which could include issues of particular relevance to rural areas.

## Police

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many accidents involving police cars there were *(a)* in total and *(b)* involving fatalities in each year since 1997 (i) in England and Wales and (ii) in each police force area; and if he will make a statement. [155062]

**Caroline Flint:** The total number of accidents involving police vehicles in England and Wales is given in the table. The number of police and civilian fatalities arising from police responses to immediate/emergency calls and pursuits are also separately shown.

The Government welcome the recognition by the Association of Chief Police Officers (ACPO) that they must work to reduce the number of collisions involving police vehicles.

Measures already in place include a new police driver training course, launched in December 2000, which introduced a universal standard for driving in England and Wales. An essential element of the course is that officers should recognise the need to give priority to public safety above all other considerations such as attending an incident or apprehending a suspect.

Where pursuits are concerned, there is a nationally agreed ACPO Pursuit Code of Practice and it is already police policy to consider continuously the consequences of a pursuit and whether to break it off.

ACPO are working closely with the Police Complaints Authority (PCA) to identify how police vehicle collisions might be avoided. Useful information can be expected from the increasing use by forces of Automatic Data Recorders (ADR) and Vehicle Accident Data Recorders (VADR). These operate in a similar way to aircraft black boxes, providing data on such issues as speed, gear changes, breaking, and the use of blue lights.

[1] Indicate data not yet submitted by police force.

*Notes:*

1. The information is provided by Her Majesty's Inspectorate of Constabulary, to which forces submit statistical returns.
2. All figures are for financial years.
3. The figures for police vehicle accidents include all incidents in which a police vehicle sustains damage, including those where no other vehicle is involved. They encompass a very wide range of incidents from the very serious to the trivial, such as a scratched vehicle in a police yard.
4. Details of the number of fatalities involving police vehicles engaged in activities other than immediate/emergency response or pursuit are not centrally available.

### Prison and Probation Service

**Mrs. Gillan:** To ask the Secretary of State for the Home Department whether he has considered reclassifying the Prison and Probation Service as an emergency service. [152714]

**Paul Goggins:** The Government have not considered reclassifying the Prison and Probation Service as an emergency service and have no plans to do so.

### Prisons

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what factors have been identified as accounting for the increase of self-harming incidents in prisons between 1999 and 2003; and if he will make a statement. [154176]

**Paul Goggins** *[holding answer 10 February 2004]:* In December 2002 new procedures for reporting self-injury were introduced in prisons in England and Wales. The evidence suggests that much of the increase in reported self-harm in 2003 may result from this rather than an actual increase in the incidence of self-harm.

Beyond that, the reasons for any increase in prisoner self-harm may be related to the fact that the prison population includes a large number of prisoners with a combination of psychiatric disorders, alcohol and drug dependency, family background and relationship problems, histories of self-harm and previous abuse, all of which raise their risk of suicide and self-harm. Additionally, the current operating environment is very challenging because an increased prisoner population and movement of prisoners puts a strain on resources and makes it more challenging to prevent suicides and self-harm. Long-term trends suggest that self-inflicted deaths have been increasing since 1988, broadly in line with the increase in prison population.

A number of intervention strategies have been introduced into establishments for people who self-harm. These include counselling, support groups, and specialised psychological interventions. A network of establishments has been set up to develop interventions, facilitate evaluation and share good practice, and guidance to staff on managing people who self-harm has been circulated to establishments.

### Prisons and Probation Ombudsman

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what estimate he has made of the costs, and what extra resources will be provided, to the Prisons and Probation Ombudsman's office when he takes on responsibility for investigating deaths of prisoners, residents of probation hostels and detainees in immigration removal centres from April. [150725]

**Paul Goggins** *[holding answer 26 January 2004]:* Provisional estimates of the costs are in the region of £1.5 million a year. The Ombudsman's office is working on the detail of the new arrangements in consultation with my officials. The necessary extra resources will be provided as part of the Ombudsman's funding for the next financial year. In the meantime, we have provided an additional £100,000 for start-up costs in the current year.

### Released Prisoners

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will extend the length of time in which released prisoners can apply for Housing Benefit. [148895]

**Mr. Pond:** I have been asked to reply.

All customers, including those leaving prison, may make a Housing Benefit claim up to 13 weeks in advance. Where there is continuous good cause for delay customers may also apply for their Housing Benefit to be backdated. We have no plans to change these arrangements at present.

Jobcentre Plus currently assist released prisoners by waiving labour market conditions for the first seven days of their claim and by providing pre-arranged work focused interviews through the Freshstart initiative. As many Housing Benefit applications are linked to claims for Jobseekers Allowance or Income Support, this helps to ensure that Housing Benefit claims are made as early as possible.

### Royal Pardons

**Mr. Kilfoyle:** To ask the Secretary of State for the Home Department how many royal pardons of convicted criminals were agreed by the Home Secretary in each year between 1983 and 2003. [154575]

**Mr. Blunkett:** The two forms of the Royal Prerogative of Mercy (RPM) used to grant pardons to convicted criminals are:

(1) Free pardon ("free" in this context means that the pardon is free from any conditions); and

(2) Remission (the mitigation of punishment by releasing a prisoner from having to serve some or all of the remainder of his sentence; or releasing one who has been subjected to a monetary penalty from the obligation to pay it or part of it).

The figures from 1992 are in the following table. Figures for earlier years are not readily available and could be obtained only at disproportionate cost.

| | *Free Pardons* | *Remission*[1] |
|---|---|---|
| 1992 | 19 | 42 |
| 1993 | 22 | 34 |
| 1994 | 12 | 29 |
| 1995 | 12 | 1 |
| 1996 | 1 | 4 |
| 1997 | 0 | 3 |
| 1998 | 0 | 0 |
| 1999 | 0 | 0 |
| 2000 | 0 | 2 |
| 2001 | 0 | 0 |
| 2002 | 0 | 3 |
| 2003 | 0 | 0 |

*Note:*
These figures do not include the occasional use of RPM for small periods of remission to reward meritorious acts in prison (e.g. extinguishing a fire).

### Russian Citizens (Asylum)

**Mr. Banks:** To ask the Secretary of State for the Home Department how many Russian citizens have applied for political asylum in the UK during the past five years; and how many have been granted political asylum. [154685]

**Beverley Hughes:** The table shows the number of asylum applications and initial decisions for nationals of Russia (excluding dependants) in 1999, 2000, 2001, 2002 and from January to September 2003, the latest period for which published data is available. Initial decisions do not necessarily relate to applications received in the same period.

Information on asylum applications and decisions is published quarterly. The next publication covering the fourth quarter of 2003, and provisional full year data, will be available on 24 February 2004 on the Home Office Research Development and Statistics Directorate website at: http://www.homeoffice.gov.uk/rds/immigration1.html.

[1] Figures rounded to the nearest 5, with * = 1 or 2

[2] Decision figures do not necessarily relate to applications received in the same period

[3] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions

[4] May include some refusals under non compliance grounds

[5] Cases decided under pragmatic measures aimed at reducing the pre 1996 asylum backlog

[6] May include a small number of cases where asylum has been granted

[7] May include a small number of cases where the application has been refused on substantive grounds

[8] Revised figures

[9] Not applicable

### Seaside Towns

**Chris Ruane:** To ask the Secretary of State for the Home Department how many and what percentage of crimes in each ward, in each principal seaside town in England and Wales were drug-related, in the latest month for which figures are available, with figures for Welsh seaside town clusters disaggregated; and if he will make a statement. [154943]

**Caroline Flint:** There is currently no measure of drug-related offending at the local level. Existing data sources such as convictions, and recorded crime statistics are not available at ward level and do not contain information about offenders' drug use.

### Sentencing Guidelines Council

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make a statement on the work of the Sentencing Guidelines Council. [152840]

**Paul Goggins:** The role of the Sentencing Guidelines Council is to issue guidance on all aspects of sentencing so as to promote consistent and just sentencing by the courts within the framework provided by Parliament. Recruitment of members is currently under way.

### Tagging

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what assessment he has made of the case for *(a)* using tagging with an intensive supervision order and *(b)* making tagged offenders who can afford it pay a rental for tagging equipment. [150180]

**Paul Goggins:** The Intensive Supervision and Surveillance Programme (ISSP) operates within the supervision order for juveniles. The programme is being evaluated by Oxford university and the evaluation report with 12 month reconviction data is now expected in April 2004. Electronic tagging provides the main form of monitoring of the offender on ISSP. Other forms of monitoring include voice verification.

Electronic monitoring is also used with curfew orders and tagging on bail as well as early release from custody. Evaluation of tagging for juveniles on curfew orders has been published. Progress is also being made on developing the Intensive Control and Change Programme with tagging for 18 to 20-year-old adults and we are extending the pilot areas.

We have no proposals to charge juvenile or adult offenders for tagging. The financial benefits of charging offenders for use of tagging equipment are likely to be small and offset by administration and enforcement costs. Tagging is already a cost effective alternative to custody.

### Visas

**Mr. David:** To ask the Secretary of State for the Home Department what plans the Government have to *(a)* re-examine and *(b)* change visa arrangements for US nationals entering the United Kingdom. [153299]

**Beverley Hughes:** The Government have no plans to re-examine or change the entry clearance requirements for US nationals entering the United Kingdom, although all such requirements are kept under review.

**Mr. David:** To ask the Secretary of State for the Home Department what *(a)* the arrangements for the issuing of visas and *(b)* eligibility for visas are for (i) US citizens and (ii) other non-EU and non-Commonwealth citizens entering the United Kingdom. [153300]

**Beverley Hughes:** Arrangements for the issuing of visas are specific to the individual visa issuing Post and are influenced by factors such as the level of demand, and local security situation. Applicants may lodge applications online, in person or by courier service or post. Visa sections may return successful applicants' passports by courier service, or return their endorsed passport to them in person. In the US the visa issuing Posts in Chicago, Los Angeles and New York accept applications made on-line, by post or in person. Visa sections in non-EU or non-Commonwealth countries may operate any one or more of these methods.

US Nationals are not visa nationals and are therefore only obliged to apply for entry clearance to the UK in specific categories, as set out in the Immigration Rules or if coming to the UK for longer than six months. Visa nationals, which include certain non-EU and non-Commonwealth citizens, are required to obtain entry clearance to enter the UK for any period or purpose. Whether applying for entry clearance or not, the same conditions, as set out in the Immigration Rules, apply to all non-EU or non-Commonwealth nationals.

**Mr. Best:** To ask the Secretary of State for the Home Department what steps he is taking to reduce the time taken by his Department to respond to requests for information made by the Visa Section of the British High Commission in Harare about visa applicants. [149486]

**Beverley Hughes:** Immigration and Nationality Department officials are working closely with UKvisas to ensure that all requests for information are handled promptly, effectively and securely by those involved. On 10 January this year a new system was introduced making greater use of electronic transmissions. This will also provide an audit trail for each request for information. UKvisas and the relevant Home Office Departments are constantly reviewing the system. Work is currently under way to identify further improvements.

### Wetherby Young Offenders Institution

**Miss McIntosh:** To ask the Secretary of State for the Home Department pursuant to his answer of 14 January 2004, *Official Report*, column 762W, on HMYOI Wetherby, what assessment he has made of the reasons for the increases in costs per prisoner and cost per prisoner place; and what the *(a)* cost and *(b)* increase in cost is per (i) prisoner and (ii) prisoner place. [151692]

**Paul Goggins:** I refer the hon. member to the answer I gave to question (151131) on 9 February 2004 which set out the reasons for increases in the cost per prisoner and cost per prisoner place at HMYOI Wetherby between 1998–99 and 2002–03. The costs themselves were set out in my previous answers to questions 145649 and 145650.

### Work Permits

**Keith Vaz:** To ask the Secretary of State for the Home Department how many work permits were issued in 2002. [145413]

**Beverley Hughes:** Under the work permit arrangements, 136,151 approvals were issued during the calendar year 2002. This figure includes initial approvals and approvals of applications to extend and to change existing work permits. It represents a 13 per cent. increase on the numbers of approved in 2001 and a 203 per cent. increase since 1997. These increases are part of our overall policy of expanding legal migration where it meets the needs of the economy while bearing down on illegal migration.

**Mr. Baron:** To ask the Secretary of State for the Home Department how many work permits were granted to health care professionals to work in the United Kingdom in each of the last 10 years, broken down by *(a)* country of origin and *(b)* profession. [151609]

**Beverley Hughes:** *[holding answer 29 January 2004]:* The tables provide figures for the numbers of work permits granted to health care professionals between 1995 and 2003 (the period for which information is available) broken down by country of origin, and between 2000 and 2003 broken down by occupation.

A breakdown by occupations for the years 1995 to 1999 can be obtained only at disproportionate cost.

*All health and medical work permit applications approved, broken down by country of origin: 1995*

[1] Figures are only available for the period January to September 2003.

**Zimbabwe**

**Mr. Malins:** To ask the Secretary of State for the Home Department how many people sought asylum from Zimbabwe in the last 12 months; how many applications *(a)* succeeded and *(b)* failed; how many failed applicants have been removed; and how many were white Zimbabwean farmers in each case. [154041]

**Beverley Hughes** *[holding answer 1 February 2004]:* The following tables show the number of asylum applications, initial decisions and appeal outcomes between October 2002 and September 2003 and the number of removals between October 2002 and June 2003, the latest published figures available, for nationals of Zimbabwe. Initial decisions do not necessarily relate to applications made in the same period. Appeals do not necessarily relate to refusals of grants of asylum, humanitarian protection or discretionary leave made in the same period. Removals do not necessarily relate to initial decisions or appeal outcomes made in the same period.

Information on the ethnic origin or occupation of asylum applicants is unavailable. The requested information could be obtained only at disproportionate cost by examination of individual case records.

Information on asylum applications, initial decisions on asylum applications, appeal outcomes and removals by nationality is published in quarterly web pages and in the annual statistical bulletin Asylum Statistics United Kingdom, available from the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next quarterly publication, covering the fourth quarter of 2003 and provisional full year data, will be published on 24 February.

| Total | 55 |

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under assisted voluntary return programmes run by the International Organisation for Migration, and removals on safe third country grounds.
[2] Figures rounded to the nearest five with * denoting 1 or 2 and may not sum to total due to rounding.
[3] Data have been estimated due to data quality issues.
[4] Provisional figures.

**Mr. Malins:** To ask the Secretary of State for the Home Department what his policy is on the removal of failed asylum seekers from Zimbabwe; and if he will make a statement. [154042]

**Beverley Hughes** *[holding answer 10 February 2004]:* My right hon. Friend the Home Secretary announced in January 2002 a suspension of removals of failed asylum seekers to Zimbabwe. This was in response to concerns about the serious deterioration in the situation in Zimbabwe in the build-up to the presidential election held in March that year. We did not, at that time, regard it as unsafe to return failed asylum seekers to Zimbabwe, but in view of the rapidly changing conditions we considered that it would be appropriate not to enforce returns.

The Government's position is, as it has been since January 2002, that each asylum (and human rights) claim made by a Zimbabwean national will be considered on its individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Each application is considered against the background of the latest available country information including that obtained from and through the Foreign and Commonwealth Office.

We do of course recognise that conditions in Zimbabwe are such that there are individuals who are able to demonstrate a need for international protection. Where they meet the definition of a refugee in the 1951 convention, asylum is granted. There may also be individuals whose circumstances make them particularly vulnerable and who would engage our obligations under the ECHR. Where this is the case these individuals will be granted humanitarian protection or discretionary leave.

In the first nine months of last year, we granted asylum to 755 Zimbabweans and granted other forms of protection to 30 others. These statistics show that we are giving protection to the significant number of people who are found to be in need of it.

If an application is refused, there will be a right of appeal to the independent appellate authorities against that decision. Should a claim be refused and any appeal be unsuccessful that means that, for that individual, return to Zimbabwe would be safe. That is why we consider it reasonable to expect an individual in that position to leave voluntarily.

However, although it would be safe for failed asylum seekers to return to Zimbabwe, our view at present is that in the wider context of the Government's position on Zimbabwe, it would be inappropriate forcibly to return them at this time. The exceptions we would make to that policy are in cases where a failed asylum seeker

had a serious criminal record or their presence in the United Kingdom was not otherwise conducive to the public good. In such circumstances enforced return to Zimbabwe would be considered by Ministers on a case by case basis.

The policy remains under continuous review.

## HEALTH

### Road Safety

**Peter Bottomley:** To ask the Secretary of State for Health if he will commission a study of the effect of time delay in summoning help on fatalities and serious injuries following road crashes. [154918]

**Ms Rosie Winterton:** The Government's objective is to save more lives by providing faster, more responsive emergency ambulance services, with better trained staff; and to deliver improved patient assessment and treatment while making more use of technology.

Immediately life-threatening emergency calls (Category A) should be responded to 75 per cent. of the time within eight minutes, irrespective of location. Clinical evidence shows that achievement of the 75 per cent. standard could save as many as 1,800 lives each year.

Other emergency calls that are not life threatening should be responded to 95 per cent. of the time within 14 minutes in urban areas and 19 minutes in rural areas.

The latest information about ambulance performance is contained in the Department of Health Statistical Bulletin, "Ambulance Services, England 2002–03". Copies of the bulletin have been placed in the Library.

### Acute Care

**Mr. Burstow:** To ask the Secretary of State for Health what guidance his Department has published to ensure that patients who have received specialist acute care are referred for aftercare to a hospital close to the patients' homes; and if he will make a statement. [155152]

**Dr. Ladyman:** In January 2003, the Department published a good practice guide; "Discharge from hospital: pathway, process and practice". This puts the patient and their carer at the heart of the process for discharge from acute hospital care to other forms of care. February 2003 guidance on reconfiguration, "Keeping the NHS Local", also emphasises the need to expand the range of local options available from providers across the whole health and social care system.

### Acyl-CoA Dehydrogenase Deficiency

**Mr. Flook:** To ask the Secretary of State for Health if he will list the areas that will start screening newborn children for medium chain acyl-CoA dehydrogenase deficiency, broken down by primary care trust. [155171]

**Dr. Ladyman:** Six laboratories in England are screening newborn children for medium chain acyl-CoA dehydrogenase deficiency for 24 months. This is the first stage of a five-year programme to assess the potential impact of screening. The pilot covers children born in and around Birmingham, Sheffield, Leeds, Manchester, parts of London and South East counties.

### "Agenda for Change"

**Mr. Burstow:** To ask the Secretary of State for Health if he will publish the evaluation undertaken so far by his Department into the pilot trials of "Agenda for Change". [153109]

**Mr. Hutton:** The United Kingdom Health Departments, national health service unions and NHS employer representatives are reviewing the emerging evidence from the 12 "Agenda for Change" early implementer sites. The conclusions from this review should be known from late spring. Some emerging lessons from the early implementer sites, designed to support other NHS organisations in their preparatory work, are available on the web-sites of the Department of Health and NHS Modernisation Agency.

### Anaesthetists

**Mr. Peter Atkinson:** To ask the Secretary of State for Health what estimate he has made of the future demand for anaesthetists in Northumberland and Tyne and Wear Strategic Health Authority area following the introduction of the European Working Time Directive; and if he will make a statement on meeting the demand. [153811]

**Miss Melanie Johnson:** The Working Time Directive (WTD) is an integral part of modernising and improving services at all levels. Strategic health authorities (SHAs) are responsible for planning for implementation by national health service trusts of the WTD for doctors in training from August 2004, as part of their overall NHS planning.

It is for local organisations to determine the level of staff needed to implement the WTD and to deliver a quality service. Priority will be given to trusts facing WTD challenges in the allocation of an additional 1,500 locally funded specialist registrar training opportunities, subject to educational approval being obtained.

Figures from the September 2002 Department of Health census show that, in the Northumberland, Tyne and Wear SHA, there were 272 staff with a specialty in anaesthetics. Of these 138 were consultants. As part of the local delivery plans, the local health economy is planning an increase to 176.48 whole time equivalent consultants by 31 March 2006.

In addition to recruiting increased numbers of consultants, the NHS in Northumberland, Tyne and Wear is looking at new and innovative ways to provide services. This includes the implementation of the non-medical anaesthetics practitioner role at Northumbria Healthcare NHS Trust, which involves recruiting non-medical anaesthetic personnel from overseas.

### Asthma

**Mrs. Iris Robinson:** To ask the Secretary of State for Health how many asthma sufferers had their condition reviewed at least once in the last year for which figures are available. [154569]

**Dr. Ladyman:** The information requested is not collected centrally.

The question of the frequency of patient review is a purely clinical one and will depend on the circumstances of the individual patient.

The new general medical services contract significantly benefits patients by improving the quality of care and widening the range of services available at general practitioners' surgeries.

### Benefit Fraud

**Mr. Webb:** To ask the Secretary of State for Health how many staff in his Department have been *(a)* investigated, *(b)* suspended, *(c)* dismissed, *(d)* prosecuted and *(e)* convicted for involvement in benefit fraud in each of the last six years; and what amounts were involved in each case. [151998]

**Ms Rosie Winterton:** There are no recorded instances.

### Capital Investment (Newcastle)

**Mr. Cousins:** To ask the Secretary of State for Health if he will list *(a)* planned and *(b)* committed new capital investment programmes undertaken in the Newcastle Primary Care Trust area by the (i) Newcastle Primary Care Trust, (ii) Newcastle Hospitals Trust, (iii) Neuro Rehabilitation Trust, (iv) Northumberland, Newcastle and North Tyneside Trust and (v) Northgate and Prudhoe Trust since 1997–98, including PFI financed projects. [154607]

**Miss Melanie Johnson** *[holding answer 12 February 2004]:* Planned and committed capital investment programmes in the area covered by Newcastle Primary Care Trust since 1997–98 are as follows.

*1. Newcastle upon Tyne Hospitals National Health Service Trust*

*Planned*

A major private finance initiative (PFI) development, costing £220 million, will result in the transfer of acute services from Newcastle General Hospital to the Royal Victoria Infirmary (RVI) and Freeman Hospital. This will include a new cancer and renal care centre at the Freeman Hospital. At the RVI, there will be a new accident and emergency department, with all of the vital clinical supporting services accommodated together (for example, traumatic orthopaedics, neurosciences, diagnostic imaging and critical care), and a new children's wing. The Freeman Hospital developments are scheduled to open in mid-2006 and an opening date of late 2007 is scheduled for the developments at the RVI.

*Committed/completed*

A new children's intensive care unit and fracture clinic was opened in spring 2002 at a cost of £3 million.

A new 17-bed critical care unit at the Freeman Hospital, Newcastle was completed in 2003 at a cost of £4.5 million.

New facilities for cleft lip and palate services were developed during 2002–03 at a cost of £1.4 million.

The regional neurosciences centre at Newcastle General Hospital was improved and upgraded during 2002–03 at a cost of £1.2 million.

Facilities for dermatology patients were upgraded at the RVI during 2002–03, at a cost of £1.2 million.

A new energy centre at the RVI, costing £6.9 million and funded through the PFI, was opened during 2003.

A pharmacy manufacturing and stores scheme opened at the RVI during 2003 at a cost of £8.6 million.

A new antenatal clinic opened at the RVI during 2003. This was developed at a cost of £5.7 million.

Work has started on a multi-storey car park, funded through the PFI, costing £8 million, for completion in the autumn.

*2. Northgate and Prudhoe NHS Trust*

*Planned*

A £20 million Northern neuro disability centre is to be developed at Walkergate through the PFI. This is scheduled for completion in 2006 and will bring together current services at Hunters Moor Hospital, Newcastle, the Janie Heppell Unit and Annexe at Prudhoe Hospital and the Sanderson Centre and Hartside Unit at St. Nicholas Hospital, Newcastle. It will provide services for people with neuro disabilities caused by disease, illness or accident.

*3. Newcastle, North Tyneside and Northumberland Mental Trust NHS Trust*

*Planned*

A £20 million development is planned at St. Nicholas Hospital in Newcastle to improve adult medium and low secure forensic psychiatry accommodation and provide a new personality disorder unit. This is scheduled for completion in 2007.

*Committed/completed*

A rehabilitation unit at St. Nicholas Hospital was reprovided in 2002 at a cost of £1.2 million, as well as accommodation for the neuropsychiatry service, at a cost of £2 million.

*4. Newcastle Primary Care Trust*

*Committed*

More than £5 million is to be spent using NHS local investment finance trust (LIFT) to provide modern health centres in Kenton, Walker and Brunton Park. This is part of a scheme that will eventually transform more than 25 outdated health centres and community facilities across Newcastle and North Tyneside.

In a separate scheme, a new doctors' surgery in the west end of Newcastle is being developed at a cost of £2 million. This is being done in partnership between Prospect Medical Group and Prime, a private sector development. Work started last year and was scheduled for completion in February 2004.

*Planned*

As above—the LIFT project will eventually result in major improvements to more than 25 health centres across Newcastle and North Tyneside.

### Cardiac Care

**Mr. Andrew Turner:** To ask the Secretary of State for Health how many people from each primary care trust

area in England received cardiac treatment at Brighton hospitals in the most recent year for which information is available. [154873]

**Ms Rosie Winterton** *[holding answer 12 February 2004]:* Information on number of people from each primary care trust (PCT) area in England who have received cardiac treatment at Brighton hospitals, is shown in the table. The latest information available is for 2002–03.

*Cardiac procedures (OPCS4 codes K01-K71). All operation count of Episodes. Finished admission Episodes—For Brighton and Sussex University Hospitals NHS Trust by PCT of residence. NHS hospitals in England, 2002–03*

*Notes:*
1. Finished admission episodes—A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. All Operations count of Episodes—These figures represent a count of all FCEs where the procedure was mentioned in any of the 12 (4 prior to 2002–03) operation fields in a HES record. A record is only included once in each count, even if an operation is mentioned in more than one operation field of the record.
3. Low Numbers—Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with an asterisk.
4. Grossing—Figures have not (yet) been adjusted for shortfalls in data (i.e. the data are ungrossed).
*Source:*
Hospital Episode Statistics (HES), Department of Health.

### Care Homes

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what assessment he has made of differences in fee levels for care home places in different parts of the country. [155806]

**Dr. Ladyman:** Independent data published in July 2003 found that the number of care home places available nationally exceeded demand by 10,000. Where there are local capacity issues to be addressed, it is for local councils to assess the need for care home places in their areas in the light of local circumstances and preferences and to commission services to meet assessed needs. They should act in consultation with people needing services and local providers.

### Children's NHS Framework

**Mr. Cousins:** To ask the Secretary of State for Health when he will publish the Children's National Health Service Framework; and if he will make a statement. [155539]

**Dr. Ladyman:** The national service framework for children, young people and maternity services will be published later this year.

### Clinical Negligence

**Mr. Hurst:** To ask the Secretary of State for Health what the cost to the national health service resulting from clinical negligence was in each year from 1990 to 2002. [156016]

**Ms Rosie Winterton:** The total cost of medical negligence in each year since 1996, as prepared by the National Audit Office and presented in the National Health Service Summarised Accounts for England, is in the table. Information for the period 1990 to 1995 was not collected centrally.

*£ millions*

| | In year expenditure |
|---|---|
| 1996–97 | £235 |
| 1997–98 | £144 |
| 1998–99 | £221 |
| 1999–2000 | £373 |
| 2000–01 | £415 |
| 2001–02 | £446 |

*Note:*
Changes to accounting policies imposed by Her Majesty's Treasury over the years mean that these amounts are not directly comparable.

### Community Health Councils

**Dr. Tonge:** To ask the Secretary of State for Health for how many former community health council premises which are empty, payments for *(a)* leases, *(b)* rent, *(c)* rates and *(d)* security costs are still being made; [149762]

(2) what the estimated cost is of *(a)* maintaining and *(b)* securing empty community health council premises until alternative uses have been found. [149763]

**Ms Rosie Winterton:** There are currently 96 vacant community health council offices and the estimated cost for rent, rates, services and security is £1.62 million per annum. A number of these premises are under offer or are awaiting sale or assignment to other bodies, including national health service organisations, and the position will change as these progress.

**Dr. Tonge:** To ask the Secretary of State for Health what the cost was of abolishing community health councils. [149776]

**Ms Rosie Winterton:** It is not possible to give the exact costs for abolishing community health councils (CHCs). We have estimated the running costs for CHCs from 1 April to 1 December 2003 and for a residual period up to March 2004 at £15 million. Additionally, redundancy costs are estimated at £14.9 million and the estimated costs for rent, rates, servicing and security of vacant CHC offices is £1.62 million per annum. A number of these premises are under offer or are awaiting sale or assignment to other bodies, including national health service organisations, and the position will change as these progress.

### Nappies

**Norman Baker:** To ask the Secretary of State for Health what action the Government is taking to promote the use of reusable nappies in hospitals. [154771]

**Dr. Ladyman:** The Government firmly believes that women and their families should be given information on the use of both re-usable and disposable nappies to make an informed choice. The Pregnancy Book and Birth to Five are two comprehensive information booklets produced by the Department of Health, which are given free to all first time mothers. Both publications give detailed information on both reusable and disposable nappies, including information about nappy laundering services, and suggest that parents ask their midwife to show them how to fold/pin terry nappies if they decide to use them.

It is for individual units and trusts to decide on the practicalities of promoting the use of terry nappies in their own maternity units.

**Norman Baker:** To ask the Secretary of State for Health how much the NHS spent on the *(a)* purchase and *(b)* disposal of (i) disposable nappies and (ii) reusable nappies in the last year for which figures are available. [154772]

**Dr. Ladyman:** The National Health Service provides very few nappies for newborn babies; mothers are encouraged to provide their own nappies. The main exception is extremely premature babies, for whom commercially available nappies are too large. NHS-bought nappies are therefore provided.

The vast majority of nappies purchased by the NHS are provided for children with disabilities who are incontinent. We do not have central information on the purchase of reusable nappies.

During the financial year 2002–03, the NHS bought approximately 12 million disposable nappies, with a value of £1.5 million.

### Continence Wear

**Norman Baker:** To ask the Secretary of State for Health how much the *(a)* provision, *(b)* collection and *(c)* disposal of continence wear to older children and adults cost the NHS in the last year for which figures are available. [154773]

**Dr. Ladyman:** Information in the form requested is not available centrally. However, the NHS Purchasing and Supply Agency (PASA) estimates that over the past 12 months National Health Service trusts have spent approximately £23 million on disposable products and £150 thousand on reusable products. Additionally, PASA estimates that approximately £22 million was spent by the NHS on home delivery products for people with incontinence. Together, this gives a total spend of around £45 million by the NHS on continence products in the last 12 months.

### Crisis Resolution Teams

**Tim Loughton:** To ask the Secretary of State for Health what percentage of the crisis resolution teams that are operational are open 24 hours per day, seven days per week. [154405]

**Ms Rosie Winterton:** I refer the hon. Member to the reply given on 22 January 2004, *Official Report*, column 1425W, to the hon. Member for Broxbourne (Mrs. Roe).

### Delayed Discharges

**Mr. Burstow:** To ask the Secretary of State for Health what the total amount of reimbursement from social services departments to the NHS for delayed discharges is in the current financial year for *(a)* England and *(b)* each strategic health authority; and if he will make a statement. [154582]

**Dr. Ladyman:** Data on legal liabilities for reimbursement charges are not available centrally at this time.

### Dentistry

**Mr. Burstow:** To ask the Secretary of State for Health if he will estimate the number of trained dentists living in the UK as refugees; and what proportion he estimates are working in the NHS. [151467]

**Ms Rosie Winterton:** Information is not held centrally on the number of refugees working as dentists in the national health service. We are aware that the British Dental Association and the Refugee Council have a database containing details of 60 dentists who are refugees. These dentists are preparing for the General Dental Council's international qualifying examination (IQE) to become eligible to practise in the United Kingdom. We are considering how dentists with overseas qualifications could be given more support with the additional training they require to take the IQE and equip themselves to practise in the NHS.

**Mr. Steen:** To ask the Secretary of State for Health if he will break down the funding targeted at primary care trusts where access to NHS dentists is low, announced on 18 September 2003, by *(a)* region and *(b)* primary care trust. [151540]

**Ms Rosie Winterton** *[holding answer 28 January 2004]:* On 18 September 2003 we announced new investment totalling £65.2 million for dentistry. This consisted of £35 million capital for dental access and quality, £30 million for dental information technology and £200,000 for developing dental leadership. This was on top of revenue funding we announced in August of £9 million for targeted support on dental access and £1 million for organisation development. We subsequently announced on 25 November further revenue funding of £15 million to support access for patients to a modernised national health service dental service, bringing the total of new funding announced this year for dentistry to £90.2 million.

The £30 million investment in IT will facilitate integration of dental practices with wider NHS information technology systems and will support local contracting. The IT investment and solutions for dentistry consistent with other NHS information technology initiatives are being taken forward within the national programme for IT.

The funding of £200,000 for developing dental leadership is aimed at strategic health authority level to support primary care trusts (PCTs) in delivering the modernisation agenda for dentistry.

The organisational development funds of £1 million are being distributed in line with advice from strategic health authorities (SHAs). They are intended to help PCTs, local dental committees and dentists to prepare for the change in the way dental services are commissioned. £0.3 million has been distributed for 2003–04 and the remaining £0.7 million will be distributed for use in 2004–05.

The balance of £59 million is intended to support dental access and quality as follows:

£9 million is for the NHS dentistry support team that has been set up to work with those areas where it is hardest to find a NHS dentist. These funds are being used in a targeted way to support local action plans for improving access to dentistry. The NHS support team has identified 16 PCTs with specific dental access issues. Funding for these PCTs, which are shown in the list, will take into account the challenge faced by the individual PCTs and the potential benefit of the proposals in the dental action plan that each of the challenged PCTs is developing. Draft plans are now starting to arrive. The team allocated £200,000 in 2003–04, and will be increasing the pace of allocations early in 2004–05, based on the plans currently in preparation.

£35 million capital funds are to enable PCTs to invest in primary care premises and facilities to improve access and quality. These funds will be distributed on a fair-shares basis at SHA level and then on a targeted basis to PCTs on the advice of the SHAs. The fair shares for SHAs are shown in the table. The bulk of the funds will be spent in 2004–05 to allow SHAs and PCTs to plan for its investment.

£15 million revenue funding for 2004–05 to support access will also be allocated on a fair-shares basis at SHA level and, on the advice of the SHA, on a targeted basis to PCTs. The SHA fair shares allocations of these funds are shown in the table.

Guidance for PCTs on commissioning NHS dentistry, including the allocation of £35 million capital and £15 million revenue to support access, quality and choice was issued on 15 January. The guidance makes it clear that access remains a key priority in the run up to the new arrangements for dentistry from April 2005.

**Mr. Hancock:** To ask the Secretary of State for Health if he will make a statement on progress of Options for Change in improving NHS Dentistry, with particular reference to *(a)* Portsmouth and *(b)* South Hampshire. [151997]

**Ms Rosie Winterton:** We are committed to rebuilding and restoring national health service dentistry to improve oral health. The report, "NHS Dentistry: Options for Change", published in 2002, set out the ideas and principles behind the reform of NHS dentistry. Central to these changes are the aims of:

local commissioning of services offering care which is responsive to local need;

moving away from the restrictions of the detailed and inflexible existing fee-for-item system and giving dentists the opportunity to practise more preventive dentistry;

improving the patient experience;

improving access to NHS dentistry.

New legislation in the Health and Social Care (Community Health and Standards) Act 2003 will enable these changes and will underpin a modernised, high-quality primary dental service, properly integrated with the rest of the NHS. The aim is to deliver better access to services; better working lives for dentists and their teams, better oral health and an improved patient experience. From 1 April 2005, primary care trusts (PCTs) will assume a new responsibility for commissioning dental services supported by the £1.2 billion resources currently held centrally.

The Health and Social Care (Community Health and Standards) Act also provides for the replacement of the existing Dental Practice Board by a new special health authority for England and Wales with a wider remit for modernisation and change. This is likely to happen in 2005. In the meantime, shadow arrangements are in place to work in partnership with the existing Dental Practice Board to lead the modernisation process and provide support to PCTs and dentists to ensure a smooth transition to the new arrangements. Discussions are also on-going with the dental profession on the base contract, which will replace the item of service arrangements.

In Hampshire, each PCT has identified a dental management lead who has been working closely with the strategic health authority dental lead and the Department of Health to prepare dental action plans for the transition to local commissioning of dentistry. In agreement with the Department, arrangements have been made for some dental practices that wish to do so—including one in Portsmouth—to act as pilots for future contracting arrangements.

### Dietary Strategy

**Mr. Burstow:** To ask the Secretary of State for Health what his Department's strategy is for reducing *(a)* salt levels in food and *(b)* the prevalence of people having excess salt in their diet. [153116]

**Miss Melanie Johnson:** I refer the hon. Member to the reply I gave to the hon. Member for Strangford (Mrs. Robinson) on Tuesday 27 January 2004, *Official Report*, column 332W.

On Tuesday 3 February 2004, my right hon. Friend the Secretary of State announced a period of consultation on a public health white paper. This will provide the overarching framework for work that the Department of Health and other Government Departments are already engaged in. The consultation aims to engage the public, the media, industry, voluntary groups and health professionals in a wide-ranging debate about how the nation can best tackle issues like obesity, smoking and sexually transmitted infections.

### Directly Funded Equipment

**Mr. Oaten:** To ask the Secretary of State for Health what percentage of the money set aside for directly funded equipment has been taken up by local authorities *(a)* so far this financial year and *(b)* in the last financial year. [151717]

**Dr. Ladyman** *[holding answer 29 January 2004]:* I assume that the hon. Member is referring to funding for community equipment services. These are funded in the following manner: all local health and social services have historic funding streams for these services. At the beginning of the initiative to integrate and modernise these services we announced that we were increasing baseline funding to the National Health Service and councils to enable them to participate. We gave the NHS an extra £105 million over the years 2001–02 to 2003–04 and made a substantial addition to councils' personal social services allocation (following normal practice, the amount of the latter was not announced). Councils with social services responsibilities are also now receiving even more funding for community equipment through the systems and access capacity grant, starting with £7.6 million this year, with considerable rises due in 2004–05 and 2005–06. In all cases, local service

commissioners decide how to use that funding to meet the needs of their local populations and this element of their spending is not monitored centrally.

### Disciplinary Procedures

**Mr. Laurence Robertson:** To ask the Secretary of State for Health how many *(a)* NHS hospital doctors, *(b)* NHS consultants and *(c)* NHS general practitioners are suspended on disciplinary grounds; and if he will make a statement. [154255]

**Mr. Hutton** *[holding answer 10 February 2004]:* Discipline for National Health Service trust clinicians is a matter for local managers and disciplinary action will take a variety of forms, NHS trusts are not required to collect this information and it is not collected centrally.

Primary care trusts (PCTs) must notify the Family Health Services Appeal Authority (Special Health Authority) when they suspend or lift a suspension from a general medical practitioner. Thirty GPs are currently suspended by PCTs.

**Mr. Laurence Robertson:** To ask the Secretary of State for Health (1) what the average time taken to *(a)* investigate and *(b)* resolve cases regarding the suspension of NHS (i) hospital doctors, (ii) consultants and (iii) general practitioners was in the latest year for which figures are available; what percentage of those investigations found in favour of (A) those making the complaint and (B) the person suspended; and if he will make a statement; [154257]

(2) what the total cost is in *(a)* salaries and national insurance contributions and *(b)* other costs arising from (i) NHS hospital doctors, (ii) NHS consultants and (iii) NHS general practitioners currently suspended; and if he will make a statement. [154256]

**Mr. Hutton** *[holding answer 10 February 2004]:* This information is not held centrally.

**Mr. Laurence Robertson:** To ask the Secretary of State for Health if he will make a statement on the procedures for investigating the cases of suspended NHS hospital doctors, consultants and general practitioners. [154258]

**Mr. Hutton** *[holding answer 10 February 2004]:* The Department issued a mandatory framework, (HSC 2003/012) Maintaining High Professional standards in the Modern NHS, for the handling of concerns about doctors and dentists employed in the National Health Service, on 29 December 2003. The procedures a primary care trust must follow are set out in the NHS (General Medical Services) Regulations 1992, as amended; the NHS (General Medical Services Supplementary List) Regulations 2001, as amended; and the NHS (Personal Medical Services) (Services List) and the (General Medical Services Supplementary List) and (General Medical Services) Amendment Regulations 2003.

**Mr. Laurence Robertson:** To ask the Secretary of State for Health if he will make a statement about the kinds of complaints which cause NHS hospital doctors, consultants and general practitioners to be suspended. [154259]

**Mr. Hutton** *[holding answer 10 February 2004]:* Under the Restriction of Practice and Exclusion from Work Directions 2003, formal exclusion of one or more clinicians must be used only where there is a need to protect the interests of patients or other staff pending the outcome of a full investigation of: allegations of misconduct, concerns about the lack of capability or poor performance; or the presence of the practitioner in the workplace is likely to hinder the investigation.

Full consideration should be given to whether the practitioner could continue in or (in cases of immediate exclusion) return to work in a limited capacity or in an alternative, possibly non-clinical role, pending the resolution of the case.

Regulations permit primary care trusts to suspend general medical practitioners from their medical, supplementary medical or services lists if they consider this is necessary to protect patients or is otherwise in the public interest. This is an interim measure pending the outcome of regulatory body or criminal investigation, or while they consider serious matters which may lead to the practitioner's removal on suitability, efficiency or fraud grounds.

### Drug Addicts

**Mrs. Gillan:** To ask the Secretary of State for Health how many addicts in England and Wales are maintained on prescribed *(a)* heroin and *(b)* methadone; and at what average annual cost for each of those prescriptions. [150727]

**Miss Melanie Johnson** *[holding answer 26 January 2004]:* There are approximately 450 drug misusers in England being maintained on prescribed heroin. The estimated annual cost per patient of maintaining a drug misuser on heroin is £12,000 per patient.

We do not have figures centrally on the numbers of drug misusers being maintained on methadone. The estimated annual cost per patient of maintaining a drug misuser on oral methadone is £3,000.

### EU Accession States (Migration)

**Dr. Murrison:** To ask the Secretary of State for Health what *(a)* plans he has made and *(b)* resources he has assigned for the treatment of migrants from EU accession states from 1st May. [153798]

**Mr. Hutton** *[holding answer 9 February 2004]:* Research for the Home Office does not suggest that the numbers of people who migrate from the new Member States of the European Union to the United Kingdom will be significant. Those that fall into the categories covered by Regulations (EEC) 1408/71 and 574/72—for example temporary visitors, certain pensioners and others—will have costs of any National Health Service treatment met by the person's country of insurance.

**Dr. Murrison:** To ask the Secretary of State for Health what assessment he has made of the likely impact on the NHS of migration from EU accession states. [153799]

**Mr. Hutton** *[holding answer 9 February 2004]:* I refer the hon. Member to the reply given to the hon. Member for Runnymede and Weybridge (Mr Hammond) on 3 February 2004, *Official Report*, column 822W.

### Family Planning/Reproductive Health Care

**Joan Ruddock:** To ask the Secretary of State for Health what monitoring arrangements are being put in place by his Department to ensure that the advice provided by general practices which sign up to providing contraceptive services under the new general medical services contract *(a)* covers all methods of contraception and *(b)* is of a high standard. [154447]

**Miss Melanie Johnson:** Regulations for the new general medical services contract set out a new contractual requirement that practices providing additional contraceptive services must give "advice about the full range of contraceptive methods" and "the referral as necessary for specialist sexual health services". This includes referral for the fitting of intrauterine devices and contraceptive implants where these are not provided by the practice. In addition, practices will be rewarded through a quality and outcomes framework for having policies on emergency contraception and pre-conceptual (all other) contraception. Primary care trusts will be responsible for performance managing the contract.

**Joan Ruddock:** To ask the Secretary of State for Health (1) what steps the Government is taking to meet the Faculty of Family Planning and Reproductive Healthcare's recommendation that there should be one full-time clinician in family planning and sexual and reproductive healthcare per 125,000 population; [154448]

(2) how many *(a)* doctors and *(b)* nurses are employed in family planning community clinics; and what steps the Government is taking to (i) recruit and (ii) retain (A) doctors and (B) nurses in such clinics. [154449]

**Miss Melanie Johnson:** It is for individual primary care trusts and National Health Service trusts to determine how their services are configured and delivered in order to provide quality services. The NHS will continue to plan its future workforce requirements to address identified need. We are also ensuring through the Department's performance management measures that the creation of clinical posts is seen as a high priority. Also, the Faculty of Family Planning and Reproductive Healthcare is represented on the contraceptive services group that has been established by the Department. Workforce is a key issue being addressed by this group. In 2003–04, central funding was provided to support the implementation of four additional specialist registrar posts in family planning and reproductive health.

The Department does not collect data on the numbers of doctors and nurses specifically employed in family planning community clinics (the medical and non-medical workforce census collects information annually on the number of doctors and nurses employed in the NHS, but cannot distinguish those working in family planning).

**Mrs. Calton:** To ask the Secretary of State for Health (1) what steps his Department is taking to prioritise contraceptive services within strategic health authorities' local delivery plans; [154429]

(2) what steps his Department *(a)* has taken over the last 12 months and *(b)* plans to take over the next 12 months to prioritise contraceptive services within the NHS; and what impact such measures have had to date; [154430]

(3) if he will make a statement on the role of the group of key experts on contraception referred to by the Under-Secretary for State of Health on 15 January 2004, *Official Report*, column 371WH. [154433]

**Miss Melanie Johnson:** It is a key aim of both the Government's Sexual Health and HIV Strategy and Teenage Pregnancy Strategy to reduce unintended pregnancy rates. Provision of good quality contraceptive services is key in achieving this aim. It is the responsibility of primary care trusts (PCTs) to ensure that comprehensive services are provided and the Department has issued them with guidance on how to commission these services.

The Department has also convened a group of key experts, including representatives from the Faculty of Family Planning and Reproductive Healthcare, the Royal College of General Practitioners and the Family Planning Association, to develop and implement an action plan to support the improvement of contraceptive services at local level.

We are working with strategic health authorities to help raise the priority level of sexual health, including contraceptive services, within local delivery plans.

### Flu Vaccine

**Sandra Gidley:** To ask the Secretary of State for Health how much his Department has spent on advertising the free influenza vaccine. [152759]

**Miss Melanie Johnson:** £1,411,000.00 was spent on this year's flu advertising campaign.

**Sandra Gidley:** To ask the Secretary of State for Health what studies his Department undertook to find the most effective way of informing people about their eligibility for the free influenza vaccine. [152760]

**Miss Melanie Johnson:** Each year, the Department conducts research before and after the advertising campaign to measure awareness among our target audience. Research has consistently proved television as the best media for advertising free flu vaccination.

### Glenfield Hospital

**Mr. Robathan:** To ask the Secretary of State for Health how many patients at the Herschel Prins Low Secure Unit at the Glenfield Hospital site in Leicestershire have been found not to have mental health problems. [154636]

**Dr. Ladyman:** This information is not collected centrally.

**Mr. Robathan:** To ask the Secretary of State for Health what the cost was of building the Herchel Prins Unit at Glenfield Hospital in Leicestershire; what its running costs were in the last financial year; and what this cost was per patient. [154637]

**Dr. Ladyman:** This information is not collected in the format requested.

**Mr. Robathan:** To ask the Secretary of State for Health how many patients have escaped from the Herschel Prins Unit at Glenfield Hospital in Leicestershire in the last year. [154638]

**Dr. Ladyman:** This information is not collected centrally.

### General Practitioners

**Dr. Murrison:** To ask the Secretary of State for Health what the procedure is for transferring general practitioner held records when a patient moves practices. [153750]

**Mr. Hutton:** When a patient registers with a new general practitioner, the doctor will request the transfer of medical records via the primary care trust.

**Dr. Murrison:** To ask the Secretary of State for Health what investigation he has made of delays in transferring general practitioner records when a patient moves. [153794]

**Mr. Hutton:** A survey conducted by the Department in 1997 showed that, on average, 85 per cent. of medical records were transferred within the timescale guidance issued by the Department. These targets are six weeks for routine cases and two working days for urgent cases.

**Mr. Burstow:** To ask the Secretary of State for Health what the arrangements are for *(a)* setting, *(b)* regulating, *(c)* monitoring and *(d)* reporting on performance and clinical governance standards for (i) private agencies and (ii) NHS organisations providing out-of-hours GP services. [152742]

**Mr. Hutton:** At present, all organisations providing out of hours—both private and not-for-profit—have to meet nationally set quality standards and report to primary care trusts (PCTs) on performance, including clinical governance.

Under the new general medical services (GMS) contract, anyone who provides services out of hours, including individuals contracted by the PCT, and organisations, will need to meet national quality standards. These standards are currently under review by an expert group to make them an integral part of GMS and personal medical services contracting. Strategic health authorities will performance manage PCTs in their delivery of out of hours services.

**Mr. Burstow:** To ask the Secretary of State for Health how many general practitioners recruited through flexible career schemes were working as locums in the NHS before joining the scheme. [153110]

**Mr. Hutton:** The most recent data available is from the June 2003 census, which showed that, of the 85 general practitioners who were counted as flexible career scheme doctors, 25 had last been counted in the census as a locum.

### Haemophilia

**Nick Harvey:** To ask the Secretary of State for Health (1) what access patients in the South West have to treatment that is in accordance with national standards for haemophilia care published in the National Service Specification for Haemophilia and Related Conditions in 2001; and if he will make a statement; [154576]

(2) what plans he has for the provision of a comprehensive care centre for haemophilia in the South West; and if he will make a statement. [154577]

**Ms Rosie Winterton:** Our policy, "Shifting the Balance of Power", means that the local national health service has responsibility for planning and developing health services according to local needs and demands.

In 2001, The Haemophilia Alliance produced a National Service Specification for a service that allows people with haemophilia the best care that can be made available. The Government welcomed this model service specification, which sets out clear standards of care for patients with inherited bleeding disorders. NHS commissioners of haemophilia services will find the document an invaluable resource when planning and developing services for patients.

I understand that there are 10 haemophilia centres throughout the South West region, which provide a good range of services between them. The United Kingdom Haemophilia Centre Doctor's Organisation (UKHCDO) is the body responsible for designating comprehensive care centres, and I am informed that the haemophilia centre directors in the South West are in regular contact with the chair of the UKHCDO about the provision of services in the South West.

The following is a list of the Haemophilia Centres in the South West:

Bath, Bristol (Infirmary and Children's) for the Avon, Gloucestershire and Wiltshire Strategic Health Authority (SHA) area

Bournemouth/Poole, Dorchester, Taunton/Yeovil for the Dorset and Somerset SHA area

Barnstaple, Exeter, Plymouth, Torquay, Truro for the South West Peninsula SHA area.

### Integrated Community Equipment Service Group

**Mr. Oaten:** To ask the Secretary of State for Health if he will set out the work programme for the Integrated Community Equipment Service Group for 2004. [R] [154992]

**Dr. Ladyman:** The integrating community equipment services team will continue to support local equipment services as they further develop their integration during 2004. The team members do this through:

supporting regional networks of service leads and, during this year, they will aim to help the networks become self-sustaining

visiting services, particularly those that appear to need extra help

maintaining a popular and informative internet site: www.icesdoh.org/.

### Joint Consultative Forum

**Mr. Martyn Jones:** To ask the Secretary of State for Health when he last met his counterparts from the Welsh Assembly and Scottish Parliament in the joint consultative forum. [154090]

**Ms Rosie Winterton:** My right hon. Friend the Secretary of State, has regular meetings with his counterparts from Wales, Scotland and Northern Ireland.

### Junior Doctors

**Bob Spink:** To ask the Secretary of State for Health if he will make a statement on the protection of salary for junior doctors working at hospitals as part of a rotation, with particular reference to Great Ormond Street. [R] [153418]

**Mr. Hutton:** Junior doctors receive a banding supplement reflecting the amount and intensity of their out of hours work. When junior doctors contract for a rotation they are made aware of the bandings of the posts they will be working in. As circumstances change, posts may be adjusted and rebanded and the pay for new entrants to such posts may reduce to a level commensurate with the work undertaken. However, for those already contracted to fill those posts, rotation pay protection (built into the national contract for all doctors in training) applies.

National health service trusts are responsible for ensuring that appropriate rotation and salary arrangements are in place for junior doctors, in line with national guidance.

Under those arrangements, there is regular monitoring to ensure that rotas are satisfactory, that junior doctors hours are within agreed limits and that safe services are provided.

Great Ormond Street has these arrangements in place and policies and procedures under which any concerns can be raised and addressed.

**Bob Spink:** To ask the Secretary of State for Health what assessment he has made of whether hospitals are changing junior doctors' hours of work statistics to ensure that they conform to the *(a)* New Deal and *(b)* European Working Time Directive. [R] [153734]

**Mr. Hutton:** Information collected on junior doctors' hours in the assessment of New Deal compliance, as required by their contract of employment, is based on information supplied by the junior doctors themselves. Before this data is collated centrally, it is validated by junior doctors at national health service trust level. We have no reason to suppose that these returns are anything but an accurate representation of the work situation. Information is not collected centrally on Working Time Directive compliance at trust level; this is a matter for the hospitals concerned.

### Living Wills

**Mr. Soley:** To ask the Secretary of State for Health what advice he has issued to health authorities on dealing with patients' wishes as expressed in living wills. [155214]

**Ms Rosie Winterton:** Guidance on advance refusals is included in the Department of Health's "Reference Guide to Consent for Examination or Treatment" published in March 2001. A copy of the guide has been placed in the Library and is also available from the Department of Health's website at http://www.dh.gov.uk/assetRoot/04/01/90/79/04019079.pdf

### Long-term Care

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 30 January 2004, *Official Report*, column 559W, on long-term care, if he will place in the Library copies of the survey and estimates by the Personal Social Services Research Unit referred to in the explanatory note. [154633]

**Dr. Ladyman:** In the explanatory note referred to in my answer of 30 January 2004, *Official Report*, column 559W, the estimate of the proportion of privately funded older care home residents receiving disability benefits is from Netten A., Darton R. and Curtis L. (2002). Self-Funded Admissions to Care Homes. A report of research carried out by the Personal Social Services Research Unit (PSSRU), University of Kent on behalf of the Department for Work and Pensions, (Department for Work and Pensions Research Report No. 159). A copy of this report is available in the Library.

The estimate of private expenditure on private home care was obtained from PSSRU. It derives from research on projections of demand for long-term care for older people. A copy of a recent discussion paper on this PSSRU study—Comas-Herrera A., Pickard L., Wittenberg R. et al. (2003) Future demand for long-term care, 2001 to 2031: projections of demand for older people in England, PSSRU discussion paper 1980—will be placed in the Library.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 30 January 2004, *Official Report*, column 559W, on long-term care, what the basis is of the assumption in the explanatory note that there are 58,000 privately funded residents of residential care homes in England. [155967]

**Dr. Ladyman:** The figure of 58,000 is an estimate in the absence of data on numbers of privately funded residents in residential care homes. There were around 120,000 older local authority supported residents in independent sector care homes in March 2003. The "PSSRU 1996 Survey of Care Homes for Elderly People", www.pssru.ac.uk/pdf/dp1423≥2.pdf, found that around one third of older residents of independent sector residential care homes were privately funded. This suggests that an estimate of around 58,000 is reasonable.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 20 January 2004, *Official Report*, column 1110W, on long-term care, whether the Department's proposals in response to the Royal Commission, including free nursing care and changes to the residential charging rules, will have changed these costs. [155968]

**Dr. Ladyman:** The estimated cost of £1.5 billion for England covers only the cost of free personal care and excludes the cost of free nursing care, as that has been implemented. The estimate would have been higher if free nursing care had been included. In principle, this also applies to the 12-week disregard of housing assets and the uprating of the capital limits which the Government announced in their response to the Royal Commission. The estimate of around 100,000 privately

funded residents used in the calculation should in principle have been higher if these changes had not been implemented.

## Mental Health

**Keith Vaz:** To ask the Secretary of State for Health what steps he has taken to ensure fair treatment of ethnic minorities in NHS mental institutions. [155603]

**Ms Rosie Winterton:** The specific and general duties of the Race Relations (Amendment) Act 2000 places an onus on statutory bodies to identify and tackle racial discrimination faced by the black and minority ethnic community.

In support of this for mental health services we have issued for consultation "Delivering Race Equality—A Framework for Action" which sets out what those planning, delivering and monitoring local primary care and mental health services need to do to improve services for users, relatives and carers from black and minority ethnic communities. This is backed up by a programme of work by the National Institute for Mental Health in England (NIMHE).

NIMHE has also issued "Engaging & Changing—Developing effective policy for the care and treatment of Black and minority ethnic detained patients". The document provides guidance in relation to the development of policies concerning the care and treatment of black and minority ethnic communities in the areas of ethnic monitoring, racial harassment, the use of interpreters and the provision of culturally appropriate care and staff training.

**Keith Vaz:** To ask the Secretary of State for Health whether NHS mental health services have a written policy banning racial abuse. [155604]

**Ms Rosie Winterton:** The NHS Plan introduced an improving working lives standard in 2000 which makes it clear that every member of staff in the national health service is entitled to work in an organisation which can prove that it is investing in improving diversity and tackling discrimination and harassment. All NHS organisations including mental health trusts have to achieve the standard, which is a key performance indicator, part of the star rating system.

In relation to tackling racial harassment an improving working lives toolkit "Improving Working Lives: Tackling Racial Harassment in the NHS—Good Practice Guidance" was issued in 2001. This guidance sets out key principles on tackling racial harassment in NHS employment.

The need for local policies to deal with staff/patient and patient/patient racial harassment where patients have been detained under the Mental Health Act is highlighted in the National Institute for Mental Health document "Delivering Race Equality—A Framework for Action and Engaging and Changing—Developing effective policy for the care and treatment of Black and minority ethnic detained patients".

**Mr. Rosindell:** To ask the Secretary of State for Health how many people in mental health institutions died in each of the last five years through *(a)* hanging, *(b)* hanging with the use of a non-collapsible curtain track and *(c)* hanging with the use of a collapsible curtain track. [154418]

**Ms Rosie Winterton:** The total numbers of people who died in mental health institutions from hanging in each of the last five years for which figures are available (1997–2001) are shown in the table.

| | *Deaths from hanging* |
|---|---|
| 1997 | 57 |
| 1998 | 44 |
| 1999 | 51 |
| 2000 | 36 |
| 2001 | 36 |

*Note:*
Figures for hangings using non-collapsible and collapsible curtain tracks are not available.

**Tim Loughton:** To ask the Secretary of State for Health which professionals make up an assertive outreach team. [154406]

**Ms Rosie Winterton:** A detailed service specification for assertive outreach teams, which includes information on staffing requirements, is contained in the "Mental Health Policy Implementation Guide" (2001), which is available from the Department's website at http://www.publications.doh.gov.uk/mentalhealth/implementationguide.htm and is also available in the Library.

**Tim Loughton:** To ask the Secretary of State for Health what percentage of the assertive outreach teams that are operational are multi-disciplinary. [154407]

**Ms Rosie Winterton:** According to the Durham mental health service mapping database www.dur.ac.uk/service.mapping/amh), over 95 per cent. of assertive outreach teams, which are operational, are multi-disciplinary.

**Tim Loughton:** To ask the Secretary of State for Health if he will list which trusts depend on home treatment teams for additional cover to their assertive outreach teams. [154409]

**Ms Rosie Winterton:** Information about the arrangements for clinical cover in teams is not captured centrally.

The inter-relationship of teams and services and their working arrangements are local matters in the context of national guidance on standards of care, the evidence concerning best practice, and the targets set within the NHS Plan.

Guidance on the configuration of teams and services is provided in the Mental Health Policy Implementation Guide, which is available from the Department's website at http://www.publications.doh.gov.uk/mentalhealth/implementationguide.htm and is also available in the Library.

**Tim Loughton:** To ask the Secretary of State for Health how many early intervention teams the National Service Framework for Mental Health recommends establishing. [154423]

**Ms Rosie Winterton:** The "National Service Framework for Mental Health" (1999) set out standards for treatment and care for people with mental health

problems, including two standards specifically concerned to ensure that each person with severe mental illness receives the range of mental health services they need. The NSF also set out evidence concerning the importance of early intervention for young people with the first sign of a psychosis.

The "NHS Plan" (2000) provided extra investment by 2003–04 to fast-forward the NSF and set a target of 50 early intervention teams to be established by 2004 to ensure all young people who experience a first episode of psychosis receive the early and intensive support they need.

Further details were set out in the "Mental Health Policy Implementation Guide" (2001) which is available from the Department's website at http://www.dh.gov.uk, a copy of which has also been placed in the Library.

**Mr. Burstow:** To ask the Secretary of State for Health what the total funding for mental health services was in the NHS in England in each year since 1997. [154005]

**Ms Rosie Winterton:** I refer the hon. Member to the reply given to him on 15 January 2004, *Official Report*, columns 857–58W.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 2 February 2004, *Official Report*, column 687W, on mental health, how many carer support workers are employed in the NHS. [154010]

**Ms Rosie Winterton:** This information is not centrally available. Arrangements are being made to centrally capture data on carer support workers in post by the end of the year.

**Tim Loughton:** To ask the Secretary of State for Health when he expects the full complement of *(a)* early intervention, *(b)* assertive outreach and *(c)* crisis resolution teams to be established, as set out in the National Service Framework for Mental Health. [154424]

**Ms Rosie Winterton:** The full complement of assertive outreach teams has been delivered.

We expect local services to have plans in place to deliver the full complement of early intervention and crisis resolution teams by the end of the year as set out in the NHS Plan (2000).

**Mrs. Gillan:** To ask the Secretary of State for Health how many prisoners have been *(a)* diagnosed with and *(b)* treated for mental health disorders in each year since 1997, broken down by prison establishment. [155900]

**Dr. Ladyman:** The information is not available in the form requested. A survey of psychiatric morbidity among prisoners in England and Wales in 1997, by the Office for National Statistics, showed that 90 per cent. of prisoners have at least one significant mental health problem, including personality disorder, psychosis, neurosis, alcohol misuse and drug dependence. Around 5,000 people in prison at any one time have a severe mental illness though they will not all be acutely ill.

Prisons and their national health service primary care trust partners are responsible for assessing the health needs of their populations and developing services, including mental health services to meet those needs. NHS funded prison mental health in reach teams will be providing services in 90 prisons by March 2004.

**Mrs. Gillan:** To ask the Secretary of State for Health if he will make a statement on incidence of mental health disorders among ethnic minority prisoners. [155901]

**Dr. Ladyman:** In 1997 the Office for National Statistics (ONS) undertook a survey of "Psychiatric morbidity amongst prisoners in England and Wales". The report included a range of information on the prevalence of specific mental health problems in black and minority ethnic prisoners. A copy of the ONS study is available in the Library.

**Mrs. Gillan:** To ask the Secretary of State for Health if he will make a statement on the effectiveness of mental health service *(a)* provision and *(b)* interventions in prisons. [155902]

**Dr. Ladyman:** The provision of national health service community-style mental health services will be in around 90 establishments by March 2004. An evaluation of the in-reach programme has been commissioned through the NHS forensic research and development programme and is expected to start shortly.

**Mrs. Gillan:** To ask the Secretary of State for Health what programmes are in place to ensure swift identification of prisoners with mental health disorders upon arrival at prison establishments; and which prison establishments operate such programmes. [155903]

**Dr. Ladyman:** Her Majesty's Prison Service and the Department of Health are working together to implement a revised reception health screening process by March 2004. The new process focuses explicitly on ensuring prompt and effective identification of individuals with mental health problems.

The new reception screening arrangements are being introduced into the following establishments in England by March 2004: Durham, Eastwood Park, Feltham, Glen Parva, Holme House, Leeds, Liverpool, Manchester, New Hall, Wandsworth, Brixton, Bedford, Lewes, Preston, Styal, Wormwood Scrubbs, Woodhill, Dorchester, Exeter, Highpoint North, Lincoln, Norwich, Pentonville, Hull, Chelmsford, Nottingham, Hindley, Altcourse, Ashfield, Blakenhurst, Bristol, Brinsford, Castington, Gloucester, Leicester, Highdown, Birmingham, Forest Bank, Onley, Parkhurst, Shewsbury, Stoke Heath, Winchester, Elmley, Brockhill, Bullingtdon, Doncaster, Long Lartin, Lancaster Farms, Wetherby, Wakefield, Holloway, Belmarsh, Full Sutton, Huntercombe, Reading, Warren Hill, Werrington, Low Newton, Kirkham and Morton Hall.

**Mrs. Gillan:** To ask the Secretary of State for Health which prisons operate permanent community mental health teams. [155904]

**Dr. Ladyman:** The specialist care of severely mentally ill prisoners is provided by mental health teams, which are staffed by national health service employees and broadly correspond to local community mental health teams. There are currently 90 such teams operating in the following establishments in England:

*Pnase 1*: (introduced during 2001–02): Belmarsh, Birmingham, Brixton, Bullwood Hall, Chelmsford, Durham, Eastwood Park, Feltham, Frankland, Holloway, Leeds, Leicester, Pentonville, Wandsworth, Winchester, Whitemoor, Woodhill and Wormwood Scrubs.

*Phase 2*: (introduced during 2002–03): Ashfield, Bedford, Blakenhurst, Bristol, Brockhill, Dorchester, Exeter, Glen Parva, Holme House, Hull, Lewes, Lincoln, Liverpool, Long Lartin, Manchester, Moorland, New Hall, Norwich, Nottingham, Onley, Parkhurst, Portland, Preston, Rochester, Styal and Wakefield.

*Phase 3*: (introduced during 2003-O4): Albany/Camp Hill, Altcourse, Aylesbury, Blantyre House, Brinsford, Buckley Hall, Bullingdon, Canterbury, Castington, Coldingly, Cookham Wood, Dartmoor, Deerbolt, Doncaster, Dovegate, Drake Hall, Elmley, Forest Bank, Foston Hall, Full Sutton, Garth, Gartree, Gloucester, Haverigg, Highdown, Highpoint North/ Highpoint South, Hindley, Hollesley Bay/Warren Hill, Huntercombe, Kingston, Lancester Farms, Littlehay, Low Newton, Maidstone, Northallerton, Reading, Risley, Shrewsbury, Stafford, Stoke Heath, Swaleside, Swifen Hall, Thorn Cross, Werrington, Wetherby and Wolds.

**Mrs. Gillan:** To ask the Secretary of State for Health how many people are employed to treat mental health disorders in each prison establishment. [155905]

**Dr. Ladyman:** This information is not available. Most healthcare staff working in prisons will be involved in some way in caring for individuals with mental health problems. By March 2004 we expect to meet the NHS Plan commitment for 300 additional staff to provide specialist community type mental health services to over 5,000 prisoners.

**Mrs. Gillan:** To ask the Secretary of State for Health what the total cost of mental health programmes in UK prisons was in each year since 1997, broken down by prison establishment. [155906]

**Dr. Ladyman:** In England the total amount allocated specifically to primary care trusts for national health service mental health services in prisons was £1,719,000 in 2O01–02; £3,685,000 in 2002–03 and £9,400,000 in 2003–04. A breakdown of this information, by prison, has been placed in the Library. We expect total expenditure on these services to double to around £20 million by 2O05–06.

Mental health services for prisoners are also provided through Her Majesty's Prison Service, but the funding for these is not separately identified.

**Mrs. Gillan:** To ask the Secretary of State for Health what mental health programmes are available to prisoners upon release from prison. [155907]

**Ms Rosie Winterton:** Released prisoners can access the full range of mental health services available to the population in which they become resident. An important function of national health service mental health in-reach teams working in prisons is to ensure effective through-care for prisoners with serious mental health problems, to be followed up by support from appropriate mental health services on release.

## NHS Premises (Accidental Injury)

**Mr. Burstow:** To ask the Secretary of State for Health how many deaths from accidental injury on NHS premises were recorded in each year since 1997. [151719]

**Miss Melanie Johnson:** The number of fatal injuries on national health service premises reported to the Health and Safety Executive (HSE) in each financial year since 1997–98 are shown in the table. The figures are for work-related injuries. This covers workers (employees and self-employed people) who are injured at work or in connection with their work, and members of the public (including hospital patients) injured as a result of the work activity of someone else. Injuries arising directly out of the conduct of medical treatment by a doctor or dentist are not reportable to HSE.

*Fatal injuries on NHS premises as reported to all enforcing authorities, 1997–98 to 2002–03*[1]

| | *Workers* | *Members of the public* | *Total* |
|---|---|---|---|
| 1997–98 | — | 8 | 8 |
| 1998–99 | — | 14 | 14 |
| 1999–2000 | — | 17 | 17 |
| 2000–01 | 1 | 16 | 17 |
| 2001–02 | — | 11 | 11 |
| 2002–03[1] | — | 15 | 15 |

[1] Provisional.

*Note:*

Figures relate to Great Britain.

*Source:*

Reports to Health and Safety Executive under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 1995.

## NHS Professionals

**Mr. Burstow:** To ask the Secretary of State for Health whether NHS Professionals accepts NHS staff with work permits to work as agency staff. [152992]

**Mr. Hutton:** Under current Home Office regulations, national health service staff employed under work permit arrangements are not permitted to undertake supplementary employment through a recruitment agency.

## NHS Trusts

**Mr. Hoban:** To ask the Secretary of State for Health (1) how many trust franchise managers have terminated their contract before its expiry; and what action has been taken against them in each case; [153273]

(2) under what circumstances a franchise manager appointed to run a zero star trust may terminate his three year contract to manage that trust *(a)* without a penalty and *(b)* with a penalty; and what penalty can be applied by (i) the trust and (ii) the Department. [153274]

**Mr. Hutton** *[holding answer 6 February 2004]:* National Health Service franchise contracts are a matter for agreement between the individual concerned and his/ her employer. Questions relating to specific clauses within such contracts can be answered only by these parties.

The Department has no remit to apply a penalty to the chief executive of a franchised trust should he/she choose to terminate his/her contract before it is due to finish.

The chief executives of two franchised trusts have terminated their franchise contracts before they were due to finish. Any subsequent action taken as a result of this is a matter for their employers.

### Nursing

**Mr. Archie Norman:** To ask the Secretary of State for Health (1) how many nurse practitioners he estimates are required to ensure compliance in England with the European working time directive; [153706]

(2) how many nurses of an appropriate grade work as nurse practitioners to cover doctors in training in the NHS. [153709]

**Mr. Hutton:** It is not possible to estimate a figure for the number of nurse practitioners required, as ensuring compliance with the working time directive (WTD) requires a range of different approaches in different trusts and services, only some of which will require nurse practitioners to be employed.

The 20 WTD pilot projects currently in progress include seven employing nurse practitioners and five more which have developed senior specialist nurse roles. Examples of these are nurses trained as first assistants in surgery, as perioperative surgical practitioners, as specialist mental health nurses, and as pre-admission nurses. These pilots have shown that nurse practitioners and nurses in specialist roles can be extremely effective at both helping a trust to achieve compliant rotas and improving the quality of patient care. In all of these pilots, however, the nurses' roles are combined with changes to medical staff working patterns, and changes to service delivery, which together improve WTD compliance.

**Mr. Norman:** To ask the Secretary of State for Health what the vacancy rate is for the nursing grades that cover nurse practitioners for each strategic health authority in England. [153708]

**Mr. Hutton:** It is not possible to identify nurse practitioners within the vacancy information collected. The rate of vacancies lasting three months or more for all qualified nurses was 2.9 per cent. in March 2003, down from 3.9 per cent. in 2000.

### Nursing Homes

**Mr. Laurence Robertson:** To ask the Secretary of State for Health (1) how many people in nursing homes receive *(a)* higher, *(b)* medium and *(c)* lower level band funding in (i) England and (ii) Gloucestershire; and if he will make a statement; [155500]

(2) how many people in nursing homes receive continual help funding; what the criteria are for determining eligibility for such funding; and if he will make a statement. [155501]

**Dr. Ladyman:** Data on the number of people receiving each band of national health service funded nursing care are not collected centrally. There are roughly 20,000 people in nursing homes, at any one time, who are in receipt of fully funded NHS continuing care. All strategic health authorities have recently agreed fully funded NHS continuing care eligibility criteria that apply in their area.

### Operations

**Mr. Hurst:** To ask the Secretary of State for Health how many operations were performed in NHS hospitals to correct mistakes made in previous operations through *(a)* error and *(b)* misdiagnosis in each year from 1990 to 2002. [155991]

**Ms Rosie Winterton:** This information is not collected centrally.

However, the Government have established the National Patient Safety Agency to improve the safety of national health service patient care by promoting an open and fair culture and by introducing during 2004 a national reporting and learning system for adverse events.

### Organ Donor Register

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps his Department is taking to increase the number of people signed onto the organ donor register. [154619]

**Ms Rosie Winterton:** People are encouraged to join the organ donor register through a number of initiatives, including when they apply for a driving licence, register with a new general practitioner, or apply for a new passport. Additionally, UK Transplant runs publicity campaigns and targets action to raise the profile of organ donation, including specific advertising and information campaigns to increase organ donation from the South Asian and black African and Caribbean populations.

UK Transplant is currently running a pilot scheme with the Driver and Vehicle Licensing Agency to send out organ donor registration forms to all vehicle owners with the road tax reminder during January, March and April this year. The pilot will cover nine million vehicles and UK Transplant will assess the effectiveness of the pilot later in the year.

There are currently over 11 million people on the register—19 per cent. of the United Kingdom population.

### Osteoporosis

**Dr. Murrison:** To ask the Secretary of State for Health what steps he is taking to improve services for people with osteoporosis in the South West. [153815]

**Ms Rosie Winterton:** National action to improve services for people with osteoporosis is being taken forward through the work of the orthopaedic services improvement team, part of the National Health Service Modernisation Agency, and implementation of the national service framework (NSF) for older people. The prevention, treatment, care and support of those at risk of osteoporosis are important components in the delivery of the integrated falls services that the NSF requires to be in place locally by April 2005.

In the South West, the responsibility for commissioning services for people with osteoporosis rests with individual primary care trusts. Local programmes are being developed as part of the NSF to improve services for older people and prevent falls, which includes action on osteoporosis. For example, in South Devon an initiative called Osteoporosis South Devon was launched in October 2002 and is a new service for primary and secondary care to identify those at higher risk of osteoporosis.

Action is also being taken across the region to prevent the onset of osteoporosis. To this end, a South West regional physical activity group has been set up, which is developing a sport and physical activity plan for the South West.

**Ms Keeble:** To ask the Secretary of State for Health when he expects to issue guidelines on the treatment of osteoporosis. [153943]

**Dr. Ladyman:** The anticipated publication date for the guidance from the National Institute for Clinical Excellence on the clinical and cost effectiveness of technologies for the prevention and treatment of osteoporosis is June 2004. A clinical guideline is also in preparation on the assessment of fracture risk and the prevention of osteoporotic fractures in individuals at high risk. The anticipated publication date for this guidance is June 2005.

**Ms Atherton:** To ask the Secretary of State for Health if he will make a statement on the preliminary recommendations of the National Institute for Clinical Excellence on the drug treatment of osteoporosis. [154894]

**Ms Rosie Winterton:** The National Institute for Clinical Excellence's consultation document does not constitute its formal guidance on this technology appraisal: the recommendations are preliminary and may change after the consultation. As a registered stakeholder of the guidance, the Department has responded to the consultation and it would be inappropriate to comment further at this stage.

### Overseas NHS Staff

**Mr. Burstow:** To ask the Secretary of State for Health if he will estimate the number of overseas staff working in the NHS. [153103]

**Mr. Hutton:** The information requested is not collected centrally.

### Parliamentary Questions

**Mr. Hinchliffe:** To ask the Secretary of State for Health how the reorganisation of the Department will improve the response time to *(a)* parliamentary questions and *(b)* ministerial correspondence. [153687]

**Ms Rosie Winterton:** The Department's change programme is seeking to improve the quality and timeliness of response to parliamentary questions and ministerial correspondence by centralising expertise.

Since the formation of the Department's customer service centre, there has been steady improvement during 2003 towards Whitehall standards and this is expected to continue as the centre expands to take on all departmental ministerial correspondence.

### Patient Records

**Mr. Wyatt:** To ask the Secretary of State for Health what plans he has to centralise the holding of patients' records; and if he will make a statement. [153629]

**Mr. Hutton** *[holding answer 9 February 2004]:* The national programme for information technology is responsible for introducing the National Health Service care record service (NHS CRS), which will lead to the NHS having an integrated, electronic record management service for the first time. The NHS CRS will provide each patient with a single, comprehensive set of electronic medical and care notes. This will enable all authorised clinicians involved with the care of a patient, to see and share health information. Local practices and hospitals will continue to hold detailed local records, but additionally a summary health record will be created containing essential data such as allergies, current treatments or medication.

The NHS CRS will also ensure that key data and information is entered only once and then available to multiple users and professionals who are authorised to access. It will support better clinical decision making, remove the need for repeat and potentially harmful tests simply because the previous record is lost or not available and improve the quality of the time spent with the patient.

The security and confidentiality of patient information is an absolute priority in the context of electronic records and transmissions. Within the contracts for new applications, systems and services being negotiated with IT suppliers are stringent terms around ensuring security, control, alerts and audit measures, including encryption. We will have a right to terminate the contract of any supplier that fails to deliver the high standards that NHS patients and professionals are entitled to expect.

### Performance Indicators

**Mr. Norman:** To ask the Secretary of State for Health when he will publish the full details of the 2003–04 NHS performance indicators for *(a)* acute and specialist trusts, *(b)* primary care trusts, *(c)* mental health trusts and *(d)* ambulance trusts. [152624]

**Mr. Hutton:** The national health service performance ratings for 2003–04 will be published by the new Commission for Healthcare Audit and Inspection. The indicators to be used for the 2003–04 ratings were published by the Commission for Health Improvement (CHI) on 18 December 2003. Full details can be found on the CHI website at www.chi.nhs.uk.

**Mr. Norman:** To ask the Secretary of State for Health what the official definitions are of *(a)* NHS performance indicators, *(b)* NHS targets and *(c)* NHS standards. [152623]

**Mr. Hutton:** National health service performance indicators are now published by the Commission for Health Improvement as part of the NHS performance ratings. They measure service quality and progress in areas of importance to patients and the public. The performance ratings system assesses trusts' performance on these indicators.

Targets are the level of service that the Government expects all NHS organisations to achieve and are set out in the priorities and planning framework for that year.

The standards will define levels of service quality, which those providing or commissioning English NHS health services should seek to achieve. The performance of the NHS against those standards will be assessed against criteria to be set by the independent Commission for Health Care Audit and Inspection.

### Prescriptions

**Dr. Murrison:** To ask the Secretary of State for Health if he will make a statement on progress towards meeting the NHS Plan target for the electronic transmission of prescriptions. [153822]

**Ms Rosie Winterton:** The electronic transmission of prescriptions is one of the core programmes within the national programme for information technology (NPfIT) in the national health service in England. The electronic transmission of prescriptions (ETP) programme will enable prescribers to create and transfer prescription data electronically to a patient's community pharmacist and the Prescription Pricing Authority (PPA). As well as being more convenient for the patient (for example in relation to repeat prescriptions), this will improve safety by reducing prescription errors and providing better information at the point of prescribing and dispensing. It will also ensure that information about what has been prescribed and dispensed forms part of each person's NHS care record. In addition, ETP will deliver important administrative improvements.

The NHS Plan did not contain a specific target in relation to the electronic transmission of prescriptions. We are working towards the timetable for implementation contained in "Delivering 21st Century IT Support in the NHS". This stated, "the National Prescriptions Service will be 50 per cent. implemented by December 2005 and fully implemented by December 2007". This work is being taken forward by the NPfIT in the NHS.

Key elements of the electronic transmission of prescriptions system have been procured as part of the recently concluded NHS care records service procurements. Work is now focusing on how community pharmacies can be connected to the system, and how their pharmacy computer systems can be upgraded to comply with the requisite technical specification. It is intended that deployment of the live system will commence in January 2005.

### Primary Care

**Mr. Burstow:** To ask the Secretary of State for Health what assessment he has made of the safety of care provided by co-operatives and other organisations providing out-of-hours primary care services. [152815]

**Mr. Hutton:** Primary care trusts (PCTs) are responsible for ensuring that providers of out of hours care in their area provide a high quality, safe service, through the system of accreditation.

Accreditation ensures that providers meet nationally set quality standards, including clinical governance. Providers must report regularly to PCTs on performance, and strategic health authorities performance manage PCTs in their delivery of out of hours services.

All organised providers of out-of-hours services will be accredited by March 2004. Thereafter, they will be subject to re-accreditation at least once every three years, unless an accrediting PCT has grounds to lead it to initiate an earlier re-accreditation. Provider assessment is undertaken by a PCT outside the area that is covered by the provider, to ensure impartiality.

Under the new general medical services (GMS) contract everyone who provides services out of hours, including individuals contracted by the PCT, as well as organisations, will need to meet the national quality standards. These standards are currently under review by an expert group to make them an integral part of GMS and personal medical services contracting.

**Mr. Burstow:** To ask the Secretary of State for Health how many adverse incidents he estimates occurred in co-operatives and out-of-hours primary care services in each year since 1997. [152817]

**Mr. Hutton:** Information on the number of adverse incidents that occurred in co-operatives and other out of hours primary care services are not held centrally. Primary care trusts (PCTs) and before them, health authorities, are responsible for ensuring that out of hours services are provided to the highest standard. Since October 2002, the performance of all providers of out of hours services have been judged against nationally set quality standards, including clinical governance. Providers must report regularly to PCTs on performance and are re-accredited at least once every three years, unless an accrediting PCT has grounds to lead it to initiate an earlier re-accreditation. Strategic health authorities performance manage PCTs in their delivery of out of hours services.

### Renal Services

**Dr. Pugh:** To ask the Secretary of State for Health what capital allocation has been made available in 2003–04 for the development of renal services in *(a)* Merseyside and *(b)* Cheshire. [154298]

**Miss Melanie Johnson:** In 2003–04, the total renal capital allocation for Cheshire and Merseyside was £504,000.

**Dr. Pugh:** To ask the Secretary of State for Health what funding is available in 2003–04 to the local health authorities in *(a)* Merseyside and *(b)* Cheshire for the development of renal services. [154299]

**Miss Melanie Johnson:** In 2003–04, £3 million was identified by primary care trusts (PCTs) for investment into the development of renal services to support Cheshire and Merseyside renal patients. This is revenue funding and does not include the national renal capital funding. It is in addition to the PCT baseline investment.

### Respiratory Disease

**Mr. Burstow:** To ask the Secretary of State for Health if he will estimate the total expenditure on respiratory disease in terms of *(a)* hospital expenditure,

*(b)* primary care expenditure and *(c)* pharmaceutical expenditure for each year since 1997; and if he will make a statement. [156004]

**Dr. Ladyman:** Information on expenditure on respiratory disease is not collected centrally. The British Thoracic Society published their report in November 2001 entitled "The Burden of Lung Disease". The report estimates the total cost of respiratory disease to the national health service to be £2,576 million. It estimates that approximately £647 million is spent on primary care, £1,062 million is spent on hospital inpatient care, £18 million is spent on hospital day case care, £40.7 million is spent on hospital outpatient care and £800 million is spent on prescriptions relating to respiratory disease.

### Restructuring/Change Programme

**Mr. Hinchliffe:** To ask the Secretary of State for Health what the expected expenditure is on redundancies arising from the restructuring and change programme. [153676]

**Ms Rosie Winterton:** Initial expenditure on voluntary redundancies is £9.1 million. The amount of further expenditure will depend on a number of factors, including the level of transfers to partner organisations, the amount of natural wastage and the number of staff the Department is able to re-deploy.

**Mr. Hinchliffe:** To ask the Secretary of State for Health what the estimated total cost is of the Department of Health reorganisation and change process; and whether this figure includes monies to address *(a)* planning, *(b)* evaluation, *(c)* retraining and *(d)* relocation. [153677]

**Ms Rosie Winterton:** Total costs in the implementation period October 2003 to October 2004 are estimated at £13.7 million. This includes external consultants support in planning the implementation and evaluation as well as support for staff. This figure also incorporates initial expenditure on voluntary redundancies of £9.1 million. Relocation costs cannot be quantified until appointments have been made.

**Mr. Hinchliffe:** To ask the Secretary of State for Health how much money will be spent on *(a)* external consultants and *(b)* the process of transferring service provision to other Government Departments, arm's length bodies and local health authorities as part of the Department's change programme. [153678]

**Ms Rosie Winterton:** We expect to spend £1.25 million on external consultants in the change programme implementation period from October 2003 to October 2004. Staff support in managing change, recruitment and in seeking alternative employment is estimated at £2.35 million in the same period.

**Mr. Hinchliffe:** To ask the Secretary of State for Health what the expected social costs are of the restructuring proposed for the Department of Health in relation to *(a)* redundancies, *(b)* relocation of staff and *(c)* the impact of these issues on areas of high unemployment. [153679]

**Ms Rosie Winterton:** The impact of unnecessary redundancies will be mitigated by a vacancy freeze (in place since last summer) and active redeployment of staff to alternative posts, either within the health and social care system or within the civil service.

Funds will be available to support the relocation of staff. The Department is committed to maintaining the proportion of posts it currently has in Leeds.

**Mr. Hinchliffe:** To ask the Secretary of State for Health whether the Department has conducted an impact assessment as outlined in the Race Relations (Amendment) Act 2000, prior to the significant departmental changes that may affect the Department's staff. [153681]

**Ms Rosie Winterton:** The Department has identified the potential impact of the change programme on the promotion of race equality, has consulted upon and put in place processes to mitigate any adverse impact and is monitoring implementation.

**Mr. Norman:** To ask the Secretary of State for Health how many departmental staff will be transferred to departmental arm's length bodies under the Change Programme. [153697]

**Ms Rosie Winterton:** Provisionally, several hundred posts are designated for transfer to other organisations, including arm's length bodies, which are themselves currently under review.

### School Nurses

**Tim Loughton:** To ask the Secretary of State for Health how many school nurse whole-time equivalents are employed in each of the primary care trusts in Sussex; and what their responsibilities are. [154404]

**Ms Rosie Winterton:** The information on the number of school nurses and whole-time equivalents employed in each of the primary care trusts in Sussex is not collected centrally.

However the number of qualified nurses employed in each primary care trust (PCT) in the Sussex area, which includes school nurses, is shown in the table.

*All NHS qualified hospital and community health service nurses and GMS practice nurses employed by unrestricted principles and equivalents (UPEs)* [1] *in the specified organisations as at 30 September 2002*

| | *Whole time equivalent* | *Headcount* |
|---|---|---|
| Total of specified organisations | 1,325 | 2,061 |
| 5FH Bexhill and Rother PCT | 107 | 153 |
| 5FJ Hastings and St. Leonards PCT | 94 | 151 |
| 5FK Mid-Sussex PCT | 116 | 197 |
| 5L8 Adur, Arun and Worthing PCT | 280 | 418 |
| 5L9 Western Sussex PCT | 283 | 443 |
| 5LQ Brighton and Hove City PCT | 65 | 110 |
| 5LT Sussex Downs and Weald PCT | 218 | 335 |
| 5MA Crawley PCT | 94 | 135 |
| 5MC Horsham and Chanctonbury PCT | 70 | 119 |

[1] UPEs includes QMS Unrestricted Principals, PMS Contracted GPs and PMS Salaried GPs.

*Sources:*

Department of Health Non-Medical Workforce Census.

Department of Health General and Personal Medical Services Statistics.

School nurses' responsibilities cover children in the five to 16 age group in areas, which include general health care, drop-in cases, child protection, vaccinations, health checks, referrals on to general practitioners, target health checks (such as hearing tests), as well as requests from schools, one to one for parent or child.

### Scrutiny Committees (Costs)

**Mrs. Lait:** To ask the Secretary of State for Health pursuant to the Answer of 21 January 2004, *Official Report*, columns 1362–63W, what the resource implications are to *(a)* local government and *(b)* the NHS of the requirement for national services within the NHS to consult Overview and Scrutiny committees when they wish to change a national service; and whether a regulatory analysis of the system has been published. [155078]

**Ms Rosie Winterton:** It is not possible to assess the resource implications for local government or national health service organisations in relation to the requirement for overview and scrutiny committees to be consulted on changes to national NHS services, since each circumstance will lead to a different set of arrangements. It is right that substantial changes are appropriately consulted upon and that both local government and the NHS treat that consultation as a priority for local people affected by any proposed change. Local government and the NHS locally should set aside funding to ensure that such changes do receive rigorous consultation to ensure local people's interests are taken into consideration.

To date, there has not been any regulatory analysis of the work of overview and scrutiny committees in relation to health services. The Department is making a one-off payment to the Centre for Public Scrutiny to undertake a programme of work to support and enable health scrutiny by local government. Part of the three-year programme will be to put in place an evaluation of health scrutiny, including health service consultations, and to assess the outcomes for local people resulting from the input of overview and scrutiny committees.

### Secure Beds (Lancashire)

**Mr. Hoyle:** To ask the Secretary of State for Health how many *(a)* secure beds and *(b)* non-secure beds are available in Lancashire Care Trust; and what percentage is in use in each case. [153494]

**Miss Melanie Johnson:** The information is not collected in the form requested.

### Sex Lottery Campaign

**Sandra Gidley:** To ask the Secretary of State for Health what publications and media outlets were used in the sex lottery campaign; and how often each outlet was used. [150292]

**Miss Melanie Johnson:** The Sex Lottery campaign has been carefully designed to target young adults, aged 18 to 30, who are most at risk from sexually transmitted infections and who would benefit from increased information and awareness raising. A variety of publications and media outlets have been used to reach this audience, and a full detailed list has been placed in the Library.

### Spinal Foundation

**Mr. Brady:** To ask the Secretary of State for Health (1) what steps his Department is taking to facilitate referrals by general practitioners to the Spinal Foundation; [155997]

(2) if he will make a statement on his Department's plans for future funding of *(a)* services and *(b)* research provided by the Spinal Foundation. [155998]

**Dr. Ladyman:** We currently have no plans to provide further funding to the Spinal Foundation.

Decisions on whether or not an individual patient should be referred to the Spinal Foundation is a matter for the clinician involved in the patient's care and is not something the Department would become involved in centrally.

### Streptococcal Infections

**Mr. Oaten:** To ask the Secretary of State for Health what figures his Department has collated on the number of cases of Group D streptococcus in each of the last five years. [151945]

**Miss Melanie Johnson:** Almost all group D streptococcal infections in humans are associated with enterococci or 'Streptococcus bovis group'. Data received by the Health Protection Agency Communicable Disease Surveillance Centre under a voluntary reporting system are shown in table 1.

*Table 1: Annual totals for England and Wales*

| | *Number of reports of enterococci isolated from blood stream* | *Number of reports of 'Streptococcus bovis group' isolated from blood stream* |
|---|---|---|
| 1998 | 3,049 | 160 |
| 1999 | 3,208 | 173 |
| 2000 | 3,648 | 161 |
| 2001 | 4,312 | 196 |
| 2002 | 4,855 | 215 |

*Source:*
Health Protection Agency website: http://www.hpa.org.uk/infections/topics az/bacteraemia/gram pos.htm

Information for hospital episode statistics is shown in table 2.

*Table 2: Streptococcus group D (ICD10 B95.2) as the cause of diseases classified to other ICD10 chapters—All diagnosis count of episodes. Finished Consultant Episodes (FCEs)—NHS hospitals in England, 1998–99 to 2002–03*

| | *Finished consultant episodes* |
|---|---|
| 1998–99 | 381 |
| 1999–2000 | 479 |
| 2000–01 | 542 |
| 2001–02 | 572 |
| 2002–03 | 707 |

*Notes:*
1. A finished consultant episode (FCE) is defined as a period of admitted patient care under one consultant within one health care provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year. These figures represent a count of all FCEs where the diagnosis was mentioned in any of the 14 (7 prior to 2002–03) diagnosis fields in a HES record. A record is only included once in each count, even if a diagnosis is mentioned in more than one diagnosis field of the record.

2. Figures are grossed for both coverage and missing/invalid clinical data, except for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.
*Source:*
Hospital Episode Statistics (HES), Department of Health

### Stroke

**Dr. Cable:** To ask the Secretary of State for Health what estimated NHS spending was on *(a)* treatment of stroke patients, *(b)* research on strokes and *(c)* stroke rehabilitation in 2003. [154948]

**Dr. Ladyman:** Information on national health service spending on the treatment and rehabilitation of stroke is not collected centrally. Primary care trusts (PCTs) receive unified allocations to cover the costs of hospital and community health services, discretionary funding for general practice staff, premises and computers and primary care prescribing.

The level of funding made available for the drugs, staffing and other costs of providing stroke services are determined locally. It is for PCTs, in partnership with local stakeholders, to determine how best to use their funds to provide health services for their populations, including those with stroke.

Management of much of the research supported by NHS research and development funding is devolved and expenditure at project level is not held centrally by the Department. The main agency through which the government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body that receives its grant-in-aid from the Office of Science and Technology. The MRC spent an estimated £4.9 million on stroke research in 2002–03.

### SunSmart

**Mr. Baron:** To ask the Secretary of State for Health when the SunSmart campaign for 2004 will be launched. [154615]

**Miss Melanie Johnson** *[holding answer 12 February 2004]:* The SunSmart campaign, run by Cancer Research UK on behalf of the United Kingdom Health Departments, will be launched in spring 2004.

### Transmissible Spongiform Encephalopathy

**Mr. Havard:** To ask the Secretary of State for Health what precautions are in force to protect people from the risk of transmission of transmissible spongiform encephalopathies through surgical instruments. [153859]

**Miss Melanie Johnson:** Advice from the Spongiform Encephalopathies advisory committee indicates that good decontamination is key in reducing the risk of person to person transmission of variant Creutzfeldt-Jakob Disease (vCJD) through surgical instruments.

A circular (HSC 2000/032) was issued to the national health service on 18 October 2000, emphasising the importance of effective decontamination in preventing the spread of vCJD. In addition, the Department has surveyed the effectiveness of decontamination services and taken action to ensure all NHS hospitals in England had access to decontamination services of an acceptable standard by December 2001.

### Unlicensed Drugs (Children)

**Paul Flynn:** To ask the Secretary of State for Health what plans he has to restrict the prescription of unlicensed drugs to children. [155331]

**Ms Rosie Winterton:** There are no plans to impose a general restriction on the prescription of unlicensed medicines to children.

Most medicines have only been tested for safe and effective use in the adult population and there are comparatively few medicines on the market that are specifically licensed for the treatment of children. This leads to prescribers having no option but to prescribe unlicensed and off-label medications in this patient population.

Normally, if a product has not been licensed for use in children because of a lack of clinical trial data and/or clinical experience, the summary of product characteristics contains statements to this effect and use in children is not recommended. However, further restrictions (contraindications) have been introduced with respect to the off-label or unlicensed use of specific medicinal products where there is evidence that the benefit/risk may be unfavourable.

The real solution to this problem lies not in restricting paediatric prescribing but in stimulating the development and testing of appropriately formulated medicines for use in the paediatric population. It is expected that the European Commission will adopt a proposal for a Regulation on medicines for paediatric use by the end of April 2004. It will contain a number of incentives and obligations to stimulate the development of medicines for children. In the mean time officials have been asked to develop a UK strategy to deliver, in the short and medium term, improved availability of medicines that are appropriately labelled and appropriately formulated for use in children.

### Wind Turbines

**Dr. Murrison:** To ask the Secretary of State for Health what studies he has commissioned into the health effects of living close to wind turbines. [154766]

**Mr. Hutton:** The Department has not funded any work in this area.

### Working Time Directive

**Mr. Norman:** To ask the Secretary of State for Health which of the European Working Time Directive pilot sites have a full complement of *(a)* senior specialist nurses and *(b)* nurse practitioners to cover doctors in training. [153707]

**Mr. Hutton:** The Working Time Directive (WTD) pilot sites are managed by the Modernisation Agency (MA) as part of the wider work on WTD implementation. I understand from the MA that it is not possible to say what constitutes a full complement of these nurses, as each trust and service will have specific needs to be determined locally.

## WORK AND PENSIONS

### Council Tax Benefit

**Bob Spink:** To ask the Secretary of State for Work and Pensions what proportion of pensioners were eligible for council tax benefit in *(a)* 1997 and *(b)* 2003. [153788]

**Mr. Pond:** Between 43 per cent. and 46 per cent. of pensioners in Great Britain were either in receipt of, or were entitled to but not receiving, council tax benefit in financial year 1997–98. Approximately 48 per cent. of pensioners are estimated to be entitled to council tax benefit in 2003–04.

*Notes:*

1. Pensioners are defined as either a single person aged at least 60 or, if within a couple, at least one person is aged 60 years or above.
2. Pensioners in Residential Care and Nursing Homes are excluded from the estimates.
3. The estimate for 1997–98 is presented as range to reflect the uncertainty in the number of estimated entitled non-recipients based on Family Resources Survey data.
4. The estimate for 2003–04 is based on the Department's Policy Simulation Model (PSM), which makes use of 2001–02 Family Resources Survey data projected forward to 2003–04 to estimate the extent of council tax benefit entitlement for each pensioner unit in the survey.
5. The estimates are based on sample counts that have been adjusted for non-response using multi-purpose grossing factors that control for tenure type, council tax band and a number of demographic variables. Estimates, particularly for 2003–04, are subject to sampling error and remaining response bias.

**Mr. Prosser:** To ask the Secretary of State for Work and Pensions what plans he has to introduce assessed income periods for pensioners claiming council tax benefit; and what estimate he has made of the cost of this change. [152797]

**Mr. Pond:** The assessed income period (AIP) applies in pension credit. It is a period, normally five years, during which pensioners aged 65 or more will not need to report to the Pension Service changes to the money they have set aside for their retirement.

There are no plans to introduce similar arrangements for council tax benefit and therefore no estimate of cost has been made. However, the requirement for pensioners to complete annual reviews in housing and council tax benefit claims was removed in October 2003, and will be abolished for all other housing and council tax benefit recipients from April 2004.

**Mr. Prosser:** To ask the Secretary of State for Work and Pensions if he will introduce a single short form specifically for pensioner home owners claiming council tax benefit. [152798]

**Mr. Pond:** We have already introduced a streamlined housing benefit/council tax benefit claim form for pensioners (HCTB1(PC)), and are currently considering the introduction of a council tax benefit claim form designed specifically for use by pensioners who do not require housing benefit.

### Benefit Appeals

**John Barrett:** To ask the Secretary of State for Work and Pensions how many *(a)* successful and *(b)* unsuccessful appeals were made against decisions made on (i) disability and (ii) sickness benefits in each year since 1997; and what assessment he has made of the effectiveness of the primary decision-making process for (A) disability and (B) sickness benefits. [153377]

**Maria Eagle:** The information is in the table.

*Appeals against decisions made on the key disability and sickness benefits*

| *Benefit type and appeal tribunal decision* | *2003* | *2002* | *2001* | *2000* | *1999* | *1998* |
|---|---|---|---|---|---|---|
| Incapacity benefit successful appeals | 22,055 | 18,145 | 15,185 | 16,845 | Not available | Not available |
| Incapacity benefit unsuccessful appeals | 24,155 | 22,910 | 19,385 | 24,545 | Not available | Not available |
| Attendance allowance successful appeals | 3,480 | 3,960 | 5,035 | 3,440 | 2,455 | 2,300 |
| Attendance allowance unsuccessful appeals | 4,135 | 4,350 | 5,640 | 4,180 | 2,635 | 2,410 |
| Disability living allowance successful appeals | 36,855 | 39,495 | 45,165 | 31,065 | 25,170 | 20,330 |
| Disability living allowance unsuccessful appeals | 32,095 | 32,510 | 40,200 | 31,410 | 25,810 | 21,980 |

For comparison purposes, the total number of beneficiaries of each benefit for each year is shown as follows rounded to the nearest 100,000.

| | *DLA* | *AA* | *IB* |
|---|---|---|---|
| August 2003 | 2.5 | 1.4 | 1.5 |
| August 2002 | 2.4 | 1.3 | 1.5 |
| August 2001 | 2.3 | 1.3 | 1.5 |
| August 2000 | 2.2 | 1.3 | 1.5 |
| August 1999 | 2.1 | 1.3 | 1.5 |
| August 1998 | 2 | 1.2 | 1.6 |

*Source:*
DWP statistics, given for 31 August for each year shown.

The Secretary of State publishes an annual report on decision-making standards in the Department for Work and Pensions. Copies are available in the Library.

### Benefit Fraud

**John Barrett:** To ask the Secretary of State for Work and Pensions what estimate he has made of the regional variation in *(a)* housing benefit, *(b)* income support and *(c)* jobseeker's allowance fraud; and if he will make a statement. [147830]

**Mr. Pond:** We are committed to driving down levels of fraud and error in the benefits system, including tackling regional variations; and there are a number of specific initiatives within our agencies to achieve this.

The latest published national statistical report 'Fraud and Error in Income Support and Jobseeker's Allowance from April 2001 to March 2002' provides a breakdown of estimates of Income Support and Jobseeker's Allowance fraud by each Government Office Region. A copy is available in the Library.

We cannot provide an estimate of the regional variation in Housing Benefit fraud because the measurement sample only supports a national estimate.

**Mr. Webb:** To ask the Secretary of State for Work and Pensions if he will estimate the annual level of *(a)* detected and *(b)* undetected benefit fraud in each of the last six years. [151020]

**Mr. Pond:** We estimate that approximately £2 billion per annum is overpaid as a result of fraud.

We make regular estimates of the total amount of fraud overpayments on Income Support, Jobseeker's Allowance and Housing Benefit and the results are published as National Statistics.

Our estimates of levels of fraud and error in Income Support and Jobseeker's Allowance are published in the series of reports "Fraud and Error in Claims for Income Support and Jobseeker's Allowance."

For Housing Benefit, we published "Fraud and Error in Housing Benefit, April 2002 to March 2003" on 11 December 2003. This report represents the first national headline estimates, for the level of fraud and error in Housing Benefit, derived via the statistical analysis of data collected by the Housing Benefit Review (HBR) continuous measurement exercise. Copies of the reports have been placed in the Library.

**Mrs. May:** To ask the Secretary of State for Work and Pensions (1) what guidance he has issued regarding joint prosecution for benefit fraud with local authorities; [155071]

(2) what guidance he has issued to local authorities about undertaking joint prosecutions with the Department of Work and Pensions for benefit fraud. [155103]

**Mr. Pond:** Comprehensive guidance is provided to fraud investigators in this Department and in local authorities in the form of the Fraud Procedures and Instructions (FPI) Manual. Guidance on joint proceedings with local authorities was updated in June and August 2003, with additional specific guidance on joint prosecutions also issued in August 2003.

**Mrs. May:** To ask the Secretary of State for Work and Pensions (1) how many joint prosecutions have been undertaken by the Department with local authorities on benefit fraud in each of the last five years, broken down by local authority; [155072]

(2) how many joint prosecutions with local authorities for benefit fraud have been suspended in the last three months. [155104]

**Mr. Pond:** The information is not available.

**Mrs. May:** To ask the Secretary of State for Work and Pensions what discussions he has had with the office of the Deputy Prime Minister about the implications of the Howell Opinion on joint prosecutions for benefit fraud. [155271]

**Mr. Pond:** There have been no discussions concerning the implications of the Howell Opinion with the Office of the Deputy Prime Minister. However, Department for Work and Pensions lawyers and officials are continuing to work on the implications of the Opinion to ensure that effective joint working between DWP and local authorities may continue within the existing statutory framework.

### Benefit Payments

**Mr. Challen:** To ask the Secretary of State for Work and Pensions how many recipients of benefits have had their payments made to *(a)* standard bank or building society accounts, *(b)* bank or building society basic accounts and *(c)* Post Office card accounts. [142216]

**Mr. Andrew Turner:** To ask the Secretary of State for Work and Pensions how many *(a)* child benefit recipients, *(b)* pensioners and *(c)* other benefit recipients received payments (i) into bank accounts, (ii) into Post Office Card Accounts and (iii) through post offices using pension and benefit books at the most recent date for which figures are available. [142424]

**Mr. Pond** *[holding answer 8 December 2003]:* The information in the table shows the current number of live accounts, by benefit group, actively paid by Direct Payment into a bank or building society account, and Post Office card account.

| *Benefit* | *Accounts paid by Direct Payment (excluding Post Office Card Account)* | *Accounts paid to Post Office Card Account* | *Accounts paid by order book* |
|---|---|---|---|
| Working Age Benefits | 1,818,507 | 51,560 | 2,683,926 |
| Disability and Carer's Benefit | 1,476,640 | 8,133 | 1,534,277 |
| Retirement Pension | 5,474,797 | 42,561 | 5,606,745 |
| Child Benefit | 4,848,029 | 52,053 | 1,938,727 |
| War Pensions | 138,790 | 2,753 | 99,447 |
| All Benefits | 13,756,763 | 157,060 | 11,863,122 |

*Notes:*

1. This table has been derived from a number of different sources.
2. The Ministry of Defence is now responsible for payment of War Pensions benefit—they provided the figure for Accounts paid to Post Office Card Account up to 22 October 2003.
3. The figures relate to accounts not customers.
4. They only include customers actually receiving an amount in payment.
5. We cannot differentiate between standard bank or building society accounts and basic bank accounts.
6. The table details figures for GB only.

Key figures on the progress of conversion to Direct Payment are available in the Library updated every four weeks.

### Benefit Rights

**Bob Spink:** To ask the Secretary of State for Work and Pensions if he will review all advertisements encouraging retired people to take up their benefit and tax credit rights in order to ensure that they are clear, unambiguous and accurate; and if he will withdraw advertisements that fail in these respects. [153079]

**Malcolm Wicks:** We constantly review advertising throughout a campaign to ensure it is working effectively—so that we can take appropriate action if necessary.

DWP national advertising is checked for clarity, comprehension and accuracy prior to publication or broadcast to ensure that our approach is clear and will generate the desired response. This may involve focus group research among representatives of the target audience and clearance by the relevant broadcast standards authorities. The process can also involve Departmental consultation with key stakeholders such as Help The Aged or Age Concern. Major campaigns also use tracking research to identify any issues of clarity, comprehension and accuracy, in order to

optimise campaign performance and ensure that the public have clear and timely information on entitlements and benefits.

Some local advertising, for example one-off local newspaper advertisements informing the public about outreach events, does not follow this process, as the advertisement just highlights the details of the event. It would not be cost effective to adopt the approach above in these cases.

The Department is not responsible for advertising tax credits.

**John Barrett:** To ask the Secretary of State for Work and Pensions what steps his Department is taking to increase awareness of *(a)* disability and *(b)* sickness benefits. [153378]

**Maria Eagle:** The Department continually strives to ensure that its customers are aware of any potential entitlement to disability and sickness benefits. The Department publishes a wide range of literature and this is available from numerous easily accessible sources such as offices of the Department, some post offices, doctors' surgeries or advice centres. These, together with free telephone helplines/ensure that the public have sufficient information to enable them to make informed decisions about disability and sickness benefits.

The Department has a national, regional and local outreach programme in place that aims to promote and raise awareness about availability of services. The Department also meets regularly with partners from local authorities and welfare rights organisations that represent customers with physical, mental and sensory impairments, to ensure that they are kept up to date with our initiatives to modernise the delivery of benefits.

Expert advice is also available from advisers in Job Centre Plus offices which are rolling out over the next two or three years or Social Security offices, about all the benefits that can be claimed by people of working age and about the best steps for moving towards work.

For people with internet access information about all benefits and how these may be claimed is also contained on the DWP website.

The effectiveness of these initiatives has, for example, contributed to the increase in the number of disability living allowance recipients by 25.4 per cent. in the five years to August 2003 and by 5.9 per cent. in the last 12 months alone.

### Casual Staff

**Paul Holmes:** To ask the Secretary of State for Work and Pensions (1) how many employees have been employed on 13-week casual appointments in Jobcentre and JobcentrePlus offices in *(a)* the United Kingdom and *(b)* each region in the last 12 months; and if he will make a statement; [152672]

(2) how many JobcentrePlus staff on 13-week casual contracts were employed on these contracts for *(a)* the second time, *(b)* the third time and *(c)* more than the third time in the last 12 months; and if he will make a statement. [152673]

**Mr. Browne:** The information is not available and can be obtained only at disproportionate cost.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what functions are carried out by casual staff employed in offices in the South East Region; what training they receive; and what the cost of such training was in the last year for which figures are available. [151529]

**Maria Eagle:** The Department employs casual staff for a number of reasons, for example, to help manage peaks of work and to aid release of permanent staff for training and preparation for major business change. Information on the specific duties carried out by casual staff is not available.

The Learning and Development provided for casual staff varies according to the job role and work undertaken by the individual. For example, those dealing with customers receive training linked to serving customers, keeping safe, equal opportunities, data protection and interviewing skills. More informal training includes working with, and observing more experienced colleagues and coaching from subject experts and line managers. In addition, many new staff have a buddy or mentor.

Information on the cost of training for casual staff is not available.

### Child Support Agency

**Mr. Swire:** To ask the Secretary of State for Work and Pensions if he will make a statement on reform of the Child Support Agency. [155348]

**Mr. Pond:** I refer the hon. Member to the written statement from my right hon. Friend the Secretary of State on 12 February 2004, *Official Report*, columns 80–82WS.

**Mr. Webb:** To ask the Secretary of State for Work and Pensions when existing Child Support Agency cases assessed under the old rules will be transferred to the new assessment system. [155910]

**Mr. Pond:** I refer the hon. Member to the written answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

**Mr. Weir:** To ask the Secretary of State for Work and Pensions (1) how many people whose cases are in the hands of the Child Support Agency in *(a)* Angus constituency and *(b)* Scotland are due arrears of child maintenance; and how many have been due arrears for more than three months; [152544]

(2) what the *(a)* average and *(b)* longest time taken by the Child Support Agency has been to collect arrears due to persons whose cases are in the hands of the Agency in (i) the Angus constituency and (ii) Scotland; [152545]

(3) what amounts of arrears are due to persons in *(a)* the Angus constituency and *(b)* Scotland whose cases are in the hands of the Child Support Agency; [152546]

(4) what the total amount is owed to people whose cases are in the hands of the Child Support Agency in *(a)* Angus and *(b)* Scotland of arrears in child maintenance. [152547]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member.

*Letter from Doug Smith to Mr. Michael Weir, dated 23 February 2004:*

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the following questions:

> how many people whose cases are in the hands of the Child Support Agency in *(a)* Angus constituency and *(b)* Scotland are due arrears of child maintenance; and how many have been due arrears for more than three months.
>
> what the *(a)* average and *(b)* longest time taken by the Child Support Agency has been to collect arrears due to persons whose cases are in the hands of the Agency in (i) the Angus constituency and (ii) Scotland.
>
> what amounts of arrears are due to persons in *(a)* the Angus constituency and *(b)* Scotland whose cases are in the hands of the Child Support Agency.
>
> what the total amount is owed to people whose cases are in the hands of the Child Support Agency in *(a)* Angus and *(b)* Scotland of arrears in child maintenance.

The specific information that you seek is not available. However, I can tell you that there are around 600 cases within the Angus Parliamentary constituency where arrears are due and have been for more than three months. In comparison Scotland has nearly 26,000 cases where arrears have been outstanding for more than three months.

### Departmental Relocation

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions (1) if he will make a statement on the factors which underlay decisions to *(a)* relocate work and *(b)* close his Department's offices in the South-East Region; [151631]

(2) what factors underlay the decisions *(a)* to close offices, *(b)* to transfer work through relocation and centralisation and *(c)* not to replace permanent staff in (i) Portsmouth, (ii) Southampton and (iii) the Isle of Wight; and if he will make a statement. [152149]

**Mr. Browne:** Jobcentre Plus and The Pension Service are modernising the services we provide to our customers. This modernisation is increasing the number of places where people can get information about work and benefits.

Jobcentre Plus is providing improved customer access through telephone contact centres, the internet and new, dedicated caller offices. The creation of new style Jobcentre Plus offices is providing customers with premises where they can make inquiries both about their benefits and about job opportunities in one place.

The Pension Service has a network of pension centres, complemented by a local service delivered in partnership with local authorities and voluntary sector organisations. The Pension Service is meeting pensioners in their local communities, holding appointment and drop-in advice surgeries in places that they are familiar with, such as Age Concern and CAB outlets, local libraries and community centres.

The purpose of these plans was to provide all the Department's customers in Portsmouth, Southampton and the Isles of Wight; in the South East Region; and in the country as a whole with a modern and efficient service. These services are being targeted where people need them after consultation with local welfare agencies, local authorities, MPs and others. Where necessary duplication of sites is being reduced, helping to ensure that the taxpayer gets value for money. Overall these plans are building on the high quality service already provided by social security offices and Jobcentres by delivering a service tailored to the specific needs of its customers.

In determining the location of the new Jobcentre Plus offices a great many factors are taken into account. These factors include, but are not limited to, the population size and spread, the quality, cost and availability of local transport, the distance between offices, concentrations of our key customer groups, areas designated for urban renewal or other regeneration initiatives, employers' needs, labour market characteristics, the availability of suitable office accommodation, the cost of maintenance and disposal, and the availability of staff and ability to relocate existing local staff. In some cases we have found that industrial and demographic change has left our offices situated in less than ideal locations. This modernisation programme provides an opportunity to critically review where we can best locate our offices to deliver services to meet the needs of the local community.

### Disability Allowance

**Mr. Goodman:** To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of extending the entitlement to disability allowance and attendance allowance to 52 weeks for those claimants who are hospitalised. [155986]

**Maria Eagle:** Extending to 52 weeks the period during which disability living allowance and attendance allowance can be paid to hospital in-patients is estimated to cost in the region of £145 million a year at current rates. This figure includes the consequential costs in carer's allowance, pension credit and the income-related benefits.

### Ethnic Minorities

**Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions what discussions he has had with colleagues in the Department for Health to ensure fair treatment for older people from ethnic minority groups and their needs in terms of *(a)* income and *(b)* quality of life. [155810]

**Malcolm Wicks:** Ministers have regular contact with colleagues in Department of Health to discuss the position of older people—this would include the fair treatment of minority groups such as ethnic minorities.

### Direct Payment

**John Barrett:** To ask the Secretary of State for Work and Pensions pursuant to his answer of 17 December 2003, *Official Report*, column 978W, on the exceptions service, whether those individuals who do not opt for a direct payment option will be eligible for the service. [147779]

**Mr. Pond:** Customers who have not supplied account details will be contacted at an appropriate time and the options available to them will be fully explained. This will include the fact that order books will no longer be a payment option. An alternative method of payment will be available for those who cannot operate a bank account.

Direct Payment will be the best option for the overwhelming majority of our customers, giving them a more modern and reliable method of payment with greater choice about where and when they collect their money.

Research has shown that 87 per cent. of all our customers and 90 per cent. of pensioners already have an account suitable for direct payment.

### Housing Allowances

**Mr. Cousins:** To ask the Secretary of State for Work and Pensions if he will list the local flat-rate housing allowances agreed to date for each of the pilot areas for such allowances. [149646]

**Mr. Pond:** The Local Housing Allowance (LHA) is a major structural reform designed to promote choice and responsibility within the housing benefit system. The LHA has been introduced in four local authorities and is due to be introduced to the remaining pathfinder authorities in the near future.

The information for the pathfinder authorities currently delivering LHA is in the table.

*LHA rates for Teignbridge by Broad Rental Market Area (BRMA)*

### Health and Safety

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions if he will introduce legislation to provide for greater *(a)* recognition and *(b)* powers for safety representatives in workplaces. [155819]

**Mr. Browne:** We have no plans to introduce legislation to provide for greater recognition and powers for safety representatives.

We have recently received advice from the Health and Safety Commission (HSC) recommending that new legislation on worker involvement and representation in occupational health and safety should not be introduced at this time. This advice, which we have accepted, recommends that Health and Safety Commission and

Executive should instead concentrate their efforts on securing the agreement of social partners to principles and measures that will ensure that workers are properly involved in controlling risks to occupational health and safety. Today HSC is publishing its new strategy and out of this will shortly release a statement on worker involvement setting out these principles and working with social partners to win wider support. A copy will be placed in the Library when published.

### Jobcentre Plus

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions how many casual workers were employed by Jobcentre Plus in the South East region in each of the last two years; what the cost was; and what the projected numbers are for the current year. [151530]

**Mr. Browne:** The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

*Letter from David Anderson to Mr. Mike Hancock, dated 23 February 2004:*

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your question concerning the employment of casual members of staff by Jobcentre Plus in the South East. This is something that falls within the responsibilities delegated to me as Chief Executive of the Agency.

The information you require is in the table below. It should be noted that Jobcentre Plus operates according to the fiscal year; therefore the information includes a projection to 31 March 2004.

| *Year ending* | *2002–03* | *2003–04* |
|---|---|---|
| Casual staff engaged[1] | 252 | [3]250 |
| Cost[2] | £3,066,634 | [3]£3,716,020 |

[1] This represents the total number of contracts offered during the course of a year.
[2] This represents the salary costs for the total number of casual members of staff in post for each month of the year.
[3] projected
*Source:*
Financial Accounting Operations System Activity Based Information System

I hope this is helpful.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what consultation has taken place with outside interested bodies *(a)* prior to and *(b)* since the Jobcentre Plus reorganisation; and what representations he has received from groups representing (i) unemployed workers and (ii) pensioners. [151531]

**Mr. Pond:** The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

*Letter from David Anderson to Mr. Mike Hancock, dated 23 February 2004:*

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your question concerning what consultation has taken place with outside interested bodies prior to, and since, the Jobcentre Plus reorganisation. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus came into existence as a national organisation at the beginning of April 2002. The Benefits Agency and Employment Service ceased to exist at the same time. The new service is being rolled out across the country on a district by district basis. Over 350 integrated Jobcentre Plus offices are now operating across the country. Integrating the whole of the former Employment Service and Benefits Agency's services for people of working age and creating the national network of Jobcentre Plus offices will not be completed until 2006.

As each district starts to plan for the introduction of the new integrated Jobcentre Plus, service delivery arrangements are shared with local stakeholders, MPs and others. The service delivery arrangements are shared at the initial proposal stage, amended to take account of comments received where appropriate, then shared again when approval for the plans has been given. This is an integral part of the planning process for the introduction of the Jobcentre Plus service across England, Wales and Scotland.

District Managers are provided with a list of suggested stakeholders for this initial planning stage. These include; local MPs/MEPs/MSPs/Members of the National Assembly of Wales, local authorities, programme providers/service delivery partners, employers, Citizens Advice Bureaux, and welfare rights organisations. This list is not exhaustive and each District Manager may identify their own local stakeholders.

As part of the consultation process District Managers may also canvass the opinions of their customers and any comments they provide will be used as part of the planning process. Representations districts receive about Jobcentre Plus service delivery plans from our stakeholders can also include those representing unemployed workers and pensioners. Any concerns or issues raised by these groups as a result of the consultation process will be addressed at district level and are fed in to each districts planning before the final decision is made for roll out of Jobcentre Plus in that district.

Jobcentre Plus managers at all levels maintain close contact with many local and national organisations representing our client base. This enables continuous feedback concerning the services that we provide before, during and after the roll out of the new Jobcentre Plus services.

I hope this is helpful.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what plans he has *(a)* to provide new Jobcentre Plus premises for the inner city areas of (i) Portsmouth and (ii) Southampton, *(b)* to increase staffing levels in remaining offices and *(c)* to improve the furnishing in remaining offices. [151535]

**Mr. Browne:** The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

*Letter from David Anderson to Mr. Hancock, dated 13 February 2004:*

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your question concerning Jobcentre Plus proposals for the inner city areas of Southampton and Portsmouth. This is something that falls within the responsibilities delegated to me as Chief Executive of the Agency.

Plans are currently being developed to roll out the new integrated Jobcentre Plus service in both Portsmouth and Southampton. Partners and stakeholders were originally consulted about these plans in June and September 2002.

Presently, options for both cities are being vigorously pursued. While suitable premises have been identified for Portsmouth that will have the capability to deliver the enhanced services to Portsmouth customers; discussions remain commercially sensitive. Therefore, we are unable to give details of the sites under consideration. Commercial considerations also apply to Southampton, where work is ongoing.

Jobcentre Plus is contributing to the wider DWP modernisation and efficiency agenda and the workforce planning levels agreed for Jobcentre Plus form part of this. There are no plans to change substantially the numbers of people who work in Southampton and Portsmouth Jobcentre Plus locations beyond the impact of these plans. Each Region has a share of the total Jobcentre Plus performance target with the allocation of resource budgets within

Jobcentre Plus linked to expected workloads and performance targets. The headcount target for each region, and each district in that region, and each office in that district, is based on this.

The new Jobcentre Plus service will provide a more professional and welcoming environment. When the new Jobcentre Plus offices open, they will be to the design and furnishing standard of this new enhanced Jobcentre Plus model. Existing Jobcentre offices in Portsmouth and Southampton undergo regular quarterly health and safety inspections, where the existing furnishings are reviewed.

If there are any specific issues you wish to raise about these offices or if you would like to see the new specification in offices which have rolled out the new service, please contact Karen Gamester, the District Manager for Hampshire and Isle of Wight, on 01962 848887, who will be happy to assist.

I hope this is helpful.

### New Deal

**Mr. Wilshire:** To ask the Secretary of State for Work and Pensions what resources are made available to New Deal advisers to provide practical advice to members of the public on the New Deal programme who are not graduates, who wish to acquire additional skills to pursue careers which require graduate level entry. [154341]

**Mr. Browne:** The primary aim of New Deal is to help people into employment as soon as possible. The advice given to non-graduate New Deal participants wishing to pursue careers requiring graduate entry level qualifications could depend on a range of factors including the person's existing qualifications, their financial situation, the availability of the training required, and the entry criteria for specific courses.

New Deal advisers have knowledge of the local labour market and access to a range of resources to assist them in providing appropriate advice and guidance to all New Deal participants. Resources used by advisers include: careers publications, access to the internet, links with training providers and local colleges as well as Connexions/Careers Service. Someone without the relevant qualifications to start a degree or diploma course could, for example be referred to an Access Course, which can be funded under New Deal. People interested in further or higher education would also be given advice on sources of funding such as Career Development Loans, and referred to relevant educational bodies for more detailed advice on course funding.

**Mr. Wilshire:** To ask the Secretary of State for Work and Pensions (1) what procedures are followed to ensure that training programmes and allied support within the New Deal are tailored to an individual's requirements; [154342]

(2) if he will make it his policy to ensure that individuals are not placed on New Deal training courses that provide guidance and advice on skills the person has already acquired. [154343]

**Mr. Browne:** The New Deal is primarily a 'jobs first' programme and its success is measured through the number of people helped into work; so far nearly one million people have been helped into employment through New Deal.

Training programmes, and other support available through New Deal, are intended to equip people with the skills needed to compete effectively in the local labour market. Effort is made to tailor courses and other support to meet individuals' requirements but this has to be balanced against the recruitment and skills needs of local employers and the likelihood of the training improving employment prospects. In circumstances where the needs of an individual cannot be met through normal contracts with training providers, one-off courses or training provision can be purchased if this is likely to improve the person's chances of getting quickly into work.

It is not the intention of New Deal to place people on training courses that provide them with skills they already have. However, participants on the mandatory New Deal programmes may be expected to attend courses to help address their barriers to work, for example, a two-week Gateway to Work course, which provides jobsearch and motivational support.

### Occupational Pensions

**Mr. Hoyle:** To ask the Secretary of State for Work and Pensions which trade unions he has met to discuss the future of occupational pension schemes; and if he will make a statement. [154748]

**Malcolm Wicks:** My right hon. Friend the Secretary of State for Work and Pensions and I are committed to increasing consensus on pension issues by maintaining frequent contact with all our key partners in both the Trade Unions and the employer community. It is important that we all play our part in making sure that today's and tomorrow's pensioners have the level of income in retirement that they have chosen.

Within the last two months we have met representatives from many union groups including TGWU, TUC, UNIFI, GMB, GPMU, AUT, NUT, UNISON, Usdaw, ISTC, CWU, GPM, GMBI and Amicus.

In the next few weeks I hope to have further meetings with representatives from the TGWU and the CWU.

### Pension Credit

**Mr. Hoyle:** To ask the Secretary of State for Work and Pensions if he will rank each parliamentary constituency according to the take-up of pension credit. [154747]

**Malcolm Wicks:** The most recent monthly progress report on pension credit, accompanied by tables showing the number of pension credit households in each parliamentary constituency in Great Britain, was published on 9 February. Copies are in the Library. It is not currently possible to rank constituencies according to the level of pension credit take-up since estimates of the number of eligible households are not available at constituency level.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions how many pensioners are not receiving their pension credit entitlement in *(a)* Portsmouth and *(b)* England; and what steps his Department is taking to improve take-up. [155217]

**Malcolm Wicks:** The information is not available in the form requested. However, we estimate that there are approximately 3.15 million pensioner households in England likely to be eligible for pension credit. The

latest monthly pension credit progress report, published on 9 February, shows that at 31 January, approximately 1.82 million pensioner households in England were receiving pension credit. As at the same date, the numbers of households receiving pension credit in Portsmouth, North and Portsmouth South were 2,555 and 3,862 respectively.

We are currently in the main phase of our marketing campaign for pension credit and aim to have at least 3 million households in receipt of pension credit by 2006. By June 2004, we will have written to all pensioner households, explaining about the new entitlement. Direct mail is being supported by extensive TV and press advertising. From May we intend to focus campaign activity on those pensioners who are likely to be entitled but who have not responded. The Pension Service local service is playing a key role, particularly in encouraging pensioners who are less likely to take up their entitlement to apply. We continue to work closely with organisations such as Help the Aged and Age Concern, at both national and local level, and with local authorities.

**Mr. Hepburn:** To ask the Secretary of State for Work and Pensions (1) what the average pension credit payment is to pensioners in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* the UK; [155845]

(2) what the average minimum income guarantee payment is to pensioners in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* the UK; [155846]

(3) how many pensioners are *(a)* eligible for and *(b)* in receipt of pension credit in (i) Jarrow constituency, (ii) South Tyneside, (iii) Tyne and Wear, (iv) the North East and (v) the UK; [155890]

(4) how many pensioners were in receipt of the minimum income guarantee in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* the UK at the last date on which it was paid; [155952]

(5) how many pensioners are eligible for the minimum income guarantee in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* the United Kingdom. [156022]

**Malcolm Wicks:** Information on the number of people who are eligible for pension credit is not available in respect of individual local authority areas or parliamentary constituencies. However, we estimate that around 250,000 pensioner households in the North East Government Office Region (GOR) and around 3.8 million pensioner households in Great Britain are eligible for pension credit. Information on numbers of pension credit recipients and average awards in the areas mentioned is given in the table.

*Pension credit recipients in Great Britain, the North East, Tyne and Wear, South Tyneside and Jarrow, 31 January 2004*

| | *Households* | *Individuals* | *Average weekly award per household (£)* |
|---|---|---|---|
| Great Britain | 2,172,280 | 2,610,450 | 43.50 |
| North East GOR | 130,080 | 157,750 | 38.45 |
| Tyne and Wear | 60,710 | 73,325 | 39.09 |
| South Tyneside | 9,385 | 11,305 | 39.18 |
| Jarrow parliamentary constituency | 4,835 | 5,890 | 38.45 |

*Notes:*
1. Numbers of recipients have been rounded to the nearest five.
2. Average weekly awards have been rounded to the nearest penny.
3. Numbers of recipients exclude small numbers of clerical cases. At 31 January there were approximately 8,370 such cases in Great Britain, of which approximately 505 were in the North East GOR.
4. Average weekly awards refer to the amount received by households, which may be a single person or a couple.

Information on minimum income guarantee is not available in the form requested.

Since 6 October 2003 pension credit has replaced the minimum income guarantee and the 1.8 million cases receiving minimum income guarantee prior to 6 October were automatically transferred to pension credit.

Following the introduction of pension credit, some elements of the support previously provided through minimum income guarantee are now provided through local authority funding for people in care homes, and through tax credits for children. In addition, average pension credit awards are expected to be lower than minimum income guarantee because a savings credit of up to £14.79 (single) or £19.20 (couples) is available for people with modest incomes above the guarantee level who previously received nothing from minimum income guarantee.

Information on the average weekly award and the number of minimum income guarantee recipients in the areas mentioned as at August 2003 appears in the following table.

| | *£ per week* | *Recipients (thousand)* |
|---|---|---|
| Jarrow parliamentary constituency | 44.44 | 3.8 |
| South Tyneside | 44.55 | 8.1 |
| Tyne and Wear | 43.70 | 51.3 |
| North East GOR | 44.30 | 106.2 |
| Great Britain | 50.23 | 1,802.6 |

*Note:*
Figures are based on a 5 per cent. sample and are therefore subject to a degree of sampling variation.
*Source:*
IAD Information Centre, 5 per cent. sample.

**Mr. Hoyle:** To ask the Secretary of State for Work and Pensions what steps he is taking to encourage pension credit take-up in *(a)* Lancashire and *(b)* Chorley; and what part councils play in encouraging take-up. [154745]

**Malcolm Wicks:** Pension Credit take-up activity is continuing across Lancashire, with the help of partner organisations and local authorities.

Activities in Lancashire include awareness talks to a wide range of organisations and regular information surgeries and publicity events. Local authorities across Lancashire have begun to use their Housing Benefit data to identify those potentially entitled to Pension

Credit and have worked jointly with The Pension Service on a number of marketing activities. In Chorley, activities undertaken by The Pension service include information surgeries and publicity events in libraries, day care centres and other locations including the local hospital. These are often carried out in collaboration with local authorities.

Formal agreement to proceed with joint teams has been reached with 13 of the 22 primary tier local authorities in the North West and it is expected that joint teams will start to become operational in the region from April 2004.

**Mr. Hoyle:** To ask the Secretary of State for Work and Pensions how many pensioners have claimed pension credit in *(a)* the North West, *(b)* Lancashire and *(c)* Chorley. [154746]

**Malcolm Wicks:** Pension Credit was implemented in October 2003. The table gives numbers of recipients of Pension Credit in the North West, Lancashire and Chorley at the end of 2003 and at 31 January 2004, the latest date for which figures are available. Numbers of applications for Pension Credit are not available at regional, county or constituency level.

*Pension Credit recipients in the North West, Lancashire and Chorley, December 2003 and January 2004*

| | *31 December 2003* | | *31 January 2004* | |
|---|---|---|---|---|
| | *Households* | *Individuals* | *Households* | *Individuals* |
| North West Government Office Region | 288,575 | 343,680 | 296,320 | 354,025 |
| Lancashire county district | 42,075 | 50,535 | 43,870 | 52,940 |
| Chorley parliamentary constituency | 3,065 | 3,660 | 3,165 | 3,805 |

*Notes:*
1. Figures are rounded to the nearest 5.
2. The figures exclude small numbers of clerical cases. At 31 December 2003 there were approximately 3,555 such cases in Great Britain and 505 in the North West region. At 31 January there were approximately 8,370 cases in Great Britain and 1,190 in the North West region.

**Mr. Hoyle:** To ask the Secretary of State for Work and Pensions how many home visits have been carried out by staff of the Pension Service in connection with pension credit in *(a)* Lancashire and *(b)* Chorley. [154749]

**Malcolm Wicks:** The information is not available in the form requested. However, approximately 250 home visits involving pension credit were undertaken in the local authority cluster including Preston Chorley and South Ribble in January 2004.

### Means-testing

**Mr. George Howarth:** To ask the Secretary of State for Work and Pensions what his estimate is of the total cost of administering means-testing for pensioners in 2003–04; and by how much pensions could be increased if the proceeds of abolishing means tests were transferred to pensions. [155469]

**Malcolm Wicks:** Information on the total cost of administering means-testing for pensioners is not currently available in the format requested. In accordance with the requirements of Resource Accounting and Budgeting the Department now accounts for its administration and benefit expenditure by Strategic Objective, as set out in its Public Service Agreements (PSA), and by individual Requests for Resources (RfRs), as set out in the Departmental Estimates and Accounts.

This Government's priority is to target money on the poorest pensioners. Almost half of the extra money to be spent on pensioners in 2004–05 will be spent on the poorest third.

As a result of the Minimum Income Guarantee and now Pension Credit, the poorest third of pensioners will be around £600 per year better off on average than had the equivalent amount been spent on increasing the Basic State Pension (BSP).

We are planning to spend around £12.6 billion in 2004–05 on pensioners through income-related benefits including Pension Credit, Housing Benefit and Council Tax Benefit.

If this spending was transferred to pensions, the full Basic State pension could be increased by around £25 per week in 2004–05. However poorer pensioners could face large losses, losing Housing Benefit and Council Tax Benefit as well as Pension Credit. Those not eligible for the full Basic State Pension would not get the full £25 increase, and those without any entitlement to the Basic State Pension could be left with no income or state support whatsoever.

### Pensioners

**David Taylor:** To ask the Secretary of State for Work and Pensions what the pensioner population is in *(a)* the East Midlands and *(b)* England. [155638]

**Malcolm Wicks:** The figures requested are in the table.

| | *Pensioner population* |
|---|---|
| East Midlands | 784,000 |
| England | 6,145,000 |

*Notes:*
1. The figures are from the Mid-Year population figures, 2002.
2. Figures are rounded to the nearest thousand.
3. 'Pensioner' is defined as those over state pension age.

*Source:*
Office for National Statistics

**Mr. Swire:** To ask the Secretary of State for Work and Pensions how many pensioners in East Devon are dependent on benefits; and what percentage of entitled pensioners in East Devon have taken up their benefits. [155326]

**Malcolm Wicks:** The information is not available in the format requested.

In May 2003, 29,200 pensioners in the East Devon constituency were in receipt of a key benefit. For the majority of these, 23,200, state pension was the only key benefit being received.

Key benefits are Attendance Allowance, Disability Living Allowance, Incapacity Benefit, Minimum Income Guarantee, State Pension, Severe Disablement Allowance and Housing Benefit.

As at the end of January 2004 there were 3,437 Pension Credit households in East Devon parliamentary constituency. Information on the number of people who are eligible for Pension Credit is not available in respect of individual constituencies.

**Mr. Peter Duncan:** To ask the Secretary of State for Work and Pensions when he last met pensioner groups in Scotland. [155477]

**Malcolm Wicks:** Members of the ministerial team visit Scotland to discuss pension issues and have met with pensioner groups. In addition, the Department meets with representatives from pensioner groups in Scotland on a regular basis through various channels—including the Partnership Against Poverty Scotland group and the Pensions Forum which is held annually in Scotland and which members of the ministerial team attend, the last was held in Edinburgh in October.

**Dr. Cable:** To ask the Secretary of State for Work and Pensions how many pensioners in the Twickenham constituency *(a)* are in receipt of winter fuel payments, *(b)* were in receipt of the minimum income guarantee in 2003 and *(c)* have applied for and been granted pension credit. [154951]

**Malcolm Wicks:** The information is not available in the form requested.

Information on winter fuel payments for individual constituencies for 2003–04 will not be available until this winter's exercise is complete but will be provided to the hon. Member and placed in the Library when it becomes available.

The number of pensioner households in the Twickenham constituency in receipt of minimum income guarantee in August 2003 was 1,600 and receiving pension credit as at 31 January 2004 is 1,951. Numbers of applications for pension credit are not available at regional, county or constituency level.

*Notes:*

1. MIG figures are based on a 5 per cent. sample and therefore subject to sampling variation.

2. MIG claimants are benefit units where the claimant and/or their partner are aged 60 or over, therefore figure will include some claimants aged under 60.

3. MIG figures are rounded to the nearest hundred.

*Source:*

IAD Information Centre, 5 per cent. and 100 per cent. sample.

### Post Office Accounts

**Mr. Clifton-Brown:** To ask the Secretary of State for Work and Pensions what steps he is taking to ensure that existing bank account holders do not have to open a different bank account in order to receive their benefits from the Post Office. [152137]

**Mr. Pond:** The Government want as many people as possible to be able to do their banking at Post Office branches and welcomes Post Office Ltd.'s efforts to secure agreements with other banks. The decision is ultimately a commercial one which rests with the individual institutions.

Universal banking services already provide access to the basic bank accounts of every High Street bank plus the nationwide Building Society at Post Office branches as well as the Post Office card account. In addition, more than 20 million customers of Lloyds/TSB, Barclays and Alliance and Leicester can access their accounts electronically at Post Office branches.

Also current accounts customers of Alliance and Leicester, Barclays, Lloyds/TSB the Co-operative Bank and the internet banks smile and cahoot can access paper-based banking services which enables them to cash cheques at Post Office branches, free of charge.

### State Pensioners (Overseas Territories)

**Mr. Nigel Jones:** To ask the Secretary of State for Work and Pensions (1) how many people are in receipt of the UK state pension in each of the British Overseas Territories; [153495]

(2) if he will list those British Overseas Territories where citizens receiving the UK state pension have their pensions frozen; [153496]

(3) if he will estimate the cost of waiving the frozen pension rule in each British Overseas Territory in which citizens receiving the UK state pension have their pensions frozen; [153497]

(4) how many citizens living abroad and receiving frozen UK state pensions reside in *(a)* Canada and *(b)* the United States of America. [153498]

**Malcolm Wicks:** Information on the number of people in receipt of the UK state pension in the British Overseas Territories other than those living in the Sovereign Base Areas on Cyprus as at January 2004 is set out in the table.

| *Territory* | *Number* |
|---|---|
| Anguilla | 148 |
| Bermuda | 560 |
| British Antarctic Territory | 0 |
| British Indian Ocean Territory | 0 |
| British Virgin Islands | 42 |
| Cayman Islands | 95 |
| Falkland Islands (including South Georgia and South Sandwich Islands) | 37 |
| Gibraltar | 894 |
| Montserrat | 154 |
| Pitcairn Islands | 0 |
| St. Helena and Dependencies | 71 |
| Turks and Caicos Islands | 15 |

Pensioners living in the Sovereign Base Areas on Cyprus cannot be separately identified from others living in the Republic of Cyprus.

Pensioners living in the countries set out in the table other than those living in Bermuda, Gibraltar and the Sovereign Base Areas on Cyprus have their UK state pension frozen. The estimated cost to unfreeze these

pensions, without paying arrears, would be less than £500,000 for 2003–04 based on a 5 per cent. sample. We are unable to estimate the cost for each territory because of the numbers affected.

There are currently around 150,000 UK citizens now residing in Canada in receipt of a frozen UK state pension. UK citizens now residing in the United States of America do not have their UK state pension frozen.

*Notes:*

1. Caseloads are taken from the Pensions Strategy Computer System.

2. Costs are estimated using DWP Administrative Data.

### Statutory Sick Pay

**Norman Lamb:** To ask the Secretary of State for Work and Pensions what the estimated annual total cost of compliance is in respect of the statutory sick pay scheme for employers. [154883]

**Maria Eagle:** Currently around 90 per cent. of employees are covered by an occupational sick pay scheme; where employers operate such a scheme, and it is more generous than Statutory Sick Pay (SSP), they do not have to keep SSP records. This makes it difficult to estimate the annual total costs for employers of compliance with the scheme.

In the most recent year for which figures are available (2000–01), the estimated expenditure for employers on SSP was £830 million.

*Notes:*

1. The figures are rounded to the nearest £10 million.

2. The figures are on an accruals basis and so record the year of liability of SSP payment, which is not the same as the year money was paid out.

*Source:*

Employers' end-of-year returns.

### Winter Fuel Payments

**Mr. Boswell:** To ask the Secretary of State for Work and Pensions what would be the additional cost in the next financial year to public funds *(a)* in benefits and *(b)* in administrative costs of providing entitlement to winter fuel payment to all persons on reaching their 60th birthday if it falls during the months of October to March inclusive, on the assumption that those with birthdays in other months would continue to receive payment in the winter after attaining age 60. [155327]

**Malcolm Wicks:** If all those reaching their 60th birthday in the months of October 2003 to March 2004 were to receive a winter fuel payment for the winter of 2003–04, the additional cost would be approximately £47 million. We are unable to provide figures for the additional administrative costs that this would incur.

**Mr. Hepburn:** To ask the Secretary of State for Work and Pensions how many British citizens not resident in the UK received Winter Fuel Payments in respect of 2003–04; how many of those previously resided in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* the UK; and what the value of such payments was in each case. [153230]

**Malcolm Wicks:** The information requested is not available. Such information that is available is as follows:

So far 14,696 people no longer resident in the United Kingdom have received Winter Fuel Payments for the period winter 2003–04, at a cost of £2,235,700. Citizenship does not affect entitlement to Winter Fuel Payment as entitlement is based on residency in the UK.

## DEPUTY PRIME MINISTER

### Street Wardens

**Mr. Jim Cunningham:** To ask the Deputy Prime Minister (1) if he will make a statement on street warden funding in Coventry in 2004–05; [155747]

(2) what evaluation has taken place of the successes of street warden schemes in tackling anti-social behaviour in *(a)* England, *(b)* the West Midlands and *(c)* Coventry; [155660]

(3) what assessment he has made of the impact of the withdrawal of funding for the Street Warden schemes on *(a)* the levels of anti-social behaviour in Coventry and *(b)* the perceptions of safety among people in Coventry. [155661]

**Yvette Cooper:** The Office of the Deputy Prime Minister funds three warden schemes in Coventry. One scheme has managed to sustain itself without further funding from the department. Funding for another scheme has been offered for 2004–05 providing that the scheme continues to find match funding. The third scheme is funded from the Office of the Deputy Prime Minister until March 2006.

Evaluations of the first and second round of warden schemes, including their effect on anti-social behaviour and perceptions of safety are currently being undertaken. The Office of the Deputy Prime Minister expects to publish the first report later this year.

### Agricultural Ties

**Mr. Flook:** To ask the Deputy Prime Minister how many owners of properties with agricultural ties have been forced to sell their homes because of failure to satisfy the terms of the tie, in each year since 1997. [155174]

**Yvette Cooper:** The information requested is not held centrally and could be provided only at disproportionate cost. Where planning permission is granted for an isolated agricultural worker's dwelling, an 'occupancy' condition is normally attached in order to ensure that the dwelling is kept available for meeting the agricultural need in the area. The responsibility for attaching, monitoring compliance with, and taking any necessary action to enforce occupancy conditions rests with the local planning authority in the first instance.

### Area-based Initiatives

**Mr. Edward Davey:** To ask the Deputy Prime Minister how much money has been allocated by his Department for each *(a)* region and *(b)* Neighbourhood Renewal Fund area for the next five years; and if he will make a statement. [152799]

**Yvette Cooper:** Funding allocated by the Office of the Deputy Prime Minister to the regions can be found in the Public Expenditure Statistical Analyses 2003 Cm 5901 as amended by corrigendum-corrected tables for Chapter 8, published in June 2003. These set out expenditure by region and by function for an historic five year period. No figures are available for the forward years.

Funding by the Office of the Deputy Prime Minister for Neighbourhood Renewal Fund areas for the period 2002–03 until 2005–06 is available in the Library of the House. Funding plans beyond 2005–06 are subject to current Spending Review deliberations.

### Civil Servants

**Tim Loughton:** To ask the Deputy Prime Minister how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144985]

**Mr. Goodman:** To ask the Deputy Prime Minister what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [145996]

**Yvette Cooper:** Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics website at http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

As there are less than five members of the senior civil service in the Office of the Deputy Prime Minister with a disability, the actual number is not published in order to protect the privacy of individuals in line with exemption 12 of the "Code of Practice on Access to Government Information".

### Community Projects

**Mr. Edward Davey:** To ask the Deputy Prime Minister what progress has been made on bringing together in a single community programme the *(a)* Community Cohesion pathfinders, *(b)* Community Chest, *(c)* Community Empowerment Fund and *(d)* Community Champions Fund; and if he will make a statement. [152916]

**Yvette Cooper:** From April 2004, the Community Empowerment Fund, Community Chests and Community Learning Chests will be merged into the single Community Programme.

It was not the intention to include the Community Cohesion pathfinders or the Community Champions Fund in the single Community Programme.

The Community Cohesion Pathfinders will end in November 2004 and there are no plans to merge the fund.

The Community Champions Fund is administered by the Department for Education and Skills and there are no plans to merge the fund.

### Consultancy

**Mr. Curry:** To ask the Deputy Prime Minister if he will list external *(a)* public relations and communications companies, *(b)* advertising and marketing companies, *(c)* management consultancies, *(d)* accountancy companies, *(e)* banking firms, *(f)* individual consultants and *(g)* other specialist consultancies used by the Office of the Deputy Prime Minister since May 2002, indicating in each case the work performed. [145990]

**Yvette Cooper:** This information is not held centrally and could be provided only at disproportionate cost.

### Council Housing

**Sir Teddy Taylor:** To ask the Deputy Prime Minister what the total sum in local authority accounts derived from selling council houses is; how much the Southend-on-Sea local authority has in its account; and if he will review the purposes for which these funds can be used. [155309]

**Keith Hill:** Since 1980–81 to 2001–02, the last year for which we have audited figures, sales of Housing Revenue Account (HRA) dwellings for owner occupation have generated £23.490 billion in receipts for local authorities in England. The Office of the Deputy Prime Minister does not hold records for the amount generated by sales in Southend-on-Sea for the entirety of this period, but from 1998–99 to 2001–02 the receipts generated were £9.603 million.

Currently, with-debt local authorities, such as Southend-on-Sea, are required to set aside 75 per cent. of the capital receipt arising from the disposal of HRA dwellings for the repayment of their debt. They may use the remaining 25 per cent. to meet capital expenditure. Debt-free local authorities are exempt from the set-aside requirement and may use 100 per cent. of such capital receipts for any capital purpose.

The set-aside regime, which effectively provides resources for new capital investment by authorities generally, will cease to be available from 1 April this year, when a new capital finance system is introduced. Pooling is the regime that will replace set-aside. It will apply to debt-free as well as with-debt authorities—both will be required to pay to the Exchequer 75 per cent. of their receipts from the sale of council housing, to provide resources nationally for further capital investment in housing. They will retain 25 per cent. to meet such capital expenditure as they may decide. The Office of the Deputy Prime Minister believe these arrangements are appropriate and currently has no intention of reviewing them further.

**Mr. Dobson:** To ask the Deputy Prime Minister if he will list the councils which indicated that they did not want the fourth option of continuing council management of the homes to be improved during the course of the Government's Decent Homes consultation. [155499]

**Keith Hill:** The Government set out their 'Decent Homes' programme in "Quality and Choice: A Decent Home for All-The Way Forward For Housing" published December 2000. 70 housing authorities are now in the process of implementing the programme by means of PFIs, stock transfers, ALMOs and mainstream funding. The remaining authorities are to have completed the options appraisal process by 31 July 2005.

### Decent Homes Standard

**Mr. Drew:** To ask the Deputy Prime Minister what assistance is available to local authority housing departments to meet the Government's decent homes standard. [155118]

**Keith Hill:** The Office of the Deputy Prime Minister has provided both financial and other support to assist local authorities in delivering decent homes. Over the period 2003–06 £7.9 billion is available for capital expenditure on the HRA housing stock.

The Office of the Deputy Prime Minister is also making available £1.4 billion through the Private Finance Initiative Guidance on implementing the standard and conducting options appraisals has also been published on; http://www.odpm.gov.uk/stellent/groups/odpm_housing/documents/page/odpm_house027345.pdf

The Office of the Deputy Prime Minister's "Community Housing Task Force" together with Government Offices for the Regions are currently working with local authorities to help them develop their options appraisals.

This process is designed to help the authority put in place a plan that will deliver decent homes.

### Departmental Information

**Mr. Curry:** To ask the Deputy Prime Minister if he will list the information and public relations campaigns conducted by *(a)* non-departmental bodies and *(b)* executive agencies within his Department in each year since 1997, showing the annual cost of each campaign. [146024]

**Yvette Cooper:** Information on public relations and information campaigns run by the non departmental bodies and executive agencies of the Office of the Deputy Prime Minister are not held centrally and could be obtained only at disproportionate cost.

### Empty Houses

**Chris Ruane:** To ask the Deputy Prime Minister how many *(a)* empty houses and *(b)* homeless people there are in each local authority area, listed in descending order according to the number of empty houses. [153597]

**Yvette Cooper:** Latest available information, as reported by local authorities in England, is available in the Library of the House. For corresponding information in Wales, I refer my hon. Friend to my right hon. Friend the Member for Neath (Mr. Hain).

### Expenditure Limits

**Matthew Green:** To ask the Deputy Prime Minister if he will list his Department's departmental expenditure limits for 2003–04. [150101]

**Yvette Cooper:** I refer the hon. Member to the written statement my right hon. Friend the Deputy Prime Minister made on 27 November 2003, *Official Report*, column 3WS.

### Fire Authorities/ Services

**Gregory Barker:** To ask the Deputy Prime Minister whether combined fire authorities in their first year as precepting authorities will have the costs of transition taken into account when their budget is assessed. [154552]

**Mr. Raynsford:** The Government recognises fire authorities' concerns about setting budgets for next year, not least the particular circumstances faced by Combined Fire Authorities in their move to precepting status, including the pressure arising from the need to build up reserves.

Nonetheless, the Government remains of the view that all authorities, including Combined Fire Authorities, should be seeking to minimise council tax increases. The Government will, if necessary, use its capping powers to deal with unacceptable increases.

**Mr. Jim Cunningham:** To ask the Deputy Prime Minister what action his Department has taken to ensure that the changes in locations of fire service control rooms do not impact on response times. [155441]

**Mr. Raynsford:** The location of a fire and rescue command and control room does not impact on response times. Service standards for the new regional control rooms will at a minimum be equal to present practice.

**Mr. Jim Cunningham:** To ask the Deputy Prime Minister if he will make a statement on the guidance provided to the committees of regional fire authorities regarding the regionalisation of Fire Service control rooms. [155812]

**Mr. Raynsford:** The Government have said they accept the conclusions of Mott MacDonald report, on the "Future of Fire and Rescue Service Control Rooms in England and Wales", publishedin December 2003. It believes that control rooms at regional level are appropriate for reasons of efficiency, economy, effectiveness and resilience. It is considering the views of the Practitioners' Forum, authorities and the service on the conclusions of the report and the Government's response. Copies of the report are available in the Library of the House.

### Grant Calculations

**Mr. Luff:** To ask the Deputy Prime Minister whether he has established a timetable for consultation on future changes to the *(a)* formula spending share calculation and *(b)* area cost adjustment to enable such changes to be made in financial year 2006–07. [155146]

**Mr. Raynsford:** In order to provide local authorities with more stability in funding arrangements, the Office of the Deputy Prime Minister has already said that we will not be looking to change the grant distribution formulae until 2006–07 at the very earliest.

If it is decided that changes to the formulae should be made for 2006–07, a full consultation on options for change would take place prior to the normal settlement round for that year.

### High Hedges

**Bob Spink:** To ask the Deputy Prime Minister what consultation he has undertaken prior to issuing guidance on the high hedges section of the Anti-Social Behaviour Act 2003. [153108]

**Yvette Cooper:** Consultation will begin shortly on guidance and on regulations governing certain detailed procedural arrangements relating to the high hedges section of the Anti-social Behaviour Act 2003. The regulations will be laid before Parliament in time for the legislation to come into force towards the end of 2004.

### Homelessness

**Ms Oona King:** To ask the Deputy Prime Minister if he will place in the Library a copy of the research commissioned by the Homelessness Directorate on homelessness among people from black and ethnic minority communities. [152026]

**Yvette Cooper:** The Office of the Deputy Prime Minister commissioned research on homelessness among black and ethnic minority communities in February 2003. The research consisted of a literature review, interviews with Black and Minority Ethnic (BME) households, local authority officers and a range of other key national and local stakeholders in order to explore the causes of homelessness and to provide best practice guidance on the most appropriate interventions for tackling and preventing homelessness among different BME groups.

A first draft report and guidance have been produced for further discussion with a range of key stakeholders and we expect to have a final version ready for publication in three to four months time. When published, copies of both documents will be made available in the Library of the House.

**Bob Spink:** To ask the Deputy Prime Minister (1) if he will publish the results of the annual return supplied by local authorities on homelessness applications by couples with dependent children; [152429]

(2) if he will publish the results of the annual return supplied by local authorities on homeless applications by lone-parent females; [153106]

(3) if he will publish the results of the annual return supplied by local authorities on homeless applications by single person male applicants; [153419]

(4) if he will publish the results of the annual return supplied by local authorities on homeless applications by single person female applicants. [153669]

**Yvette Cooper:** Two key summary tables, based on data from the 2003 annual homelessness return, have been made available on the Office of the Deputy Prime Minister's website. A hard copy has been made available in the Library of the House. These include an analysis of homeless households accepted by local authorities, broken down by region and household type, distinguishing couples with dependent children and lone-parent families. Information collected about homeless applications on both the annual and quarterly homelessness returns distinguishes ethnicity, but not household type.

Further key analyses from the annual return are being prepared and will be placed on the website once finalised.

### Housing Taskforces

**Mr. Randall:** To ask the Deputy Prime Minister when the Community Housing Task Force last met. [155799]

**Keith Hill:** The Community Housing Task Force generally meets up once a month to discuss and update on progress of work. The team last met on 4 February and will meet again on 1 March.

**Mr. Randall:** To ask the Deputy Prime Minister when the Advisory Group on Home Buying Taskforce *(a)* last met and *(b)* produced its last report; and when he expects it to be wound up. [155800]

**Yvette Cooper:** The Home Ownership Task Force has completed its work. The Task Force met for the last time on 30 September 2003 and its final report "A home of my own" was published on 13 November 2003. Copies of the report and executive summary are available on the Housing Corporation's website at www.housingcorp.gov.uk.

### Information Technology

**Mr. Allan:** To ask the Deputy Prime Minister what audit mechanisms are in place to determine whether information technology *(a)* hardware and *(b)* software products are being used properly in his Department. [150928]

**Yvette Cooper:** Corporate ICT services for the Office of the Deputy Prime Minister HQ are provided by the Department for Transport under a Service Level Agreement which includes provision of licences, software and hardware as part of a managed service. I therefore refer the hon. Member to the answer given by my hon. Friend the Member for Harrow, East (Mr. McNulty) on 28 January 2004, *Official Report*, column 359W.

Government Offices and the Regional Co-ordination Unit are responsible for their own IT systems. Procurement of core systems hardware and software is undertaken by the Regional Co-ordination Unit who purchase either directly from providers or via one of their outsource partners.

Licensing of corporate-wide software is managed by the outsource providers. Such software is subject to corporate licensing agreements and is subject to similar auditing controls by the providers as mentioned in the answer referred to above.

Individual Government Offices may also purchase non-corporate hardware and software locally. All purchases of software require prior approval from the RCU. Asset tracking software is utilised to monitor hardware and software utilisation.

### Local Government

**Mr. Dhanda:** To ask the Deputy Prime Minister what assessment his Department has made of the distribution of grants between local authorities in 2003–04. [153302]

**Mr. Raynsford:** The new system for distributing formula grant to local authorities was introduced in 2003–04 following an extensive review involving both central and local government, and a full and open public consultation exercise.

The new system was designed to distribute grant to local authorities according to their relative circumstances—or relative need. The Office of the Deputy Prime Minister is satisfied that the new grant distribution system is both fair and sustainable.

**Mr. Dhanda:** To ask the Deputy Prime Minister what representations he has received from local authorities in the current financial year in connection with the central Government grants they have received. [153303]

**Mr. Raynsford:** As part of the consultation on the provisional local government finance settlement 2004–05, the Office of the Deputy Prime Minister received 454 written responses from 275 individual authorities, MPs and others. A further 34 arrived after the close of consultation. Ministers also met delegations from the Local Government Association, the Association of London Government and four groups of local authorities. Parliament has now approved the settlement which provides local authorities with a 5.5 per cent. increase in general grant.

**Mr. Laurence Robertson:** To ask the Deputy Prime Minister when he will issue *(a)* regulations and *(b)* guidance to local authorities with regard to retrospective membership of pension schemes by part-time employees; and if he will make a statement. [155004]

**Phil Hope:** The Office of the Deputy Prime Minister is carefully considering the case for making regulations to empower local authorities to deal with any Local Government Pension Scheme cases which have not been referred to an Employment Tribunal but which constitute a valid claim in all other respects.

The Local Government Pensions Committee of the Employers' Organisation for Local Government, in consultation with the Office of the Deputy Prime Minister, have issued guidance to local authorities consequent on directions from the Employment Tribunal. Further guidance in relation to the Local Government Pension Scheme is being prepared. As a result, many claims lodged with Employment Tribunals have now either been struck out or are in the process of being settled by employing authorities. Some claims may be affected by certain legal issues which have yet to be resolved.

**Mr. Stephen O'Brien:** To ask the Deputy Prime Minister how many copies of the leaflet entitled "How you can shape the future of local government in your area" have been distributed in *(a)* Cheshire, *(b)* Lancashire, *(c)* Cumbria, *(d)* Greater Manchester, *(e)* Merseyside and *(f)* the North West Region; and what verification has been carried out to establish how many leaflets have been received by (i) households in each of those areas listed and by what date they were delivered and (ii) electors on the electoral register in the areas listed in *(a)* to *(f)* , with reference to (A) date of the register and (B) date of receipt. [155626]

**Mr. Raynsford:** The conduct of local government reviews, including consultation on the draft recommendations, is a matter for the independent Boundary Committee.

### London Boroughs (Grouping)

**Mrs. Lait:** To ask the Deputy Prime Minister what discussions he has had with the Mayor of London about a possible new grouping of the London boroughs. [155025]

**Mr. Raynsford:** None.

### Management Consultants

**Mr. Flight:** To ask the Deputy Prime Minister what the cost to his Department of using management consultants has been in each of the last five years. [148026]

**Yvette Cooper:** The Office of the Deputy Prime Minister (ODPM) came into existence following the Machinery of Government changes on 29 May 2002. I refer the hon. Member to the answer I gave to the hon. Member for Bridgwater (Liddell-Grainger) on 16 July 2003, *Official Report*, column 358W. The cost of using management consultants is not separately recorded and could be ascertained only at disproportionate cost.

### Metropolitan Authorities

**Mr. Brady:** To ask the Deputy Prime Minister which metropolitan authorities have developed a medium term financial strategy for the next three to five years. [155993]

**Mr. Raynsford:** This information is not held centrally and could be provided only at disproportionate cost. However, from April 2004, the Chartered Institute of Public Finance and Accountancy's Prudential Code requires all local authorities to prepare each year estimates of their revenue and capital spending for three years ahead. They are also required to consider known significant variations beyond that timeframe. The Government strongly supports this requirement, and have given statutory backing to the Prudential Code using powers in the Local Government Act 2003.

**Mr. Brady:** To ask the Deputy Prime Minister what the budget overspend was for each metropolitan authority in each of the last three financial years; and what estimate he has made of budget overspends for the 2003–04 financial year. [155994]

**Mr. Raynsford:** The amount by which metropolitan authority spend has exceeded their budget forecast for 2000–01, 2001–02 and 2002–03 is as tabled. A negative figure shows that the authority spent less than their budget estimate.

No estimate has been made of the budget overspend for the 2003–04 financial year.

*£000*

| | *2000–01* | *2001–02* | *2002–03* |
|---|---|---|---|
| Barnsley | -7,888 | -1,702 | -9,628 |
| Birmingham | -9,905 | -6,684 | -20,046 |
| Bolton | 3,083 | -2,094 | 1,286 |
| Bradford | -13,138 | -10,875 | -3,503 |
| Bury | -4,110 | -1,352 | -2,311 |
| Calderdale | -2,249 | 143 | 155 |
| Coventry | 34,985 | 11,743 | 14,953 |
| Doncaster | -8,866 | -220 | -296 |

£000

| | 2000-01 | 2001-02 | 2002-03 |
|---|---|---|---|
| Dudley | 9 | 390 | -1,836 |
| Gateshead | -8,374 | 14,273 | 11,780 |
| Kirklees | -3,420 | -7,468 | -4,359 |
| Knowsley | -996 | -733 | 2,196 |
| Leeds | -5,266 | 742 | -2,778 |

| South Tyneside | -4,222 | -5,943 | -5,264 |
| St. Helens | -5,165 | -6,956 | -2,938 |
| Stockport | 1,606 | -1,607 | -4,647 |
| Sunderland | -57,687 | -5,254 | 4,611 |
| Tameside | -3,695 | -8,349 | -819 |
| Trafford | -19,111 | -2,197 | 454 |
| Wakefield | -8,581 | -3,063 | 7,077 |
| Walsall | 919 | -4,653 | -2,226 |
| Wigan | -7,581 | -5,575 | -611 |
| Wirral | 1,223 | -1,057 | 1,855 |
| Wolverhampton | -13,473 | -9,636 | -2,462 |

*Notes:*
The data are taken from the RA budget and RS outturn forms for each year.
The large under spend figure for Sunderland for 2000–01 is mainly attributable to a revenue receipt of £53.9 million in March 2001 being included in their accounts for that year.

**Mr. Brady:** To ask the Deputy Prime Minister which metropolitan authorities have been warned by his Department that he may apply a council tax cap for the next financial year. [155995]

**Mr. Raynsford:** All local authorities have been put on notice that the Government considers that they can and should deliver council tax increases in low single figures in 2004–05. The Office of the Deputy Prime Minister is not pre-judging criteria for capping and will look at authorities' budgets and council tax figures before coming to a view on capping principles.

**Mr. Brady:** To ask the Deputy Prime Minister which metropolitan authorities have been identified by the Audit Commission in the last 10 years as having serious shortcomings in their financial controls; and what action his Department has taken in each case. [155996]

**Mr. Raynsford:** Until the Best Value framework was established by the Local Government Act 1999 and the results of Comprehensive Performance Assessments (CPAs) became available, central Government did not hold comprehensive information on which authorities the Audit Commission had identified as having serious shortcomings in their financial controls. Two metropolitan authorities now have been identified under these processes: Walsall, as the result of a corporate governance review, which found significant weaknesses in its financial processes; and North Tyneside, which scored the lowest possible rating for financial standing in its CPA.

Both Walsall and North Tyneside received overall assessments of "poor" in their CPA assessments. In common with other authorities assessed as poor, the Office of the Deputy Prime Minister has appointed a lead official to work closely with each authority, and is providing support at the appropriate level to achieve recovery, including thorough advice and help with capacity building.

### Mobile Phone Masts

**Tim Loughton:** To ask the Deputy Prime Minister what plans he has to amend planning laws relating to siting of TETRA masts. [155651]

**Yvette Cooper:** Current planning guidance for all electronic communication developments is set out in Planning Policy Guidance Note 8 (revised) (PPG8). The Office of the Deputy Prime Minister has also issued a Code of Best Practice on Mobile Phone Network Development and has no plans to change these arrangements at present.

### Planning

**Diana Organ:** To ask the Deputy Prime Minister if he will make a statement on retrospective planning applications. [154639]

**Keith Hill:** Local planning authorities can invite a retrospective planning application for unauthorised development where they judge that there are no planning objections to it. Otherwise, authorities have wide ranging enforcement powers to control development undertaken without planning permission.

**Diana Organ:** To ask the Deputy Prime Minister for what reasons retrospective planning applications are treated in the same way as other applications. [154641]

**Keith Hill:** When development has been carried out to an acceptable standard, or it can be made acceptable by the imposition of conditions attached to a grant of planning permission, it is reasonable to enable the developer or landowner to obtain permission after the event. The considerations applying in determining a planning application will in general be the same regardless of whether or not the development has taken place.

**Diana Organ:** To ask the Deputy Prime Minister if he will impose a system of penalties for carrying out development in advance of obtaining planning applications. [154642]

**Keith Hill:** The Office of the Deputy Prime Minister are carrying out a review of the planning enforcement system in England. Retrospective planning applications, including whether any penalties should be imposed, and retrospective planning permission are part of that review. We expect to announce the outcome of the review later this year.

### Press/Public Relations Officers

**Mr. Curry:** To ask the Deputy Prime Minister (1) how many *(a)* press officers and *(b)* public relations officers were employed by Castle Vale Housing Action Trust in each year since 1997; [146031]

(2) how many *(a)* press officers and *(b)* public relations officers were employed by Liverpool Housing Action Trust in each year since 1997; [146032]

(3) how many *(a)* press officers and *(b)* public relations officers were employed by the Stonebridge Housing Action Trust in each year since 1997; [146033]

(4) how many *(a)* press officers and *(b)* public relations officers were employed by the Tower Hamlets Housing Action Trust in each year since 1997. [146034]

**Yvette Cooper:** The Office of the Deputy Prime Minister was created on 29 May 2002. At 1 April 2003 the number of full-time equivalent staff with press or public relations responsibilities in each of the Housing Action Trusts was:

| | *Full-time equivalent staff* |
|---|---|
| Castle Vale | 1.0 |
| Liverpool | 0.6 |
| Stonebridge | 0.1 |
| Tower Hamlets | nil |

### Regional Assemblies

**Ann Winterton:** To ask the Deputy Prime Minister whether funds will be allocated in 2004–05 for an information campaign on elected regional assemblies. [155042]

**Mr. Raynsford:** Funds will be allocated for the financial year 2004–05, but the level has not yet been decided.

**Mr. Jenkin:** To ask the Deputy Prime Minister how the costs of establishing elected assemblies for *(a)* the North East, *(b)* the North West and *(c)* Yorkshire and the Humber would be met. [155136]

**Mr. Raynsford:** The establishment costs will be met by central Government.

**Mr. Jenkin:** To ask the Deputy Prime Minister which Government-funded bodies other than the Government Offices for the Regions would reduce in size in a region where an elected assembly is established. [155138]

**Mr. Raynsford:** In those regions where an elected regional assembly is established, there will be a reduction in the size of the regional office of the Housing Corporation.

The designation of the regional chamber would be revoked. Its scrutiny and planning responsibilities, largely funded by Government grant, would pass to the elected assembly.

**Mr. Jenkin:** To ask the Deputy Prime Minister what the cost of establishing and implementing proposals for elected regional assemblies has been to date; and what his estimate is of the costs for the next financial year. [155140]

**Mr. Raynsford:** No action has yet been taken to establish or implement proposals for elected regional assemblies and none will be taken in the next financial year. Costs so far have been associated with securing the Regional Assemblies (Preparations) Act 2003 and enabling referendums in the three northern regions.

**Mr. Jenkin:** To ask the Deputy Prime Minister what estimate he has made of the costs of abolishing regional chambers in regions where an elected assembly is established; and how those costs would be met. [155141]

**Mr. Raynsford:** It will be for the voluntary regional chambers to decide whether they should abolish themselves. The Government will cease to pay grant to the chambers in regions with elected assemblies as the functions currently supported by grant will transfer to the new assemblies.

**Mr. Jenkin:** To ask the Deputy Prime Minister if he will ensure that the size of a central Government grant to an elected regional assembly will require no assembly to precept more than the equivalent of five pence per week for a Band D council tax-payer to cover its administrative costs in its first financial year. [155143]

**Mr. Raynsford:** The Government has already said in paragraph 5.8 of the White Paper 'Your Region, Your Choice' that "In setting the level of central Government grant, we will expect council tax-payers in any region with an elected regional assembly to contribute the equivalent of around five pence per week for a Band D council tax-payer".

**Mr. Swire:** To ask the Deputy Prime Minister (1) how much the South West Regional Assembly has cost since its creation; [155302]

(2) what the budget of the South West Regional Assembly has been in each year since its creation. [155303]

**Mr. Raynsford:** The regional chambers are voluntary bodies and may receive funding from a variety of sources. The Office of the Deputy Prime Minister does not therefore hold information on the South West Regional Assembly's annual budget. This is a question for the Assembly itself.

Since April 2001 the Government has paid grants to South West Regional Assembly totalling £2,626,967 in order for it to undertake scrutiny of the South West Development Agency and (since April 2003) to act as the recognised Regional Planning body for the South West Region.

**Mr. Hoyle:** To ask the Deputy Prime Minister what timetable has been set for *(a)* printing and *(b)* delivery of information for the referendums on elected regional assemblies. [155458]

**Mr. Raynsford:** During the passage of the Regional Assemblies (Preparations) Act 2003, the Office of the Deputy Prime Minister made commitments to provide information on the referendums to every household in the regions affected. The Office of the Deputy Prime Minister will make arrangements for printing and delivery once the orders for referendums have been approved by Parliament.

**Mr. Hoyle:** To ask the Deputy Prime Minister what discussions have taken place, and with whom, on which constituencies are being considered as sites for headquarters of a regional assembly for the North West; and which constituencies are being considered. [155459]

**Mr. Raynsford:** No such talks have taken place. Paragraph 6.7 of the White Paper 'Your Region, Your Choice' explains that "It will be for an assembly to decide the best way to meet its accommodation requirements, including the location of its headquarters".

**Mr. Hoyle:** To ask the Deputy Prime Minister how many regional assembly members there will be for the *(a)* North East, *(b)* Yorkshire and Humberside and *(c)* Lancashire; and what percentage of the population each will represent. [155681]

**Mr. Raynsford:** Paragraph 7.7 of the White Paper "Your Region, Your Choice" states that "assemblies should have between 25 and 35 members". The number for each region has not been decided. However, we expect that the North East, as the English region with the smallest population would have an Elected Assembly of 25 members, while Elected Assemblies for Yorkshire and Humber and the North West would have between 30 and 35 members each.

Paragraph 6.13 of the White Paper explains that the Government will "ask the Electoral Commission to advise on the boundaries of constituencies within regions that vote for elected regional assemblies" and the powers to do this are in the Regional Assemblies (Preparations) Act 2003.

**Mr. Jenkin:** To ask the Deputy Prime Minister what the total number of staff working in the Government Office for the Regions is; how many of those staff have been transferred to the Government Office for the Regions from other Government Departments; and how many have been recruited from outside Government Departments. [149649]

**Yvette Cooper:** The total number of staff currently working for the nine Government Offices is 2,742. In addition there are about 100 secondees from the private, voluntary and community and other public sector bodies. All permanent staff working in Government Offices are employed by one of the Departments which conduct business through them.

### Rent Service

**Mr. Hammond:** To ask the Deputy Prime Minister if he will allow retrospective effect to be given to registered rents in cases where the Rent Service has not registered the rent within a reasonable time from application. [154111]

**Yvette Cooper:** There are no time limits for rent registrations in the Rent Act 1977, and there are no plans to amend the Rent Act to permit retrospective rent increases after registration.

**Mr. Hammond:** To ask the Deputy Prime Minister what targets he has set the Rent Service for the maximum time between application to register a rent and determination of that application. [154112]

**Yvette Cooper:** There is no maximum time set between receipt of a Fair Rent application and determination. However my right hon. Friend the Deputy Prime Minister has set The Rent Service a target for Fair Rents of completing 87 per cent. within 40 working days of receipt.

**Mr. Hammond:** To ask the Deputy Prime Minister what redress is available to landlords in respect of rental income lost because of unreasonable delays by the Rent Service in registering a rent. [154113]

**Yvette Cooper:** There are no time limits set for rent registrations in the 1977 Rent Act. The Rent Service works to a target of completing 87 per cent. of Fair Rent applications within 40 working days of receipt. It is unusual for significant delays to occur, but where they have, The Rent Service has diverted resources to redress the situation.

### Social Housing

**Simon Hughes:** To ask the Deputy Prime Minister how much money central Government allocated to each London borough to invest in social housing in each year since 1999. [155094]

**Mr. Raynsford:** Information on local authority housing capital allocations and the funding provided to housing associations in each London borough since 1999–2000 is available in the Library of the House.

**Simon Hughes:** To ask the Deputy Prime Minister what action the Government is taking *(a)* to eliminate non-decent social housing by 2010 and *(b)* to reduce the number of vulnerable people living in non-decent homes by 70 per cent. by 2010. [155095]

**Keith Hill:** The Office of the Deputy Prime Minister is providing both financial and other support to assist local authorities in delivering decent homes. Over the period 2003–06 £7.9 billion is available for capital expenditure on the Housing Revenue Account (HRA) housing stock.

The Office of the Deputy Prime Minister is also making available £1.4 billion through Private Finance Initiative (PFI).

Guidance on implementing the standard and conducting options appraisals has also been published.

The Office of the Deputy Prime Minister's "Community Housing Task Force" together with Government Offices for the Regions are currently working with local authorities to help them develop their Options appraisals.

This process is designed to help the authority put in place a plan that will deliver decent homes.

To reduce the number of vulnerable people living in non-decent homes the Government will increase the proportion of privately rented housing stock which is in decent condition.

The Office of the Deputy Prime Minister will continue to encourage schemes which offer support and loan finance to homeowners who repair or adapt their properties. The Office of the Deputy Prime Minister will provide extra resources for home improvement agencies to help older and vulnerable home owners to remain independent in their own homes and increase the statutory protection for tenants of private landlords by seeking to establish mandatory licensing for Houses in Multiple Occupation. Through a Regulatory Reform Order, local authorities have now much more freedom to help homeowners improve the condition of their homes which can include improvements to heating and insulation.

**Mr. Hoyle:** To ask the Deputy Prime Minister how many social housing units have been built in *(a)* the North West, *(b)* Lancashire and *(c)* Chorley in each year since 2000. [154316]

**Keith Hill:** The social housing dwellings which have been funded via Social Housing Grant (SHG) or the Local Authority Social Housing Grant (LASHG) are as follows:

*SHG and LASHG unit completion figures for the North West*

| | *Number of units in year* | | | | |
|---|---|---|---|---|---|
| | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *Total* |
| Total dwellings for the North West | 3,998 | 3,665 | 3,820 | 3,661 | 15,144 |
| Total dwellings for Lancashire | 861 | 899 | 554 | 668 | 2,982 |
| Total dwellings for Chorley | 29 | 15 | 56 | 14 | 114 |

### South East England Development Agency

**Mr. Andrew Turner:** To ask the Deputy Prime Minister if he will list each project on the Isle of Wight funded by South East England Development Agency (SEEDA) in the last 12 months for which information is available, showing the *(a)* funding from SEEDA for each project and *(b)* intended outcomes of each project. [155257]

**Mr. Raynsford:** In the financial year April 2003 to March 2004, South East England Development Agency will invest a total of £13 million on 17 projects on the Isle of Wight. The purpose of those projects is to support the sustainable economic development of the Island. Forecasted core outputs should: create or safeguard 388 jobs, create or fill 1,672 learning opportunities between three and 30 hours duration and 112 over 30 hours and create 40 new businesses while sustaining a further 12 for 12 months. The attached table applies this in more detail to individual projects.

SEEDA has also provided £35,000 towards the Island's Community Wind project. This has funded a feasibility study which has been extended to cover use of renewable energy in refurbishment and newbuild in an estate in Newport. As well as added value through dissemination there is also a possibility of creating two jobs.

### Travellers

**Andrew Selous:** To ask the Deputy Prime Minister whether utility companies are permitted to provide services to unauthorised Traveller and Gypsy developments *(a)* at any time and *(b)* in circumstances when the local authority is challenging the development in the courts. [153724]

**Keith Hill:** Utility companies have duties to supply services for domestic purposes provided safety issues are met and permission to enter land is given.

### Unitary Authorities

**Mrs. May:** To ask the Deputy Prime Minister what plans he has to re-assess the funding arrangements for unitary authorities. [154912]

**Mr. Raynsford:** In order to provide local authorities with more stability in funding arrangements, the Office of the Deputy Prime Minister has already said that we will not be looking to change the grant distribution formulae until 2006–07 at the very earliest.

**Mrs. May:** To ask the Deputy Prime Minister what representations he has received on the funding arrangements for unitary authorities. [154913]

**Mr. Raynsford:** The Office of the Deputy Prime Minister received 61 representations on the proposals for the Local Government Finance Settlement 2004–05 from or on behalf of Unitary Authorities.

### Warm Homes and Energy Conservation Act

**Diana Organ:** To ask the Deputy Prime Minister how his Department will identify which local authorities have made sufficient progress in meeting Warm Homes and Energy Conservation Act 2000 targets to be classed as excellent and exempted from requirement to submit future reports. [154644]

**Phil Hope:** Those authorities categorised as excellent under the Comprehensive Performance Assessment will no longer need to prepare reports under the Home Energy Conservation Act 1995 (HECA), but will be asked to provide a small amount of essential information that the Secretary of State needs for her statutory reporting duty under the HECA.

# Written Answers to Questions

*Tuesday 24 February 2004*

## HEALTH

### Health Facilities (Eastern England)

14. **Mr. Pollard:** To ask the Secretary of State for Health what plans he has for *(a)* new diagnostic and treatment centres and *(b)* new acute hospitals in the eastern region of England. [155731]

**Dr. Ladyman:** By 2005 there will be a further four new Treatment Centres in the eastern region of England providing services for NHS patients. In addition further investment is being made in expanding NHS hospital services at four main sites.

### National Service Framework for Long-term Conditions

15. **Mr. Todd**: To ask the Secretary of State for Health if he will make a statement on the progress made in preparing a national service framework for long-term conditions. [155732]

**Dr. Ladyman:** We are making good progress in developing the national service framework for long-term conditions which will focus on improving services for people with neurological conditions. We plan to publish the framework in December 2004 for implementation from 2005. Only yesterday, I met the Chairs of the External Reference Group to discuss progress, and I expect to receive final advice from the group in the spring.

### Children's Hospices

16. **Jeff Ennis:** To ask the Secretary of State for Health what plans he has to change the amount of NHS funding allocated to children's hospices. [155733]

**Dr. Ladyman:** National Health Service funding is available through negotiation between children's hospices and primary care trusts, which are responsible for funding health care for their resident population. There are no limits to the amount of funding which may be provided; this is for local decision.

### Benzodiazepines

17. **Mr. Grogan:** To ask the Secretary of State for Health if he will make a statement regarding guidance issued to doctors concerning the prescribing of benzodiazepines. [155734]

**Ms Rosie Winterton:** Guidance on the prescribing of benzodiazepines is provided in the British National Formulary, which is sent to all doctors within the National Health Service and on the Internet at Electronic Medicines Compendium. The guidance has been reiterated in the Chief Medical Officer's Update dated January 2004 which announced the Department's intention to introduce instalment dispensing of benzodiazepines to minimise access to extensive doses.

### Obesity

18. **Colin Burgon:** To ask the Secretary of State for Health how he plans to combat obesity in school children. [155735]

**Miss Melanie Johnson:** The Government takes the issue of tackling obesity in children very seriously. Prevention is the best long-term approach, by improving diet and promoting physical activity. Strategies are being developed through the Food and Health Action Plan that promotes healthy diet and the Activity Co-ordination Team that promotes physical activity.

25. **Mr. Reed:** To ask the Secretary of State for Health what steps he is taking to tackle obesity through increasing physical activity. [155742]

**Miss Melanie Johnson:** Together with my right hon. Friend the Minister for Sport, I chair the cross-Government Activity Co-ordination Team, which is preparing a delivery plan on how the Government will increase physical activity in England. We aim to publish a consultation document on physical activity proposals in April as part of the Public Health White Paper consultation process.

I have also commissioned 10 Local Exercise Action Pilots across England, which are currently under way. These will evaluate a range of different methods—and establish which are most effective—in driving up sustained physical activity rates across the population.

### Domiciliary Care

19. **Sandra Gidley**: To ask the Secretary of State for Health if he will make a statement on domiciliary care. [155736]

**Dr. Ladyman:** The Domiciliary Care Agencies Regulations 2002 and National Minimum Standards for Domiciliary Care came into force on 1 April 2003. People using domiciliary care services are protected for the first time by a regulatory framework.

Progress on the target to increase by March 2006 the number of those supported to live intensively at home to 30 per cent. of all those being supported at home or in residential care, is encouraging. The percentage has risen by nearly two points from 27.2 per cent. to 29 per cent. in 2002–03.

### Tertiary Treatment Costs

20. **Mr. Andrew Turner:** To ask the Secretary of State for Health if he will make a statement on the cost of travel and accommodation for *(a)* patients undergoing tertiary treatment and *(b)* their relatives or carers. [155737]

**Ms Rosie Winterton:** Patients eligible under the NHS Low Income Scheme are entitled to full or partial reimbursement of their costs to hospital under the Hospital Travel Cost Scheme. The transport costs of an escort may also be reimbursed, but not the cost of accommodation, or any cost associated with relatives.

### General Practitioners

21. **Chris Grayling:** To ask the Secretary of State for Health if he will make a statement on the provision of out-of-hours general practitioner services. [155738]

**Mr. Hutton:** Primary care trusts are working with general practitioners and other organisations to develop out-of-hours services that meet national quality standards and local needs. With more direct control over the way these services are commissioned and provided they will be able to ensure they are better integrated with other unscheduled care services.

### Trauma Consultants

22. **Mr. McWalter:** To ask the Secretary of State for Health what assessment he has made of the number of trauma consultants needed by the NHS in 2010; and how many such consultants there were on the latest date for which figures are available. [155739]

**Mr. Hutton:** As at 30 June 2003, there were 1,396 consultants in trauma and orthopaedic surgery, an increase of 32 per cent. since September 1997. We are planning to increase trauma and orthopaedic consultant numbers by a further 9 per cent. between March 2004 and March 2006.

The national health service will continue to plan, for three-year periods, its future workforce requirements and steps will be taken to address the identified need.

### Hospital Star Ratings

23. **Mr. George Osborne:** To ask the Secretary of State for Health if he will make a statement on the future of the star rating system for hospitals. [155740]

**Mr. Hutton:** From April 2004, the Commission for Healthcare Audit and Inspection will take over the responsibility for performance rating the national health service. It will be up to CHAI to determine what form performance assessments will take in the future.

### Crohn's Disease

24. **Mr. Barnes:** To ask the Secretary of State for Health if he will make an assessment of the effectiveness of bone marrow treatment for those suffering from Crohn's disease. [155741]

**Dr. Ladyman:** While we welcome new developments that improve our understanding of distressing conditions like Crohn's disease, we would need to see a rigorous scientific and clinical analysis of this particular procedure, and its outcomes, before we could judge whether it was suitable for NHS patients with Crohn's disease.

The assessment of new treatments is a gradual process. Evidence from clinical trials may suggest that a new treatment is effective. Further research is then undertaken to provide substantive evidence around issues like long-term safety, before moving to the implementation stage. We have to await evidence provided by the medical and research community before we implement new procedures and treatments.

### Ambulances

**Mr. Burstow:** To ask the Secretary of State for Health what provison is made for ambulance drivers to receive *(a)* initial and *(b)* refresher training; and if he will make a statement. [155462]

**Ms Rosie Winterton:** National health service trusts are responsible for ensuring that their staff are suitably trained and qualified to perform their duties. Ambulance staff employed on emergency driving duties receive initial driving training, are required to satisfy proficiency standards and to receive periodic refresher training to maintain proficiency in accordance with a national syllabus and standards.

**Mr. Burstow:** To ask the Secretary of State for Health what guidance his Department has published on the vision levels that ambulance drivers need to achieve and on how frequently they should receive eye checks. [155463]

**Ms Rosie Winterton:** Through its occupational health service each national health service trust is responsible for setting and monitoring staff health standards—including eyesight—and for ensuring that they conform to driver licensing requirements and relevant occupational health guidance.

**Mr. Burstow:** To ask the Secretary of State for Health what standards of driving test ambulance drivers are required to meet; and what the failure rate was in each year since 1997. [155464]

**Ms Rosie Winterton:** Ambulance drivers are required to hold the driving licence appropriate to the class of vehicle they drive and to undertake training and an assessment as part of their initial and refresher training. Information on success or failure rates is not held centrally.

**Mr. Burstow:** To ask the Secretary of State for Health if he will list the guidelines published by his Department on the disciplinary code for ambulance drivers. [155465]

**Ms Rosie Winterton:** Each national health service trust is responsible for developing, adopting and implementing an appropriate disciplinary code for its staff.

**Mr. Burstow:** To ask the Secretary of State for Health what disciplinary measures are taken against ambulance drivers who are involved in road accidents. [155466]

**Ms Rosie Winterton:** It is the responsibility of each national health service trust to investigate any accidents, alleged failure or misconduct on the part of its staff and where necessary to instigate disciplinary action in accordance with its local procedures.

**Mr. Burstow:** To ask the Secretary of State for Health how many ambulance drivers in the NHS have not received additional driver training; and if he will make a statement. [156002]

**Ms Rosie Winterton:** We are not aware of any specific instance of a national health service ambulance driver having failed to receive suitable driving training.

**Mr. Burstow:** To ask the Secretary of State for Health on what date specialist ambulance driver training became mandatory. [156003]

**Ms Rosie Winterton:** The mandatory requirement is that ambulance drivers are required to hold the driving licence appropriate to the class of vehicle they drive. In addition, ambulance drivers engaged on emergency duties should undertake specialist driver training in an accredited driving school as part of the basic ambulance training course. This requirement has been in place since 1968, when the responsibility for ambulance services rested with local government.

**Mr. Burstow:** To ask the Secretary of State for Health how many accidents involving ambulances there were *(a)* in total and *(b)* involving fatalities, in each year since 1997 in (i) England and (ii) each ambulance trust; and if he will make a statement. [156001]

**Ms Rosie Winterton:** Information on accidents involving ambulances is shown in the table. Figures for each individual ambulance trust are not collected centrally.

*Accidents involving ambulances, by severity: England, 1997–2002*

| *Severity* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* |
|---|---|---|---|---|---|---|
| Fatal | 4 | 3 | 7 | 4 | 3 | 5 |
| Serious | 35 | 38 | 29 | 37 | 22 | 33 |
| Slight | 232 | 282 | 246 | 299 | 278 | 257 |
| All | 271 | 323 | 282 | 340 | 303 | 295 |

**Dr. Murrison:** To ask the Secretary of State for Health what targets for ambulance 999 calls in rural areas have been set; and what the latest figures for performance against these targets are. [154906]

**Ms Rosie Winterton:** Current ambulance response targets are:

category A calls—presenting conditions which may be immediately life-threatening and which should be responded to within eight minutes irrespective of location in 75 per cent. of cases;

category B calls—presenting conditions which, though serious, are not immediately life-threatening and should be responded to within 14 minutes (urban) and 19 minutes (rural) in 95 per cent. of cases;

category C calls—presenting conditions which are not immediately life-threatening or serious but should also be responded to within 14 minutes (urban) and 19 minutes (rural) in 95 per cent. of cases; and

urgent cases—in addition to emergency 999 calls, ambulance services are required to take patients to hospital where the need is identified by a doctor as urgent and these patients should arrive at hospital within 15 minutes of the arrival time specified by the doctor in 95 per cent. of cases.

Information about performance of ambulance trusts is published annually in a statistical bulletin. The latest data are in "Ambulance Services, England: 2002–03". A copy of the bulletin is available in the Library and on the Department's website at: www.doh.gov.uk/public/sb0313.pdf

### Cataract Operations (Kent)

**Jonathan Shaw:** To ask the Secretary of State for Health how many cataract operations will be carried out in Kent in financial year 2003–04. [155729]

**Dr. John Reid:** The Kent and Medway Strategic Health Authority plan to provide a total of 11,084 cataract operations this year in Kent. As a result, the maximum waiting time for cataract operations in Kent will be down to six months by 31 March 2004—a year-and-a-half ahead of the NHS Plan target.

### Child Social Work Team (Gatwick Airport)

**Tim Loughton:** To ask the Secretary of State for Health if he will make a statement on the progress of proposals to fund a joint unit at Gatwick Airport between immigration officials and members of West Sussex Social Services Child Protection Division. [144997]

**Beverley Hughes:** I have been asked to reply.

We have not as yet received formal proposals from the local authority on the structure and function of a Children Social Work team at Gatwick. The amendment to section 110 of the Immigration and Asylum Act 1999 allows us to provide funding for special projects of this nature, and we will give full and careful consideration to any proposals from West Sussex once we receive them.

## ELECTORAL COMMISSION

### Electoral Pilots

**Mr. Jenkin:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the cost of the Electoral Commission report on Electoral Pilots at the June 2004 elections was. [155119]

**Mr. Viggers:** I am advised by the Chairman of the Commission that the total cost to it of reporting on the most suitable European Parliamentary regions for electoral pilots at the June 2004 combined European Parliamentary and local elections, as directed by the Government under section 6(2) of the Political Parties, Elections and Referendums Act 2000, is estimated to have been approximately £32,000.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Animal By-Products Regulations

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will place the Department's guidelines on the implementation of the EU Directive on Animal By-Products in the Library. [153469]

**Mr. Bradshaw:** Guidance is available on the Defra website at hhtp://defraweb/animalh/by-prods/default.htm.

### Animal Welfare

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the proposed new EU regulation on animal transport. [155663]

**Mr. Bradshaw:** The Government are seeking measures that result in improved conditions and better enforcement throughout the EU.

**Mr. Rosindell:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether there is a central register of those convicted of cruelty to animals in the United Kingdom; [155570]

(2) whether there is a central register of those banned from keeping animals in the United Kingdom. [155571]

**Mr. Bradshaw:** There is no central register of people convicted of cruelty or who have been disqualified from keeping animals. However, the Department is considering, as part of the proposed Animal Welfare Bill, the introduction of an Animal Welfare Enforcement Database, which would assist in the enforcement of animal welfare legislation in England and Wales. It is proposed that the database would include details of those people who have been convicted and disqualified from keeping animals.

## Bovine TB

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the natural predators of the badger are, other than man; and what effect they exert on the United Kingdom badger population. [153961]

**Mr. Bradshaw:** Adult badgers have no natural predators, other than man in Britain. It is not unusual, however, for badger cubs to be killed by dogs, foxes and sometimes by adult badgers[1].

The impact of non-human induced mortality on the national badger population has not been quantified.

[1] The Handbook of British Mammals (1991). Third Edition. Edited by G. B. Corbet and S. Harris. Blackwell Scientific Publications, Oxford.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs how many badgers have been culled in each of the *(a)* proactive and *(b)* inactive cull areas in each of the selected trial zones in each year since the trials commenced. [155081]

**Mr. Bradshaw:** The Randomised Badger Culling Trial compares 30 areas of 100 km$^2$, grouped into 10 triplets. One of the following three "treatments" is allocated to each trial area:

'Proactive' culling where badgers are trapped and culled at the outset of the trial and at intervals afterwards.

'Reactive' culling where badgers are trapped and culled from social groups associated with farms which have a confirmed incident of bovine TB during the course of the trial.

'Survey only' areas where no trapping or culling takes place. Setts are surveyed regularly to check for signs of unlawful removal of badgers. These areas act as a scientific control against which the impact of the two culling strategies can be measured.

Culling in the reactive areas of the trial has been suspended.

Details of the badgers culled in the proactive and reactive treatment areas are given in the following table:

*Table summary of badgers taken during trial operations to 12 January 2004*

| Triplet Proactive (P) or Reactive (R) | May 1998 to January 1999 | | May 1999 to January 2000 | | May 2000 to January 2001 | | May 2002 to January 2003 | | May 2003 to January 2004 | | Total | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | P | R | P | R | P | R | P | R | P | R | P | R |
| A | | | 55 | 0 | 0 | 34 | 149 | 47 | 52 | 36 | 256 | 117 |
| B | 238 | 0 | 85 | 73 | 74 | 34 | 49 | 84 | 172 | 110 | 618 | 301 |
| C | | | 246 | 0 | 111 | 178 | 126 | 115 | 132 | 101 | 615 | 394 |
| D | | | | | | | 293 | 0 | 368 | 122 | 661 | 122 |
| E | | | | | [1]744 | 0 | 96 | 62 | 258 | 126 | 1,098 | 188 |
| F | | | | | 451 | 0 | 248 | 145 | 103 | 290 | 802 | 435 |
| G | | | | | 428 | 0 | 205 | 172 | 144 | 84 | 777 | 256 |
| H | | | | | 162 | 0 | 231 | 16 | 71 | 143 | 464 | 159 |
| I | | | | | | | 219 | 0 | 175 | 94 | 394 | 94 |
| J | | | | | | | 441 | 0 | 187 | 0 | 628 | 0 |
| Sub total | 238 | | 386 | 73 | 1,970 | 246 | 2,057 | 641 | 1,662 | 1,106 | 6,313 | 2,066 |
| Total (P and R) | 238 | | 459 | | 2,216 | | 2,698 | | 2,768 | | 8,379 | |

[1] Combined total for initial and follow-up cull completed in the same culling year

*Note:*
No data for May 2001-January 2002 when trial suspended due to FMD

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what targets have been set for the bovine TB testing of herds in the last five years for which figures are available; how many have been completed; and how long it will take to clear the backlog of required tests. [155082]

**Mr. Bradshaw:** The State Veterinary Service has two targets relating to TB testing of cattle herds:

*(a)* 95 per cent. of herds to be tested within one month of the due date, and

*(b)* 100 per cent. of herds to be tested within three months of the due date.

The following table details the performance figures for the years where figures are available.

| | 2001 | 2002 | 2003[1] |
|---|---|---|---|
| Number of herds due to be tested | 12,207 | 19,877 | 15,524 |
| Completed tests within one month of the due date (percentage) | 14.5 | 47.4 | 78.7 |
| Completed tests within three months of the due date (percentage) | 22.7 | 65.0 | 92.7 |

[1] to end September

The number of tests overdue at the end of December 2003 was 3,623 of which only 163 were more than 12 months overdue (provisional data). This is similar to the number of overdue TB tests recorded before the FMD epidemic.

The number of overdue TB tests has remained more or less stable since April 2003, with no significant trend up or down. It is therefore considered that the clearance of the backlog of TB tests, which accumulated during the FMD epidemic, has been completed.

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what budget was set by her Department for each year for all aspects of bovine TB research, testing, culling, compensation, fieldwork and other costs for the last five years for which figures are available; and what the actual spending was in each year. [155083]

**Mr. Bradshaw:** Historical information on the budgets originally set for various elements of the bovine TB programme is not readily available and can be provided only at disproportionate cost. However, a breakdown of the actual spend for the last five financial years is shown in the following table:

*Expenditure on bovine TB in Great Britain: 1998–99 to 2002–03*

*Expenditure in £000*

| | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* |
|---|---|---|---|---|---|
| Compensation[1] | 3,491 | 5,303 | 6,632 | 9,243 | 31,146 |
| TB testing | 7,247 | 8,329 | 8,675 | 3,571 | 12,398 |
| Randomised Badger Culling Trial (RBCT) and associated research | 2,988 | 4,392 | 6,630 | 6,001 | 6,479 |
| Other research (not including RBCT) | 2,541 | 4,114 | 5,266 | 6,112 | 6,824 |
| Other costs[2] | 8,617 | 9,002 | 8,996 | 5,557 | 17,055 |
| Total (rounded figures) | 24,883 | 31,141 | 36,199 | 30,485 | 73,902 |

[1] Includes compensation paid for cattle and deer slaughtered as a result of TB control measures.
[2] Includes State Veterinary Service staff costs and diagnosis carried out by the Veterinary Laboratories Agency.

Fieldwork costs are included in the expenditure shown for the RBCT and associated research.

### Beef Imports

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how much beef was not allowed into the country on health grounds in the last year for which figures are available. [155349]

**Mr. Bradshaw:** Centrally kept statistics do not provide information to answer the question in the form asked. I can say that in the year 2003, out of 15,294 consignments of imported meat and meat products, derived from cattle, sheep, goats, pigs and horses presented for veterinary checks at Border Inspection Posts in the UK, 215 were rejected for various reasons. It is not possible to say how many were rejected on health grounds as consignments rejected for other reasons—for example, because of incorrect certification or because they did not tally with the accompanying documentation, would not be further checked to see if there were also health problems.

### Fisheries

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the *(a)* operational and *(b)* safety impact of including steaming time in the days at sea allowance. [150324]

**Mr. Bradshaw:** For vessels using demersal trawls of over 100 mm mesh, the total allocation of days per month is 15, the same as last year, though the total last year included a separately identified element for steaming days. There need, therefore, be no differential impact this year. We do not, however, propose to require vessels to include time lost in life-threatening circumstances at sea (such as going to the aid of another vessel in distress) as part of their allocation.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the economic impact on the UK retail market of the UK fishing fleet producing a surplus of haddock in the absence of adequate cod supplies. [152368]

**Mr. Bradshaw:** Because of the global nature of the markets for the main whitefish species, the impact of such changes is difficult to quantify, since there is no simple relationship between local catch levels and market prices.

### Flood Alleviation (Somerset)

**Mr. Laws:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will ensure that the plans by South Somerset District Council for a Merriott flood alleviation scheme (phase 2) receive early approval from *(a)* her Department and *(b)* the Environment Agency to enable it to qualify for funding available before 31 March; and if she will make a statement. [155107]

**Mr. Morley:** Following the significant flooding in autumn 2000, the Department agreed to consider special cases supported by the Environment Agency (EA) HQ for particularly deserving river defence schemes that did not achieve the priority score threshold for Defra funding. Such schemes still had to meet the other basic criteria for funding. For special case consideration, EA HQ identified criteria that were then not reflected fully in the priority scoring system. On that basis, they supported a number of special cases that the Department accepted in July 2001. Much of the special case criteria was incorporated into the revised priority scoring system that came into effect in April 2003. When notifying details of 2003–04 allocations to flood defence operating authorities in February 2003, officials indicated that, given special cases were identified as urgent following the autumn 2000 floods, the Department would not expect to extend special treatment beyond 2003–04.

I understand that the South Somerset District Council is urgently seeking the necessary consents from the Environment Agency and English Nature and will then submit an application. The Department will consider the application as swiftly as possible.

### Game Licences

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the impact of game licences on *(a)* the sport of shooting, *(b)* the quarry species and *(c)* the environment; and if she will make a statement. [155180]

**Mr. Bradshaw:** No assessment has been made of the impact of game licences on the sport of shooting game, the quarry species covered by these licences or the environment more generally.

### Poultry Imports

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 February 2004, *Official Report*, column 1301W, which EU countries ban the import of chickens infected with salmonella; and for what reasons the United Kingdom does not ban salmonella infected chickens. [155184]

**Mr. Bradshaw** *[holding answer 23 February 2004]:* There are no bans as such on imports into EU countries of live chickens or chicken meat because of salmonella. However, European Community legislation stipulates that live chickens intended for breeding or production imported from third countries have to be accompanied by certification confirming that they are from flocks which have been submitted to a disease surveillance programme for *salmonella pullorum* and *salmonella gallinarum*.

Live chickens traded between member states must come from flocks that are routinely monitored for *salmonella pullorum* and *salmonella gallinarum*. In addition, the chickens must be monitored for salmonella while the birds are in quarantine. Those birds intended for slaughter and destined for Finland or Sweden, must be subject to a microbiological test by sampling in the establishment of origin.

Chicken meat imported from third countries and destined for Finland and Sweden must be subject to a microbiological test by sampling in the establishment of origin.

The UK complies fully with European Community rules as outlined above.

### Water Supplies

**Mr. Austin Mitchell:** To ask the Secretary of State for Environment, Food and Rural Affairs, if she will list the water supply and urban and rural drainage bodies in England which are companies where a holding company or majority of shareholdings are not of the United Kingdom, stating in each case the country and name of the ultimate owner, together with date of acquisition. [145468]

**Mr. Morley** *[pursuant to his reply, 14 January 2004, Official Report, c. 742W]:* In my answer I referred to information on Cambridge Water and Folkestone and Dover. This was incorrect.

The correct information for Cambridge Water and Folkestone and Dover is as follows:

| *Water only undertakers* | *Ultimate holding company and where headquarters is based* | *Date of acquisition* |
|---|---|---|
| Cambridge Water plc | Union Electricia Fenosa SA (Spain) | January 2000 |
| Folkestone and Dover Water Services Ltd. | Veolia Environnement (France) | Owned since before 1989 |

The rest of the answer remains correct.

## HOUSE OF COMMONS COMMISSION

### Amendments

**Mr. Allen:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission if he will ensure that amendments to Bills which appear on the Order Paper are available at the same time on the parliamentary website. [154571]

**Sir Archy Kirkwood:** The timetable for electronic publication of House of Commons documents is based on the recommendation of the Information Committee: that they should be made available as soon as practicable after release to Members. However, it also takes into account the potential cost to the House of moving to earlier publication. Although times of publication have been advanced in instances where this can be achieved at little cost, simultaneous publication is not practicable.

At the moment marshalled lists of amendments are made available electronically by 12 noon on the day of publication in printed form. Discussions with the House's contractor indicate that this time could be brought forward to 9.30 am without giving rise to substantial additional costs; and this option will be pursued

## INTERNATIONAL DEVELOPMENT

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for International Development what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155520]

**Hilary Benn:** The proportion of our overall advertising expenditure spent to *(a)* advertise vacant posts and *(b)* in the form of other recruitment advertising, is shown in the following table.

| | 2001 | 2002 | 2003 |
|---|---|---|---|
| Total advertising expenditure (£) | 1,208,190.72 | 914,571.19 | 849,196.36 |
| Total spent on advertising vacant posts (£) | 836,848.13 | 702,098.15 | 746,712.70 |
| Percentage spent on advertising vacant posts | 69 | 77 | 88 |
| Total spent on other recruitment advertising (£) | 371,342.59 | 212,473.04 | 102,483.66 |
| Percentage spent on other recruitment advertising | 31 | 23 | 12 |

It would involve disproportionate cost for DFID to break down our recruitment advertising expenditure by publication.

## SOLICITOR-GENERAL

### Child Murders (Drugs)

**Mr. Caton:** To ask the Solicitor-General whether investigations into the criminal cases in which a parent has been convicted of murdering a child will include an assessment of whether *(a)* cisapride and *(b)* other drugs contributed to the deaths. [153753]

**The Solicitor-General:** Since the release of Angela Cannings by the Court of Appeal and its published judgment, the Attorney-General has instigated a number of measures. A total of 258 convictions over the last 10 years for the murder, manslaughter or infanticide of a child under two by its parent have been identified. Of those, a total of 72 relate to persons still serving a custodial sentence. These will be accorded the utmost priority. Currently, some 365 boxes of evidence relating to 52 high profile cases have been recovered from central storage and dispatched to CPS areas for them to conduct an initial review. The remaining high profile cases are being recovered from the areas themselves.

With the help of the Interdepartmental Group a system of review has been established. Each individual case will first be subject to a preliminary review by the relevant CPS Area to identify its key characteristics. Each case will then be reviewed by a central review team to establish whether any features identified by the Court of Appeal in Angela Cannings' judgment make the conviction potentially unsafe. As the review proceeds, the issues in each case will become clearer and the review team will be alert for any factors, including drugs, which were held to have contributed towards the death of an infant.

## CABINET OFFICE

### Internet

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office what is being done to raise levels of internet usage among those sectors of the population whose usage is under the national average, with particular reference to the *(a)* 55 to 64 and *(b)* 65 and over age groups. [155264]

**Mr. Alexander:** Opportunities to physically access the internet are now pervasive for all age-groups. Research by the Oxford Internet Institute has found that 96 per cent. of the population are aware of a place where they could get online.

For those, like some older people, who may need additional support to get online there is a network of over 6,000 UK online centres which offer community-based internet access and training at low or no cost. Last year the 'Get Started' campaign aimed to drive up internet use among key groups such as the elderly, those with disabilities and the unemployed. Of those who responded, 37 per cent. were over 65 and 45 per cent. were retired.

In addition on 15 December 2003 the Government announced a Digital Inclusion Panel which will advise Government and industry on how to ensure a digitally United Kingdom. Digital connectivity among older age-groups will be one
area to be reviewed.

### Better Regulation

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office if he will list executive board members appointed to promote better regulation, broken down by department; and what their respective private sector experience is in each case. [155277]

**Mr. Alexander:** As of 1 February 2004, the network of departmental board level members for better regulation consisted of:

| *Board member* | |
|---|---|
| Margaret Aldred | Home Office |
| Alan Davey | Department for Culture, Media and Sport |
| Karen Dunnell | Office for National Statistics |
| Eddie Frizzell | Scottish Executive |
| Paul Gray | Department for Work and Pensions |
| Stephen Haddrill | Department of Trade and Industry |
| Mike Hanson | HM Customs and Excise |
| Dave Hartnett | Board of Inland Revenue |
| Donald Mcrae | Department for Environment, Food and Rural affairs |
| Peter Makeham | Department for Education and Skills |
| Willy Rickett | Department for Transport |
| James Sassoon | HM Treasury |
| Jonathan Spencer | Department of Constitutional Affairs |
| Richard Stagg | Foreign and Commonwealth Office |
| Pat Stewart | Food Standards Agency |
| Hugh Taylor | Department of Health |
| Peter Unwin | Office of the Deputy Prime Minister |
| Jane Willis | Health and Safety Executive |
| Baroness Young of Old Scone | Environment Agency |

These senior departmental nominees draw on a wide range of experience in advising within their organisation on private sector, public sector and European regulatory issues.

## TRANSPORT

### A35

**Mr. Swire:** To ask the Secretary of State for Transport what plans he has to upgrade the A35 between Dorchester and Honiton. [155299]

**Mr. Jamieson:** There are no current plans for significant upgrading of the A35 between Dorchester and Honiton.

**Mr. Swire:** To ask the Secretary of State for Transport what plans he has to improve *(a)* traffic flow and *(b)* road safety at Raymond's Hill on the A35. [155300]

**Mr. Jamieson:** The Highways Agency substantially completed a safety improvement scheme at Raymond's Hill last year, which includes new signs, red anti-skid surfacing and two traffic islands. It will prevent overtaking through the junction, help traffic entering or crossing the trunk road and assist pedestrians crossing the road. A reduction of the speed limit to 40 mph is also planned and this proposal has recently been advertised.

The new scheme will have limited effect on traffic flow but should make a significant improvement to road safety. Its impact will be monitored to see if further measures are necessary.

### A404

**Mrs. May:** To ask the Secretary of State for Transport (1) when he will set a date for the resurfacing of the A404 Marlow by-pass; [155068]

(2) whether the A404 Marlow by-pass meets the criteria for remedial action on environmental grounds to reduce noise pollution. [155069]

**Mr. Darling:** The A404 Marlow Bypass is currently in a satisfactory condition as far as safety is concerned and is not expected to require resurfacing within the next few years. As a result, no date has yet been set.

However, I can confirm that the A404 Marlow Bypass meets the criteria announced on 22 March 1999 for consideration for remedial action on environmental grounds to reduce noise pollution.

### Aviation Security

**Jim Dowd:** To ask the Secretary of State for Transport what recent discussions his Department has had with counterparts in the Transport Safety Authority of the US Administration concerning matters of aviation security. [155221]

**Mr. McNulty:** Departmental officials are in very regular contact with their opposite numbers in the US Transportation Security Administration, about a range of aviation security matters.

### Central Railway

**Mr. Peter Ainsworth:** To ask the Secretary of State for Transport if he will investigate the disclosure to the Sunday Telegraph of the Strategic Rail Authority's latest study of the Central Railway proposal; and if he will make a statement. [155242]

**Mr. McNulty:** It is not the Department's practice to comment on such matters.

### Cycling

**Mr. Paul Marsden:** To ask the Secretary of State for Transport (1) if he will list for each local authority the financial support given by the Department to support cycling proficiency tests in 2003–04; [155868]

(2) how many cycling proficiency tests were completed last year; and what the pass rates were for those tests, broken down by local authority. [155870]

**Mr. Jamieson:** Local authorities fund cycle training from within their overall resources for transport. We do not hold data centrally on how many cycling proficiency tests are undertaken.

The Government are supportive of cycle training and our research has shown that it is effective, with trained children found to be significantly safer than untrained children when knowledge and skills were tested two years after training. We want to see an increase in the level, and improvement in the quality, of cycle training for children.

The Department has been working closely with a number of groups to develop cycle training. With our support 'Guidelines for the management and Operation of Practical Cyclist Training Schemes' were revised and published by RoSPA in June 2000. In July 2001 the Department for Transport and the Department of Health gave grant funding amounting to £76,000 to the Cyclist Touring Club to run a three-year project to develop a cycle training scheme for adults and teenagers. This led to the development of the publication, "Adult Cycle Training—A Guide for Instructors and Organisers", which was launched in May 2003 and sent to all road safety officers. We are also working with a group of cycle training experts to develop a new National Standard for child cyclist training. This will be piloted in schools from April, with a view to a launch later in the year.

### Eurotunnel

**Mr. Paul Marsden:** To ask the Secretary of State for Transport who pays the minimum usage charge paid to Eurotunnel. [154910]

**Mr. McNulty:** The Minimum Usage Charge (MUC) is a top-up mechanism that assures Eurotunnel of a minimum income from Eurostar and rail freight services for the first 12 years of commercial operations. It is a contractual commitment to Eurotunnel by the French and UK railways currently operating through the Tunnel. For the UK, Eurostar UK Ltd. is responsible for all payments relating to passenger services, and the Strategic Rail Authority currently makes the payments for freight services. On the French side, the payments are made by SNCF.

### Infrastructure Improvement Schemes (Lancashire)

**Mr. Hoyle:** To ask the Secretary of State for Transport if he will list the infrastructure improvement schemes in *(a)* Lancashire and *(b)* Chorley; and what their projected cost is. [153500]

**Dr. Howells:** The Chorley Transport Interchange opened in March 2003 at a cost of £2,500,000. Work is currently under way improving Chorley Railway Station at a cost of £309,000. Details of other local transport infrastructure schemes and projected costs are set out in the Local Transport Plans and Annual Progress Reports, published by Lancashire County Council, Blackpool Borough Council and Blackburn-with-Darwen Borough Council.

Additionally, both Chorley and Lancashire will benefit from the £7.5 billion West Coast Mainline route modernisation programme that is currently under way.

Details of infrastructure improvement schemes for the motorway and trunk road network in Lancashire, including projected costs during 2003–04, are set out in the following table.

*Highways Agency: Infrastructure Improvement Schemes*

| *Category/Scheme Description* | *2003–04 Full Year Forecast (£000)* |
|---|---|
| *Safety Improvements* | |
| M6 Preston Signage and Road Markings, Junctions 30 to 32 | 145 |
| M6 Road Markings | 31 |
| A585 Thornton Roundabout Improvements | 127 |
| A585 Thistleton Junction Improvements | 178 |
| Safety Improvements—Minor Schemes | 478 |
| *Congestion Easing* | |
| A585 Singleton Crossroads | 33 |
| *Renewal of Roads* | |
| M6 North of Junction 34 to 35, Carnforth | 3,632 |
| M55 Broughton Crash Barriers | 1,710 |
| M6 Junction 32 Broughton Electric Cabling for Road Signs | 219 |
| Minor Capital Maintenance | 670 |
| *Renewal of Bridges and Structures* | |
| M6 Three Pinned Concrete Footbridge | 298 |
| M6 Forton Service Area Piers | 26 |
| M6 Golden Fleece | 10 |
| M6 Carnforth | 800 |
| M6 Occupation Bridges Bailtons | 3 |
| M6 Occupation Bridge Mount Pleasant | 100 |
| Block Allocation for other Bridge Schemes | 455 |
| *Accessibility Improvements* | |
| Improvements for Pedestrians, Cyclists and Horse Riders | 35 |
| *Tourism Signage* | |
| M6 Strategic Tourism Signing | 300 |
| Total | 8,950 |

## Road Safety

**Peter Bottomley:** To ask the Secretary of State for Transport what reports from judges the Government have received in relation to concluded cases of failure to stop after a road crash. [154917]

**Mr. Leslie:** I have been asked to reply.

Failing to stop after an accident is a summary offence and as such it would normally be dealt with at a magistrates' court. Judges would not therefore deal with such offences unless they were committed for sentence to the Crown Court together with an indictable or triable either-way offence. My Department does not hold data centrally relating to reports from Judges who sat on particular cases.

## Road Resurfacing

**Mr. Robathan:** To ask the Secretary of State for Transport what the latest criteria for prioritisation of resurfacing of roads are. [155979]

**Mr. Jamieson:** The criteria for the prioritisation of resurfacing flexible trunk roads are related to the condition of the surface. The combined assessment of levels of rutting, surface crack intensity, unevenness, skid resistance, the general wear of the surface material and the frequency of accidents associated with the surface condition, is used to determine the programme for resurfacing. The aim is to maintain the trunk road network using the principle of minimising whole life costs, taking account of disruption to the road users and the need to keep the road in a safe and serviceable condition.

On concrete roads, priorities for dealing with the most pressing cases of traffic noise have been established as set out in the Secretary of State's announcement to the House on 1 April 2003, and these will be progressed as funding allows.

**Mr. Robathan:** To ask the Secretary of State for Transport if he will list the criteria for categorisation of sites for each level of noise reduction road resurfacing programmes; and what the effect of each categorisation is. [155983]

**Mr. Jamieson:** Categorisation of sites for low noise surfacing is primarily based on maintenance need. In addition, we have criteria for categorisation for noise reduction of roads with concrete surfaces. I announced these criteria on 17 October 2001; they are:

1. that wherever possible the application of quieter surfaces will fit in with normal maintenance needs;

2. that priority will be given to those sites where treatment would benefit the greatest number of people;

3. that the works will be carried out in such a way as to minimise disruption to general public and users of the network;

4. that priority will be given to roads, opened since June 1998, where actual noise levels have turned out to be significantly higher than predicted at the time of Public Inquiry.

Priority is given to road surfaces that are deteriorating and to locations where road safety is an issue. Where the resurfacing is specifically for noise reduction purposes priority will be given to those cases in which the actual noise levels exceed those predicted by at least three decibels, or where more than 100 properties per kilometre are effected by excess noise.

**Mr. Robathan:** To ask the Secretary of State for Transport what change there has been in estimated costs of resurfacing the M1 between junctions 20 and 21 since the initial announcement; and if he will make a statement. [155987]

**Mr. Jamieson:** Final cost details for resurfacing of the M1 between Junctions 20 and 21 will not be available until current investigations by the Highways Agency are completed. It was initially anticipated that part of this section of the M1 would be resurfaced in 2004 but Value Management assessments have shown that other areas of the network need to be given higher priority. The assessments demonstrated that better value for money would be obtained by undertaking more work than simply resurfacing, although this would result in increased capital cost.

## Rolling Stock

**Norman Baker:** To ask the Secretary of State for Transport what *(a)* actual and *(b)* percentage increase in power supply is required to operate an eight-car new third-rail train compared with its slam-door predecessor, assuming no change in average speed; and if he will make a statement. [155416]

**Mr. McNulty:** At lower speeds the new trains are more efficient. At higher speeds–up to 75mph–the traction draw is higher. The power draw for the new trains travelling at up to 75mph is capped at 1500 amps. For Mark I trains the draw is 750 amps. In percentage terms, a Siemens Class 450 Desiro train draws 39.6 per cent. more traction power than a Mark I train. A Bombardier Electrostar Class 375 draws 35 per cent. more traction power than a Mark I train.

### Shipping

**Mr. Carmichael:** To ask the Secretary of State for Transport pursuant to the answer of 9 February 2004, *Official Report*, column 1235W, if he will introduce primary legislation to revise the eligibility criteria for the scheme; and what discussions his Department has had with representatives of seafarer trade unions concerning alterations to the Crew Relief Costs Scheme. [155511]

**Mr. Jamieson:** Primary legislation will be introduced when Parliamentary time is available. The proposed extension of the Crew Relief Costs Scheme was discussed with members of the Shipping Working Group, including seafarer trade unions, when the policy outlined in the White Paper "British Shipping: Charting a New Course" was being developed.

**Mr. Carmichael:** To ask the Secretary of State for Transport pursuant to the answer of 9 February 2004, *Official Report*, column 1242W, if he will make a statement on the progress made towards implementing the actions contained in "British Shipping: Charting a New Course"; whether it is his policy to implement all the actions in the paper; and when his Department will conclude the implementation of these actions. [155513]

**Mr. Jamieson:** The Government's shipping policy is stated in the White Paper "British Shipping: Charting a New Course". Some of the actions are on-going and so will not have a date by which they will be completed. It is therefore not possible to issue a timetable showing when the implementation will be concluded. An update of the current status of the 33 actions from "Charting" has been placed in the Libraries of the House.

### Snowfall Measures

**Mr. Randall:** To ask the Secretary of State for Transport what guidelines his Department issues for local authorities in respect of measures to deal with snowfall. [155798]

**Mr. Jamieson:** The Department for Transport strongly recommends that local highway authorities carry out winter maintenance in accordance with the Code of Practice for highway maintenance, "Delivering Best Value in Highway Maintenance", which was published in July 2001.

### Speed Cameras

**Mr. Andrew Turner:** To ask the Secretary of State for Transport how much funding his Department has provided for each speed camera partnership in England and which partners are involved in each partnership. [155213]

**Mr. Jamieson:** Eight partnerships, six in England, trialled the safety camera cost recovery scheme from April 2000 to March 2002. A further seven (six in England) joined during 2002.

Funding for the camera activities of the Safety Camera Partnerships in England, met from conditional fixed penalty fines for speeding and red light offences, for 2000–01 and 2001–02, is as follows:

| | *Number* |
|---|---|
| *2000–01* | |
| Cleveland | 771,901 |
| Essex | 1,846,480 |
| Lincolnshire | 512,721 |
| Nottingham | 622,371 |
| Northants | 1,702,404 |
| Thames Valley | 1,825,639 |
| Total | 7,281,516 |
| *2001–02* | |
| Cleveland | 486,891 |
| Essex | 3,003,763 |
| Lincolnshire | 516,818 |
| Nottingham | 778,536 |
| Northants | 2,247,838 |
| Thames Valley | 2,617,031 |
| Cambridgeshire | 113,760 |
| Derbyshire | 455,659 |
| Lancashire | 761,017 |
| Norfolk | 433,100 |
| Staffordshire | 629,246 |
| Warwickshire | 355,068 |
| Totals | 12,398,727 |

Information on the Partnerships' expenditure for 2002–03 is being prepared and will be published shortly.

Safety Camera Partnerships comprise representatives of the police force (or forces), local authorities and Magistrates' Courts Committees for the areas concerned. Some Partnerships also include representative of the Highways Agency and local Health Authorities.

**Mr. Chope:** To ask the Secretary of State for Transport pursuant to his oral answer of 3 February 2004, *Official Report*, column 616, how many people were *(a)* killed and *(b)* seriously injured in the three years prior to the establishment of camera sites in the Christchurch constituency, and how many have been (i) killed and (ii) seriously injured since, in respect of each of the camera sites. [155507]

**Mr. Jamieson** *[holding answer 23 February 2004]*: My Department does not hold statistical information broken down by Parliamentary constituency areas. The hon. Member may wish to contact the Dorset Safety Camera Partnership for more detailed information.

## DEFENCE

### Armed Forces Retirement Age

**Lady Hermon:** To ask the Secretary of State for Defence what criteria are in place to determine the *(a)* minimum and *(b)* maximum armed forces retirement age; and if he will make a statement. [154960]

**Mr. Caplin:** The question of retirement procedures is a complex one as each of the Services have their individual regulations and, indeed, within each Service retirement criteria can vary considerably depending on factors such as length of service, rank and professional specialty. In addition, the introduction of the Three Tier Commission (short, medium and full) in April 1999 and such initiatives as the Common Terms of Service for medical officers mean that the already complex situation is exacerbated as the legacy rights of personnel serving before the introduction of these schemes have to be taken into consideration. However, in order to offer some indication of the minimum and maximum retirement ages the following can be used as a generic guide. Further more detailed information can be provided on specific cases if required.

There is no standard minimum retirement age as personnel can leave at various points after enlistment. However, in general terms, to receive an immediately payable pension officers would have to serve a minimum of 16 years from the age of 21 (37), whilst non-commissioned officers would have to serve a minimum of 22 years from the age of 18 (40). Personnel who leave too early to receive the immediately payable pension may be entitled to a preserved pension, based on their length of service, which is payable at the age of 60.

The normal maximum retirement age is 55 but again this can vary depending on factors such as seniority and professional specialty. For example, a Medical Officer in a senior position could stay in post until the age of 65. It should also be noted that any individual may have their service extended beyond their normal retirement age if to do so would be of mutual benefit to the Service and the individual.

### Consultation Documents

**Mr. Brazier:** To ask the Secretary of State for Defence if he will list the individuals and organisations to whom *(a)* his Department, *(b)* its executive agencies and *(c)* non-departmental public bodies for which his Department is responsible sent a copy of the consultation document, "The Future of the Defence Diversification Agency". [153852]

**Mr. Caplin:** The Consultation Document "The Future of The Defence Diversification Agency" was published on 8 February 2001. I have placed a list of the individuals and organisations which were sent a copy of the document in the Library of the House.

### Defence Estates Core Sites

**Mr. Djanogly:** To ask the Secretary of State for Defence when the Defence Estates Core Sites Report of March 2003 will be published. [155558]

**Mr. Caplin:** It is not our intention to publish the list, which is a working document and subject to constant detailed revision as the department undertakes further work to clarify where estate rationalisation may be possible. Any specific proposals arising from these studies will be subject to proper announcement to the House and full consultation.

### Iraq

**Llew Smith:** To ask the Secretary of State for Defence what measures United Kingdom forces have taken in the area of Southern Iraq under British control to ensure no weapons of mass destruction, their components, relevant explosives or contaminants are smuggled out of Iraq. [152318]

**Mr. Hoon:** Specific searches for WMD are the responsibility of the Iraq Survey Group, although UK forces routinely conduct a range of anti-smuggling operations as a part of continuing security operations in the UK area of responsibility in Southern Iraq. UK forces are also involved in training Iraqi border officials.

### Missile Defence Technology

**Sir Menzies Campbell:** To ask the Secretary of State for Defence pursuant to his answer of 19 January 2004, to the hon. Member for Hereford (Mr. Keetch), *Official Report*, column 920W, if he will make a statement on the conclusions of the research projects funded by his Department, the Longer Range Threat, BMD studies and the Capability Gap Work; and if he will place reports relating to these projects in the Library. [155656]

**Mr. Hoon:** We keep the threat posed by ballistic missiles to the United Kingdom and its deployed forces—and the best means of countering this threat—under constant review. An unclassified summary of the Technology Readiness and Risk Assessment Programme referred to in my answer of 19 January to the hon. Member for Hereford *Official Report*, column 920W has already been placed in the Library. However, much of our work in this area must remain classified. The Longer Range Threat and the Capability Gap Work programmes, together with the Ballistic Missile Defence studies, form part of our new Ballistic Missile Defence programme, and no unclassified summary of this work is available.

### Nuclear Weapons

**Alan Simpson:** To ask the Secretary of State for Defence what the estimated costs of plans to upgrade nuclear weapons design and production facilities at Aldermaston are; how much has been allocated for this upgrade; and what the timetable is for its completion. [154079]

**Mr. Hoon:** The refurbishment and replacement of older facilities, and the decommissioning of those no longer required, is a continuing programme of work at AWE to meet safety, regulatory and operational requirements. We made clear in paragraph 3.11 of the Defence White Paper published in December (CM 6041–1) that we will take appropriate steps to ensure that the range of options for maintaining a nuclear deterrent capability is kept open until we need to take decisions on whether to replace Trident.

The costs of the continuing programme are included in the overall incentivised price of the 25-year AWE Management and Operation contract. The precise timing, scope and cost of all the investments required over the 25 year period have yet to be finalised with the

AWE contractor. The total cost of operating AWE for the current financial year is expected to be of the order of £310 million.

## SCOTLAND

### Benefit Fraud

**Mr. Webb:** To ask the Secretary of State for Scotland how many staff in his Department have been *(a)* suspended, *(b)* dismissed, *(c)* prosecuted and *(d)* convicted for involvement in benefit fraud in each of the last six years; and what the amounts involved were in each of the cases listed. [154543]

**Mrs. McGuire:** The Scotland Office was established on 1 July 1999. Since that date no disciplinary action or prosecutions have taken place against staff for involvement in benefit fraud.

### Census Records

**Mr. Carmichael:** To ask the Secretary of State for Scotland in which years each of the 1851 to 1901 decennial censuses of population for Scotland were released for public inspection; and if he will make a statement on the timetable for release of the 1911 census records for Scotland. [153936]

**Mrs. McGuire:** The General Register Office for Scotland (GRO(S)), an associated department of the Scottish Executive, is responsible for carrying out periodic censuses of Scotland's population.

The Scottish Census returns for 1841–71 were opened to public inspection in 1923. The returns for 1881 and 1891 were opened to public inspection, though with some restrictions on copying, in 1955. The records for 1901 were opened to public inspection at the end of 2001.

I understand the returns for 1911 will not be opened to public inspection until 2011.

### Civil Servants

**Dr. Cable:** To ask the Secretary of State for Scotland how much space, expressed in square metres, the Office occupies for the offices of civil servants in *(a)* central London and *(b)* Greater London. [150278]

**Mrs. McGuire:** The Scotland Office occupies 1,857 sq m of Dover House in central London. The remaining space in the building is shared between a number of other Departments; the Scottish Executive: 320 sq m, Scottish Development International: 57 sq m and other parts of the Department for Constitutional Affairs: 111 sq m.

### Ministerial Travel

**Bob Russell:** To ask the Secretary of State for Scotland when he last used a train in connection with his ministerial duties. [155169]

**Mrs. McGuire:** The Secretary of State regularly travels by all modes of public transport. My right hon. Friend last travelled by train in connection with his ministerial duties on 2 February.

All ministerial travel on official business is undertaken in accordance with the rules set out in "Travel by Ministers".

### Security Passes

**Mr. Oaten:** To ask the Secretary of State for Scotland how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [147981]

**Mrs. McGuire:** Staff of the Scotland Office have reported one security pass as stolen and four as lost in the last 12 months.

## CULTURE, MEDIA AND SPORT

### Gift Aid

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what representations her Department has received from *(a)* the museum and *(b)* the heritage sectors in relation to introducing Gift Aid tax relief (i) in writing, (ii) in meetings and (iii) in any forms since 1997; and if she will make a statement. [156009]

**Mr. Caborn:** Such information as is available about the representations this Department has received from the museums and heritage sectors since 1997 in relation to Gift Aid tax relief is provided below. These relate to the changes to the Gift Aid Scheme announced in the Pre-Budget Report (Cm 6042).

Written representations have been received from The Charleston Trust, Chatham Historic Dockyard, Bronte Society and Dulwich Picture Gallery, Mr. G. Lovewell Blake and R. P. Heyworth.

In addition representatives from the following representative bodies and associations and DCMS sponsored bodies attended a recent meeting arranged by the Department with Inland Revenue officials to discuss the implementation of the proposed changes: Association of Independent Museums, Association of Leading Visitor Attractions, British Association of Leisure Parks, Piers and Attractions Ltd, Chatham Historic Dockyards Trust, ECSITE-UK, English Heritage, Historic Royal Palaces, Millennium Commission, Museums Association, National Maritime Museum, North of England Zoological Society, Visitor Attractions Forum, Zoological Society London.

The Government are consulting closely with charities that might be affected by changes to the Gift Aid legislation announced in the Pre-Budget Report, through their associations and representative bodies, on the detail of how the change may be best achieved.

### Ministerial Visits

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport if she will list the ministerial visits *(a)* she and *(b)* her Ministers have made in the last 12 months. [145600]

**Mr. Caborn:** I am arranging for a list of visits made by DCMS Ministers in the past 12 months to be placed in the Libraries of both Houses.

### Railway Carriages

**Mr. Peter Ainsworth:** To ask the Secretary of State for Culture, Media and Sport what representations she received concerning the campaign to retain Wagon-Lits railway carriage 2757 in the UK prior to its purchase by Dutch interests; and when, and how, the matter was first raised with her Department. [155992]

**Mr. Caborn** *[holding answer 23 February 2004]:* My right hon Friend the Secretary of State did not receive any representations concerning the campaign to retain the Wagon-Lits railway carriage 2757 in the UK prior to its purchase by Dutch interests in November 2003. The first representation received by the Secretary of State was a letter from the hon. Member for East Surrey (Mr. Ainsworth), on behalf of a constituent.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Culture, Media and Sport what her Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155518]

**Mr. Caborn:** The department's expenditure on recruitment advertising in 2002–03 and 2003–04 to date is shown as follows. Equivalent information for 2001–02 is no longer available.

2002–03: £59,922

2003–04: £51,349.

All expenditure is linked to the advertising of vacant posts. A breakdown of expenditure by publication is not recorded. However the Department will typically advertise senior posts in the Guardian and/or Times, and, where appropriate, in specialist publications (e.g Accountancy Age, Museums Journal). More junior posts are advertised in the local press.

### Tobacco Advertising

**Mr. Boswell:** To ask the Secretary of State for Culture, Media and Sport what recent representations she has received from motorsport interests in connection with the cessation of tobacco advertising. [153036]

**Tessa Jowell:** I have received one representation from the motorsport industry relating to the ban, seeking clarification of the EU Directive. It is not a matter for DCMS and I have referred the query to the Department of Health.

## HOME DEPARTMENT

### Asylum/Immigration

**Ross Cranston:** To ask the Secretary of State for the Home Department whether it is Home Office policy to resist applications for adjournments of asylum cases where applicants prima facie fall within the amnesty. [152464]

**Beverley Hughes:** Home Office policy, generally, is not to oppose applications for adjournments of asylum appeals when asked for a view by Adjudicators in cases where applicants may fall for consideration under the indefinite leave to remain exercise announced by my right hon. Friend the Home Secretary on 24 October 2003.

**Mr. Oaten:** To ask the Secretary of State for the Home Department (1) what plans he has to make provision for children who are not offered temporary residence but whose parents are; [144614]

(2) what factors underlay the decision to grant non-British citizens longer stays in the UK than their children. [144613]

**Beverley Hughes:** It is our usual policy to grant dependent children leave to enter or remain in line with that of other parents or carers. As all applications are considered on their individual merits, there may from time to time be cases where a different period of leave is granted. There is no category of temporary residence under the Immigration Rules and there are no plans to introduce one.

**Mr. Tom Harris:** To ask the Secretary of State for the Home Department how many asylum seekers were resident in Glasgow in the last year for which figures are available. [153730]

**Beverley Hughes:** The information is not available in the form requested.

Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. Asylum seekers currently in the UK are either in receipt of support from the National Asylum Support Service (NASS) or from local authorities, or are supporting themselves. Statistics regarding the location of asylum seekers not in receipt of NASS support are unavailable.

The table gives quarterly data on the number of asylum seekers supported by NASS in Glasgow.

| | *In NASS accommodation* | *In receipt of subsistence only support from NASS* |
|---|---|---|
| December 2002 | 5,665 | 140 |
| March 2003 | 6,070 | 140 |
| June 2003 | 5,885 | 140 |
| September 2003 | 5,730 | 125 |

*Note:*
Figures are rounded to the nearest five.

**Jonathan Shaw:** To ask the Secretary of State for the Home Department how he intends to track the outcomes of unaccompanied children returned under the new pilots to ensure that the return is in the best interests of the child; and what he will do if the assessment of the child's circumstances suggests that removal places him or her at risk. [155401]

**Beverley Hughes:** The returns programme is still in the early stages of development. The programme will include a monitoring and evaluation strategy. A child/young person will only be returned under the programme after an individual assessment has been made on their suitability for return. This assessment will be made in partnership with local authority Social Service Departments and will include a judgment as to whether a return is in the child's best interests and whether the child/young person faces any risk on return.

**Keith Vaz:** To ask the Secretary of State for the Home Department what the current backlog of cases is at each directorate of the Immigration and Nationality Directorate. [142926]

**Beverley Hughes:** At the end of December 2003, the latest date for which published data are available, the number of asylum cases awaiting an initial decision had continued to fall, to 24,500, the lowest level for a decade, and 40 per cent. lower than at the end of December 2002 (41,300). The number of initial decisions continues to exceed the level of applications. The speed of decision making is at record levels with initial decisions made and served within two months on 80 per cent. of applications[1] received in April to September 2003.

In October 2001 my right hon. Friend the Home Secretary announced a package of measures to improve the asylum process. Part of this package was to reduce the number of outstanding asylum cases to a steady state of work in progress. In order to do this the Immigration Appellate Authority (IAA) and the Immigration and Nationality Directorate (IND) expanded their capacity to process asylum appeals from 4,000 to 6,000 asylum appeals a month by November 2002. These increases, added to other successes in reducing the asylum intake, have meant that the number of outstanding asylum appeals is now reducing down to frictional levels.

A record 81,725 appeals were determined by adjudicators in 2003, more than a quarter (27 per cent.) higher than in 2002 (64,405). The number of appeals determined by adjudicators in Q4 2003 was 22 per cent. higher than Q4 2002 (from 16,615 to 20,285). As a result, the number of asylum appeals lodged with the Home Office which had not been sent to 12,000, 60 per cent. lower than at the end of December 2002 (30,000). A proportion of asylum appeals lodged do not result in appeal bundles being sent to the IAA.

The available information on the number of cases dealt within is given in the Home Office Annual Report 2002–03, copies of which are available from the Library.

Information on the number of asylum cases awaiting an initial decision and on the number that had not been sent to the IAA is published quarterly on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

[1] excluding withdrawals and third country cases.

**Paul Flynn:** To ask the Secretary of State for the Home Department how many passports in the care of the Immigration and Nationality Directorate for the processing of applications have been *(a)* lost and *(b)* stolen in each of the last five years. [148498]

**Beverley Hughes:** Information dating back to 1998 for each of the Immigration and Nationality Directorate's (IND's) buildings is not held centrally and could be obtained only at disproportionate cost. For the period 1 April 2003 to 31 January 2004, IND processed 451,974 applications. For the same period, 694 Loss of Passport Letters were issued. This represents 0.15 per cent. of applications received.

A range of measures including the setting up of secure handling areas and the early return of sponsors' passports have been put in place to improve IND's ability to find and return documents at the time of requests.

**Mrs. Brooke:** To ask the Secretary of State for the Home Department what the maximum length of time is that a child has been detained in *(a)* Dungavel, *(b)* Tinsley House and *(c)* Oakington. [151865]

**Beverley Hughes** *[holding answer 29 January 2004]:* Information on the maximum length of stay of people resident in Immigration Service Removal Centres is not available and could be obtained only by examination of individual case-files at disproportionate cost.

Information on the number of people detained solely under Immigration Act powers at 27 December 2003 is due to be published on 24 February in the Asylum Statistics: 4th Quarter 2003 publication on the Home Office website: www.homeoffice.gov.uk/rds/immigration1.html

**Mr. Oaten:** To ask the Secretary of State for the Home Department how much was imposed in fines on *(a)* airlines and *(b)* other carriers for transporting illegal immigrants in the last year for which figures are available. [155958]

**Beverley Hughes:** Separate records are not kept of charges relating to air carriers only.

During 2003 the total demanded of all carriers under the Immigration (Carriers' Liability) Act 1987 and under Section 40 of the Immigration and Asylum Act 1999 was £7.55 million. These charges relate to persons arriving in the United Kingdom without the required documents. Such charges may arise where persons arrive with genuine passports but do not have the required visa, where they arrive with forged documents or impersonate the rightful holder of a document or where they arrive with no document. In the majority of cases the persons concerned are classified as inadequately documented passengers, rather than illegal entrants.

### Cannabis

**Mr. Tynan:** To ask the Secretary of State for the Home Department what the benchmark street price for cannabis used when calculating the value of seizures by his Department was in each of the last five years; what changes have been made to this figure in the last six months; and what the reasons for those changes were. [155559]

**Caroline Flint:** According to data collected by the National Criminal Intelligence Service the UK average street price for cannabis has been as follows over the last five years.

*£ per ounce*

| *As at December* | *Herbal Cannabis* | *Cannabis Resin* |
|---|---|---|
| 1999 | 89 | 100 |
| 2000 | 82 | 85 |
| 2001 | 80 | 77 |
| 2002 | 83 | 81 |
| 2003 | 72 | 66 |

In August 2003 the figures were £74 and £66. We are not aware of any other changes in recent months.

### Correspondence

**Tony Lloyd:** To ask the Secretary of State for the Home Department when he will reply to the letters from the hon. Member for Manchester, Central dated *(a)* 16 September 2003 re: Mrs. MG, references PO14031/3 and G1057225/2 and *(b)* 29 October 2003 re: Mrs. FA, references 0/988549 and A544430. [154487]

**Beverley Hughes** *[holding answer 12 February 2004]:* The information is as follows:

*(a)* I wrote to my hon. Friend on 12 February 2004.

*(b)* The Immigration and National Directorate (IND) wrote to my hon. Friend on 19 February.

### Crime (Havering and Romford)

**Mr. Rosindell:** To ask the Secretary of State for the Home Department what steps are being taken to reduce levels of youth crime in the London Borough of Havering. [154854]

**Ms Blears:** The Government are supporting a wide programme to tackle youth crime in all areas to prevent children being drawn into crime in the first place, with more targeted initiatives focusing on those young people most at risk, supported by effective youth justice interventions to reduce reoffending.

The programme in Havering sees a number of agencies, including the Youth Offending Team, the police, education, health, housing, community safety, and the youth service working together to reduce youth crime in the borough, by supporting a range of preventative and diversionary schemes. Specific programmes include the Positive Activities for Young People programme targeting young people during the school holidays; the London Connexions Truck which visits venues on a two-week basis to provide intensive

outreach work with young people at risk; the introduction of a Youth Inclusion and Support Panel to target those eight to 13-year-olds most at risk of both offending and anti-social behaviour; a dedicated outreach worker to provide drugs awareness and education information to young people; and the local "U" Project, working with year 11 school leavers who are not in education, training or employment.

There is also a clear focus on reducing reoffending by young people, including through the expansion of the Intensive Supervisions and Surveillance Programme which is targeted at the more persistent young offenders in order to tackle their offending behaviour.

### Crime and Disorder Partnerships

**Chris Ruane:** To ask the Secretary of State for the Home Department if he will list the crime and disorder steering groups that include hon. Members; and if he will make a statement on the involvement of hon. Members on crime and disorder groups. [154314]

**Ms Blears:** We recognise that hon. and right hon. Members are in a unique position to reflect community concerns as a result of their dealings with their local Crime and Disorder Reduction Partnerships.

At a national level, there are two key groups that engage Ministers, who are Members of this House and another place, and drive forward the Government's crime reduction agenda. These groups are CJS(CR) and my right hon. Friend, the Prime Minister's regular stocktakes.

The Ministerial Committee on the Criminal Justice System Sub-Committee on Crime Reduction (CJS(CR)) oversees the Government's programme to reduce crime. In addition, the Prime Minister has regular stocktakes with Ministers, officials and stakeholders to consider the pressing issues relating to crime reduction.

### Criminal Intelligence

**Mr. Brady:** To ask the Secretary of State for the Home Department what guidelines his Department has issued to police forces on the use of *(a)* criminal pattern analysis and *(b)* comparative case analysis. [154635]

**Ms Blears:** No formal guidelines have been issued although research studies have been published relevant to this area.

The Department has supported the roll out of the National Intelligence Model and the Association of Chief Police Officers (ACPO) has produced a set of minimum standards for the model. These were circulated to forces in 2003. The National Policing Plan expects forces to adopt the model to these minimum standards by April 2004. The standards include the creation of four intelligence products that inform the setting of local and force priorities and the making of tactical resourcing decisions. The four intelligence products are informed by nine analytical techniques, one of which is Crime Pattern Analysis (analysis of the criminal would form the basis of one of the model's intelligence products). The techniques are used by trained intelligence analysts operating at both Basic Commend Unit and force level.

Crime Pattern Analysis informs Comparative Case Analysis. Comparative Case Analysis is a standard analytical technique of the Serious Crime Analysis Section (SCAS) of the National Crime and Operations Faculty at CENTREX. The technique is predominantly utilised for, and suited to, serious crime and a code of practice on Serious Crime Analysis Compliance is nearing completion.

### Criminal Records

**Mr. Don Foster:** To ask the Secretary of State for the Home Department how many volunteers working in athletics have *(a)* applied for and *(b)* been approved by Criminal Records Bureau checks in each year since 1997; and if he will make a statement. [154129]

**Ms Blears:** I am unable to answer the hon. Member's question about the number of applications submitted by volunteers working in athletics to the Criminal Records Bureau (CRB) in each year since 1997 because the Bureau does not hold information in that format. Nor can I provide details of the number of applications from volunteers working in athletics that have been approved by the Criminal Records Bureau. It is outside of the remit of the Bureau to do so.

The Criminal Records Bureau will process an application that has been submitted for a pre-employment check on an individual and issue a Disclosure that may or may not contain details of criminal convictions or other information that might be pertinent to the position sought. The information is presented to an employer, who will make a decision on the applicant's suitability.

### Hen Harriers

**Mr. Gray:** To ask the Secretary of State for the Home Department how many prosecutions there have been under the Wildlife and Countryside Act 1981 for persecution of hen harriers in England and Wales in each of the last 10 years. [154728]

**Ms Blears:** Information collected centrally by the Home Office on court proceedings under the Wildlife and Countryside Act 1981 does not enable the type of bird involved to be identified.

### Identity Cards

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how he will ensure that *(a)* human rights and *(b)* civil liberties will not be violated under the proposed identity card scheme. [155340]

**Beverley Hughes:** As set out in "Identity Cards: The Next Steps" (Cm 6020), data held on the National Identity Register will be basic identity information. Only Parliament would be able to change the statutory purposes of the scheme or the information that could be held by the scheme. Organisations using the National Identity Register to verify identity will not be able to get to other personal information, for instance health or tax records via the register.

Police and other organisations will not have routine access to data stored on the National Identity Register. Access would only be authorised in specific circumstances. Such access would be subject to legal and

procedural safeguards and independent oversight. There will be no new power for the police to stop someone and demand to see their card.

Research suggests that a majority of people in minority ethnic communities overwhelmingly support the idea of a national identity card scheme and do not feel that the proposals would be discriminatory; however, we will continue to work with organisations like the Commission for Racial Equality to ensure this in practice.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how he will ensure that the central register used in the identity card scheme will be more *(a)* accurate and *(b)* transparent than existing databases. [155342]

**Beverley Hughes:** The central register, the National Identity Register, will be built from scratch using information provided by individuals as they are issued with identity cards and will not rely on other sources of data that may have historical or other errors. However, before an entry is confirmed, it will be checked against other databases such as passports, driving licences and immigration records to establish a person's historical footprint. The register will also link each individual's record to biometric information that is unique to that person. This will help prevent multiple registrations and people's identities being stolen. The National Identity Register will therefore be a single, highly reliable record of a person's identity. By establishing in statute the National Identity Register, there will be transparency in the purposes of and in the data held by the scheme, which could only be changed by a decision of Parliament.

### Mobile Phones

**Mr. Rosindell:** To ask the Secretary of State for the Home Department what estimate he has made of the effect of the initiative to deactivate stolen phones upon mobile phone theft. [154855]

**Ms Blears:** Home Office research ("Mobile Phone Theft", December 2001) found that mobile phone theft was fuelling the rise in street robbery. The Government have worked in partnership with the mobile phone industry and the police to address the issue through the Street Crime Initiative.

As part of this work, from 1 November 2002, all six UK network operators have shared a database on mobile phones so that lost and stolen handsets can be blocked from use across all UK networks. A publicity campaign has informed people of this. There are now over 1.1 million handsets on the UK database, making them less attractive as objects of theft. Street robbery went down 17 per cent. in 2002–03 compared with 2001–02 across the 10 street crime police force areas as a result of the implementation of this and other measures.

### Police

**Mr. Banks:** To ask the Secretary of State for the Home Department how many police officers are undergoing firearms training; and what the figure was five years ago. [154686]

**Ms Blears:** The requested information is not held centrally and could be obtained only at disproportionate cost.

**Mr. Banks:** To ask the Secretary of State for the Home Department how many serving police officers are qualified in the use of firearms; and what the figure was five years ago. [154687]

**Ms Blears:** The number of authorised firearms officers (AFOs) in police forces in England and Wales for years 1998–2003 is shown in the table.

| | *Number of authorised firearms officers (AFOs)* |
|---|---|
| 1997–98 | 6,585 |
| 1998–99 | 6,308 |
| 1999–2000 | 6,262 |
| 2000–01 | 6,064 |
| 2001–02 | 5,776 |
| 2002–03 | 5,763 |

**Tom Levitt:** To ask the Secretary of State for the Home Department for what offences arrests can be carried out by a police officer only in uniform; and what the reason is for this condition. [154003]

**Ms Blears:** The full information requested is not readily available and further research is required to provide a comprehensive reply. I will write to my hon. Friend.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many police cells are in use in Lancashire. [153505]

**Ms Blears:** The Chief Constable of Lancashire informs me that there are 176 cells in use within the police area.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many police cells are available per head of population in each police force area. [153507]

**Ms Blears:** Information on the number of cells is not held centrally.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many cells were used for housing prisoners in each police force area on the latest date for which figures are available. [153508]

**Ms Blears:** This information is not held centrally. This is an operational matter that falls within the remit of the individual Chief Constables.

**David Maclean:** To ask the Secretary of State for the Home Department on what basis he has calculated the provisional increase in direct Home Office grant to police authorities for 2004–05. [151873]

**Ms Blears:** We decided, exceptionally, on an increase of 3.25 per cent. in general grant to meet general inflationary pressures and allow all police authorities to set budgets that do not place excessive burdens on local taxpayers.

**David Maclean:** To ask the Secretary of State for the Home Department what measures he has put in place to ensure that police authorities receive sufficient funding to meet their commitments under their statutory Police Plans. [151877]

**Ms Blears:** My right hon. Friend the Home Secretary's key priorities for policing over the next three years were set out in the National Policing Plan 2004–07. This national plan provides the framework within which local policing plans are prepared. Local policing plans and the funding of commitments contained in them are matters for individual police authorities.

All police authorities in England and Wales will receive a 3.25 per cent. increase in general grants next year. This exceeds projections of general inflation of around 2.6 per cent. On top of this, funding for a range of targeted programmes and capital provision will be made available.

**Mr. Lidington:** To ask the Secretary of State for the Home Department how much money has been provided to each police authority from Airwave grant in 2003–04; and what the planned provision is from Airwave grant for each police authority for 2004–05. [150630]

**Ms Blears** *[holding answer 26 January 2004]:* The distribution of money from the Airwave grant to police authorities in 2003–04 is as shown in the following annex 'A'.

In 2004–05, the Airwave grant payable to police authorities is to be absorbed within the general Home Office grant to the police.

This funding is to be distributed as shown in the following annex 'B'.

*Annex A: Allocation of Airwave grant 2003–04*

**Mr. Lidington:** To ask the Secretary of State for the Home Department if he will make a statement on the

Government's policy for the funding for 2004–05 and future financial years of police authority expenditure now financed by the Airwave grant. [150631]

**Ms Blears** *[holding answer 26 January 2004]:* The Government's policy is to give the police authorities maximum possible flexibility and discretion in the use of the grants provided to them by the Home Office. £38 million previously intended to be provided to police authorities as a grant specifically for Airwave in 2004–05 will now be provided to police authorities as part of the general Home Office grant to the police.

Funding for future years is the subject of discussion as part of the 2004 settlement.

### President Bush (Visit)

**Mr. Rosindell:** To ask the Secretary of State for the Home Department what the estimate of the cost of security for the recent visit of President Bush to the UK is; and whether he expects that figure to change. [154850]

**Ms Blears:** The Commissioner of Police for the Metropolis informs me the total cost to the Metropolitan Police Service relating to the state visit of the President of the United States between 18 and 21 November 2003 was £3,924,680. This includes additional costs of £1.45 million, of which £0.8 million was incurred in overtime payments. These figures are not expected to change as all claims have been processed.

The Chief Constable of Durham Constabulary tells me that the total cost to Durham Constabulary regarding the President's visit to Sedgefield on 21 November was £985,000. This figure may change.

### Ministerial Travel

**Bob Russell:** To ask the Secretary of State for the Home Department when he last used a train in connection with his ministerial duties. [154696]

**Mr. Blunkett:** I regularly use trains in the course of my ministerial duties.

All ministerial travel on official business is undertaken fully in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are in the Libraries of the House.

### Unaccompanied Children

**Jonathan Shaw:** To ask the Secretary of State for the Home Department whether the piloting of removals of unaccompanied children will involve their detention. [155444]

**Beverley Hughes:** There are no plans to detain unaccompanied children who will be removed under the returns programme. Unaccompanied children are only ever detained in the most exceptional circumstances and then normally only overnight while alternative care arrangements are made. Arrangements for return will be planned in partnership with Local Authorities; this will include an assessment of the child/young person's suitability for return and whether return is in their best interests.

**Jonathan Shaw:** To ask the Secretary of State for the Home Department what provision he intends to make to ensure that appropriate reception arrangements are in place for unaccompanied children who are removed under the new pilots. [155445]

**Beverley Hughes:** The returns programme for unaccompanied asylum seeking children who have been refused asylum is still in the early stages of development. We are currently exploring the kinds of reception arrangements that could be put in place. Before any child or young person was returned under the programme we would need to be confident that the arrangements put in place were of an acceptable standard and that the person's return was not in breach of our international obligations.

### Work Permits

**Mr. Baron:** To ask the Secretary of State for the Home Department how many work permits were awarded to health workers to work *(a)* in the UK National Health Service and *(b)* the non-NHS sector for each of the last 10 years. [154602]

**Beverley Hughes** *[holding answer 12 February 2004]:* Due to the structure of the Work Permits (UK) database a breakdown of the number of work permits awarded to health workers by employer type i.e. in NHS or non-NHS employment, can be obtained only at disproportionate cost.

## NORTHERN IRELAND

### Devolution

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what the cost to public funds of setting up devolved government in Northern Ireland was. [154398]

**Mr. Paul Murphy:** It is not possible to determine the cost of setting up devolved government in Northern Ireland. However, any costs incurred by the Departments of the Northern Ireland Administration have been absorbed within the Northern Ireland block, which was not increased specifically as a result of devolution.

### Agreed Behaviour Contracts

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many agreed behaviour contracts (ABCs) have been issued in Northern Ireland since their introduction; and what assessment he has made of the effectiveness of ABCs in tackling anti-social behaviour. [153853]

**Mr. Spellar:** Acceptable behaviour contracts (ABCs) have not been introduced in Northern Ireland. They form part of the current consultation on measures to tackle anti-social behaviour. In considering proposals for consultation I have been informed by Home Office Research in England and Wales, which found that ABCs were effective in reducing anti-social behaviour by those young people subject to them.

### Batteries

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what assessment he has made of the dangers to the environment from batteries containing mercury and other toxic metals, being dumped in local waste dumps in Northern Ireland. [155506]

**Angela Smith:** The potential adverse environmental impacts from mercury are universally accepted. However, the EC Scientific Committee on Toxicity, Ecotoxicity and the Environment recognises that there is no methodology to assess the long-term risks of leachate from landfills.

Industry voluntary measures introduced in 1985 and EC legislation since 1991 have gradually reduced the amount of mercury in batteries, resulting in a reduction in landfilled mercury across the UK from an estimated 4.4t in 1994 to 0.028t in 2000; over time this amount will effectively fall to zero.

Other current EC legislation will increase the collection and recycling of spent batteries and ban the co-disposal of hazardous and non-hazardous waste at landfill sites.

### Cross-Border Bodies

**Mr. Rosindell:** To ask the Secretary of State for Northern Ireland what plans he has to increase the number of cross-border bodies. [154842]

**Mr. Pearson:** I have no such plans at present.

### Dental Health

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on the standard of dental health of the Province's population. [154591]

**Angela Smith:** There has been a gradual improvement in the standard of oral health in adults in Northern Ireland over the last 10 years. However, the general level of oral health here is still considerably worse than in Great Britain and the Republic of Ireland, particularly among children.

The Chief Dental Officer has recently established a Steering Group to develop a new Oral Health Strategy, which will set the oral health agenda for the next 10 years. This new Strategy will identify the oral health needs of the population here, determine desired outcomes and identify areas where oral health can link into the wider health agenda.

### EU Regulations

**Mr. Nigel Dodds:** To ask the Secretary of State for Northern Ireland how many European Union regulations relating specifically to Northern Ireland have been published in each year since 1997. [155579]

**Mr. Paul Murphy:** EU regulations have general application. They are binding in their entirety and are directly applicable in all member states.

Based on the records in the *Official Journal* of the European Union (copies available in the House Library) we assess that the number of EC, ECSC and Euratom regulations made was as follows.

| | *Number* |
|---|---|
| 1997 | 2,339 |
| 1998 | 2,852 |
| 1999 | 2,802 |
| 2000 | 2,882 |
| 2001 | 2,600 |
| 2002 | 2,125 |
| 2003 | 2,176 |

### European Year of Disabled People

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what action was taken in Northern Ireland to support the United Kingdom theme for the European Year of Disabled People to promote rights and participation. [154156]

**Mr. Spellar:** A Northern Ireland Regional Steering Group, representing a wide range of interests, was established to promote and develop a successful programme of activities within Northern Ireland consistent with the UK theme for the European Year of People with Disabilities 2003 of promoting rights and participation. It organised a range of events which also included Ministers.

A NI Grant Scheme resulted in 22 organisations in Northern Ireland collectively receiving £100,000 for projects which promote rights and participation. This adds to the £222,000 awarded to 12 other Northern Ireland projects from the UK fund for the year. A new award scheme was also launched by the Employers' Forum on Disability aimed at acknowledging best practice among employers who do most in Northern Ireland to promote employment of people with disabilities in the workforce. An awareness raising media campaign entitled "Think for a Change: It's Time for Change", highlighted disadvantage experienced by people with disabilities in terms of lower income, education and employment.

A two-day Conference entitled "Breaking the Barriers" recently took place aimed at exploring how services can be improved to take account of the needs and rights of people with disabilities. The European Year of People with Disabilities has since been extended to 31 March 2004 in Northern Ireland.

### Orthopaedic Surgeons

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland what plans he has to increase the number of consultant orthopaedic surgeons in Northern Ireland. [154592]

**Angela Smith:** The number of consultant orthopaedic surgeons increased to 41 by December 2003, representing a 37 per cent. increase in five years. In recognition that there is a need to further increase the number of consultants, the number of specialist trainees has also been increased to the current level of 23, an increase of over 50 per cent. in five years.

### Pension Books

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the average length of time taken

to replace pension books when they expired was in Northern Ireland in the last year for which figures are available. [154411]

**Mr. Spellar:** Unfortunately the information requested is not available.

Renewal pension books are issued automatically three weeks in advance of the date of the first order in the new book.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many pension books were issued in Northern Ireland in each of the last five years. [154412]

**Mr. Spellar:** The number of pension books issued in each of the last five years is shown in the table.

| | *Number of pension books* |
|---|---|
| 1999 | 196,000 |
| 2000 | 194,000 |
| 2001 | 191,000 |
| 2002 | 189,000 |
| 2003 | 166,000 |

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what assessment he has made of the impact of the introduction of automated credit transfer for payment of pensions in Northern Ireland. [154413]

**Mr. Spellar:** At December 2003, just over 34 per cent. of Pensions customers were paid by Direct Payment. Between April 2003 and January 2004, the Social Security Agency has contacted 159,000 pensioner customers asking them to convert to Direct Payment. Seventy nine thousand customers have provided account details and these will be activated as the current order book expires. A further 23,000 customers have responded positively to Agency correspondence.

A customer satisfaction survey was carried out in September 2003 for customers who had converted to Direct Payment and the results were very positive. A further survey is to be carried out in April 2004.

### Planning

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what the determination of the application for planning permission, reference number P/2000/2176 was; when it was made; and when it was communicated to the applicant. [153626]

**Angela Smith:** Planning Service determined that the application should be approved. A Decision Notice was issued to the applicant's agent on 2 February 2004.

### Police

**Mr. Hunter:** To ask the Secretary of State for Northern Ireland if he will revoke the decision to disband the full-time police reserve in the light of on-going activity of terrorist organisations in Northern Ireland. [154836]

**Jane Kennedy:** The Government accepted, subject to the security situation, the recommendation in the Patten report that "the future police service should not include a Full Time Reserve". In October 2002 the Chief Constable put to the Policing Board a human resource strategy to meet the staffing needs of the Police Service over the next 8 to 10 years which the Policing board endorsed. This included a phased run-down of the Full-Time Reserve over an 18 month period from April 2005, subject to no further deterioration of the security situation and the continued success of the recruitment campaign for the Police Service.

Later this year the Chief Constable will put forward advice to the Board and the Secretary of State on these matters. The Government recognises the major contribution that members of the Reserve have made to the maintenance of law and order in Northern Ireland and the high price that they and many of their families have had to pay in doing so.

### Prisons

**Mr. Gregory Campbell:** To ask the Secretary of State for Northern Ireland what the cost of maintaining the prison population in Northern Ireland was in the past three years; and what the average cost per prisoner was in each of those years. [153845]

**Jane Kennedy:** The cost of maintaining the prison population in Northern Ireland in the past three years and the average cost per prisoner place in each of those years was as follows:

£

| | *Cost* | *Cost per prisoner place* |
|---|---|---|
| 2000–01 | 93,230,000 | 74,580 |
| 2001–02 | 87,486,000 | 71,475 |
| 2002–03 | 95,564,000 | 68,999 |

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what plans he has to reinstate the Braille Unit at HMP Maghaberry; and if he will make a statement. [153529]

**Jane Kennedy:** The implementation of the Steele recommendations has seriously impacted on the Governor's ability to maintain and sustain the regime and at present only a restricted range of services can be provided. It is hoped that with full implementation of Steele, the prison can quickly restore a fully resourced Integrated Regime including braille transcription and related services. It is intended that work will commence at the beginning of April 2004 to re-locate the Braille Unit to a much larger facility within the prison workshop area and to expand the range of services provided.

### Student Finance

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what assessment he has made of the impact of the introduction of variable top-up fees on university students in Northern Ireland. [152576]

**Jane Kennedy:** The Higher Education Bill, which includes proposals for the introduction of variable deferred tuition fees, does not, in the main, apply to Northern Ireland. It has, however, significant implications in view of the strong links between the higher education sectors and the level of student flows between Northern Ireland and Great Britain.

I have been giving careful considerations to the implications, taking into account discussions with local stakeholders and advice from the Northern Ireland Higher Education Council (NIHEC). It is my intention to bring forward proposals soon for the way forward in Northern Ireland.

### Work Force Statistics

**Mr. Gregory Campbell:** To ask the Secretary of State for Northern Ireland what the composition of the monitored full-time work force was, broken down by religious designation, in *(a)* 1992 and *(b)* 2002. [155002]

**Mr. Spellar:** Information regarding the composition of the monitored full-time workforce, broken down by religious designation, can be found in the Fair Employment Commission Monitoring Report (No. 3), which summarises the 1992 monitoring returns and the Equality Commission for Northern Ireland Monitoring Report (No. 13), which summarises the 2002 monitoring returns. Copies of both reports are available for reference from the Library of the House.

## WORK AND PENSIONS

### Advisers' Discretionary Fund

**Paul Holmes:** To ask the Secretary of State for Work and Pensions how much has been spent on the Advisers' Discretionary Fund in each year since it was set up; what figures his Department collects on the breakdown of spending via the Advisers' Discretionary Fund; and if he will make a statement. [153460]

**Mr. Browne:** The total spend per year on the Advisers' Discretionary Fund, introduced in July 2001, is shown in the table.

*Advisers' Discretionary Fund*

£

| | *Spend* |
|---|---|
| July 2001 to March 2002 | 6,191,945 |
| April 2002 to March 2003 | 15,975,996 |
| April 2003 to December 2003 | 23,765,210 |
| Total | 45,933,151 |

The figures on breakdown of spending are not centrally collated.

### Pensions

**Mr. Webb:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 4 February 2004, *Official Report*, column 957W, on pensions, if he will estimate the net Exchequer effects of the pension reforms set out in the answer, based on the additional assumption that all age-related income tax personal allowances are abolished as part of each reform package. [155568]

**Malcolm Wicks:** The information requested is set out in the table.

*£ billion*

| | *2004–05* | *2005–06* | *2006–07* | *2007–08* | *2008–09* |
|---|---|---|---|---|---|
| Over 65 | 8.0 | 8.2 | 8.7 | 9.4 | 10.1 |
| Over 70 | 5.6 | 5.8 | 6.2 | 6.7 | 7.2 |
| Over 75 | 3.6 | 3.8 | 4.1 | 4.4 | 4.7 |

*Notes:*

1. Figures are in 2003–04 price terms rounded to the nearest £100 million. It is assumed the change comes into effect from April 2004 on the same basis as the previous answer.
2. The costing assumes that aged and super aged personal allowances are reduced to the personal allowance level.
3. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2003 assumptions. Estimates are all based on the new (2002) population projection and allow for recent revisions.
4. The costs take into account income related benefit offsets, which are calculated using the DWP policy simulation model and April 2004 benefit rates.
5. Additional income tax revenue is estimated by the Inland Revenue using 2004 tax rates.

### Benefit Fraud

**Mr. Webb:** To ask the Secretary of State for Work and Pensions if he will estimate the *(a)* operational and *(b)* advertising costs of the National Benefit Fraud Hotline in each of the last six years. [151017]

**Mr. Pond:** The available information is in the table:

*National benefit fraud hotline*

£

| | *Operational costs* | *Advertising costs* |
|---|---|---|
| 1997–98 | [1]— | 225,000 |
| 1998–99 | [1]— | 290,247 |
| 1999–2000 | [1]— | 337,672 |
| 2000–01 | 627,804 | 425,178 |
| 2001–02 | 1,086,000 | [2]— |
| 2002–03 | 959,277 | [2]— |

[1] Not available.
[2] Not separately assessed.

*Notes:*

1. Operational costs for the National Benefit Fraud Hotline are only available for the last three years. Operational cost figures are not available prior to 2000–01.
2. The National Benefit Fraud Hotline (NBFH) number was advertised separately up until 2000–2001. Since the Targeting Fraud (now Targeting Benefit Fraud) advertising campaign started in 2001, the NBFH number has been included in the campaign advertising and has not been the subject of any advertising on its own.
3. Operational costs include staffing costs and goods and services costs.
4. The operational costs of administering the National Benefit Fraud Hotline include the costs of administering report-a-cheat-online. These costs cannot be separated.

*Source:*

Operational costs—National Benefit Fraud Hotline.
Advertising costs—DWP Communications Directorate.

**Mr. Webb:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 2 February 2004, *Official Report*, column 731W, how many people have been found to have committed benefit fraud against his Department on *(a)* one, *(b)* two, *(c)* three, *(d)* four, *(e)* five, *(f)* six, *(g)* seven, *(h)* eight, *(i)* nine, *(j)* 10 and *(k)* more than 10 occasions since the powers to sanction benefits introduced by the Social Security Act 2001 took effect. [156023]

**Mr. Pond:** The information requested is not available.

**Mr. Webb:** To ask the Secretary of State for Work and Pensions pursuant to the answer of 2 February 2004, *Official Report*, column 731W, how many people have been *(a)* investigated and *(b)* prosecuted for committing benefit fraud against his Department on two or more occasions since the powers to sanction benefits introduced by the Social Security Act 2001 took effect. [156025]

**Mr. Pond:** The information on investigations is not available.

On prosecutions, our latest information is that 30 people have been convicted of benefit fraud on at least two occasions since the powers to sanction benefits introduced by the Social Security Act 2001 took effect. However, data is incomplete and subject to change due to late notification.

### Economic Inactivity

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions what measures are in place to address the causes and effects of economic inactivity; and if he will make a statement. [152938]

**Mr. Browne:** Nearly three quarters of people of working age are in work—not just in one year but year-on-year. High levels of employment are not enough. Active labour market policies ensure people can take advantage of the many job opportunities coming up all the time. This is especially true for those most disadvantaged including the long-term unemployed, lone parents, people with disabilities and older workers.

There are a number of measures in place to tackle the causes of inactivity. For example, where people lose, or risk losing, their jobs due to illness, injury or disability, the Health and Safety Executive (HSE) is working to help employers, in partnership with their employees, to prevent long term sickness from turning into unemployment.

There are a number of programmes and initiatives aimed at helping people find and remain in work. The New Deal Programmes aim to help different groups of people who have been out of work to move into work or improve their prospects of doing so, through for example job search and skills training. The national minimum wage, tax credits and various other financial incentives ensure that people who do take up opportunities and find work are better off in work.

For example the New Deal for Lone Parents (NDLP) available to all lone parents who are not working or working less than 16 hours per week offers lone parents advice with job seeking, training, in-work benefits and child care.

For people on incapacity benefit we are piloting reforms to support a return to work. More information is available in 'Pathways to Work: Helping people in employment; CM 5690'. This sets out the strategy for encouraging and assisting people with health problems and disabilities to return to work, and enable them to become and remain independent and enjoy the personal, social and financial benefits that having a job brings.

More help is also being provided for those who face the greatest barriers to work, for example former drug mis-users, the long-term unemployed and people from minority ethnic communities. In particular areas of labour market disadvantage Action Teams provide individually tailored, innovative ways to help jobless people overcome the barriers to work they may face. This might include, for example, debt counselling or help with work clothes and child care costs.

### Health and Safety

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions if he will place an obligation on companies to publish, within their annual report, a statement containing *(a)* their health and safety policy and *(b)* initiatives that have been taken to implement these policies. [155820]

**Jacqui Smith:** I have been asked to reply.

The Government have no plans to place an obligation on companies to publish within their annual report a statement containing their health and safety policy.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what plans he has to lift Crown immunity with regards to health and safety legislation. [155821]

**Mr. Browne:** The requirements of health and safety legislation apply to Crown bodies, but they are immune from statutory health and safety enforcement.

The Government will seek a legislative opportunity, when parliamentary time allows, to remove this immunity.

In the meantime the Health and Safety Executive uses non-statutory arrangements to enforce health and safety requirements in Crown bodies', including censuring Crown bodies in circumstances, where but for Crown immunity, prosecution would have been justified.

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what the budget was in *(a)* cash and *(b)* real terms of the Health and Safety Executive for each year since 1997; and what the forecast budgets for the next three years are. [155822]

**Mr. Browne:** The annual budgets allocated to the Health and Safety Executive (HSE) from 1997–98 to 2005–06 are set out in the table.

*HSE's annual budgets*

*£ million*

| | *Budget* [1] |
|---|---|
| 1997–08 | 174.1 |
| 1998–09 | 175.7 |
| 1999–2000 | 180.6 |
| 2000–01 | 181.3 |
| 2001–02 | 199.4 |
| 2002–03 | 210.4 |
| 2003–04 | 225.5 |
| 2004–05 | 225.5 |
| 2005–06 | 223.5 |

[1] The budget for HSE in 2006–07 will be confirmed by autumn this year as part of the 2004 spending review exercise.

*Notes:*

1. Budget figures are the total amount voted by Parliament to HSE. HSE's budgets up to and including 2000–01 were based on the Grant in Aid (cash) voted to the organisation. From 2001–02, Government replaced 'cash' allocations with Resource Accounting and Budgeting (RAB) arrangements. Under RAB, HSE bids for resources and produces accounts on an accruals

basis, which include costs for depreciation, the cost of capital and provisions for liabilities. The 'cash' and 'RAB' figures are not directly comparable.

2. Rounded to the nearest £100k.

3. Following the Cullen Inquiry additional ring-fenced funding was allocated to HSE to spend across years 2002–03 to 2004–05 to improve rail safety. This is not shown in the annual budget figures.

### Post Office Card Accounts

**Mr. Peter Duncan:** To ask the Secretary of State for Work and Pensions what plans the Government has to promote the use of Post Office card accounts in Scotland. [155473]

**Mr. Pond:** Our nationwide direct payment information campaign has an important role to play in the way we take customers through the associated changes.

When it is their turn to change customers are being provided with all the information they need on all of their "account options". This information lists all the accounts, which can be accessed at post office branches and sets out how to apply for a Post Office card account. It will be for customers themselves to decide which account will best meet their needs and circumstances. Any benefit or pension customer who wishes to open a Post Office card account will be able to do so.

## TREASURY

### Alcohol Duty

**Mr. Hoyle:** To ask the Chancellor of the Exchequer (1) what the level of duty is in *(a)* the UK, *(b)* France and *(c)* Spain on (i) beer, (ii) wine and (iii) spirits; [155234]

(2) if he will estimate the effect on United Kingdom duty revenues of equalising UK duty on *(a)* wine, *(b)* beer and *(c)* spirits with levels in France. [155239]

**John Healey:** Alcohol duty rates in European Union member states are published in the European Commission's 'Excise Duty Tables—Alcoholic Beverages'. The table gives figures for the UK, Spain and France from the tables published in December 2003, converted to pounds sterling from euros using the average exchange rate for December 2003 as published by the Office for National Statistics in Table 7.1A of "Financial Statistics", and converted to pounds per hectolitre per cent. of alcohol (where necessary) using an approximation of 12.5° Plato to 5 per cent. alcohol by volume (ABV).

| | | | *Wine* | | | |
|---|---|---|---|---|---|---|
| | | | *Still* | | *Sparkling* | |
| *Excise duty rate* | *Spirits £/litre of alcohol* | *Beer £/h/l per cent. alcohol* | *ABV* | *£/hl* | *ABV* | *£/hl* |
| UK | 19.60 | 12.22 | >2 per cent. ≤4 per cent.<br>>4 per cent. ≤5.5 per cent.<br>>5.5 per cent. ≤15 per cent.<br>15 per cent. to 22 per cent. | 48.91<br>67.25<br>158.69<br>211.58 | >5.5 per cent. <8.5 per cent.<br>>8.5 per cent. ≤15 per cent. | 166.70<br>220.54 |
| Spain | 5.20 | 1.43 | | 0.00 | | 0.00 |
| France | 10.20 | 1.83 | | 2.39 | | 5.90 |

The second table shows the cost in excise duty and VAT revenue forgone if the UK were to apply the excise duty rates applicable in France in December 2003. These figures are derived from the HM Treasury alcohol demand model published in May 2003[1], which is used to estimate associated effects on demand. This shows that the total cost of equalising excise duty rates for beer, wine and spirits with those in France would be more than £6 billion, equivalent to a 1.5 per cent. increase in the standard rate of VAT or around 2p extra on the basic rate of income tax.

*Revenue Forgone*

| | *£ billion* |
|---|---|
| Spirits | 0.80 |
| Beer | 3.44 |
| Wine | 1.88 |
| Total | 6.12 |

[1] Further technical details relating to this econometric model can be found in Government Economic Service Working Paper No. 140.

### Parliamentary Questions

**Mr. Brady:** To ask the Chancellor of the Exchequer how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155915]

**John Healey:** In the 2002–03 Session, Treasury Ministers answered ordinary written questions substantively in an average of just under six working days. 2,548 of 3,343 questions concerned (76.2 per cent.) were answered within a week of tabling.

## DEPUTY PRIME MINISTER

### EU Funding

**Ann Winterton:** To ask the Deputy Prime Minister pursuant to the answer of 26 January 2004, *Official Report*, column 157W, whether the difference in the figures between already allocated EU funds and the total funding of €440 million for the North West, €136 million for the North East and €466 million for Yorkshire and Humber has yet to be allocated for the remaining period in 2000–06. [155045]

**Mr. Raynsford:** The figures tabled in the answer of 26 January related only to the European Regional Development Fund and did not include the European Social Fund (ESF), the European Agricultural Guidance and Guarantee Fund (EAGGF) or the

Financial Instrument for Fisheries Guidance (FIFG). Allocations, in euros, for all European structural funds in the North East, North West and Yorkshire and Humber Government Office areas for Objective 1 and 2 programmes are tabled as follows. All the funds have been allocated to programmes but some of the funds have still to be awarded to actual projects.

*Allocation (€000)*

| *Programme* | *ERDF* | *ESF* | *EAGGF* | *FIFG* | *Total* |
|---|---|---|---|---|---|
| North East Objective 2 | 581,330 | 135,670 | 0 | 0 | 717,000 |
| North West Objective 1 | 893,048 | 434,300 | 5,500 | 0.400 | 1,332,848.4 |
| North West Objective 2 | 808,330 | 0 | 0 | 0 | 808,330 |
| Yorkshire and Humber Objective 1 | 785,558 | 363,842 | 23,050 | 0 | 1,172,450 |
| Yorkshire and Humber Objective 2 | 448,360 | 69,480 | 0 | 0 | 517,840 |

### Government Grants

**Ann Winterton:** To ask the Deputy Prime Minister from which financial year the *(a)* £780 million Government grant for the North West, *(b)* £350 million grant for the North East and *(c)* £570 million grant for Yorkshire and the Humber referred to in the "Your Say" booklets is calculated. [155013]

**Mr. Raynsford:** The figures referred to in the "Your Say" leaflets for the North West, the North East and Yorkshire and the Humber were calculated on the basis of the 2002–03 financial year.

### Local Government

**Mr. Stephen O'Brien:** To ask the Deputy Prime Minister how many responses have been received to date in response to the consultation on the future configuration of local government in the North West Region from residents of *(a)* Cheshire, *(b)* Lancashire, *(c)* Cumbria, *(d)* Greater Manchester, *(e)* Merseyside and *(f)* the North West Region; what the cost has been of the consultations; what costs have been incurred by (i) Vale Royal Borough Council, (ii) Chester City Council, (iii) Crewe and Nantwich Borough Council and (iv) Cheshire County Council in relation to this issue and the consultation exercise; and what rights of recovery of these costs councils have in the event of a no vote in a referendum on an elected North West regional government. [155627]

**Mr. Raynsford:** The Boundary Committee's consultation on its draft recommendations is a matter for that independent Committee.

Councils that respond to the Boundary Committee's consultation exercise do so on their own initiative and have no right to recover any costs they incur.

### Public Funding

**Chris Ruane:** To ask the Deputy Prime Minister what sources of public funding are available to local authorities other than Council Tax and central Government grant. [154920]

**Mr. Raynsford:** In addition to various forms of central Government grant, which includes National Non-Domestic Rates (NNDR), local authorities are able to access other forms of grant such as European funding and lottery funding.

### Regional Assemblies

**Mr. Jenkin:** To ask the Deputy Prime Minister what estimate he has made of the size of central government grant to an elected regional assembly in *(a)* the North East, *(b)* the North West and *(c)* Yorkshire and the Humber in its first financial year. [155129]

**Mr. Raynsford:** Based on figures for 2002–03, and including European programmes, an elected regional assembly in the North East would be responsible for around £350 million a year, in the North West for £780 million and in Yorkshire and the Humber for £570 million. In addition each assembly will receive grant in respect of its Fire and Rescue responsibilities.

### "Supporting People"

**Mr. Hoyle:** To ask the Deputy Prime Minister if he will make a statement on the funding of "Supporting People" in Lancashire. [153719]

**Yvette Cooper:** The final "Supporting People" grant awarded to Lancashire in 2003–04 was £30,781,847. This was the full verified amount submitted to the Office of the Deputy Prime Minister by the Lancashire team. The Lancashire "Supporting People" team also received £767,000 to help with the administration of the programme.

### Thurrock Urban Development Corporation

**Bob Spink:** To ask the Deputy Prime Minister for what reasons greenfield green belt land has been included within the boundary of the area of the Thurrock Urban Development Corporation. [153857]

**Yvette Cooper:** The Urban Development Corporation (UDC) boundaries are coterminous with the boundaries for Thurrock Council's administrative area. This provides the UDC with the flexibility to consider development opportunities across the borough, to create new settlements and to improve the sustainability of existing communities. It also enables the UDC to undertake a detailed appraisal of current land-use within the borough and to develop strategic proposals for regeneration, housing and economic development, which will ensure balanced and sustainable growth across the borough.

### Travellers

**Mr. Lilley:** To ask the Deputy Prime Minister what *(a)* estimate and *(b)* provision he has made for expenditure by local authorities on opening sites for temporary accommodation by Travellers in the coming financial year. [155549]

**Keith Hill:** The Office of the Deputy Prime Minister has made £8 million available for 2004–05 via the Gypsy Sites Refurbishment Grant. Bids for 2004–05 are currently being evaluated.

It is for local authorities to determine, based on an assessment of need, whether they will bid for funding from this grant, or make provision from their own resources.

## CONSTITUTIONAL AFFAIRS

### Expert Witnesses

**Mrs. Anne Campbell:** To ask the Parliamentary Secretary, for the Home Department what proportion of criminal cases involved evidence from expert witnesses in each of the last five years; and what proportion of these witnesses were registered with the Council for the Registration of Forensic Practitioners. [147187]

**Mr. Leslie:** The information is not collected centrally and can be provided only at disproportionate cost.

### Court Fees

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how the existence of the judicial power to waive or remit fees in the small claims track is publicised; [155377]

(2) how the power in Article Six of the County Court Rules to waive fees for exceptional circumstances involving exceptional financial hardship is publicised. [155379]

**Mr. Leslie:** There is no judicial power to waive or remit court fees. Court Service staff administer fees remissions on behalf of the Lord Chancellor. The provision for remission of court fees is publicised by way of posters displayed on public notice boards in court offices and also by cross-referencing in relevant forms and leaflets.

## EDUCATION AND SKILLS

### Connexions

**Charles Hendry:** To ask the Secretary of State for Education and Skills how many Connexions Partnerships have established their working arrangements with voluntary youth services by way of a partnership agreement. [155646]

**Margaret Hodge** *[holding answer 23 February 2004]:* Information on the number of working agreements between Connexions Partnerships and voluntary youth services is not collected centrally.

All Connexions Partnerships are encouraged to work with their local Voluntary and Community Sector (VCS) partners to meet the needs of young people and there is strong evidence of such working relationships across the country.

From 1 April 2004 each Connexion Partnership must develop a clear and systematic local strategy for the involvement of the VCS in service design, planning, delivery and evaluation.

### Contingency Planning

**Patrick Mercer:** To ask the Secretary of State for Education and Skills (1) what terrorist contingency planning advice is available to schools and headteachers via the recently updated Teachernet website; [155677]

(2) how much funding was provided for *(a)* the recent updates to the Teachernet website and *(b)* educating schools and head teachers on contingency planning for terrorist attacks; [155678]

(3) what terrorist contingency planning advice is available for schools. [155679]

**Mr. Charles Clarke:** Specific detailed Government advice on terrorism is provided by the Home Office. The Teachernet website provides a link to their site. I refer my hon. Friend to *Official Report,* 5 February 2004, column 1033W for the cost of producing the emergency planning website on Teachernet. The purpose of the site was always to provide advice to schools, in one place, about drawing up an emergency plan for all types of emergencies and primarily on how to cope with the sudden death of a pupil. In an emergency, head teachers know that they should dial 999 and the emergency services will then take control of the situation. Local authorities have responsibility for emergency planning at local level and that includes schools.

### Education Funding

**Shona McIsaac:** To ask the Secretary of State for Education and Skills which schools in *(a)* North Lincolnshire and *(b)* North East Lincolnshire which ran a deficit budget in 2001–02; and how much each deficit is. [155575]

**Mr. Miliband:** The information requested is contained within the following tables:

*North Lincolnshire schools which ran a deficit budget[1] in 2001–02*

| *School name* | *Deficit[1] (£)* |
|---|---|
| Frederick Gough School | 54,910 |
| Brumby School | 18,756 |
| St. Bernadette's Catholic Primary School | 9,457 |
| St. Mary's Catholic Primary School | 9,124 |
| Huntcliff School | 7,787 |
| Baysgarth School | 3,571 |
| Priory Lane Infant School | 621 |

[1] Deficit budget is taken from table 2 column 12—Balance Carried Forward.

*Notes:*

1. The balance to be carried forward represent total resources available to the school less school expenditure and unspent allocations.
2. The data are as reported by North Lincolnshire LEA within their 2001–02 Section 52 Outturn Statement (table 2) submitted to the DfES.

*North East Lincolnshire schools which ran a deficit budget[1] in 2001–02*

| *School name* | *Deficit[1] (£)* |
|---|---|
| The Lindsey School and Community Arts College | 81,554 |
| Welholme Infants' School | 35,105 |
| St. Joseph's RC Primary School | 6,005 |
| Healing Comprehensive School | 5,841 |

[1] Deficit budget is taken from table 2 column 12—Balance Carried Forward.

*Note:*

1. The balance to be carried forward represent total resources available to the school less school expenditure and unspent allocations.

2. The data are as reported by North East Lincolnshire LEA within their 2001–02 Section 52 Outturn Statement (table 2) submitted to the DfES.

**Mr. Laurence Robertson:** To ask the Secretary of State for Education and Skills what the total education budget is in Gloucestershire in 2003–04; what percentage of that budget is spent in schools; and if he will make a statement. [153403]

**Mr. Miliband** *[holding answer 6 February 2004]:* The information requested is given in the following table.

*Gloucestershire education budget and percentage spent in schools for 2003–04*

| | £ | Percentage |
|---|---|---|
| Individual schools budget | 221,544,390 | 77 |
| Central elements within the schools budget | 35,695,453 | 12 |
| Total schools budget | 257,239,843 | 90 |
| Total LEA budget | 29,357,448 | 10 |
| Total education revenue expenditure | 286,597,291 | 100 |

*Notes:*

1. The data are as reported by Gloucestershire LEA within their section 52 Budget Statement (table 1) for 2003–04 submitted to the DfES at 9 February 2004. It is still subject to basic validation and could change

2. Percentages may not sum due to rounding.

3. Taken from line 1.0.1—Individual schools budget (ISB). This is the amount available for delegation to schools after provision has been made for retained items.

4. The central element within the schools budget is the total schools budget minus the ISB. This money is spent on schools rather than in schools. The data is not collected in such a way that we can say precisely how much of this central element is spent in schools.

5. Taken from line 1.7.1—Total schools budget.

6. Taken from line 2.8.1—Total LEA budget.

## Faith Schools

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what criteria need to be met for a new faith school to open within the state sector. [153270]

**Mr. Miliband** *[holding answer 6 February 2004]:* School Organisation Committees or Schools Adjudicators decide proposals for new schools on individual merit and in the light of local circumstances. They must have regard to statutory guidance which specifies the factors that have to be considered for all new schools including the effect on standards, need for places, costs, impact on community cohesion, views of interested parties etc. The guidance is available on the Department's website at www.dfes.gov.uk/schoolorg. Where a competition has been held for an additional secondary school, proposals are decided by the Secretary of State, taking into account comments by the SOC. While there are no factors that relate specifically to faith schools whether or not they are being considered as part of a competition or otherwise, the decision maker will take account of the level of parental demand for the type of school proposed.

## Free School Meals

**Chris Ruane:** To ask the Secretary of State for Education and Skills what percentage of children were entitled to free school meals in each school in a principal seaside town on the latest date for which figures are available, listed in descending order; and if he will make a statement. [154947]

**Mr. Miliband:** It is the Department's policy not to publish figures about individual schools unless the schools concerned have had the opportunity to check or confirm that information. Therefore, aggregate data for the principal seaside towns in England is shown in the table.

The definition of a seaside town has been taken from a report published by Sheffield Hallam University, entitled, "The Seaside Economy".

*Maintained primary schools[1]: number and percentage of pupils eligible for free school meals[2] January 2003: Principal seaside towns in England[3]*

| | All pupils[4] | Primary: Number of pupils known to be eligible for free school meals | Primary: Percentage of pupils known to be eligible for free school meals |
|---|---|---|---|
| Blackpool | 11,180 | 2,890 | 25.8 |
| Bridlington | 3,100 | 670 | 21.4 |
| Southend-on-Sea | 7,470 | 1,590 | 21.2 |
| Clacton-on-Sea | 5,450 | 1,150 | 21.0 |
| Morecambe and Heysham | 4,680 | 980 | 21.0 |
| Hastings/Bexhill | 6,010 | 1,220 | 20.2 |
| Great Yarmouth | 9,490 | 1,780 | 18.7 |
| Scarborough | 6,000 | 1,110 | 18.5 |
| Isle of Wight | 7,270 | 1,310 | 18.1 |
| Lowestoft | 5,100 | 920 | 18.0 |
| Torbay | 10,330 | 1,850 | 17.9 |
| Brighton | 14,730 | 2,580 | 17.5 |
| Eastbourne | 7,210 | 1,200 | 16.7 |
| Penzance | 3,130 | 500 | 15.9 |
| Weston-super-Mare | 6,800 | 1,060 | 15.6 |
| Ilfracombe | 1,300 | 190 | 14.7 |
| St. Ives | 760 | 110 | 14.5 |
| Dawlish/Teignmouth | 2,010 | 290 | 14.2 |
| Minehead | 870 | 120 | 13.6 |
| Whitby | 1,840 | 240 | 13.1 |
| Exmouth | 2,720 | 360 | 13.0 |
| Deal | 2,700 | 350 | 12.8 |
| Falmouth | 2,170 | 280 | 12.8 |
| Skegness | 2,320 | 290 | 12.6 |
| Whitstable/Herne Bay | 5,260 | 620 | 11.7 |
| Southport | 7,340 | 850 | 11.5 |
| Folkstone/Hythe | 1,290 | 150 | 11.3 |
| Bournemouth | 11,490 | 1,170 | 10.2 |
| Newquay | 2,110 | 200 | 9.7 |
| Burnham-on-Sea | 1,040 | 100 | 9.5 |
| Bognor Regis | 4,510 | 430 | 9.4 |
| Sidmouth | 880 | 80 | 8.6 |
| Whitley Bay | 3,420 | 270 | 8.0 |
| Weymouth | 4,720 | 370 | 7.7 |
| Worthing | 8,910 | 650 | 7.3 |
| Swanage | 560 | 20 | 3.6 |

[1] Includes middle schools as deemed.

[2] Figures have been rounded to the nearest 10.

[3] Based upon postal town of schools with the exception of Isle of Wight and Torbay for which the respective local education authorities have been used.

[4] Includes dually registered pupils and boarding pupils.

*Source:*

Annual Schools' Census

*Maintained secondary schools[1]: Number and percentage of pupils eligible for free school meals[2] January 2003: Principal seaside towns in England[3]*

| | All pupils[4] | Secondary: Number of pupils known to be eligible for free school meals | Secondary: Percentage of pupils known to be eligible for free school meals |

*Source:*
Annual Schools' Census

**Mr. Willis:** To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary school pupils were eligible for free school meals in 2002–03, broken down by region; and if he will make a statement. [155457]

**Mr. Miliband** *[holding answer 23 February 2004]:* The information requested is shown in the following table.

*Maintained primary and secondary schools[1] number of pupils known to be eligible for free school meals[2] As at January 2003. By Local Education Authority area*

| | All pupils[3]: Primary Schools: Number on roll | Primary Schools: Number of pupils known to be eligible for free schools meals | Primary Schools: Percentage known to be eligible for free school meals | Secondary Schools: Number on roll | Secondary Schools: Number of pupils known to be eligible for free schools meals | Secondary Schools: Percentage known to be eligible for free school meals |
|---|---|---|---|---|---|---|
| England | 4,309,780 | 727,630 | 16.9 | 3,308,490 | 478,920 | 14.5 |
| *North East* | 226,230 | 50,420 | 22.3 | 180,390 | 32,670 | 18.1 |
| 841 Darlington | 9,050 | 1,670 | 18.5 | 6,310 | 1,030 | 16.2 |
| 840 Durham | 44,250 | 8,770 | 19.8 | 32,580 | 5,610 | 17.2 |
| 390 Gateshead | 17,230 | 3,980 | 23.1 | 11,880 | 2,310 | 19.5 |
| 805 Hartlepool | 9,720 | 2,280 | 23.5 | 6,720 | 1,490 | 22.2 |
| 806 Middlesbrough | 14,820 | 4,300 | 29.0 | 7,030 | 2,270 | 32.3 |
| 391 Newcastle upon Tyne | 20,030 | 6,450 | 32.2 | 17,810 | 4,210 | 23.7 |

Annual Schools' Census

### Homeless Young People

**Charles Hendry:** To ask the Secretary of State for Education and Skills what arrangements are made for the continuation of social services support for a young person who has been refused a home by his or her family and has not been made ward of court, once he or she becomes 16 years old. [155640]

**Margaret Hodge:** Local authority social service departments have a range of powers and duties under the Children Act 1989 to provide services for children in need in their area.

A general duty is placed on local authorities by section 17 of the Children Act 1989 to safeguard and promote the welfare of children in their area who are in need by providing a range of services appropriate to those needs. The definition of a child in need is set out in section 17(10) of the Act, which applies to all children, regardless of whether or not they reside with their family.

There is also a duty under section 20 of the Children Act to provided accommodation for children in need if necessary.

### Jenny Gray

**Tim Loughton:** To ask the Secretary of State for Education and Skills pursuant to his answer of 30 January 2004, *Official Report*, columns 579–80W, under which section of the Code of Practice on Access to Information he declined to provide the information requested; and whether Jenny Gray is a full-time employee of his Department. [153588]

**Mr. Charles Clarke** *[holding answer 6 February 2004]:* I refer the hon. Member to exemption 12 of the Code of Practice on Access to Government Information. In line with this exemption, it is not our policy to disclose information on individual civil servants that may constitute or could facilitate an invasion of privacy.

### Learning and Skills Councils

**John Mann:** To ask the Secretary of State for Education and Skills what instruction he gives learning and skills councils on the extent of their written communications with hon. Members. [155240]

**Alan Johnson:** As an executive Non Departmental Public Body, the Learning and Skills Council (LSC) comes within the remit of "The Code of Practice on / Access to Government Information". This includes a requirement to answer requests for information, and to provide full facts and analysis of major policy proposals.

As part of the Management Statement agreed with my Department, the LSC is required to answer correspondence and questions of an operational nature from hon. Members. We are also keen for the LSC to engage with hon. Members on major issues affecting post-16 learning within their constituencies.

### Medical Students

**Bob Russell:** To ask the Secretary of State for Education and Skills what steps he is taking to provide additional places for UK students wishing to train as a medical practitioner; and if he will make a statement. [155882]

**Alan Johnson:** The Higher Education Funding Council for England allocated, between 1999 and 2001, a total of 2,145 additional medical school places to higher education institutions. Eligible medical students have their fees paid by the NHS for the fifth and, where there is one, sixth years of their courses and receive a means-tested NHS Bursary of up to £2703 (in London) in those years. In addition, they may receive a maintenance loan under the student support regulations.

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Education and Skills how many days on average his Department took in Session 2002–03 to give a substantive answer to a Parliamentary Question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155929]

**Mr. Charles Clarke:** At present, our records system does not allow us to retrieve the information requested without incurring disproportionate cost.

### School Capital Investment

**Mr. Cousins:** To ask the Secretary of State for Education and Skills how much was spent on new capital investments in each school in the City of Newcastle upon Tyne including private finance initiative projects in each year since 1997–98; and what type of project it was in each case. [154616]

**Mr. Miliband:** The majority of capital support is allocated to schools and local education authorities (LEAs) by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about all the capital investments in each school; this should be held locally. The following table sets out the capital support made by this Government to Newcastle upon Tyne LEA since 1997–98, in total and by programme, including devolved formula capital grants to each school.

We have also allocated indicative funding for future years worth approximately £70 million in 2004–05 (this includes £60 million of PFI credits) and £5 million in 2005–06. Additionally we have just announced that Newcastle LEA will be part of the first wave of Building Schools for the Future commencing in 2005–06. We will be working with the LEA over the coming months to confirm details and funding of their plans.

## Specialist Schools

**Mr. Andrew Turner:** To ask the Secretary of State for Education and Skills in which year each *(a)* language college and *(b)* specialist school achieved specialist status; how many and what percentage of pupils at each obtained five A*-C GCSEs in each year since two years before it achieved specialist status; and how many language (i) GCSEs at A*-C grade and (ii) A-levels were obtained at each in each year since two years before it achieved specialist status. [155270]

**Mr. Miliband** *[holding answer 23 February 2004]:* The information requested has been placed in the Library.

The list below shows the year in which each specialist school, including Language Colleges (a specialism which has existed since 1995), achieved specialist status. The list also shows how many and what percentage of pupils at each school obtained five A*-C grades at GCSE in each year from two years before it achieved specialist status.

The information requested regarding language GCSEs and A-Levels is not published at school level. To collate this information would involve disproportionate costs.

**Mr. Andrew Turner:** To ask the Secretary of State for Education and Skills in which year since 1992 each specialist school was established as such; in which year each of those schools which ceased to have specialist status did so; and what the value is of *(a)* capital grants and *(b)* revenue funding to each school consequent upon its specialist status since its establishment. [155276]

**Mr. Miliband** *[holding answer 23 February 2004]*: The following table shows the number of schools designated, re-designated, or de-designated as specialist schools, by specialism, for each of the years since the programme began in 1994. Funding information is not readily available at school level for each of these years. However, the table shows the overall level of capital grants and recurrent funding for each year.

Designated specialist schools receive a one-off £100,000 capital grant and £126 per pupil per annum for four years. At current rates, a typical specialist school of 1,000 pupils would receive £100,000 capital funding and £504,000 revenue funding over a four-year phase.

[1] The term re-designation is used here to indicate a school which was de-designated but subsequently regained specialist status.

*Note:*

The first specialist schools became operational in September 1994 under the technology specialism. Further specialisms have since been added with the first language colleges becoming operational in September 1995 followed by sports and arts colleges in September 1997. The first business and enterprise, science, maths and computing and engineering colleges became operational in September 2002. The first music and humanities colleges were designated in January 2004 but do not become operational until September 2004.

*Funding (calculated by financial year)*

## Statutory Sick Pay

**Mr. Goodman:** To ask the Secretary of State for Education and Skills how many people employed in his Department have claimed statutory sick pay for *(a)* less than one week, *(b)* one to three weeks, *(c)* four to six weeks, *(d)* seven to 12 weeks, *(e)* 13 to 20 weeks and *(f)* 21 to 28 weeks in each year since 1997. [148625]

**Mr. Charles Clarke:** The numbers of staff in my Department who have claimed statutory sick pay during the years 2000 to 2003 are as follows. The numbers include DfES staff working in the Government office regions. No records are held for the years prior to this.

| | 2000 | 2001 | 2002 | 2003 |
|---|---|---|---|---|
| Less than one week | 598 | 667 | 692 | 694 |
| One to three weeks | 448 | 424 | 488 | 481 |
| Four to six weeks | 100 | 128 | 156 | 139 |
| Seven to 12 weeks | 93 | 121 | 131 | 120 |
| 13 to 20 weeks | 65 | 82 | 111 | 98 |
| 21 to 28 weeks | 41 | 64 | 84 | 53 |
| Total | 1,345 | 1,486 | 1,632 | 1,585 |

## Student Finance

**Chris Grayling:** To ask the Secretary of State for Education and Skills what estimate he has made of the number of graduates in receipt of income contingent student loans who will take career breaks to bring up children; and what assumptions about the consequent subsidy costs have been included in the Government's overall estimates for student loan subsidy provisions. [155374]

**Alan Johnson:** Our estimates of the cost of subsidising both maintenance and fee loans in 2006–07 terms were published in the Regulatory Impact Assessment associated with the HE Bill. The economic cost of providing student loans is made up of the interest rate subsidy on loans together with the cost of any loans that are never repaid (e.g. due to death, permanent disability or loans being written-off after 25 years). Modelling this cost requires taking into account a great number of factors. Important factors include:

(i) The number of students in Higher Education;

(ii) The parental income of those students (or their own income if independent);

(iii) The proportions of students studying in London, at home or elsewhere;

(iv) The propensity of students to take out each loan;

(v) The distribution of fees actually charged by Higher Education institutions from 2006–7;

(vi) The distribution of lengths of courses (based on internal modelling);

(vii) The pattern of withdrawals from HE courses (based on internal modelling);

(viii) The earnings profiles of graduates; and

(ix) Macroeconomic conditions.

In relation to factor (vii), the modelling of the cost of providing student loans uses Labour Force Survey (LFS) data to inform the probability of borrowers being in employment, unemployment, or economically inactive. We have used the LFS data to take account of those people who take career breaks—to raise children or for other reasons. The impact of those who take career breaks to raise children is thus reflected in the modelling but it is not possible to estimate how many borrowers will take career breaks for this reason—or to estimate the cost associated with this factor—in isolation.

**Chris Grayling:** To ask the Secretary of State for Education and Skills what financial assumptions were made in calculating the provision of £25 million to cover the cost of writing off outstanding student loans after 25 years. [155375]

**Alan Johnson:** Our estimates of the cost of subsidising both maintenance and fee loans in 2006–07 terms were published in the Regulatory Impact Assessment associated with the HE Bill. The economic cost of providing student loans is made up of the interest rate subsidy on loans together with the cost of any loans that are never repaid (e.g. due to death, permanent disability or loans being written-off after 25 years). Modelling this cost requires taking into account a great number of factors. Important factors include:

(i) The number of students in Higher Education;

(ii) The parental income of those students (or their own income if independent);

(iii) The proportions of students studying in London, at home or elsewhere;

(iv) The propensity of students to take out each loan;

(v) The distribution of fees actually charged by Higher Education institutions from 2006–7;

(vi) The distribution of lengths of courses (based on internal modelling);

(vii) The pattern of withdrawals from HE courses (based on internal modelling);

(viii) The earnings profiles of graduates; and

(ix) Macroeconomic conditions.

The Regulatory Impact Assessment estimated the cost of writing-off loans at 25 years at £30 million. This is the extra economic cost of not collecting any repayments that would have been made on loans older than 25 years.

### Temporary Mobile Classrooms

**Simon Hughes:** To ask the Secretary of State for Education and Skills how many schools in each London borough make use of temporary mobile classroom accommodation; and what the timetable for replacement of this accommodation is in each borough. [155091]

**Mr. Miliband** *[holding answer 23 February 2004]:* The following table shows the number of schools with temporary classrooms in each London borough. It is based on data provided to the Department in May 2002, by local education authorities as part of the asset management planning process.

The bulk of schools' capital is now allocated by formula to authorities and schools so that they can address their local priorities, including the replacement of temporary accommodation in poor condition. Prioritisation of need is through asset management planning and on an open and rigorous consultative process, based on the needs of all schools. The Department does not collect detailed information on investment plans or timetables of authorities.

*Numbers of schools in London boroughs with temporary building*

| *LEA* | *Number of schools with temporary buildings* |
|---|---|

Where no figures are shown, either no data have been supplied by LEAs, or there are clearly significant data anomalies.

## TRADE AND INDUSTRY

### Bankruptcies

**David Davis:** To ask the Secretary of State for Trade and Industry how many individuals in the East Riding of Yorkshire were declared bankrupt in each of the past five years. [154563]

**Mr. Sutcliffe:** Bankruptcy figures are only available on the basis of the Official Receivers Office dealing with the cases, therefore it is not possible to separate bankruptcies pertaining to the East Riding of Yorkshire exactly. The following table gives annual figures for the number of individual bankruptcies dealt with by the Official Receivers Office in Hull, which covers the county courts of Beverley, Great Grimsby, Grimsby, Hull, Kingston-upon-Hull, Malton, Scarborough, Scunthorpe, Whitby and York. The Hull Office covers the majority of the East Riding of Yorkshire but also includes a number of county courts from neighbouring counties/unitary authorities. A small part of the East Riding of Yorkshire (the county court of Goole) is administered by the Official Receivers Office at Sheffield.

*Individual Bankruptcies Registered at the Official Receivers Office in Hull 1999–2003*

| | *Number* |
|---|---|
| 1999 | 690 |
| 2000 | 796 |
| 2001 | 907 |
| 2002 | 926 |
| 2003 | 906 |

**Mr. Swire:** To ask the Secretary of State for Trade and Industry how many *(a)* personal and *(b)* corporate bankruptcies there were in East Devon in each of the past seven years. [155297]

**Mr. Sutcliffe:** Insolvency figures are only available on the basis of the Official Receivers Office dealing with the cases, therefore it is not possible to identify precisely

insolvencies in East Devon. Company insolvencies are made up of Company Compulsory Liquidations and Creditors Voluntary Liquidations of which only Company Compulsory Liquidations are available on an Official Receivers Office basis. The following table gives annual figures for the number of individual bankruptcies and company compulsory liquidations dealt with by the Official Receivers Office in Exeter, which covers the county courts of Barnstaple, Exeter, Newton Abbott, Shaftsbury, Torquay and Yeovil.

*Individual bankruptcies and company compulsory liquidations registered at the Official Receivers Office in Exeter*

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|---|---|
| Individual insolvencies | 494 | 628 | 761 | 566 | 795 | 919 | 902 |
| Company compulsory liquidations | 46 | 51 | 56 | 43 | 38 | 64 | 33 |

**Simon Hughes:** To ask the Secretary of State for Trade and Industry how many *(a)* personal and *(b)* company bankruptcies in (i) Greater London and (ii) each London borough there were in each of the last three years for which figures are available; what assessment she has made of recent trends; and if she will make a statement. [155275]

**Mr. Sutcliffe** *[holding answer 23 February 2004]:* Insolvency figures are only available on the basis of the Official Receivers Office dealing with the cases, therefore it is not possible to identify precisely insolvencies in Greater London or in individual boroughs. Company insolvencies are made up of Company Compulsory Liquidations and Creditors Voluntary Liquidations of which only Company Compulsory Liquidations are available on an Official Receivers Office basis. The following table gives annual figures for the number of individual Bankruptcies and Company Compulsory Liquidations dealt with by the Official Receivers Office in London, which covers the county courts of Barnet, Bloomsbury and Marylebone, Bow, Brentford, Chingford, Clerkenwell, Edmonton, Lambeth, Marylebone, Bloomsbury, Mayor's and City of London, Shoreditch, Wandsworth, West London, Westminster and Willesden.

*Individual Bankruptcies and Company Compulsory Liquidations Registered at the Official Receivers Office in London*

| | *2001* | *2002* | *2003* |
|---|---|---|---|
| Individual Bankruptcies | 1,427 | 1,457 | 1,933 |
| Company Compulsory Liquidations | 911 | 1,147 | 864 |

### Broadband

**Simon Hughes:** To ask the Secretary of State for Trade and Industry how many people in London have access to *(a)* broadband internet via satellite service and *(b)* average variable cost broadband; and if she will make a statement. [155272]

**Mr. Timms** *[holding answer 23 February 2004]:* Broadband internet access via satellite is available to the vast majority of households across the UK, including in London. Terrestrial broadband internet access services, such as ADSL and cable modem, which are generally available at less than £30 per month, are available to 85 per cent. of households in the UK including the vast majority of households in the London area.

### Business Link

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 2 February 2004, *Official Report,* column 642W, on Business Link, when her Department will publish the gross value-added measure for Business Link operators. [155356]

**Mr. Win Griffiths:** Initial Gross Value Added (GVA) data, covering the period April to June 2004, will be available from July 2004.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 2 February 2004, *Official Report,* column 642W, on Business Link, how many studies have been commissioned; what their titles are; and when they were published. [155359]

**Mr. Timms:** Since the introduction of Business Link there have been 17 studies which are available from the Small Business Service Analytical Unit (0114–279–4442):

KPMG Evaluation of Business Links: Final Report (1994)

MORI Business Links: the business advice market among small and medium sized enterprises (1994)

MORI Business Links (Wave 2): the business advice market among small and medium sized enterprises (March 1995)

MORI Business Links (Wave 3): Business advice among SME and the 'Business Link' campaign. (Sept, 1995)

MORI Business Links (Wave 4): Business advice among SME and the 'Business Link' campaign (April, 1996)

MORI Business Links (Wave 4): Business advice among SME and the 'Business Link' campaign (Sept, 1997)

Business Planning and Research International Mystery Enquirer Programme 1995–96. (1997)

Ernst and Young Evaluation of Business Links (1996)

Ernst and Young Business Link Follow-up study (1997)

Kingston Business School The Business Link Tracker Study, Published at 24th ISBA

Small Firms Policy and Research Conference proceedings (ISBN 9000862 45X)

Public and Corporate Economic Consultants Business Link—Value for Money Evaluation (1999)

ECOTEC Evaluation of Innovative Business Support Projects (1999) York Consulting Ltd Early Assessment of Centres of Expertise (2000)

CEEDR/Data Build Evaluation of High Growth Start up Programme (2002), Published at 25th ISBA Small Firms Policy and Research Conference proceedings (ISBN 1 901177 03 3) (2002)

Business Support Needs Study (June 2001)

Mystery Enquirer study of Business Link National Contact Centre (April 2002)

Mystery Enquirer study of Business Link Website (April 2002)

### Correspondence

**Mr. Steen:** To ask the Secretary of State for Trade and Industry when she will reply to the letter from the hon.

Member for Totnes of 9 December 2003 concerning Mr. Trevor Sams of Totnes and business practices on the Internet. [155099]

**Ms Hewitt** *[holding answer 23 February 2004]:* My Department has no record of receiving your letter of 9 December. We now have a copy, and I will ensure you receive a response in due course.

### Departmental Functions (Beer)

**Mr. Grogan:** To ask the Secretary of State for Trade and Industry what her Department's policy is on the serving of beer at official functions. [155784]

**Ms Hewitt:** The decision whether to serve beer at official functions is made on an event by event basis depending upon the purpose, nature and format of the function.

### EU (High Level Group)

**Mr. Cousins:** To ask the Secretary of State for Trade and Industry if she will list outstanding European Union issues due to come to the High Level Group under the International Accountancy Standards Board; what the United Kingdom position on each issue is; and what the membership of the High Level Group is. [154558]

**Mr. Sutcliffe:** The high level European consultative group set up to advise the International Accounting Standards Board will be made up of senior officials from European banking, securities and insurance regulators and from the accounting, banking and insurance industries. The European Commission will be an observer on the group. The group will focus specifically on certain basic issues related to the application of accounting standards to financial institutions. Copies of the press notice announcing the group have been deposited and are available for reference in the Libraries of the House.

The Government take no position on the individual technical issues but do believe that it is important for a complete package of accounting standards to be available to companies as soon as possible in view of the move to International Accounting Standards from 2005.

### Fireworks

**Mr. Evans:** To ask the Secretary of State for Trade and Industry how many illegal fireworks were seized in *(a)* 2003 and *(b)* the past five years. [154887]

**Mr. Sutcliffe** *[holding answer 23 February 2004]:* The question is taken to refer to three areas where fireworks could be illegal, those are: *(a)* fireworks seized that do not comply with the British Standards (BS 7114); *(b)* those seized at port by Customs and Excise; and, *(c)* those found to be illegally stored (in unregistered premises).

With regard to *(a)*, such information is not centrally available from Trading Standards Departments.

With regard to *(b)*, Customs and Excise have seized the amounts set out in the following table. The figures provided are for a three year period—as information prior to April 2000 is not available.

| | *Individual fireworks* | *Boxes of fireworks* |
|---|---|---|
| April 2000 to March 2001 | 2,681 | 8 |
| April 2001 to March 2002 | 142 | 5 |
| April 2002 to March 2003 | 702 | 27 |
| March 2003 to December 2003 | 17,872 | 24 |

The large number of fireworks seized last year can be put down to a single seizure of approx 3.5 tons (17.4000 individual fireworks) which were detected upon entry into the UK.

The figures compiled by Customs and Excise also include flares.

Finally, with regard to *(c)*, I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State for Work and Pensions on 10 November 2003, *Official Report*, column 146W.

### Grocery Market

**John Mann:** To ask the Secretary of State for Trade and Industry what assessment the Office of Fair Trading has made of the potential impact of encroachment by multiple stores into the convenience sector of the grocery market on *(a)* sustainability of the industry and *(b)* the independent retailers and small groups within it. [155241]

**Mr. Sutcliffe:** These are matters for the Office of Fair Trading (OFT) as an independent competition authority. I have asked the OFT to respond to you directly on the points raised.

### Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for Trade and Industry how many speeches she made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156155]

**Ms Hewitt:** I have spoken, in my Ministerial capacity, at a number of events during this period and my keynote speeches are available on the DTI website.

### National Minimum Wage

**Mr. Willis:** To ask the Secretary of State for Trade and Industry what research her Department has commissioned since 1998–99 to assess the impact of the National Minimum Wage on 16 to 17-year-olds participating in Government-supported training; and if she will make a statement. [155438]

**Mr. Sutcliffe** *[holding answer 23 February 2004]:* Work on the position of 16 to 17-year-old workers, including those on Government-supported training, is taking place in two strands. First, the Government asked the independent Low Pay Commission in spring 2003 to consider the case for introducing a minimum wage rate for 16 to 17-year-old workers. I understand that the Commission have commissioned research and consulted widely on this issue. A copy of the Government's evidence to the Commission can be found at www.dti.gov.uk/er/nmw. We expect to receive the Commission's report by the end of this month and then to publish it, with the Government's response, around the middle of March.

The Government have also been conducting a wider review which is looking at the financial incentives for young people to participate in education and training and the system of financial support for young people. We expect this review to report in the spring.

### Offshore Oil and Gas Facilities

**Mr. Nicholas Brown:** To ask the Secretary of State for Trade and Industry what arrangements are in place to enforce the provisions of the EU Social Chapter throughout the supply chain in construction projects for Britain's offshore oil and gas industries; and what the relationship is between these obligations and her Department's licensing regime. [154269]

**Mr. Sutcliffe:** The statutory employment rights provided by the Directives which the Government have implemented under the Social Chapter since 1997 extend to all those working in the United Kingdom in these industries.

Implementation of Directives under the EU Social Chapter does not impact the administration of the licensing regime under the Petroleum Act 1998.

### Qualifications

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the balance between the supply of *(a)* high, *(b)* intermediate and *(c)* lower level qualifications in the workforce and employers' requirements for qualifications across the UK. [155288]

**Ms Hewitt:** The evidence gathered to inform the National Skills Strategy highlighted the fact that 56.9 per cent. of the UK workforce have lower level qualifications, 27.7 per cent. intermediate and 15.4 per cent. higher level.

Understanding employers demand for skills and qualifications and encouraging effective deployment of skills in the workplace are key to my Department's agenda. I will continue to work with the Sectors Skills Development Agency and the Skills for Business Network to ensure that employers have the skills they require both now and in the future.

### Scientists (Productivity)

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will make a statement on levels of productivity amongst scientists in the UK. [155258]

**Ms Hewitt:** A recent international benchmarking study commissioned by my Department confirmed that in addition to the high quality of UK science and UK scientists are highly productive. On widely accepted measures of scientific productivity UK leads the G8 in terms of both papers published and citations acquired per researcher in international scientific journals.

### Small and Medium-sized Enterprises

**Ms Walley:** To ask the Secretary of State for Trade and Industry how many small and medium-sized enterprises she estimates have started business in each of the last 10 years; and if she will make a statement. [155585]

**Mr. Timms:** Value added tax (VAT) registrations are the best official guide to the pattern of business start-ups. These cover businesses of all sizes. Large changes in the level of the VAT threshold mean that data before 1994 is unavailable on a consistent basis with the current series.

The number of businesses registering for VAT in each calendar year from 1994 to 2002 in the UK is as follows:

| | *VAT registrations in the UK* |
|---|---|
| 1994 | 170,000 |
| 1995 | 165,810 |
| 1996 | 171,005 |
| 1997 | 187,690 |
| 1998 | 187,515 |
| 1999 | 181,370 |
| 2000 | 184,035 |
| 2001 | 174,620 |
| 2002 | 175,800 |

*Source:*
Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2002, Small Business Service

While the number of new VAT registrations peaked in 1997 there were still more registrations in each year from 1997 to 2002 than in any of the three years proceeding this period. The reason why VAT registrations have fallen since 1997 is not clear. Many factors influence the number of new VAT registrations. These include global economic conditions and attractiveness of salaried employment compared with self-employment. A stable economy with low interest rates, coupled with a range of government initiatives to help start-ups, has assisted the net growth of business in the UK—at the start of 2003 there were 117,000 more VAT registered businesses than at the start of 1997.

### University Science Funding

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* current and *(b)* future funding levels for university scientists in the UK. [155261]

**Ms Hewitt:** The Government has invested heavily in the science and engineering base, of which the research conducted in universities forms the larger part. In the current spending review period the science budget is growing at 10 per cent. year-on-year in real terms, building on the average 7 per cent. growth over the previous spending review period, and reaching just short of £3 billion by 2005–06. The recent announcement by the Chancellor of the Exchequer of his intention to develop a 10-year investment framework for science and investment, to be announced at the time of the next spending review settlement, signals the Government's continuing long-term commitment to science.

Further details of current and future funding levels by Government Departments and Research Councils are set out in 'The Forward Look 2003 Government funded science, engineering and technology', copies of which are available in the Libraries of the House.

### Working Time Directive

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the

potential cost of prohibiting employees from working longer than an average 48 hours per week to *(a)* small businesses and *(b)* the UK economy as a whole. [153916]

**Mr. Sutcliffe:** Employers are likely to respond in a variety of ways if legislation were passed to prevent employees from working longer than 48 hours on average. Firstly employers may absorb the curtailment in working hours either through reducing output or realising productivity gains through changed work arrangements. Alternatively, employers may replace in whole or part the lost hours by recruiting more staff or asking existing staff to work longer hours (while remaining below 48 on average).

The extent to which employers do not compensate employees for lost hours and reductions in overtime pay would partly offset employers' costs in replacing lost long hours worked. This makes any precise estimate of the cost of prohibiting employees working longer hours difficult.

However, DTI estimate that if one quarter of the hours worked over 48 per week were replaced by employers at extra cost then the value of those hours would be around £3 billion per annum. If three-quarters of long hours worked were replaced at extra cost then the value of these hours is estimated at around £9 billion per annum.

Estimates for small businesses are not available.

# Written Answers to Questions

*Wednesday 25 February 2004*

## LEADER OF THE HOUSE

### Parliamentary Questions

**Llew Smith:** To ask the Leader of the House if he will take steps to ensure that the texts of ministerial letters sent to hon. Members in respect of written answers are printed in the *Official Report*. [156641]

**Mr. Hain:** I have recently written to the Speaker assuring him that, following representations from hon. Members, my office is actively engaged with the House authorities and departments in exploring how we can best reduce the number of "will write" answers and make any subsequent ministerial letters more accessible.

## TRANSPORT

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Transport how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary Question for Ordinary Written Answer; and what the greatest number of days taken to answer such a Question was. [155932]

**Mr. McNulty:** In the Session 2002–03, the Department for Transport received 2,785 parliamentary questions for Ordinary Written Answer, of which 2,522 (91 per cent.) were answered on time. Records on average processing times for parliamentary questions are not collected and to compile such data would incur disproportionate cost. The greatest number of days taken to answer an Ordinary Written Question was 44 sitting days.

### Speed Cameras

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport if he will make a statement on the relative effectiveness of *(a)* inconspicuous speed cameras accompanied by high-profile advertising and road signs and *(b)* single brightly-coloured speed cameras. [153021]

**Mr. Jamieson** *[holding answer 10 February 2004]:* The objective of the safety camera programme is to reduce injuries and crashes by deterring excessive speed at places with a history of speed related accidents. Visible cameras, clearly signed, help achieve this. Drivers can also obtain information on the location of cameras from local safety camera partnerships' websites.

**Tim Loughton:** To ask the Secretary of State for Transport how much money raised in fines from speed cameras during the last year for which records are available was spent in *(a)* West Sussex and *(b)* the East Worthing and Shoreham constituency. [154400]

**Mr. Jamieson:** Information on all the "Safety Camera Partnerships" expenditure for the financial year 2002–03 is being prepared and will be published shortly. This was the first year in which the West Sussex Safety Camera Partnership was operating.

We do not hold statistical revenue information broken down by parliamentary constituency areas. The hon. Member may wish to contact the West Sussex safety camera partnership for more detailed information.

### Speed Limits

**Norman Baker:** To ask the Secretary of State for Transport what changes to *(a)* emission levels, *(b)* fuel consumption, *(c)* accident rates and *(d)* severity of accidents he estimates would result from an increase in the motorway speed limit to 80mph. [155498]

**Mr. Jamieson** *[holding answer 23 February 2004]:* Although no detailed estimates are available for such an increase, there is evidence to indicate that emission levels, fuel consumption, accident rates and severity of accidents would all rise.

### Road Resurfacing

**Mrs. May:** To ask the Secretary of State for Transport what percentage of the trunk road network has been *(a)* re-surfaced and *(b)* re-surfaced with lower noise surfacing in each of the last three years. [155070]

**Mr. Darling:** Government policy is to encourage the implementation of technologies that reduce the noise arising from road traffic wherever these are cost effective and do not have adverse consequences on safety. Categorisation of sites for low noise surfacing is primarily based on maintenance need. In addition, we have criteria for categorisation for noise reduction of roads with concrete surfaces. We announced these criteria on 17 October 2001; they are:

1. that wherever possible the application of quieter surfaces will fit in with normal maintenance needs;

2. that priority will be given to those sites where treatment would benefit the greatest number of people;

3. that the works will be carried out in such a way as to minimise disruption to general public and users of the network;

4. that priority will be given to roads, opened since June 1988, where actual noise levels have turned out to be significantly higher than predicted at the time of Public Inquiry.

Priority is given to road surfaces that are deteriorating and to locations where road safety is an issue. Where the resurfacing is specifically for noise reduction purposes priority will be given to those cases in which the actual noise levels exceed those predicted by at least three decibels, or where more than 100 properties per kilometre are affected by excess noise.

During 2000–01 4.3 per cent. of the Highways Agency's core network was resurfaced including 3.5 per cent. with quieter surfacing. During 2001–02 the figures were 4.2 per cent. and 3.8 per cent. respectively, and in 2002–03 5.5 per cent. and 5.0 per cent. respectively. In the current year, 2003–04, the Highways Agency estimate these figures will be 5.0 per cent. and 4.6 per cent. respectively.

### Vehicle Insurance/Taxation

**Mr. Grogan:** To ask the Secretary of State for Transport what measures his Department is taking to reduce the number of motor vehicles on the roads *(a)* without insurance and *(b)* without road taxation. [155791]

**Mr. Jamieson:** The Department is determined to take effective action to tackle the problem of uninsured driving,. To that end, we commissioned last August an independent review of motor insurance with uninsured driving as a key consideration. The reviewer, Professor David Greenaway of Nottingham University, is expected to report in April. We shall take a keen interest in his recommendations, with a view to taking appropriate action as soon as practicable.

We have considerably tightened the enforcement of Vehicle Excise Duty through the "continuous registration" package of measures. By introducing continuous registration and using modern technology, we are improving the accuracy of the Driver and Vehicle Licensing Agency's vehicle register to the benefit of law enforcement and the honest motorist. To deal with short term Vehicle Excise Duty evasion, we have introduced fines for those over a month overdue with relicensing their vehicle. We are tackling those vehicles already outside the system of registration and licensing with enhanced enforcement using wheel clamping and ANPR cameras. By enhancing the quality of the vehicle register these measures are intended to assist the police in the fight against crime, and to assist local authorities in tracking down and enforcing costs against those who abandon vehicles.

**Paul Flynn:** To ask the Secretary of State for Transport what measures he plans to take to reduce the number of uninsured drivers. [155888]

**Mr. Jamieson:** The Department is determined to take effective action to tackle the problem of uninsured driving. To that end, we commissioned last August an independent review of motor insurance with uninsured driving as a key consideration. The reviewer, Professor David Greenaway of Nottingham University, is expected to report in April. We shall take a keen interest in his recommendations, with a view to taking appropriate action as soon as practicable.

## WALES

### Structural Funding

7. **Chris Grayling:** To ask the Secretary of State for Wales what recent discussions he has had with the Treasury on matching the funds of Objective 1 payments. [155774]

**Mr. Hain:** I have regular discussions with the Treasury on a wide range of subjects.

### Crime

9. **Mrs. Betty Williams:** To ask the Secretary of State for Wales what representations he has received about the crime figures in North Wales. [155776]

**Mr. Touhig:** My right hon. Friend and I regularly discuss crime figures with various interested parties.

Recently, we have received correspondence from the Chief Constable of North Wales, clarifying the impact of important changes in the reporting of crime, and pointing out that the British Crime Survey's latest findings show that crime in England and Wales as a whole has gone down by 25 per cent. since 1997.

### NHS Funding

10. **Sir Nicholas Winterton:** To ask the Secretary of State for Wales what recent discussions he has had with the National Assembly for Wales Government on the funding of the NHS in Wales. [155777]

**Mr. Touhig:** I regularly meet the Assembly Health Minister to discuss the NHS and health provision in Wales including funding.

### Renewable Energy

11. **Ian Lucas:** To ask the Secretary of State for Wales if he will make representations to the Chancellor of the Exchequer to provide fiscal incentives to support the manufacture of renewable energy products in Wales. [155778]

**Mr. Hain:** The Government attaches great importance to the renewable energy industry and will continue to support the development of all forms of alternative energy producing technology as outlined in our Energy White Paper.

### Prisoners

12. **Mr. Robathan:** To ask the Secretary of State for Wales how many Welsh residents are in English prisons. [155780]

**Mr. Touhig:** Information on a prisoner's place of residence prior to sentence or remand in custody is not held centrally.

At 30 November 2003, there were 1,580 prisoners in English prisons who had been committed or sentenced by courts in Wales.

### Toxic Waste

13. **Mr. Clifton-Brown:** To ask the Secretary of State for Wales what assessment he has made of the transfer of toxic waste from Wales to England. [155781]

**Mr. Touhig:** I understand that the Assembly intends to consult later this year upon amendments to the existing legislation controlling the movement of hazardous wastes.

### Cockle Regulation

14. **Mr. Ben Chapman:** To ask the Secretary of State for Wales what recent discussions he has had with the First Secretary regarding the Dee Cockle Regulation Order. [155782]

**Mr. Touhig:** My right hon. Friend has regular meetings with the First Secretary and I meet the Assembly Secretary for Environment, Planning and Countryside to discuss a variety of issues, including the Welsh cockle industry.

### Antisocial Behaviour

**Huw Irranca-Davies:** To ask the Secretary of State for Wales what discussions he has had with the Home Office on the use of legislation to tackle anti-social behaviour in Wales. [155779]

**Mr. Touhig:** My right hon. Friend and I have regular discussions with Ministerial colleagues about matters affecting Wales.

Last October, the Government published its "Tackling Anti-Social Behaviour Action Plan", setting out priority areas for reducing anti-social behaviour over the next two or three years. Key areas for intervention include: nuisance neighbours, environmental crime and begging.

### Flooding

**Miss McIntosh:** To ask the Secretary of State for Wales what discussions he has held with the First Secretary of the National Assembly for Wales on flooding in Wales. [155969]

**Mr. Hain:** I have regular discussions with Assembly Ministers about issues affecting Wales. It is for flood and coastal defence authorities to bring forward proposals to improve flood defences where required. The Assembly offers financial assistance towards the cost of these works via grant schemes On 6 February, I visited homes in Ynysmeudwy and Pontardawe which were affected by a flash flood and saw, at first hand, the effects of flooding on families.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Wales what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155519]

**Mr. Touhig:** None.

## PRIME MINISTER

### Iraq

**Norman Lamb:** To ask the Prime Minister what *(a)* opinion polling and *(b)* market research projects have been carried out by the Government on the issue of military action against Iraq since 2001, broken down by financial year; what the (i) title and (ii) nature of these projects were; how much each of these projects cost; what the findings of each project were; where the findings have been published; and if he will make a statement. [153466]

**Mr. Caplin:** I have been asked to reply.

No opinion polling or market research projects have been centrally commissioned by the Ministry of Defence specifically on the issue of military action against Iraq. However, we commission surveys of public perceptions of the Ministry of Defence, the armed forces and their equipment. As part of this work we monitor the impact of recent operations.

I am withholding information on the costs of these surveys under Exemption 13 of the Code of Practice on Access to Government Information (commercial confidences).

**Norman Lamb:** To ask the Prime Minister (1) what assessment he has made of whether Iraq could launch a chemical, biological or nuclear attack against the UK mainland before publication of the September 2002 dossier; and if he will make a statement; [155975]

(2) what assessment he has made of whether Iraq had considered using chemical or biological agents in terrorist attacks before military action was taken against Iraq; and if he will make a statement; [155976]

(3) what assessment he made before military action was taken against Iraq, of Iraq's ability to produce chemical and biological weapons while the UN inspection team was in Iraq; and if he will make a statement. [155977]

**The Prime Minister:** I refer the hon. Member to the answers I gave to the hon. Member for Worthing West (Mr. Bottomley) in my statement on 24 September 2002, *Official Report*, column 23 and to my hon. Friend, the Member for Linlithgow (Mr. Dalyell), at Prime Minister's Questions on 4 June 2003, *Official Report*, columns 155–156 and in a written answer on 15 October 2003, *Official Report*, column 234W.

**Norman Lamb:** To ask the Prime Minister (1) what assessment he made of whether Iraq *(a)* had provided chemical and biological weapons to al-Qaeda and *(b)* intended to conduct chemical and biological terrorist attacks before military action was taken against Iraq; and if he will make a statement; [156006]

(2) what assessment he made of the effect of regime collapse in Iraq on the risk of transfer of chemical and biological weapons materials to terrorists; and if he will make a statement; [156007]

(3) what assessment he made of the effect of military action against Iraq on the threat posed by al-Qaeda before taking such action; and if he will make a statement. [156008]

**The Prime Minister:** I refer the hon. Member to the answer I gave to my hon. Friend, the Member for Linlithgow (Mr. Dalyell), on 15 October 2003, *Official Report*, column 234W.

## DEFENCE

### Iraq

**Mr. Kidney:** To ask the Secretary of State for Defence, how many British Service personnel *(a)* have committed suicide in Iraq or since returning to the UK from Iraq and *(b)* have been returned to the UK from Iraq early because of mental stress. [153691]

**Mr. Caplin** *[pursuant to his reply, 12 February 2004, Official Report, c.1636W]:* Further information has come to my attention. The corrected answer to the question is:

During the period 10 January 2003 to 20 December 2003 no member of British service personnel committed suicide in Iraq. Among Service personnel who have since returned to the United Kingdom from Iraq; two have since died and been recorded by a coroner with a suicide or open verdict. An additional five cases have been referred to a coroner for a verdict but the inquests have not yet been heard. There is no change to part *(b)*.

### Operation Telic

**Llew Smith:** To ask the Secretary of State for Defence if he will investigate the concerns expressed by Justin Bowen, a Royal Army Medical Corps Private, and Vicky Bowen, a member of the Queen Alexandra Royal Army Nursing Corps, that their son, Scott, has suffered from Gulf War Syndrome symptoms after both parents served in Operation Telic in the Gulf. [153514]

**Mr. Caplin:** I am unable to comment on individual cases for reasons of medical confidentiality. However, the Ministry of Defence takes the health concerns of Service and former Service personnel very seriously. I therefore urge any personnel who served on Op TELIC who have concerns about health matters to consult their Service medical officer or general practitioner, who will investigate thoroughly. Service and ex-Service personnel are also entitled to be seen at the Gulf Veterans' Medical Assessment Programme (GVMAP) on referral from their doctor. The GVMAP provides as full a diagnosis as possible to veterans, assesses patients and recommends treatment.

The arrangements for dealing with individual health concerns are complemented by a comprehensive package of research into the health of those returning from Op TELIC, announced on 7 May 2003, *Official Report*, column 34WS. Scoping studies have been completed and, in March, a questionnaire will be issued to some 7,000 Op TELIC veterans to seek data on health status and exposures.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Defence what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155524]

**Mr. Caplin:** This information is not held centrally and could only be provided at disproportionate cost.

### Service Medals

**Hugh Robertson:** To ask the Secretary of State for Defence if he will reassess the eligibility criteria for the award of gallantry medals in relation to operations in Iraq. [144012]

**Mr. Caplin** *[holding answer 15 December 2003]:* The eligibility criteria for the award of gallantry medals are a matter for the Committee on the Grant of Honours, Decorations and Medals. The Committee advises Her Majesty the Queen on all matters to do with honours and awards. The Committee has not been asked to consider any changes to the eligibility criteria.

## TREASURY

### European Council of Finance Ministers

**Mr. Hood:** To ask the Chancellor of the Exchequer what the outcome was of the ECOFIN Council held on 10 February; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [154893]

**Mr. Gordon Brown:** I attended ECOFIN on 10 February.

ECOFIN discussed preparation for the Spring Council on 25–26 March. There was broad agreement that further action was needed to reduce the European regulatory burden, promote investment and innovation and improve European labour market flexibility. ECOFIN therefore mandated the Economic Policy Committee (EPC) and the Economic and Financial Committee (EFC) to produce a key issues paper for the spring European Council for adoption at the 9 March ECOFIN.

It was agreed that the next ECOFIN would start with a breakfast discussion of the four Presidencies regulatory reform initiative. I presented the Government's White Paper on the European Economic Reform[1], stressing that while important reforms had been undertaken, a lot of work remained to be done. ECOFIN also adopted conclusions on the Broad Economic Policy Guidelines Implementation Report and endorsed the EPC report on structural reform.

On the Savings Tax Directive, the Commission reported on the progress of its negotiations with Andorra, Monaco, Liechtenstein, San Marino and Switzerland. ECOFIN unanimously supported the Commission's negotiating position and agreed not to accept any further counter-requests. The Council also unanimously agreed that the agreement negotiated with Switzerland should be concluded without further delay.

No votes were taken at the meeting.

[1] HM Treasury, "Advancing long-term prosperity: Economic reform in enlarged Europe". Published February 2004.

### Financial Instruments

**Mr. Tynan:** To ask the Chancellor of the Exchequer if he will make a statement on the Government's policy on its use of derivatives and related financial instruments. [155560]

**Ruth Kelly:** The Government uses derivatives to manage interest rate and foreign exchange risk associated with some of its activities. These instruments may include equity swaps, FRAs, exchange rate forwards, currency and interest rate swaps, as well as interest rate futures. The Government does not use these instruments to speculate in the financial markets.

### Tax Credits

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many people *(a)* have taken-up and *(b)* are entitled to tax credit in (i) the North West, (ii) Lancashire and (iii) Chorley. [156130]

**Dawn Primarolo:** The estimated number of families receiving the Child and/or Working Tax Credits in (i) the North West, (ii) Lancashire and (iii) Chorley at 5 January 2004 is shown in "Child and Working Tax Credit Statistics, Geographical analyses—January 2004", which is on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm. The estimates are based on a sample of cases, and are subject to sampling uncertainty.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Abandoned Vehicles

**Jeff Ennis:** To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles have been recovered in South Yorkshire in each of the last three years. [155017]

**Mr. Morley:** The information requested for the local authorities in South Yorkshire is given in the following table.

| | *Number of abandoned vehicles collected in the financial year* | |
|---|---|---|
| *Local authority* | *2000–01* | *2001–02* |
| Barnsley Metropolitan Borough Council | 248 | 549 |
| Doncaster Metropolitan Borough Council | 410 | 1,313 |
| Rotherham Metropolitan Borough Council | 150 | 410 |
| Sheffield City Council | 100 | 1,421 |
| Total | 908 | 3,693 |

Information on the number of vehicles abandoned was collected for the first time in the 2000–01 Municipal Waste Management Survey. 2001–02 is the most recent year for which data is available from the survey.

### Air Pollution

**Mr. Grieve:** To ask the Secretary of State for Environment, Food and Rural Affairs what aircraft pollution monitoring arrangements are in place in the vicinity of Heathrow airport; and who operates each site. [154472]

**Mr. Morley** *[holding answer 11 February 2004]:* The following three air quality monitoring stations in the vicinity of Heathrow airport are part of Defra's Automatic Air Quality Urban and Rural Monitoring Network (AURN):

London Hillingdon is owned by Defra and has operated since July 1996. It is in a suburban location (Grid Reference: TQ 069786) and monitors ozone, oxides of nitrogen, carbon monoxide, sulphur dioxide and particulate matter ($PM_{10}$).

Brentford Roadside is owned by the London borough of Hounslow and has operated since June 2003. It is in an urban roadside location (Grid Reference: TQ 175781) and monitors oxides of nitrogen and carbon monoxide. (During the period 1997–02, this site operated a short distance from its present location and was named Hounslow Roadside.)

Harlington is owned by BAA and has operated since April 2003. It is in an urban background location (Grid Reference: TQ 083778) and monitors ozone, oxides of nitrogen, carbon monoxide and $PM_{10}$.

These stations measure pollution arising from all sources not just aircraft and provide information on the overall pollutant concentrations to which residents in the area are exposed. Data from all three of these stations are quality assured to national standards.

Further information on these stations, data summaries and hour-by-hour pollutant concentrations can be found at www.airquality.co.uk (the site at Harlington is in the process of being incorporated into this system).

In addition, BAA and local authorities in the vicinity of Heathrow airport operate the following air quality monitoring stations at: Slough Town Hall; Slough, Colnbrook; Hillingdon, South Ruislip; Hillingdon Hospital; Hounslow, Cranford; Hounslow, Chiswick High Rd; and BAA Heathrow, LHR2 site close to northern airport runway.

Information about air quality in the vicinity of Heathrow airport can also be found at www.heathrowairwatch.org.uk

### Asbestos Cement Pipes

**Mr. Ben Chapman:** To ask the Secretary of State for Environment, Food and Rural Affairs what guidance her Department offers on the use of asbestos cement pipes to carry drinking water. [155786]

**Mr. Morley:** Asbestos pipes have been used extensively by the water industry without giving rise to any quality problems. However, the Drinking Water Inspectorate issued an information letter on behalf of the Secretary of State, which reminded water companies of the Asbestos (Prohibitions) (Amendment) Regulations 1999 (SI 1999 No. 2373). These Regulations effectively precluded the use of new asbestos cement pipes to carry drinking water, because of health and safety issues associated with cutting the material, not because of any concerns about possible effects of asbestos pipes on drinking water quality.

### Aviation Emissions

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the Government's target figure of carbon dioxide emissions in 2050 she estimates will be taken up by aviation emissions. [151195]

**Mr. Morley:** The Government estimate that domestic and international aviation emissions could account for 20–25 per cent. of UK carbon dioxide emissions by 2050. This calculation assumes that the 60 per cent. goal specified in the Energy White Paper for the domestic economy is achieved. If international aviation were to be

included in the 60 per cent. goal emissions from other sectors would have to be around 15–20 per cent. below their Energy White Paper target to compensate.

This calculation is based on an assumption of three new runways in the south east and does not reflect the impact of any economic instruments. It further assumes that emissions from all international departures from the UK are allocated to the UK inventory, as there is as yet no international agreement on ways of allocating international aviation emissions.

The above figures do not include the radiative forcing effect which emissions from aviation have at altitude, which are 2–4 times greater than that from carbon dioxide alone.

### Carbon Sinks

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the environmental benefits accruing from the ability of *(a)* sugar beet and *(b)* other crops to act as carbon sinks. [155664]

**Mr. Morley:** Separate estimates for sugar beet are not available but research sponsored by the Department suggests that an upper limit of 0.14 million tonnes carbon per year (Mt C/year) is accumulating in crop biomass as a whole in the UK, mainly as a result of increases in crop yield. This is small compared with the amount of carbon that is sequestered by forests, which is currently around 3 Mt C/year.

Agriculture and forestry sectors probably contribute most effectively to reductions in greenhouse gas emissions through the production of energy crops and wood fuel by displacing use of fossil fuels.

### Child Poverty

**Mrs. Roche:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if she will make a statement. [154368]

**Alun Michael:** I refer my hon. Friend to the answer given by my hon. Friend, the Parliamentary Under-Secretary of State for Work and Pensions (Mr. Pond) on 12 February 2004, *Official Report*, column 1590W.

### Common Agricultural Policy

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on Common Agricultural Policy reform and help provided to poorer farmers under the policy. [153439]

**Alun Michael:** The EU agreed on 26 June 2003 to a radical shift in the Common Agricultural Policy (CAP). In future, the bulk of subsidies will no longer be linked to production, freeing farmers to produce the safe, high quality food which people want and bringing environmental improvements.

On 12 February my right hon. Friend, the Secretary of State, announced how she proposed to implement key features of that groundbreaking reform in England. We will decouple fully in 2005 and move over an eight year transition period towards a flat rate Single Farm Payment to farmers. England will be split into two regions—land in the severely disadvantaged areas (SDAs) of the less favoured areas (LFAs) and all other eligible land. Different rates will apply in these regions. This represents a decisive irreversible and forward-looking shift consistent with the direction that we have already set in the Sustainable Farming and Food Strategy (SFFS) and in the June 2003 CAP reform negotiations.

If farmers seize the market opportunities offered by these reforms, it is estimated that UK farm incomes could increase by around 5 per cent. relative to the 2003 Total Income from Farming, and farmers will be freed from some of the bureaucracy associated with the old subsidy schemes. For some of the poorer farms this change in support represents a chance to get off the treadmill of small scale and unprofitable commodity production.

There are also Defra led initiatives already available to help poorer farmers. These include the Farm Business Advice Service to help farmers adjust and respond to the difficult trading conditions of recent years and a number of benchmarking initiatives to help struggling farmers see how they can bring their performance up to the level of more successful businesses.

### Correspondence

**Mr. Wilshire:** To ask the Secretary of State for Environment, Food and Rural Affairs when she will respond to the letter from the hon. Member for Spelthorne of 6 January 2004 regarding Mr. M. Gillard of Staines. [154345]

**Alun Michael:** My hon. Friend the Parliamentary Under-Secretary of State responded on 16 February 2004.

**Mr. Gordon Prentice:** To ask the Secretary of State for Environment, Food and Rural Affairs with reference to her reply to the hon. Member for Pendle of 6 November 2003 on the dedication of land under section 16 of the Countryside and Rights of Way Act 2000, how she followed up correspondence to Government Departments; what has been the response; what further steps will be taken to promote dedication to public and private landowners; and whether incentives will be made available. [155557]

**Alun Michael:** I was pleased to issue non-statutory guidance to accompany the regulations on dedication in January this year. The Forestry Commission is currently in the process of using the guidance to make the first few dedications across its freehold estate.

I will be writing to a number of other large landowners in the public and private sectors soon to ask them to confirm their plans for dedicating land and am optimistic that this will lead to further successes. My officials are also considering ways to encourage dedications more widely.

### Endangered Species

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will

make a statement on the Government's policy on the Convention on International Trade in Endangered Species. [154617]

**Mr. Morley:** We will maintain the UK's position as a leading supporter of the Convention on International Trade in Endangered Species (CITES) in co-operation with EU member states and other contracting parties. CITES aims to ensure that where trade is carried out, it is done in a sustainable way that ensures the long-term survival of all species. It has been very successful in this respect and is widely respected for its ability to produce effective regulatory measures that are based on sound science. We will, therefore, continue to support CITES both practically and financially.

### English Meat

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to promote English *(a)* beef and *(b)* lamb. [153441]

**Alun Michael:** The promotion of English beef and lamb is a matter for the industry. The Meat and Livestock Commission's English Beef and Lamb Executive (EBLEX) is considering whether to introduce an English brand for beef and lamb produced in England, but any promotion of this would need to be in accordance with the EU's rules on state aids.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what the spend of her Department is on the promotion of English *(a)* beef and *(b)* lamb in the current financial year. [153890]

**Alun Michael:** EU co-funding is available for promotion and information campaigns carried out by industry bodies such as the Meat and Livestock Commission. We work closely with such bodies and the EU Commission with a view to maximising the benefit to the UK industry. We also encourage the marketing and branding of local and regional produce. A processing and marketing grant is also available within the England Rural Development Programme. Our approach, in keeping with the Treaty of Rome and our policy to help create a sustainable future for farming and food, is about helping the farming industry to move away from dependency on subsidies. This also fits well with our policy for reforming the Common Agricultural Policy.

### Equine Passports

**Mr. Swayne:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the impact of the proposal that veterinary surgeons complete silhouettes for equine passports on the practice of commoning in the New Forest; and if she will make a statement; [155267]

(2) which organisations were consulted on proposals that veterinary surgeons complete silhouettes for equine passports; and for what reasons the New Forest Commoners Defence Association was not included in the consultation. [155268]

**Alun Michael:** We have never said that only veterinary surgeons can complete and sign the silhouette in horse passports. The passport must be signed either by a vet or the competent authority—which is the passport-issuing organisation—in accordance with European rules.

When concerns were expressed to Defra that in some cases the person completing some silhouettes on behalf of the competent authority had no proven competency and that there was no independent verification of the details, I agreed to provide further guidance to all passport-issuing organisations. I explained this to a meting of all passport issuing organisations on 4 November 2003. The New Forest Verderers have informed Defra officials how they intend to meet the requirements in respect of silhouettes for animals in the New Forest, and officials have confirmed that these are within the guidelines issued.

### Farming

**Mr. Beith:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect on farm diversification of pre-1983 agricultural tenancy conditions which refer to earnings from agriculture. [150885]

**Alun Michael:** Ministers have become increasingly concerned that agricultural tenancy legislation, together with the terms contained in agricultural tenancy agreements, combine to prevent some tenant farmers from participating in diversification and agri-environment activities. Income from diversified activities might also affect succession rights under the Agricultural Holdings Act 1986. In view of these concerns, we reconvened the Tenancy Reform Industry Group in November 2002. The Group was asked to make recommendations to improve the health of the tenancy sector, and in particular, to encourage greater participation in farm diversification among tenant farmers.

The Tenancy Reform Industry Group presented its report to Government in June 2003. The report, which has the support of all Group members, made a number of wide ranging recommendations for increasing flexibility within agricultural tenancies. These include updating the statutory succession provisions in the Agricultural Holdings Act 1986 to allow income derived from farm diversification projects undertaken with the consent of the landlord to be taken into account in assessing eligibility for succession to an agricultural tenancy. The Group also recommended a code of practice on diversification within agricultural tenancies, backed up by an independent adjudication scheme to which disputes can be referred when they cannot be settled between parties.

The Government responded to the Report of the Tenancy Reform Industry Group shortly before Christmas. The Government accepted all of the Group's recommendations for amendments to the existing tenancy legislation and the proposed code of practice. It is anticipated that changes to the legislation will be effected by means of an Order under the Regulatory Reform Act. It is hoped that a formal consultation document on the Regulatory Reform Order will be issued later in the year.

**Paddy Tipping:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the total amount of Common Agricultural Policy subsidy paid to English farms in 2003, broken down by county; and what the *(a)* highest, *(b)* lowest and *(c)* average individual payment in each county were. [151352]

**Alun Michael:** The following table shows the total amount and average individual payments made for each county[1] in England. However, we are unable to supply information on individual payments under the terms of the Data Protection Act 1998 unless such details are allowed by any of the exemptions to the Act. If such exemptions can be identified then further consideration can be given to the request.

Financial figures represent the European Agriculture Guidance and Guarantee Fund 2003 accounting year which runs from 16 October 2002 to 15 October 2003.

[1] The county split is in line with NUTS 2 (Nomenclature of Territorial Units for Statistics) regional analysis.

| *County* | *Total amount (£)* | *Number of claims* | *Average payment (£)* |
|---|---|---|---|
| Tees Valley and Durham | 33,823,029.86 | 1,763 | 19,184.92 |
| Northumberland and Tyne & Wear | 66,327,723.89 | 1,872 | 35,431.48 |
| Cumbria | 72,822,877.45 | 4,852 | 15,008.84 |
| Cheshire | 16,210,308.85 | 2,110 | 7,682.61 |
| Greater Manchester | 4,320,959.33 | 560 | 7,715.99 |
| Lancashire | 23,156,928.16 | 2,639 | 8,774.89 |
| Merseyside | 2,762,820.68 | 188 | 14,695.85 |
| East Riding and North Lincolnshire | 56,488,361.31 | 2,166 | 26,079.58 |
| North Yorkshire | 111,619,984.91 | 6,108 | 18,274.39 |
| South Yorkshire | 14,762,236.39 | 809 | 18,247.51 |
| West Yorkshire | 14,179,485.69 | 1,469 | 9,652.47 |
| Derbyshire and Nottinghamshire | 55,531,457.94 | 3,596 | 15,442.56 |

## Fisheries

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the reliability of catch landing figures obtained by her Department is in determining fish stocks in British fishing waters; what her estimate is of the margin of error in estimations based on this information; what other information her Department uses to determine fish stocks; and what the estimated margins of error are using this information. [150305]

**Mr. Bradshaw:** Fish stock assessments are undertaken by the International Council for the Exploration of the Sea (ICES) and are linked to the sea areas in which individual fish stocks are mainly found. They will often embrace the waters of more than one country as well as the high seas. Account is taken of data contributed by all of the main countries exploiting each stock and comprises officially recorded information on landings and fishing effort, plus scientific data on size and age structure, growth rate, maturity, and discard rates (when available). Most assessments also use the year to year trend in relative abundance estimated as catch per effort from independent national and international research vessel surveys. The absolute accuracy of assessments is difficult to estimate at the present time but judgments on the robustness of the underlying data will be reflected in the scientific advice provided regarding future levels of stock exploitation.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the effect is of the removal of large cod from a fishery on the overall levels of recruitment to a fishery. [150480]

**Mr. Bradshaw:** Removing adult cod is expected to have relatively little effect on the survival or growth rates of juvenile cod, but could significantly affect the production of eggs.

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs when the EU *(a)* Necessity and *(b)* Recovery research programme on selective gear is scheduled to start; what the cost of each project is; and what the United Kingdom contribution to each project is. [152170]

**Mr. Bradshaw:** The Necessity project begins on 1 March 2004 and is budgeted to cost Euro 2,806,946. The UK contribution is Euro 443,420. The Recovery project began on 1 November 2002 and was budgeted to cost Euro 7,725,285. The UK contribution is Euro 378,325.

## Flooding

**Mr. Michael Foster:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate how many properties have benefited from flood defence funding since 1997 broken down by constituency. [155087]

**Mr. Morley:** Defra grant aids capital projects and related studies that meet specified economic, technical and environmental criteria and achieve the threshold priority score for the year in which they start. Decisions regarding which flood and coastal defence projects to promote, their timing and appropriate solutions are matters for the operating authorities—the Environment Agency (EA), local authorities and (in areas with special drainage needs) internal drainage boards.

The Department estimates that 290,000 houses have benefited from flood defence projects (excluding those for flood warning or primarily to protect against coastal erosion) approved between 1 April 1997 and 31 March 2003. The programme is a rolling one and other houses will have benefited from projects approved prior to 1997 which will have been funded in the period. There is likely to be an element of double-counting in these figures where different projects (for example for annual beach recharge) have benefited the same houses. Such double-counting could not be removed, and neither could the total be broken down by constituency, without incurring disproportionate cost. The Department has agreed Service Delivery Agreement (SDA) Target 27 with HM Treasury to reduce flood risk to a further 80,000 houses (with no double-counting) during the

Spending Review 2002 period—2003–04 to 2005–06. Because of the measurement method used for the SDA target (counting houses at project completion rather than approval) this figure will include some of the houses included in the 290,000 figure above.

**Mr. Michael Foster:** To ask the Secretary of State for Environment, Food and Rural Affairs what flood defences were funded by her Department, broken down by constituency, since 1997. [155089]

**Mr. Morley:** Defra grant aids capital projects and related studies that meet specified economic, technical and environmental criteria and achieve the threshold priority score for the year in which they start. Decisions regarding which flood and coastal defence projects to promote, their timing and appropriate solutions are matters for the operating authorities—the Environment Agency (EA), local authorities and (in areas with special drainage needs) internal drainage boards.

The list which has been placed in the Libraries of the House, shows capital flood defence works projects (excluding those for flood warning or primarily to protect against coastal erosion) approved for grant since 1 April 1997. Of course the programme as a whole is a rolling one and some projects approved prior to 1997 will also have received funding in the period. I regret that I am unable to break the list down by constituency without incurring disproportionate cost.

**Mr. Rosindell:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to protect houses that have been built on flood plains. [150380]

**Mr. Morley:** We recognise that there are around 1.9 million properties in England in flood risk areas that are at some risk of flooding.

Defra provides grant aid to the flood and coastal defence operating authorities to support their capital schemes to reduce flood risk, including through the improvement of flood warnings. These projects must meet specified criteria and an appropriate priority score to attract Defra funding but decisions regarding which projects to promote and their timing rest with these authorities. The principal operating authority for flood risk is the Environment Agency (EA) but local authorities (LAs) and, in areas with special drainage needs, internal drainage boards (IDBs) also carry out works on a much smaller scale overall.

The effective management of flood and coastal erosion risk is a priority for Government. This is demonstrated by the substantial increase in funding in recent years and for the SR2002 period. For example, total Government expenditure on flood and coastal defence was £310 million in 1996–97, £439 million estimated in 2003–04 and is planned to be £564 million in 2005–06.

Defra has two relevant SDA targets under SR 2002. One relates to the delivery of the enhanced flood and coastal defence capital programme over the SR2002 period, reducing the risk to life, to major infrastructure, environment assets and to some 80,000 houses. The other is to implement the outcomes of the flood and coastal defence funding review, including funding the Environment Agency's flood defence service through a single stream of Defra grant in aid and transferring to the Agency responsibility for all rivers creating the greatest flood risk.

In addition, Defra has initiated work on a major new Government strategy for flood and coastal erosion risk management, including consideration of possible new funding streams.

### Fuel Poverty

**Mr. Kidney:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the recommendations of the Fuel Poverty Advisory Group in its second annual report to increase resources for energy efficiency programmes by 50 per cent. [155873]

**Mr. Morley:** I am grateful to the Fuel Poverty Advisory Group for their report.

We are considering their report as we prepare our Fuel Poverty Implementation Plan and will respond to their recommendations in the Government's annual progress report on fuel poverty. We plan to publish both documents after the Easter recess.

### Gangmasters

**Mr. Luff:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage employees to be proactive in preventing illegal working, as stated in paragraph 24 of her Department's response to the Environment, Food and Rural Affairs Select Committee's Fourteenth Report of Session 2002–03, HC 691, on gangmasters; and what data protection requirements inhibit her response to requests for assistance. [154662]

**Alun Michael:** Paragraph 24 of the Government's reply to the Environment, Food and Rural Affairs Select Committee's report on gangmasters actually refers to the role of employers, not employees. My reply assumes that this is the meaning intended in your question.

The Department for Environment Food and Rural Affairs is unlikely to be in a position to provide direct assistance to employers seeking advice on illegal working. However, My hon. Friend, the Minister for Citizenship, Immigration and Counter Terrorism, chairs the Illegal Working Steering Group which comprises representatives of the commercial sectors where illegal work is most prevalent. The steering group has examined ways in which employers can be encouraged and supported in carrying out checks under section 8 of the Asylum and immigration Act 1996. Following discussions with the steering group the Government have consulted on measures to strengthen the document checks of prospective employees that employers must make under section 8. The Government are now planning to bring forward revised measures.

The Government are not aware of any circumstances where the Data Protection Act would inhibit the disclosure of data held by a Government Department or employers necessary for the prevention of illegal working or the apprehension of offenders.

## GM Crops

**Gregory Barker:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations the Devolved Administrations in *(a)* Wales and *(b)* Scotland have made to her Department regarding the growing of Chardon LL maize in the UK. [154705]

**Mr. Morley:** The transformation event T25, contained in Chardon LL, already has a Part C marketing consent under Directive 2001/18/EC. Ministers are currently considering the advice of the Advisory Committee on Releases to the Environment on the commercial cultivation of T25 maize in light of the results of the Farm Scale Evaluations. The UK's position will be decided in consultation with the Devolved Administrations. Discussions with the Administrations in Wales and Scotland are on-going on this matter.

The question of the possible addition of Chardon LL to the UK National Seed List is a matter for joint decision with the Devolved Administrations.

**Gregory Barker:** To ask the Secretary of State for Environment, Food and Rural Affairs what the acceptable threshold under EU law is for the contamination of non-GM crops planted in the UK with GM traits. [154706]

**Mr. Morley:** The EU has agreed a general threshold of 0.9 per cent. for tracing and labelling the adventitious presence of approved GM traits in non-GM crops and food. The European Commission's guidance to member states is that co-existence arrangements should not go beyond what is necessary to ensure that adventitious traces of GMOs stay below the tolerance thresholds set out in Community legislation.

**Gregory Barker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to refuse permission for the planting of GM crops before bringing laws into effect on *(a)* co-existence and *(b)* liability. [154707]

**Mr. Morley:** We are currently considering our policy on co-existence and liability in the light of the report on these issues by the Agriculture and Environment Biotechnology Commission. We will set out our response in due course.

**Mr. Peter Ainsworth:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations she will make in the Council of Ministers regarding the European Commission's decision to support a proposal to permit BT11 GM maize to be imported as food into Europe; and if she will make a statement. [152773]

**Mr. Morley:** This application has already been referred to our advisory body who have raised no objection on food and safety grounds. It will be discussed in Council in the normal way.

## Hen Harriers

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the population of hen harriers in the UK was *(a)* at the latest date for which figures are available and *(b)* in each of the previous 10 years; [154710]

(2) how many breeding pairs of hen harriers *(a)* established nests and *(b)* successfully bred in the UK in each of the last 10 years for which figures are available; [154711]

(3) what analysis she has undertaken of the impact of agricultural changes on the breeding success of hen harriers; [154712]

(4) what steps she is taking to encourage the reintroduction of breeding pairs of hen harriers to lowland England. [154713]

**Mr. Bradshaw:** The most recent estimate of the hen harrier population is based on the results of the 1998 survey of hen harriers in the UK. A total of between 450–591 territorial pairs were found in the UK with a best estimate of 521 pairs. The full results were published in the journal Bird Study 48:341–353 in 2001. There are no directly comparable data for any of the previous 10 years but there is thought not to have been any overall change in the size of the population since the last estimate was published in 1993, for the period 1988–1989 (Bird Study 40: 1–11).

The information regarding breeding pairs of hen harriers is not available for the whole of the UK. However, there were 17 known breeding attempts by hen harriers in England in 2003. Just eight of these were successful. A further five attempts failed before it could be established whether eggs had been laid.

There are currently no steps being taken to encourage the reintroduction of breeding hen harriers to lowland England. The conservation effort for hen harriers in England is focused in upland moorland areas in northern England where hen harriers have nested regularly in recent decades. We believe that a cessation of illegal persecution in England, and elsewhere in the UK, would allow the population to recover naturally, obviating the need for any reintroduction programme. Furthermore, we believe that, in contrast to the Red Kite programme, the reintroduction would not be in accordance with IUCN guidelines, insofar as we cannot be certain that the factors which brought about their loss from the English lowlands (almost certainly habitat loss and persecution) no longer pertain.

The Government have not specifically conducted an analysis of the impact of agricultural changes on the breeding success of hen harriers. However, agricultural change and persecution are widely held to have been responsible for the historical decline, to currently low levels, of the UK population. Currently, illegal persecution appears to be the main factor limiting hen harrier population size and breeding success over much of its range.

This contrasts with Orkney, where the population has declined dramatically since the end of the 1970s. The decline here is thought to relate to declining prey availability, resulting from changes in agriculture, particularly a decrease in the area of rough grazing and an increase in sheep densities. Full details were published in Biological Conservation 111: 377–384 in 2003.

It should be noted that in the absence of illegal persecution, hen harrier numbers might be expected to increase, if moorland burning regimes for both agricultural and grouse management purposes are altered. This would allow the development of taller heather swards and thus an increase in the area of suitable nesting habitat available to hen harriers. English Nature's Hen Harrier Recovery Project has shown that the inappropriate burning of moorland is a serious problem for the small number of hen harriers nesting in England. This results in the loss of nesting habitat and, in some cases, the destruction of active nests.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) when she last met *(a)* English Nature and *(b)* the Royal Society for the Protection of Birds to discuss hen harriers; [154719]

(2) what representations she has received from *(a)* English Nature and *(b)* the Royal Society for the Protection of Birds on hen harriers; [154720]

(3) when she last met the *(a)* British Association of Shooting and Conservation, *(b)* the Countryside Alliance, *(c)* the Game Conservancy Trust and *(d)* the Moorland Association to discuss hen harriers. [154721]

**Mr. Bradshaw:** With Regards to English Nature there has been no formal meeting to discuss, or specific representations received, on the position of hen harriers in England. However, we have received representations on habitats, including upland heathland, which support hen harrier populations, in relation to the condition of sites of special scientific interest. English Nature has also provided briefing on the establishment and progress of their Hen Harrier Recovery Project.

The RSPB met with my hon. Friend, the Minister of State for Environment, (Mr Morley), in late 2002 to discuss Hen Harriers. Ministers met with the Game Conservancy Trust in May 2000, after the publication of the Raptor Working Group final report. Discussions focussed on the issues and recommendations surrounding this report. A further meeting is in the process of being arranged, for which the agenda has not yet been determined.

I met with BASC in November last year, though we did not discuss hen harriers. I have been invited to meet with the Countryside Alliance. However, due to other pressing diary commitments I have had to decline. This meeting was not to specifically discuss the issue surrounding Hen Harriers. Ministers have not met with the Moorland Association regarding the position of hen harriers in England.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Joint Nature Conservation Committee on *(a)* hen harriers and *(b)* Operation Artemis; [154722]

(2) what involvement she had in planning Operation Artemis; [154723]

(3) whether she intends Operation Artemis to be a long-term solution to the position of the hen harrier in England. [154726]

**Mr. Bradshaw:** The Secretary of State for Environment, Food and Rural Affairs has had no direct discussions with JNCC concerning Operation Artemis, nor the position of hen harriers in England.

Operation Artemis is a police-led initiative aimed at combating the illegal persecution of hen harriers in the United Kingdom. Defra officials have had no direct involvement planning the Operation but outline proposals were presented at the Police and Customs Wildlife Enforcement Conference at Exeter in October 2003. This annual event is organised by Defra as part of its support for the Partnership for Action Against Wildlife Crime (PAW).

Chief Constable Richard Brunstrom (North Wales Police and co-chair of PAW) is due to launch Operation Artemis at the forthcoming PAW Open Seminar to be held in London on 24 February 2004. In the absence of full details of the range of activities planned by the Police Service and other partners, it is too early to assess whether or not this initiative is likely to offer a long-term solution to the issue of illegal persecution of hen harriers in England.

### Ivory Trade

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to ensure that the proposed sales of ivory stockpiles do not conceal illegal trade. [154618]

**Mr. Morley:** The decision to allow this one-off sale of ivory stockpiles was taken at the Conference of Parties to the Convention on International Trade in Endangered Species (CITES) in Chile in November 2002. One of several very strict pre-conditions which must be met before any sales can take place is that the CITES Secretariat must be satisfied that the importing countries are able to effectively regulate their domestic ivory trade to prevent any illegal ivory from entering into these markets. We will therefore be working in co-operation with the EU member states and other CITES parties to make sure that this, and all the other strict conditions, are met in full before any sales are allowed to go ahead.

### Large Combustion Plant Directive

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs how she will implement the Large Combustion Plant Directive; and if she will make a statement. [155005]

**Mr. Morley** *[holding answer 25 February 2004]:* We have received a range of comments on the Regulatory Impact Assessment that was published in June 2003 with other consultation documents regarding the implementation of the Directive. We are continuing to assess the potential economic impact on UK industry of the introduction of the Directive, using both internal

analyses and independent research. We are also in detailed dialogue with industry to help us to understand their views as expressed in response to consultation.

We expect to make an announcement about our plans for implementation of the Directive as soon as possible after the further analysis has been completed and evaluated.

## Meat Imports

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* beef and *(b)* lamb was imported into the United Kingdom from countries outside the EU in each of the last three years. [155096]

**Alun Michael:** The following table shows the level of *(a)* beef and *(b)* lamb/sheep meat and meat products imported into the United Kingdom from countries outside the EU in each of the last three years for which 12 months data is available.

*UK imports of beef and lamb/sheep meat from non-EU countries, 2000–02*

| Commodity type/country | 2000 | | 2001 | | 2002 | |
|---|---|---|---|---|---|---|
| | t'000[1] | £ million | t'000[1] | £ million | t'000[1] | £ million |
| *Beef* | | | | | | |
| Brazil | 66 | 95 | 74 | 106 | 72 | 98 |
| Argentina | 10 | 19 | 6 | 11 | 24 | 39 |
| Uruguay | 9 | 19 | 9 | 14 | 15 | 27 |
| Botswana | 6 | 17 | 11 | 31 | 6 | 18 |
| Namibia | 6 | 20 | 9 | 29 | 7 | 25 |
| Others | 14 | 38 | 12 | 29 | 8 | 20 |
| Beef total | 111 | 208 | 121 | 220 | 131 | 227 |
| *Lamb/sheep* | | | | | | |
| New Zealand | 85 | 163 | 71 | 155 | 77 | 179 |
| Australia | 12 | 20 | 10 | 20 | 13 | 29 |
| Others | 2 | 3 | 1 | 3 | 2 | 5 |
| Lamb/sheep total | 99 | 186 | 82 | 177 | 91 | 213 |

[1] Product weight.

HM Customs and Excise.

## Migrant Workers (Cockle Industry)

**Angela Eagle:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to tackle the illegal exploitation of migrant workers in the cockle industry, with particular reference to improving co-ordination with the Home Office. [154634]

**Alun Michael:** The Department for Environment, Food and Rural Affairs is one of the departments which participates in Operation Gang master. This multi agency initiative which also includes the Home Office Immigration Service, is designed to collate intelligence and to sponsor joint operations against those gang masters who break the law while operating in the informal economy. This includes the provision of labour to the cockle industry.

Government Departments also undertake individual compliance activity against illegal working. In this context the Immigration Service has conducted three operations with other agencies since June 2003 targeted at illegal working in the cockle industry in the Morecambe Bay area.

The Government are currently considering the details of the Gang master (Licensing) Bill presented by the hon. Member for West Renfrewshire (Jim Sheridan) as a private members bill. This provides for a licensing scheme which would, if introduced, regulate the activities of gang labour providers in the agriculture and related sectors.

## Milk

**Albert Owen:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of milk imports to the UK came from Poland in the latest period for which figures are available; and what percentage of UK consumption this represents. [154892]

**Alun Michael:** Trade information up to November 2003 has been received by Defra from Customs and Excise. From January 2001 to 30 November 2003, there are no recorded imports of liquid milk from Poland.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how much milk was imported in the last three years, broken down by country of origin; and what percentage of the total milk processed in the UK this was in each case. [155332]

**Alun Michael:** The following table shows *(a)* UK imports of milk and *(b)* percentage of total new UK supply, split down by country of despatch for the years 2000, 2001 and 2002.

*UK imports of milk, 2000–02*

| Country | 2000 | | 2001 | | 2002 | |
|---|---|---|---|---|---|---|
| | t'000[1] | Percentage of total new UK supply | t'000[1] | Percentage of total new UK supply | t'000[1] | Percentage of total new UK supply |
| Irish Republic | 62 | 0.4 | 56 | 0.4 | 27 | 0.2 |
| France | 9 | 0.1 | 10 | 0.1 | 11 | 0.1 |
| Germany | 20 | 0.1 | 12 | 0.1 | 6 | 0.0 |
| Denmark | 26 | 0.2 | 10 | 0.1 | 1 | 0.0 |
| Belgium | 7 | 0.1 | 4 | 0.0 | 2 | 0.0 |
| Netherlands | 0 | 0.0 | 1 | 0.0 | 2 | 0.0 |
| Others | 2 | 0.0 | 0 | 0.0 | 0 | 0.0 |
| Total | 126 | 0.9 | 93 | 0.6 | 49 | 0.3 |

HM Customs and Excise/Defra.

### Ministerial Visit

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs when she last visited a grouse moor in an official capacity. [154724]

**Mr. Bradshaw:** Within the last year I have visited three grouse moors; Ilkley Moor, in August, Brendon Hills in September and the Chilterns in December. I have also accepted an invitation to visit another moorland estate later this year.

### Organic Farms

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how many organic farms there were in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [151204]

**Mr. Bradshaw:** As of March 2003, there were 44 organic farms in Lancashire, of which two were located in Chorley. It is not possible to comment on the number of organic farms in each of these areas prior to this date since the Department has only just started to collate this information.

The following table does however show the number of organic farms who were benefiting from aid under the Organic Farming Scheme (OFS) in each of the years 2001, 2002 and 2003:

*Organic farming scheme*

| | *Lancashire* | *Chorley* |
|---|---|---|
| 2001 | 29 | 2 |
| 2002 | 29 | 2 |
| 2003 | 28 | 2 |

The OFS is an entirely voluntary agri-environment scheme which provides financial help during the conversion period to help farmers make the move from conventional to organic farming methods. From 30 May 2003, the OFS was re-launched with an optional option i.e. a maintenance option, which offers payments to all existing organic farmers to encourage the continued management of the land in an environmentally beneficial way.

### Public Bodies

**Keith Vaz:** To ask the Secretary of State for Environment, Food and Rural Affairs who the members of the *(a)* Joint Nature Conservation Committee and *(b)* Radioactive Waste Management Advisory Committee were on 1 January; what their term of office is in each case; and whether they are remunerated. [151803]

**Mr. Morley:** The information requested is as follows:

*(a) Joint Nature Conservation Committee*

| *Name* | *Term of Office* | *Remuneration (£)* |
|---|---|---|
| *Acting chair* | | |
| Professor David Ingram | 1 April 2002 to 31 March 2005 | 34,765 |
| *Members* | | |
| Professor Peter Doyle | 1 April 2003 to 31 March 2006 | 8,536 |
| Professor Richard Pentreath | 1 April 2003 to 31 March 2006 | 8,536 |

*(b) Radioactive Waste Management Advisory Committee*

The appointments of the members of the Radioactive Waste Management Advisory Committee expired on 31 December 2003 and an announcement will be made shortly regarding the future of the committee.

### Raptors

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of *(a)* the impact of the UK Raptor Working Group and *(b)* the health of the raptor population; and what plans she has to reconvene the working group. [155177]

**Mr. Bradshaw:** Ministers welcomed the final report of the Raptor Working Group, in 2000, as providing Government a consensus view from organisations representing statutory and non-governmental conservation, game-management and racing pigeon interests as to desirable actions to reduce conflicts with birds of prey. The statutory nature conservation agencies and others, co-ordinated through various fora, are taking the detailed recommendations of the Working Group forward. Monitoring of raptor populations provides feedback as to the status of different populations. To this end, the extent and scale of illegal persecution of birds of prey continues to give cause for concern, as does, in particular, the population status of the hen harrier in the UK.

There are no immediate plans to reconvene the Working Group.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs what means of control are available to a landowner where biodiversity on his land is endangered by an excess population of raptors. [154715]

**Mr. Bradshaw:** Birds of prey are an important part of the natural biodiversity of the UK and the health of their populations is widely recognised as a key measure of ecosystem health. While we recognise that some specific conflicts occasionally arise with human interests, notably on grouse moors, with racing pigeons, and with lowland gamebirds, we are not aware of any land in the UK where biodiversity more generally is endangered by raptors. The legal means of control for raptors are limited. Government established a Raptor Working Group in 1995, involving a wide range of stakeholder interests, to advise, inter alia "on statutory and other mechanism for the resolution of problems". The UK Raptor Working Group's report, published in 2000, recommends "enhanced enforcement of existing legislation to seek to eliminate illegal killing of birds of prey". A copy of their final report is in the House of Commons Library.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs what the current estimated population is of *(a)* buzzards, *(b)* peregrine falcons, *(c)* hobbies, *(d)* merlins, *(e)* ospreys, *(f)* goshawks and *(g)* marsh harriers; and what the population of each was in each of the previous 10 years. [154716]

**Mr. Bradshaw:** Annual population statistics do not exist for buzzard, peregrine or merlin. The most recent UK population estimates are set out as follows. The

estimate for buzzard is known to be a significant underestimate, but there has been no formal survey of its current UK population size.

| *Species* | *Year of most recent UK survey* | *Population estimate* |
|---|---|---|
| Buzzard | 1983 (Northern Ireland) and 1988–91 (Great Britain) | 12,000–17,000 pairs |
| Peregrine | 2002 (UK and Isle of Man) | 1,402 pairs |
| Merlin | 1993 and 1994 | 1,300 ± 200 pairs |

Annual UK population estimates are available for the following species, based on the collation of best available information by the Rare Breeding Birds Panel. Collated national totals are not yet available for the 2002 or 2003 breeding seasons.

| | *Hobby (confirmed and possible breeding pairs)* | *Osprey (occupied territories)* | *Goshawk (confirmed and possible breeding pairs)* | *Marsh harrier (breeding females)* |
|---|---|---|---|---|
| 1991 | 469 | 73 | 229 | 91 |
| 1992 | 582 | 76 | 243 | 107 |
| 1993 | 493 | 88 | 299 | 110 |
| 1994 | 500 | 95 | 225 | 129 |
| 1995 | 430 | 99 | 319 | 156 |
| 1996 | 454 | 104 | 213 | 136 |
| 1997 | 624 | 111 | 347 | 132 |
| 1998 | 675 | 131 | 249 | 138 |
| 1999 | 553 | 136 | 293 | 145 |
| 2000 | 711 | 151 | 322 | 206 |
| 2001 | 697 | 158 | 255 | 195 |

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what systems her Department has for monitoring the *(a)* numbers and *(b)* impact of raptors in the UK; [154717]

(2) what analysis she has made of the impact of raptors on *(a)* the brown hare population, *(b)* game birds and *(c)* new born lambs. [154718]

**Mr. Bradshaw:** Raptor populations in the UK are monitored through a number of schemes. Information on these schemes is comprehensively summarised in table 2.4 of the final report of the UK Raptor Working Group, a copy of which is in the House of Commons Library. There is no national provision for monitoring the impact of raptors in the UK.

There have been no studies conducted on the impacts of raptors on the brown hare population. But the impact of raptors on game birds was studied and reviewed in the report of the UK Raptor Study Group.

With regards to lambs the Scottish Executive and Scottish Natural Heritage, commissioned a study of the interaction between white-tailed eagles and lambs on Mull, in 1999 and 2000.

The results showed that the diet of 11 pairs of white-tailed eagles during the breeding season was species-diverse but included lambs. While most pairs took few lambs, one pair took twice as many lambs as any other pair under study. A lack of alternative prey (rabbits) and the proximity of the nest to a lambing area in 1999 may have been responsible for higher lamb predation then. There was no information as to whether lambs killed by eagles would otherwise have survived.

The study found that the number of lambs was small compared with overall lamb mortality, but sufficient to be an important loss to an individual farmer if eagle predation of lambs was additive and concentrated on one farm. There is no information to suggest that raptors take significant numbers of lambs elsewhere in the UK. Further information on this study is available in: Birds of Prey in a Changing Environment, pp471–479, published in 2003 by The Stationery Office.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the *(a)* cost and *(b)* efficacy of English Nature's raptor programmes. [154725]

**Mr. Bradshaw:** Raptor conservation projects form a small element of English Nature's conservation work. The two significant projects currently ongoing are the Red Kite Reintroduction Programme and the Hen Harrier Recovery Project, with costs to English Nature in 2003–04 of approximately £10,000 and £90, 000 respectively.

The Red Kite Reintroduction Programme is a partnership between English Nature, RSPB and a wide range of other organisations and funding bodies. The majority of funding for this programme comes from external sources, including the Heritage Lottery Fund and sponsorship from private companies. The Red Kite re-establishment programme in England, together with a similar programme in Scotland and effective conservation measures for the species in Wales, has increased Red Kite numbers to a level where they constitute a small but significant proportion of the European total. As was intended at the outset, the project has helped enhance the international status of Red Kite, a species whose global distribution is restricted to Europe.

English Nature's Hen Harrier Recovery Project is now entering its third year. It is staffed by a project coordinator and three seasonal fieldworkers. It has so far been successful in improving our understanding of the status of the hen harrier in England and of the factors affecting breeding numbers and success.

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the outcome of the red kite reintroduction programme in England. [154714]

**Mr. Bradshaw:** The on-going red kite reintroduction programme is widely recognised as one of the most successful projects of its kind. It has already resulted in the re-establishment of self-sustaining red kite populations in three areas of England, with estimates of about 200 breeding pairs in the Chilterns, 30 in the Midlands and 16 in Yorkshire in 2003. Despite the success of the programme, less than 5 per cent. of the bird's potential British range has been recolonised. Further releases are anticipated, and from spring 2004, birds will be released in north-east England in order to encourage recolonisation of this part of the bird's former range.

The red kite programme has also been instrumental in raising public awareness of conservation by focusing interest on a flagship species such as the red kite. It has

also highlighted issues that still adversely affect birds of prey more generally in Britain. This includes the use of illegal poison baits in the open countryside and accidental secondary poisoning by modern, highly toxic rodenticides. The high profile of the red kite project has been utilised to help promote effective measures to tackle these issues, which will benefit a wide range of wildlife in addition to the red kite.

### Single Farm Payments

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the first Single Farm Payments to be made. [155098]

**Alun Michael:** The Single Payment Scheme will be introduced in 2005; the earliest date provided for in the June 2003 CAP reform agreement. The payment window for 2005 payments will open at the start of December 2005 and run to the end of June 2006. We will endeavour to commence payments as soon as possible within that period.

### Trophy Hunting

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's policy on trophy-hunting. [155256]

**Mr. Morley:** Many of the species that are hunted for trophies are listed under the Convention on International Trade in Endangered Species (CITES), which is implemented in the EU under Council Regulation 338/97. Under these Regulations, the import of hunting trophies is allowed only where it has been established that this will not be detrimental to the populations concerned. We shall not hesitate to use the powers that are available to refuse the import of hunting trophies where there is evidence that these have been taken illegally, or that such hunting is itself unsustainable.

### Warm Front

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking to improve the effectiveness of the Warm Front programme following the recommendations of the Fifth Report of the Public Accounts Committee of Session 2003–04. [155117]

**Mr. Morley:** We are currently considering options for the future format of Warm Front. We expect to publish our conclusions as part of the Fuel Poverty Implementation Plan which we plan to publish after the Easter Recess.

### Wind Turbines

**Dr. Murrison:** To ask the Secretary of State for Environment, Food and Rural Affairs what research she plans to commission into the effects on health of low frequency noise from wind turbines. [154765]

**Alun Michael:** Defra is not currently researching the effects of low frequency noise from wind turbines on health. However, as part of Defra's research programme on noise and nuisance issues, research has been let to better understand the assessment, management and effects of low frequency noise as a whole.

### World Environment Day

**Mr. Peter Ainsworth:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to mark World Environment Day on 5 June; and if she will make a statement. [153743]

**Mr. Morley:** The Department is currently considering a number of options regarding Environment Day but no firm or detailed decisions have yet been made.

## CULTURE, MEDIA AND SPORT

### Departmental Minutes

**Mr. Lilley:** To ask the Secretary of State for Culture, Media and Sport whether it is her Department's policy to make notes of *(a)* meetings and *(b)* telephone conversations involving Ministers; and under what circumstances no notes would be taken. [149531]

**Mr. Caborn** *[holding answer 20 January 2004]*: The Department for Culture, Media and Sport follows the central "Guidance on the Management of Private Office Papers" which makes clear that good record management procedures are necessary not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Culture, Media and Sport how many days on average her Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155918]

**Mr. Caborn:** Ministerial colleagues and officials at the Department for Culture, Media and Sport attach great importance to answering parliamentary questions accurately and to time. We aim to ensure that all Members receive a substantive response to an ordinary written question within a working week of it being tabled.

It is not possible to provide information in the format requested without incurring disproportionate cost. However, during the Session 2002–03, 1,224 ordinary written questions were tabled to DCMS, excluding those withdrawn or transferred to another Department. 642 (52.5 per cent.) were answered within the target date. Of those questions remaining, 63.9 per cent. (372 questions) were answered within the next one to five working days.

The greatest number of days taken to answer an ordinary written question was 132 working days.

### Tobacco Task Force

**Mr. Randall:** To ask the Secretary of State for Culture, Media and Sport when she expects the Tobacco Task Force to *(a)* report next and *(b)* be wound up. [155803]

**Mr. Caborn:** The Tobacco Task Force is not scheduled to deliver any further reports. Any outstanding business of the Tobacco Task Force is expected to be concluded by August 2005 at which time the ban on tobacco sponsorship will cover 'global sports'.

## HOME DEPARTMENT

### Work Permits (Health Workers)

**Mr. Baron:** To ask the Secretary of State for the Home Department how many work permits were issued to health workers for each of the top 10 medical specialties in each of the last 10 years. [155984]

**Beverley Hughes:** The total number of work permits approved by the top 10 medical specialties from 2000 to the third quarter of 2003, the period for which information is available, is as follows:

| | *Number of work permits approved* |
|---|---|
| *2000* | |
| Hospital consultants (undefined) | 1,917 |
| Pharmacist | 415 |
| Dentist | 302 |
| Psychiatrist | 121 |
| Radiographer | 99 |
| Occupational Therapist | 90 |
| Optician | 58 |
| Speech Therapist | 42 |
| Anaesthetist | 35 |
| Psychologist | 34 |
| Total | 3,113 |
| *2001* | |
| Hospital consultants (undefined) | 2,141 |
| Pharmacist | 474 |
| Dentist | 319 |
| Physiotherapist | 261 |
| Psychiatrist | 240 |
| Radiographer | 155 |
| Occupational Therapist | 135 |
| Optician | 97 |
| Speech Therapist | 63 |
| Anaesthetist | 43 |
| Total | 3,928 |
| *2002* | |
| Hospital consultants (undefined) | 5,900 |
| Pharmacist | 443 |
| Radiographer | 390 |
| Physiotherapist | 378 |
| Dentist | 357 |
| Psychiatrist | 352 |
| Occupational Therapist | 238 |
| Anaesthetist | 213 |
| Optician | 194 |
| Biomedical Scientist | 181 |
| Total | 8,646 |
| *2003 (Figures for the first three quarters only)* | |
| Hospital consultants (undefined) | 6,970 |
| Radiographer | 364 |
| Pharmacist | 315 |
| Physiotherapist | 311 |
| Dentist | 293 |
| Psychiatrist | 262 |
| Occupational Therapist | 163 |
| Anaesthetist | 156 |
| Speech Therapist | 155 |
| Biomedical Scientist | 130 |
| Total | 9,119 |

### Asylum Seekers

**Mr. Colman:** To ask the Secretary of State for the Home Department when he will make a decision on the asylum application ref: R333201 of the Saudi Arabian constituent of the hon. Member for Putney. [154603]

**Beverley Hughes** *[holding answer 12 February 2004]:* As you are aware, this is a complex case, which is still being actively considered. I am unable at this time to say when a decision on the asylum claim will be made. I have written to my hon. Friend on 25 February with further details.

### Car Crime

**Mr. Michael Foster:** To ask the Secretary of State for the Home Department how many *(a)* car thefts and *(b)* thefts from cars were reported in Worcester in each year since 1997. [155037]

**Ms Blears:** The table shows the recorded crime figures for the Worcester Crime and Disorder Reduction Partnership (CDRP). Figures for 2002–03 will have been altered by the introduction of the National Crime Recording Standard (April 2002). Figures were not collected for any previous financial years.

| | *Theft of a motor vehicle* | *Theft from a motor vehicle* |
|---|---|---|
| 2002–03 | 417 | 1,388 |
| 2001–02 | 353 | 912 |
| 2000–01 | 402 | 753 |
| 1999–2000 | 457 | 906 |

### Crime (Havering and Romford)

**Mr. Rosindell:** To ask the Secretary of State for the Home Department how many persons under the age of 18 were convicted of criminal offences last year in *(a)* Romford and *(b)* the London Borough of Havering. [154853]

**Paul Goggins:** The available information relates to 2002 and shows that 338 persons aged under 18 years were convicted in the Havering Petty Sessional Area, the magistrates court which sits at Romford. The figure includes eight persons convicted at the Crown court, having been committed for trial from Havering PSA.

Statistics for 2003 will be available in the autumn.

### Criminal Records Bureau

**Mr. Oaten:** To ask the Secretary of State for the Home Department pursuant to his answer of 28 January 2003, *Official Report*, column 440W, regarding the Criminal Records Bureau, if he will place a copy of the survey in the Library. [155052]

**Ms Blears:** Once the report has been finalised, a copy will be made available and placed in the Library.

I will write to you again to confirm when this has been done.

**Mrs. Ellman:** To ask the Secretary of State for the Home Department if he will introduce legislation to enable the Criminal Records Bureau to access information from Customs and Excise and Immigration authorities. [155667]

**Ms Blears** *[holding answer 23 February 2004]:* From the outset, the Criminal Records Bureau (CRB) has been able to access conviction data in relation to cases brought by non-"Home Office" police forces and other agencies such as Customs and Excise, through the Police National Computer. Similarly, the CRB would have access to relevant local intelligence held by the police arising from a joint operation involving the police and an agency such as Customs and Excise. We are committed to bringing forward legislation as soon as parliamentary time allows to enable the CRB to access intelligence information held by non-"Home Office" police forces and other law enforcement agencies such as Customs and Excise and, in due course, the Serious Organised Crime Agency. It is currently open to bodies such as Customs and Excise, if they have information that, for example, connects a school employee to the smuggling of child pornography, to notify the relevant authorities of such information.

**Mrs. Ellman:** To ask the Secretary of State for the Home Department if he will commission research to assess the effectiveness of the Criminal Records Bureau in protecting children. [155978]

**Ms Blears** *[holding answer 23 February 2004]:* We shall build on research conducted in early 2003 which showed that employers found information supplied by the Criminal Records Bureau (CRB) useful in making recruitment decisions, and that some one in five had decided not to appoint someone on the basis of information supplied by the CRB.

## Female Prisoners

**Mrs. Brooke:** To ask the Secretary of State for the Home Department how many girls aged *(a)* 15, *(b)* 16 and *(c)* 17 years were held in prisons in England and Wales in each of the last five years; in which establishments they were held; and whether there are girls of these ages in prison now. [154217]

**Paul Goggins:** The number of girls aged *(a)* 15, *(b)* 16 and *(c)* 17 held in prisons in each of the last five years and on 30 November 2003, by establishment, is given in the table.

The Youth Justice Board issued a commitment to remove all 16-year-old girls from Prison Service custody by 31 December 2003. This commitment was achieved. However, in exceptional circumstances it may be necessary to detain a 16-year-old girl in a Young Offenders Institution in the future.

*Number of girls aged 15,16 and 17 in prisons by age*

| | *15* | *16* | *17* |
|---|---|---|---|
| *June 1999* | | | |
| Brockhill | 0 | 1 | 3 |
| Bullwood Hall | 4 | 4 | 9 |

| Holloway | 0 | 0 | 4 |
| New Hall | 0 | 1 | 23 |

## Fixed Penalty Notices

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued by community support officers; and for what offences. [155055]

**Ms Blears:** Information on how many fixed penalty notices have been issued by Community Support Officers (CSOs) in individual forces is not collected centrally.

CSOs may be given powers to issue penalty notices for a variety of offences. Designating CSOs with these powers, and determining the appropriate recording procedure, is a matter for the Chief Officer in each force which has CSOs. The following fixed penalty notice powers may be given to CSOs:

penalty notice for riding a bicycle on the footpath;

penalty notice for litter;

penalty notice for dog fouling;

penalty notice for disorder offences; and

those CSOs who are also appointed as Traffic Wardens, may issue traffic penalty notices available for that role.

The following are available to CSOs under the Anti-Social Behaviour Act and have not yet been commenced.

penalty notice to parents for truancy—due to commence 27 February;

penalty notice for graffiti—due to commence 31 March; and

penalty notice for fly posting—due to commence 31 March.

### Forensic Science Service

**Mr. Grogan:** To ask the Secretary of State for the Home Department pursuant to the Oral Answer of 19 January 2004, *Official Report*, column 1073, on the Forensic Science Service, what extra resources the Forensic Science Service requires in *(a)* one-off capital investment and *(b)* additional annual revenue. [155935]

**Ms Blears:** The independent McFarland Review found the Forensic Science Service (FSS) to be significantly under-capitalised, a situation compounded by the constraints of Trading Fund status. The actions we are taking to develop the FSS as a Public Private Partnership (PPP) will ensure it has the commercial freedoms necessary to develop and build on its proven ability as a world leader.

The future financial requirements of the FSS are currently being addressed in work under way to produce an outline business case that will look in greater detail at how best to optimise its performance and economic prospects.

### Identity Theft

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many of the individuals arrested in operations against identity theft of British passports have been *(a)* charged and *(b)* convicted; what the sentence was in each case; and how many passports were recovered. [144252]

**Beverley Hughes:** It is not possible for me to provide the hon. Member with the details sought within this question. This information is not routinely collected and could be retrieved only at disproportionate cost.

### Leyhill Prison

**Mr. Peter Ainsworth:** To ask the Secretary of State for the Home Department if he will make a statement on the events which led to the escape of Mr. Roddy Maclean from Leyhill Prison. [154968]

**Paul Goggins:** I received the final investigation report into the abscond of Roderick McLean on 10 February. I am studying the report and will write to the hon. Member.

### New Prisons

**Mrs. Gillan:** To ask the Secretary of State for the Home Department who is carrying out the survey to identify suitable sites for new, large prisons; and what the terms and conditions of the survey are. [153985]

**Paul Goggins:** The Prison Service is actively seeking urban sites that are suitable for the development of prison establishments. The size and function of new prison establishments is determined by the size and mix of the projected population. The details of individual sites cannot be disclosed at this stage for commercial reasons.

### Police

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many plain-clothes officers are deployed by police forces in England and Wales. [155048]

**Ms Blears:** The requested information is not available centrally.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what provision is made for police drivers to receive *(a)* initial and *(b)* refresher training; and if he will make a statement. [155056]

**Ms Blears:** Police driver training is a matter for individual forces.

A national driver training package was produced in 2000 which was endorsed by the Association of Chief Police Officers (ACPO) and recommended to forces. It consists of three core courses:

Basic—assessment to ensure driving competence;

Standard—training which may include emergency response driving; and

Advanced—further training to perform roles which require a high level of driving skill.

It is recommended that periodic formal assessments should take place every three to five years, accompanied by refresher training, if required.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what guidance his Department has published on *(a)* the vision levels that police drivers need to achieve and *(b)* how frequently they should receive eye checks. [155058]

**Ms Blears:** The Home Office has not issued guidance on eyesight standards specific to drivers in the Police Service.

The Association of Police Officers Joint Working Group on Health, Safety and Welfare Medical Sub Group produced guidance on visual driving standards in 1994. This was set as a minimum visual acuity of 6/18.

The guidance also states that advanced drivers should undertake a medical assessment, including eyesight test, every three years until aged 45 and then annually.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what standards of driving test police drivers are required to meet; and what the failure rate was in each year since 1997. [155059]

**Ms Blears:** Police driving standards, ranging from basic to pursuit, are published on the Association of Chief Police Officers website: www.acpo.police.uk/policies/index.html

There is no central collection of data on failure rates.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what guidelines are published by his Department on the disciplinary code for police drivers. [155060]

**Ms Blears:** The Code of Conduct set out in the Police (Conduct) Regulations 1999 sets out the principles which guide police officers' conduct and applies to officers working in all areas and of all ranks.

There is no specific code or principle that relates to police drivers. The Association of Chief Police Officers issues Police Driving Guidelines, which all police forces follow.

**Mr. Oaten:** To ask the Secretary of State for the Home Department what disciplinary measures are taken against police drivers who are involved in road accidents. [155061]

**Ms Blears:** Discipline measures are taken against those police officers who are found to have breached the Code of Conduct.

Police drivers who are involved in road traffic accidents are not automatically assumed to have breached the Code of Conduct. However, if an allegation or report of a breach is made a disciplinary investigation will be undertaken and this can result in a hearing. If the case is proved against the officer the disciplinary hearing will determine the appropriate sanction, which, if serious can be dismissal from the force.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department what Government criteria there are for *(a)* siting of police cells, *(b)* the number of police cells and *(c)* conditions of police cells. [153771]

**Ms Blears:** The number and siting of police cells is a local operational matter for the Chief Constable and the Police Authority.

The conditions of police cells are subject to National and European legislation such as the Health and Safety Act, the Disability Discrimination Act and the Human Rights Act.

The Home Office has issued the Police Design Buildings guidance and intends producing a Design Quality Guide. Police Authorities and forces are also advised on building projects by the Commission for Architecture and the Built Environment (CABE).

**Mr. Kidney:** To ask the Secretary of State for the Home Department what research his Department has *(a)* commissioned and *(b)* evaluated on the displacement of crime from areas subject to intensive policing initiatives to neighbouring areas. [155874]

**Ms Blears:** Research in London has found very little evidence of geographic or functional displacement as a consequence of the Street Crime Initiative (SCI). While there was some evidence of local shifts within the boroughs, this was not considered significant.

Under the Crime Reduction Programme there were a number of evaluations which included some estimation of whether activity had led either to a displacement of crime, or conversely to what is termed a diffusion of benefits (reductions in crime across a larger area, or across a wider range of crime types, than were being targeted).

For instance a report detailing the impact of 63 evaluated Reducing Burglary Initiative (RBI) projects is soon to be published, and this report will include estimates of displacement and diffusion of benefits. Under the RBI, a methodological report was also produced by one of the evaluation teams that examined the complex issue of how one measures crime displacement, and proposed a new statistical technique for doing so.

However, it has to be acknowledged that there remains no agreed methodology for assessing whether policing initiatives result in a displacement of crime or a diffusion of benefits. Nevertheless, past research evidence from outside the Home Office indicates that displacement of crime resulting from police or related crime reduction activities is by no means inevitable, and indeed crime reduction gains usually outweigh any possible displacement of crime.

## Prisons

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department whether the prison health care centre in Liverpool has entered into a commercial cleaning contract. [155248]

**Paul Goggins:** There is no commercial contract for cleaning in the health care centre at Liverpool prison.

**Mr. Oaten:** To ask the Secretary of State for the Home Department (1) how many suicides there have been in safe cells in each of the last two years; [151687]

(2) what estimate he has made of the average costs of a suicide in prison; [151688]

(3) what plans he has to change the design of safe cell units; [151689]

(4) what consultatons his Department has had with suppliers of safe cell units. [151691]

**Paul Goggins:** Safer cells have several design features which can assist staff in the task of managing those at risk from suicide, such as specially designed furniture and fixtures which are manufactured and installed to make the attachment of ligatures very difficult, and access to window bars prevented via non-opening windows with integral ventilation grills. Realistically, no cell can be considered totally 'safe' and the Prison Service's preferred terminology is 'safer cell.' Safer cells can complement (but not replace) a regime providing care for at risk prisoners.

The Prison Service employs the term 'self-inflicted death' rather than 'suicide.' This includes all those deaths where it appears the person may have acted specifically to take his/her own life. In 2002, of the 95 self-inflicted deaths in prisons, four occurred in safer cells. In 2003, of the 94 self-inflicted deaths in prisons, three occurred in safer cells. In 2004 to date (28 January), of the 10 self-inflicted deaths in prison, one has occurred in a safer cell.

An independent evaluation of safer cells, carried out by the Jill Dando Institute of Crime Science in 2003, including interviews with prisoners and staff, revealed that the ventilation design in safer cells may require revision. Otherwise, the Institute concluded that the safer cells programme has much to commend it, and recommended that the programme continue. Three prisoners stated to evaluators that being in a safer cell had prevented them from killing themselves.

The Prison Service is already looking into alternative safer ventilator designs to meet the report's finding. In those cases where ligature points have been identified in particular types of safer cells, remedial action has been taken and guidance issued to prisons. Also, funding has been agreed to progress the design and production of second generation safer cell furniture, building on the original safer cell furniture design, and by using mass production techniques reducing costs and enhancing robustness.

The competition for the framework agreement for the supply and installation of safer cell furniture was procured under European Union rules. A notice was issued in the Official Journal of the European Community in June 2001. Nine companies responded to the Notice, and five were subsequently short-listed to receive the tender documentation. Tenderers' responses were evaluated, both commercially and technically to see which offered overall best value for money, three companies being awarded the framework agreement. Those companies were: MT Hogjaard, Premier Custodial Group Ltd. and Newcastle Joinery Ltd. Premier Custodial Group Ltd. have subsequently withdrawn from the framework. The framework agreement was for a period of twelve months commencing on 23 January 2003. The framework agreement has been extended for six months and is now due to expire 23 July 2004. The Authority does have the right under the Agreement to extend the framework for a further two periods of three months each.

The total cost of a self-inflicted death in prison is £132,660.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many prisoners escaped from prisons in each of the past six years, broken down by *(a)* date, *(b)* category of offender and *(c)* prison; and on what date each was recaptured. [154121]

**Paul Goggins:** The following tables list the information requested for the past five financial years, and so far in the current year. Escapes where the prisoner was recaptured within 15 minutes are not included. The security categories are A, B, C or D for adult male prisoners; A, closed or open for female prisoners and Restricted Status, closed or open for young offenders.

Unsentenced prisoners are not security categorised and are termed Unclassified. Escapes can take place only from closed establishments; an escape from an open prison is counted as an abscond. There have been no category A or YO restricted status escapes since 1995.

*Table 1: Numbers of escapes*

| *Year* | *Number of escapes from prisons* |
|---|---|
| 1998–99 | 28 |
| 1999–2000 | 30 |
| 2000–01 | 10 |
| 2001–02 | 15 |
| 2002–03 | 5 |
| 2003–04 | 10 |

**Mrs. Gillan:** To ask the Secretary of State for the Home Department if he will list by prison the number of out-of-cell hours that prisoners are permitted. [152709]

**Paul Goggins:** The average number of daily hours that prisoners have spent out of their cells on weekdays and weekends during the financial year to the end of December is given in the table.

### Sentences

**Mrs. Brooke:** To ask the Secretary of State for the Home Department pursuant to his answer of 9 February 2004, *Official Report*, column 1290W, on sentences, whether the extension of penalty fines to 10 to 16-year-olds outlined in the Anti-social Behaviour Act 2003 will be introduced before the publication of the evaluation of the operation of the scheme for 16 to 17-year-olds. [155451]

**Ms Blears** *[holding answer 24 February 2004]:* We will be evaluating the operation of the scheme for 16 to 17-year-olds, on an interim basis after six months and again after 12 months. We expect to pilot penalty notices for disorder in some areas for 10 to 15-year-olds later this year, taking account of early experience with 16 and 17-year-olds.

### Serious Organised Crime Agency

**Bob Spink:** To ask the Secretary of State for the Home Department what the proposed total headcount is for *(a)* agents, *(b)* management and *(c)* administrators for the Serious Organised Crime Agency; and what the headcount is for the agencies that it will replace. [155115]

**Ms Blears:** It is expected that the new agency will have approaching 5,000 staff but it is too early to provide a breakdown of that number into agents, management and administrators. As precise details of all the numbers to be transferred have yet to be determined, it is not possible to provide a comprehensive indication of the headcount for the agencies that it will replace.

### Women Prisoners (Drug Offences)

**Mr. Oaten:** To ask the Secretary of State for the Home Department how many women are in prison for *(a)* drug offences, *(b)* drug trafficking offences and *(c)* supply offences; and of these groups of women, what percentage (i) have dependent children, (ii) are UK nationals and (iii) are non-UK nationals, giving countries of nationality in each case. [143408]

**Paul Goggins:** Information as at the end of June 2003 on the number of women in prison in England and Wales for drug offences, drug trafficking offences and supply offences, and the percentage of these who are UK nationals and non UK nationals are given in the following tables.

Information on the number of women in prison for drugs offences who have dependent children is not available.

*Females by custody type and drugs offence type and nationality*

| | *Unlawful import/ export* | *Unlawful supply* | *Possession with intent to supply* | *Possession* | *Other drugs offences* |

### Young Offenders Institutions

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department whether resources available for young offenders institutions will be increased during 2004. [155254]

**Paul Goggins:** At this time baselines for individual establishments have been finalised for 2004–05. The position will be clearer when the distribution of budgets within the Prison Service has been actioned during March.

## EDUCATION AND SKILLS

### Child Trafficking

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills what resources are available under the Children Act 1989 for local authorities to care for child victims of trafficking; and if he will make a statement. [152341]

**Margaret Hodge:** It is for local councils to decide the level of resources they allocate to services for children in their area, including the child victims of trafficking.

Overall the local government settlement has increased resources for Children's Social Services from almost £3.7 billion in 2003–04 to just over £4.0 billion in 2004–05. This provides for an increase in total resources of some 8.7 per cent. overall.

### Children's Fund

**Mr. Byers:** To ask the Secretary of State for Education and Skills what reductions he intends to make in the allocation of funding to the Children's Fund; what consultation has taken place with the key stakeholders; what estimate has been made of the impact of funding reductions on individual programmes; and if he will make a statement. [154880]

**Margaret Hodge** *[holding answer 12 February 2004]:* Allocations to Children's Fund partnerships were originally planned to reduce by £24.6 million in 2004–05, from £164.6 million to £140 million. However, following representations from affected projects I have been able to identify additional resources outside the programme which means that a total of £160 million plus a contingency amount of £6 million will be available to partnerships in 2004–05.

I have consulted key stakeholders through the Children's Fund Advisory Forum which is made up of the main voluntary sector organisations involved in the Fund, the LGA and the ADSS. The Department is assessing the impact of its decisions directly with partnerships through both the Advisory Forum and its regional teams. Final decisions on 2005–06 will not be taken until I know the outcome of the 2004 Spending Review.

### Civil Servants

**Dr. Cable:** To ask the Secretary of State for Education and Skills how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150271]

**Mr. Charles Clarke:** I refer the hon. Member to the reply given by my hon. Friend the Minister for the Cabinet Office (Mr. Alexander) on 10 February 2004, *Official Report*, column 1294W.

The number of staff in the former Department for Education and Employment as at 1 January 1997 was 37,598. This comprised 4,999 in the core Department (including the Government Offices) and 32,599 in the former Employment Service Agency. A grade breakdown could be obtained only at disproportionate cost.

### Education Funding

**David Davis:** To ask the Secretary of State for Education and Skills how much was spent from central government funds per pupil on *(a)* primary and *(b)* secondary education in (i) the East Riding of Yorkshire and (ii) the UK in each of the last five years. [155329]

**Mr. Miliband:** My right hon. Friend is responsible for education in England only, so the following table gives a comparison between the East Riding of Yorkshire and the England average.

*Per pupil funding from 1999–2000 to 2003–04*

| | *East Riding of Yorkshire* | | | *England average* | | |
|---|---|---|---|---|---|---|
| | *SSA/EFS* | *Grants* | *Total* | *SSA/EFS* | *Grants* | *Total* |
| *Primary (aged 3–10)* | | | | | | |
| 1999–2000 | 2,210 | 150 | 2,350 | 2,410 | 150 | 2,560 |
| 2000–01 | 2,270 | 310 | 2,580 | 2,470 | 310 | 2,780 |
| 2001–02 | 2,330 | 390 | 2,730 | 2,520 | 420 | 2,940 |
| 2002–03 | 2,320 | 430 | 2,750 | 2,570 | 450 | 3,010 |
| 2003–04 | 2,620 | 300 | 2,930 | 2,850 | 350 | 3,200 |
| *Secondary (aged 11–15)* | | | | | | |
| 1999–2000 | 3,000 | 80 | 3,080 | 3,250 | 100 | 3,360 |
| 2000–01 | 3,110 | 230 | 3,340 | 3,370 | 270 | 3,630 |
| 2001–02 | 3,150 | 320 | 3,470 | 3,420 | 400 | 3,820 |
| 2002–03 | 3,200 | 340 | 3,530 | 3,480 | 420 | 3,900 |
| 2003–04 | 3,140 | 370 | 3,520 | 3,460 | 500 | 3,960 |

*Notes:*
1. Figures reflect education SSA/EFS settlement (all sub-blocks). Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to EPS pupils aged 3–10 and 11–15.
2. Figures exclude EMAs and grants not allocated at LEA level and the pensions transfer to EPS and LSC for 2003–04.
3. The pupil numbers used are those underlying the EPS/EPS settlement calculations plus PLASC three-year-old maintained pupils and estimated three to four-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
4. 2003–04 and 2002–03 figures are provisional estimates as some grants have not yet been finalised/audited. Data are as reported by LEAs.
5. Real terms figures are based on GDP deflators as at 6 January 2004 (2002–03 prices).
6. Per pupil figures are rounded to the nearest £10 so may not sum.

### Employer Training Pilot

**Mr. Jim Cunningham:** To ask the Secretary of State for Education and Skills if he will make a statement on the roll-out of the Employer Training Pilot. [155808]

**Mr. Ivan Lewis** *[holding answer 23 February 2004]:* Employer Training Pilots (ETP) were introduced in six local Learning and Skills Council areas in September 2002 to test new measures to improve access to training. ETPs offer a package of support to help low-skilled people in work gain their first level 2 or basic skills qualification. The pilots were subsequently extended for a further year (to August 2004) and doubled in number to cover a total of 12 LSC areas.

An independent evaluation of the first year of the pilots, published in December 2003, showed that ETPs are proving successful at engaging employers and their low-skilled employees in training. Building on this success, the Pre-Budget Report in December announced that ETPs are being extended for a third year and that a further six pilots will be launched in September 2004. This will mean that the pilots cover over a third of England and will enable the Government to explore further the impact of the pilots on the demand for training.

My officials are currently consulting with the Learning and Skills Council's Regional Directors over the locations for the new pilots and an announcement will be made in due course.

### Foundation Degrees

**Chris Grayling:** To ask the Secretary of State for Education and Skills how many students have started Foundation Degrees since they were introduced; and what proportion have completed the courses. [142032]

**Alan Johnson:** The latest data from the Higher Education Funding Council for England (HEFCE), showing the number of students starting Foundation Degrees, is given in the table. Completion rates are not calculated by the Department, but figures published in January by the Higher Education Statistics Agency (HESA) show that in 2002/03, 1,100 students successfully completed Foundation Degrees.

We welcome the increase in numbers. We now need to build on this as we look to make Foundation Degrees the standard two year qualification at this level.

*Students starting Foundation Degrees HE and FE institutions in England*

| *Academic year* | *Full-time* | *Part-time* |
|---|---|---|
| 2001/02 | 2,331 | 1,922 |
| 2002/03 | 4,805 | 4,170 |
| 2003/04 | 8,274 | 6,966 |

*Source:*
Higher Education Funding Council for England.

### Millennium Volunteers

**Mr. Goodman:** To ask the Secretary of State for Education and Skills when the Department will announce which organisations will deliver the Millennium Volunteers programme. [155930]

**Mr. Ivan Lewis** *[holding answer 23 February 2004]:* Local projects should now know their funding allocations for the period to March 2006. We hope to notify national projects about their allocations in the near future.

### Specialist Schools

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills how many *(a)* specialist schools and *(b)* non-specialist schools are designated under section 102 of the School Standards and Framework Act 1998; and how many and what percentage of pupils they have selected in each year since their designation. [155624]

**Mr. Miliband:** The Department does not collect data on the number of schools which have partial selection by aptitude as part of their admission arrangements; or how many individual pupils are selected as a result of such tests. However, we do know that of the 685 specialist schools operational in September 2001, 6 per cent. reported that they were selecting a percentage of their pupils on aptitude in a chosen specialist subject.

### Student Finances

**Mr. Clappison:** To ask the Secretary of State for Education and Skills pursuant to the answer of 5 February 2004, *Official Report*, column 1030W, by the Minister for Education (Lifelong Learning and Higher Education), to the hon. Member for Hertsmere, on student finance, if he will break down the financial assistance available to students by each £1,000 band of family income between £15,000 and £35,000 under *(a)* the present arrangements and *(b)* his proposed arrangements for higher education funding from 2006–07. [154768]

**Alan Johnson:** The following table summarises the financial assistance available to students by each £1,000 of income between £15,000 and £35,000 under the present arrangements:

*Present arrangements—2003/04*

£

| *Residual income* | *Fee remission* | *Maintenance loan* |
|---|---|---|
| £15,000 | 1,125 | 4,000 |
| £16,000 | 1,125 | 4,000 |
| £17,000 | 1,125 | 4,000 |
| £18,000 | 1,125 | 4,000 |

*Present arrangements—2003/04*

£

| *Residual income* | *Fee remission* | *Maintenance loan* |
|---|---|---|
| £19,000 | 1,125 | 4,000 |
| £20,000 | 1,125 | 4,000 |
| £21,000 | 1,077 | 4,000 |
| £22,000 | 972 | 4,000 |
| £23,000 | 866 | 4,000 |
| £24,000 | 761 | 4,000 |
| £25,000 | 656 | 4,000 |
| £26,000 | 551 | 4,000 |
| £27,000 | 445 | 4,000 |
| £28,000 | 340 | 4,000 |
| £29,000 | 235 | 4,000 |
| £30,000 | 129 | 4,000 |
| £31,000 | 24 | 4,000 |
| £32,000 | 0 | 3,919 |
| £33,000 | 0 | 3,814 |
| £34,000 | 0 | 3,708 |
| £35,000 | 0 | 3,603 |

*Note:*
Maintenance loan rates given are for students living away from home and studying outside London (and not in the final year of their course).

I refer my hon. Friend to my response to the hon. Member for Epsom and Ewell (Chris Grayling) on 10 February 2004, *Official Report*, column 1398W, that indicates the size of loan available under the arrangements outlined in the Government's discussion paper "Moving toward a single combined grant for higher education".

More detailed information will be available in due course as details such as tapers for the single combined grant are finalised.

### UK Students Overseas

**Mr. Heathcoat-Amory:** To ask the Secretary of State for Education and Skills how many UK students studied abroad on full-time courses in *(a)* the EU, *(b)* the USA and *(c)* the Commonwealth in the most recent year for which figures are available. [140898]

**Alan Johnson:** The latest available information is tabulated as follows. The figures are from the Organisation for Economic Co-operation and Development (OECD) and show the number of students studying overseas. Mode of study is not available.

*Students from the UK in tertiary education abroad: 2001*

| *Country of study* | *Student numbers* |
|---|---|
| *European Union: (reporting)* | |
| Austria | 214 |
| Belgium | 231 |
| Denmark | 388 |
| Finland | 147 |
| France | 2,721 |
| Germany | 2,397 |
| Ireland | 1,939 |
| Italy | 145 |
| Netherlands | 648 |
| Spain | 2,363 |
| Sweden | 791 |
| Total | 11,984 |
| *USA* | |
| Total | 7,059 |

*Students from the UK in tertiary education abroad: 2001*

| *Country of study* | *Student numbers* |
|---|---|
| *Commonwealth Countries (reporting)* | |
| Australia | 4,529 |
| Malaysia | 66 |
| New Zealand | 149 |
| Total | 4,744 |

*Source:*
"Education at a glance 2003" published by OECD

### Universities

**Helen Jackson:** To ask the Secretary of State for Education and Skills what the age profile is of first degree entrants to UK universities *(a)* in 2003–04, *(b)* five years ago and *(c)* 10 years ago, broken down by those aged (i) 20–30, (ii) 31–40, (iii) 41–50, (iv) 51–60 and (v) 60 years and over. [142600]

**Alan Johnson:** The latest available data are shown in the table. Comparable data for earlier years is not held centrally.

*Full-time First Degree Entrants to UK HE Institutions*[1]

| *Age* | *1994/95* | *1997/98* | *2002/03* |
|---|---|---|---|
| Under 20 years | 181,630 | 212,270 | 235,141 |
| 20–30 years | 97,465 | 96,444 | 96,661 |
| 31–40 years | 16,301 | 16,090 | 14,523 |
| 41–50 years | 5,330 | 4,985 | 5,011 |
| 51–60 years | 846 | 984 | 987 |
| 61 years or over | 249 | 346 | 257 |
| Unknown | 474 | 954 | 210 |
| Total | 302,295 | 332,073 | 352,790 |

[1] Figures cover all domiciles and are based on a census count as at 1 December.

*Note:*
Figures for 2002/03 are provisional.

*Source:*
Higher Education Statistics Agency (HESA).

## FOREIGN AND COMMONWEALTH AFFAIRS

### Cyprus Travel Advice

**Mr. Gray:** To ask the Secretary of State for Foreign and Commonwealth Affairs what advice he provided to tourists inquiring about the safety of travel to Cyprus in mid to late March 2003. [155515]

**Mr. MacShane** *[holding answer 23 February 2004]:* Our advice to British holidaymakers and other visitors with effect from 19 March 2003 was:

"*Terrorism*: There have been a number of car bombs in the Limassol area and Nicosia over the past few years. Although the perpetrators have not been identified, these activities are restricted for the most part to in-fighting among the criminal fraternity."

"But UK nationals should be aware of the risk of indiscriminate terrorist attacks, in all countries of the world, against civilian targets in public places, including tourist sites."

"Cyprus is not directly affected by the situation in Iraq. We therefore see no reason for holiday plans to be changed. Please monitor the Foreign and Commonwealth Office website for updates to the travel advice for Cyprus, or contact Consular Section at the British High Commission in Nicosia."

### European Union (Criminal Injuries Compensation)

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what schemes are available for UK citizens injured in *(a)* an EU member state and *(b)* an EU accession state to have access to criminal injuries compensation. [155804]

**Mr. MacShane:** I refer the hon. Gentleman to the reply my right hon. Friend the Home Secretary gave to my hon. Friend the Member for Chesham and Amersham (Mrs. Gillan) on 9 February 2004, *Official Report*, column 1254W.

Historical information about the amount of compensation paid and the number of applications received during one year under the state compensation schemes in each EU member state was given at paragraph 3.8 of the European Commission's Green Paper, 'Compensation to crime victims' (reference COM(2001)536) issued on 28 September 2001. The paper can be accessed via the Internet at: http://europa.eu.int/comm/off/green/index_en.htm.

### Chechnya

**Dr. Julian Lewis:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of human rights abuses by Russian forces in Chechnya. [146684]

**Mr. Rammell:** We continue to be concerned over the human rights situation in Chechnya and consistent reports of human rights abuses. We are especially concerned over reports of rising numbers of disappearances and abductions. I refer the hon. Member to the answer I gave to him on 12 January 2004, *Official Report*, column 524W, for our most recent representations in this area.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Japan on the current human rights situation in *(a)* North Korea and *(b)* China. [155573]

**Mr. Mullin:** We are concerned about reports of serious human rights violations in the Democratic People's Republic of Korea (DPRK) and China. We have regular human rights dialogues with the Japanese Government both in Japan and the UK. The most recent round of talks took place on 30 January 2004. Human rights issues in both DPRK and China were raised in these talks. We are consulting closely with the Japanese on how to handle the question of North Korea at the forthcoming Commission on Human Rights, given the DPRK's failure to respond to the resolution passed there at the Commission's 2003 session.

## INTERNATIONAL DEVELOPMENT

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for International Development how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155917]

**Hilary Benn:** In Session 2002–03, DFID was asked a total of nearly 2,500 parliamentary questions, the information requested is not held centrally and we are unable to provide it without incurring disproportionate cost.

The effective handling of parliamentary questions is an issue to which my ministerial colleague and I attach great importance. We try to respond to parliamentary questions within the parliamentary deadlines whenever possible.

## CONSTITUTIONAL AFFAIRS

### House Prices (Seaside Towns)

**Chris Ruane:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average house price was in each ward in each principal seaside town in England and Wales in the latest month for which figures are available, with figures for Welsh Seaside Town clusters disaggregated. [154933]

**Mr. Lammy:** The information requested is not held centrally and could be provided only at disproportionate cost. My hon. Friend might be interested in viewing the property price data on the Land Registry's website. This provides average sale prices for properties in England and Wales down to postcode sector level for each county or unitary authority.

### Outstanding Debt (Preston Courts)

**Mr. Evans:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how much outstanding debt is held in the Preston courts. [155403]

**Mr. Leslie:** Preston county court issued 4,472 claims for money in 2002 and 4,215 in 2003. All civil county courts have a computerised record system. The system, however, is unable to collate a figure to show how much debt claims have been issued for. As the debtor has to make the payment direct to the creditor there is no access to information of the value of debt outstanding to creditors within the court. The only way to access up to date information would be to extract the court files from Preston county court and to contact each creditor individually to ask how much debt is outstanding. This information could be obtained only at a disproportionate cost.

At the end of 2003, the total outstanding debt at Preston magistrates court for financial penalties was £1,631,433.00. This figure includes the Crown court fines, costs, Crown Prosecution Service costs, Legal Aid and compensation that is collected by the magistrates court. The figure does not include civil financial orders (maintenance, forfeiture of recognisance etc.) as no data is collected on civil matters.

### Postal Voting

**Mr. Jenkin:** To ask the Parliamentary Secretary, Department for Constitutional Affairs on what evidence he based his decision that *(a)* Yorkshire and the Humber and *(b)* the North West region was suitable to pilot all-postal voting in the June elections. [155139]

**Mr. Leslie:** The European Parliamentary and Local Elections (Pilots) Bill, currently in Parliament, will allow pilots of innovative voting methods at this year's European and combined local elections. The Government asked the Electoral Commission to recommend where pilots should take place and the Commission published its recommendations on 8 December 2003.

The Commission identified the North East and East Midlands regions as 'highly suitable' and 'suitable'. The Commission also identified four regions that 'could potentially be suitable', These were, in descending order of suitability, Scotland, Yorkshire and the Humber, the North West and the West Midlands. It regarded the remaining regions as 'not suitable'.

The Government accepted the recommendations regarding the North East and East Midlands on 16 December. Other options were then carefully considered. An approach of holding discussions with electoral administrators in the potentially suitable regions was decided upon, to establish what their concerns were and whether or not these could be addressed.

Scottish Returning Officers had written to the Commission expressing various concerns. While Government viewed these as being about the same practical issues that affect the other regions, and despite efforts to allay their concerns, the Returning Officers remained concerned about their capacity to ensure an effective election. As a consequence of these concerns about operational capability, the Government decided not to impose a pilot in Scotland.

There has already been positive experience of all-postal pilots in local elections in Yorkshire and the Humber and the North West. Discussions with these regions showed that they were confident that successful pilots could be arranged for June and the North West in particular had commenced work to prepare for a possible pilot. It was, therefore, decided that both of these regions should hold pilots, in addition to the two regions already announced.

## TRADE AND INDUSTRY

### Business Support

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how much funding has been allocated by her Department to supporting *(a)* science, *(b)* innovation, *(c)* enterprise and *(d)* competition for each year between 1997 and 2007 in (i) real terms and (ii) as a proportion of the overall departmental budget; and if she will make a statement. [153534]

**Ms Hewitt:** The Government have invested heavily in the science and engineering base. In the current spending review period the science budget is growing at 10 per cent. year-on-year in real terms, building on the average 7 per cent. growth over the previous spending review period, and reaching just short of £3 billion by 2005–06. The recent announcement by the Chancellor of the Exchequer of his intention to develop a 10-year investment framework for science and investment, to be announced at the time of the next spending review settlement, signals the Government's continuing long-term commitment to science.

Successive departmental reports have provided breakdowns and explanations of my Department's expenditure. However, figures can be provided only on a consistent (resource) basis from 1998–99; further, spending plans for 2006–07 have not yet been agreed, so figures are shown up to 2005–06 only.

The following table is based on information published in the 1999 to 2003 Departmental Reports, where more details and explanations can be found:

| | *Years*[1] | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* | *2004–05* | *2005–06* |
| | *Outturn* | *Outturn* | *Outturn* | *Outturn* | *Working provision* | *Plans* | *Plans* | *Plans* |
| *Science*[3] | | | | | | | | |
| Real (£ million)[2] | 1,764.7 | 1,798.6 | 1,894.7 | 1,944.9 | 2,222.0 | 2,349.0 | 2,566.5 | 2,810.8 |
| Percentage of total | 53 | 38 | 27 | 29 | 28 | 40 | 57 | 53 |
| *Innovation*[4] | | | | | | | | |
| Real (£ million) | 298.2 | 287.5 | 307.4 | 303.2 | 322.3 | 333.0 | 339.5 | 354.3 |
| Percentage of total | 9 | 6 | 4 | 4 | 4 | 6 | 7 | 7 |
| *Enterprise*[5] | | | | | | | | |
| Real (£ million) | 166.8 | 208.4 | 293.8 | 283.8 | 423.4 | 394.0 | 348.7 | 358.6 |
| Percentage of total | 5 | 4 | 4 | 4 | 5 | 7 | 7 | 7 |
| *Competition*[6] | | | | | | | | |
| Real (£ million) | 6.5 | 8.7 | 9.2 | 10.5 | 25.9 | 26.5 | 28.9 | 29.5 |
| Percentage of total | 0 | 0 | 0 | 0 | 0 | 0 | 1 | 1 |

[1] Figures are shown from 1998–99 (the first year for which resource information was produced) to 2005–06 (the final year of the current Spending Review period).

[2] Figures are shown in real terms at 2002–03 prices (using GDP deflators from the HM Treasury website) and as a proportion of total DTI expenditure (resource and capital), as listed on pages 190 and 194 of "Central Government Supply Estimates 2003–04 Supplementary Budgetary Information" (Cm 5797, May 2003), where a breakdown is available.

[3] The figures from the Departmental Reports have been revised to ensure a consistent (resource) basis because prior to 2002–03 reporting of the Research Councils' expenditure was on a cash (grant in aid) basis.

[4] Outturn not available for 2001–02 due to a change in the budget structure, so a 'working provision' is provided. Excludes "Office of Science and Technology" expenditure on space (except for 2003–04 plans, which include BNSC budgets transferring to the Science budget from 2003–04).

[5] Covers expenditure on Small Businesses and Enterprise (Small Business Service).
[6] Expenditure shown for the Competition Commission and (from 2003–04) the Competition Service.
*Source:*
1999–2003 Departmental Reports (Cm 4211, March 1999; Cm 4611, April 2000; Cm 5112, March 2001; Cm 5416, June 2002; and Cm 5916, May 2003).

### Departmental Staff

**Mr. Cousins:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 2 February 2004, *Official Report*, columns 642–43W, to the hon. Member for Twickenham (Dr. Cable) if she will break down the staff in each grade by *(a)* regional and *(b)* national locations; and what percentage of the staff in each grade each represents. [154649]

**Ms Hewitt:** This information is not held centrally and therefore this information cannot be provided without disproportionate cost.

### EU Structural Funds

**Chris Ruane:** To ask the Secretary of State for Trade and Industry what *(a)* capital and *(b)* revenue expenditure was provided through (i) EU structural funds and (ii) by regional development agencies in each of the past seven years for each principal town in England and Wales, with figures for Welsh Seaside Town clusters disaggregated; and if she will make a statement. [155003]

**Jacqui Smith** *[holding answer 23 February 2004]:* The information requested is not held either centrally or regionally and could be obtained only at disproportionate cost.

### EU Trade

**Bob Spink:** To ask the Secretary of State for Trade and Industry what representations she has made to European commissioners on the strengthening of multilateral trading systems; and if she will make a statement. [155151]

**Ms Hewitt:** I have spoken on several occasions to Commissioner Lamy on the need to strengthen the multilateral trading system, particularly in favour of the world's poorest countries.

Since the WTO Ministerial meeting in Cancun last September, I have met Mr. Lamy in London and in Brussels and I have also spoken to him on the telephone on a number of occasions. The strengthening of the multilateral trading system is always high on our agenda.

My officials remain in regular contact with the Commission, on issues relating to the WTO and the strengthening of the WTO multilateral trading system.

### Export Credits Guarantee Department

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry whether the Export Credits Guarantee Department has been approached for political risk insurance claims by *(a)* ANZ Bank, *(b)* Standard Chartered Bank and *(c)* ABN Amro in relation to the Dabhol Power Company in India. [155011]

**Mr. Mike O'Brien:** Yes.

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry whether *(a)* Kier International and *(b)* Whessoe have approached the Export Credits Guarantee Department for a claim in relation to the Dabhol Power Project in India. [155012]

**Mr. Mike O'Brien:** No. We can find no record of such an approach.

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry when the Export Credits Guarantee Department will next produce a report on the comparison of export credit agencies; and if she will make a statement. [155655]

**Mr. Mike O'Brien** *[holding answer 24 February 2004]:* ECGD is currently updating its research on the comparison of export credit agencies and hopes to be able to make its findings public in April.

### Gas Network System

**Mr. David Stewart:** To ask the Secretary of State for Trade and Industry (1) what plans she has to work with industry to extend the gas network system; [155893]

(2) if she will make a statement on the use made of European structural funds in the extension of the gas network across the UK. [155894]

**Mr. Timms:** In May 2003, the Secretary of State for Trade and Industry announced the establishment of a new Design and Demonstration Unit of private sector secondees to support the Sustainable Energy Policy Network. Among the activities being undertaken by the Unit, which is based in the Department of Trade and Industry, are pathfinder projects to extend the gas network to non-gas areas. The first of these, in Llay in North Wales, began in October 2003, and is now completed. Three other projects are currently in the process of being developed. In addition, during 2003, the Office of Gas and Electricity Markets reviewed the charging arrangements for connections to independent gas transporters' (IGTs) networks. It is expected that, by allowing those providing connections to the existing network (known as "infill" projects) to charge a premium over Transco transportation charges, more IGTs will be encouraged to enter the infill market. Detailed information on the use of structural funds for individual projects is not held centrally by DTI. However, if my hon. Friend wishes to have information about a particular project, he should write to me, and I shall endeavour to obtain the relevant information. The Design and Demonstration Unit will be exploring whether the funds can provide support for the pathfinder projects that it is developing.

### Near Earth Objects

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on the Government's contribution to the funding of the Minor Planet Centre. [155361]

**Ms Hewitt:** The Government are not contributing to the funding of the US based Minor Planet Centre (MPC).

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry what plans she has to establish a British centre for near earth objects; and if she will make a statement. [155367]

**Ms Hewitt:** The British National Space Centre has provided funding for the UK Near Earth Objects Information Centre (NEO IC) in Leicester (see www.nearearthobiects.co.uk). There are no current plans to extend the scope of the Centre.

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on progress in seeking partners to build in the southern hemisphere an advanced new three metre-class survey telescope for surveying substantially smaller objects than those now systematically observed by other telescopes. [155369]

**Ms Hewitt:** There are no plans to build a new 3m class telescope for this activity. This conclusion is reached in the light of the many opportunities that are now available for the use of existing facilities that are or will soon become available.

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on progress in dedicating the one metre Johannes Kapteyn Telescope on La Palma to follow-up observations of near earth objects. [155371]

**Ms Hewitt:** It has not been possible to fund dedicated use of the Johannes Kapteyn Telescope. However, telescopes on La Palma have been used to observe Near Earth Objects and 20 per cent. of these were studied spectroscopically.

### Regional Selective Assistance

**Simon Hughes:** To ask the Secretary of State for Trade and Industry how many businesses in *(a)* London and *(b)* England applied for regional selective assistance in each year since it came into existence. [155514]

**Jacqui Smith** *[holding answer 23 February 2004]:* The number of value of applications for Regional Selective Assistance made in London and England since 1972 are published in the Industrial Development Act 1982 Annual Reports, copies of which are in the Libraries of the House.

### Sakhalin

**Mr. Peter Ainsworth:** To ask the Secretary of State for Trade and Industry what account she will take of the potential impact on endangered grey whales in considering requests for export credit guarantees in connection with oil and gas extraction in the Sakhalin Island area; and if she will make a statement. [154967]

**Mr. Mike O'Brien** *[holding answer 23 February 2004]:* The Government are aware of the potential impacts that the Sakhalin II project may have on the Western Gray Whales. I have written to Sakhalin Energy making clear the importance that we attach to ensuring that these are properly minimised and that the best scientific advice is being followed. In determining this, ECGD officials will be taking advice from recognised independent whale experts and will take into account the views of interested NGOs.

I expect that details of the whale protection measures agreed with Sakhalin Energy will be published and that compliance with them would be a contractual obligation on the company. Qualified consultants would monitor compliance with these obligations on behalf of ECGD and the other lenders, should support be eventually agreed.

## DEPUTY PRIME MINISTER

### Fenestration Self-assessment Scheme

**Mr. Todd:** To ask the Deputy Prime Minister pursuant to his answer of 5 January 2004, *Official Report*, column 142W, on the Fenestration Self-assessment Scheme, whether the scheme requires its members to install lintels above windows. [156090]

**Phil Hope:** The Fenestration Self-assessment Scheme requires that all work carried out by its members should comply fully with the Building Regulations. Where the installation of lintels is necessary for such compliance then FENSA members should install them.

### Retail Stores (Extensions)

**Matthew Green:** To ask the Deputy Prime Minister when his Department will complete its research into the extent to which retailers are using internal extensions to expand their stores without planning permission; and if he will place a copy of the results in the Library. [154998]

**Keith Hill:** A survey of a sample of local planning authorities has been commissioned through the Government Offices to assess the extent of the issue and the possible consequences. While advanced, this work is not yet complete in a format which would enable it to be published, but the Office of the Deputy Prime Minister hopes to be in a position to make the findings public in due course.

## WORK AND PENSIONS

### Incapacity Benefit

**Chris Ruane:** To ask the Secretary of State for Work and Pensions what percentage of the population of England and Wales was claiming Incapacity Benefit on the latest date for which figures are available; *(a)* how many people in and *(b)* what percentage of the population of each ward in each principal seaside town in England and Wales receive Incapacity Benefit, listed in descending order, with figures for Welsh seaside town clusters disaggregated; and if he will make a statement. [154958]

**Maria Eagle:** There were 2,378,900 people claiming Incapacity Benefit (including Severe Disablement

Allowance) in England and Wales as of 31 August 2003. This accounts for 5.7 per cent. of the population over 16-years-old.

The available information has been placed in the Library.

DWP Information Centre, 5 per cent. sample.

### Jobcentre Plus

**Mr. Hancock:** To ask the Secretary of State for Work and Pensions what the cost is of running two systems side by side during the Jobcentre Plus rollout in *(a)* Hampshire and the Isle of Wight and *(b)* the South East region. [151536]

**Mr. Pond:** The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

*Letter from David Anderson to Mr. Hancock, dated 25 February 2004:*

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply direct to your question concerning the cost implications of running two systems side by side during the rollout of Jobcentre Plus, in the South East. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The development of Jobcentre Plus is building on the high quality service already provided by social security offices and Jobcentres by delivering a single, integrated service to all people of working age, with a clear focus on work. It is a huge undertaking involving some 1,500 offices across the country. We have to make sure that our customers can continue to receive advice on work and benefits. Therefore we need to stagger the roll-out of the new service over a number of years. Throughout the period of national roll-out social security offices and Jobcentres will be working together to ensure that customers will still benefit from the excellent service we offer.

Our plans for the roll out aim to ensure that the old services are replaced by the new services and that therefore there is no need to operate them side by side in any location. In fact as the roll out progresses we are looking to rationalise our estate and realise savings through a "merger dividend".

This is one of the largest change programmes ever and given its size, we are bringing in changes across the four-year period 2002–06. This means, of course, within the South East region and the other regions/countries, we will have to run new services alongside old style services for this transitional period.

Full details of the financial allocation for the roll out of Jobcentre Plus are available in the Departmental report (CM5921) a copy of which is in the library.

I hope this is helpful.

### Medical Assessments

**Chris Ruane:** To ask the Secretary of State for Work and Pensions how many doctors have had approval to carry out assessments on behalf of the Department revoked in each of the last five years, broken down by location. [156058]

**Maria Eagle:** The information requested has been recorded only since 2002, following enhancements to Medical Services' Medical Skills Database and the introduction of a new database in the Chief Medical Adviser's office. The available information is in the table.

*Numbers of doctors who have had approval to carry out assessments on behalf of DWP revoked*

| *Medical Services Unit* | *2002* | *2003* |
|---|---|---|
| Birmingham | 0 | 1 |
| Bootle | 10 | 0 |
| Bristol | 1 | 0 |
| Cardiff | 5 | 1 |
| Edinburgh | 0 | 0 |
| Glasgow | 2 | 19 |
| Leeds | 7 | 4 |
| Manchester | 0 | 0 |
| Newcastle | 0 | 1 |
| Nottingham | 0 | 0 |
| Sutton | 0 | 0 |
| Wembley | 0 | 14 |
| Total | 25 | 40 |

*Source:*
DWP data.

### Pensioner Benefits

**Mr. George Howarth:** To ask the Secretary of State for Work and Pensions what his estimate is of the proportion of the value of means-tested benefits unclaimed by pensioners. [155468]

**Malcolm Wicks:** Precise information requested is not available. The DWP report, "Income Related Benefits Estimates of Take-Up", contains estimates of the additional amount of income support/minimum income guarantee, housing benefit and council tax benefit payable, if every pensioner took up their entitlement. For financial year 2000–01, the latest year for which information is available, it is estimated between £1.03 billion and £1.8 billion of these benefits were left unclaimed by the eligible GB pensioner population in private households. This compares with £7.70 billion claimed by this population; and represents between 81 per cent. and 88 per cent. of the total of amounts claimed and amounts unclaimed.

The next edition of the report, covering 2001–02 will be published on 26 February; copies will be held in the Library.

*Note:*

Estimates of the amount of income-related benefits unclaimed are presented as ranges in which the true value is judged to lie. The ranges take account of various imperfections in the underlying data sources.

### Statutory Sick Pay

**Norman Lamb:** To ask the Secretary of State for Work and Pensions what the total cost to his Department of payments to employers in respect of statutory sick pay was in each of the last five years. [154882]

**Maria Eagle:** The Statutory Sick Pay (SSP) scheme is administered by employers as part of the National Insurance scheme. While employers meet most of the costs of SSP, they can, in certain circumstances, reclaim some of their costs from the Department.

The available information is in the table.

*Estimated cost to the Department of payments to employers in respect of Statutory Sick Pay in the last five years*

| *Financial year* | *Expenditure on SSP for DWP (£ million)* |
|---|---|
| 1998–99 | 30 |
| 1999–2000 | 32 |
| 2000–01 | 31 |
| 2001–02 | 33 |
| 2002–03 | 32 |

*Notes:*
1. Information is in real terms, 2003–04 prices and rounded to the nearest £1 million.
2. Data for recoveries on SSP are currently under review and all published figures are therefore subject to revision.
*Source:*
DWP reports and accounts.

## HEALTH

### Allergies

**Mr. Baron:** To ask the Secretary of State for Health what action he is taking with respect to those suffering from allergies; and if he will make a statement. [155848]

**Dr. Ladyman:** It is the role of primary care trusts in partnership with local stakeholders to decide what services to provide for their populations, including those with allergies. They are best placed to understand local health care needs and commission services to meet them.

The Royal College of Physicians (RCP) published their report, "Allergy—the unmet need: a blueprint for better patient care", on 25 June 2003. We welcome the RCP report and believes it is a useful contribution to the debate on how to improve national health service allergy services.

The Food Standards Agency funds research on food allergy and intolerance, with particular emphasis on severe allergies, how they occur and what causes them. A large programme of research on food intolerance and allergy, costing around £1 million a year is on-going. King's College London is leading a £2.1 million European Community funded prospective study of the incidence and prognosis of allergy, allergic disease and low lung function in adults living in Europe. Also, the University of Manchester is leading a £1.2 million EC-funded investigation of the prevalence, pathogenesis, treatment and prevention of sun allergy across Europe. Sun-provoked skin reactions are one of the commonest forms of allergy.

### Brachytherapy Treatment

**Mrs. Calton:** To ask the Secretary of State for Health pursuant to his answer, 16 December 2003, *Official Report*, column 877W, to the hon. Member for Christchurch (Mr. Chope), on brachytherapy treatment, by what date the Department will have decided whether the treatment referred to is a suitable topic for referral to the National Institute for Clinical Excellence as a technology appraisal. [154938]

**Miss Melanie Johnson:** It is not yet possible to say when the Department will be in a position to consider brachytherapy for the treatment of prostate cancer as a potential topic for referral to the National Institute for Clinical Excellence (NICE) as a technology appraisal.

More evidence on the effectiveness and cost effectiveness of brachytherapy in the treatment of prostate cancer will be needed for the Department to be able to consider its referral to NICE. It is not yet known when current studies are likely to produce such evidence.

### Carbonated Drinks

**Mr. Jim Cunningham:** To ask the Secretary of State for Health if he will make a statement on the dangers to young people's health of regularly drinking carbonated soft drinks. [155440]

**Miss Melanie Johnson** *[holding answer 23 February 2004]:* Carbonated soft drinks are a major source of added sugars in children's and young people's diets. It is recommended that they should be consumed sparingly, as part of a healthy balanced diet, to minimise the effect of dental caries and to achieve calorie intake compatible with maintenance of healthy weight.

The Food Standards Agency and the Department of Health are in discussion with the vending industry and are taking forward projects to consider approaches in schools to achieve this recommendation.

### Child Health Surveillance Programme

**Tim Loughton:** To ask the Secretary of State for Health (1) what percentage of *(a)* 8-year-olds, *(b)* 9-year-olds, *(c)* 10-year-olds, *(d)* 11-year-olds, *(e)* 5-year-olds, *(f)* 6-year-olds and *(g)* 7-year-olds were subject to height and weight monitoring in schools last year as part of the Child Health Surveillance programme; [155039]

(2) which primary care trusts undertake weight and height monitoring of primary school age children at least every other year. [155040]

**Dr. Ladyman:** Height and weight measurements in early childhood form a part of the child health surveillance programme. The programme covers pre-school age children. Intervals between checks are determined by the primary health care team in the light of professional judgment. Height and weight monitoring after school entry is undertaken on a selective basis when there is concern about a child's health or growth. Information on the number and timing of these checks is not collected centrally.

### Child Poverty

**Mrs. Roche:** To ask the Secretary of State for Health what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if he will make a statement. [154367]

**Miss Melanie Johnson:** I refer my hon. Friend to the reply given by my hon. Friend the Under-Secretary of State for Work and Pensions (Mr. Pond) on 12 February 2004, *Official Report*, columns 1590–91W.

### Chiropody

**Mr. Baron:** To ask the Secretary of State for Health (1) in what ways eligibility criteria for chiropody waiting

lists have changed in the last two years; and how many patients have been removed from waiting lists as a result of changes in eligibility criteria; [155869]

(2) how many patients who were previously on chiropody waiting lists have been removed from these lists as a result of a change in the eligibility criteria for the waiting lists; [155449]

(3) how the eligibility criteria for chiropody waiting lists have changed in the last two years. [155450]

**Dr. Ladyman** *[holding answers 23 and 24 February 2004]:* Primary care trusts, in partnership with strategic health authorities and other local stakeholders, have the responsibility for improving the health of the community, securing the provision of high quality services, and integrating health and social care locally. They have the resources to commission services and to identify the number of professional staff that they need to deliver those services. This process provides the means for addressing local needs within the health community including setting eligibility criteria for chiropody/podiatry services. Information on waiting lists for these services is not collected centrally.

### Coronary Care

**Mr. Moss:** To ask the Secretary of State for Health how many coronary angioplasties were undertaken by each NHS hospital trust in each of the last three years; and how many of these were *(a)* second and *(b)* third interventions. [154993]

**Miss Melanie Johnson:** Information on the number of coronary angioplasties that were undertaken by each national health service hospital trust in each of the last three years has been placed in the Library.

The figures are sourced from Hospital Episode Statistics (HES), Department of Health. Information on second and third interventions is not available.

**Mr. Moss:** To ask the Secretary of State for Health how many coronary artery bypass graphs were undertaken by each NHS hospital trust in each of the last three years. [154994]

**Miss Melanie Johnson:** Information on the number of coronary artery bypass graphs that were undertaken by each national health service hospital trust in each of the last three years has been placed in the Library.

The figures are sourced from Hospital Episode Statistics (HES), Department of Health.

### Haemophilia

**Nick Harvey:** To ask the Secretary of State for Health how many patients with haemophilia there are in *(a)* England and *(b)* the South West; and if he will make a statement. [154578]

**Miss Melanie Johnson:** Information provided by the United Kingdom Haemophilia Centre Doctors Organisation shows that there are 5,019 haemophilia patients in England and 297 patients in the South West. These figures include patients affected by severe and mild haemophilia.

### Hepatitis C

**Dr. Murrison:** To ask the Secretary of State for Health what the rationale was for the decision to disallow compensation from the Hepatitis C ex gratia scheme for the dependants of those who died of the disease prior to 29 August 2003. [155536]

**Miss Melanie Johnson:** The underlying principle behind the Hepatitis C ex gratia payment scheme is to target available resources to help alleviate the suffering of people living with the virus. The payments are not designed to compensate for bereavement. The scheme's eligibility criteria reflect this, but were considered in the context of other demands on the health care budget.

### Long-term Care

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 20 January 2004, *Official Report*, column 1110W, on long-term care, whether the methodology used to arrive at this figure is the same as that used to cost the Government's own policies; and if he will place in the Library a copy of the terms of reference given to the civil servants costing the policy. [155461]

**Dr. Ladyman:** The estimate of £1.5 billion is an updated estimate of the cost of free personal care for England. The methodology used to produce this updated estimate was identical to that used by the Royal Commission, except for two differences. The first difference is that the Royal Commission did not include an explicit allowance for costs of publicly funded care home residents. These costs are now estimated at £100 million and are included in the updated estimate. The second difference is that the updated estimate takes into account changes to the funding arrangements made by the Government since the Royal Commission produced its estimate. Had no account been taken, the updated estimate would have been higher. The main change is the implementation of free nursing care. Ministers gave no instructions or terms of references to civil servants concerning how the calculation of the updated estimate was to be made.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 30 January 2004, *Official Report*, column 559W, on long-term care, which specific benefits are referred to in point seven of the explanatory note; how the savings of under £200 million were calculated; and whether any of the 58,000 privately funded residents of residential care homes mentioned in the explanatory note were in homes with dual registration, and therefore entitled to free nursing care. [155966]

**Dr. Ladyman:** The social security benefits referred to in point seven of the note are attendance allowance and disability living allowance care component. These benefits cease to be paid after four weeks of local authority support. Disability living allowance mobility component does not cease to be paid and is not included.

Estimates of the proportions of older privately funded admissions to care homes receiving these benefits were derived from tables 4.13 and 4.14 of the Personal Social Services Research Unit report, Self-Funded Admissions to Care Homes (available at www.dwp.gov.uk/asd/asd5/rrep159.asp). These proportions

were applied to the estimate numbers of privately funded care home residents to produce an estimate of the numbers of privately funded residents receiving these benefits. The estimated numbers were multiplied by the benefit rates to produce an estimated annual saving of under £200 million.

The approach assumed estimates of 42,000 privately funded residents in nursing beds in nursing homes or dual-registered homes and 58,000 privately funded residents in residential beds in residential care homes or dual-registered homes. Reference to dual-registered beds was omitted from the note for simplicity. This means that none of the estimated 58,000 were assumed to be entitled to free nursing care. This assumption does not, however, affect the estimated saving on disability benefits since receipt of free nursing care does not trigger cessation of disability benefits.

### Masts

**Mrs. Spelman:** To ask the Secretary of State for Health what guidelines, other than International Commission Non-Ionizing Radiation Protection emission levels, are used by *(a)* the Health and Safety Executive and *(b)* OFCOM for the practical implementation of a precautionary approach to mast installations around sensitive sites. [155872]

**Miss Melanie Johnson:** The International Commission on Non-Ionizing Protection (ICNIRP) guidelines is concerned with exposure to electromagnetic fields. The mobile phone industry has voluntarily agreed, as a precautionary measure, to comply with ICNIRP guidelines. The Government have also agreed that mobile telecommunications equipment should meet the ICNIRP guidelines as expressed in the European Union Council Recommendation on the limitation of exposure of the general public to electromagnetic fields (0Hz-300Ghz) of 12 July 1999. No Government body uses any other more restrictive exposure guidelines.

### Medical Research (Animals)

**Norman Baker:** To ask the Secretary of State for Health pursuant to his answer of 2 February 2004, *Official Report*, column 1129W, on medical research (animals), how much the Government contributed to the 2002 MORI poll. [155550]

**Miss Melanie Johnson:** The Department of Health, the Department of Trade and Industry and the Home Office each contributed £28,502 towards the cost of the research.

### Mental Health

**Tim Loughton:** To ask the Secretary of State for Health what progress has been made on the National Institute for Clinical Excellence guidance on recommended procedures for control and restraint of mental health patients. [155630]

**Ms Rosie Winterton:** The anticipated publication date for the National Institute for Clinical Excellence's (NICE) clinical guideline on the short-term management of disturbed (violent) behaviour in in-patient psychiatric settings is November 2004. NICE provisionally plans to consult on the first draft of the guidance in April 2004. Full details of the provisional schedule for this guideline can be found on the NICE website at www.nice.org.uk.

### MMR

**Tim Loughton:** To ask the Secretary of State for Health how many children aged between five and 15 years developed *(a)* measles, *(b)* mumps and *(c)* rubella in each of the last 10 years. [152558]

**Miss Melanie Johnson:** Data on comparable confirmed cases of measles, mumps and rubella are only available from 1995. The number of confirmed cases of measles, mumps and rubella between 1995 and 2003 are shown in the table. The information provided relates to the number of confirmed cases of measles, mumps and rubella in children aged between five and 14 years. Data on cases in children aged between 5 and 14 years is being provided, as this is the standard age grouping used in all surveillance reports.

*Number of cases aged 5–14 years*

| | *Measles* | *Mumps* | *Rubella* |
|---|---|---|---|
| 1995 | 5 | 14 | 29 |
| 1996 | 14 | 56 | 31 |
| 1997 | 91 | 100 | 2 |
| 1998 | 12 | 34 | 5 |
| 1999 | 20 | 229 | 5 |
| 2000 | 23 | 472 | 4 |
| 2001 | 15 | 419 | 1 |
| 2002 | 88 | 130 | 5 |
| 2003[1] | 164 | 248 | 0 |

[1] Provisional.

*Sources:*

1996–2002 Health Protection Agency website:
http://www.hpa.org.uk/infections/topics_az/measles/data_reg_age.htm
http://www.hpa.org.uk/infections/topics_az/mumps/data_reg_age.htm
http://www.hpa.org.uk/infections/topics_az/rubella/data_reg_age.htm

### Obesity-related Deaths

**Mr. Burstow:** To ask the Secretary of State for Health what methodology his Department used to estimate the number of deaths from obesity-related diseases; and if he will make a statement. [155157]

**Miss Melanie Johnson:** The Department uses estimates presented in the National Audit Office report on obesity: "Tackling Obesity in England"—report by the Comptroller and Auditor General. HC220 Session 2000–01: 15 February 2001.

### Podiatry

**Mr. Baron:** To ask the Secretary of State for Health if he will collect a sample of the discharge rates, whether complete or not, of NHS podiatry services, to enable the Government to estimate how many patients could reasonably be accepted into NHS foot care services. [155985]

**Dr. Ladyman** *[holding answer 23 February 2004]:* National health service foot care services are provided on the basis of assessed clinical need. Primary care trusts, in partnership with strategic health authorities and other local stakeholders, have the responsibility for improving the health of the community, securing the provision of high quality services, and integrating health and social care locally. They have the resources to

commission services, and to identify the number of professional staff that they need to deliver those services. This process provides the means for addressing local needs within the health community including the provision of chiropody/podiatry services.

We are committed to reducing bureaucracy in the NHS and commissioning such a study would not be cost effective.

### Sexually Transmitted Diseases

**Mrs. Helen Clark:** To ask the Secretary of State for Health what the incidence of sexually transmitted diseases was in the areas covered by *(a)* the Greater Peterborough Primary Care Trust and *(b)* the Norfolk, Suffolk and Cambridgeshire Strategic Health Authority in the last year for which figures are available, broken down by (i) HIV, (ii) Chlamydia, (iii) gonorrhoea, (iv) syphilis and (v) genital herpes; how many cases of each disease there were in the (A) under 19, (B) 20 to 25, (C) 25 to 35 and (D) 35 plus age group, broken down by gender; and what the percentage change was in each case in each of the previous five years. [154459]

**Dr. Ladyman:** This information is not collected centrally. However the available information from the Health Protection Agency has been placed in the Library.

The data contained within these tables does not represent the prevalence of disease within this individual strategic health authority.

### Soft Drinks (Schools)

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what representations he has made to the United Kingdom soft drinks industry about distribution of soft drinks in schools. [155811]

**Miss Melanie Johnson** *[holding answer 23 February 2004]:* No direct representations to the United Kingdom soft drinks industry about distribution of soft drinks in schools have been made.

The Department of Health-led strand of the "Food in Schools" programme comprises eight pilot projects, which aim to ensure children have access to healthy food choices and drinks throughout the school day. In particular, the work on water provision aims to increase overall consumption of water by pupils in schools by making it more accessible. The healthier vending machines pilot challenges schools and the vending industry to make healthy options available in school vending machines, which includes the provision of healthier drink products.

The results of all eight pilot projects will be brought together in a 'whole school approach' and made available to schools across England from the beginning of 2005 to assist them in providing a wider range of healthier foods and drinks for pupils.

The Food Standards Agency has undertaken a pilot in schools on healthier drink vending, which will feed into the "Food in Schools" programme.

### SPIRIT Trial

**Mrs. Calton:** To ask the Secretary of State for Health (1) by what date the National Cancer Research Network expects to have all 300 patients recruited for the SPIRIT trial; [154935]

(2) what the status is of the SPIRIT trial into a cure for prostate cancer; [154936]

(3) how many centres have been approved to enter patients in the SPIRIT trial; and when they will be receiving patients. [154937]

**Miss Melanie Johnson:** The SPIRIT trial received multi-centre research ethics committee approval in November 2003. Local research ethics committee approval is currently being applied for at the various centres that plan to participate. The trial is led by the American College of Surgeons Oncology Group (ACOSOG). Any centre that wishes to participate must obtain United States federal-wide assurance, and investigators and research nurses must obtain membership of the ACOSOG. The trial team anticipates that six to eight centres in the United Kingdom will be approved by summer 2004, and that these centres will immediately start entering patients into the trial. The team is confident that 300 UK patients will be recruited before May 2007, which is the US target for completing accrual.

### Tendring Primary Care Trust

**Tim Loughton:** To ask the Secretary of State for Health if he will make a statement on plans to close general practitioner surgeries in *(a)* Holland-on-Sea and *(b)* Great Clacton in Tendring Primary Care Trust. [155120]

**Dr. Ladyman:** It is this Government's policy, within the framework set out in the NHS Plan and the Shifting the Balance of Power initiative, to devolve funding decisions to the front line. It is now for primary care trusts (PCTs), in partnership with health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services, based on the specialised knowledge they have of the local community.

The Colchester and Tendring Local Improvement Finance Trust project board is committed to significantly improve services and facilities in the area. Tendring PCTs plan is to develop one purpose-built health centre that will incorporate four local surgeries on one site in the local areas. Therefore, the surgeries are not being closed but re-sited.

The proposal is to centralise services on the Kennedy Way site with two satellite surgeries; one in Holland-on-Sea and the other in Great Clacton. The distance from the existing practices to the proposed new centre is approximately one mile. The satellite facilities will provide services to those patients who are unable to travel.

**Tim Loughton:** To ask the Secretary of State for Health what consultation has been undertaken by Tendring Primary Care Trust regarding the proposed closure of general practitioner surgeries in Holland-on-Sea. [155121]

**Dr. Ladyman:** I am advised that Tendring Primary Care Trust (PCT) extended its original consultation period so that it ran from mid January 2003 to mid March 2003 in order for option appraisals to be undertaken. Public consultation meetings were held, consultation documents were circulated, an appraisal workshop was also held and the PCT corresponded with the public and local councillors.

The PCT held an option appraisal day, which was attended by member of the public, resident associations, the Community Health Council and health professionals. The outcome of the option appraisal day was unanimous support for developing the Kennedy Way site.

**Tim Loughton:** To ask the Secretary of State for Health (1) what sites were considered by Tendring Primary Care Trust for its new headquarters; [155122]

(2) what sites were considered by Tendring Primary Care Trust to replace general practitioner surgeries due to be closed in *(a)* Holland-on-Sea and *(b)* Great Clacton. [155123]

**Dr. Ladyman:** Tendring Primary Care Trust, in partnership with Tendring District Council and local estate agents, undertook an exhaustive search for a site best befitting the necessary criteria for a new health centre. The key criteria were:

The site needs to be large enough for the proposed health centre, which means it has to be 1.25 acres.

The site needs to be central within the Holland-on-Sea/Great Clacton area.

The site needs to be available for immediate purchase.

The site needs to be allocated for development within the local plan.

Kennedy Way was chosen as the preferred option.

**Tim Loughton:** To ask the Secretary of State for Health what the estimated cost is of the new surgery general practitioners centre in Kennedy Way, Clacton-on-Sea; and what proportion of the site will be occupied by primary care trust administration. [155124]

**Dr. Ladyman:** Tendring Primary Care Trust (PCT) is currently consulting staff, local councillors and residents' representatives on the range of services to be provided from the centre.

The PCT's current estimated figure is £7 million for the health centre and PCT headquarters which it is currently estimated to be split as, £5 million for the health centre and £2 million for the PCT headquarters (these figures are subject to change according to the final service model adopted). The premises will then be leased through the Local Improvement Finance Trust over a 20 year period.

In addition to general practice, additional services will be available from the new site. These are shown in the table. However, until the range of services to be offered is agreed and costed, the PCT is at present unable to define what proportion of the accommodation will be given over to PCT administration. However, the PCT estimates that the large majority of accommodation will be for healthcare provision.

*Clacton and Holland-on-Sea*

**Tim Loughton:** To ask the Secretary of State for Health what the recommendation of Tendring Community Health Council was in the consultation on *(a)* moving the Primary Care Trust headquarters and *(b)* closing (i) Frinton Road Medical Centre and (ii) the Grove Lodge general practitioner surgery. [155125]

**Dr. Ladyman:** This information is not collected centrally.

**Tim Loughton:** To ask the Secretary of State for Health what plans there are to close further general practitioner surgeries in the Tendring Primary Care Trust area after the proposed closure of Frinton Road Medical Centre and the Grove Lodge general practitioner surgery. [155126]

**Dr. Ladyman:** We have no plans to close general practitioner surgeries in the Tendring Primary Care Trust (PCT) area.

However, we are advised that Tendring PCT states that these practices are not closing but relocating to a new purpose-built facility with a wider range of services being offered under the national health service Local Improvement Finance Trust.

The local NHS has no plans to close practices in Tendring; and 75 per cent. of practices have been expanded with additional doctors and nurses, using personal medical services growth money.

**Tim Loughton:** To ask the Secretary of State for Health what funds are being provided by Tendring Primary Care Trust to transport residents of Holland-on-Sea to the new Kennedy Way general practitioner surgery in Clacton-on-Sea; and for what period this funding is assured. [155127]

**Dr. Ladyman:** I am advised by Tendring Primary Care Trust that funding for transporting residents is currently under review.

### UK Medicines (Name Changes)

**Mr. Burstow:** To ask the Secretary of State for Health what the timetable is for implementing the Medicines and Healthcare Products Regulatory Agency awareness campaign for nurses about the recent name changes to UK medicines; and if he will make a statement. [154587]

**Ms Rosie Winterton:** The names of some medicinal substances are changing in the United Kingdom so that British approved names reflect recommended International non-proprietary names, where these currently differ. This action is being taken on the advice of the Medicines Commission and with the support of a wide range of interest groups. It will reduce the risk of confusion on the part of both healthcare professionals and patients arising from the availability on the market of some medicines using two different names.

The name changes were published in the 2003 edition of the British Pharmacopoeia and became effective on 1 December 2003. From this date, licence holders for medicinal products using the old names were given 12 months to apply to the Medicines and Healthcare Products Regulatory Agency to update their licences to use the new names.

We are committed to ensuring that all those who are responsible for prescribing, dispensing and administering medicines receive full information about the name changes and expect shortly to be in a position to issue detailed guidance and advice to healthcare professionals, including nurses.

## NORTHERN IRELAND

### Saville Inquiry

**Mr. Swire:** To ask the Secretary of State for Northern Ireland (1) what the latest estimate is of the cost of the Saville Inquiry; [155314]

(2) which Departments will meet the costs of the Saville Inquiry; and in what proportion. [155315]

**Mr. Spellar:** The latest figure available to the end of December 2003 for the cost of the Inquiry is a total of £129.9 million. £103.7 million (80 per cent. of the total) of this falls to the Northern Ireland Office and my right hon. Friend the Secretary of State for Defence advises me that his Department to the end of December 2003 has spent £26.2 million (20 per cent. of the total).

The Departments which have incurred directs costs in connection with the Bloody Sunday Inquiry are the Northern Ireland Office and the Ministry of Defence. The small amount of expenditure by a number of other Departments is de minimis.

**Mr. Swire:** To ask the Secretary of State for Northern Ireland how many lawyers have been employed during the course of the Saville Inquiry; and what the latest estimate of the costs of employing lawyers during the inquiry is. [155316]

**Mr. Spellar:** I refer the hon. Member to the answer I gave to the hon. Member for East Londonderry (Mr. Campbell) on 12 January 2004, *Official Report*, column 544W and the follow-up letter I wrote on 11 February, the text of which is set out as follows.

*Letter from John Spellar to Mr. Gregory Campbell on 11 February 2004:*

Further to the part reply I gave to your recent written parliamentary question on 12 January 2004, *Official Report*, column 544W, I am now able to provide the detailed information you requested about payments made to each of the legal firms involved in the Bloody Sunday Inquiry. These payments include VAT and other disbursements where appropriate and so do not necessarily represent the amounts received by individuals.

The following table provides the latest details of payments made by the Northern Ireland Office.

£

| | | Period covered | | |
|---|---|---|---|---|
| | *Payments made* | *From* | *To* | *Note* |
| *Counsel for the Inquiry* | | | | |
| Christopher Clarke | 3,721,971 | February 1998 | January 2004 | |
| Jacob Grierson | 394,879 | July 1998 | December 2000 | Left the case in December 2000 |
| Cathryn McGahey | 1,078,130 | June 2000 | January 2004 | |
| Bilal Rawat | 842,701 | June 2000 | January 2004 | |
| Alan Roxburgh | 1,518,831 | May 1998 | January 2004 | |
| *Solicitors employed for the taking of witness statements* | | | | |
| Eversheds | 12,609,388 | June 1998 | August 2003 | |
| *Senior Counsel representing the families*[1] | | | | |
| Lord Gifford | 618,544 | October 1998 | September 2003 | |
| Arthur Harvey | 767,362 | July 1998 | January 2003 | |
| Michael Lavery | 549,880 | November 2000 | June 2003 | |
| B J MacDonald | 507,683 | September 1998 | December 2002 | Left the case (as a junior) in September 2000 and rejoined the case (as a senior) in July 2001. |
| P T MacDonald | 65,800 | April 1998 | June 1999 | Left the case June 1999 |
| Michael Mansfield | 561,711 | March 1999 | July 2003 | |
| Eilish McDermott | 105,309 | March 2000 | June 2001 | |
| Seamus Treacy | 701,073 | March 1998 | April 2003 | Having started as a junior in March 1998, became a senior counsel in September 2000 |
| Eoin McGonigal | 82,446 | October 2000 | June 2002 | |
| Kevin Finnegan | 235,000 | July 1998 | May 2001 | Left the case in May 2001 |
| *Senior Counsel representing NICRA* | | | | |
| Sir Louis Blom-Cooper | 419,389 | December 2000 | July 2003 | |

| Jacqueline Duff | 149,593 |
| Treasury Solicitor | 2,228,402 |

A copy of this letter has been placed in the Library.

### Ministerial Travel

**Bob Russell:** To ask the Secretary of State for Northern Ireland when he last used a train in connection with his ministerial duties. [155168]

**Mr. Paul Murphy:** Within the UK, the method of transport used in the course of my official duties is determined by security advice from the police. Details are not disclosed for security reasons.

### Obesity

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland whether there is a Northern Ireland-based strategy to address childhood and adult obesity; and if he will make a statement. [156116]

**Angela Smith:** I refer the hon. Lady to the answer I gave on 23 February 2004, *Official Report*, column 166W.

# Written Answers to Questions

*Thursday 26 February 2004*

## FOREIGN AND COMMONWEALTH AFFAIRS

### Chagossians (West Sussex)

**Tim Loughton:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will meet a delegation of West Sussex Social Services councillors and hon. Members to discuss the situation regarding the Chagossians in West Sussex; [156188]

(2) what discussions he has had with West Sussex County Council regarding the settlement of Chagossians in West Sussex; [156189]

(3) for what reasons he has not paid the costs of West Sussex Social Services relating to the settlement of Chagossians in West Sussex; and if he will do so. [156190]

**Mr. Rammell:** I refer the hon. Member to the answer I gave him on 6 November 2003, *Official Report*, column 891W. My officials remain in contact with the Department of Health and the Department for Work and Pensions on this issue. Officers from the Department of Health have already met with West Sussex County Council to discuss the situation and offer constructive advice, and both Departments have stated that they will continue to work with the council to address the matter.

No final decision on the situation of the Chagossians in the UK, including the payment of costs, can be taken until the judicial review proceedings are complete.

### China

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Chinese Government about religious freedom in China. [156235]

**Mr. Rammell:** We raised the issue of religious freedom with the Chinese during the last round of our regular biannual UK/China Human Rights Dialogue held in Beijing on 10 to 11 November 2003. I personally discussed human rights issues more generally when I met with Assistant Foreign Minister Zhang Yesui in Beijing on 17 December 2003.

We have repeatedly made clear that harassment of religious groups is unacceptable and not in keeping with the provisions of the International Covenant of Civil and Political Rights, which we continue to urge the Chinese to ratify.

**Mr. Best:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Chinese Government about their treatment of Christians. [156236]

**Mr. Rammell:** We are deeply concerned about religious freedom in China, including the treatment of Christians, and monitor the situation closely. We regularly raise this issue with the Chinese at the biannual UK/China Human Rights Dialogue; the most recent round was held in Beijing on 10 to 11 November 2003. I personally discussed human rights issues more generally when I met with Assistant Foreign Minister Zhang Yesui in Beijing on 17 December 2003.

We have repeatedly made clear that the harassment of Christians is unacceptable and not in keeping with the provisions of the International Covenant of Civil and Political Rights, which we continue to urge the Chinese to ratify.

### Iraq

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received diplomatic letters from the Mexican Government asking him to clarify whether GCHQ was involved in placing other members of the United Nations Security Council under surveillance in the run up to the war in Iraq; and if he will make a statement. [156196]

**Mr. Straw:** The British Embassy in Mexico City has received a Note Verbale from the Mexican Government on this issue. It is the well-established and long-standing practice of successive governments not to respond to speculation about alleged operational activities by the UK Security and Intelligence Services.

### Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156145]

**Mr. Straw:** I made 18 substantive public speeches outside the House of Commons in my capacity as Secretary of State for Foreign and Commonwealth Affairs in that period. Copies of them and of future such speeches can be found on the FCO website (www.fco.gov.uk).

### Mr Jafar Dhia Jafar

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 11 December 2003, *Official Report*, column 587W, on Mr. Jafar Dhia Jafar, when he will write to the hon. Member. [149479]

**Mr. Mullin:** I wrote to the hon. Member on 30 January 2004.

### Passport Renewal (Harare)

**Mr. Chope:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the British High Commission in Harare accepts transfer payments in sterling for payment of passport renewal applications. [156675]

**Mr. Mullin:** No. Consular fees in Harare can currently only be paid in cash, or by bankers cheque, in local currency.

**Mr. Chope:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the charge for a new 10-year British passport issued in Harare is in *(a)* sterling and *(b)* Zimbabwean dollars. [156676]

**Mr. Mullin:** The current sterling fee for issuing a standard British passport overseas is £56.50 for an adult and £36.50 for a child. The cost in local currency at the British Embassy in Harare is 430,500 Zimbabwean dollars at present, although this will vary as the exchange rate fluctuates.

### UK Presidencies (G8 and EU)

**Tom Brake:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with ministerial colleagues in the last 12 months on the priorities the Government intend to pursue when the UK assumes the presidencies of the *(a)* G8 and *(b)* EU. [156183]

**Mr. MacShane:** Detailed planning and discussion are going on within, and between, Departments at ministerial and official level. Formal discussions in Cabinet and Cabinet Committees will take place as necessary. The broad framework for work during the next five EU presidencies (including our own) is provided in the Council's Multi-Annual Strategic Programme, which has been placed in the Library of the House.

### UN Security Council (Surveillance)

**Mr. Gerrard:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received letters from the Governments of *(a)* Chile and *(b)* Mexico regarding surveillance of delegates to the UN Security Council; and if he will make a statement. [156479]

**Mr. Rammell:** The British Embassy in Mexico City received a Note Verbale from the Mexican Government on this issue. We have received no such correspondence from the Chilean Government.

It is the well-established and long-standing practice of successive governments not to respond to speculation about alleged operational activities by the UK Security and Intelligence Services.

## ADVOCATE-GENERAL

### Departmental Costs

**Miss McIntosh:** To ask the Advocate-General what the total cost of running the office of the Advocate-General was in the latest year for which figures are available. [R] [154170]

**The Advocate-General for Scotland:** The identifiable costs of the office are not limited to the work of the Advocate-General but include litigation and advisory work, including the preparation of Bills, carried out by lawyers from the Office of Solicitor to the Advocate-General on behalf of Government Departments. The figure for 2002–03, in respect of identifiable costs of staff and related administration for my office, was £1,538,154.

## CULTURE, MEDIA AND SPORT

### Advisory Panel on Illicit Trade

**Mr. Randall:** To ask the Secretary of State for Culture, Media and Sport when she expects the Advisory Panel on Illicit Trade to *(a)* report next and *(b)* be wound up. [155802]

**Estelle Morris:** I refer to the Government's response (published on 24 February) to the report (published on 16 December 2003) of the Select Committee for Culture, Media and Sport Cultural Objects: Developments since 2000.

*(a)* It is envisaged that the Illicit Trade Advisory Panel (ITAP) will produce its final report by March 2005. The exact timing of the report will be decided by the Panel at its next meeting.

*(b)* It is the intention of the DCMS to begin to wind up ITAP. We are extremely grateful to the Chairman and members of the Panel for all their work in advising Government. However, it is felt that resources should now be focused on the implementation of the new policy framework. The timing of the last meeting will be decided by ITAP itself.

## PRIME MINISTER

### Ministerial Meetings (Note Taking)

**Mr. Lilley:** To ask the Prime Minister what action he has taken to implement the recommendations of Sir Anthony Hammond about writing notes of ministerial meetings and telephone conversations. [156375]

**The Prime Minister:** Following the publication of Sir Anthony Hammond's report, the then Cabinet Secretary (now Lord Wilson of Dinton GCB) wrote to all Departments enclosing guidance on the management of private office papers. It is for individual Departments to determine their own arrangements taking account of this guidance.

### UK Presidencies (G8/EU)

**Tom Brake:** To ask the Prime Minister what discussions he has had with ministerial colleagues in the last 12 months on the priorities the Government intend to pursue when the UK assumes the presidencies of the *(a)* G8 and *(b)* EU. [156185]

**The Prime Minister:** I refer the hon. Member to the answer my hon. Friend the Minister for Europe gave him today.

## SCOTLAND

### Devolution

**Mr. Rosindell:** To ask the Secretary of State for Scotland what the cost was to public funds of setting up devolved government in Scotland, excluding the cost of building the new parliament building in Edinburgh. [154396]

**Mrs. McGuire:** It is not possible to determine the costs of setting up devolved government in Scotland. Any costs since 1 July 1999 are a matter for the Scottish Executive. There has been no increase in the Scottish block to meet additional costs of devolution.

### Department Branding

**Mr. Laws:** To ask the Secretary of State for Scotland how much his Department and its predecessors spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154070]

**Mrs. McGuire:** The Scotland Office was established on 1 July 1999. Since then, there has been no expenditure on consultancy fees relating to branding the department and expenditure on new stationery or material featuring logos was minimal. The office spent £2,988 on branding in 1999–2000, relating mainly to new building signage. The Scotland Office website was set up in 1999 by departmental staff.

In the period 1 May 1997 to 30 June 1999, the Scottish Fisheries Protection Agency, now an agency of the Scottish Executive, spent £57,156 in respect of its agency logo and associated branding. Since 1 July 1999 expenditure on branding within the Scottish Executive or its agencies has been a matter for the Executive.

### Publicity Campaigns

**Malcolm Bruce:** To ask the Secretary of State for Scotland how much *(a)* his Department and *(b)* each agency and non-departmental public body sponsored by his Department spent on (i) advertising and (ii) information campaigns in each year since 2002–03. [149915]

**Mrs. McGuire** *[holding answer 22 January 2004]:* The Scotland Office spent £10,390 on advertising in 2002–03. There has been no expenditure on advertising to date in 2003–04.

The Boundary Commission for Scotland spent £54,613 in 2002–03 on advertising statutory notices. Expenditure to date in 2003–04 is £62,557.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Scotland what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155527]

**Mrs. McGuire:** There has been no expenditure on recruitment advertising by the Scotland Office.

## MINISTER FOR WOMEN

### Earnings Differentials

19. **Tony Lloyd:** To ask the Minister for Women what the latest statistics are on the differential between male and female earnings for *(a)* men in the upper 10 per cent. of male earnings and women in the upper 10 per cent. of female earnings, *(b)* average male earnings and average female earnings and *(c)* men in the bottom 10 per cent. of male earnings and women in the bottom 10 per cent. of female earnings. [156273]

**Jacqui Smith:** The full-time hourly gender pay gap is 19.8 per cent. at the upper decile of the earnings distribution, and 9.11 per cent. at the bottom decile. The mean average hourly pay gap is 18.0 per cent. compared to a median average pay gap of 12.9 per cent.

### Social Care (Female Employment)

20. **Mr. Burns:** To ask the Minister for Women if she will make a statement on female employment in social care. [156274]

**Jacqui Smith:** Social care has a predominately female workforce. Employers need policies that recruit, develop and retain women in these important roles.

### Domestic Violence

21. **Mr. Willis:** To ask the Minister for Women what steps she has taken to ensure the safety of children whose parents have separated as a result of domestic violence. [156278]

**Ms Hewitt:** Children who grow up in homes where there is domestic violence will always be affected by it. In, 'Every Child Matters', the government's consultation document, we outline proposals that will give:

Improved support to parents through better universal and targeted services for families.

Early intervention and protection, with improved information sharing between agencies, a common needs assessment framework, assignment of a lead professional in cases where a child faces multiple risk factors, and multi-disciplinary teams in and around schools.

Greater accountability and integration of services locally, regionally and nationally, with a Director of Children's Services in every local authority and Local Safeguarding Children Boards.

A workforce reform strategy which will help the recruitment and retention of key professionals.

### Equal Pay

**Mr. Denham:** To ask the Minister for Women what action she proposes to close the pay gap between men and women in the south-east of England. [156277]

**Jacqui Smith:** The pay gap in the south-east is the second largest in Great Britain. This is in part because some men's earnings are particularly high there.

The pay gap problem is, however, a national one, and we are taking forward a number of measures to address it. These include the introduction of the national minimum wage, benefiting around one million women, and provisions in the Employment Act spreading good practice on equal pay.

### Parliamentary Questions

**Mr. Brady:** To ask the Minister for Women how many days on average her Office took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155930]

**Ms Hewitt:** The Department's database has not separately identified figures for questions that I have answered as Minister for Women. Therefore, these figures are included in the answer to my hon. Friend's question 155390.

## TRADE AND INDUSTRY

### Energy Efficiency Industry

11. **Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry when she last met leaders of the construction sector of the energy efficiency industry. [156263]

**Nigel Griffiths:** The Secretary of State attended the Better Buildings Summit on 21 October 2003 and met many people with an interest in energy efficiency issues and construction. In addition, in my role as Construction Minister I regularly meet with a range of organisations with an interest in this area including CIBSE, CPA and BSRIAS. Actions agreed at the Better Buildings Summit are being taken forward by the Sustainable Buildings Task Group. This includes action on energy efficiency.

### Government Energy Targets

12. **Mr. Robathan:** To ask the Secretary of State for Trade and Industry what assessment she has made of the likelihood of reaching the Government's energy targets for 2010. [156264]

**Mr. Timms:** The Government remain confident that their target of 10 per cent. of electricity consumption from renewable sources by 2010 will be met. The target is challenging but we have established a framework of policies and measures for expansion, and industry has responded favourably to these.

### Balance of Trade (UK/EU)

13. **Sir Teddy Taylor:** To ask the Secretary of State for Trade and Industry what the balance of trade with the EU was in the most recent 12 months for which figures are available; and what the balance was *(a)* five and *(b)* 10 years ago. [156265]

**Mr. Mike O'Brien:** In the year to the third quarter of 2003, the UK's balance of trade in goods and services deficit with the European Union was 2.5 per cent. of GDP. In 1998 and 1993, the deficits were 0.7 and 0.9 per cent. of GDP respectively.

### Manufacturing (Yorkshire and Humber)

14. **Helen Jackson:** To ask the Secretary of State for Trade and Industry if she will make a statement on regional support for manufacturing in Yorkshire and Humber. [156266]

**Jacqui Smith:** The Government are committed to supporting manufacturing in the UK. The Government's Manufacturing Strategy (published in May 2002) focuses on building a strong and successful manufacturing sector—supporting good quality jobs. Within Yorkshire and the Humber, Yorkshire Forward, the Regional Development Agency for the region has made manufacturing a key priority in the Regional Economic Strategy.

### Industrial Relations

15. **Vera Baird:** To ask the Secretary of State for Trade and Industry what steps she is taking to promote new ways of working in industrial relations. [156269]

**Mr. Sutcliffe:** My Department has introduced various initiatives in recent years to promote new ways of working in industrial relations. The Employment Relations Bill, currently before Parliament, includes provisions to implement the information and Consultation Directive and an amendment to provide funding for the modernisation of trade unions.

### Manufacturing

16. **Mr. Luke:** To ask the Secretary of State for Trade and Industry what steps her Department is taking to promote innovation in UK manufacturing. [156270]

**Ms Hewitt:** The recently published Innovation Report, "Competing in the Global Economy: The Innovation Challenge", sets out an action plan to drive up levels of innovation in UK-based businesses. We are also taking forward a range of actions, as part of the Government's Manufacturing Strategy, to promote innovation in manufacturing to help our companies compete effectively in the global marketplace on the basis of high-skills and high-value products. These actions include the highly successful Manufacturing Advisory Service we have established in every region; the extension of the R&D tax credit; and our work with the RDAs to help manufacturers exploit the UK's strong science, engineering and technology base. We will publish a progress report on the implementation of the Manufacturing Strategy in May 2004.

### Departmental Budget

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what her Department's annual *(a)* staff and *(b)* car budget was for each year since 1997. [153547]

**Ms Hewitt:** Total spending by Department of Trade and Industry from its gross controlled Administration Budget on its staff and car budgets was as follows:

| | *Staff costs (£)* | *Car charges (£)* | *Car charges as a percentage of staff costs* |
|---|---|---|---|
| 1997–98 | 227,000 | — | — |
| 1998–99 | 229,000 | 714.5 | 0.31 |
| 1999–2000 | 225,000 | 560.6 | 0.25 |
| 2000–01 | 261,000 | 597.4 | 0.23 |
| 2001–02 | 221,000 | 652.2 | 0.30 |
| 2002–03 | 276,000 | 749 | 0.27 |

The staffs costs figures can be found in the Department of Trade and Industry's Expenditure Plans 1999–2000 to 2001–2002 (Cm 4211) and the 2003 Departmental Report (Cm 5916).

The car charges exclude the ministerial car service. The figure for 1997–98 is not readily available.

## Carbon Dioxide Emissions

**Bob Spink:** To ask the Secretary of State for Trade and Industry what plans she has to amend the Government's UK emissions targets for carbon dioxide; and if she will make a statement. [154221]

**Mr. Timms:** The Government plans to move towards a 20 per cent. reduction in CO2 emissions by 2010. There has been no change in this intention.

## Electricity Supply

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what the margin of electricity capacity to meet winter peaks was for each year since 1993. [155266]

**Mr. Timms:** Based on data published by the National Grid Company in its annual "Seven Year Statement" and quarterly updates, out-turn figures for the total installed generating capacity, the average cold spell peak demand and the corresponding plant margin in England and Wales since the winter of 1993–94 are shown in the following table.

| *Winter* | *Total installed capacity (GW)* | *Average cold spell peak demand (GW)* | *Plant margin (Percentage)* |
|---|---|---|---|
| 1993–94 | 60.8 | 48.5 | 25.4 |
| 1994–95 | 59.5 | 48.9 | 21.7 |
| 1995–96 | 57.2 | 49.7 | 15.1 |
| 1996–97 | 61.4 | 50.9 | 20.6 |
| 1997–98 | 62.3 | 51.3 | 21.4 |
| 1998–99 | 63.3 | 51.5 | 22.9 |
| 1999–2000 | 64.7 | 52.4 | 23.4 |
| 2000–01 | 66.6 | 53.2 | 25.3 |
| 2001–02 | 68.0 | 54.1 | 25.6 |
| 2002–03 | 66.8 | 55.5 | 20.3 |
| 2003–04[1] | 68.0 | 55.9 | 21.6 |

[1] Provisional

**Mr. Wiggin:** To ask the Secretary of State for Trade and Industry what recent discussions she has had with electricity generators regarding the supply of electricity. [155387]

**Mr. Timms:** Department of Trade and Industry Ministers hold regular meetings with electricity companies, including generators, to discuss a wide range of issues affecting the electricity industry, including the supply of electricity.

**Mr. Peter Duncan:** To ask the Secretary of State for Trade and Industry if she will make a statement on plans to invest in infrastructure to reduce instability of power in rural areas. [155471]

**Mr. Timms:** Ofgem's principal objective under the Electricity Act 1989 (as amended) is to protect the interests of consumers and, in performing that duty, it has regard to, among others, individuals in rural areas. Ofgem also has duties to promote efficiency and economy on the part of the distribution network operator (DNO), and the operators themselves have duties under the Act to maintain an efficient and economical system. Ofgem are required to balance these duties and so improvement in rural stability as a consequence of network investment is balanced against the additional costs involved.

I understand that Ofgem are currently in the process of reviewing the distribution price controls with new controls due to be introduced in April 2005. As part of this review, Ofgem will set the limit on the amount of revenue each distribution company can earn per year. As part of the review, Ofgem is assessing the efficient levels of operating and capital costs required for DNOs to meet their statutory obligations as well as to meet pre-determined targets, for example with respect to the number and duration of interruptions.

While Ofgem considers DNO forecasts of costs in assessing the required levels of revenue, it does not endorse or reject investment proposals on an individual basis. Instead, Ofgem provides a package of overall revenue allowances and network performance targets, relating in part to the number of customer interruptions and the duration of interruptions. Dependent upon performance against these targets, DNOs are either financially rewarded or penalised.

Ofgem are currently undertaking customer research to assess customers' willingness to pay for any improvements in standards, the findings of which are due to be published in May 2004. The research aims to gain a better understanding of the relative importance that customers place on quality of service issues and the customer's willingness to pay for any improvements.

I understand that this research will guide Ofgem's decisions on the level of price control revenues and will be taken into account by Ofgem when setting network performance targets, including the amount of revenue exposed for over or under-performance.

**Mr. Peter Duncan:** To ask the Secretary of State for Trade and Industry what regulations are in place to ensure a reliable electricity supply to consumers. [155482]

**Mr. Timms:** Legal responsibility for energy security is shared by my right hon. Friend the Secretary of State for Trade and Industry and Ofgem. My right hon. Friend is responsible for setting the overall regulatory framework for the supply of electricity. A key part of that framework is set out in section 3 A of the Electricity Act 1989 as amended by the Utilities Act 2000 and includes the objectives "to protect the interests of consumers". To this end the Secretary of State has made a statutory instrument (The Electricity Safety, Quality and Continuity Regulations 2002) requiring electricity distribution companies to prevent interruption of supply as far as is reasonably practical. These regulations are enforced by DTI Engineering Inspectors.

Electricity for domestic consumers is provided through their contracts with electricity supply companies which must meet standard licence conditions including the need "to secure that all reasonable demands in Great Britain for electricity are met".

The infrastructure and the flow of electricity between generators and consumers is the responsibility of National Grid and electricity distribution companies. They are both regulated by Ofgem and also have licence conditions and objectives. For example, National Grid has a licence condition to operate the electricity system in an economic, efficient and coordinated manner. The

Secretary of State lays down the Standard Licence Conditions. Enforcement of the licence conditions is for Ofgem.

**Mr. Peter Duncan:** To ask the Secretary of State for Trade and Industry what the estimated number of customer minutes lost of electricity was in *(a)* Dumfries and Galloway, *(b)* Scotland and *(c)* the UK in 2003. [155470]

**Mr. Timms:** The average customer minutes lost of electricity during 2002–03 for the three areas are:

(a) Dumfries and Galloway: 147

(b) Scotland: 79

(c) UK: 110

The average minutes lost per connected customer in the respective regions reflects the reliability of supplies averaged out between those living in rural and urban settings.

### Intellectual Property Rights

**Janet Anderson:** To ask the Secretary of State for Trade and Industry what the Government's policy is on Article 10 of the draft EU Enforcement Directive. [155941]

**Ms Hewitt:** We support the compromise text for the draft EU Enforcement Directive sent by the Council to the European Parliament on 16 February.

In this text Article 10 (provisional measures) provides for a right holder to apply for an interlocutory injunction:

"against an intermediary whose services are being used by a third party to infringe an intellectual property right".

There is also a specific reference to provisions already available under the Copyright Directive 2001/29/EC.

We believe this text preserves the balance achieved in the earlier Copyright Directive and between the interests of right holders and intermediaries such as internet service providers.

**Janet Anderson:** To ask the Secretary of State for Trade and Industry what assessment she has made of the protection of intellectual property rights afforded by the draft EU Enforcement Directive to UK businesses. [155942]

**Ms Hewitt:** We have been assessing the EU Enforcement Directive as it has developed in discussions in the Council Working Party on Intellectual Property and the Permanent Representatives Committee taking account of the various views expressed by interests in response to the Patent Office consultation and informal discussions.

We intend to present a report on the compromise text for the EU Enforcement Directive to the Parliament's Scrutiny Committees.

**Janet Anderson:** To ask the Secretary of State for Trade and Industry what reasons underlie the Government's decision to seek amendments to Articles 10 and 15 of the draft EU Enforcement Directive. [155943]

**Ms Hewitt:** We support the compromise text for the draft EU Enforcement Directive sent by the Council to the European Parliament on 16 February.

We believe this text preserves the balance achieved in the earlier Copyright Directive 2001/29/EC and between the interests of right holders and intermediaries.

**Janet Anderson:** To ask the Secretary of State for Trade and Industry what representations the Government are making to other EU member states to ensure that the draft EU Enforcement Directive offers the best possible degree of protection to UK businesses. [155944]

**Ms Hewitt:** The compromise text sent by the Council to the European Parliament on 16 February was the result of intensive discussions with the Council Working Party on Intellectual Property and the Permanent Representatives Committee together with informal discussions with other member states and the interests in general.

As stated in the Council's letter, the compromise proposal received broad support in the Permanent Representatives Committee, and I believe that if this text is adopted, it will significantly assist UK businesses with the enforcement of their intellectual property rights across the European Community.

### EU Regional Policy

**Ann Winterton:** To ask the Secretary of State for Trade and Industry whether the Government proposals for EU regional policy after 2006 *(a)* falls within existing EU treaty obligations and *(b)* has been accepted by the Commission. [155224]

**Jacqui Smith:** The Government considers that its proposals for EU regional policy after 2006 do fall within existing Treaty obligations. Our proposals aim at reducing disparities between regions, with a focus on the needs of the poorest Member States.

The Commission's proposals for the future development of EU regional policy is set out in its Third Cohesion Report, which was published on 18 February. This report will provide an important contribution to the ongoing debate. We shall want to assess the policy and budgetary implications of the proposals in the report carefully against the Government's objectives for reform.

### Minimum Wage (Workington)

**Tony Cunningham:** To ask the Secretary of State for Trade and Industry how many people are receiving the minimum wage in the Workington constituency. [156267]

**Mr. Sutcliffe:** It is not possible to provide estimates specifically for Workington. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999.

The DTI estimates that between 130,000 and 160,000 people in the North West benefited from the increase in minimum wage rates in October 2003.

### Music Piracy

**Chris Bryant:** To ask the Secretary of State for Trade and Industry what plans she has to tackle music piracy. [156259]

**Mr. Sutcliffe:** Commercial scale piracy is clearly having a serious impact on the music and film industry, which makes an important contribution to the British economy.

The White Paper, "Competing in the Global Economy: The Innovation Challenge Innovation Report", published by the Department in December 2003 (copies have been placed in the Libraries of the House), gave the Patent Office a mandate to agree a new national strategy for intellectual property crime. Development of that strategy is now in hand.

### Near Earth Objects

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on the Government's contribution to the European Space Agency's planned near earth object mission study. [155360]

**Ms Hewitt:** The UK was involved in, and contributed under European Space Agency (ESA) General Studies funding towards, the ESA's Near Earth Object (NEO) mission studies including the "Remote Sensing of NEOs from Space" study and the "Simone" study which looked at options for an inter-planetary intercept mission.

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on steps the Government have taken to promote multi-disciplinary studies of the consequences of impacts from near earth objects on the earth. [155362]

**Ms Hewitt:** The Government supports the findings of the OECD Global Science Forum (GSF) Workshop held in Frascati in January 2003. These include a recommendation for multidisciplinary activity by the International Council for Science (ICSU). That activity has since been approved and is underway. The UK will be involved in the execution of the ICSU activity.

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on steps the Government have taken to establish studies to look into the practical possibilities of mitigating the results of impact and deflecting incoming objects. [155363]

**Ms Hewitt:** Through the current OECD Global Science Forum activity on Near Earth Objects (NEO), the Government are involved in studies to look into the practical aspects of assessing the risk of impacts as well as the related mitigation planning. The UK has actively encouraged the European Space Agency to carry out studies on NEOs and is involved in missions such as the Rosetta mission to the comet Churyumov-Gerasimenko. This will provide significant experience adding to the already substantial knowledge base that will help in the preparation of any deflection mission that may be required.

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on the hazard from near earth objects. [155366]

**Ms Hewitt:** Near Earth Objects (NEO) remain a continuing risk and one which the Government takes seriously. The NEO Information Centre based in Leicester will continue to provide up to date information on the risks to Government and the public.

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on arrangements that have been made for observational data obtained for other purposes by wide-field facilities to be searched for near earth objects on a nightly basis. [155370]

**Ms Hewitt:** The two main new wide-field survey facilities (ESO VISTA in Chile and the WFCAM instrument facility in Hawaii) are currently under construction and plans for their observing programmes are under discussion between PPARC (Particle Physic and Astronomy Research Council) and its partners. In order to undertake routine examination in near real time of the data stream from these facilities, a dedicated software suite would be required.

There are no resources available to provide such a capability. Nevertheless, observing programme managers will exchange information on targets of opportunity, such as Near Earth Objects, on a best efforts basis.

**Lembit Öpik:** To ask the Secretary of State for Trade and Industry if she will make a statement on negotiations to establish an arrangement for small amounts of time to be provided under appropriate financial terms for spectroscopic follow-up of near earth objects; and what financial support she has provided. [155372]

**Ms Hewitt:** I refer to the reply to PQ No. 155371. The Particle Physics and Astronomy Research Council (PPARC) has provided some £2,000 pa to the follow-up and spectroscopic analysis activity.

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Trade and Industry how many days on average her Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155928]

**Ms Hewitt:** According to the Department's PQ database, the Department answered 2,867 Ordinary Written Questions in the session 2002–03. Of these, 2,293 (80 per cent.) were answered within five sitting days. 172 (6 per cent.) took longer than 10 days to receive a reply.

### Post Office

**Mr. Swire:** To ask the Secretary of State for Trade and Industry how many *(a)* urban and *(b)* rural post offices have closed in East Devon since 1997. [155298]

**Mr. Timms:** Decisions on post office closures are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

**Mr. Colman:** To ask the Secretary of State for Trade and Industry how many consultations on post office branch closures have been carried out in the 12 months to 31 January; and how many such consultations have resulted in a branch remaining open. [155883]

**Mr. Timms:** Decisions on post office closure proposals following public consultation are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to my hon. Friend.

**Mr. Denham:** To ask the Secretary of State for Trade and Industry if she will make a statement on the closure programme for post offices in urban areas. [156268]

**Mr. Timms:** Post Office Ltd. reports on the urban reinvention programme on a quarterly basis. As at the end of December 2003:

694 offices had closed under the programme;

46 proposals had been withdrawn or delayed for reworking during the advance notification process agreed with Postwatch;

a further 66 proposals had been withdrawn or amended as a result of public consultation.

Post Office Ltd. had approved 388 applications for investment grants to modernise remaining post offices.

On 5 February, I announced a number of changes, agreed between Post Office Ltd. and Postwatch, to the public consultation arrangements to ensure confidence in them and, by maximising the quality of judgment and transparency, to produce a fair result for customers and the company.

### Post Office Card Accounts

**Tony Cunningham:** To ask the Secretary of State for Trade and Industry if she will make a statement on the progress of arrangements for opening post office card accounts. [156011]

**Mr. Timms:** The post office card account is proving popular with customers. So far, over 2 million people have chosen the card account.

### State Aid Applications

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many state aid applications were received in each of the last five years, broken down by region; how many were allowed in each case; and how many are awaiting decisions. [147859]

**Mr. Mike O'Brien:** The following table sets out the best available information on the number of UK notifications made to, and approved by, the European Commission over the past five years excluding agriculture, fishery and transport cases. It would not be possible to break the figures down to regions within England except at disproportionate cost. Where a notification is not clearly regionally specific it is recorded as UK-wide. In addition there were 10, 58 and 61 cases in the years 2001, 2002 and 2003 respectively deemed approved under the Block Exemption Regulations and Multisectoral Framework 2002.

| | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|
| Notified | 20 | 26 | 25 | 40 | 35 |
| Pending | — | 2 | 1 | 2 | 24 |
| Withdrawn or negative | 1 | — | — | 1 | — |
| Approved | 19 | 24 | 24 | 37 | 11 |
| *of which:* | | | | | |
| UK | 10 | 11 | 11 | 32 | 9 |
| England | 4 | 9 | 4 | 2 | — |
| Scotland | — | 2 | 3 | 1 | — |
| Wales | 3 | — | — | 1 | 1 |
| Northern Ireland | 2 | 2 | 6 | 1 | 1 |

### Taxis/Private Hire Vehicles

**Mr. Chaytor:** To ask the Secretary of State for Trade and Industry what plans she has to initiate further consultation on the Office of Fair Trading report on "The Regulation of Licensed Taxi and PHV Services in the UK"; when she intends to make her final response to the report; and if she will make a statement. [153334]

**Mr. Sutcliffe** *[holding answer 23 February 2004]:* Both Department of Trade and Industry and the Department for Transport have received responses relating to the OFT report. These will be taken into account when the Government respond. When the OFT published their report on 11 November we agreed to respond within 120 days.

### Wind Farms

**Mr. Peter Duncan:** To ask the Secretary of State for Trade and Industry what plans she has to facilitate the *(a)* decommissioning, *(b)* upkeep and *(c)* removal of (i) turbines and (ii) transmission facilities from wind farms; and if she will make a statement. [155478]

**Mr. Timms:** The decommissioning, upkeep and removal of turbines and transmission facilities from wind farms and the restoration of the land are matters for the developer and the relevant planning authorities with appropriate arrangements for these activities being agreed at the planning stage.

**Mr. Peter Duncan:** To ask the Secretary of State for Trade and Industry if she will make a statement on Government financial support to firms looking to establish wind farms. [155479]

**Mr. Timms:** The Government's main instrument for supporting the establishment of wind farms is the Renewables Obligation. The Obligation is a market based support mechanism that requires licensed electricity suppliers to provide a specified proportion of their electricity from renewable sources. This provides an assured market for renewable electricity and that it attracts a premium.

To date, the Government have committed £117 million in grant support to early offshore wind farm development. No direct grant support is provided for onshore wind farm development except for some small household or community installations under the Clear Skies scheme.

**Mr. Peter Duncan:** To ask the Secretary of State for Trade and Industry what discussions she has had with the Scottish Executive on planning policies for wind farms. [155480]

**Mr. Timms:** Planning policy in Scotland is a matter devolved to the Scottish Executive and therefore no such discussions have taken place.

### Working Time Directive

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the number of working hours that would be lost per year by *(a)* all employees, *(b)* male employees and *(c)* female employees if legislation were passed to prevent them from working longer than an average 48 hours per week. [153917]

**Mr. Sutcliffe:** Employers are likely to respond in a variety of ways if legislation were passed to prevent employees from working longer than 48 hours on average. This makes any estimate of the total number of hours worked per year that could be lost difficult.

However, what can be estimated is the total number of hours per year that employees usually work over an average of 48 hours per week. For all employees it is estimated at around 990 million hours per year above 48 hours were worked as of spring 2003. This is equivalent to around $2\frac{1}{4}$ per cent. of total hours usually worked by all employees. For male employees it is around 820 million hours per year and for female employees around 170 million hours per year.

### Wylfa Magnox Reactor

**Llew Smith:** To ask the Secretary of State for Trade and Industry what information she has received on progress made by BNFL to resolve problems with the superheater penetration welds in the Wylfa Magnox reactor. [144507]

**Mr. Timms:** I understand from the company that the issue dates back to 2000 and is now resolved with the plant fully operational.

Wylfa power station was shut down in mid April 2000 when a routine inspection of 64 welds in the boiler system revealed flaws in a number of welds. The welds hold 'superheater headers' (64 pipes that carry steam, which is not radioactive, from the station's boilers to its turbines to make electricity) in position. The integrity of the pipes themselves was never in question. A major project to fit restraints to steam pipes at Wylfa was completed at the start of July 2001.

## CABINET OFFICE

### Special Advisers

**Dr. Cable:** To ask the Minister for the Cabinet Office pursuant to his answer of 26 January 2004, *Official Report*, column 73W, on special advisers, what the cost of the Knowledge Network was in the last year for which figures are available; and if he will make a statement. [156249]

**Mr. Alexander:** In the financial year 2002–03 the Knowledge Network cost £1.5 million in current expenditure and £1.7 million capital. (These figures do not include capital charges or Cabinet Office overheads such as accommodation).

The costs represent the provision of ongoing infrastructure support and the development of web solutions and new systems to facilitate cross-government working.

### Strategy Unit Fisheries Report

**Mr. Carmichael:** To ask the Minister for the Cabinet Office pursuant to his answer of 9 February 2004, *Official Report*, columns 1135–36W, on the Strategy Unit Fisheries report, what the reasons are for the delay in the publication of this report. [156579]

**Mr. Alexander:** We aim to publish the Strategy Unit report on 25 March 2004, a year from its announcement. Copies will be placed in the House Libraries.

The report has been the subject of a detailed consultation with the key stakeholders in the fishing industry.

## DEFENCE

### Iraq

**Mr. Soley:** To ask the Secretary of State for Defence when he expects to receive the report he has commissioned on the availability of body armour during the conflict in Iraq. [154983]

**Mr. Hoon:** The Department has carried out a comprehensive analysis of Operation TELIC and presented its findings in reports published in June and December last year. The availability of Enhanced Combat Body Armour (ECBA) was discussed in these reports. However, in the light of lessons identified during Operation TELIC, policy on the issuing of ECBA to troops on operations is now under review.

**Mr. Hancock:** To ask the Secretary of State for Defence what advice is given to troops in Iraq about the dangers of depleted uranium. [156560]

**Mr. Caplin:** I refer the hon. Member to the answer I gave to my hon. Friend the Member for Stoke-on-Trent, North (Ms Walley) on 5 January 2004, *Official Report*, column 26W.

### Nuclear Weapons (Decommissioning)

**Linda Perham:** To ask the Secretary of State for Defence what steps he is taking to achieve multilateral decommissioning of nuclear weapons. [156076]

**Mr. Hoon:** As a signatory to the Nuclear Non Proliferation Treaty (NPT) the United Kingdom is committed to Article VI in which each State Party to the treaty

> "undertakes to pursue negotiations in good faith on effective measures relating to cessation of the nuclear arms race at an early date and to nuclear disarmament . . ."

The UK anticipates that multilateral nuclear weapons decommissioning would take place within that context. Negotiations to implement Article VI have not yet commenced and are not scheduled. The way forward agreed by NPT States Parties at the 2000 NPT review conference is set out in the final document produced by that conference. The UK has made considerable progress on measures contained in the final document and will play a full role in the third session of the NPT Preparatory Committee in April this year.

## HOME DEPARTMENT

### Asylum Seekers

**Mr. Lansley:** To ask the Secretary of State for the Home Department how many asylum-seekers have been detained pending removal at the Oakington Immigration Reception Centre during 2003. [145365]

**Beverley Hughes:** Information on the number of people detained pending removal from the United Kingdom and on the total number of detainees held under the Immigration Act during 2003 is not available and could be obtained only by examination of individual case-files at disproportionate cost.

The latest available information on people held in the Immigration Removal Estate show that at 27 September 2003 260 people were housed at the Oakington Immigration Reception Centre.

**Mr. George Howarth:** To ask the Secretary of State for the Home Department how many asylum applications the UK has received for each of the last five years; and what the comparable figures are for each country in the European Union. [155508]

**Beverley Hughes:** The table shows the number of asylum applications received in each European Union country in each of the last five years.

*Applications[1] received for asylum in Europe, including dependants, by year of application, 1998 to 2003*

| | *1998* | *1999* | *2000* | *2001[2]* | *2002[3]* | *2003[3]* |
|---|---|---|---|---|---|---|
| Austria | 13,800 | 20,100 | 18,300 | 30,100 | 39,400 | 32,400 |
| Belgium[4] | 25,000 | 40,800 | 48,700 | 28,000 | 21,400 | 19,300 |
| France[4] | 25,500 | 35,100 | 44,200 | 53,900 | 58,100 | 69,300 |
| Germany | 98,600 | 95,100 | 78,600 | 88,300 | 71,100 | 50,400 |
| Greece[5] | 3,000 | 1,500 | 3,000 | 5,500 | 5,700 | 8,200 |
| Italy[6] | 9,500 | 33,400 | 18,000 | 9,600 | 7,300 | n/a |
| Luxembourg[5] | 1,700 | 2,900 | 600 | 700 | 1,000 | 1,600 |
| Netherlands | 45,200 | 39,300 | 43,900 | 32,600 | 18,700 | 13,400 |
| Portugal[5] | 400 | 300 | 200 | 200 | 200 | 100 |
| Spain | 6,600 | 8,400 | 7,200 | 9,200 | 6,200 | 5,700 |
| Denmark[7] | 5,700 | 6,500 | 10,100 | 12,500 | 5,900 | 4,600 |
| Finland[7] | 1,300 | 3,100 | 3,200 | 1,700 | 3,400 | 3,100 |
| Ireland | 4,600 | 7,700. | 10,900 | 10,300 | 11,600 | 7,900 |
| Sweden[7] | 12,800 | 11,200 | 16,300 | 23,500 | 33,000 | 31,400 |
| United Kingdom[8] | 58,500 | 91,200 | 98,900 | 91,600 | 103,100 | 61,100 |
| Total EU | 312,300 | 396,700 | 401,900 | 397,600 | 386,100 | 308,400 |

[1] Figures rounded to the nearest 100.
[2] Provisional figures.
[3] Revised figures.
[4] Figures based on IGC data but adjusted to include an estimated number of dependants.
[5] Figures based on UNHCR data, including dependants.
[6] UNHCR data.
[7] Signed up to the Schengen agreement but not operating its provisions.
[8] Figures have been adjusted to include an estimated number of dependants between 1998 and 2001. 2002 and 2003 figures based on actual data.

Annual data on asylum applications to EU member states are published in quarterly web pages and in the Home Office annual statistical bulletin Asylum Statistics United Kingdom, copies of which are available from the Library of the House and from the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

**Mr. George Howarth:** To ask the Secretary of State for the Home Department what his forecasts are for asylum applications for each of the next five years; and what the comparable figures are for each EU member state. [155509]

**Beverley Hughes:** We have already reduced the monthly intake of asylum applications by half since October 2002. Current policy initiatives, such as juxtaposed controls in France and the deployment of detection technology at continental ports, are designed to prevent those who seek to circumvent our controls at specific ports of entry from doing so. The Government are confident that this and further measures will continue to reduce misuse of the asylum system and the numbers of unfounded asylum claims. The measures we introduced in the Nationality, Immigration and Asylum Act 2002 and the subsequent robust measures to ensure the integrity of our borders are testament to that.

Population and migration projections are published by the Government Actuary's Department, available from the Library of the House.

**Charles Hendry:** To ask the Secretary of State for the Home Department what *(a)* financial and *(b)* other support services are available to an asylum seeker aged between 16 and 18-years-old who is in the UK without family. [155641]

**Beverley Hughes:** Services for unaccompanied asylum seeking children aged between 16 and 18-years-old are the responsibility of local authority social services departments. Their needs are assessed and support services provided accordingly in ways that are the equivalent of any other child in need. In all but a very few cases the local authority will make all necessary financial provision for them. In the few cases, for example, where leave to remain has been granted and their individual social services pathway plan permits, they may access benefits as part of an overall range of provision.

**Mr. Heathcoat-Amory:** To ask the Secretary of State for the Home Department how many unaccompanied children he estimates arrived in the United Kingdom in each of the last five years from outside the EU. [155797]

**Beverley Hughes:** I regret that reliable information on the entry routes of unaccompanied children to the UK is not available. The available information which relates to the number of asylum applications made by unaccompanied asylum seeking children in the last five years is given in the table.

*Asylum applications from unaccompanied children aged 17 or under*[1]

| | Number of principal applicants | | |
|---|---|---|---|
| *Year* | *Total* | *Port* | *In country* |
| 1998[2] | 3,035 | 1,085 | 1,955 |
| 1999[2] | 3,350 | 1,500 | 1,850 |
| 2000[2] | 2,735 | 1,395 | 1,340 |
| 2001[2] | 3,470 | 1,645 | 1,820 |
| 2002[3] | 6,200 | 1,240 | 4,955 |
| 2003[3,4] | 2,800 | 555 | 2,245 |

[1] Figures rounded to nearest five. Unaccompanied at point of arrival, aged (or if no proof) determined to be 17 or under and not known to be joining a relative or guardian in the UK. Figures exclude disputed age cases.

[2] May exclude some cases lodged at Local Enforcement Offices.

[3] Not comparable with manual counts data prior to 2002.

[4] Provisional figures.

Information on the number of asylum applications from unaccompanied children is published in quarterly web pages and in the annual statistical bulletin Asylum Statistics United Kingdom. Copies of these publications and others relating to general immigration to the UK are available from the Library of the House and from the Home Office Research Development and Statistics Directorate website at: http://www.homeoffice.gov.uk/rds/immigration1.html

## Cannabis

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what the schedule of advertising was for the 2004 cannabis advertising campaign; and what the full cost of the campaign was, broken down by media outlet. [153984]

**Caroline Flint** *[holding answer 9 February 2004]:* The schedule and costs for advertising are as follows:

Radio advertising started on the 22 January for four weeks, on 48 national and regional commercial radio stations in England. Total costs including production, media and research: £387,000.

Press advertising consisted of two insertions in five national press titles (Sun, Mirror, News of the World, Guardian and Telegraph) and one insertion in each of the 108 regional titles. These insertions were on or near the reclassification dated 29 January. Total costs including production, media and research: £305,000.

Other costs including briefings for police, teachers and other professionals; 2.5 million leaflets to be distributed through youth clubs, schools and community groups; postcards appearing in 660 pubs and bars in England and Wales and a contingency fund for reprints: £300,000.

**Mr. Peter Duncan** To ask the Secretary of State for the Home Department how much *(a)* has been spent in the last 12 months and *(b)* will be spent in the next 12 months on public information advertising relating to cannabis. [155475]

**Caroline Flint:** The costs for public information activities relating to cannabis are as follows:

Radio advertising for four weeks. On 48 national and regional commercial radio stations in England. Total costs including production, media and research: £387,000.

Press advertising consisted of two insertions in five national press titles (Sun, Mirror, News of the World, Guardian and Telegraph) and one insertion in each of 108 regional titles. These insertions were on or near the reclassification dated 29 January.

Total costs including production, media and research: £305,000.

Other costs including briefings for police, teachers and other professionals; 2.5 million leaflets to be distributed through youth clubs, schools and community groups; postcards appearing in 660 pubs and bars in England and Wales and a contingency fund for reprints: £300,000.

No decision has been made to date as to how much will be spent over the next 12 months.

## Correspondence

**Mr. Kaufman:** To ask the Secretary of State for the Home Department when he intends to reply to the letter to him dated 6 January 2004 from the right hon. Member for Manchester, Gorton with regard to Mr. Raymond McGinty. [154062]

**Mr. Blunkett:** I wrote to my right hon. Friend on 25 February 2004.

## Immigration and Nationality Directorate

**Mr. Love:** To ask the Secretary of State for the Home Department (1) if he will make a statement on recent staff turnover at the Immigration and Nationality Directorate, with particular reference to caseworkers dealing with asylum applications; [153700]

(2) what measures his Department is taking to minimise disruption to asylum applications resulting from turnover of Immigration and Nationality Directorate caseworkers. [153702]

**Beverley Hughes:** Staffing levels in the Immigration and Nationality Directorate are continually monitored so that staff turnover can be anticipated and planned for to minimise disruption.

The Asylum Casework Directorate utilises business planning forecast models to anticipate and plan for staff turnover. Staff turnover has, as a result, been carefully managed to minimise disruption to the processing of asylum applications. About 80 per cent. of new applications are currently decided within two months (against a target of 75 per cent.).

### Prisons

**Mr. Mark Oaten:** To ask the Secretary of State for the Home Department if he will make a statement on the Prison Service review of the open prison estate; and if he will place a copy in the Library. [155065]

**Paul Goggins:** In his statement on 6 January, in response to concern about prisoners absconding from open prisons, my right hon. Friend, the Home Secretary said that he had asked the new chief executive of the National Offender Management Service to "report on the operation of open prisons". This was a request for advice from officials not for a formal report or review. I am at present considering the advice but it would be inappropriate to publish it and I have no plans to do so.

### Venezuelan Nationals

**Mr. Evans:** To ask the Secretary of State for the Home Department how many of the Venezuelan nationals admitted to the United Kingdom during 2002 returned to their country of origin within the period of their visa requirements. [155404]

**Beverley Hughes:** No data are available on the numbers of persons who return to their country of nationality before their leave to enter or remain in the United Kingdom expires. We do not routinely manually count passengers into and out of the United Kingdom.

We are keeping the option for embarkation controls under review while exploring the extent to which new technology could provide us with more efficient ways of checking those leaving the country.

### Visa Requirements

**Mr. Tynan:** To ask the Secretary of State for the Home Department pursuant to the answer of 27 January 2004, *Official Report*, column 269W, on visa requirements, whether anti-trade union activity is regarded as not being conducive to the public good. [155561]

**Beverley Hughes:** Each case is considered on its individual merits. A person engaged in anti-trade union activity may be refused entry if their presence in the UK was not considered to be conducive to the wider public good.

## HOUSE OF COMMONS

### Fairtrade Products

**Mr. Jim Cunningham:** To ask the Chairman of the Catering Committee if he will recommend to the Refreshment Department that it stocks Fairtrade fruit and chocolate bars in all catering outlets on the Parliamentary Estate. [155813]

**Mr. Dennis Turner:** The Refreshment Department was one of the first organisations to support the Fairtrade movement and has done so for many years. We already stock chocolate made by The Day Chocolate Company throughout our cafeterias, and purchase Fairtrade bananas whenever they are available from our suppliers. All fresh coffee served by the Department is made from beans approved by the Fairtrade organisation, and we stock fairly traded "Clipper" teas and "Geobars" (a cereal snack bar).

The Refreshment Department will be actively supporting the Fairtrade Fortnight, which is being held from Monday 1 March to Sunday 14 March, by promoting our Fairtrade Mark products under their banner "A taste for life". We will also be selling other fairly traded goods, including dried fruits, cookies, pasta, oranges and grapes, which are not always available to the catering market. We believe that these will prove popular with our customers and we hope by this means to encourage our suppliers to stock these products.

## INTERNATIONAL DEVELOPMENT

### Nicaragua

**Mrs. Curtis-Thomas:** To ask the Secretary of State for International Development if he will make a statement on the national level workshop in Nicaragua supported by his Department in 2003. [155244]

**Mr. Gareth Thomas:** The Nicaraguan workshop took place on 3 March 2003. It brought together, for the first time in Nicaragua, Government officials, the private sector, labour organisations, representatives of international certification programmes and retailers. Its aim was to identify possible ways to strengthen the implementation and monitoring of corporate codes of conduct in Nicaragua and thereby improve both the conditions of workers in export industries and the ability of these industries to be competitive internationally.

The workshop made a number of recommendations for action to be taken by the Government, private sector and civil society in Nicaragua: the need to clarify the roles of those involved in monitoring corporate codes of conduct, to improve cooperation between national government officials and international certification programmes, to rationalise monitoring to avoid duplication and conflicting recommendations to factories, and to increase the knowledge of workers of corporate codes of conduct and national labour legislation.

One impact of the workshop was that the women workers association (the Maria Elena Cuadra Movement of Women Workers and Unemployed) integrated the recommendations into its training, advisory and policy work to improve the conditions of workers in the garment industry of the tax free zones.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agricultural Market Price Support

**Mr. Key:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the instruments of agricultural market price support; and how each is *(a)* defined and *(b)* calculated. [151647]

**Alun Michael:** The Common Agricultural Policy includes several instruments whose objective is to support market prices for agricultural products. These are: (i) intervention storage, where public intervention

agencies guarantee to buy products at a set price; (ii) export refunds, which bridge the gap between EU internal market and world market prices, (iii) import tariffs which are a fixed or variable levy on each unit of imported product, and (iv) aid for private storage.

The OECD produces annual estimates of the transfers to agricultural producers which result from market price support in the EU. The estimates are calculated as the difference between the EU domestic price and the equivalent world price multiplied by the level of EU production. The OECD estimates EU market price support for the major commodities in 2002 at around Euro 61 billion.

### Avian Influenza

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 5 February 2004, *Official Report*, column 1012W, on avian influenza, what varieties of poultry have been imported from *(a)* Thailand, *(b)* Pakistan, *(c)* Indonesia, *(d)* Vietnam and *(e)* other countries in South East Asia in each of the last 24 months for which records are available. [155974]

**Mr. Bradshaw:** Information on imports of poultry meat by species is not available.

### Common Agricultural Policy

**Geraldine Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs, if she will make a statement on Common Agricultural Policy reform. [155186]

**Alun Michael:** The EU agreed on 26 June 2003 to a radical shift in the Common Agricultural Policy (CAP). In future, the bulk of subsidies will no longer be linked to production, freeing farmers to produce the safe, high quality food which people want and bringing environmental improvements.

On 12 February my right hon. Friend the Secretary of State, announced how she proposed to implement key features of that groundbreaking reform in England. We will decouple fully in 2005 and move over an eight year transition period towards a flat rate Single Farm Payment to farmers. England will be split into two regions—land in the severely disadvantaged areas (SDAs) of the less favoured areas (LFAs) and all other eligible land. Different rates will apply in these regions. This represents a decisive irreversible and forward-looking shift consistent with the direction that we have already set in the Sustainable Farming and Food Strategy (SFFS) and in the June 2003 CAP reform negotiations.

### Departmental Reports

**Mr. Steen:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the reports her Department has published in each of the last five years; and what the cost has been to public funds of producing each one. [155406]

**Alun Michael:** A list of publications produced by Defra is on the departmental website Defra, UK—Publications home page, and this includes many of the reports that Defra produces. To collate the information requested and to establish the individual production costs would be disproportionate.

### Kew Gardens

**Adam Price:** To ask the Secretary of State for Environment, Food and Rural Affairs how much Government funding has been provided for the Royal Botanic Gardens Kew in each year since 1996 at current prices. [153871]

**Mr. Bradshaw:** Government grant in aid (including capital) to the Royal Botanic Gardens, Kew for each of the years since 1996 was:

| | *£000* |
|---|---|
| 1996–97 | 18,936 |
| 1997–98 | 20,951 |
| 1998–99 | 17,551 |
| 1999–2000 | 17,219 |
| 2000–01 | 16,935 |
| 2001–02 | 19,729 |
| 2002–03 | 16,629 |

### Milk

**Albert Owen:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the increase in price noted in her Department's milk price survey raw milk producers will receive; and what steps she has taken to ensure that raw milk producers receive a fair share of this increase. [154890]

**Alun Michael:** The milk price survey run by the Department records the price paid by the purchasers of raw milk to raw milk producers. Therefore, by definition, all of the increase in price recorded by this survey is received by raw milk producers.

The Office for National Statistics also produce data on the retail price of milk. Transmission of changes between retail and farmgate prices is more complex. This issue was looked at in depth by London Economics for KPMG its report on "Prices and Profitability in the GB Dairy Chain", which was commissioned by the Milk Development Council. London Economics examined the UK milk market for the period from January 1995 to December 2001. On the basis of a rigorous statistical analysis, it concluded that adjustments to retail prices for liquid milk were fully passed back to the farmgate price, although there was a lag of five months before the retail price change was fully reflected in the farmgate price. There were no differences in the impact of retail price increases and decreases on farmgate prices, both were fully transmitted. In contrast a 1 pence increase in the farmgate price resulted in only a 0.6 pence increase in the retail price of liquid milk whereas a 1 pence decrease in farmgate price reduced the retail price by 0.7 pence.

London Economic also looked at the market in cheddar cheese. They found some evidence of a widening gap over the seven year period to 2002 between the retail price and farm gate price on a milk equivalent basis.

### Net Mesh Sizes

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs what research she has conducted on the relationship between net mesh sizes required in commercial trawls and minimum landing sizes. [150939]

**Mr. Bradshaw:** For the main commercial species research has established the general relationship between cod-end mesh size and the average size of fish that can escape through those meshes, on which the minimum landings size is based.

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Environment, Food and Rural Affairs how many days on average her Department took in session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155923]

**Alun Michael:** Records for session 2002–03 were not maintained in such a way to enable the Department to extract the information requested without incurring disproportionate costs but this sort of information will be available in the future following the creation of a new database.

Defra endeavours to reply to all parliamentary questions within parliamentary deadlines wherever possible. None of the 5,444 questions tabled to the Department during the 2002–03 session were left unanswered at Prorogation.

### Turf Farming

**Mr. Pickthall:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's policy towards *(a)* turf farming and *(b)* the restoration of land used when turf farming has ceased in a particular area. [154815]

**Alun Michael:** The Government encourage diversification of agricultural businesses but recognises that this must be done in a sustainable manner. Turf farming involves the cutting and inevitable removal of some topsoil. The use of modern machinery, which removes only a very thin layer of root matter and soil, is encouraged.

There is no specific policy directly addressing this issue but the guidance provided in the Codes of Good Agricultural Practice for the Protection of Soil should be adhered to. The formation of fertile, rich topsoil with high organic matter content is a very slow natural process. Removal of topsoil reduces the productivity of the land by reducing the water and nutrients available to plants and making soil more likely to suffer structural damage. Shallow compact soils are also less able to absorb rainfall and the risk of water erosion and associated diffuse pollution may be increased. Therefore the loss of topsoil should be kept to a minimum in any turf farming operation.

Due consideration needs to be given on the likely risk of compacting the soil and leaving it in a bare condition that could encourage erosion and runoff of water and associated soil materials to water courses, roads etc. To minimise this risk, land formally subject to turf farming should be re-vegetated as soon as practicable. The soil should not be mined of available water and nutrients such that it cannot support the previous agricultural land use once restoration activities are complete.

It should be noted that removing large amounts of surface soil could be regarded as a development as defined by section 55 of the Town and Country Planning Act (1990). As such the business will need planning permission. If businesses do not receive planning permission it is an offence under the Agriculture Land (Removal of Surface Soil) Act 1953 to remove for sale, more than five cubic yards of surface soil from agricultural land in any three-month period unless the removal is reasonably necessary for cutting turf or peat. Advice is available from the local planning authority (usually district council or unitary authority) about commercial turf cutting from agricultural land when planning permission is required. The Local Planning Authorities are required to consult with Defra before granting permission for a planning application which is not in accordance with the development plan and would involve (1) the loss of 20 ha or more of grades 1, 2 or 3a agricultural land or (2) a loss which is less than 20 ha but is likely to lead to further losses amounting cumulatively to 20 ha or more.

### Victorian Theme Park (Isle of Wight)

**Mr. Andrew Turner:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her reasons for grant aiding the proposed development of a Victorian Theme Park at Holliers Farm, Branstone, Newchurch, Isle of Wight; and what account she took of the proximity of the Isle of Wight Observatory. [155666]

**Alun Michael:** If the question refers to the Rural Enterprise Scheme 16/020/8002, submitted by Mr. Paul Smith of Jayland Ltd. on 23 December 2002, for the development of Jubilee Park, I can confirm that the application was formally withdrawn on 4 July due to the absence of planning consent. The application was never formally presented to the Defra Regional Appraisal Panel to consider approval for grant aid.

Impacts on the Isle of Wight Observatory would be a matter for consideration by the Local Planning Authority, I understand the authority has received correspondence from the Observatory in respect of potential light pollution.

## LEADER OF THE HOUSE

### Ministerial Meetings

**Adam Price:** To ask the Leader of the House how many meetings he has had in his capacity as Leader of the House in the past eight months. [153624]

**Mr. Hain:** I undertake a wide range of meetings with interested parties. These include meetings with Mr. Speaker, Members of the House, House officials and Cabinet colleagues.

### Opposition Days

**Mr. Hurst:** To ask the Leader of the House (1) for how long *(a)* the Opposition front-bench speakers, *(b)* the Government front-bench speakers and *(c)* other front-bench speakers spoke in Opposition Day debates in each year since 1974; [157062]

(2) how many back-bench members were called to speak, excluding interventions, in Opposition Day debates in each year since 1974; [157063]

(3) how much parliamentary time was allowed for Opposition Day debates in each year since 1974; [157064]

(4) how much parliamentary time was taken by back-bench speeches, excluding interventions, in Opposition Day debates in each year since 1974; [157065]

(5) how many interventions to their speeches were granted by *(a)* Government Ministers and *(b)* Opposition front-bench speakers in Opposition Day debates in each year since 1974. [157066]

**Mr. Hain:** This information is a matter of public record, but could be collated only at disproportionate cost.

## TREASURY

### Alcoholic Drinks (Duty)

**Mr. Hoyle:** To ask the Chancellor of the Exchequer if he will estimate the loss of duty payable to the Government consequent on the purchase of *(a)* beer, *(b)* wine and *(c)* spirits in France by United Kingdom residents in the last year for which figures are available. [155233]

**John Healey:** The most recent estimates of the loss of duty and VAT payable to the Government consequent on purchases of beer, wine and spirits made in all EU member states and on ferries by UK cross-border shoppers during 2001–02 are contained in "Measuring and Tackling Indirect Tax Fraud" (December 2003), a copy of which is available in the Library of the House.

### Business Skills

**Ms Walley:** To ask the Chancellor of the Exchequer what his Department's policy is on developing business skills in young people; and if he will make a statement. [155586]

**John Healey:** The Government are implementing a range of policies to develop business skills in young people, including the recommendations of the Davies Review of Enterprise and the Economy in Education. Enterprise Learning Pathfinders began in this academic year and, from September 2005, all pupils will experience at least five days of enterprise education before they leave school. The Government also provide funding for Enterprise Advisers for disadvantaged schools and in Enterprise Areas, supports organisations such as Young Enterprise and Enterprise Insight, and is setting up a National Council for Graduate Entrepreneurship.

### Customs and Excise

**Mr. Steen:** To ask the Chancellor of the Exchequer if he will change the policy of Her Majesty's Customs and Excise that genuine mistakes made in good faith are not reasonable excuses for surcharge purposes. [156047]

**John Healey:** The VAT system aims to encourage payment of the right tax at the right time. As well as safeguarding revenues, this provides equity for all taxpaying businesses. A business may be penalised if it does not pay the right tax at the right time: the misdeclaration penalty penalises significant or repeated errors in the amount of tax paid and the default surcharge penalises late payment.

The VAT penalty system has safeguards to ensure that businesses are not treated over-harshly. For the smallest businesses, several warnings are issued before a late payment penalty is issued—so that a business would not be penalised until its fifth default. Both misdeclaration penalties and default penalties can be withdrawn if there is a reasonable excuse for an error or delay. In this context, reasonable excuses can include compassionate circumstances or unforeseen events. However, this would not include mistakes of the type to which the hon. Gentleman refers since the penalties are, in part, designed to encourage accuracy.

### Earnings Statistics

**Annabelle Ewing:** To ask the Chancellor of the Exchequer what proportion of *(a)* male, *(b)* female and *(c)* all full-time workers in (i) Scotland, (ii) each of the unitary local authority areas in Scotland and (iii) Great Britain had hourly gross earnings (A) including and (B) excluding overtime of below (1) £7.58, (2) £5.68 and (3) £4.20. [156219]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Ms Annabelle Ewing, dated 26 February 2004:*

As National Statistician, I have been asked to reply to your recent question on the proportion of *(a)* male, *(b)* female and *(c)* all full-time workers in (i) Scotland, (ii) each of the unitary local authority areas in Scotland and (iii) Great Britain had hourly gross earnings (A) including and (B) excluding overtime of below (1) £7.58, (2) £5.68 and (3) £4.20. (156219)

I attach two tables showing the proportion of male and female workers whose average gross hourly pay in 2003 falls below the stated thresholds in Great Britain, Scotland and in Scottish local authorities. Estimates for pay including and excluding overtime are shown separately.

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period. This is the standard definition used for NES tables. The NES does not collect data on the self-employed and people who do unpaid work.

The New Earnings Survey publication criteria ensures that all estimates are undisclosive and of reliable quality, and suppresses estimates that do not meet these criteria. A number of estimates have been removed from the table for this reason. The information is based on the 2003 NES, the latest survey for which data are available.

*Percentage of full-time employees whose average gross hourly pay (including overtime) in 2003 fell below three stated thresholds*

| | Male employees' pay thresholds | | | Female employees' pay thresholds | | | All employees' pay thresholds | | |
|---|---|---|---|---|---|---|---|---|---|
| *Area* | *£7.58* | *£5.68* | *£4.20* | *£7.58* | *£5.68* | *£4.20* | *£7.58* | *£5.68* | *£4.20* |
| Great Britain | 26.4 | 8.5 | 1.2 | 36.8 | 14.7 | 1.9 | 30.3 | 10.9 | 1.4 |
| Scotland | 29.8 | 10.3 | 1.2 | 39.2 | 15.3 | 1.5 | 33.8 | 12.5 | 1.3 |
| *Local Authorities* | | | | | | | | | |
| Aberdeen City | 23.8 | 10.0 | — | 32.7 | 11.2 | — | 27.3 | 10.4 | — |
| Aberdeenshire | 35.4 | 9.8 | — | 46.8 | 26.1 | — | 40.0 | 16.4 | — |
| Angus | 38.4 | 11.6 | — | 44.2 | 18.2 | — | 41.1 | 14.7 | — |
| Argyll and Bute | 39.7 | — | — | 41.7 | — | — | 40.5 | 11.6 | — |
| Scottish Borders, The | 43.0 | 15.1 | — | 57.3 | 25.6 | — | 50.0 | 20.2 | — |
| Clackmannanshire | — | — | — | 50.0 | — | — | 35.7 | 17.9 | — |
| Dumfries and Galloway | 49.2 | 15.6 | — | 52.1 | 26.0 | — | 50.5 | 20.2 | — |
| Dundee City | 26.3 | 10.3 | — | 37.4 | 16.3 | — | 31.1 | 12.9 | — |
| East Ayrshire | 31.0 | 17.2 | — | 38.9 | 18.1 | — | 34.6 | 17.6 | — |
| East Dunbartonshire | 25.0 | — | — | 29.5 | — | — | 27.3 | — | — |
| East Lothian | 36.5 | — | — | — | — | — | 32.0 | — | — |
| East Renfrewshire | 36.1 | — | — | 41.7 | — | — | 38.9 | 13.9 | — |
| Edinburgh, City of | 26.3 | 11.0 | 1.4 | 31.7 | 10.1 | — | 28.5 | 10.6 | 1.2 |
| Falkirk | 32.6 | 13.9 | — | 38.5 | 11.9 | — | 35.2 | 13.0 | — |
| Fife | 29.7 | 8.5 | — | 46.5 | 12.5 | — | 36.7 | 10.2 | — |

### Equitable Life

**Mr. Sarwar:** To ask the Chancellor of the Exchequer if he will make a statement on the matters he referred to the Serious Fraud Office in respect of Lord Penrose's report on Equitable Life. [156233]

**Ruth Kelly:** It would not be appropriate to refer to the content of Lord Penrose's report on Equitable Life in advance of publication.

### Individual Savings Accounts

**Sue Doughty:** To ask the Chancellor of the Exchequer if he will amend the regulatory requirements on transfer of mini cash ISAs between account providers to speed up transfer time; and if he will make a statement. [156402]

**Ruth Kelly:** The ISA regulations state that a transfer of an ISA between account providers must take place within the time stipulated by the investor. However, providers are given a reasonable business period (not exceeding 30 days) to allow for the practical implications of making the transfer.

### Inland Revenue

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many people are employed by the Inland Revenue in *(a)* Lancashire and *(b)* Chorley. [156131]

**Dawn Primarolo:** Within the North West Government Office Region (excluding Merseyside) the Inland Revenue employed 8,534 people at 1 April 2003. Of these 76 were employed in Chorley.

### Management Consultants

**Mr. Flight:** To ask the Chancellor of the Exchequer what the cost to his Department of using management consultants has been in each of the last five years. [148025]

**Ruth Kelly:** The information requested could be provided only at disproportionate cost; HM Treasury does not hold data specifically on the costs of management consultants. Data on the total costs to HM Treasury for external consultants was given in my answer of 31 March 2003, *Official Report*, column 562W.

### Stress Audits

**Mr. Laws:** To ask the Chancellor of the Exchequer how many stress audits were carried out in his Department in each of the last five years; what the cost of each audit was; what assessment of the effects of the audits has been made; and if he will make a statement. [156590]

**Ruth Kelly:** A stress audit was carried out in 2000 at a cost of £20,000. The audit drew attention to several problems and a staff group was set up to assess its recommendations and to take forward an action plan. To measure progress against the 2000 stress audit, a follow up well being survey was carried out in 2003 at a cost of £15,000. Generally the results of the survey were positive: levels of stress had decreased since the 2000 stress audit. However there remained scope for improvement and a new staff group has been set up to focus on what more should be done.

## CONSTITUTIONAL AFFAIRS

### Access to Legal Advice

**Mr. Jim Cunningham:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps his Department is taking to ensure that the same levels of legal advice and support are available to people throughout England. [155034]

**Mr. Lammy:** Our aim in providing legal advice and support is to provide common levels of provision across the country, taking into account local needs. This is done through the Legal Services Commission, which is responsible to the Secretary of State for Constitutional Affairs for maintaining and developing the Community Legal Service (CLS). The key aim of the CLS is to provide greater and more easily accessible civil legal advice services to people within England and Wales. Regional Legal Services Committees and CLS Partnerships are responsible for co-ordinating the delivery of local legal and advice services in their area and, through an analysis of priority legal needs at a local level, can ensure that resources are targeted more effectively to those most in need.

In addition, the Commission has put in place a number of initiatives to improve access to advice that go beyond the traditional model of legal aid provided by solicitors from their offices, including the 'Just Ask!' website and telephone advice services. A national telephone advice service will be available from summer 2004 following a successful pilot.

### Magistrates Courts (Closure)

**Mr. Oaten:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list each magistrates court that has closed in the last two years, broken down by *(a)* parliamentary constituency and *(b)* date of closure. [155954]

**Mr. Leslie:** The responsibility for the number and location of magistrates courts in England and Wales falls to individual Magistrates' Courts Committees (MCCs) to determine, in consultation with their local paying authority. A paying authority that is aggrieved by a determination of an MCC has the right to appeal under section 56(3) of the Justice of the Peace Act 1997 to the Secretary of State for Department for Constitutional Affairs (DCA) within one month of receipt of the written notice of determination.

However, MCCs are not required by statute to inform the Department of proposed courthouse closures that are not subject to an appeal. The following table shows the closures of magistrates courts in England and Wales in 2002 and 2003 compiled from the information that is available to my Department:

| *Court* | *Parliamentary constituency* | *Date of closure* |
|---|---|---|
| Bridgenorth | Ludlow | 31 January 2002 |
| Leominster | Leominster | 31 January 2002 |
| Fakenham | North Suffolk | 1 May 2002 |
| Tunbridge Wells | Tunbridge Wells | 2 June 2002 |
| Beaconsfield | Beaconsfield | 1 July 2002 |
| Buckingham | Buckingham | 1 July 2002 |
| Evesham | Mid Worcestershire | 30 November 2002 |
| Thame | Henley | 31 January 2003 |
| Droitwich | Mid Worcestershire | 21 March 2003 |

| Court | Parliamentary constituency | Date of closure |
|---|---|---|
| Machynlleth | Meirionnydd Nant Conwy | 31 March 2003 |
| Chester le Street | North Durham | 31 March 2003 |
| Rugeley | Cannock Chase | 31 May 2003 |
| Lampeter | Ceredigion | 9 June 2003 |
| Tenby | Carmarthen West and South Pembrokeshire | 30 June 2003 |
| Camberley | Surrey Heath | 30 June 2003 |
| Trowbridge | Westbury | 30 September 2003 |
| Whitchurch | North Shropshire | 03 October 2003 |
| Long Sutton | South Holland and The Deepings | 31 October 2003 |
| Caistor | Gainsborough | 31 December 2003 |
| Horncastle | Louth and Horncastle County | 31 December 2003 |

### Probate

**Mr. Todd:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what representations he has received concerning delays in confirming probate on settlements relating to the estates of deceased mineworkers; and if he will make a statement. [155594]

**Mr. Lammy:** None, although I am informed that the Department of Trade and Industry (DTI) has received representations on this issue. Officials at the DTI are working with solicitors on an indemnity form to ensure grants of probate will not be required on low-value offers. However, all the parties involved are aware of their legal obligations to guarantee that compensation is granted to the right individual.

### Small Claims Track

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what guidance is given to district judges about how to manage cases in the small claims track in which one party is represented and the other not. [155381]

**Mr. Leslie:** Judicial training is the responsibility of the Judicial Studies Board (JSB), an independent body chaired by Lord Justice Keene. The JSB provides written guidance to district judges on the conduct of small claims cases in its Civil Bench Book and on the particular needs of litigants in person in its Equal Treatment Bench Book. Both publications are publicly available via the JSB's website. They are supplemented by a video on the needs of litigants in person. The video is used as a an aid to syndicate discussion on the Civil Continuation Seminar. All district judges attend a Civil Continuation Seminar at three-yearly intervals.

**Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what guidance is given to the management of the small claims track about the availability of free legal advice to litigants in the court building. [155385]

**Mr. Leslie:** In 2001 all civil and family courts in England and Wales gained a Quality Mark under the Community Legal Service (CLS) scheme. This confirms that those courts are committed to improving public access to quality information and legal services, by promoting the services of the CLS.

This involves as a minimum, active signposting and referring people to the CLS directory, but many courts go much further by including reference to the CLS helpline and the 'Just Ask!' Website in leaflets, posters and court correspondence. The allocation questionnaire (a form prescribed by rule) that seeks case management information from the parties currently does not specifically refer to the CLS. In addition a small claims leaflet is sent with the hearing notice, but again there is no reference to free legal advice or where it can be obtained.

The Court Service is working in partnership with the Legal Services Commission and work is already under way to improve public awareness as to where they can obtain free legal advice. That work includes a full review of computer-produced documentation and forms and two pilot schemes. One pilot is providing from court premises up to 30 minutes FREEFONE access to solicitors and advice agencies and the other is establishing an improved and more pro-active level of information service under the CLS scheme.

### Supreme Court

**Mr. Alan Duncan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what arrangements have been made to find a suitable building for the proposed Supreme Court. [156330]

**Mr. Leslie:** An extensive property search was commissioned to identify suitable locations for the new Supreme Court in central London. Following that, a number of options are being considered, both commercial sites and those already on the Government estate. An evaluation of those sites is currently being conducted to identify the preferred building solution.

**Mr. Alan Duncan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs whether it is the Government's policy to construct a new building for the proposed Supreme Court. [156331]

**Mr. Leslie:** A number of options are being considered. Whatever solution is ultimately chosen, the new building for the Supreme Court will need to provide a secure working environment for judiciary and staff and contain appropriate hearing rooms and ancillary accommodation and facilities. It will also have to provide value for money.

**Mr. Alan Duncan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs who has been engaged by the Government to find a suitable location for the proposed Supreme Court. [156332]

**Mr. Leslie:** My Department has reviewed its own estate and consulted the Office of Government Commerce about availability on the London Civil Estate. Additionally, we have approached all Government Departments direct. In order to establish availability in the commercial market, we have engaged the services of property agents Knight Frank to carry out a thorough search of central London locations suitable for the new UK Supreme Court.

**Mr. Alan Duncan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how much has been spent so far on outside consultants charged with the task of finding a suitable location for the proposed Supreme Court. [156333]

**Mr. Leslie:** My Department has committed fees of approximately £19,000 on the search for potential sites for the new Supreme Court. A further £83,000 has been

committed on the analysis and evaluation of the options and completion of the necessary Treasury 'Green Book' style economic appraisals.

As a result of commercial negotiations, this is slightly lower than the figure given by my right hon. and noble Friend, Lord Falconer, in the other place on the 29 January.

**Mr. Alan Duncan:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will publish the specifications set by the Government for a suitable building for the proposed Supreme Court. [156334]

**Mr. Leslie:** The property search is being undertaken on the basis of a requirement for a new or existing building in central London. The space requirement was calculated on the basis of providing at least three hearing rooms requiring 500 $m^2$, 14 judicial chambers and ancillary accommodation totalling 1300 $m^2$, staff accommodation and facilities totalling 800 $m^2$, 400 $m^2$ of public area and facilities and 550 $m^2$ for library and records storage.

## EDUCATION AND SKILLS

### Access Courses

**Chris Ruane:** To ask the Secretary of State for Education and Skills what projects his Department is piloting to increase the number of part-time students from the poorest communities taking up and completing access courses. [156305]

**Alan Johnson:** My Department is piloting no such projects. However, I have asked the Quality Assurance Agency (QAA), which regulates the national recognition of Access Courses, to make proposals which modernise the criteria for access courses, so that they are sufficiently flexible and attractive to meet the needs of today's adult learners. My Department is expecting these proposals in the spring.

**Chris Ruane:** To ask the Secretary of State for Education and Skills what representations his Department has received on the impact of the benefits system on the take up of part-time access courses. [156307]

**Alan Johnson:** Neither my Department nor that of my right hon. Friend the Secretary of State for Work and Pensions have received any specific representations.

### Adult and Community Learning

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills (1) how many people were enrolled on adult and community learning programmes in each year since 1995; [147441]

(2) how many people in England and Wales are enrolled on adult and community learning programmes. [147442]

**Mr. Ivan Lewis:** The numbers of learners in (i) adult and community learning and adult education courses run through local education authorities; (ii) LearnDirect; and (iii) adult basic skills, are set out as follows.

The number of enrolments on adult education courses run through local education authorities (LEAs) in England at 1 November each year is published annually in the Statistical First Release, "Adult Education Enrolments in England". Data on adult and community learning in Wales were collected and published by the National Assembly for Wales. The following table shows the number of enrolments in England and Wales as at 1 November in each year from 1995 to 2002, the latest year for which figures are available. These figures include enrolments on both courses that do and do not lead to a recognised qualification.

*Adult education enrolments[1] in England and Wales: 1995 to 2002*

*Thousand*

| *November* | *England* | *Wales* |
|---|---|---|
| 1995 | 1,153 | 28 |
| 1996 | 1,232 | 39 |
| 1997 | 1,062 | 52 |
| 1998 | 1,115 | 62 |
| 1999 | 1,054 | 67 |
| 2000 | 1,041 | 64 |
| 2001 | 1,052 | [2]59 |
| 2002 | 1,042 | [2]56 |

[1] Enrolments are not the same as learners. Individuals on a number of courses are counted more than once.
[2] Due to changes in data collection, figures from 2001 onwards are not directly comparable with those prior to 2001. Furthermore, data from 2001 relate to the number of enrolments in the first week of December as opposed to November.
*Sources:*
Statistical First Release: "Adult Education Enrolments in England—November 2002"
Statistical First Release: "Adult Education in Wales: Local Authority Provision 2000"
Statistical Bulletin: "Adult Continuing Education in Wales 2001/02 and 2002/03"

The figures in the following table show the numbers of learners on LearnDirect provision in England and Wales in each year since 2000/01, the earliest year for which figures are available.

*Learners (in thousands) on LearnDirect provision in England and Wales 2000/01 to 2002/03*

| *Academic year* | *England* | *Wales* |
|---|---|---|
| 2000/01 | 137 | 4 |
| 2001/02 | 347 | 11 |
| 2002/03 | 485 | n/a |

*Sources:*
LearnDirect
National Council-ELWa

The final table shows the number of enrolments on adult basic skills courses in England and Wales.

*Enrolments (in thousands) on adult basic skills in England and Wales—2000/01 to 2002/03*

| *Academic year* | *England* | *Wales* |
|---|---|---|
| 2000/01 | 724 | 25 |
| 2001/02 | 1,136 | 25 |
| 2002/03 | 1,230 | n/a |

*Notes:*
1. England enrolment data includes Learning and Skills Council funded learning opportunities; estimates from the Offenders' Learning and Skills Unit; and the Department for Work and Pensions.
2. Wales enrolment data from 'National Council-ELWa'.

## Building Schools for the Future Fund

**Mr. Chris Smith:** To ask the Secretary of State for Education and Skills for what reasons the London Borough of Islington was unsuccessful in its recent bid for support from the Building Schools for the Future Fund. [156594]

**Mr. Miliband:** All applications for funding in the first wave of Building Schools for the Future (BSF) were appraised against the criteria we set out in our invitation to all authorities to apply for prioritisation. These criteria were need, as shown by low school standards and relative social deprivation indicated by high levels of take-up for free schools meals, the strength of the authority's educational vision and its capacity to deliver a large procurement project to support that vision. All proposals were rigorously appraised against these criteria and there was stringent moderation to ensure fairness. We prioritised projects which best met these criteria. Unfortunately, total demand was several times the total of over £2 billion we have available for BSF in 2005–06. All unsuccessful wave 1 authorities are automatically eligible, without further application, for prioritisation in subsequent waves of BSF, along with all authorities which expressed interest in later inclusion. Prioritisation of wave 2 and beyond will be on need as shown by low school standards and take-up of free school meals. We aim to announce prioritisation of authorities in further waves of BSF funding later this year.

## Departmental Minutes

**Mr. Lilley:** To ask the Secretary of State for Education and Skills whether it is his Department's policy to make notes of *(a)* meetings and *(b)* telephone conversations involving Ministers; and under what circumstances no notes would be taken. [149529]

**Mr. Stephen Twigg** *[holding answer 20 January 2004]:* The Department follows the central "Guidance on the Management of Private Office Papers", which makes clear that good record management procedures are necessary not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

## Funds/Grants

**Mr. Laws:** To ask the Secretary of State for Education and Skills if he will list the *(a)* standards funds and *(b)* special grants in operation; and if he will make a statement. [156591]

**Mr. Miliband:** The following table shows the Standards Fund grants and special grants allocated by the Department of Education and Skills in 2003–04. The figures include Government grant and local authority contributions where required.

*Standards Fund Grants 2003–04*

| | *Allocations (£ million)* |
|---|---|
| Leadership Incentive Grant | 174.9 |
| Targeted Improvement Grant | 38.3 |
| Special Educational Needs | 79.0 |
| Drugs, Alcohol and Tobacco Education and Prevention | 12.4 |
| Study Support (National) | 54.5 |
| Study Support (Excellence in Cities) | 18.8 |
| Study Support: Quality Development Programme | 0.6 |
| Investigation and Referral Support Co-ordinators | 1.2 |
| Vulnerable Children | 80.1 |

[1] Grant for local authorities rated Excellent and 3* Education under the Audit Commission's Comprehensive Performance Assessment 2002

### Further and Higher Education

**Chris Ruane:** To ask the Secretary of State for Education and Skills what the rate of participation in *(a)* higher and *(b)* further education was in each ward in each of the principal seaside towns in England and Wales in the latest month for which figures are available, listed in descending order, with figures for Welsh seaside towns disaggregated; and if he will make a statement on measures the Government are taking to increase participation in each case. [154961]

**Alan Johnson** *[holding answer 23 February 2004]:* The information covering England is not held centrally; figures for Wales are the responsibility of my right hon. Friend the Secretary of State for Wales.

Data on the percentage of students participating in education or training are not calculated for areas smaller than LEAs, as reliable estimates cannot be made.

The available data for FE show participation rates by LEA for 16 and 17 year olds, and are published in an annual National Statistics Bulletin, 'Participation in Education and Training by 16 and 17 Year Olds in Each Local Area in England'. This latest bulletin is published solely on the DfES website: http://www.dfes.gov.uk/rsqatewav/DB/SBU/b000369/index.shtml

Table three gives participation rates for 16 year olds in full-time education by Local Education Authority, 1998 to 2000, the latest year for which figures are available. Copies of the Bulletin have been placed in the Libraries.

The available data for HE show the proportion of 18 year olds from each LEA who were accepted for entry to full-time undergraduate courses, and are shown in the table.

The Aimhigher programme seeks to improve the attainment of young people in disadvantaged areas, and to raise their aspirations towards higher education. In 2004, Aimhigher will merge with "Partnerships for Progression", a programme funded jointly by the Higher Education Funding Council for England and the Learning and Skills Council. This will create a new, national outreach programme which will operate most intensively in deprived areas. The new programme will cover all seaside towns in England.

### Learning and Skills Council

**Mr. Laws:** To ask the Secretary of State for Education and Skills what buildings are owned by the Learning and Skills Council; what the estimated value is of each; and if he will make a statement. [156592]

**Alan Johnson:** This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to the hon. Member with this information and a copy of his reply will be placed in the Library.

### Modern Apprenticeships

**Rob Marris:** To ask the Secretary of State for Education and Skills how many businesses provided places for modern apprenticeships for the first time in *(a)* 2001–02 and *(b)* 2002–03 to support trainees receiving training through (i) further education colleges and (ii) private training organisations. [150005]

**Mr. Ivan Lewis:** This is a matter for the Learning and Skills Council. I have therefore asked Mark Haysom, the Council's Chief Executive, to write to my hon. Friend with the information requested and to place a copy of his reply in the Library.

### Ofsted

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the cost of Ofsted was in each year from 1997–98 to 2005–06 (estimate); how many staff were employed in each year; and if he will make a statement. [156611]

**Mr. Miliband:** This is a matter for Ofsted. HM Chief Inspector, David Bell, will write to the hon. Member and place a copy of his letter in the Library.

### Parliamentary Questions

**Tim Loughton:** To ask the Secretary of State for Education and Skills when he will answer the question, reference no. 143066, tabled by the hon. Member for East Worthing and Shoreham on 4 December 2003. [151034]

**Alan Johnson:** I refer the hon. Member to the answer I have given today, and I apologise for the delay in replying. The data he requested on students completing three year courses in 2003 have only recently become available.

### Portsmouth City Council

**Mr. Hancock:** To ask the Secretary of State for Education and Skills what factors underlay the decision of his Department to require Portsmouth City Council to consolidate the one-off additional budget supplementary grant for 2003–04 into the 2004–05 settlement. [157282]

**Mr. Miliband:** In 2003–04, the Department made available an additional budget support grant of £28 million to ensure all authorities received at least a minimum increase of 3.2 per cent. per pupil, after taking account of the effect of the Standards Fund and teachers' pension changes.

Portsmouth's share of this was £891,000. This grant has been added to the 2003–04 baseline and Portsmouth's 5 per cent. per pupil Schools Formula Spending Share increase is on top of this enlarged baseline. Therefore, the SFSS for 2004–05 incorporates the £891,000 and the Government expect authorities to passport the full increase in SFSS into the Schools Budget. Portsmouth's Revenue Support Grant for 2004–05 also incorporates this funding as the increase in Revenue Support Grant of 4.2 per cent. was also on top of a baseline that included the £891,000 grant.

**Mr. Hancock:** To ask the Secretary of State for Education and Skills what guidance he has given to *(a)* Portsmouth City Council and *(b)* other local education authorities on funding his 4 per cent. pledge to schools in 2004–05; and if he will make a statement. [157283]

**Mr. Miliband:** The Department has provided detailed guidance to local education authorities concerning the funding changes for 2004–05 through the teachernet website and through direct letters. The Department ensured that every authority received an increase in Schools Formula Spending Share per pupil of at least 5 per cent., compared to the 4 per cent. minimum guarantee for schools. The Department continues to be in dialogue with the handful of authorities that are having difficulty in implementing the guarantee.

### Removing Barriers To Achievement

**Mr. Willis:** To ask the Secretary of State for Education and Skills what sources of funding will be made available to fund Removing Barriers to Achievement; and if he will make a statement. [156067]

**Mr. Miliband:** "Removing Barriers to Achievement" sets out our long-term plans for working in partnership with local authorities, early years settings, schools and the health and voluntary sectors to improve provision for children with special educational needs.

The Strategy contains a programme of sustained action and review over a number of years. The Government have invested significant sums in education with a real terms increase of over 25 per cent. since 1997. Total estimated gross expenditure on pupils with SEN for 2003–04, including estimated spending on centrally funded SEN activities is almost £3.5 billion—as reported by local education authorities in February 2004 as part of their Section 52 Budget Statements. The SEN Strategy focuses on getting the best value for money and using those substantial resources as efficiently and effectively as possible. At national level, improving provision for children with special educational needs will be integral to our existing and developing national strategies and programmes. Similarly, the work set out in the Strategy which is designed to build our evidence base, develop and test out different approaches and spread best practice will also be funded from within existing resources.

Decisions on resources for all areas of public spending from 2006–07 onwards will be taken later in the year as part of the Government's Spending Review.

### School (Corporate Advertising)

**Mr. Willis:** To ask the Secretary of State for Education and Skills (1) if he will estimate the revenue generated for schools in England through corporate advertising in each year since 1997; and if he will make a statement; [156135]

(2) how many schools in England are receiving revenue from corporate advertising; and if he will make a statement; [156136]

(3) if he will list the companies advertising in schools in England; and if he will make a statement. [156137]

**Mr. Miliband:** The Department does not collect this information.

### School Buildings

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills if he will list, for each local authority with one or more schools designated under section 104 and section 100 of the School Standards and Framework Act 1998, how many schools so designated are proposed for *(a)* new building, *(b)* major refurbishment or remodelling of existing building, *(c)* minor repairs and refurbishment to existing buildings and *(d)* no capital works in the local education authority's response to the Building Schools for the Future initiative. [155620]

**Mr. Miliband** *[holding answer 25 February 2004]*: Local education authorities (LEAs) submitted proposals and expressions of interest for Building Schools for the Future (BSF) outlining what sort of work they envisaged for their schools and included 118 selective schools. The following table gives the breakdown requested. Given the long planning period of 10 to 15 years from 2005–06, these figures should be treated with some caution.

*Table listing for each local authority with one or more schools designated under section 104 and section 100 of the School Standards and Framework Act 1998, how many schools so designated are proposed for (a) new building, (b) major refurbishment or remodelling of existing building, (c) minor repairs and refurbishment to existing buildings and (d) no capital works in the local education authority's response to the building schools for the future initiative*

| LEA | Number of selective schools | Type A[1] | Type B[2] | Type C[3] | Type D[4] |
|---|---|---|---|---|---|
| Birmingham | 8 | 0 | 8 | 0 | 0 |
| Bournemouth | 2 | 2 | 0 | 0 | 0 |
| Bromley | 2 | 1 | 2 | 2 | 2 |
| Buckinghamshire | 13 | 10 | 13 | 13 | 13 |
| Calderdale | 2 | 2 | 1 | 0 | 0 |
| Devon | 1 | 1 | 1 | 1 | 1 |
| Enfield | 1 | 1 | 1 | 1 | 0 |
| Essex | 4 | 4 | 4 | 4 | 3 |
| Kent | 32 | 32 | 22 | 0 | 11 |
| Kingston upon Thames | 2 | 1 | 2 | 2 | 0 |
| Kirklees | 1 | 1 | 0 | 0 | 0 |
| Liverpool | 1 | 0 | 0 | 0 | 1 |
| Medway | 6 | 6 | 6 | 6 | 4 |
| North Yorkshire | 3 | 2 | 2 | 0 | 0 |
| Plymouth | 3 | 2 | 2 | 2 | 0 |
| Poole | 2 | 0 | 2 | 2 | 0 |
| Reading | 2 | 2 | 2 | 2 | 0 |
| Redbridge | 2 | 2 | 2 | 2 | 0 |
| Southend-on-Sea | 4 | 3 | 4 | 4 | 4 |
| Stoke-on-Trent | 1 | 1 | 1 | 1 | 0 |
| Sutton | 5 | 5 | 5 | 2 | 4 |
| Telford and Wrekin | 2 | 2 | 1 | 1 | 1 |
| Torbay | 3 | 3 | 1 | 2 | 3 |
| Trafford | 7 | 7 | 5 | 2 | 0 |
| Walsall | 2 | 2 | 0 | 0 | 0 |
| Warwickshire | 5 | 5 | 5 | 5 | 3 |
| Wiltshire | 1 | 1 | 1 | 0 | 1 |
| Wolverhampton | 1 | 0 | 1 | 1 | 0 |

[1] New build
[2] Refurbishment and remodelling of existing buildings
[3] Minor refurbishment with limited repairs to existing buildings
[4] No work proposed

For each school LEAs were requested to indicate what percentage of work fell into each of the types above. For example a school may have 25 per cent. type A, 25 per cent. type B, 25 per cent. type C and 25 per cent. type D. The table shows the number of selective schools included in each LEA and the numbers of those where some work is included in each type of work. Some LEAs chose not to give school details in their expressions of interest and, therefore, no information is available for these.

### Specialist Schools

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills if he will list each *(a)* specialist school and *(b)* non-specialist school designated under section 104 of the School Standards and Framework Act 1998, together with the number of pupils they have selected in each of the last six years. [155623]

**Mr. Miliband** *[holding answer 25 February 2004]:* Section 104 of the School Standards and Framework Act 1998 relates to designation of schools as grammar schools. Of the 164 maintained grammar schools in England, 98 are also specialist schools. The list below shows which grammar schools are specialist and which are not.

Grammar schools select the whole of their intake. Information is not held centrally on the actual numbers admitted by each of these schools.

**Mr. Willis:** To ask the Secretary of State for Education and Skills how many specialist schools are receiving sponsorship from corporate and charitable sponsors. [156138]

**Mr. Charles Clarke:** All specialist schools are required to raise a proportion of the £50,000 unconditional sponsorship from corporate or charitable sponsors. Therefore, the 463 schools which became operational as specialist schools in September 2003, and the 240 which will be operational from September 2004, all receive funding from these sources.

**Mr. Willis:** To ask the Secretary of State for Education and Skills if he will list the corporate sponsors sponsoring specialist schools. [156139]

**Mr. Miliband:** All specialist schools are required to raise a proportion of the £50,000 unconditional sponsorship from corporate or charitable sponsors. It would be disproportionately costly to provide information on all corporate sponsors currently sponsoring individual specialist schools. In addition, some sponsors prefer to remain anonymous. However, the Specialist Schools Trust, who are charged with raising sponsorship for specialist schools, will be able to provide a list of some of the main corporate sponsors of specialist schools. I will write to you with this information once permission has been obtained from the relevant sponsors.

### Strategic Area Reviews

**Helen Jones:** To ask the Secretary of State for Education and Skills what progress has been made by learning and skills councils in carrying out strategic area reviews; and if he will make a statement. [156633]

**Alan Johnson:** Last April all local Learning and Skills Councils (LSCs) started strategic area reviews of post-16 LSC-funded provision. These reviews assess the extent to which the current pattern of post-16 learning in each local area meets the needs of learners, employers and the community and are a key driver for change.

Each local LSC has developed project plans, put in place local review arrangements and agreed a timetable for the review process. The majority of local LSCs are now completing the information gathering and analysis stage of the review and some are now starting to consider possible strategic options. There will be full consultation with local stakeholders throughout the reviews.

By Spring 2005 most local LSCs will have completed the reviews and published resulting outcomes.

### Teacher Training Agency

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the cost of the Teacher Training Agency was in the last financial year; and if he will make a statement. [156589]

**Mr. Miliband:** In 2002–03, the annual administrative cost of the Teacher Training Agency was £9.369 million.

### Teachers (Fast Track Recruitment)

**Mr. Laws:** To ask the Secretary of State for Education and Skills what estimate he has made of the cost of the Fast Track teacher recruiting programme for each year from 2001–02 to 2005–06; and if he will make a statement. [156696]

**Mr. Miliband:** The Fast Track teaching programme is a long-term investment in developing effective leadership in schools; it is not primarily a recruitment programme. So far this year, applications are 19 per cent. higher than they were in the same period last year. The number of Fast Track teachers and trainees currently on the programme is more than double last year's number.

The cost of Fast Track for the years 2001–05 is shown in the table. Future budgets are subject to the current Spending Review.

| | *£ million* |
|---|---|
| 2000–01 | 4.60 |
| 2001–02 | 8.27 |
| 2002–03 | 8.07 |
| 2003–04 | [1]13.3 |
| 2004–05 | [2]18.5 |

[1] Estimated end of year forecast.
[2] Estimate, dependent on recruitment levels.

### Universities

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many students started three year courses at UK universities in 1997–98 and 1999–2000; and how many students graduated from those universities with degrees in 2000–01 and 2002–03. [143066]

**Alan Johnson:** The available figures are given in the tables. Students starting courses lasting three years in 1997/98 would normally graduate in 1999/2000.

*Full time first degree entrants on courses expected to last three years at UK HE institutions*

| *Year of entry* | *Number* |
|---|---|
| 1996/97 | 190,395 |
| 1997/98 | 201,948 |
| 1998/99 | 197,073 |
| 1999/2000 | 196,355 |
| 2000/01 | 214,348 |

*Source:*
Higher Education Statistics Agency

*Full time first degree graduating from courses expected to last three years at UK HE institutions*

| *Year of graduation* | *Number* |
|---|---|
| 1998/99 | 150,728 |
| 1999/2000 | 152,414 |
| 2000/01 | 150,890 |
| 2001/02 | 153,047 |
| 2002/03 | 159,047 |

*Source:*
Higher Education Statistics Agency

### Universities UK Spending Review

**Mr. Willis:** To ask the Secretary of State for Education and Skills what assessment he has made of the Universities UK Spending Review 2004; and if he will make a statement. [156070]

**Alan Johnson:** 'Achieving our vision', the Universities UK 2004 spending review submission for England and Northern Ireland, provides details of their assessment of the financial needs of the higher education sector over the next few years. Decisions on resources for all areas of public spending from 2006/07 onwards will be taken later in the year as part of the Government's Spending Review.

## TRANSPORT

### Bus Services

**Mr. Truswell:** To ask the Secretary of State for Transport whether the bus industry has achieved the target of 99.5 per cent. reliability agreed between his Department and the Confederation of Passenger Transport; and if he will make a statement. [156169]

**Mr. McNulty:** Reliability is defined as the percentage of scheduled bus mileage actually run, excluding lost mileage outside operators' control. The baseline for the reliability target is 98.2 per cent. in England in the year to March 2001. Reliability rose to 98.5 per cent. in the year to March 2003. However, it was estimated to have fallen back to 98.2 per cent. (seasonally adjusted) in the period July-September 2003, the most recent quarter for which data are available. We are considering the reasons for this with the Confederation of Passenger Transport.

**Mr. Truswell:** To ask the Secretary of State for Transport how many applications he has received from local authorities to implement bus quality contracts; how many statutory bus quality partnerships have been registered; and which local authorities have introduced them. [156172]

**Mr. McNulty:** We have to date received no applications for bus quality contracts schemes, though I recently announced the Government's intention to consult on the proposal to reduce the 21-month minimum period that must elapse between the making of a quality contracts scheme and its coming into force. No statutory bus quality partnerships have yet been registered, although informal partnerships are placed in over 130 areas across the country. Plans by West Midlands Passenger Transport Authority and Birmingham City Council for the introduction of the first statutory quality partnership, on the Route 67 bus corridor in Birmingham, are very well advanced.

**Mr. Truswell:** To ask the Secretary of State for Transport how many people are employed by the Vehicles Inspectorate to undertake bus quality checks; and how many person hours were devoted to bus quality checks in the last year for which figures are available. [156173]

**Mr. Jamieson:** The Vehicle and Operator Services Agency (VOSA), formerly the Vehicle Inspectorate, employs 15 Bus Compliance Officers, two of whom are funded directly by the Welsh Assembly. The Bus Compliance Officers carry out monitoring of local bus services outside London, which involves checking that vehicles comply with their registered timetables and routes. The Officers also investigate complaints about possible instances of non-compliance. In 2002–03 18,725 man hours were devoted to these activities.

VOSA also employs some 300 Vehicle Examiners who carry out roadworthiness checks on passenger service vehicles (buses, coaches and mini buses licensed to carry more than eight passengers) as part of their duties. During 2002–03 £24,786 vehicles were examined in spot and fleet roadworthiness checks. Approximately 32,500 man hours were devoted to this work. This figure cannot be broken down to identify the proportion of time spent solely on bus checks.

**Mr. Truswell:** To ask the Secretary of State for Transport who the five worst bus operators in terms of punctuality and reliability were in each of the areas covered by the Traffic Commissioners in the last year for which figures are available; which operators have been fined by the Traffic Commissioners for poor performance; and what fines have been paid. [156175]

**Mr. McNulty:** Information is not available in the form requested.

In 2002–03, across all traffic areas, traffic commissioners held 41 disciplinary public inquiries relating to local bus services, and in 22 cases financial penalties were imposed (although some were subsequently subject to appeal to the Transport Tribunal), the majority relating to punctuality or reliability. It is not possible to rank them in order of severity, given the wide variation in scale of operation and other factors.

Since February 2003 fines totalling £122,533 have been paid by bus operators following disciplinary action by traffic commissioners.

Further details, including breakdown by traffic area are available in tables 17.1 and 17.2 of the "Traffic Commissioners' Annual Reports for 2002–03". Copies of which are in the Libraries of the House.

**Nick Harvey:** To ask the Secretary of State for Transport (1) how many *(a)* villages and *(b)* towns have been served by bus services in (i) Devon and (ii) the South West in each year since 1993; and if he will make a statement; [156063]

(2) how many *(a)* daily and *(b)* weekly bus routes to (i) villages and (ii) towns have operated in *(A)* Devon; and *(B)* the South West in each year since 1993; and if he will make a statement; [156064]

(3) how many rural bus routes served *(a)* Devon and *(b)* the South West in each year since 1993; and if he will make a statement; [156065]

(4) how many *(a)* daily and *(b)* weekly rural bus services there were in each year since 1993 in (i) Devon and (ii) the South West; and if he will make a statement. [156066]

**Mr. McNulty:** The information requested is not available and can be obtained only at disproportionate cost.

### Dibden Bay Container Port

**Dr. Julian Lewis:** To ask the Secretary of State for Transport (1) if he has made a decision on whether the Dibden Bay container port will be built; [156363]

(2) on what date he received the inspector's report resulting from the public inquiry into the Dibden Bay container port application; and when it will be published; [156364]

(3) whether it is his policy to approve the building of one container port in advance of receiving the report of the public inquiry into proposals to build another container port simultaneously elsewhere; [156365]

(4) whether it is his intention to *(a)* make and *(b)* publish his decisions on the proposals for container ports at (i) Dibden Bay and (ii) Shell Haven (London Gateway) at the same time; [156366]

(5) if he will make it his policy not to publish his decision on the Dibden Bay container port proposal prior to the publication of the report of the public inquiry into the creation of a New Forest national park. [156367]

**Mr. Jamieson:** It is the Government's policy to consider each proposal on its merits, having regard to relevant development considerations. The inspector's report of the public inquiry into the Dibden Bay container port application was received in my Department at the end of September 2003 and will be published when a decision is made and announced.

The publication of the report of the public inquiry into the creation of a New Forest National Park is a matter for my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs.

### Passenger Numbers

**Mr. Truswell:** To ask the Secretary of State for Transport what the most recent Passenger in Excess of Capacity figures are for the *(a)* morning and *(b)* evening peaks in (i) West Yorkshire, (ii) Greater Manchester, (iii) the West Midlands, (iv) South Yorkshire, (v) Merseyside, (vi) Strathclyde and (vii) London and the South East. [156170]

**Mr. McNulty:** Passengers In Excess of Capacity (PIXC) is a mechanism applied exclusively in London and the South East and on Edinburgh commuter services across the Forth Bridge. The results of the 2003 counts have not yet been produced. The Strategic Rail Authority (SRA) published the results of the 2002 counts in their "On Track" publication in June 2003, a copy of which is in the Library of the House. Passenger Transport Executives may apply similar regimes in their areas, but they do not use the same criteria and are not comparable with the SRA PIXC figures.

### Railways

**Mr. Stephen O'Brien:** To ask the Secretary of State for Transport what work *(a)* the Strategic Rail Authority and *(b)* Network Rail has been engaged in the Eddisbury constituency in the last 18 months, broken down by location; what the costs are of such works, broken down by project; what surveys were commissioned prior to such works being carried out into the extent of damage caused by badgers at or near in-use railway lines; what consultations were undertaken in each relevant local community prior to works being commissioned and carried out on alternative methods of removing badgers from current setts; and what the timescale is for (i) post-audit and (ii) value for money exercises to be carried out on these projects. [155278]

**Mr. McNulty:** This is an operational matter for Network Rail. I have passed this to Network Rail who will respond directly to the hon. Member.

**Mr. Truswell:** To ask the Secretary of State for Transport what plans he has to ensure a competitive market for existing railway rolling stock once existing contracts inherited from British Rail have expired. [156174]

**Mr. McNulty:** The Strategic Rail Authority is charged with securing value for money in rolling stock procurement. As part of that responsibility, it is considering how best to deal with the large number of rolling stock leases which fall due for renewal shortly. Whether more general changes are needed to the present arrangements in this area is among the issues that are being considered as part of the rail review announced by my right hon. Friend the Secretary of State on 19 January.

**Mr. Truswell:** To ask the Secretary of State for Transport what the most recent reliability levels of rail services are for *(a)* Great Britain and *(b)* each region; and what policies he is implementing to ensure the achievement of the 99.5 per cent. reliability target. [156168]

**Mr. McNulty:** The Government requires Train Operating Companies (TOCs) to set themselves reliability targets in their Passengers' Charters. Reliability performance is a measure of trains run/cancelled and does not include punctuality. TOCs publish details of their reliability performance at train stations every four weeks. If reliability falls below the trigger point set out in the Passengers' Charter, season ticket holders can claim a discount on renewal of their ticket. Within this framework, operational plans for avoiding cancellations are a matter for TOCs.

The Strategic Rail Authority (SRA) measures train performance by the Public Performance Measure (PPM) which combines reliability and punctuality. It is published by train operator in the SRA's quarterly National Rail Trends (NRT). The latest publication covers performance to the year ending 30 September 2003 and is placed in the Library of the House.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Transport what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what

proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155528]

**Mr. McNulty:** The Department for Transport has only been in existence since May 2002.

The Department uses the most appropriate publication for recruitment advertising, be it national, regional, trade magazine or website, depending on the nature of the vacancy. To provide a breakdown between publications would be at disproportionate cost.

Below are details of the costs incurred by DfT (Central) for recruitment advertising for vacant posts.

2002–03: £241,868.87

2003–04 to date: £461,262.81

This does not include the Departments Agencies as they have responsibility for their own recruitment below Senior Civil Service. Nor does it include NDPBs. These costs could only be obtained at disproportionate costs.

The Department for Transport has not participated in a general recruitment since May 2002.

## SOLICITOR-GENERAL

### Copyright/Trade Marks (Offences)

**Dr. Cable:** To ask the Solicitor-General how many Crown prosecutions have been made for counterfeiting and copyright theft *(a)* since the introduction of the Copyright etc. and Trade Marks (Offences and Enforcement) Act 2002 and *(b)* in each of the last seven years; and how many prosecutions resulted in convictions. [154955]

**The Solicitor-General:** The CPS does not hold central records on the numbers of particular offences prosecuted or resulting in conviction. Information at this level of detail could be obtained only by examining individual case files, some of which may be held in CPS offices and some in central archives and could be obtained only at disproportionate cost. Some files will have been destroyed in accordance with Public Records Act practice.

Offences under this legislation are also prosecuted by other agencies such as Trading Standards, the Federation Against Software Theft (FAST), and the Federation Against Copyright Theft (FACT).

### Guantanamo Bay Detainees

**Mr. Streeter:** To ask the Solicitor-General what consideration was given during the Attorney-General's recent discussions with US officials to proceedings for treason being brought by the Crown Prosecution Service against the British detainees in Guantanamo Bay. [155014]

**The Solicitor-General:** The Attorney-General has explained to the US Administration the options for the possible prosecution for treason of the British detainees in Guantanamo Bay. As I set out in my reply to the hon. Member dated 5 January 2004, *Official Report*, column 74W, decisions to prosecute are made independently by the police and the Crown Prosecution Service in accordance with the Code for Crown Prosecutors. The Attorney-General may be consulted on prosecution decisions. A prosecution will be brought if there is sufficient evidence for a realistic prospect of conviction and it is in the public interest to prosecute. If a decision to prosecute is made all relevant charges will be considered in deciding what charge an individual should face.

**Mr. Streeter:** To ask the Solicitor-General what representations the Attorney-General received from the United States Administration on the treatment that United Kingdom citizens detained in Guantanamo Bay would receive on repatriation to the UK. [155015]

**The Solicitor-General:** The Attorney-General has had no discussions with the US Administration about the treatment that the British nationals detained in Guantanamo Bay would receive on repatriation to the UK, but there have been discussions on this issue involving other UK Government officials. The Government does not intend to provide details of confidential exchanges between the British and US Governments.

**Mr. Streeter:** To ask the Solicitor-General what progress has been made in obtaining the repatriation of the British detainees in Guantanamo Bay; and if she will make a statement. [155016]

**The Solicitor-General:** I refer the hon. Member to the statement by my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs on 19 February, in which he explained that five of the UK detainees would be returning to the UK in the next few weeks and that the Government continues to discuss with the US the situation of the remaining four. The Government's position remains that the detainees should either be tried in accordance with international standards or they should be returned to the UK.

## WORK AND PENSIONS

### Access to Work

**Mr. Edward Davey:** To ask the Secretary of State for Work and Pensions (1) how many complaints the agency Access to Work has received over delays in processing applications in the latest three years for which data are available; [155598]

(2) what targets the agency Access for Work has for the processing of applications for grants for equipment needed by disabled people in their places of work; and what has been its measured performance against this target in the last three years for which data are available; [155599]

(3) what the performance targets are for the agency Access to Work; and what its measured performance has been against these targets in the last three years for which data are available. [155600]

**Maria Eagle:** Access to Work is a programme run by Jobcentre Plus, which helps disabled people to get or keep jobs by contributing towards the extra employment costs that arise because of their disability. It provides practical assistance to help disabled people compete on a more equal basis with their non-disabled colleagues by removing obstacles linked to disability.

For the last three years, throughout the UK, Access to Work teams have received approximately 60 written complaints specifically about delays in processing applications. Over the same period, there were over 40,000 new applications for help through the programme.

Access to Work is measured against two key performance standards: first, decisions on eligibility for help should be made within 10 days of an application; second, provision of first help to applicant should be within 60 days of an application.

For the year April 2001 to March 2002, 98 per cent. of decisions on help and 87 per cent. of first help to applicants were within standards; for the year 2002–03 97 per cent. of decisions on help and 85 per cent. of first help to applicants were within standards. This is in the context of continuing increases in both numbers helped and programme spend.

For year to date, April 2003 to December 2003, 99 per cent. of decisions on help and 85 per cent. of first help to applicants are within standards.

### Child Support Agency

**Hugh Robertson:** To ask the Secretary of State for Work and Pensions if he will investigate the Child Support Agency's treatment of Mrs. Christine Last of Leeds, Kent, case number YW436272D; and if he will make a statement. [156481]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

*Letter from Doug Smith to Mr. Hugh Robertson, dated 26 February 2004:*

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will investigate the Child Support Agency's treatment of Mrs Christine Last of Leeds, Kent, case number YW436272D; and if he will make a statement.

As individual cases are confidential I will write separately to you about Mrs Last's case.

### Economic Inactivity

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effects of economic inactivity on the children of economically inactive parents. [152940]

**Mr. Pond:** There are a number of DWP reports in this area that highlight a range of outcomes, mainly negative, for children whose parent or parents are not in employment. The reports are as follows and are available in the Library.

Millar, J. and Ridge, T. (2001) Families, poverty, work and care. A review of the literature on lone parents and low-income couple families with children. DWP research report 153.

Ermisch J., Francesconi M. and Pevalin D., (2001), 'Outcomes for children of poverty', DWP research report no. 158.

Vegeris S. and McKay S., (2002), 'Low/moderate families in Britain: Changes in Living Standards 1999–2000', DWP research report 165.

External research has also substantiated the findings of DWP commissioned research.

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions what assessment he has made of the relationship between economic inactivity and social exclusion. [152941]

**Mr. Pond:** The Government recognize that inactivity and social exclusion are closely related. An analysis of the extent and causes of inactivity and policies to address these is set out in the report "Full Employment in Every Region", produced jointly by the DWP and the Treasury and published in December 2003. The Government have made tackling poverty and social exclusion a key priority since 1997 and their strategy and progress is outlined in the DWP report "Opportunity for All; Fifth Annual Report 2003". Both reports are available in the Library.

Two other studies which show that becoming economically active and moving into work is associated with increased social inclusion, improved living standards, and self esteem are also available in the Library. These are Marsh and Rowlingson (2001), Low/Moderate-income families in Britain: Changes in 1999–2000. DWP Research Report 165 and Marsh and Perry (2003), Family Change 1999 to 2001. DWP Research Report 180.

### Industrial Injuries Disablement Benefit

**David Taylor:** To ask the Secretary of State for Work and Pensions what the status of Dupuytren's contracture is under the assessment criteria for industrial injuries disablement benefit. [155639]

**Mr. Browne:** Dupuytren's contracture is not a prescribed disease under the Industrial Injuries Disablement Benefit scheme.

The Industrial Injuries Advisory Council (IIAC) has recently commenced a review of work-related upper limb disorders which it expects to complete by the middle of 2005.

## DEPUTY PRIME MINISTER

### Brighton and Hove Local Plan

**Norman Baker:** To ask the Deputy Prime Minister (1) whether the report of the planning inspector into the Brighton and Hove Local Plan will constitute a material consideration in respect of his determination of the called-in application proposing a football stadium at Falmer; [156368]

(2) what weight he intends to attach to representations he receives between the closing of the public inquiry into the proposal for a football stadium at Falmer and his decision on the report of the inspector handling that inquiry. [156369]

**Keith Hill:** The Inspector's report into the applications made by Brighton and Hove Albion Football Club are currently with my right hon. Friend the Deputy Prime Minister for decision. For reasons of procedural propriety the Office of the Deputy Prime Minister is unable to discuss the details of the case.

The decisions will be made on the basis of all the relevant available evidence. Representations received after the close of the public inquiry will be taken into account as far as they are relevant. In general terms the weight to be given to a material consideration will be considered as part of the decision process. It will be clear from the decision letter when issued what matters have been taken into account and the weight that has been attached to any particular matter.

### Business Rate Relief

**Brian Cotter:** To ask the Deputy Prime Minister what assessment he has made of the impact that his Department's proposals for business rate relief will have on businesses with a rateable value of more than £8,000. [156713]

**Phil Hope:** In the White Paper "Strong Local Leadership—Quality Public Services", December 2001, it stated that if relief were granted to all properties with a rateable value of under £8,000, then the funding of such relief would require an addition of 2.5 per cent. to the bills of other properties. However, as also stated in the White Paper, the relief will only be available where a property with a rateable value of under £8,000 is the only rateable property occupied by the business concerned. This will ensure that relief goes to small businesses, rather than small properties which may be owned in large number by a large business. This rule also means that the addition of 2.5 per cent. to the bills of other ratepayers may be too high an estimate. The Office of the Deputy Prime Minister is therefore undertaking research to determine the number of businesses that will be eligible for the relief and the addition required to the bills of other ratepayers to fund the relief. The results of this research will be available by July 2004.

### Council Tax (Capping)

**Mr. Chope:** To ask the Deputy Prime Minister whether he intends to exercise his capping powers in respect of the council tax increases announced by *(a)* Dorset Police Authority, *(b)* Dorset Fire Authority, *(c)* Christchurch borough council and *(d)* East Dorset district council. [156677]

**Phil Hope:** The Office of the Deputy Prime Minister will take a view on whether to exercise its capping powers once the budget information from all authorities has been considered.

### Houses in Multiple Occupation

**Chris Ruane:** To ask the Deputy Prime Minister how many houses in multiple occupation there are in each ward in each principal seaside town in England, listed in descending order; and if he will make a statement on action he is taking to require landlords to improve housing standards in houses in multiple occupation. [154957]

**Keith Hill:** Information about the number of houses in multiple occupation (HMOs) by ward in seaside towns is not held centrally and could be provided only at disproportionate cost.

The Housing Bill, introduced on 8 December 2003 is aimed at raising the standards of management and physical conditions in HMOs by requiring rented properties that represent the greatest risks to their occupants to be licensed by the local authority. Licensing will ensure that suitable managers suitably manage such properties. By identifying where they are and who their landlords are, the physical conditions in such properties can be more easily targeted under Part 1 of the Bill. Local authorities will be required to license larger HMOs of three storeys or more that are occupied by five persons. They will also have discretionary powers to license categories of smaller HMOs where there are particular problems that need to be addressed and when, following a local consultation, it is decided that alternative measures would not be entirely effective.

### Planning Application (Vale of White Horse)

**Dr. Evan Harris:** To ask the Deputy Prime Minister what the reasons were for the delay between the Government Office for the South-East informing the Vale of White Horse district council that its decision to permit the development in the case of the planning application (SUN/2963/11 or GOSE/103/3/VALE/29) for residential development on the Foxcombe Road site of the old Warnborough College on Boars Hill, near Oxford, was in breach of direction from the Secretary of State and his direction that the planning permission be referred to him. [156051]

**Keith Hill:** The 'decision' of the Vale of White Horse district council to 'grant' planning permission in December 1999, despite an Article 14 holding direction being in place, related to a previous application (SUN/2963/9), which was called in February 2000 but was subsequently withdrawn after the court action concerning the validity of the 'permission' was resolved in October 2000. Application SUN/2963/11 was referred to the Government Office of the South East on 13 December 2000 and called in on 19 February 2001.

**Dr. Evan Harris:** To ask the Deputy Prime Minister what steps he has taken to amend his procedures following his submission to judgments in the High Court in April 2002 and September 2003 in the case of the planning application (SUN/2963/11 or GOSE/103/3/VALE/29) for residential development on the Foxcombe Road site of the old Warnborough College on Boars Hill, near Oxford. [156052]

**Keith Hill:** This particular case is unusual in its protracted nature. It is not considered necessary to amend the procedures and it is considered unlikely that this case would set a precedent for others. The Office of the Deputy Prime Minister will of course keep this under review.

## HEALTH

### Agenda for Change

**Mr. Burstow:** To ask the Secretary of State for Health what flexibilities exist within Agenda for Change to provide high cost of living supplements to wage payments. [156281]

**Mr. Hutton:** Under the proposed new pay system, Agenda for Change, current arrangements for London allowances will be replaced by a new harmonised system of high cost area supplements. Any changes to the value or geographic coverage of these supplements will usually be agreed at national level. National health service employing organisations will also have the flexibility to pay recruitment and retention premiums, subject to consultation with neighbouring employers and strategic health authorities.

### Care Workers

**Mr. Burns:** To ask the Secretary of State for Health if he will make a statement on his policy towards the employment in the UK of care workers from *(a)* non-EU European countries, *(b)* Asia and *(c)* Africa. [153914]

**Mr. Hutton** *[holding answer 11 February 2004]:* It is the responsibility of individual employers to ensure that their recruitment policies and procedures comply with current legislation whether recruiting within England or abroad.

Following research and advice obtained from a broad range of industry bodies, in consultation with Work Permits (UK)'s healthcare sector panel, the role of care assistant (or other occupational roles involving duties and responsibilities at a similar level) has been identified as not satisfying the skills criteria of the work permit arrangements. Consequently, even though employers may be experiencing difficulty in recruiting for posts of this level, as the job itself does not satisfy the criteria of the arrangements, applications would necessarily be refused.

### Children Green Paper

**Mrs. Shephard:** To ask the Secretary of State for Health what role is envisaged for school nurses arising from proposals for improved child protection in the Children Green Paper. [153898]

**Mr. Hutton** *[holding answer 9 February 2004]:* It is expected that school nurses will continue to contribute to child protection, working with others to identify, monitor and support vulnerable school aged children and young people. As a result of the Green Paper, school nurses will be expected to work more closely with education and social care, contributing to common assessments and working in integrated children's teams, through initiatives such as extended schools. There will be a greater focus on early intervention and prevention and school nurses will need to ensure that children and young people are involved in decision making.

The chief nursing officer is currently undertaking a review of the nursing/ midwifery and health visiting contribution to children at risk, which will include school nursing.

### Consultant Contract

**Mr. Burstow:** To ask the Secretary of State for Health what estimate his Department has made of the cost to public funds of the consultant contract. [154145]

**Mr. Hutton:** The estimated costs of the new consultant contract, as agreed between the Department, the British Medical Association and NHS Confederation, are around £135 million in 2003–04, rising to around £250 million in 2005–06.

**Mr. Burstow:** To ask the Secretary of State for Health what his Department's timetable is for implementation of the new consultant contract. [154439]

**Mr. Hutton:** Following the agreement reached last year with the British Medical Association and the NHS Confederation, national health service trusts and other employing organisations were asked to use the new NHS consultants' contract for all new appointments advertised after 31 October 2003 and to give all existing consultants the opportunity to indicate by 31 October 2003 whether they wished to give a commitment to the new contract. For existing consultants, the timetable assumed that, once a commitment had been given, trusts and consultants should seek to agree new job plans typically within three months, but the timetable recognised that trusts might need slightly longer than this to complete the process for all their consultants. We expect that the great majority of consultants who have given a commitment to the new contract will have agreed job plans by 31 March 2004. Where, exceptionally, there are any consultants whose job plans have taken longer to complete than other consultants, NHS trusts and other employing organisations have been asked to agree arrangements with their strategic health authority to complete the process as early as possible in the new financial year.

**Mr. Burstow:** To ask the Secretary of State for Health what representations he has received on delays in the implementation of the new consultant contract. [154440]

**Mr. Hutton:** We are aware that the British Medical Association and some individuals have expressed concerns about the time needed for trusts to complete the process of agreeing new job plans with their consultants. The timetable agreed with the British Medical Association explicitly recognised that trusts may need longer than three months to agree job plans. We have nonetheless asked trusts to ensure that they complete the great majority of new job plans by 31 March, while continuing to ensure that job planning delivers the intended benefits of the new consultants' contract for national health service patient care.

**Mr. Burstow:** To ask the Secretary of State for Health what funding has been allocated for implementation of the new consultant contract; and whether that funding has been spent. [154441]

**Mr. Hutton:** For 2003–04, additional funding worth 0.3 per cent. of allocations (around £135 million) has been allocated to primary care trusts to meet the estimated costs of the new consultant contract, with a further 0.1 per cent. in 2004–05 and a further 0.1 per cent. in 2005–06. Information on the expenditure so far committed to meet the costs of the new contract is not available centrally.

**Mr. Burstow:** To ask the Secretary of State for Health what representations he has received on the funding of the new consultant contract; and if he will make a statement. [154442]

**Mr. Hutton:** A number of national health service organisations have sought further information from the Department about the basis for the funding allocated to primary care trusts for 2003–04 onwards to meet the estimated costs of the new contract. The Department and the NHS Modernisation Agency have provided further guidance to the NHS on this subject. The allocations are based on cost assumptions agreed with the British Medical Association and the other parties to the negotiations on the new contract.

**Mr. Burstow:** To ask the Secretary of State for Health what the maximum number of programmed activities that a consultant should undertake per week is under the consultant contract. [154443]

**Mr. Hutton:** The new consultants' contract is based on a standard weekly commitment of 10 programmed activities for full-time consultants. The inclusion of additional programmed activities in consultants' job plans is ultimately a matter for agreement locally between national health service employing organisations and consultants, subject to ensuring that such agreements do not contravene the requirements of the Working Time Directive. The Department, the British Medical Association and NHS Confederation have agreed, however, that it should be one of the principal objectives of the contract to prioritise the use of consultants' time more effectively and better manage consultant workload.

### Consultant Job Plans

**Mr. Burstow:** To ask the Secretary of State for Health when he expects all consultants to have a job plan. [154148]

**Mr. Hutton:** We expect that the great majority of consultants who have given a commitment to the new national health service consultants' contract will have agreed job plans by 31 March 2004. Where, exceptionally, NHS trusts and other employing organisations consider that it will take longer to complete the job planning process for all consultants, they have been asked to agree arrangements with their strategic health authority to complete the process as early as possible in the new financial year.

### Correspondence

**Mr. Amess:** To ask the Secretary of State for Health when he intends to reply to the hon. Member for Southend West's letter of 13 November 2003. [156355]

**Dr. Ladyman:** A reply was sent to the hon. Member on Thursday, 11 December 2003.

### Dental Treatment

**Mr. Steen:** To ask the Secretary of State for Health if he will ring fence the expenditure of primary care trusts for dental treatment. [155436]

**Ms Rosie Winterton** *[holding answer 23 February 2004]:* The resources for general dental services (CDS) which are currently held centrally will be devolved to primary care trusts (PCTs) from 1 April 2005. PCTs will be notified of these devolved dentistry budgets for 2005-06 during Autumn 2004. The dentistry budgets will be issued alongside PCTs' general allocations. The allocations will include funds currently spent on emergency dental services.

We have guaranteed that dentists working in the GDS will have an automatic right to a contract under the new arrangements and that their gross earnings will be protected over the transition period of three years. During this period, PCTs' newly devolved dentistry allocations will represent a minimum level of spend on national health service dentistry which PCTs must maintain.

### Dentists

**Mr. Hoban:** To ask the Secretary of State for Health pursuant to the answer of 14 January 2004, *Official Report*, column 799–804W, to the hon. Member for Sutton and Cheam (Mr. Burstow), if he will make a statement on the impact of the change in dentist numbers in Hampshire between 2002 and 2003 on access to *(a)* dentists and *(b)* dentists who accept NHS patients. [151979]

**Ms Rosie Winterton** *[holding answer 30 January 2004]*: I refer the hon. Member to my pursuant response on Wednesday 28 January 2004, *Official Report*, column 398W.

### Family Health Services Appeal Authority

**Mr. James Gray:** To ask the Secretary of State for Health (1) when he will appoint an appeal panel under the Family Health Services Appeal Authority to consider the case of Dr. Barney Williams of the Marshfield Road Surgery, Chippenham; [156650]

(2) how hon. Members can make representations to an appeal panel set up under the Family Health Services Appeal Authority. [156679]

**Mr. Hutton:** The Family Health Services Appeal Authority (FHSAA) is an independent tribunal. Its procedures are set out in the FHSAA (Procedure) Rules 2001 (SI 2001/3750) and the FHSAA (Primary Care Act) Regulations 2001 (SI 2001/3743). The hon. Member may wish to write to The President, Family Health Services Appeal Authority, 30 Victoria Avenue, Harrogate HG1 5PR.

### Female Doctors

**Miss McIntosh:** To ask the Secretary of State for Health pursuant to the answer of 4 February 2004, *Official Report*, column 967W, on medical students, what assessment he has made of the numbers of female doctors working *(a)* in general practice and *(b)* in

hospitals wishing to (i) work part-time and (ii) take career breaks; and what impact this is having on the NHS. [155683]

**Mr. Hutton:** The number of female doctors working in hospitals and in general practice who are part time is shown in the table. Information on the number of doctors who take career breaks is not available.

The proportion of staff who are working part time and the impact of this on participation in the workforce is factored into the Department's and the National Health Service's workforce planning processes.

*Hospital, Public Health Medicine and Community Health Services (HCHS) Staff and General Medical Practitioners Female doctors working part-time*

*England, as at 30 September 2002* *Numbers (headcount)*

| | *All staff* | *of which: Female* | *of which: Part-time* |
|---|---|---|---|
| All doctors[1] | 104,460 | 38,755 | 11,647 |
| *of which:* | | | |
| HCHS Staff[1] | 72,168 | 26,159 | 5,566 |
| *of which:* | | | |
| Medical Staff[1] | 68,514 | 24,478 | 4,714 |
| *of which:* | | | |
| Consultant | 26,408 | 6,406 | 1,892 |
| Associate Specialist/Staff Grade | 6,790 | 2,438 | 988 |
| Registrar Group | 13,450 | 5,208 | 841 |
| Senior House Officer | 16,685 | 7,493 | 288 |
| House Officer | 3,953 | 2,042 | 18 |
| Other CHS | 1,228 | 891 | 687 |
| General Medical Practitioners[2] | 32,292 | 12,596 | 6,081 |
| *of which:* | | | |
| Unrestricted Principals and Equivalents (UPEs)[3] | 28,031 | 9,626 | 4,356 |
| Restricted Principals | 86 | 41 | 11 |
| Assistants | 455 | 284 | 231 |
| GP Registrars | 1,980 | 1,199 | 165 |
| Salaried Doctors (Para 52 SPA) | 87 | 54 | 28 |
| PMS Other | 543 | 305 | 203 |
| GP Retainers | 1,110 | 1,087 | 1,087 |

*Notes:*

[1] Excludes Hospital Medical Hospital Practitioners and Hospital Medical Clinical Assistants most of whom are GPs working part time in hospitals.

[2] All Practitioners include UPEs, Restricted Principals, Assistants, GP Registrars, Salaried Doctors (Para 52 SFA), PMS Other and GP Retainers.

[3] UPEs include QMS Unrestricted Principals, PMS Contracted GPs and PMS Salaried GPs.

### Mental Health

**Mr. Denham:** To ask the Secretary of State for Health: (1) what assessment he has made of the implementation of Standard 6 of the National Service Framework for Mental Health; [154823]

(2) what indication he has given of the priority that the Government expects the NHS and social services departments to give to the achievement of Government targets for carers of people with mental health problems. [154827]

**Ms Rosie Winterton:** The national service framework (NSF) for mental health provides rationale and evidence base for a national standard for mental health services relating to carers of people with mental health problems.

In accordance with this NSF standard, all individuals who provide regular and substantial care for a person on the care programme approach should have an assessment of their caring, physical and mental health needs repeated on at least an annual basis. People who provide regular and substantial care for a person on the care programme approach are also entitled to have their own written care plan, which is given to them and implemented in discussion with them.

The Department published "Developing Services for Carers and Families of People with Mental Illness" in November 2002, the recommendations of which are being taken forward by the National Institute for Mental Health in England.

The importance of support for carers was further emphasised in the NHS Plan (2000) and in the priorities and planning framework 2003–06 issued to local services.

Progress on the development of robust local delivery plans for all the targets set out in the NHS Plan is assessed by the Department in partnership with strategic health authorities. In addition, progress is reported by an annual self-assessment exercise undertaken by mental health trusts.

**Keith Vaz:** To ask the Secretary of State for Health what percentage of staff in NHS mental health services are from an ethnic minority. [155605]

**Mr. Hutton:** The information requested has been placed in the Library.

### GPs

**Mr. Burstow:** To ask the Secretary of State for Health how many *(a)* headcount and *(b)* whole-time equivalent general practitioners there were in each year since 1997, broken down by (i) strategic health authority and (ii) primary care trust. [156005]

**Mr. Hutton:** The earliest date for which information is available on a primary care trust level (PCT) is 2001.

Information on the number of general practitioners (excluding GP retainers) in England and in each strategic health authority area since September 1997 and in each PCT since 2001, by headcount and whole time equivalent has been placed in the Library.

### Group B Streptococcus

**Mr. Hancock:** To ask the Secretary of State for Health when testing using enriched culture media will be available in the NHS for diagnosing group B streptococcus colonisation in pregnant women. [156556]

**Dr. Ladyman:** The recently published National Institute for Clinical Excellence (NICE) clinical guideline on antenatal care recommends that pregnant women should not be offered routine antenatal screening for group B streptococcus (GBS) because evidence of its clinical effectiveness and cost-effectiveness remains uncertain.

The United Kingdom National Screening Committee (NSC) is currently reviewing the prevention of GBS infection in new-born babies. As part of this review, the NSC organised a workshop in November 2003. The workshop discussed both the current tests available and potential tests for diagnosing GBS colonisation in pregnant women which are the subject of research now under way. This includes the enriched culture medium test. Further work on the use of different tests will be undertaken.

### Hospital Construction

**Mr. Collins:** To ask the Secretary of State for Health if he will list the new hospitals to be built in *(a)* Bassetlaw, *(b)* Birmingham, Northfield, *(c)* Birmingham, Perry Barr, *(d)* Blaydon, *(e)* Blyth Valley, *(f)* Bootle, *(g)* Bradford West, *(h)* Braintree, *(i)* Burton, *(j)* Coventry North West, *(k)* Coventry South, *(l)* Dover, *(m)* Ealing North, *(n)* Eltham, *(o)* Feltham and Heston, *(p)* Forest of Dean, *(q)* Gateshead East and Washington West, *(r)* Hammersmith and Fulham, *(s)* Hendon, *(t)* Hornsey and Wood Green, *(u)* Ilford North, *(v)* Kettering, *(w)* Knowsley South, *(x)* Lancaster and Wyre, *(y)* Leeds North East, *(z)* Leeds West, (aa) Leicester East, (bb) Lewisham, Deptford, (cc) Liverpool, Riverside, (dd) Loughborough, (ee) Manchester, Withington, (ff) Milton Keynes North East, (gg) Northampton South, (hh) North West Leicestershire, (ii) Reading East, (jj) Reading West, (kk) Rugby and Kenilworth, (ll) Sheffield, Attercliffe, (mm) Sheffield, Hillsborough, (nn) Sittingbourne and Sheppey, (oo) Stevenage, (pp) Stockton North, (qq) Stoke-on-Trent, (rr) Stourbridge, (ss) Thurrock, (tt) Tyne Bridge, (uu) Wallasey, (vv) Wansbeck, (ww) Waveney, (xx) West Lancashire, (yy) Wirral West, (zz) Wolverhampton North East and (aaa) Wolverhampton South East; and when the decision was taken to build them. [153778]

**Mr. Hutton:** Planned new hospital schemes to be built, with the date of the initial business case approval, are shown in the table.

| *Constituency* | *Hospital scheme in constituency* | *Date of initial business case approval* |
|---|---|---|
| (a) Bassetlaw | None | |
| (b) Birmingham, Northfield | None | |
| (c) Birmingham, Perry Bar | None | |
| (d) Blaydon | None | |
| (e) Blyth Valley | None | |
| (f) Bootle | None | |
| (g) Bradford West | Bradford Hospitals—£191 million | February 2001 |
| (h) Braintree | None | |
| (i) Burton | None | |
| (j) Coventry North West | None | |
| (k) Coventry South | None | |
| (l) Dover | East Kent Hospitals—£200 million | February 2001 |
| (m) Ealing North | None | |
| (n) Eltham | None | |
| (o) Felthan and Heston | None | |
| (p) Forest of Dean | None | |
| (q) Gateshead East and Washington West | None | |
| (r) Hammersmith and Fulham | None | |
| (s) Hendon | None | |
| (t) Hornsey and Wood Green | None | |
| (u) Ilford North | None | |
| (v) Kettering | None | |
| (w) Knowsley South | St. Helens and Knowlsey Hospitals—£229 million | February 2001 |
| (x) Lancaster and Wye | None | |

### Hospital Waiting Lists

**Mr. Burstow:** To ask the Secretary of State for Health how many people who have received a referral from their general practitioner are waiting to be accepted onto a hospital waiting list after *(a)* one month, *(b)* two months, *(c)* three months and *(d)* six months, broken down by NHS trust. [155153]

**Mr. Hutton:** The information requested is not available.

National health service trusts should place patients on their waiting list upon receipt of referral from a general practitioner. There should therefore be no significant delay between a GP making a referral and the trust placing the patient on the waiting list.

By 31 December 2005, all patients will be able to book their appointment at the point of referral. GPs will be able to book an appointment direct from their surgery while the patient waits, or, if preferred, the patient can telephone a call centre to book their hospital appointment when they get home.

Out-patient waiting time data are available in the Library.

### Hospitals (Star Ratings)

**Mr. Rosindell:** To ask the Secretary of State for Health if he will make a statement on the performance indicators for the 2003–04 star ratings exercise for hospitals. [155871]

**Mr. Hutton:** The indicators to be used in the 2003–04 National Health Service performance ratings were published by the Commission for Health Improvement (CHI) on 18 December 2003. Full details can be found on the CHI website at: www.chi.nhs.uk. The results of the 2003–04 assessment will be published by the Commission for Healthcare Audit and Inspection.

### National Health Statistics

**Mr. Baron:** To ask the Secretary of State for Health pursuant to the answer of 18 December 2003, *Official Report*, columns 1128–30W, on national health statistics, whether decisions have now been made on NHS statistical collections which will be discontinued. [155030]

**Mr. Hutton** *[holding answer 23 February 2004]:* The Department's review of national health service statistical collections is continuing, and final decisions on discontinuing returns have not yet been made.

**Mr. Baron:** To ask the Secretary of State for Health pursuant to the answer of 18 December 2003, *Official Report*, columns 1128–30W, on national health statistics, if he will publish, for each set of statistics which the Department has not collected since 1999, the figures for each of the five years prior to collection being discontinued. [155031]

**Mr. Hutton** *[holding answer 23 February 2004]:* The information on each set of statistics is as follows.

Professional advice and support programmes: Community Maternity Services (KC54): statistics were published in the series "Community Maternity Services: summary information for England" for each year 1995–96 to 1999–2000. The most recent is available at www.publications.doh.gov.uk/public/kc549900.htm

Clinical psychology (KT24): statistics were published in the series "Clinical Psychology: summary information for England" for each year 1999–2000 to 2002–03. The three most recent publications are available at:

www.publications.doh.gov.uk/public/kt240001/index.htm

www.publications.doh.gov.uk/publLic/kt240102/index.htm

www.publications.doh.gov.uk/public/kt240203/index.htm

Summary of patient activity (KP70): statistics were published in the series "Ordinary and day case admissions" for each year 1994–95 to 1997–98. Figures on ordinary and day case admission are available from the Hospital Episode Statistics system for 1998–99 onwards at: www.dh.gov.uk/PublicationsandStatistics/Statistics/HospitalEpisodeStatistics

*General ophthalmic services (GOS) losses and recoveries. GP fundholding budget and expenditure (PC1–01 to 04).*

These two returns were used for internal management purposes at the Department of Health and the information was not published. Figures could be provided now only at disproportionate cost.

Monitoring of delayed discharges (CC MON). This return was collected by the NHS Eastern Regional Office (which no longer exists) as an internal management tool; the information was not published.

Availability of dentistry: Quarterly Monitoring Report (A6). Statistics were produced for the period 1997 to 2002 quarter 1, but were not routinely published. Figures are given in the table.

*General Dental Services: Number and whole time equivalent of salaried dentists at the last day of each quarter until 2002 quarter one, England*

| | Number | Whole time equivalent |
|---|---|---|
| *1997* | | |
| Q1 | 179 | 98.5 |
| Q2 | 182 | 98.8 |
| Q3 | 189 | 104.1 |
| Q4 | 187 | 103.7 |
| *1998* | | |
| Q1 | 192 | 105.1 |
| Q2 | 190 | 107.3 |
| Q3 | 186 | 104.9 |
| Q4 | 178 | 94.6 |

| Q3 | 132 | 69.4 |
| Q4 | 115 | 63.9 |
| *2001* | | |
| Q1 | 111 | 52.4 |
| Q2 | 101 | 52.4 |
| Q3 | 85 | 33.9 |
| Q4 | 77 | 31.1 |
| *2002* | | |
| Q1 | 63 | 24.0 |

All publications are available in the Library.

### NHS (Pharmaceutical Services) Regulations

**Brian Cotter:** To ask the Secretary of State for Health when his Department will respond to the consultation on proposals to reform and modernise the NHS (Pharmaceutical Services) Regulations 1992. [156714]

**Ms Rosie Winterton:** We are considering carefully the report, received in January 2004, of the expert advisory group set up to advise how best to implement our proposals to reform the NHS (Pharmaceutical Services) Regulations 1992. The group considered views received on the Department's consultation document issued in August 2003. We will make further announcements as soon as possible.

### NHS Budgets

**Mr. Burstow:** To ask the Secretary of State for Health how much of the centrally funded initiatives and services and special allocations budget for 2003–04 *(a)* has not been spent and *(b)* has been transferred into another budget. [151686]

**Mr. Hutton:** The Centrally Funded Initiatives and Services and Special Allocations (CFISSA) programme is fully committed in 2003–04. Approximately £37 million remains to be formally allocated to primary care trusts. In addition, further scheduled payments still need to be made in the period to 31 March 2004 in fulfilment of existing contracts and service level agreements.

The table shows the transfers to and from the CFISSA programme in 2003–04.

*Transfer record for the CFISSA Programme—2003–04*

| | £ millions |
|---|---|
| *Overall CFISSA Programme announced in HSC 2002/012 (18 December 2002)* | *8,645* |
| Less amount included in PCT initial resource limits | -207 |
| Less amount included in PCT allocations for cost of living addition | -109 |
| Other net changes to overall programme before February 2003 | 29 |
| Starting point for 2003–04 | 8,358 |
| In year changes to the programme | |
| Net effect of in-year transfers to/from other Government Departments | 338 |
| Net transfers from FHS non-discretionary funds | 1,656 |
| Net transfers to/from Central Health and Miscellaneous Services programme | -30 |
| Net transfers to/from Personal Social Services, Centrally Financed Services programme | 40 |
| Transfer from Capital | 318 |
| Net transfers to/from Admin | -6 |
| Additional expenditure funded by higher levels of receipts | 10 |
| Reductions in PCT allocations to fund additional central expenditure | 33 |
| Pensions Indexation (additional funds from Treasury) | 1,664 |
| Cost of Capital and Discount Rate changes (additional funds from Treasury) | 305 |
| Inter-Year Flexibility as applied to the CFISSA programme | 344 |
| Overall effect of in-year changes | 4,672 |
| *Revised level of CFISSA programme* | 13,030 |

### NHS Closures

**Tim Loughton:** To ask the Secretary of State for Health if he will list the *(a)* hospitals, *(b)* doctors' surgeries and *(c)* other NHS clinics which have been closed since 1997. [154401]

**Mr. Hutton:** Information on hospital closures ceased to be collected in 1991 following the introduction of the national health service internal market and trusts. Hospital reprovision will often lead to fewer hospital buildings (for example, because of consolidation on a single site), but the resulting modernised, fit-for-purpose new facilities will offer better patient care and better quality services.

Information on the closure of doctors' surgeries is not held centrally. Primary care trusts (and their health authority predecessors) will be aware of individual

closures. Modernisation of primary care facilities will often lead to fewer, larger premises (for example, one-stop centres providing a wider range of services to patients).

### NHS Foundation Trusts

**Mr. Burstow:** To ask the Secretary of State for Health if he will make a statement on his proposed review of the first wave of NHS foundation trusts; when the review will *(a)* begin and *(b)* end; what its terms of reference will be; what resources will be allocated to the review; whether the (i) terms of reference and (ii) report produced will be made public; whether parliamentary time will be set aside to debate the review and its outcome; and whether the review will include a consultation process. [156283]

**Mr. Hutton:** Details of the review of national health service foundation trusts will be announced before the first NHS foundation trusts are authorised by the Independent Regulator of NHS foundation trusts.

### NHS Trust Star Ratings

**Mr. Burstow:** To ask the Secretary of State for Health (1) pursuant to his statement of 7 January 2003, *Official Report*, column 279, which trusts received an increased star rating as a result of the recalculations; [149942]

(2) what assessment he has made of the effect of the removal of the *(a)* information management and technology and *(b)* catering criteria from the 2002 star ratings on the scoring methodology; [151720]

(3) which individual NHS trust ratings the Secretary of State queried during consideration of the 2002 star ratings; and what the reasons were in each case; [149943]

(4) on which 3-star NHS trusts at risk of losing a star Ministers raised queries during consideration of the 2002 star ratings; [149944]

(5) how many recalculations of the 2002 NHS trust star ratings took place *(a)* before and *(b)* after 15 to 16 July 2002; and what the reasons were for each recalculation; [149945]

(6) which criteria in the 2002 NHS trust star ratings were changed when they were recalculated on 15 to 16 July 2002; [149946]

(7) for what reasons no trust lost a star rating following the recalculation of the 2002 star rating on 15 to 16 July 2002. [151722]

**Mr. Hutton:** The first calculation of provisional 2002 national health service trust performance ratings to be based on a full data set took place on 9 July 2002. Calculations were then checked and, where necessary, refined on a regular basis through to the publication on 24 July 2002, in order to correct any data errors and ensure the results represented an accurate reflection of NHS performance.

The specific change to the criteria used to calculate provisional performance ratings between 15 and 16 July 2002 was the removal of two performance indicators, covering access to catering facilities and information management and technology, which had been proposed as part of the rating system. The indicators were removed following a significant number of concerns raised by NHS trusts over the quality of their construction and the data that would have to be used.

The star ratings system uses the relative position of trusts against a wide range of performance indicators to help distinguish between three, two and one star ratings. So, in principle, a trust's position could be improved or worsened by changes to the indicator scores of other trusts. No trust's provisional rating dropped on 15 to 16 July because other indicator data did not change significantly at that time. However, by the time the ratings were published on 24 July 2002, the removal of these two indicators had contributed to a lower rating for some trusts, aided by the relative position of other trusts having improved as data on other indicators changed. If these indicators had remained part of the 2002 performance ratings, 11 acute NHS trusts would have received a different rating at the time of publication: seven trusts would have had a lower rating; four trusts would have had a higher rating.

Overall, as a consequence of the removal of the two indicators and a number of other data corrections and refinements, there were 23 acute and specialist NHS trusts that had an increased performance rating between the 12 July 2002 calculation of provisional ratings and their final rating for that year. The 23 trusts which increased from their provisional rating were:

Barts and the London NHS Trust
Basildon and Thurrock NHS Trust
Birmingham Women's Health Care NHS Trust
Brighton Health Care NHS Trust
Burnley Health Care NHS Trust
Calderdale and Huddersfield NHS Trust
Cardiothoracic Centre—Liverpool NHS Trust
Essex Rivers Healthcare NHS Trust
Gloucestershire Royal NHS Trust
Great Ormond Street Hospital for Children NHS Trust
Kettering General Hospital NHS Trust
Kingston Hospital NHS Trust
Maidstone and Tunbridge Wells NHS Trust
Moorfields Eye Hospital NHS Trust, London
North Staffordshire Hospital NHS Trust
Rotherham General Hospitals NHS Trust
Royal Brompton and Harefield NHS Trust
Royal Liverpool Children's NHS Trust
Royal National Hospital for Rheumatic Diseases NHS Trust, Bath
South Durham Health Care NHS Trust
University College London Hospitals NHS Trust
Walton Centre for Neurology and Neurosurgery NHS Trust
Wirral Hospital NHS Trust.

The then Secretary of State, my right hon. Friend the Member for Darlington (Mr. Milburn), raised queries about the provisional rating of nine acute NHS trusts, in the run-up to publication, to satisfy himself that ratings to be awarded were based on robust evidence and represented an accurate reflection of NHS performance. The nine acute trusts whose provisional rating the then Secretary of State queried are listed. Those marked with an asterisk are trusts which had been three-star in the 2001 performance ratings.

Barts and the London NHS Trust
Basildon and Thurrock University Hospitals NHS Trust*
Norfolk and Norwich Health Care NHS Trust*
Northampton General Hospital NHS Trust*
Northumbria Health Care NHS Trust*
South Durham Healthcare NHS Trust*
The Princess Alexandra Hospital NHS Trust*
University College London Hospitals NHS Trust
West Suffolk Hospitals NHS Trust*.

### Organ Donation

**Ms Atherton:** To ask the Secretary of State for Health what percentage of registrations were made via each procedure available for individuals to register themselves on the organ donor register in the last year for which figures are available. [156191]

**Ms Rosie Winterton:** The information requested is shown in the table.

*Registrations onto the national health service organ donor register, 2003 by source of registration—proportions*

| *Source* | *Percentage* |
|---|---|
| Driver and Vehicle Licensing Agency | 37 |
| Family Health Services Authorities | 28 |
| Organ Donor Leaflet | 3 |
| Passport Office | 1 |
| Boots Advantage Card | 14 |
| On-line | 1 |
| Other | 16 |

*Note:*
Analysis on 15 January 2004

**Ms Atherton:** To ask the Secretary of State for Health how many cadaveric organ donations there were in each of the past three years. [156192]

**Ms Rosie Winterton:** The number of cadaveric organ donors in each of the past three years—2001–03—is shown in the table.

| | *Donors* |
|---|---|
| 2001 | 778 |
| 2002 | 770 |
| 2003 | 710 |

*Source:*
UK Transplant

**Ms Atherton:** To ask the Secretary of State for Health how many non-heartbeating organ donations there were in each of the past three years; and in how many cases the deceased was on the donor register. [156193]

**Ms Rosie Winterton:** The number of non-heart-beating (NHB) organ donors over the last three years and the number of those who were on the organ donor register (ODR) is shown in the table.

| | *NHB donors* | *Number on ODR* | *Percentage on ODR* |
|---|---|---|---|
| 2001 | 39 | 10 | 25.8 |
| 2002 | 53 | 12 | 22.6 |
| 2003 | 66 | 17 | 25.8 |
| Total | 158 | 39 | 24.7 |

*Source:*
UK Transplant

**Mr. Carmichael:** To ask the Secretary of State for Health how many people are on the organ donor register; and how many people joined the register in each of the last five years. [156622]

**Ms Rosie Winterton:** There are currently 11.11 million people registered on the national health service organ donor register.

The number of registrations added to the register over the last five years—1999 to 2003—are shown in the table.

| | *Number added (million)* |
|---|---|
| 1999 | 1.51 |
| 2000 | 1.23 |
| 2001 | 0.74 |
| 2002 | 1.08 |
| 2003 | 0.87 |

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Health how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155922]

**Ms Rosie Winterton:** The average time take to answer an ordinary written parliamentary question in the 2002–03 session was 12 working days. The greatest number of days taken to answer such a question was 127 working days.

The Department strives to answer hon. and right hon. Members' questions in a timely and helpful fashion and is currently seeking to improve performance.

### PFI Projects

**Mr. Burstow:** To ask the Secretary of State for Health how many PFI projects in progress have *(a)* delayed timetables and *(b)* cost overruns; and if he will list the time delays and cost implications in each case. [155460]

**Mr. Hutton:** Indicative timetables and budgets are set for all schemes as part of their project management arrangements. During procurement, timetables are revised as necessary to reflect changed circumstances. Planned costs may also change but the scheme must remain affordable to the local health economy, and demonstrate value for money.

Firm completion dates (that is, when the hospital is open) are set only once contracts are signed for private finance initiative (PFI) schemes. To date, all major PFI schemes have been opened on or ahead of their planned completion target date.

Once contracts are signed, the risk of cost overruns is borne by the consortium.

### Primary Care

**Mr. Burstow:** To ask the Secretary of State for Health how many complaints have been received about *(a)* general practitioner co-operatives undertaking out

of hours service provision and *(b)* private companies providing out of hours primary care on behalf of the NHS; and if he will make a statement. [154438]

**Mr. Hutton:** Information on the number of complaints made against either general practitioner co-operatives or private companies providing out of hours care, is not held centrally. Primary care trusts (PCTs) are responsible for ensuring that out of hours services provided meet nationally set quality standards, which include compliance with the national health service complaints procedure.

Under the new general medical services (GMS) contract, everyone who provides services out of hours, including individuals contracted by the PCT, as well as organisations, will need to meet the national quality standards. These standards are currently under review by an expert group to make them an integral part of GMS and personal medical services (PMS) contracting. Strategic health authorities have responsibility for performance managing PCTs in their delivery of out of hours services.

### Commission for Health Improvement

**Sandra Gidley:** To ask the Secretary of State for Health what the costs have been of the Commission for Health Improvement in each year since its creation. [154468]

**Mr. Hutton:** The costs published in Commission for Health Improvement's annual accounts are shown in the table.

| | *Cost (£ million)* |
|---|---|
| 1999–2000 | 1.461 |
| 2000–01 | 11.272 |
| 2001–02 | 22.586 |
| 2002–03 | 28.5 |

### Red and Yellow Cards

**Paul Flynn:** To ask the Secretary of State for Health how many *(a)* 'red' and *(b)* 'yellow cards' have been issued by hospitals in England in each of the past three years. [153292]

**Mr. Hutton:** This information is not recorded centrally. The issuing of 'red cards' and 'yellow cards' is the responsibility of the individual health bodies.

### Restructuring/Change Programme

**Mr. Hinchliffe:** To ask the Secretary of State for Health (1) what the expected impact is of the departmental change programme on the provision of benefit and welfare services to the public; [153680]

(2) what the specific objectives are of the departmental change programme; and how the Department has consulted *(a)* staff, *(b)* other Government Departments and agencies and *(c)* external agencies and partners about this matter; [153682]

(3) what analysis has been carried out to demonstrate that the restructuring programme for the Department will provide *(a)* better value for money and *(b)* better accountability; [153683]

(4) what health programmes and services will be affected by the reorganisation and staff cuts within the Department. [153684]

**Mr. Hutton:** The Department will be responsible for setting overall direction for the health and social care system, enabling choice in service provision, setting standards, securing resources, making the big investment decisions and holding the whole system to account through independent regulation and inspection. This will mean that the capacity needed for the whole system to operate effectively is available. Patients, service users and providers of care will all know what is expected anywhere in the country. Where standards are not being met, the Government will intervene where necessary.

The change programme will focus the Department on a more strategic role, devolving responsibility to the front line. It will change the way the Department does its business so that it can provide more effective leadership and a better service to Ministers and the public. This will result in a reduction in the size of the core Department by 1,400—from over 3,600 posts to 2,200—by October 2004.

Staff have been consulted through major events and workshops in London and Leeds to help design the Department, monthly written and face-to-face briefings and monthly workshops on human resource questions. Government Departments, agencies and other partners have been consulted through special events in June and October 2004 to help design the changes, a series of one-to-one meetings on particular issues and progress updates from the Permanent Secretary, Sir Nigel Crisp, in June and October 2004.

The restructuring will provide a slimmer, more focused centre—reducing burden and duplication in the system. New policy development processes will ensure we make the best use of resources by focusing on priorities and involving service users in policy development. New working methods will improve our accountability to Parliament and the public. The change programme will be evaluated to check its delivery.

The change programme supports the drive for better public services. It ensures that the 'centre of gravity' moves closer to the frontline. More freedom for frontline staff will lead to better services for patients and users.

### Rural Health Care

**Dr. Murrison:** To ask the Secretary of State for Health if he will make a statement on shortages of general practitioners in rural areas. [154908]

**Mr. Hutton:** The Office for National Statistics (ONS) routinely publishes data classifying health authorities (HAs) into categories, including urban and rural. In the future, this will be by primary care trust. The latest published data refer to 2001. In that year, in England, the rural HAs had 59.7 unrestricted principals and equivalent (UPEs) per 100,000 registered patients, while the national average was 54.3 UPEs per 100,000 registered patients. There is, therefore, no evidence of under-doctoring in rural areas overall, although there will be some areas with recruitment difficulties.

The Government are committed to expanding the general practitioner workforce and have implemented a range of measures to increase the supply of GPs.

The Flexible Careers Scheme

The GP Returner Scheme

The Golden Hello Scheme

The NHS Delayed Retirement Scheme

International recruitment

Extension of the improving working lives initiative to primary care

Increasing training places, including new premises to train and employ more GPs.

### Saxon Square Health Centre (Christchurch)

**Mr. Chope:** To ask the Secretary of State for Health (1) pursuant to the answer of 9 February 2004, *Official Report*, column 1209W, on Saxon Square Health Centre (Christchurch), what estimate he has made of the current value of his Department's interest in the accommodation; [155493]

(2) pursuant to the answer of 9 February 2004, *Official Report*, column 1209W, on Saxon Square Health Centre (Christchurch), if he will make a statement on the work which is ongoing to secure an assignee or subtenant; [155494]

(3) pursuant to the answer of 9 February 2004, *Official Report*, column 1209W, on Saxon Square Health Centre (Christchurch), what has been the cost since 1999 of efforts to dispose of the accommodation; and how much has been spent in the last year; [155495]

(4) pursuant to the answer of 9 February 2004, *Official Report*, column 1209W, on Saxon Square Health Centre (Christchurch), whether the NHS will enter discussions with the head leaseholder to surrender the leasehold interest. [155496]

**Mr. Hutton** *[holding answer 23 February 2004]:* Since 1999, the total costs attributable to the disposal of this accommodation are in the order of £8,500 and approximately £3,000 has been spent in the last year.

Discussions are currently taking place with a national health service trust with a view to them taking responsibility for this leasehold interest.

The current estimated value for the health centre is commercially confidential.

Further negotiations will be held with the head leaseholder if and when it is in the best interests of the NHS.

### Working Time Directive

**Mr. Norman:** To ask the Secretary of State for Health whether compliance with the European Working Time Directive for doctors in training will become a Commission for Health Improvement performance indicator. [153699]

**Mr. Hutton:** From April 2004, the Commission for Healthcare Audit and Inspection will take over responsibility for developing indicators and national health service performance ratings. The latest performance indicators, published by the Commission for Health Improvement for use in the 2003–04 performance ratings, includes an indicator for qualified junior doctors' working hours. The indicator relates to post registration house officers, senior house officers and specialist registrars only.

# Written Answers to Questions

*Friday 27 February 2004*

## WALES

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Wales how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary Question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155927]

**Mr. Hain:** In the Session 2002–03, the Wales Office took 10 sitting days, on average, to provide a substantive reply to parliamentary ordinary written questions.

The greatest number of days taken to answer an ordinary written question was 58 sitting days. In this instance providing a substantive answer required considerable research with colleagues in the National Assembly for Wales and the department for Trade and Industry.

**Norman Baker:** To ask the Secretary of State for Wales how many Parliamentary Questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157745]

**Mr. Hain:** Since 1 January 2003:

(a) 336 (ordinary written questions) 67.5 per cent. answered within 10 sitting days.

(b) 38 (Named Days) 60.5 per cent. were answered on the specified date.

## TRANSPORT

### Flight Delays (Terrorism)

**Mr. Evans:** To ask the Secretary of State for Transport what estimate he has made of the cost to UK businesses of flight delays between London and Washington due to terrorism alerts in recent months. [156072]

**Mr. McNulty:** None. Aviation security is kept under review at all times and measures are adjusted from time to time. Delays and occasional cancellations may sometimes be necessary but the first priority is always the safety of the travelling public.

### 10-year Plan

**Mr. Truswell:** To ask the Secretary of State for Transport what progress has been made *(a)* in London and *(b)* outside London in achieving the Ten-year Plan targets for growth of more than 12 per cent.by 2010 compared with 2000 in the use of (i) bus services and (ii) light rail. [156176]

**Mr. McNulty:** The Department has a PSA target of 12 per cent. growth in patronage on local public transport (bus and light rail) in England by 2010–11 compared with 2000–01. We are on track for achieving this national target, with bus and light rail patronage growing by 4 per cent. in the first two years of the period, to 2002–03. Progress is shown in the following table:

*Local bus and light rail passenger journeys by area and mode:*

| | *2000–01* | *2001–02* | | *2002–03* | | *2000–01 to 2002–03* |
|---|---|---|---|---|---|---|
| | *Millions* | *Millions* | *Percentage change* | *Millions* | *Percentage change* | *Percentage change* |
| England | 3,880 | 3,930 | 1.3 | 4,037 | 2.7 | 4.0 |
| (i) bus | 3,756 | 3,798 | 1.1 | 3,897 | 2.6 | 3.8 |
| (ii) light rail | 124 | 132 | 6.5 | 141 | 6.8 | 13.7 |
| London | 1,412 | 1,494 | 5.8 | 1,606 | 7.5 | 13.7 |
| (i) bus | 1,359 | 1,434 | 5.5 | 1,542 | 7.5 | 13.5 |
| (ii) light rail | 53 | 60 | 13.2 | 64 | 6.7 | 20.8 |
| Outside London | 2,468 | 2,436 | -1.3 | 2,432 | -0.1 | -1.5 |
| (i) bus | 2,397 | 2,364 | -1.4 | 2,355 | -0.4 | -1.8 |
| (ii) light rail | 71 | 72 | 1.4 | 77 | 7.0 | 8.5 |

### Bad Weather Disruption

**Mr. Randall:** To ask the Secretary of State for Transport what assessment his Department has made of the cost of bad weather disruption to transport in London in each of the last five years. [156520]

**Mr. McNulty:** No assessment has been made by the Department about the cost of bad weather disruption to transport in London over the last five years. Responsibility for ensuring London Underground is not adversely affected by bad weather now rests with Transport for London following its transfer last July. Transport for London and London boroughs are also responsible for ensuring London's road network is not unduly disrupted.

### Crossrail Scheme

**Linda Perham:** To ask the Secretary of State for Transport (1) whether he will make changes to the ownership of Cross London Rail Links to manage the Crossrail scheme; [156077]

(2) whether he will promote a Hybrid Bill to achieve powers for the realisation of Crossrail; [156078]

(3) when the Montague Report on Crossrail will be published; and when he will respond to the Report. [156079]

**Mr. McNulty:** My right hon. Friend has now received advice from Adrian Montague which he is studying closely and whose findings will be published. It covers a

very wide range of issues, including governance arrangements and possible legislation. My right hon. Friend will respond to the report in due course.

### Montreal Convention

**Mr. John Smith:** To ask the Secretary of State for Transport how many EU member states have yet to ratify the Montreal Convention. [157128]

**Mr. McNulty:** For legal reasons it is intended that ratification of the Montreal Convention by the European Community and by individual EU member states should be synchronised. The Commission is pressing member states to finalise their internal ratification procedures as soon as possible. The UK is ready to ratify the Convention.

### Rail Safety

**Linda Perham:** To ask the Secretary of State for Transport what steps he is taking to improve rail safety. [156082]

**Mr. McNulty:** The Health and Safety Commission and Executive (HSC/E), as the regulator for railway health and safety, work with the industry to improve health and safety on the railways. Details about the work of the HSE are contained in its annual report on the safety record of the railways in Great Britain, copies of which are available in the House Libraries. Two recent key measures to improve rail safety are the fitment of the Train Protection and Warning System which was completed during 2003 and the continuing removal of Mark 1 rolling stock from the network.

### Rural Bus Services

**Mr. Hoyle:** To ask the Secretary of State for Transport how many *(a)* villages and *(b)* towns in Lancashire have been served by rural bus services in each year since 2000; and if he will make a statement. [157294]

**Mr. McNulty:** The information is not available without incurring disproportionate cost.

## CONSTITUTIONAL AFFAIRS

### Food Crime

**Mr. Gardiner:** To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what training *(a)* has been and *(b)* is intended to be provided for magistrates and judges on issues of food crime, with particular reference to cases involving illegally imported meat; [155687]

(2) what advice and guidance his Department has issued to magistrates and judges concerning cases of food crime, with particular reference to cases involving illegally imported meat. [155688]

**Mr. Bradshaw:** I have been asked to reply.

In 2003, The Department for Environment, Food and Rural Affairs produced a case study on illegal imports that was included in the Magistrates' Association training CD.

Defra, HMCE and FSA liaise closely on cases of food crime, and will keep under review the need for further advice, guidance or training.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Animal Welfare

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs whether animal welfare agencies and charities have access to lists of *(a)* convicted animal rights abusers and *(b)* those banned from animal ownership. [155680]

**Mr. Bradshaw:** Animal welfare organisations do not have direct access to details of those people who have been convicted of animal cruelty or those disqualified from keeping animals.

However, the department is considering, as part of the proposed Animal Welfare Bill, the introduction of an Animal Welfare Enforcement Database which would assist in the enforcement of animal welfare legislation in England and Wales. It is proposed that the database would include details of those people who have been convicted and disqualified from keeping animals. No decisions have been taken as to whether or not those welfare organisations who currently undertake enforcement work would be able to obtain full access to the database.

### Beef Imports

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how much beef was imported in each of the last five years, broken down by country of origin. [155333]

**Alun Michael:** The attached table shows the level of beef meat and meat products imported into the UK for the years 1998–2002 broken down by the country of despatch.

The data is subject to a degree of statistical error. The overall level of errors is low, but these errors have a much greater proportional effect on countries with small values or volumes of trade. Therefore, care is needed when interpreting the data.

*UK imports of beef meat/products, 1998–2002*

*Thousand*

| *Country* | *1998* | *1999* | *2000* | *2001* | *2002* |

### Endangered Species

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking in conjunction with other governments to aid the protection of endangered species. [155255]

**Mr. Morley:** We are taking action in many ways, particularly through our active participation in the multilateral environmental agreements which help safeguard endangered species, including the Convention on Biological Diversity, the Convention on Migratory Species, the Convention on Conservation of European Wildlife and Natural Habitats and the Convention on International Trade in Endangered Species. We are also joining with other Governments to fund numerous conservation projects. Good examples include the Global Tiger Forum, the Great Ape Survival Project and a wide range of Darwin Initiative projects which are helping to protect endangered species.

### GM Crops

**Joan Ruddock:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what evidence she has from peer-reviewed research of increased yields of GM crops over non-GM crops grown in developing countries; [156127]

(2) if she will *(a)* list the GM crops which have assisted development in developing countries and *(b)* cite the relevant peer-reviewed research. [156128]

**Mr. Morley** *[holding answer 26 February 2004]:* It is for developing countries to make their own assessment of the potential benefits of GM crops. The Government want to help ensure that if developing countries do use GM products they do so safely, appropriately and effectively to bring real benefits to their people. To assist developing countries make their own informed decisions on the possible use of GM technology the UK supports and has ratified the Cartagena Protocol on Biosafety, a multilateral agreement which provides a common global basis for risk assessment, decision-making and information exchange on GM crops and other products. Of course, GM technology is only one possible tool, not a panacea.

A recently published report by the Nuffield Council on Bioethics contains a number of case studies detailing the actual and potential benefits of GM crops for developing countries. These are not necessarily related to yield increases but may, for example, involve reduced farmer inputs.

### Wild Ponies

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs how many wild ponies there were on moors in each year since 2000. [156564]

**Alun Michael:** This information is not collected centrally.

### Integrated Administration and Control System

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* total budget and *(b)* budget for administration were for the Integrated Administration and Control System panel for financial year 2002–03. [156508]

**Alun Michael:** The Integrated Administration and Control System (IACS) Appeal Procedure in England is demand led and throughput determines the level of expenditure. The costs of administering the IACS Appeal Procedure are met from the overall administration costs of the Rural Payments Agency.

The IACS Panel convenes to consider cases that have progressed to the second stage of the Appeal Procedure. Each Panel is made up of three independent members who are drawn from a pool of 16. Members are paid a day and half's fee for each Panel Hearing that they attend together with their travelling expenses.

In 2002–03 three IACS Panel Hearings were held to consider five appeals. The daily fee at that time was £149.

### Market Towns Initiative

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment her Department has made of the impact of the Market Towns Initiative. [155949]

**Alun Michael:** An initial assessment of the Market Towns Initiative was undertaken at the end of the first year, in the summer of 2002 and is available at http://www.countryside.gov.uk/Publications/articles/Publication tcm2–13687.asp

Defra and the Countryside Agency are now in the process of carrying out a full assessment which will identify the achievements of the 227 towns taking part in the initiative and any difficulties that have been experienced. A final report will be available in June this year.

An evaluation of the Market Towns Initiative will also be carried out as part of the Rural Policy Evaluation Framework which will cover a range of key policy and programme based areas. The process and timetable for the framework evaluation will be finalised shortly.

### NIREX

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her news release of 16 July 2003, on radioactive waste management, if she will make a statement on *(a)* the progress in making NIREX an independent body and *(b)* the work undertaken so far by Katharine Bryan. [152700]

**Mr. Morley** *[holding answer 3 February 2004]:* The Committee on Radioactive Waste Management (CoRWM) has been set up to recommend the best option, or combination of options, for the long-term management of the UK's higher activity radioactive wastes. My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs announced on 16 July 2003 that Katharine Bryan had been appointed as Chair of CoRWM. Katharine subsequently left the Committee on 11 December 2003 to take up a post as Chief Executive of the Water Service, Department for Regional Development (Northern Ireland). She

was succeeded as Chair of CoRWM by Gordon MacKerron, an existing member of the Committee. CoRWM continues to work with the aim of delivering its recommendations by around the end of 2005, building on the foundations laid by Katharine Bryan. The 16 July 2003 announcement also said that Government would be looking at the best way of making Nirex independent of industry and under greater Government control. Despite initial hope that we could resolve this matter during the course of 2003, our considerations are still ongoing and we shall make a statement as soon as we are able.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Environment, Food and Rural Affairs what her Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155529]

**Alun Michael:** As Defra was created in June 2001 information prior to this date is unavailable.

Given the current structure of the HR function within the Department the information requested is available only at disproportionate cost.

### Single Payments

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce historic payments under the Common Agricultural Policy in place of single farm payments. [156505]

**Alun Michael:** No. As my right hon. Friend told the House on 12 February, in England we will introduce the new decoupled single payment from next year on a flat rate basis within a transition period lasting until 2012.

## CABINET OFFICE

### Civil Service

**Mr. Laws:** To ask the Minister for the Cabinet Office what plans he has to raise the Civil Service normal retirement age to 65; and if he will make a statement. [156577]

**Mr. Alexander:** In line with all employers in the public and private sector, the Government believe that the Civil Service should be allowed to determine retirement age policy with regard to its business needs while giving staff as much choice as possible about when they retire. Departments and agencies are free to set the normal retirement age for their own staff subject only to the requirement that the minimum age at which civil servants can retire with full superannuation benefits is 60.

The normal retirement age for the Senior Civil Service is 60. However, Heads of Departments and Agency Chief Executives have the flexibility to retain members of the Senior Civil Service beyond 60 if they judge it to be in the public interest and are satisfied about the fitness and efficiency of the individual to carry out his or her duties.

Against this background, 80 per cent. of the Civil Service now has the option to remain in work until 65, and a further 11 per cent. has the option to remain in work on short service concessions. Those Departments and agencies which have decided that there is a strong case for retaining a retirement age of 60 in the current circumstances, will be expected to continue to re-examine the issue and look positively at offering more flexibilities to older staff.

### Government Car Service

**Mr. Chope:** To ask the Minister for the Cabinet Office pursuant to the letter from the Chief Executive of the Government Car and Despatch Agency referred to in his answer of 12 February 2004, *Official Report*, column 1569W, on Government cars, for which Departments the Government Car Service drivers were working at the time of each of the speeding offences identified; and whether any of the offences took place while Ministers were passengers. [157186]

**Mr. Alexander:** The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car and Despatch Agency. I have asked its Chief Executive, Mr. Nick Matheson, to write to the hon. Member. Copies of his letter will be placed in the Libraries of the House.

## CULTURE, MEDIA AND SPORT

### Child Poverty

**Mrs. Roche:** To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if she will make a statement. [154371]

**Estelle Morris:** I refer my hon. Friend to the answer given to her by my hon. Friend the Parliamentary Under-Secretary of State for Work and Pensions on 12 February 2004, *Official Report*, columns 1590–91W.

### Live Music Task Force

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport what the *(a)* budget and *(b)* aims of the live music task force are; and if she will make a statement. [157783]

**Estelle Morris:** The information is as follows:

*(a)* The Live Music Forum does not have an allocated budget, as its work is essentially advisory.

*(b)* The Forum's aims are to: take forward the commitment made by the Government during the passage of the Licensing Act 2003, to maximise the take-up of reforms in that Act relating to the performance of live music; promote the performance of live music generally; monitor and evaluate the impact of the 2003 Act on the performance of live music; and make recommendations for further action.

### Scottish Football Industry

**Pete Wishart:** To ask the Secretary of State for Culture, Media and Sport what responsibilities her Department has in relation to the Scottish football industry; and if she will make a statement. [156855]

**Mr. Caborn:** Sport is a devolved matter. This is the responsibility of the Scottish Executive.

## EDUCATION AND SKILLS

### Individual Learning Account

**Sue Doughty:** To ask the Secretary of State for Education and Skills when he expects the auditing of Individual Learning Account learning providers to be completed; and if he will make a statement. [156404]

**Mr. Ivan Lewis:** The Department's Compliance Unit expects to have completed the majority of its Individual Learning Account (ILA) claim validation checks by late summer 2004. Of those registered, learning providers subject to review 68 are currently with the police. It is not possible to assess the time it will take for the police to complete their investigations.

The Department remains committed to making payments to learning providers where ILA claims are properly validated.

**Sue Doughty:** To ask the Secretary of State for Education and Skills how many claims from Individual Learning Account learning providers have *(a)* been audited with evidence of fraud discovered, *(b)* been audited without fraud being discovered and received any outstanding payments and *(c)* not yet been audited; and if he will make a statement. [156405]

**Mr. Ivan Lewis:** Since closure of the Individual Learning Account (ILA) programme reviews carried out by the Department have resulted in: *(a)* evidence of potential fraud being found in connection with 159 registered learning providers of which 68 are with the police; *(b)* investigations and validation checks completed enabling 352 learning providers to be cleared or closed with the Department making payments of £1.1 million to 33 learning providers; and *(c)* 278 learning providers with whom the Department is still carrying out investigation and validation work by seeking further evidence, reviewing such evidence or negotiating a settlement.

In addition, as at 24 February 2004, 186 learning providers have made claims following the ruling on ILAs by the Parliamentary Commissioner for Administration. 119 claims from learning providers have been reviewed. Of those reviewed, 40 claims could not be validated and payments of £147,920 are being made to 79 providers. A further 67 claims from providers are in process of being validated.

The Department will continue to pursue those providers that have wrongfully claimed from the public purse and where appropriate seek repayment. Where there is evidence of potential fraud, providers are referred to the police. In cases where claims are properly validated, the Department has in place arrangements to pay the outstanding claims.

### Schools (Financial Management)

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what assessment he has made of the ability of local education authorities to assist schools in improving their financial management skills. [157070]

**Mr. Miliband:** We have made no specific and separate assessment. However, we continue to work closely with LEAs to provide financial management support for schools. The National College for School Leadership and KPMG have provided a workshop programme for head teachers and governors. By the end of March 2004, we expect that leaders from just over 1,000 schools identified by their LEAs will have attended. Consultancy support from KPMG is also available to participating schools that need it, and an extensive website provides financial management advice to all LEAs and schools. LEAs have worked closely with the Department to provide consistent financial reporting data, allowing schools to benchmark their financial situation with other similar schools.

### Medical Practitioner Fees

**Bob Russell:** To ask the Secretary of State for Education and Skills what the average annual fee is for a student studying to be a medical practitioner from *(a)* the UK, *(b)* another country in the European Union and *(c)* a country outside the European Union. [155877]

**Alan Johnson:** The fees for medical students from:

(a) England and Wales are £1,125 (maximum) in 2003/04;

(b) Elsewhere in the European Union—likewise £1,125 (maximum) in 2003/4; and

(c) Countries outside the European Union are generally around £7,000 to £18,000 per year, depending on the institution and the type of course.

Students under *(a)* and *(b)* have their fees paid for them by the Department of Health from the fifth year of the course onwards.

### School-University Relationship

**Mr. Chaytor:** To ask the Secretary of State for Education and Skills what information his Department collates on the relationship between an individual's first secondary school attended and the likelihood of attending university by the age of *(a)* 20, *(b)* 25 and *(c)* 30 years of age; and if he will make a statement. [155622]

**Alan Johnson** *[holding answer 25 February 2004]:* Cohort 8 of the Youth Cohort Survey (YCS) provides the most recent data for participation in higher education at ages 18 to 19 and 20 to 21 by an individual's secondary school type (pre-16).

*Percentage*

| *School type* | *Participation rate at 18 to 19* | *Participation rate at 20 to 21* |
|---|---|---|
| State | 25 | 41 |
| Independent | 52 | 82 |

*Source:*
Youth Cohort Study: Cohort 8, Sweep 2 (1998) and 3 (2000).

Research published by the Department in 2003: "An Econometric Analysis of the Demand for Higher Education" by Gayle, V. Berridge, D. and Davies, R. B.

(DfES Research Report 472) uses data from cohort 9 of the YCS and shows that after controlling for the effects of GCSE and A level attainment, a number of factors (including Year 11 schooling) have statistically significant effects on the likelihood of an individual attending university at age 18.

The report can be accessed on the Department's research publications website: www.dfes.gov.uk/research

### Sector Skills Agency

**Mr. Laws:** To ask the Secretary of State for Education and Skills what the *(a)* cost in the last financial year and *(b)* purpose is of the Sector Skills Agency; and if he will make a statement. [156588]

**Mr. Ivan Lewis:** The Sector Skills Development Agency total expenditure for the year 2002–03, its first year of operation, was £15.95 million.

The Sector Skills Development Agency is responsible for developing a network of Sector Skills Councils, the Skills for Business network whose mission is to promote world-leading skills and productivity performance in all business sectors in all regions and nations of the UK.

I am very encouraged by the progress being made by the Agency in establishing a high quality Skills for Business network. 11 Sector Skills Councils have now been licensed and there are plans to license a further 12 Sector Skills Councils by the summer 2004.

### Student Loans

**Chris Grayling:** To ask the Secretary of State for Education and Skills with how many graduates who were in receipt of income contingent loans the Student Loans Company has lost contact since graduation; and what proportion of the total this represents. [155453]

**Alan Johnson:** Data from the Student Loans Company indicate that it is currently attempting to trace 3,400 borrowers. This represents 0.4 per cent. of the total number of borrowers who will have entered liability to repay up to and including April 2004.

**Chris Grayling:** To ask the Secretary of State for Education and Skills if he will provide a breakdown by expenditure category of the £2 billion annual Government spending on student loans referred to in Note 82 on Page 16 of the Explanatory Notes for the Higher Education Bill. [155455]

**Alan Johnson:** The figure of £2 billion in Note 82 on Page 16 of the Explanatory Notes for the Higher Education Bill refers to the annual cash cost to the Government of issuing student loans.

In financial year 2002–03, the amount lent to England and Wales domiciled borrowers in student loans was £2,293 million, of which £2,278 million was in respect of income contingent loans, and £15 million was in respect of mortgage style loans.

### TeacherNet

**Mr. Brady:** To ask the Secretary of State for Education and Skills pursuant to his answer of 5 February 2004, *Official Report*, column 1033W, on TeacherNet, what proportion of the cost was incurred by *(a)* the consultation process, *(b)* consultancy work by information technology experts and *(c)* marketing and publicity. [156120]

**Mr. Charles Clarke:** My Department met the consultation, marketing and publicity costs from within its own staffing resources, reserving the amount as previously notified for website production by web experts. The number of visits to the site last week made it the 41st most popular on the whole of the TeacherNet website.

### Working-age Population (Skills)

**Mr. Evans:** To ask the Secretary of State for Education and Skills what steps he is taking to reduce the number of people in the working age population in the North West Region with no qualifications. [156491]

**Mr. Ivan Lewis:** The White Paper, "21st Century Skills: Realising Our Potential", published in July last year, set out a number of measures to raise the skills levels of adults including the introduction of a new entitlement to free tuition for those studying for their first full level 2 qualification.

We intend that the level 2 entitlement will apply to those in the workforce of working age who do not already have a full level 2 qualification and who commit to trying to achieve one. To complement this, the Adult Learning Grant (ALG) will offer an allowance of up to £30 a week to help adults with the costs of learning. Lancashire is one of the 10 pilot areas for the ALG scheme. We have also put in place a strategy to ensure that low-skilled adults receive high quality information, advice and guidance to help them choose the most appropriate course.

The Skills for Life Strategy aims to transform people's attitude to literacy and numeracy, and significantly to improve the country's skills levels. In the North West, the target for the combined local LSCs is to improve the skills of 106,000 people by the end of 2004. At July 2003, we estimate that we were on track and 73,000 people in the region had improved their skills. In addition, there has been Skills for Life work carried out by Jobcentre Plus and the Prison Service in the North West.

To help raise the skills levels of those already in employment, we are running 12 Employer Training Pilots, including one in Greater Manchester, to encourage employers to invest in skills and qualifications, particularly for low skilled trainees. The Pilots are testing out a package of financial support measures to improve access to training and enable employees to develop basic skills and NVQ level 2 qualifications.

We are also working to engage employers in activity to address the basic skills needs of their employees. This includes working with Business in the Community (BITC) who have an adviser in each region, including the North West, who is able to meet and discuss basic skills with employers. BITC are also working with a number of major companies in the North West on developing programmes to address basic skills. In addition, a group of Employer Champions has been established, who will act as advocates for basic skills with other employers.

Champions are represented in the North West by the North West Regional Development Agency, Liverpool City Council, and Airbags International.

We recognise that there is a strong regional dimension to the skills problem. Regional Skills Partnerships (RSPs) will be set up in each region to help ensure that the work of different agencies involved in delivering the aims of the Skills Strategy are better co-ordinated and delivered in a way that connects with the needs of employers at regional, local and sectoral levels. Key Partners in the RSPs include the Learning and Skills Council, Jobcentre Plus, the Skills for Business Network, and the Small Business Service. We will be talking to the North West Development Agency and their partners about their plans to set up the Partnership in the North West over the next few months.

### Workplace Skills

**Helen Jones:** To ask the Secretary of State for Education and Skills what assessment he has made of the role of trade union learning representatives in improving skill levels in the workplace; and if he will make a statement. [156632]

**Mr. Ivan Lewis:** Union Learning Representatives are a key component of the Government's new Skills Strategy. In developing the Strategy, we consulted widely and met with trade union representatives on a number of occasions to discuss the vital role that unions and their learning representatives have to play. The TUC is, of course, a key member of the Skills Alliance which will bring together Government, employers and trade unions to oversee the future development and delivery of the Skills Strategy.

Earlier evaluations of the Union Learning Fund and Union Learning Representatives have provided evidence that they have been very effective in helping to encourage workers to improve their skills, particularly workers with low skills and those with literacy and numeracy problems—the very people who so often miss out on learning opportunities.

Analysis of the profile of learners engaged by Union Learning Representatives suggests that they have been very successful in engaging non-traditional learners including older males, people in minority ethnic groups and shift workers. Data for performance management information for 2002–03 confirm that some 19 per cent. of learners from current ULF projects come from ethnic minority backgrounds and 19 per cent. of learners are aged 51 and over (almost 60 per cent. are aged 41 and over).

There are currently around 6,500 Union Learning Representatives. Their new statutory rights, which came into force at the end of April 2003, will help their numbers to grow and we look forward to seeing a national network of over 22,000 trained Union Learning Representatives in place by 2010, helping over 250,000 workers a year into learning.

Regular evaluation of the Union Learning Fund, which includes data on Union Learning Representatives, has taken place up to 2002 and copies of the reports are available in the House of Commons Library. Further longitudinal evaluation, with the aim of measuring the impact of both ULF and ULRs in improving skills levels in the workplace, is commencing from April 2004.

## SCOTLAND

### Scottish Football Industry

**Pete Wishart:** To ask the Secretary of State for Scotland what responsibilities his Department has in relation to the Scottish football industry; and if he will make a statement. [156856]

**Mrs. McGuire:** The Department has no responsibilities in relation to the Scottish football industry.

## TREASURY

### Drug-related Deaths

**Mr. Hoyle:** To ask the Chancellor of the Exchequer how many drug-related deaths there were in people aged under *(a)* 21, *(b)* 30 and *(c)* 40 years in (i) the North West and (ii) Lancashire in the last year for which figures are available. [157089]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Lindsay Hoyle, dated 27 February 2004:*

The National Statistician has been asked to reply to your question asking how many drug-related deaths there were in people aged under *(a)* 21, *(b)* 30, *(c)* 40 in (i) the North West and (ii) Lancashire in the latest year for which figures are available. I am replying in his absence. (157089)

The most recent year for which figures are available is 2002. Data on the number of deaths certified as due to drug poisoning in that year are given in the table below for the North West and Lancashire.

*Deaths related to drug poisoning[1] North West[2] and Lancashire[3] 2002[4]*

| | *Under 21* | *21–29* | *30–39* |
|---|---|---|---|
| (i) North West | 20 | 91 | 131 |
| (ii) Lancashire | [5]— | 17 | 23 |

[1] Defined using the following codes from the International Classification of Diseases Ninth Revision for 1993 to 2000:292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E980.0-E980.5, E962.0, and the following codes from the International Classification of Diseases Tenth Revision for 2001 and 2002: F11-F16, X40-X44, X60-X64, Y10-Y14, X85.

[2] Usual residents of the Government Office for the North West.

[3] Usual residents of the former county of Lancashire, which comprises the current county and the unitary authorities of Blackburn with Darwen and Blackpool.

[4] Data are for deaths occurring in each calendar year.

[5] Fewer than 5 deaths.

*Source:*
Office for National Statistics.

### Child Tax Credit

**Norman Lamb:** To ask the Chancellor of the Exchequer what procedures operate in cases where it is

discovered that an overpayment of child tax credit has been made; and whether notification of the position is sent to the recipient of the tax credit. [153465]

**Dawn Primarolo:** The Inland Revenue's Code of Practice 26 "What happens if we have paid you too much tax credit?" sets out the Inland Revenue's approach when adjusting an award to avoid paying too much tax credit over the year or to recover an overpayment identified after the tax year has ended.

A revised award notice is sent to claimants when a change is processed.

### Construction Industry

**Brian Cotter:** To ask the Chancellor of the Exchequer what the evidential basis was for his Department's decision to maintain the £30,000 turnover test for sub-contractors to receive gross payments under the Construction Industry Scheme; and what advice he received from the Inland Revenue on this matter during the recent review of the scheme. [156681]

**Dawn Primarolo:** There has been a specialised taxation scheme for the construction industry since the 1970s to regulate an industry with a long history of poor compliance on taxation matters. The original scheme required a deduction to be made from payments unless the subcontractor could meet certain standards, which allowed him to be paid gross. However, this system failed to limit the numbers receiving gross payment.

The Construction Industry Scheme (CIS) was introduced in Finance Act 1995 and implemented from August 1999. It tightened up the criteria for gaining a gross payment certificate by requiring all subcontractors applying for gross payment status to demonstrate a minimum level of turnover. This approach proved successful and safeguarded monies that were previously at risk to the Exchequer under its predecessor.

The current review of CIS followed industry complaints about its cumbersome processes. The Chancellor announced, in Budget 2003 that the CIS would be replaced by a new system that will relieve some of the industry's administrative burden.

The Inland Revenue has consulted extensively with industry representatives on the detail of the new scheme, including the criteria for gross payment status. Alternatives to the turnover test were suggested by the industry but none was as effective in restricting the number of subcontractors obtaining gross payment required to preserve the effectiveness of the scheme.

Successive Governments have accepted that it is not appropriate to disclose the advice given to Ministers by civil servants.

### Earnings Statistics

**Annabelle Ewing:** To ask the Chancellor of the Exchequer if he will list for *(a)* male, *(b)* female and *(c)* all workers in (i) Scotland and (ii) each of the unitary local authority areas in Scotland the (A) weekly median earnings and (B) distribution of earnings for those earning (1) under the point below which 10 per cent. of earners fall and (2) the above point above which 10 per cent. of earners exceed. [156220]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Annabelle Ewing, dated 27 February 2004:*

As National Statistician, I have been asked to reply to your recent question for a list, for *(a)* male, *(b)* female and *(c)* all workers in (i) Scotland and (ii) each of the unitary local authority areas in Scotland the (A) weekly median earnings and (B) distribution of earnings for those earning (1) under the point below which 10 per cent. of earners fall and (2) the point above which 10 per cent. of earners exceed. (156220)

I attach a table showing the mean and median earnings in 2003 of employees in local authority areas in Scotland.

Estimates of the boundary points for the highest and lowest 10 per cent. of earners in these areas are published on the National Statistics web site at: http://www. statistics. gov.uk/downloads/theme_labour/NES2003_Analyses_By_Region/NES2003_Analyses_By_Region.pdf

Tables El 5, El6 and El7 give this information for all workers, male workers and female workers respectively, along with other earnings figures for Scottish Local Authorities.

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period. This is the standard definition used for NES tables. The NES does not collect data on the self employed and people who do unpaid work.

The New Earnings Survey publication criteria ensures that all estimates are undisclosive and of reliable quality, and suppresses estimates that do not meet these criteria. A number of estimates have been removed from the table for this reason. The information is based on the 2003 NES, the latest survey for which data are available.

*Gross weekly earnings of full-time employees in Scotland in 2003*

*£ per week*

| | *Male* | | *Female* | | *All* | |
|---|---|---|---|---|---|---|
| *Area* | *Mean* | *Median* | *Mean* | *Median* | *Mean* | *Median* |

| South Lanarkshire | 479.8 | 417.8 | 346.9 | 309.5 | 421.8 | 382.2 |
| Stirling | [1] | [1] | [1] | [1] | 429.8 | 374.4 |
| West Lothian | 459.7 | 387.0 | [1] | [1] | 423.0 | 363.0 |

[1] Estimate removed since it did not meet criteria for publication

### Economic Growth

**Mr. Spring:** To ask the Chancellor of the Exchequer (1) by what rate real GDP grew in *(a)* the United Kingdom, *(b)* the Republic of Ireland, *(c)* Denmark, *(d)* Sweden, *(e)* Finland, *(f)* Germany, *(h)* the Netherlands, *(i)* Belgium, *(k)* Luxembourg, *(l)* France, *(m)* Spain, *(n)* Portugal, *(o)* Italy, *(p)* Austria, *(q)* Greece, *(r)* the area now forming the euro-12, *(s)* the EU 15 and *(t)* the United States for each year since 1992; [157182]

(2) what the average real terms annual rate of growth in GDP was in *(a)* the United Kingdom, *(b)* the Republic of Ireland, *(c)* Denmark, *(d)* Sweden, *(e)* Finland, *(f)* Germany, *(h)* the Netherlands, *(i)* Belgium, *(k)* Luxembourg, *(l)* France, *(m)* Spain, *(n)* Portugal, *(o)* Italy, *(p)* Austria, *(q)* Greece, *(r)* the area now forming the euro-12, *(s)* the EU 15 and *(t)* the United States since (i) 1992 and (ii) 1997. [157183]

**Ruth Kelly:** The statistics requested are available in the OECD Economic Outlook, December 2003.

### Electricity Generation (Fuel Taxation)

**Mr. Trimble:** To ask the Chancellor of the Exchequer if, following the introduction of the European Union's Emissions Trading Scheme, he will take steps to ensure that no fuels used in power stations for the generation of electricity are subject to duties or taxes. [156101]

**John Healey:** The EU emissions trading scheme is expected to be running from January 2005, and the Government will take account of its impact on the existing tax system.

Decisions on taxation are a matter for the Chancellor as part of the Budget process, taking account of the Government's economic, social and environmental objectives.

### Government-guaranteed Borrowing

**Mr. Tyrie:** To ask the Chancellor of the Exchequer if he will list the instances of borrowing by private organisations since 1997–98 on which the Government have given a guarantee of any form; and what the amounts concerned were in each case. [156212]

**Mr. Boateng:** All of the Government's contingent liabilities, including guarantees, which meet the reporting criteria set out in "Government Accounting chapter 26" will have been set out in annual Supplementary Statements to the Consolidated Fund and National Loans Fund accounts.

In addition, Departments' resource accounts prepared since 1999–2000 accounted for probable contingent liabilities in line with the relevant accounting standard. Thus they include those liabilities which are probable but which are not reportable to Parliament. From 2002–03, Departments have also had to disclose remote contingent liabilities where they meet the reporting criteria set out in "Government Accounting", as well as following FRS12.

### Computer Initiatives

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer (1) what plans he has to assess the proportion of private sector employees who received computers as a result of employer-provided home computer initiatives in each year since 1997; [157204]

(2) if he will assess the impact of the £500 annual exemption from the taxable benefit on loaned computers introduced in the Finance Act 1999. [157205]

**Dawn Primarolo:** The Office for National Statistics have included extra questions in their quarterly internet access survey to assess consumer awareness and take up of Home Computing Initiatives (HCI) which use the annual tax exemption on loaned computers. Industry partners are also conducting tracking which the Office of the e-Envoy and the Department of Trade and Industry will use as part of their overall assessment. The impact of HCI schemes on levels of home computer penetration and internet access will also be monitored on an ongoing basis.

### Inheritance Tax

**Mr. Keith Simpson:** To ask the Chancellor of the Exchequer how much revenue was raised through inheritance tax in each of the last 20 years. [156780]

**Dawn Primarolo:** Receipts of Inheritance Tax (including Capital Transfer Tax where appropriate) for 1983–84 to 2002–03 are published in Table 1.2 of Inland Revenue Statistics at the following website: www.inlandrevenue.gov.uk/stats/tax_receipts.

**Mr. Keith Simpson:** To ask the Chancellor of the Exchequer (1) if he will list the changes in inheritance tax thresholds where the limit had been uplifted by inflation since 1997; [156795]

(2) if he will list the changes in inheritance tax thresholds since 1974. [156796]

**Dawn Primarolo:** Inheritance Tax Thresholds since the financial year 1988–89 are shown in the following table.

*Lower limit of slice of chargeable capital (£000)*

| | *Rates of tax—40%* |
|---|---|
| 15 March 1988 to 5 April 1989 | 110 |
| 6 April 1989 to 5 April 1990 | 118 |
| 6 April 1990 to 5 April 1991 | 128 |
| 6 April 1991 to 9 March 1992 | 140 |
| 10 March 1992 to 5 April 1995 | 150 |
| 6 April 1995 to 5 April 1996 | 154 |
| 6 April 1996 to 5 April 1997 | 200 |
| 6 April 1997 to 5 April 1998 | 215 |
| 6 April 1998 to 5 April 1999 | 223 |
| 6 April 1999 to 5 April 2000 | 231 |
| 6 April 2000 to 5 April 2001 | 234 |
| 6 April 2001 to 5 April 2002 | 242 |
| 6 April 2002 to 5 April 2003 | 250 |
| From 6 April 2003 | 255 |

Prior to 1988–89, different rates of tax were charged in respect of multiple thresholds. Details of all chargeable tax bands relating to Inheritance Tax and its predecessors from November 1974 to March 1988 are given in Appendix A.6, page 99, of Inland Revenue Statistics 1987, a copy of which is available in the Library.

Since 1997–98, the threshold has been indexed by the rate of inflation in each year except for 2002–03, when the indexed threshold would have been £247,000 rather than £250,000.

### Project Aspire

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to his answer of 30 January 2004, *Official Report*, columns 569–70W, what the names were in each case of the individuals forming the Inland Revenue team which met, as part of the market making exercise for Project Aspire, with *(a)* EDS, *(b)* IBM, *(c)* CGEY, *(d)* CSC, *(e)* Accenture, *(f)* Fujitsu Services, *(g)* CMG Logica and *(h)* PWC Consulting. [156518]

**Dawn Primarolo:** John Yard, the Director of Business Services; Don Brown, the Aspire Project Director and Ian Pretty, Head of Aspire Stakeholder Relations formed the Inland Revenue team which met with EDS, IBM, CGEY, CSC, Accenture, Fujitsu Services, CMG Logica and PWC Consulting.

### Lord Butler

**Mr. Gray:** To ask the Chancellor of the Exchequer when *(a)* Sir Nicholas Montagu KCB, Chairman of Inland Revenue, *(b)* Mr. Timothy Flesher CB, former Commissioner of Inland Revenue, *(c)* Mr. Gabriel Maklouf, former Director of Inland Revenue International Division and *(d)* Mr. Graham Dean, former Inland Revenue employee, was informed that Lord Butler of Brockwell had joined the advisory board of IBM UK; and what action each of them took upon receipt of this information. [156519]

**Dawn Primarolo:** Lord Butler's appointments are not a matter on which any action by the Inland Revenue is appropriate.

### Mortality Statistics

**Mr. Evans:** To ask the Chancellor of the Exchequer how many people died from *(a)* cancer and *(b)* coronary heart disease in (i) Lancashire and (ii) the North West in the last year for which figures are available; and what this represented for each 1,000 of population. [156499]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Evans, dated 27 February 2004:*

As National Statistician, I have been asked to reply to your recent question concerning how many people died from *(a)* cancer and *(b)* coronary heart disease in (i) Lancashire and (ii) the North West in the last year for which figures are available; and what this represented for each 1,000 of population. (156499)

The latest year for which the requested figures are available is 2002 and these are given in the attached table.

*Numbers of deaths and death rates[1] from cancer and coronary heart disease[2] in the former county of Lancashire,[3] and the North West government office region,[4] 2002[5]*

| | *Numbers of deaths* | *Rate per 1,000 population* |
|---|---|---|
| *Cancer* | | |
| Former county of Lancashire | 4,020 | 2.8 |
| North West | 19,104 | 2.8 |
| *Coronary heart disease* | | |
| Former county of Lancashire | 3,149 | 2.2 |
| North West | 14,977 | 2.2 |

[1] Crude rates per 1,000 population.

[2] The cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The codes used are listed below: Cancer (malignant neoplasms)—ICD-10 C00-C97.

Coronary Heart Disease-ICD-10 I20-I25.

[3] The former county of Lancashire comprises the current county and the unitary authorities of Blackburn with Darwen and Blackpool.

[4] Usual residents of these areas.

[5] Deaths occurring in 2002.

### Private Finance Initiative

**Mr. Tyrie:** To ask the Chancellor of the Exchequer how much capital spending by the private sector there has been or is projected on Private Finance Initiative or associated schemes, using the same departmental analysis as Table C18 of the Budget Report 2003, in each year from 1997–98 to 2005–06, separately distinguishing expenditure on assets that have been or will be accounted for *(a)* on-balance sheet and *(b)* off-balance sheet to the public sector client. [156159]

**Mr. Boateng:** The value of capital spending by the private sector under signed PFI schemes, listed by Department and by year, is available from the PFI signed projects list on the HM Treasury website. A total of 563 PFI transactions reached financial close by 4 April 2003, with a total capital value of £35.5 billion. The estimated capital value of signed PFI contracts where capital assets are accounted for on departmental balance sheets is £20.2 billion. This represents 57 per cent. of the total estimated capital value.

Projections of capital spending under signed projects and projects at preferred bidder to 2005–06 are published in Tables C18 and C19 of the Financial Statement and Budget Report 2003.

PFI contracts where the assets concerned are on departmental balance sheets are reported in departmental accounts, together with disclosure of information relating to any contracts assessed as off balance sheet.

### Royal Mint

**Mr. Laws:** To ask the Chancellor of the Exchequer what his latest estimate is of the *(a)* net asset value and *(b)* annual profitability of the Royal Mint; and if he will make a statement. [156764]

**Ruth Kelly:** The Royal Mint's net asset value (total assets less current liabilities) as at 31 March 2003 was £63,278,000. Its operating profit (before exceptional items) for the year 2002–03 was £1,285,000.

During 2003–04 to date there has been a small growth in the Mint's net asset value. The Mint forecast a modest improvement in profitability for 2003–04. This has been achieved largely through cost reductions, particularly in terms of employment costs.

The 2003–04 Accounts of the Royal Mint Trading Fund together with a Certificate and Report of the Comptroller and Auditor General will be prepared, and laid before Parliament, pursuant to section 4(6) of the Government Trading Funds Act 1973. Until then it would be inappropriate to provide an interim estimate based on unaudited accounts.

### Savings Gateway Project

**Mr. Cousins:** To ask the Chancellor of the Exchequer what interim conclusions he has reached on the Savings Gateway project; and when he will report conclusions to Parliament. [157051]

**Ruth Kelly:** The Saving Gateway pilot final evaluation is due in early 2005. No substantial conclusions can be drawn until we receive the full research findings, however indicators so far are good. The latest interim evaluation report showed that 1,478 accounts had been opened (the maximum was 1,500), and the participants were mostly drawn from young families with children. By the end of August 2003, the total amount saved was £150,000, and there was little evidence that people had transferred money from existing savings accounts or borrowed to save. This report is available on the HM Treasury website.

**Mr. Cousins:** To ask the Chancellor of the Exchequer what plans he has to re-examine the introduction of a Savings Advice Gateway. [157054]

**Ruth Kelly:** The Saving Gateway is being piloted in five locations, four of which are being run in conjunction with the Community Finance and Learning Initiative (CFLI), which is led by the DfES. Part of the remit of the community organisations involved in the CFLI is to provide advice and support to the Saving Gateway participants. The impact of the CFLI is being evaluated alongside the Saving Gateway evaluation. Final evaluation for the Saving Gateway is due in early 2005 and the DfES research findings are due to be published shortly.

### Taxation (Self-assessment)

**Mr. Drew:** To ask the Chancellor of the Exchequer under what circumstances a person who pays tax under PAYE is also required to fill in a self-assessment form. [156395]

**Dawn Primarolo:** A person paying tax under PAYE is also required to fill in a self-assessment return if they are:

A company director

An employee paying higher rate tax

An employee with more complex tax affairs

A pensioner with more complex tax affairs.

**Mr. Drew:** To ask the Chancellor of the Exchequer what definitions of *(a)* employed and *(b)* self-employed are used by the Inland Revenue for the purpose of a self-assessment form for income tax. [156396]

**Dawn Primarolo:** As set out in the self assessment tax return guide, a taxpayer who receives a self assessment return, has to complete the employment pages if he or she is an employee, or office holder, or director, or agency worker or receiving benefits from a former employer. A taxpayer has to complete the self employed pages if he or she carried on a trade, profession or vocation as a self employed person in the UK or abroad.

### Unemployment

**Mr. Wills:** To ask the Chancellor of the Exchequer (1) how many *(a)* males and *(b)* females aged (i) 21 to 30, (ii) 31 to 40, (iii) 41 to 50 and (iv) 51 to 60 years have been unemployed for (A) less than one month, (B) less than three months, (C) less than six months, (D) six to 12 months and (E) over 12 months; [156088]

(2) how many people aged *(a)* 21 to 30, *(b)* 31 to 40, *(c)* 41 to 50 and *(d)* 51 to 60 years are unemployed. [156089]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Michael Wills, dated 27 February 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Questions about numbers of people unemployed by age group and duration of unemployment. (156088 & 156089)

The attached table shows the available information for the most recent period for which data have been compiled, the three months ending in November 2003.

This information is derived from the Labour Force survey (LFS). As with any statistical sample survey, estimates from the LFS are subject to sampling variability.

*Number of unemployed adults by sex, age and duration[1] of unemployment: United Kingdom, September to November 2003[2]*

*Thousands*

| | Age group | | | |
|---|---|---|---|---|
| *Group* | *21–30* | *31–40* | *41–50* | *51–60* |
| Total unemployed adults | 384 | 306 | 222 | 172 |
| Adults unemployed for: | | | | |
| Less than 3 months | 201 | 120 | 85 | 56 |
| 3 months but less than 6 months | 62 | 57 | 37 | 26 |
| 6 months but less than 12 months | 57 | 50 | 36 | 28 |
| Over 12 months | 62 | 79 | 64 | 62 |
| Total unemployed men | 244 | 173 | 124 | 107 |
| Men unemployed for: | | | | |
| Less than 3 months | 116 | 55 | 34 | 28 |
| 3 months but less than 6 months | 38 | 33 | 19 | 14 |
| 6 months but less than 12 months | 43 | 32 | 26 | 18 |
| Over 12 months | 46 | 54 | 45 | 46 |
| Total unemployed women | 139 | 133 | 99 | 65 |
| Women unemployed for: | | | | |
| Less than 3 months | 85 | 65 | 51 | 28 |
| 3 months but less than 6 months | 24 | 25 | 18 | 12 |
| 6 months but less than 12 months | 14 | 18 | 10 | 10 |
| Over 12 months | 16 | 25 | 19 | 16 |

[1] Duration of unemployment is defined as the length of time for which a person has been seeking work or the length of time since he or she left their most recent job (whichever is the shorter).

[2] These estimates are not seasonally adjusted and have not been adjusted to reflect the 2001 Census results.

*Source:*

ONS Labour Force Survey

### Valuation Office Agency

**Mr. Gray:** To ask the Chancellor of the Exchequer when the vacancy taken up by Miss Ann Grinstead as a non-executive Director of the Valuation Office Agency was advertised; where the vacancy was advertised ; how many applications were received by the Valuation Office for the vacancy; how many candidates were shortlisted; and who the Chairman and the members of the interview panel charged with selecting the successful applicant were. [156615]

**Dawn Primarolo:** Miss Grinstead was appointed an external member of the Valuation Office Agency Management Board with effect from 1 April 2002. The post was filled through the Cabinet Office's Public Appointments list which maintained a list of people interested in appointments of this nature rather than through advertisement. The names of 43 people who had notified their interest were considered, four were short listed and approached, and Miss Grinstead was interviewed for suitability by the Chief Executive of the Agency, Mr. Michael Johns, the Agency's Director of Business Resources, Mrs. Wheatcroft, and the Inland Revenue's sponsor of the Agency at that time, Mr. David Park.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Cyprus

**Mr. Spring:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the current state of the negotiations on the island of Cyprus' future. [157108]

**Mr. Hawkins:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress towards a settlement in Cyprus. [157147]

**Mr. MacShane:** Following the UN Secretary-General's 4 February invitation to the parties, and the procedural agreement subsequently reached in New York on 13 February, substantive talks resumed in Nicosia on 19 February.

These talks, under UN auspices and on the basis of the UN Secretary-General's plan, aim to reach agreement on a settlement that will be put to the two Cypriot communities in separate simultaneous referendums on 21 April.

The settlement would take effect on the day after it had been approved, thus enabling a united Cyprus to join the European Union on 1 May.

Initial reports of progress are encouraging. The timetable is tight, and both sides are arguing for changes to the plan on some substantive points. But we hope that the constructive spirit shown by the parties in New York will enable them to reach agreement to their mutual benefit. The UK will continue to give its full support to the UN Secretary-General and to the parties in order to help realise this historic opportunity.

### Gibraltar

**Andrew Mackinlay:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the initiative by Spain to challenge the extension of the European franchise to people of Gibraltar, to limit the franchise to European Union citizens in the United Kingdom and Gibraltar and to exclude Commonwealth citizens. [156455]

**Mr. MacShane:** We are confident that the European Parliament (Representation) Act is consistent with our EU obligations. A statement by the Commission on 29 October 2003 confirmed that:

> "the UK has organised the extension of voting rights to residents in Gibraltar within the margins of discretion presently given to member states by the EU law".

We have received no official notification that Spain intends to pursue this case to the European Court of Justice. We would defend any such case.

### Israel

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 19 January 2004, *Official Report*, column 924W, to the right hon. Member for Suffolk, Coastal (Mr. Gummer), when Israel first tested a nuclear explosive device. [151868]

**Mr. MacShane:** Israel has never announced it has tested a nuclear explosive device.

### Sri Lanka

**Mrs. Iris Robinson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action the Government are taking to encourage the Sri Lankan authorities to give full protection to religious minorities in Sri Lanka. [154625]

**Mr. Mike O'Brien:** We are concerned about reports of discrimination against religious minorities in Sri Lanka and regularly raise this, and other human rights issues, with the Sri Lankan Government. On 27 January 2004, our High Commissioner in Colombo discussed our concerns about a possible Anti-conversion Bill with the Minister for Hindu Affairs. We will continue to look to the Government of Sri Lanka to protect the rights to freedom of religion enshrined in the Sri Lankan constitution.

### US Non-proliferation Initiative

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what response Her Majesty's Government have made to the global non-proliferation and counter-proliferation initiative President Bush announced on 11 February. [155862]

**Mr. MacShane:** The Government welcome moves to counter the proliferation of weapons of mass destruction and to strengthen, and achieve universal adherence to, the Treaties and Conventions against such proliferation.

I refer my hon. Friend to the written statement made on 25 February by my right hon. Friend the Foreign Secretary.

## HOME DEPARTMENT

### Asylum and Immigration

**Mr. Andrew Turner:** To ask the Secretary of State for the Home Department pursuant to the statement made by the hon. Member for Stretford and Urmston (Beverley Hughes) in Standing Committee on 27 January 2004, *Official Report*, columns 446–47, how many failed asylum seekers have left the UK in each year since 1999; what the evidential basis was for the Minister's assertion that Migration Watch UK's assumptions are spurious; what steps are being taken to ensure recent increases in work permit numbers are short-term; what proportion of the estimated population increase between *(a)* 2001 to 2026, *(b)* 2003 to 2026 and *(c)* 2002 to 2031 is attributable to net immigration; and to what less than 0.3 per cent. refers. [156086]

**Beverley Hughes** *[holding answer 25 February 2004]:* The following table contains the number of asylum seekers who have been removed from the UK in each year since 1999, including those departing voluntarily after enforcement action had been initiated against them and persons departing under the Assisted Voluntary Return Programmes run by the International Organisation for Migration. The figures do not include those who have departed voluntarily under their own means without informing the Government.

*Asylum removals 1999 to 2003*[1]

| | *Principal applicants* | *Dependants* | *Total* |
|---|---|---|---|
| 1999 | 7,655 | n/a | n/a |
| 2000 | 8,980 | n/a | n/a |
| 2001[2] | 9,285 | 1,495 | 10,780 |
| 2002[3] | 10,740 | 3,170 | 13,910 |
| 2003[3] | 12,490 | 4,550 | 17,040 |

n/a = Data on dependants removed have only been collected since April 2001.

[1] Includes persons departing voluntarily after enforcement action had been initiated against them and persons departing under the Assisted Voluntary Return Programmes run by the IOM.

[2] Data on dependants are for April to December only.

[3] Provisional data.

*Note:*

Data are rounded to nearest five and may not sum due to rounding.

The population projections produced by the Government Actuary's Department (GAD) are part of National Statistics and are covered by the National Statistics Code of Practice. This means that they are completely independent and produced to the highest professional principals and standards. We believe that this, along with access to the most relevant and up to date information captured by the Home Office's statistical branch and the Office for National Statistics, makes GAD's assumptions more credible than those of groups such as Migration Watch UK. I have written to Sir Andrew Green of Migration Watch UK setting out why the assumptions produced by his group are incorrect.

Work permits are issued in respect of posts which UK-based employers are unable to fill with suitably qualified resident workers and, except in the case of the Sectors Based Scheme for low skilled workers, are not subject to any numerical ceiling on the number of permits issued. Work Permits (UK), which administers these arrangements, seeks to ensure that the criteria for the issuing of work permits are responsive to changes in labour market conditions. The work permit arrangements are demand-led and the overall number of work permit applications in either the short or long-term will be dictated by the extent to which UK-based employers are able to fill vacancies with suitably qualified workers.

In his latest (2002-based) projections for the UK, the Government Actuary projects that *(a)* between 2001 and 2026 total population growth will be 5.1 million, of which total net inward migration is assumed to be 3.3 million; *(b)* between 2003 and 2026 total population growth will be 4.8 million, of which total net inward migration is assumed to be 3.0 million and; *(c)* between 2002 and 2031 total population growth will be 5.6 million, of which total net inward migration is assumed to be 3.8 million.

My reference to "less than 0.3 per cent." (Standing Committee, *Official Report*, column 447) should have been to the average population increase per annum. I am happy to take this opportunity to clarify this point for the record.

### Citizenship/Naturalisation

**Mr. Denham:** To ask the Secretary of State for the Home Department what estimate he has made of the number of applications for *(a)* naturalisation and *(b)* citizenship that will be made between January and the implementation of the sections of the Nationality, Immigration and Asylum Act 2002 that require knowledge of life in the UK and language. [156163]

**Beverley Hughes:** New applications for all types of citizenship have increased since the publication of the final report of the "Life in the UK" Advisory Group in September 2003. Current trends indicate that application rates, which have fallen slightly since 1 January, will continue at the present level until the implementation of the relevant provisions of the Nationality, Immigration and Asylum Act 2002. Forecast figures are not routinely published.

### Drug Treatment

**Mr. Stinchcombe:** To ask the Secretary of State for the Home Department how many places are available in residential drug treatment services in England; and how many were available in each of the previous five years. [153714]

**Miss Melanie Johnson:** I have been asked to reply.

The Department does not collect annual figures centrally on the number of places available in residential drug treatment in England.

However, as part of the consultation exercise leading up to the implementation of the National Minimum Care Standards, a survey was commissioned by the Department at the end of 2000 to establish the number of places within the residential drugs and alcohol sector collectively. This survey showed that at the end of 2000 there were approximately 3,100 residential care places in England.

### Sex Offenders

**Mr. Oaten:** To ask the Secretary of State for the Home Department if he will make a statement on the availability of residential treatment for sex offenders in the community. [155956]

**Paul Goggins:** We are actively considering the need for, and feasibility of, such facilities as part of a national accommodation strategy for offenders.

## NORTHERN IRELAND

### Police

**Rev. Martin Smyth:** To ask the Secretary of State for Northern Ireland how many students have been sent down from *(a)* the current intake and *(b)* each of the preceding three intakes to the Police Service of Northern Ireland. [156969]

**Jane Kennedy:** No recruits have been sent down from the groups of trainees taken into the Police College on 8 February 2004, 4 January 2003, 23 November 2003 or 19 October 2003.

## WORK AND PENSIONS

### Ballast Plc

**Sir Nicholas Winterton:** To ask the Secretary of State for Work and Pensions if he will establish an occupational pension rescue package for the former employees of Ballast plc following the company's liquidation; and if he will make a statement. [156685]

**Malcolm Wicks:** The Government remains sympathetic to all those people who will not receive the pension they worked so hard to build up for their future retirement. Ministers have been meeting those affected by pension losses in order to understand their plight and to listen to suggestions regarding assistance ahead of the Pension Protection Fund's introduction.

We are examining closely all the suggestions that have been put to us but, given all these workers' anxieties, which we understand, we owe it to those affected to do that without raising their expectations.

They must know that we have been absolutely straight with them all along. If it is not possible to do anything, as might ultimately be the case, they need to know that that has been the position from the outset. At the same time, we should not prematurely close off the opportunity of assistance if we can identify a proper basis on which it can be done.

### Direct Payment Benefits

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions how many people are receiving benefits into post office card accounts, broken down by *(a)* Child Benefit, *(b)* veterans agency payments, *(c)* pensions and *(d)* Jobcentre Plus payments. [156057]

**Mr. Pond** *[holding answer 26 February 2004]:* All the information is not available in the format requested.

Information available for the latest available date of 24 January 2004 is given as follows from IAD Information Centre.

The number of Post Office Card Accounts receiving payments of State Pension and Pension Credit is 125,205.

The number of Post Office Card Accounts receiving payments from Jobcentre Plus is 140,854.

Child Benefit accounts are now the responsibility of Inland Revenue. War Pension accounts are now the responsibility of the Ministry of Defence and are not included in these figures.

As many customers have already supplied their account details it is expected that the figures for Direct Payment into bank or building society accounts and Post Office card accounts will quickly rise, as customers existing methods of payment expire, and they move over to payment being made direct into their nominated account.

*Source:*

DWP IAD Information Centre

## EU Accession Countries

**Annabelle Ewing:** To ask the Secretary of State for Work and Pensions (1) what plans he has to provide support to citizens of EU accession states working within the UK when they cease employment, from 1 May onwards; [156789]

(2) what plans he has to provide support for families of citizens of EU accession states working within the UK when they cease employment, from 1 May onwards; [156791]

(3) what plans he has to allow citizens of EU accession states to claim, from 1 May onwards, *(a)* Working Tax Credit, *(b)* Child Tax Credit, *(c)* Child Benefit, *(d)* Disability Living Allowance, *(e)* Incapacity Benefit, *(f)* Income Support, *(g)* Carer's Allowance, *(h)* Jobseeker's Allowance, *(i)* Housing Benefit, *(j)* Council Tax Benefit and *(k)* minimum income guarantee while (i) living and (ii) working in the United Kingdom. [156972]

**Glenda Jackson:** To ask the Secretary of State for Work and Pensions when citizens of EU accession states working in the UK will be entitled to claim *(a)* Housing Benefit, *(b)* Child Benefit, *(c)* Income Support, *(d)* Jobseeker's Allowance and *(e)* Working Tax Credit. [156935]

**Mr. Pond:** Our intention is to introduce legislation so that the accession state nationals who are in the UK but who cannot find work, or will not work, will not have access to Income Support, income based Jobseekers Allowance, Pension Credit, Housing Benefit and Council Tax Benefit. After 12 months of working legally without interruption, citizens of EU accession states will be entitled to the full range of UK benefits. Tax credits and Child Benefit will be available to those citizens of EU accession states who are working legally in the UK; Housing Benefit and Council Tax Benefit may also be available to those workers on low income.

Incapacity Benefit and contribution-based Jobseekers Allowance are contributory benefits. People who have not lived and worked in the UK will not have paid National Insurance contributions and therefore will not normally have entitlement to these benefits.

For Disability Living Allowance and Carers Allowance, a person must have been resident for 26 out of the previous 52 weeks. However, time spent in another EEA or EU country may in some cases be treated as a period in the UK for the purpose of determining entitlement.

## Pension Credit

**Chris Ruane:** To ask the Secretary of State for Work and Pensions how many pensioners are claiming pension credit in *(a)* Vale of Clwyd constituency and *(b)* each ward in the County of Denbighshire; how many pensioners he estimates are entitled to claim pension credit but have not done so in each case; and what the average amount claimed by pensioners in the Vale of Clwyd is. [156042]

**Malcolm Wicks:** The information is not available in the form requested. Numbers of Pension Credit recipients and average levels of award for *(a)* the Vale of Clwyd and *(b)* Denbighshire are given in the table. Numbers of recipients are not currently available at ward level. Estimates of the number of eligible households are not available at constituency, local authority area or ward level. However, we estimate that there are approximately 250,000 pensioner households in Wales likely to be eligible for Pension Credit.

*Pension Credit recipients in Vale of Clwyd and Denbighshire, 31 January 2004*

| | *Households* | *Individuals* | *Average weekly award per household (£)* |
|---|---|---|---|
| Vale of Clwyd | 3,965 | 4,900 | 44.96 |
| Parliamentary constituency | | | |
| Denbighshire | 4,810 | 5,920 | 44.66 |

*Notes:*
1. Numbers of recipients have been rounded to the nearest five.
2. Average weekly awards have been rounded to the nearest penny.
3. Numbers of recipients exclude small numbers of clerical cases. At 31 January there were approximately 400 such cases in Wales.
4. Average weekly awards refer to the amount received by households, which may be a single person or a couple.

## Pensioner Population

**David Taylor:** To ask the Secretary of State for Work and Pensions what the pensioner population is in *(a)* the East Midlands and *(b)* England. [155638]

**Malcolm Wicks** *[pursuant to his reply, 23 February 2004, c. 320W]:*

The figures requested are in the following table.

| | *Pensioner population* |
|---|---|
| East Midlands | 784,000 |
| England | 9,119,000 |

*Note:*
1. The figures are from the mid-year population figures, 2002
2. Figures are rounded to the nearest thousand
3. 'Pensioner' is defined as those over state pension age

*Source:*
Office for National Statistics

## Pensions (Northern Ireland)

**Mrs. Iris Robinson:** To ask the Secretary of State for Work and Pensions how the Pensions Bill will affect people in Northern Ireland; and whether there will be any assistance to those who have lost out in pension schemes in the past. [156099]

**Malcolm Wicks:** Pensions legislation is a devolved matter to Northern Ireland. The provisions of the Pensions Bill therefore generally extend only to Great Britain. The exceptions to this are set out in clause 246, which specifies the provisions that also extend to Northern Ireland. These include those establishing the two new Non-Departmental Public Bodies, The Pensions Regulator and the Board of the Pension Protection Fund, which—as currently with the Occupational Pensions Regulatory Authority and the Pensions Compensation Board—will operate throughout the United Kingdom, but with functions relating to Northern Ireland conferred by Northern Ireland legislation.

Clause 247 allows provision corresponding to the Pensions Bill to be made for Northern Ireland by Order in Council subject to negative resolution.

The Government remains sympathetic to all those people who will not receive the pension they worked so hard to build up for their future retirement. Ministers have been meeting those affected by pension losses in order to understand their plight and to listen to suggestions regarding assistance ahead of the Pension Protection Fund's introduction.

We are exploring all the suggestions that have been put to us and are considering them in depth. But there are complex arguments on both sides so we need to consider very carefully what the appropriate course of action should be.

It would be very cruel to raise expectations for these people who have suffered such a dramatic blow to their security in retirement, if we cannot then provide assistance.

## TRADE AND INDUSTRY

### Post Office Accounts

**Mr. Dodds:** To ask the Secretary of State for Trade and Industry whether interest will be paid on Post Office accounts opened for the purpose of benefit payments under the automated credit transfer system. [156583]

**Mr. Timms:** I understand that interest will not be paid on Post Office card accounts. The Post Office card account is a deliberately simple financial product developed by Post Office Ltd. on behalf of Government to cater exclusively for those customers in receipt of pensions, benefits and tax credits who do not have or choose not to use a commercial bank account.

### Broadband/Mobile Phones

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry with whom she has held discussions on her strategy to encourage growth in the broadband and third-generation mobile phone sectors. [156178]

**Mr. Timms:** Since launching the broadband strategy to have the most competitive and extensive broadband market in the G7 by 2005 in 2001, discussions have been held with a wide range of stakeholders throughout the broadband value chain involving the full range of technologies. These discussions were usually held through the Broadband Stakeholder Group, which was established to advise the Government on the development and implementation of a strategy to achieve this target and provide a focal point for stakeholders to address both short and long-term issues related to the deployment and take-up of broadband services. The Government values the work of the Broadband Stakeholder Group and the contribution it has made to the successful deployment of broadband in the UK.

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what strategy she is pursuing to encourage growth in the broadband and third-generation mobile phone sectors; and if she will make a statement. [156180]

**Mr. Timms:** The primary focus of the Government's strategy is to meet the needs of end-users through the promotion of competition at all levels in the value chain in terms of quality, choice of broadband services and value for money. This means the effective and sustainable competition in the provision of broadband networks and services and a regulatory framework that is conducive to further investment and rollout to all areas of the United Kingdom. The third generation mobile phone sector offers not only increased competition and greater consumer choice; it will also provide a true mobile broadband service for individuals and businesses alike.

The Government's policy in licensing spectrum early for the third generation mobile phone sector has enabled the UK along with Italy to launch the first services in Europe. The auction of third generation licences enabled a new entrant, Hutchinson 3G, to enter the market and provide increased competition. The licence condition for third generation mobile phone operators will ensure that at least 80 per cent. of the UK population will be covered by third generation services by 2007.

### Business Link

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 6 February 2004, Official Report, column 1090W, on business link operators, which are the five business link operators referred to as seriously underperforming; and if she will give their *(a)* performance results and *(b)* budget for each year since their establishment. [155320]

**Nigel Griffiths:** Of the five business link operators, three (BL Derbyshire, BL Tees Valley and BL Bedfordshire and Luton) did not have their contracts automatically extended and were required to undergo a business performance review. The remaining two operators (Cambridge Business Services and Sussex Enterprise) were only required to undergo business performance reviews.

The performance results for the five operators as at the end of Quarter 3 in 2002–03 and their performance results for each full year since the business link network was re-engineered in 2001–02, are as follows:

*(a) Quarter 3 2002–03 Performance Results*

*Percentage*

| | *Market penetration (businesses helped as a proportion of the inter Departmental Business Register)* | *Customer Satisfaction (April to September 2002 survey)* |
|---|---|---|
| BL Derbyshire | 12.2 | 76.0 |
| BL Tees Valley | 25.1 | 71.3 |
| BL Bedfordshire and Luton | 8.8 | 78.4 |
| Cambridgeshire Business Services | 9.5 | 75.6 |
| Sussex Enterprise | 11.8 | 85.7 |

*(b) Performance Results at each year end since 2001–02*

*Percentage*

| | *2001–02* | *2002–03* |
|---|---|---|
| *Market Penetration* | | |
| BL Derbyshire | 18.1 | 15.5 |
| BL Tees Valley | 26.1 | 29.4 |
| BL Bedfordshire and Luton | 10.1 | 12.3 |
| Cambridgeshire Business Services | 9.8 | 11.4 |
| Sussex Enterprise | 18.0 | 15.5 |

| | | Percentage |
|---|---|---|
| | 2001–02[1] | 2002–03[2] |
| *Customer Satisfaction* | | |
| BL Derbyshire | 77.4 | 83.1 |
| BL Tees Valley | 81.7 | 78.2 |
| BL Bedfordshire and Luton | 89.2 | 82.4 |
| Cambridgeshire Business Services | 82.1 | 75.5 |
| Sussex Enterprise | 86.6 | 79.5 |

[1] October 2001 to March 2002 survey
[2] October 2002 to March 2003 survey

Since SBS took action to address underperformance last year all five business link operators have, following their business performance reviews, taken effective action to address their problems and have all subsequently achieved significant improvements in their performance.

The performance improvements registered by BL Derbyshire, BL Tees Valley and BL Bedfordshire and Luton have been sufficient enough for SBS to extend their contracts to the full three years with effect from April 2004.

### Cancun Agreements

**Bob Spink:** To ask the Secretary of State for Trade and Industry if she will make a statement on her policy regarding *(a)* the Cancun agreements on trade and *(b)* bilateral agreements. [155114]

**Ms Hewitt:** There are welcome signs that the DDA negotiations could make significant progress in 2004. I welcome the recent appointment of WTO chairs, which should instil fresh impetus to these negotiations following the disappointing conclusion to the Cancun ministerial.

While bilateral agreements have a complementary role to play in promoting closer political, social and economic co-operation, the UK firmly believes that the biggest gains to the global economy would come from securing a successful outcome to the current round of WTO multilateral trade negotiations. This will ensure a global framework for free and fair trade, providing increased opportunity and prosperity for developed and developing countries alike.

### Cyber-terrorism

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps are being taken to deal with the threats to UK businesses from cyber-terrorism. [153559]

**Mr. Timms:** Policy on the protection of the UK from terrorist attack is the responsibility of my right hon. Friend the Home Secretary. The Department contributes to the overall goal of protecting UK interests from electronic attack by seeking to improve the information security management of UK business. We do this by promoting relevant research and our innovation activities which seek to promote the adoption of new technologies such as biometrics. In particular, we have worked for many years on the identification and promotion of management best practice, we have regularly surveyed the nature of the problems and the solutions adopted and have a suite of material aimed at demystifying the subject for smaller companies working on-line.

### F-16 Fighter Jets

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry how many head-up display units have been supplied to the United States for incorporation into F-16 fighter jets since 2000; how many of these jets were destined for Israel; and if she will make a statement. [154541]

**Nigel Griffiths:** The DTI is responsible for holding information only on licences we have issued.

From March 2003, information on whether goods were for incorporation has been recorded on the DTI Export Control Organisation's (ECO) databases. Information prior to this can be obtained only at disproportionate cost, via a manual search of licensing files.

Statistics on incorporation cases will be published in the Government's 2003 Annual Report on Strategic Export Controls later this year.

### Fish

**Adam Price:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 11 February 2004, *Official Report*, column 1476W, on fish, what the application numbers of the two transgenic fish referred to are. [156035]

**Ms Hewitt:** Of the two applications referred to, one has been published and its number is GB 2377221. The other application is not due to be published until 17 August 2004, and under UK patent law it remains confidential until that time.

Details of published applications can be found via the espacenet database which can be reached via our website http://www.patent.gov.uk/patent/dbase/espacc.htm

### Military Equipment (Exports)

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry if she will list the *(a)* amount and *(b)* make of (i) handguns, (ii) ammunition, (iii) weapons sights and (iv) gun mountings exported to Jamaica under licences granted during 2001; and if she will make a statement. [154540]

**Nigel Griffiths:** The DTI is responsible for holding information only on the licences we have issued.

Details of all export licences granted for Jamaica in 2001 were published in the Government's 2001 Annual Report on Strategic Export Controls, copies of which are available from the Libraries of the House.

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry how many *(a)* Scorpion tanks, *(b)* Saracen Light Vehicles and *(c)* Hawk jets have been supplied to Indonesia since 1997; and if she will make a statement. [154542]

**Nigel Griffiths:** The DTI is responsible for holding information only on the licences we have issued.

Since May 1997, the Government has published an Annual Report on Strategic Export Controls containing details of all goods authorised for export from the UK and to which destinations. Copies of the Annual Report (up to and including 2002) are available from the Libraries of the House. Details of export licences approved in 2003 will be published later this year in the 2003 Annual Report, and for 2004, similarly in the 2004 Report next year.

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry how many of the rifles licensed for export to Nepal in 2001 were delivered; to whom; by whom they were manufactured; and if she will make a statement. [154593]

**Nigel Griffiths:** The DTI is responsible for holding information only on the licences we have issued.

Details of all export licences granted for Nepal in 2001 were published in the Government's 2001 Annual Report on Strategic Export Controls, copies of which are available from the Libraries of the House.

Information on manufacturers and end-users of equipment licensed for export is commercially confidential and is exempt from disclosure under the Code of Practice on Access to Government Information.

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry for what reasons 6,780 rifles licensed for export to Nepal in 2001 were not mentioned in table 4, Part III of the 2001 and 2002 annual report on Statistics on Exports of Military Equipment; and if she will make a statement. [154594]

**Nigel Griffiths:** The Annual Report table, 'Statistics on Exports of Military equipment', provides details on the number of weapons and small arms that have actually been exported from the UK, by destination, in that year. HM Customs & Excise have checked their records and have no record of these rifles being exported.

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry if she will list the *(a)* items, *(b)* quantities and *(c)* end use conditions attached to military exports to Nepal exported under licences granted during 2001 and listed in the Strategic Export Controls Annual Report 2001; and if she will make a statement. [154595]

**Nigel Griffiths:** The 2001 Annual Report on Strategic Export Controls contains summaries of all export licences granted for Nepal in 2001, and describes the items licensed.

Quantities of goods exported are in the case of small arms and weapons licensed under SIELs (table 5 of the Annual Report).

End-use conditions imposed on licences are confidential and not disclosed in the Annual Report.

### Personal Computers

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 19 January 2004, *Official Report*, column 1041W, on personal computers, what steps she is taking to assess the *(a)* take-up and *(b)* effectiveness of the annual tax exemption on loaned computers; and what assessment will be undertaken following the recently published guidelines for employers. [152227]

**Dawn Primarolo:** I have been asked to reply.

The Office for National Statistics have included extra questions in their quarterly internet access survey to assess consumer awareness and take up of Home Computing Initiatives (HCI) which use the annual tax exemption on loaned computers. Industry partners are also conducting tracking which the Office of the e-Envoy and the Department of Trade and Industry will use as part of their overall assessment. The impact of HCI schemes on levels of home computer penetration and internet access will also be monitored on an ongoing basis.

### Post Offices

**Mr. Andrew Turner:** To ask the Secretary of State for Trade and Industry whether she plans to provide hon. and right hon. Members with a rationale for the proposed area plan in those areas that *(a)* are involved in and *(b)* have undergone post office closure programmes. [156485]

**Mr. Timms** *[holding answer 26 February 2004]:* No, these are operational matters for Post Office Limited. The changes to the consultation arrangements announced in my Written Statement of 5 February were not retrospective in effect.

**Mr. Andrew Turner:** To ask the Secretary of State for Trade and Industry whether information from local authorities on infrastructure and regeneration projects already made available to Post Office Limited will be taken into account when determining closure proposals on post offices where no final decision has yet been reached. [156486]

**Mr. Timms** *[holding answer 26 February 2004]:* Yes. The changes to the consultation arrangements announced in my Written Statement of 5 February took immediate effect.

**Mr. Evans:** To ask the Secretary of State for Trade and Industry how many *(a)* rural and *(b)* urban post offices have closed in Lancashire since 1997, broken down by constituency. [156500]

**Mr. Timms:** I am advised by Post Office Ltd. that data on post office closures is not available in the form requested as the company does not require this data for its operational purposes.

Before March 2000, Post Office Ltd. maintained records of net closures on a nationwide basis only and these were as follows:

1997–98: 243

1998–99: 233

1999–2000: 382

Post Office Ltd. has recorded details of the total number of post office closures in the United Kingdom, by Government region and urban/rural classification from March 2000.

| Year | Region: North West | |
|---|---|---|
| | Urban | Rural |
| 2000–01 | 11 | 28 |
| 2001–02 | 9 | +4 |
| 2002–03 | 25 | 12 |

Post Office Ltd. produces information on post office closures on a quarterly basis. There were 88 net urban post office closures and 11 net rural closures in the North West region in the nine months to the end of December 2003, the latest quarter for which figures are currently available.

Since the commencement of the urban reinvention programme in October 2002, there have been a total of 92 urban closures under the programme in the North West region.

### Renewable Energy

**Miss McIntosh:** To ask the Secretary of State for Trade and Industry if she will make a statement on the contribution of renewable energy to the energy policy. [156467]

**Mr. Timms:** The Government have set the target of obtaining 10 per cent. of our electricity from renewable sources by 2010, with the aspiration of doubling this by 2020. Towards achieving such expansion, I announced in December the Government's intention to extend the rising profile of Renewables Obligation by further annual stages beyond 2010–11 to reach 15.4 per cent. by 2015–16.

Renewable energy will make an important contribution to the Government's wider climate change programme. It is estimated that increased renewable energy generation will deliver additional carbon savings of some 2.5 million tonnes of carbon per year by 2010, and of a further 3–5 million tonnes of carbon per year above that by 2020.

Renewable energy also adds to the diversity of sources from which the UK derives electricity, which is important for maintaining reliable supplies.

### Royal Mail

**Mr. Laws:** To ask the Secretary of State for Trade and Industry how many employees work for the Royal Mail; and if she will make a statement. [156707]

**Mr. Timms:** As stated in Royal Mail Holdings Plc.'s interim report for the half year ended 28 September 2003, published on 13 November 2003, there were 208,000 people employed within the company's UK operations.

**Mr. Hoyle:** To ask the Secretary of State for Trade and Industry how many people work for Royal Mail in Lancashire. [157086]

**Mr. Timms:** The number of people employed by Royal Mail in Lancashire is an operational matter that falls within the responsibility of the Royal Mail Board. I have therefore asked the Chief Executive to reply direct to the hon. Member.

## DEFENCE

### Airfield Support Services

**Mr. Hancock:** To ask the Secretary of State for Defence pursuant to the answer of 6 February 2004, *Official Report*, column 1103W, how the public private partnership scheme for Airfield Support Services will be adjudicated, with regard to comparison of *(a)* overall costs and *(b)* total manpower; and if he will make a statement. [155216]

**Mr. Ingram:** The way forward in respect of the Airfield Support Services Project will be determined on the basis of what offers best value for money to the Ministry of Defence, without compromising operational capability and/or safety. In doing so, full and proper account will be taken of all the relevant factors in a fair and equitable manner, including overall costs and the total manpower requirements necessary to deliver the requirement.

### Anglo-French Battle Groups

**Mr. Keith Simpson:** To ask the Secretary of State for Defence what arrangements he will put in place for providing the necessary enabling personnel for the Anglo-French battle groups. [156793]

**Mr. Hoon:** There are no plans to form UK-French battle groups. There is, however, a UK/French/German proposal to develop European capabilities in support of the EU's ability to undertake rapid crisis response operations. This advances the UK-French Summit declaration made on 24 November, and the UN's demand for more rapid reaction peacekeeping forces. As part of the Helsinki Headline Goal, EU member states agreed to develop rapid response elements available and deployable at very high readiness.

The proposal being discussed by EU member states is to create battle group-sized forces (approximately 1,500 strong including Combat Support and Combat Service Support), deployable within 15 days, and sustainable for 30 days (but extendable up to 120 days). The target date for such forces to be available is 2007, and they will be designed for compatibility with typical UN Chapter VII mandates (to restore international peace and security). EU member states would be able to offer such formations individually—as is likely to be the case for the UK—or on a multinational basis, from existing forces. The concept will be developed coherently and transparently with the NATO Response Force. This initiative is compatible with current UK force structures and the UK's Joint Rapid Reaction Force, which already includes a number of very high readiness battlegroup formations. It is not envisaged that any additional military or civilian personnel will be required.

### Armed Forces Pensions

**Mr. Laws:** To ask the Secretary of State for Defence if he will make a statement on his plans to raise the normal retirement age for members of the armed forces; what estimate he has made of the savings from raising the pension age to 65; and if he will make a statement. [156573]

**Mr. Caplin:** We have no plans to raise the normal retirement age for members of the armed forces from the current age of 55. This reflects the continuing fitness

requirements for most of those who serve a full career in the armed forces. For the future, the age at which the preserved pension is paid to those leaving before age 55 will be deferred from the current age of 60 to age 65. This will affect both the current and the new schemes. We have not decided when to make the change to the existing scheme. The saving from the change to the preserved pension age in the new scheme is some £50 million a year and has been used to fund unmarried partners benefits and improved death-in-service benefits, as well as contributing to the costs of increased longevity. The right under the current scheme to take an Immediate Pension from age 38 with 16 years service (Officers) or age 40 with 22 years service (Other Ranks) is not affected.

### Commandos (Winter Weather Training)

**Mr. Flook:** To ask the Secretary of State for Defence if he will list the dates on which *(a)* 40 Commando Brigade, *(b)* 42 Commando Brigade and *(c)* 45 Commando Brigade carried out winter weather training in Norway since 1990. [156785]

**Mr. Ingram:** This information is not held centrally and it has not therefore been possible in the time available to provide an answer. Work is in hand to collate the details requested. I will write to the hon. Member when that work is complete and a copy of my reply will be placed in the Library of the House.

**Mr. Flook:** To ask the Secretary of State for Defence how many Royal Marines of 3 Commando Brigade were in Norway on cold weather exercise in January and February, broken down by commando unit. [156786]

**Mr. Ingram:** The following details the number of 3 Commando Brigade Royal Marines personnel, which includes personnel from the Royal Marines, Royal Navy, Army and Royal Air Force, broken down by unit[1], who have deployed on Winter Deployment 04 at any time between January and February 2004:

a. 40 Commando RM: 604

b. 42 Commando RM: 590

c. Headquarters 3 Commando Brigade RM and Landing Force Command Support Group: 422

d. 539 Assault Squadron RM: 118

e. Commando Logistics Regiment: 335

f. 29 Commando Regiment Royal Artillery: 322

g. 59 Independent Commando Engineer Sqn RE: 141

[1] Units at a, b and c are predominantly RM personnel. Unit e has a large number of Army and RN ranks. Units at f and g are entirely Army personnel.

**Mr. Flook:** To ask the Secretary of State for Defence how many Royal Marines of 3 Commando Brigade have been sent home early from Norway due to lack of medical fitness owing to cold weather illnesses; and what the attributable cause of the illnesses was in each case. [156787]

**Mr. Ingram:** As at 24 February, 78 members of 3 Commando Brigade Royal Marines had been evacuated to the UK owing to cold weather illness/injury. This is not unusual during a Winter Deployment compared against previous historical data. Changes to Health and Safety regulations however, have reduced the threshold at which those suffering cold weather injuries are sent home. Previously many would have been treated in theatre and returned to training.

A full analysis of the precise nature of these injuries will not be completed for some time. This is because, to provide a useful assessment of the injury, examination has to take place three months after the initial injury. The earliest date medical assessments can begin is May. It is anticipated that all casualties will have been examined by the end of June 2004.

Initial feedback from theatre does, however, indicate that the cause of these cold injuries is varied. There is no evidence of one particular cause of cold weather injuries or of any specific equipment deficiencies.

None is directly attributable to sleeping bags, contrary to recent press speculation.

**Mr. Flook:** To ask the Secretary of State for Defence whether cold weather sleeping bags are issued to Royal Marines of 3 Commando Brigade on winter weather training in Norway. [156788]

**Mr. Ingram:** Royal Marines of 3 Commando Brigade on winter training in Norway are issued with sleeping bags that form part of a 'sleeping system'. It comprises a Gortex outer bag, a sleeping bag and a roll mat. The system is designed for use in a range of temperatures, including those sub-zero temperatures experienced in the Arctic. No Royal Marine on this Winter Deployment has related a cold weather injury to any perceived failing in the sleeping system.

### Formation Readiness Cycle

**Mr. Keith Simpson:** To ask the Secretary of State for Defence pursuant to his letter of 21 February, on the formation readiness cycle, whether the formation readiness cycle has met the delivery aims set out in the Strategic Defence Review. [156794]

**Mr. Hoon:** The formation readiness cycle (FRC) provides a framework for the existing six non-specialist brigades in which readiness and commitments can be programmed, and resources can be matched to levels of collective training.

The FRC is a predictable, symmetric force generation mechanism, designed to generate fully trained and appropriately equipped forces that are ready to deploy and remain sustainable throughout operations.

Overall, the FRC has served us well, and has enabled us to meet a variety of commitments, as laid out in the Strategic Defence Review. As we explained in the recent White Paper we are examining possible changes to the current and future capabilities of the armed forces, and supporting infrastructure, required to deliver a network enabled capability. Part of this work will be to consider the effect these changes will have on the FRC.

### Gulf War

**Mr. Donohoe:** To ask the Secretary of State for Defence (1) how many Gulf War veterans of the 1990–91 campaign are estimated to be suffering from auto-immune induced osteoporosis; [156356]

(2) what plans he has to introduce *(a)* a compensation scheme and *(b)* additional pension entitlement for Gulf War veterans of the 1990–91 campaign who are suffering from auto-immune induced osteoporosis. [156357]

**Mr. Caplin:** There is no clinical evidence to support an autoimmune basis for osteoporosis and therefore the Ministry of Defence has no plan to introduce a related compensation scheme or additional pension entitlement. In respect of the prevalence of osteoporosis, I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Blaenau Gwent (Llew Smith) on 27 January 2004, *Official Report*, columns 245–46W.

### Iraq

**Llew Smith:** To ask the Secretary of State for Defence what arrangements have been put in place in the southern sector of Iraq under British control to secure *(a)* state assets and *(b)* archaeological sites; and what discussions he has had with (i) his United States counterpart and (ii) the Administrator of the Coalition Provisional Authority on the lessons learned from securing sites and assets, including ministries, in the United States-controlled sector. [151972]

**Mr. Ingram:** Initially, coalition forces were committed to securing and protecting a wide variety of key cultural and public assets and sites across Iraq. However, as Iraqi authorities have steadily regained capability, they have taken on increasing responsibility for securing and protecting their own assets and sites (administrative, economic and cultural). While coalition forces remain on hand to assist and support those elements of the Iraqi Security Forces involved in this work, the day-to-day security of these assets and sites is now, as it should be, in the hands of Iraqis.

In the course of discussions with my US counterpart and the CPA, we keep arrangements for the security and protection of key cultural and public assets under review.

**Mr. Soames:** To ask the Secretary of State for Defence if he will make a statement on the timing of the completion of the Status of Force Agreement for British troops in Iraq. [153515]

**Mr. Ingram:** The arrangements under which British forces will remain in Iraq after 30 June 2004 are still under discussion.

**Mr. Rosindell:** To ask the Secretary of State for Defence if he will make a statement on the numbers of British service personnel based in Iraq. [156993]

**Mr. Ingram:** There are currently around 8,000 UK service personnel serving in Iraq.

### RM Condor

**Mr. Weir:** To ask the Secretary of State for Defence how many *(a)* civilians and *(b)* service personnel are based in RM Condor in Angus. [157072]

**Mr. Caplin:** When 45 Commando Royal Marines and 7 Commando Battery are not deployed, the total scheme of complement for units based at RM Condor is 835 military personnel and 54 MOD civil servants.

## HEALTH

### Abortion/Cancer

**Rev. Martin Smyth:** To ask the Secretary of State for Health if he will make a statement on the link between induced abortion and breast cancer. [155817]

**Miss Melanie Johnson:** The Government believe that any woman considering an abortion must have all the facts to make an informed decision. The Royal College of Obstetricians and Gynaecologists (RCOG) guidance, "The care of women requesting induced abortion" (2000), states that professionals involved in abortion care should be equipped to provide women with information on the long-term effects of abortion which are rare or unproven, including breast cancer.

The RCOG is in the process of updating its guidance. It has carried out an extensive review of the literature and concluded that the evidence shows that induced abortion is not associated with an increase in the risk of breast cancer.

A similar review of recent evidence has taken place in the United States, where the American College of Obstetricians and Gynaecologists also concluded that there was no evidence in the body of medical research to suggest any causal link between abortion and breast cancer[1].

Cancer Research UK is undertaking a study of the risk factors associated with breast cancer, including a further international review of the research evidence on abortion and breast cancer. The results of this study will be made available when completed.

[1] International Journal of Obstetrics and Gynaecology, November 2003.

### Ambulance Service

**Helen Jones:** To ask the Secretary of State for Health (1) how many 999 calls in the Mersey Regional Ambulance Service area have been answered by the Greater Manchester Ambulance Service in each of the last 12 months; [156672]

(2) how many 999 calls in the Greater Manchester Ambulance Service area have been answered by the Mersey Regional Ambulance Service in each of the last 12 months. [156673]

**Miss Melanie Johnson** *[holding answer 26 February 2004]:* The information is not collected centrally.

**Helen Jones:** To ask the Secretary of State for Health (1) how many times in the past six months ambulance services have had 999 calls passed to them by BT operators who were unable to connect calls to the Mersey Regional Ambulance Service; [148253]

(2) what discussions have taken place between BT and the Mersey Regional Ambulance Service since November on improving the handling of 999 calls. [148254]

**Miss Melanie Johnson:** The information is not collected centrally. These are matters which are the responsibility of the Mersey Regional Ambulance Service National Health Service Trust.

## Ancillary Medicine Workers

**Mr. Cousins:** To ask the Secretary of State for Health how many *(a)* nurses, *(b)* midwives, *(c)* nursing assistants and *(d)* professionals ancillary to medicine were employed in the area of each primary care trust in the North East in (i) 1997 and (ii) the most recent year for which figures are available. [155964]

**Miss Melanie Johnson** *[holding answer 23 February 2004]:* Information on the numbers of nurses, midwives, nursing assistants and professionals ancillary to medicine in the North East for 1997 and 2002 are shown in the following tables.

*NHS hospital and community health services: Qualified nursing including Practice Nurses employed by Unrestricted Principals and equivalents (UPEs)[1] and Allied Health Professionals in the North East Government Office Region and each specified Strategic Health Authority and organisation as at 30 September 1997*

*Headcount*

| | | *Total Qualified Nursing*[2] | *Of which: Qualified Midwives* | *Nursing Assistants* | *Allied Health Professionals* |
|---|---|---|---|---|---|
| | North East Government Office Region | 18,390 | 1,774 | 7,364 | 2,323 |
| Q09 | Northumberland, Tyne and Wear SHA | 10,866 | 699 | 4,681 | 1,370 |
| RAB | Freeman Group of Hospitals NHS Trust | 1,060 | 0 | 56 | 125 |
| RCK | Royal Victoria Infirmary NHS Trust | 2,185 | 226 | 509 | 243 |
| RE2 | Gateshead Hospitals NHS Trust | 687 | 91 | 266 | 93 |
| RES | Northumberland Mental Health NHS Trust | 290 | 0 | 177 | 31 |
| RE9 | South Tyneside Healthcare NHS Trust | 905 | 88 | 337 | 113 |

Department of health Non-Medical Workforce Census/Department of Health General and Personal Medical Services.

### Cancer Plan

**Mr. Burstow:** To ask the Secretary of State for Health what progress has been made towards implementing the waiting time targets between referral and treatment by 2005 as outlined in the Cancer Plan; what statistics are published with which to measure progress; and if he will make a statement. [154581]

**Miss Melanie Johnson:** The primary purpose of the NHS Cancer Plan is to save more lives. Reducing waiting times is key to achieving this. Data on achievement of current milestones towards achievement of the NHS Cancer Plan waiting times targets, for children's and testicular cancers and acute leukaemia, and breast cancer, are published on the Department's website for strategic health authorities and trusts, at, http://www.dh.gov.uk/cancerwaits

### Children (Alcohol)

**Tim Loughton:** To ask the Secretary of State for Health how many children aged between 11 and 15 years were admitted to hospital owing to alcohol-related problems in each of the last six years. [155637]

**Miss Melanie Johnson:** The information is shown in the following table.

*Number of young people aged 11–15 years admitted to NHS hospitals in England with a selection of alcohol-related primary diagnoses, 1997–98 to 2002–03*

| | *Finished Admission Episodes* | | | | | |
|---|---|---|---|---|---|---|
| *Primary diagnosis* | *1997–98* | *1998–99* | *1999–2000* | *2000–01* | *2001–02* | *2002–03* |
| Mental and behavioural disorders due to alcohol[1] | 2,457 | 2,326 | 2,950 | 2,918 | 2,921 | 2,760 |
| Alcoholic liver disease[2] | — | — | 1 | 1 | — | — |
| Toxic effect of alcohol[3] | 895 | 737 | 764 | 739 | 674 | 562 |
| Total | 3,352 | 3,063 | 3,715 | 3,658 | 3,595 | 3,322 |

*ICD 10 codes:*
[1] ICD-10code F10
[2] ICD-10code K70
[3] ICD-10code T51

*Notes:*
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures are grossed for both coverage and missing/invalid clinical data, except for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.
3. The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

*Source:*
Hospital Episode Statistics (HES), Department of Health.

### Drug-related Deaths

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answers of 29 January 2004, *Official Report*, column 472W and 5 February 2004, *Official Report*, column 1065W on drug-related deaths, what the reasons are for the difference in the figures for the number of drug-related deaths since 1999. [156469]

**Miss Melanie Johnson:** The discrepancy in the *Official Reports* is because the figure stated in the 29 January 2004, *Official Report*, column 472W, refers to England and Wales and the figure stated in the 5 February 2004, *Official Report*, column 1065W refers to England only.

### Contraceptive Services

**Mrs. Calton:** To ask the Secretary of State for Health (1) if he will increase funding for contraceptive services to ensure that *(a)* all methods of contraception including new methods are made available and *(b)* medical practitioners are able to prescribe emergency contraception in advance where appropriate; [154431]

(2) how much was spent on contraceptive services in each of the last five financial years. [154432]

**Miss Melanie Johnson:** "Shifting the Balance of Power" has allowed primary care trusts (PCTs) to have the necessary financial flexibility to provide services to best meet local needs. This includes ensuring access to the full range of methods of contraception, including emergency contraception, according to need. In addition, the Government has boosted these resources by providing an extra £1 million to help improve access to contraceptive services.

The table contains family planning expenditure figures for National Health Service trusts and PCTs for the last four financial years. However, around three quarters of contraceptive care is provided by general practitioners in primary care for which expenditure figures are not available.

£

| | *Community based family planning* | | |
|---|---|---|---|
| | *NHS Trust expenditure* | *Primary Care Trust expenditure* | *Total expenditure* |
| 1998–99 | 65.9 | n/a | 65.9 |
| 1999–2000 | 70.5 | n/a | 70.5 |
| 2000–01 | 74.2 | 1.2 | 75.4 |
| 2001–02 | 57.8 | 19.9 | 77.6 |

*Note:*
Figures rounded to one decimal place.

*Sources:*
Annual Financial Returns of NHS Trusts, 1998–99 to 2002–03.
Annual Financial Returns of Primary Care Trusts, 2000–01 to 2002–03.

### Drug Rehabilitation

**Mr. Stinchcombe:** To ask the Secretary of State for Health how many individuals each local authority

in England funded to undergo residential drug rehabilitation in the last year for which figures are available. [153712]

**Miss Melanie Johnson:** The Department does not collect numbers of individuals funded by local authorities in residential rehabilitation.

**Mr. Stinchcombe:** To ask the Secretary of State for Health how much money each local authority in England and Wales spent on residential drug rehabilitation places in the last year for which figures are available. [153713]

**Miss Melanie Johnson:** The Department does not collect details of funding that local authorities make available for residential drug rehabilitation.

### Early Intervention Teams

**Tim Loughton:** To ask the Secretary of State for Health for what reasons no more than 27 early intervention teams have been established. [154410]

**Ms Rosie Winterton:** Establishing early intervention teams is a complex process and, in some localities where the approach is a relatively new one, it represents a significant shift in the culture of care. Services are working towards establishing the full complement of early intervention teams by the end of the year. The "Mental Health Policy Implementation Guide" (2001) sets out detailed guidance to help them, and support is also provided through the development centres of the National Institute for Mental Health in England. We are encouraged by the progress that is continuing to be made.

### Hepatitis C

**Dr. Iddon:** To ask the Secretary of State for Health what plans he has to establish the "Hepatitis C Strategy for England", published in consultation form in August 2002. [154833]

**Miss Melanie Johnson:** The Department intends to publish an action plan to implement the "Hepatitis C Strategy for England" in the next few months.

**Dr. Murrison:** To ask the Secretary of State for Health how much he *(a)* has spent in each of the last five years and *(b)* plans to spend in each of the next five years on raising Hepatitis C awareness. [155535]

**Miss Melanie Johnson:** The information requested is shown in the following table.

*Department of Health central funding of activities related to raising awareness of hepatitis C*

| *Financial year* | *Amount (£)* |
|---|---|
| 1999–2000 | [1]None identifiable |
| 2000–01 | [1]30,000 |
| 2001–02 | [1]241,000 |
| 2002–03 | [1]163,000 |
| 2003–04 | [2]224,500 |
| 2004–05 | [3]986,000 |
| 2005–06 | [3]1,500,000 |

[1] Actual Expenditure.
[2] Forecast Expenditure.
[3] Provisional allocation.

Funding beyond 2005–06 is yet to be determined.

### Illegal Meat Imports

**Mr. Gardiner:** To ask the Secretary of State for Health what advice has been issued to ethnic minority communities by the Food Standards Agency about the risk posed to human health through the consumption of *(a)* illegal meat imports and *(b)* bushmeat. [155388]

**Miss Melanie Johnson:** Responsibility for raising public awareness of the issue of illegal imports lies with the Food Standards Agency (FSA), the Department for Environment and Rural Affairs (Defra) and Her Majesty's Customs and Excise. In terms of advice specifically targeted towards ethnic minority communities, the FSA has discussed the issue of illegal meat imports with its Muslim organisations working group and has subsequently spoken on this topic at seminars organised by the Muslim community. These have included, most recently, talks at the Husaini Cultural Centre in Peterborough in September 2003 and also at Haringey Mosque and the Islamic Cultural Centre in London in November 2003.

Defra has commissioned the Central Office of Information to undertake research in this area. The research phase of the project is currently under way and the results of this research will then be used to inform publicity campaigns among ethnic minority communities later in the year.

The scope of the research includes examining attitudes among these communities to imports of meat, including bushmeat, and the possible risks to both animal and human health.

The FSA and Her Majesty's Customs and Excise are involved in this project, as are stakeholders such as the Greater London Authority, the International Fund for Animal Welfare, the Bushmeat Campaign, Chartered Institute of Environmental Health and Local Authorities Co-ordinators of Regulatory Services.

### Lupus

**Sarah Teather:** To ask the Secretary of State for Health how many specialists there are who see patients suffering from Lupus (SLE). [156162]

**Dr. Ladyman:** Information on the clinical specialties of individual consultants is not held centrally. Patients with lupus can be seen by a range of specialists, depending on their symptoms. Lupus can mimic other diseases, such as multiple sclerosis and rheumatoid arthritis, making it difficult to diagnose.

### Mental Health

**Tim Loughton:** To ask the Secretary of State for Health how many people have died under restraint in mental health institutions in each of the last six years; and how many of these were from ethnic minorities. [155631]

**Ms Rosie Winterton:** Information about the number of people who have died under restraint in each of the last six years from an ethnic minority comes from two sources.

The Mental Health Act Commission collects data on individuals who have died while being retained under the Mental Health Act 1983. Data provided by the Commission are shown in the table.

| | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 |
|---|---|---|---|---|---|---|
| Total number of deaths (from all causes) | 621 | 386 | 403 | 390 | 361 | 304 |
| Number of deaths of detained patients where Control and Restraint was used in the seven days preceding death | 18 | 16 | 25 | 10 | 11 | 9 |
| Number of deaths of detained patients where Control and Restraint was used in the 24 hours preceding death | n/a[1] | 2 | 1 | 0 | 1 | 1 |
| Number of those from ethnic minorities | 1 | 1 | 0 | 0 | 0 | 1 |

[1] Data not readily available.

Sudden and unexplained deaths data are collected by the National Confidential Inquiry into Suicide and Homicide by People with Mental Illness.

In the study period of March 1999 to February 2002 the following cases were reported:

*All cases:*
Cases of Sudden and Unexplained Deaths (SUD) who were physically restrained in the 24 hours before death:

Four patients (4 per cent. of 110).

Cases of SUD who were physically restrained 1 hour before death:

Two patients (2 per cent. of 109).

*Ethnic minorities:*
Cases of SUD who were physically restrained in the 24 hours before death:

One patient (9 per cent. of 11).

Cases of SUD who were physically restrained 1 hour before death:

One patient (9 per cent. of 11).

However, it is important to note that the populations from which these data were selected from are not identical. Therefore the figures should be viewed with caution.

**Tim Loughton:** To ask the Secretary of State for Health how many trusts offer women-only mental health day care facilities in England. [154425]

**Ms Rosie Winterton:** Following "Shifting the Balance of Power", strategic health authorities (SHAs) carry responsibility for the development of local delivery plans that show how proposals for mental health modernisation will be taken forward.

Information to guide local services on applicable service models is available in guidance published by the Department of Health. "Women's mental health: into the mainstream" was made available to services in September 2002. A copy has been placed in the Library.

In addition, a programme of work led by the National Institute for Mental Health in England focuses on the development of services for women, including day care provision.

SHAs carry responsibility for the direct management of trust performance, taking account of national guidance and local population needs and resources. Our annual national assessment of local services1 self-assessment of development shows that progress is being made but information is not captured centrally on a trust by trust basis.

**Mr. Hoyle:** To ask the Secretary of State for Health what the average wait for a mental health bed is in *(a)* Lancashire and *(b)* Chorley. [154743]

**Miss Melanie Johnson:** As at September 2003, there were five patients from primary care trusts in the Lancashire area waiting for admission to a mental health bed for up to two months. There were no patients waiting for longer than that time in Lancashire. No patients were waiting for admission to a mental health bed in Chorley.

In view of the small numbers involved, it is not possible to calculate average waiting times.

*Source:*
Department of Health Quarterly Monitoring Data

### NHS Trusts (Chief Executive Misconduct)

**Helen Jones:** To ask the Secretary of State for Health pursuant to his answer of 12 January 2004, *Official Report*, column 616W, on NHS Trusts (Chief Executive Misconduct), what advice was given by the Cheshire and Merseyside Strategic Health Authority to the Mersey Regional Ambulance Service concerning the investigation of a possible case of gross misconduct by the Chief Executive; by whom such advice was given, and when; and what action was taken following such advice by the Mersey Regional Ambulance Service to investigate the matter, and by whom. [149347]

**Miss Melanie Johnson:** As an employment issue, this is a matter for the non-executives of the Mersey Regional Ambulance Service National Health Service Trust.

### Breast Screening

**Dr. Murrison:** To ask the Secretary of State for Health what proportion of women in *(a)* urban and *(b)* rural areas aged between 50 and 65 have undergone breast screening. [154905]

**Miss Melanie Johnson:** This information is not held centrally in the format requested. Statistics on breast screening are published annually in the Department of Health Statistical Bulletin, Breast Screening Programme, England, a copy of which is available in the Library.

### TETRA Masts

**Tim Loughton:** To ask the Secretary of State for Health what guidance he has issued to local authorities regarding health implications of TETRA masts. [155653]

**Miss Melanie Johnson** *[holding answer 23 February 2004]:* Advice to local authorities on the health implications for all electronic communication developments is contained in Planning Policy Guidance

Note 8 (revised), issued by the Office of the Deputy Prime Minister, which has also issued a code of best practice on mobile phone network development.

**Tim Loughton:** To ask the Secretary of State for Health what the findings were of the latest research commissioned by his Department is into health and safety aspects of TETRA masts; and what plans he has to update this. [155654]

**Miss Melanie Johnson** *[holding answer 23 February 2004]:* The Stewart Report, in 2000, provided a thorough and comprehensive consideration of the public health concerns associated with mobile phone systems and is available on the website of the independent expert group on mobile phones at: www.iegmp.org.uk The report dealt principally with signals from the widely used mobile phone (GSM) technologies, but it did note some contradictory results when examining the biological effects of pulsed radio signals similar to those associated with TETRA (terrestrial trunked radio). While no obvious health effect was suggested, it did recommend a precautionary approach.

The main conclusion about base stations from the Stewart Report was that:

"the balance of evidence indicates that there is no general risk to the health of people living near to base stations on the basis that exposures are expected to be small fractions of guidelines".

A substantial number of measurements of potential exposures of the public from base station emissions have now been made by a number of bodies, including the National Radiological Protection Board (NRPB) at: www.nrpb.org and the Radiocommunications Agency (now part of Ofcom) at: www.ofcom.org.uk These measurements include emissions from TETRA base stations. In all cases exposures have been very much lower than the guidelines published by the International Commission on Non-Ionizing Radiation Protection (ICNIRP).

The latest report from NRPB's advisory group on non-ionising radiation (AGNIR), entitled "Health Effects from Radiofrequency Electromagnetic Fields", was published on 14 January 2004. It addressed the base station issue and concluded that:

"Exposure levels from living near to mobile phone base stations are extremely low, and the overall evidence indicates that they are unlikely to pose a risk to health."

Following a request by the Home Office to the NRPB, the issue of possible health effects caused by signals from TETRA base stations was comprehensively addressed by AGNIR. They published their report, "Possible Health Effects from Terrestrial Trunked Radio (TETRA)", in 2001, which is available as Documents of NRPB, Volume 12, No. 2, 2001, or on the NRPB website: www.nrpb.org They noted that whereas the signals from the TETRA handsets are pulsed, those from TETRA base stations are not pulsed. They concluded, therefore, that there is no reason to believe that signals from TETRA base stations should be treated differently from other base stations. The AGNIR report also found that exposures of the public to signals from TETRA base stations are small fractions of international guidelines.

TETRA technologies are included within the Mobile Telecommunications and Health Research (MTHR) programme, set by the Government in 2001 and available at: www.mthr.org.uk An associated programme, specifically on TETRA, is being funded by the Home Office (www.homeoffice.gov.uk). A number of projects are already under way, but it will be some time before the results are available.

### Welsh Hospital Closures

**Mr. Wiggin:** To ask the Secretary of State for Health how many hospitals have been closed in Wales since 1997. [150527]

**Mr. Touhig:** I have been asked to reply.

Approximately one third of the NHS Wales estate is over 50-years-old. It is generally accepted that the technological developments which are driving forward medical and clinical advances, and the demands for better patient environments are best accommodated by modern, purpose built facilities. In order to achieve this, NHS Wales has disposed of 30 healthcare properties (i.e. those with overnight beds) over the period from April 1997 to March 2003. Receipts from these disposals are reinvested in the modernisation process and have contributed to a total spend of £667million over the same period.

## DEPUTY PRIME MINISTER

### Community Funding

**Mr. Edward Davey:** To ask the Deputy Prime Minister what budgets have been allocated for *(a)* the Community Chest, *(b)* the Community Learning Chest and *(c)* the Community Empowerment Fund for each financial year from 2003–04 to 2005–06, broken down by English region. [156472]

**Yvette Cooper:** The following tables provide details of the Office of the Deputy Prime Minister budget allocations for the Community Chest, Community Learning Chest and Community Empowerment Funds for each financial year between 2003–04 and 2005–06.

*Budget allocation to community chest funding*

£

| *Region* | *2003–04* | *2004–05* | *2005–06* |
|---|---|---|---|
| East | 341,916 | 341,916 | 341,916 |
| East Midlands | 1,739,056 | 1,739,056 | 1,739,056 |
| London | 5,313,331 | 5,313,331 | 5,313,331 |
| North East | 3,549,043 | 3,549,043 | 3,549,043 |
| North West | 6,490,702 | 6,490,702 | 6,490,702 |
| South East | 585,151 | 585,151 | 585,151 |
| South West | 729,480 | 729,480 | 729,480 |
| West Midlands | 2,890,901 | 2,890,901 | 2,890,901 |
| Yorkshire and Humberside | 3,360,419 | 3,360,419 | 3,360,419 |

*Budget allocation to community learning chest funding*

£

| Region | 2003-04 | 2004-05 | 2005-06 |
|---|---|---|---|
| East | 89,434 | 89,434 | 89,434 |
| East Midlands | 425,508 | 425,508 | 425,508 |
| London | 1,287,209 | 1,287,209 | 1,287,209 |
| North East | 865,727 | 865,727 | 865,727 |
| North West | 1,540,664 | 1,540,664 | 1,540,664 |
| South East | 158,402 | 158,402 | 158,402 |
| South West | 188,336 | 188,336 | 188,336 |
| West Midlands | 664,409 | 664,409 | 664,409 |
| Yorkshire and Humberside | 780,309 | 780,309 | 780,309 |

*Budget allocation to community empowerment fund*

£

| Region | 2003-04 | 2004-05 | 2005-06 |
|---|---|---|---|
| East | 228,033 | 228,033 | 228,033 |
| East Midlands | 905,245 | 905,245 | 905,245 |
| London | 2,654,485 | 2,654,485 | 2,654,485 |
| North East | 1,824,502 | 1,824,502 | 1,824,502 |
| North West | 2,967,301 | 2,967,301 | 2,967,301 |
| South East | 436,573 | 436,573 | 436,573 |
| South West | 465,082 | 465,082 | 465,082 |
| West Midlands | 1,132,771 | 1,132,771 | 1,132,771 |
| Yorkshire and Humberside | 1,386,008 | 1,386,008 | 1,386,008 |

## Decent Homes

**Mr. Byers:** To ask the Deputy Prime Minister what estimate he has made of the number of local authority dwellings in North Tyneside which do not meet the decent homes standard; and what estimate he has made of the cost of raising them all to this standard. [157184]

**Keith Hill:** North Tyneside Council report that they have 8,973 dwellings which do not currently meet the decent homes standard and that it will cost up to £31 million to tackle this problem.

## EU Structural Funding

**Ann Winterton:** To ask the Deputy Prime Minister pursuant to the answer of 2 February 2004, *Official Report*, column 739W, on European Regional Funding, what the level of matched funding is *(a)* in financial terms and *(b)* as a percentage of EU funding for each of the regions for the period 2000 to 2006; and to which financial years the figures relate. [155077]

**Mr. Raynsford:** Tabled as follows are the budgeted levels of match funding both in total financial terms and as a percentage of the total programmes for 2000 to 2006, for the North West, North East and Yorkshire and the Humber regions. Regions have discretion to vary the levels of actual spend between years and we expect some programmes will do so, up to the absolute deadline of 31 December 2008.

European funding programmes operate to calendar years. The domestic financial years to which these figures relate are from 1999–2000 (part) to 2006–07 (part).

*Merseyside Objective 1 budgeted EU funding*

€

| North West | EU funds | Match funding |
|---|---|---|
| 2000 | 204.503 | 301.403 |
| 2001 | 200.934 | 296.234 |
| 2002 | 197.091 | 290.391 |
| 2003 | 193.248 | 284.748 |
| 2004 | 171.014 | 252.114 |
| 2005 | 184.464 | 271.964 |
| 2006 | 181.994 | 267.694 |
| Total | 1,333.248 | 1,964.548 |
| Total programme value | | 3,297.796 |
| Match funding as a percentage of total programme value | | 60 per cent. |

*Objective 2 budgeted EU funding*

€

| North West | EU funds | Match funding |
|---|---|---|
| 2000 | 90.676 | 107.966 |
| 2001 | 92.709 | 120.049 |
| 2002 | 94.585 | 133.972 |
| 2003 | 96.303 | 136.996 |
| 2004 | 88.956 | 126.471 |
| 2005 | 90.989 | 127.893 |
| 2006 | 92.711 | 128.893 |
| Total | 646.929 | 882.240 |
| Total programme value | | 1,529.169 |
| Match funding as a percentage of total programme value | | 58 per cent. |

*Objective 2 budgeted EU funding*

€

| North East | EU funds | Match funding |
|---|---|---|
| 2000 | 95.082 | 155.397 |
| 2001 | 97.207 | 158.875 |
| 2002 | 99.177 | 162.091 |
| 2003 | 100.983 | 165.041 |
| 2004 | 93.276 | 152.445 |
| 2005 | 95.408 | 155.929 |
| 2006 | 97.217 | 158.884 |
| Total | 678.350 | 1,108.662 |
| Total programme value | | 1,787.012 |
| Match funding as a percentage of total programme value | | 62 per cent. |

*South Yorkshire Objective 1 budgeted EU funding*

€

| Yorkshire and the Humber | EU funds | Match funding |
|---|---|---|
| 2000 | 179.843 | 286.332 |
| 2001 | 176.705 | 281.338 |
| 2002 | 173.325 | 285.179 |
| 2003 | 169.946 | 270.446 |
| 2004 | 150.392 | 239.446 |
| 2005 | 162.221 | 258.277 |
| 2006 | 160.048 | 245.593 |
| Total | 1,172.480 | 1,866.611 |
| Total programme value | | 3,039.091 |
| Match funding as a percentage of total programme value | | 61 per cent. |

*Yorkshire and the Humber Objective 2 budgeted EU funding*

€

| *Yorkshire and the Humber* | *EU funds* | *Match funding* |
|---|---|---|
| 2000 | 64.924 | 107.498 |
| 2001 | 66.380 | 109.909 |
| 2002 | 67.723 | 112.133 |
| 2003 | 68.954 | 114.172 |
| 2004 | 63.693 | 105.458 |
| 2005 | 65.148 | 107.868 |
| 2006 | 66.378 | 109.904 |
| Total | 463.200 | 766.942 |
| Total programme value | | 1,230.142 |
| Match funding as a percentage of total programme value | | 62 per cent. |

## HMOs

**Mr. Edward Davey:** To ask the Deputy Prime Minister if he will list those respondents to Licensing of Houses in Multiple Occupation in England, a consultation paper, who believed that university owned or managed accommodation should not *(a)* fall within the definition of houses in multiple occupation and *(b)* be covered by the houses in multiple occupation licensing scheme. [153138]

**Keith Hill:** A total of 579 responses were received to the 1999 consultation paper on Licensing of Houses in Multiple Occupation in England. The consultation paper asked for views on including University owned or managed accommodation within the scope of the proposed licensing scheme. It did not seek views on whether this accommodation should fall within the proposed definition of HMOs.

Most respondents did not express a view on the proposal to exempt university owned or managed accommodation from the HMO licensing scheme. However, the following individuals or bodies supported the proposal:

1. Ian R. Broughton
2. Tony Bayliss
3. Oxford Fire Service
4. University of Newcastle
5. Torbay Council
6. John Stather
7. Cornwall County Council
8. Cheshire Fire Brigade
9. Bath and North East Somerset Council
10. The Institute of Legal Executives
11. Higher Education Funding Council
12. Southampton Federation of Residents' Associations
13. Bedfordshire and Luton Fire and Rescue Service
14. Ipswich Borough Council
15. Ely Valley Council
16. The Royal Institution of Chartered Surveyors
17. Torridge District Council
18. Teignbridge District Council
19. The Borough of Basingstoke and Dean
20. Hartlepool Borough Council
21. Portsmouth City Council
22. Wansbeck Borough Council
23. Kent CIEH Housing Technical Group
24. St. Helens Metropolitan Borough Council
25. Borough of Spelthorn
26. County Durham and Darlington Fire Rescue Brigade
27. Taunton Deane Borough Council
28. South Hams District Council
29. Somerset HMO Group
30. Essex County Fire and Rescue Service
31. Newcastle City Council
32. Rochford District Council
33. Wandsworth Borough Council
34. North Yorkshire Fire and Rescue Service
35. Committee of Vice Chancellors and Principals
36. London Borough of Brent
37. Dudley Metropolitan Borough Council
38. Home Office Fire Policy Unit
39. Lancaster University
40. Tendring District Council
41. Chartered Institute of Environmental Health
42. ROOM-The National Council for Housing and Planning
43. London Borough of Ealing
44. Merseyside Fire and Civil Defence Authority
45. Newport County Borough
46. Welsh Funding Councils
47. Reading Borough Council
48. Oxford University: Christ Church College
49. Royal Institute of Chartered Surveyors in Wales
50. Blaenau Gwent County Borough
51. Rhondda Cynon Taff
52. Association for Student Residential Accommodation (Wales)
53. The Treforest Community Joint Committee
54. University of Wales

University owned and managed accommodation is not excluded from the definition of HMOs for the purposes of Part 1 (Housing Conditions) of the Housing Bill currently before parliament. These provisions would enable local authorities to take action against university landlords in certain circumstances when there are risks to students arising from the condition of their university accommodation.

## Homelessness

**Andy King:** To ask the Deputy Prime Minister what the statutory definition is of intentional homelessness. [156113]

**Yvette Cooper:** The circumstances when a person becomes homeless intentionally are set out in section 191 of the Housing Act 1996. The 1996 Act extends to England and Wales.

Section 191 is reproduced as follows:

1. A person becomes homeless intentionally if he deliberately does or fails to do anything in consequence of which he ceases to occupy accommodation which is available for his occupation and which it would have been reasonable for him to continue to occupy.

2. For the purposes of subsection 1. an act or omission in good faith on the part of a person who was unaware of any relevant fact shall not be treated as deliberate.

3. A person shall be treated as becoming homeless intentionally if:

(a) he enters into an arrangement under which he is required to cease to occupy accommodation which it would have been reasonable for him to continue to occupy, and

(b) the purpose of the arrangement is to enable him to become entitled to assistance under this Part, and there is no other good reason why he is homeless.

4. A person who is given advice or assistance under section 197 (duty where other suitable alternative accommodation available), but fails to secure suitable accommodation in circumstances in which it was reasonably to be expected that he would do so, shall, if he makes a further application under this Part, be treated as having become homeless intentionally.

### Merseyside Pathfinder

**Mrs. Curtis-Thomas:** To ask the Deputy Prime Minister how much of the £86 million which has been awarded to the Merseyside Pathfinder will go to Sefton. [156097]

**Yvette Cooper:** On 2 February 2004 the Office of the Deputy Prime Minister announced that the Merseyside Housing Market Renewal Pathfinder would receive up to £86 million for the period up to March 2006. We have allocated this funding to the Pathfinder. It is for the Pathfinder's board to decide on how it will meet its strategic aims and in which parts of the Pathfinder area it will spend these resources.

### Local Government Finance

**Sir Paul Beresford:** To ask the Deputy Prime Minister pursuant to his answer of 23 February 2004, *Official Report*, columns 27–28W, on local government finance, what the total gross English local authority expenditure was for each year since 1992–93, including that sourced from council tax, central grant and any other source, as well as those services funded by other bodies since 1992–93. [156726]

**Mr. Raynsford:** English local authority gross expenditure 1992–93 to 2001–02 is listed in the following table.

| | *£ million* |
|---|---|
| 1992–93 | 69,351 |
| 1993–94 | 69,102 |
| 1994–95 | 71,700 |
| 1995–96 | 73,568 |
| 1996–97 | 75,596 |
| 1997–98 | 77,209 |
| 1998–99 | 81,431 |
| 1999–2000 | 84,824 |
| 2000–01 | 90,179 |
| 2001–02 | 97,794 |

*Notes:*
Gross expenditure here includes spending from the General Fund Revenue Account, the Housing Revenue Account, External Trading Services accounts and the Capital Account. Adjustments have been made to eliminate double counting where possible. The General Fund Revenue Account is financed from formula grant (which includes revenue support grant, redistributed non-domestic rates, police grant), and specific grants within Aggregate External Finance (AEF) as well as specific grants outside AEF, sales, fees and charges and other non-grant income. The answer of 23 February, was restricted to the General Fund Revenue Account and excluded specific grants outside AEF and sales, fees and charges and other non-grant income.
*Source:*
Local Government Financial Statistics England No.5 to No.14

### Non-domestic Rate Pool

**Mr. Dhanda:** To ask the Deputy Prime Minister if he will make it his policy to consult on changing the operation of the national non-domestic rate pool. [156821]

**Mr. Raynsford:** The Balance of Funding Review is looking at the options for changing the Local Government Finance system, which include the future of non-domestic rates. The Review will report in the summer.

### Parliamentary Constituencies

**Ann Winterton:** To ask the Deputy Prime Minister how many parliamentary constituencies make up (a) the North West region, (b) the North East region and (c) Yorkshire and the Humber region. [155046]

**Mr. Raynsford:** There are 76 parliamentary constituencies in the North West, 30 in the North East and 56 in Yorkshire and the Humber.

### Planning Applications

**Dr. Evan Harris:** To ask the Deputy Prime Minister for how long he has been considering the planning application (SUN/2963/11 or GOSE/103/3/VALE/29) for residential development on the Foxcombe Road site of the old Warnborough College on Boars Hill, near Oxford; and when he plans to make a decision. [156054]

**Keith Hill:** Planning application SUN/2963/11 was first referred to my right hon. Friend the Deputy Prime Minister for consideration on 13 December 2000. The application was called in for my right hon. Friend the Deputy Prime Minister's own determination on 19 February 2001 and, following a public inquiry, was refused on 13 November 2001, against the Inspector's recommendation. The decision was successfully challenged in the High Court but the application was again refused on 12 March 2003. That decision has again been successfully challenged and the application now falls to be re-determined a second time. My right hon. Friend the Deputy Prime Minister attaches great importance to preserving the openness of the Green Belt, and has asked for any further representations the parties may wish to make by the closing date of 27 February 2004. A decision will be made as soon as possible.

**Dr. Evan Harris:** To ask the Deputy Prime Minister for what reasons he submitted to judgment in the High Court the planning application (SUN/2963/11 or GOSE/103/3/VALE/29) for residential development on the Foxcombe Road site of the old Warnborough College on Boars Hill, near Oxford in (a) April 2002 and (b) September 2003. [156055]

**Keith Hill:** The main reason my right hon. Friend the Deputy Prime Minister submitted to judgment in each case was:

(a) My right hon. Friend the Deputy Prime Minister attached too much weight to the extant planning permission for residential conversion of the existing buildings, whereas the applicants had stated that, if the current application were refused, they would not implement the permission and would sell the site to an institutional user; and

(b) My right hon. Friend the Deputy Prime Minister failed to take into account a material consideration, namely the relative effects of a more than 'low-key' institutional use of the site.

**Dr. Evan Harris:** To ask the Deputy Prime Minister what estimate he has made of the cost of the time *(a)* his officials and *(b)* officials of the Government office for the South East spent on dealing with the planning application (SUN/2963/11 or GOSE/103/3/VALE/29) for residential development on the Foxcombe Road site of the old Warnborough College on Boars Hill, near Oxford. [156056]

**Keith Hill:** This has been a complex and long-running case. My right hon. Friend the Deputy Prime Minister attaches great importance to the Green Belt policy. No estimate has been made of the cost of the time spent by his officials on dealing with the planning application.

**Dr. Evan Harris:** To ask the Deputy Prime Minister what targets he has set for the time taken to reconsider planning applications after a decision he has taken is legally challenged successfully. [156053]

**Keith Hill:** No targets have been set for the time taken to re-determine a planning application following a successful legal challenge, although the aim is to re-determine all cases as soon as possible. However, for the re-determination of called-in applications, we would aim to issue a decision within 13 weeks from the conclusion of the written representations procedure or receipt of the Inspector's report if it has been decided to re-open the inquiry.

### Regional Assemblies

**Mr. Jenkin:** To ask the Deputy Prime Minister what the evidential basis was for his estimate that an elected regional assembly would have *(a)* running costs of £25 million a year and *(b)* set-up costs of £30 million. [155142]

**Mr. Raynsford:** The evidence is drawn from the cost of setting up the Greater London Authority and its first year running costs, reflecting differences between the London arrangements and those proposed for elected regional assemblies. For example, it is not proposed to provide elected assemblies with new, purpose built headquarters.

### Regional Funding

**Ann Winterton:** To ask the Deputy Prime Minister pursuant to the answer of 2 February 2004, *Official Report*, column 743W, on regional funding, whether the recipient organisations were ever under local authority control. [155041]

**Mr. Raynsford:** None of the recipient organisations have recently been under local authority control.

### Retirement Age

**Mr. Laws:** To ask the Deputy Prime Minister if he will make a statement on his plans to raise the normal retirement age for firefighters; what estimate he has made of the savings from raising the normal retirement age and pension age to 65; and if he will make a statement. [156574]

**Mr. Raynsford:** The Office of the Deputy Prime Minister is reviewing pension arrangements for firefighters in accordance with the Government's White Paper "Our Fire and Rescue Service" (CM 5808), and in the light of the Department of Work and Pensions Green Paper (CM 5865). Proposals, which will reflect changes to the tax and policy framework for pensions, including on retirement and pension ages, have still to be formulated: consequently costings of possible savings to employers are not available. There will be consultation on the proposals that emerge.

# Written Answers to Questions

*Monday 1 March 2004*

## INTERNATIONAL DEVELOPMENT

### Actis/CDC

**Sue Doughty:** To ask the Secretary of State for International Development if he will make a statement on the management agreement and associated fees between Actis and CDC. [156399]

**Hilary Benn:** The management agreement will be a five-year commercial contract between CDC Group plc and Actis. The contract will set out the amounts that CDC shall commit to each of Actis's regional and sectoral funds, the minimum service levels that Actis shall provide (for example in terms of overseas office coverage), the management fees to be charged and all the detailed provisions necessary to this complex transaction.

Actis's management fees will be determined as a percentage of the capital committed to each of the new funds that it is establishing. The percentages will vary from fund to fund, depending on the management services to be provided and the market norms (where these exist). The total sum of the management fees has been calculated to equate to the anticipated total operating costs of Actis on an approximately break-even basis over the first five years. The CDC Board has taken independent expert advice on the fee levels appropriate in the circumstances.

**Sue Doughty:** To ask the Secretary of State for International Development if he will make a statement on the *(a)* valuation and *(b)* organisational arrangements of Actis. [156401]

**Hilary Benn:** Actis will be a limited liability partnership between its management and staff, and the Government. Management and staff will have a 60 per cent. controlling interest, providing independence of ownership and investment decision taking. However, under "clawback" arrangements, over the first 10 years 80 per cent. of any profits and proceeds from a sale of Actis would accrue to the Government.

The board of CDC Group plc has an obligation to obtain full value for the sale of any part of CDC. The Independent Committee of the CDC board instructed KPMG to value the new company, as well as the interest to be acquired by management and staff.

Taking into account the clawback arrangements and other obligations to Government, KPMG's opinion was that the market value of the 60 per cent. interest in Actis to be sold to management and staff was some £338,000 to £408,000. The Independent Committee recommended that management and staff should pay £373,000, the mid-point figure, which I have accepted. The Shareholder Executive and our financial advisers have endorsed the valuation process and the NAO has been kept informed about this and other aspects of the CDC reorganisation.

Actis will have a supervisory board, and the Government will retain the right to veto on the choice of chairman and two non-executive directors. Corporate governance arrangements will be in accordance with best practice for a public limited company. The other details of the organisation of Actis will be set down in the Partnership Agreement.

**Gregory Barker:** To ask the Secretary of State for International Development how much is being spent on the refurbishment of the office space of *(a)* CDC and *(b)* Actis; and how much is being spent on office space used by the chief executive of each. [157841]

**Hilary Benn:** Expenditure over the last four months on the preparation of new offices for CDC and Actis is estimated at £0.5 million and £4.9 million respectively. CDC, which now has a staff complement of about 20, moved to their new office in February. Actis, who employ some 150 staff in their UK headquarters, will move later this month.

The offices of the chief executives were part of the overall refurbishment work and were not separately costed.

**Gregory Barker:** To ask the Secretary of State for International Development what the cost of corporate entertaining by CDC was for the last seven years; and what the budget for corporate entertainment by *(a)* CDC and *(b)* Actis is for the next three years. [157842]

**Hilary Benn:** The information requested is not immediately available and will be provided shortly.

**Gregory Barker:** To ask the Secretary of State for International Development what the projected new investment in sub-Saharan Africa by CDC and Actis is in the next three years. [157843]

**Hilary Benn:** CDC is required by the Investment Policy to make 50 per cent. of its new investments in sub-Saharan Africa and South Asia. Under the management contract, CDC will be committing $250 million to Actis's Africa Fund 1 to be drawn-down for investment over the period to 2006. A further $100 million will be committed to the fund for 2005. Actis will launch an Africa Fund 2 in 2006 to which it is intended that CDC will commit $320 million alongside $160 million to be raised from third party investors.

In addition, some of the capital that CDC has committed to the Actis Power Fund and the Small and Medium Sized Enterprise (SME) Funds will also be invested in sub-Saharan Africa.

**Gregory Barker:** To ask the Secretary of State for International Development what the *(a)* salary and *(b)* bonus and options payments of the 12 highest paid employees of *(a)* CDC and *(b)* Actis will be in 2004. [157844]

**Hilary Benn:** Decisions on the 2004 salary and bonus levels for both CDC and Actis will be the responsibility of the Remuneration Committees of their respective boards, working within guidelines agreed with the Government.

Bonus payments are dependent on performance, both that of the individual and of the company. It has been agreed that total remuneration for achieving Business Plan targets should move towards the 60th percentile of the nearest equivalent industries.

**Gregory Barker:** To ask the Secretary of State for International Development what the *(a)* length and *(b)* terms of the contracts of the directors of Actis are. [157845]

**Hilary Benn:** These matter have not yet been finalised, but will follow best practice for corporate governance.

### Extractive Industries

**Tom Brake:** To ask the Secretary of State for International Development if he will support the recommendations of the World Bank commissioned Extractive Industries Review. [156465]

**Hilary Benn:** The Government have been actively involved in the Extractive Industries Review (EIR).

We support the main conclusion of the review that the World Bank Group should remain involved with the extractive sector. We agree that it is important that social and environmental safeguards are rigorously applied, that human rights are respected, and that efforts are made to improve the governance and transparency of revenue flows from the sector.

In light of the World Bank's existing and planned work to deal with these issues, we believe that the EIR's recommendation to end investments in the oil sector by 2008 is premature. We also believe that the primary responsibility to address climate change should rest with developed countries, and that it would not be appropriate to deny the potential economic benefits of extractive industries to developing countries.

### Swaziland

**Tom Brake:** To ask the Secretary of State for International Development how much *(a)* bilateral and *(b)* multilateral aid his Department plans to offer Swaziland in 2004–05 and 2005–06, broken down by (i) programme type and (ii) amount. [156517]

**Hilary Benn:** DFID currently funds only two bilateral programmes in Swaziland, both of which are due to end during 2004–05. We expect to spend around £300,000 on a Rural Water Supply Programme, and around £80,000 on a programme of support to the Co-ordinating Assembly of Non-Government organisations.

In addition, DFID will continue to support Swaziland through a number of regional initiatives. In particular we are supporting work on HIV/AIDS through the International Partnership against AIDS in Africa (implemented by UNAIDS and ActionAid), and through a programme implemented by the Southern African Development Community.

I am afraid it is not possible to provide future projections of DFID's share of multilateral aid to Swaziland.

## TRANSPORT

### Northern Ireland Airports

**Lady Hermon:** To ask the Secretary of State for Transport what facilities are available in Northern Ireland for checking the safety and maintenance records of airlines and aircraft using Northern Ireland's airports; and with what frequency safety inspections have been carried out on airlines and aircraft using airports in Northern Ireland in the last 12 months. [156943]

**Mr. McNulty:** The Civil Aviation Authority is responsible for the safety oversight of UK registered aircraft and aircraft operators. The oversight for Northern Ireland is carried out by CAA Airworthiness Surveyors located at the Regional Office in Irvine and CAA Flight Operations Inspectors based at Stirling. UK operators serving Northern Ireland but based on the mainland will receive oversight from the other CAA Regional Offices.

In the last 12 months CAA maintenance surveyors have visited Northern Ireland approximately once a month, each visit lasting several days. Flight Operations Inspectors have visited and conducted inspections on three separate occasions and have also conducted additional inspections on Northern Ireland operations from the mainland.

A number of foreign airlines also operate services to airports in Northern Ireland. These airlines are subject to oversight and inspection from their national aviation authorities and we require them to be operated in accordance with international standards. If we have reason to suspect that a foreign airline is not meeting international standards we will arrange for it to be inspected by the CAA. Such inspections will take place at the most appropriate airport. It was not necessary to carry out any such inspections in Northern Ireland last year.

### Road Fuels (Supply)

**Bob Spink:** To ask the Secretary of State for Transport what steps he is taking to improve security of supply of road fuels. [157179]

**Mr. Jamieson:** I refer the hon. Member to the written statement made on 25 February 2004, *Official Report*, column 41WS, by my right hon. Friend the Secretary of State for the Home Department. In addition, on 6 February we published a voluntary code of practice on the security of dangerous goods by road. Copies have been placed in the Libraries of the House. The code implements the security provisions of the United Nations model regulations on the transport of dangerous goods by road until secondary legislation is in place in 2005. Similar provisions for the security of dangerous goods by rail are in preparation to supplement existing rail security measures.

### School Parking

**Mark Tami:** To ask the Secretary of State for Transport what guidelines his Department issues to local authorities on the use of double yellow lines outside school premises. [156544]

**Mr. McNulty:** Guidance on the use of double yellow lines and "SCHOOL KEEP CLEAR" markings outside schools has been published in sections 22.19–22.25 of Chapter 5 of the Traffic Signs Manual (Road Markings), ISBN 0–11–552479–7, available from The Stationery Office. I have arranged for a copy of Chapter 5 to be placed in the Library.

### Channel Tunnel Rail Link

**Jonathan Shaw:** To ask the Secretary of State for Transport what investigations were carried out by the Government's representative to ensure compliance with the undertakings made to Parliament during the passage of the Channel Tunnel Rail Link Act 1996 for the planning and construction of the North Downs Tunnel; and if he will place in the Library copies of the relevant reports. [157305]

**Mr. McNulty:** The Government's representative (The CTRL Project Representative) carried out audits, including audits of the North Downs Tunnel, during the construction period and in the run up to the opening of Section 1 of the railway.

There is a multitude of references to the audits within the CTRL Project Representative's records and it would not be practicable to place these within the Library.

### Computer Hazard Perception Test

**Chris Ruane:** To ask the Secretary of State for Transport what assessment he has made of the Computer Hazard Perception Test rates over the past three months. [156038]

**Mr. Jamieson:** The pass rate for the moving-image hazard perception testing element of the theory test for learner drivers, riders and those qualifying as Approved Driving Instructors since November 2003 are:

*Percentage*

| | *November 2003* | *December 2003* | *January 2004* | *February 2004 to date* |
|---|---|---|---|---|
| Car | 64.5 | 69.3 | 78.9 | 79.9 |
| Motorcycle | 79.8 | 81.6 | 89.9 | 89.0 |
| Lorry | 65.8 | 69.5 | 79.3 | 79.3 |
| Bus | 70.5 | 70 | 80.2 | 80.5 |
| Driving Instructor | 49.4 | 55.8 | 65.2 | 63.8 |

In December, the tutorial video that candidates are shown at the start of the hazard perception part of the theory test was revised following comments from candidates that they did not fully understand what they were expected do in that part of the test. A copy of tutorial in CD-ROM format was sent to all driving instructors. Since then, the pass rates for the hazard perception part of the test have increased significantly.

### Driving Theory Tests

**Mr. Heald:** To ask the Secretary of State for Transport how many driving theory tests have been booked online in each year since the service became available. [158040]

**Mr. Jamieson:** Since 19 December 2001, when the facility to book theory tests online via the Driving Standards Agency's website became available, the following numbers of tests have been booked.

| | *Number of bookings* |
|---|---|
| December 2001 | 157 |
| 2002 | 139,315 |
| 2003 | 364,085 |
| 2004 to date | 51,421 |

### Energy Saving Trust

**David Taylor:** To ask the Secretary of State for Transport whether there will be an increase in the funds allocated to the Energy Saving Trust for the next financial year. [156199]

**Mr. Jamieson:** The funds allocated to the Energy Saving Trust for the Transport Energy programmes in England and Wales will be maintained at their 2003–04 levels in the next financial year.

**David Taylor:** To ask the Secretary of State for Transport what assessment has been made of the extra money the Energy Saving Trust would require to provide Powershift grants to all qualifying applications received since the scheme was set up. [156200]

**Mr. Jamieson:** Prior to 2003–4, the Powershift grant programme had been under-subscribed. In November 2003, the Trust estimated that it would overspend the Transport Energy budget for England and Wales by at least £8 million if it continued accepting new applications to the end of the financial year.

**David Taylor:** To ask the Secretary of State for Transport what plans there are to extend the Energy Saving Trust's *(a)* Powershift and *(b)* CleanUp schemes in the next financial year. [156201]

**Mr. Jamieson:** The Transport Energy programmes administered by the Energy Saving Trust, which include the Powershift and CleanUp schemes, will continue to receive financial support for 2004–05 at the same level as provided in 2003–04. However, in response to the increase in demand for Powershift and CleanUp experienced this year, individual grants levels provided by these two schemes (in England and Wales) are being reviewed by the Energy Saving Trust following discussions with stakeholders. The Trust will announce levels and arrangements for the 2004–05 programme shortly.

**David Taylor:** To ask the Secretary of State for Transport what assessment has been made of the effectiveness of the Energy Saving Trust's Powershift scheme in increasing the number of vehicles using liquid petroleum gas. [156245]

**Mr. Jamieson:** The number of LPG vehicles converted or purchased with the aid of Powershift grants since 2000–01 is as follows:

| | *Number of Powershift LPG vehicles*[1] |
|---|---|
| 2000–01 | 3,971 |
| 2001–02 | 4,259 |
| 2002–03 | 2,086 |
| 2003–04 (Forecast) | 3,200 |

This can be compared to the growth in the total number of UK LPG vehicles since 2000.

| | *Total Number of UK LPG Vehicles*[2] |
|---|---|
| 2000 | 39,000 |
| 2001 | 65,000 |
| 2002 | 89,000 |
| 2003 | 107,000 |

[1] Figures from the Energy Saving Trust
[2] Figures from the Liquid Petroleum Gas Association

**Mr. Hoyle:** To ask the Secretary of State for Transport how many *(a)* cars, *(b)* vans and *(c)* trucks have gained grants from the Powershift scheme. [157267]

**Mr. Jamieson:** The following numbers of cars, vans and trucks have gained grants from the Powershift scheme since 1997–08 (figures from the Energy Saving Trust).

| *Year* | *Passenger cars* | [1]*Vans* | [2]*Trucks* |
|---|---|---|---|
| 1997–98 | 92 | 198 | 25 |
| 1998–99 | 285 | 373 | 39 |
| 1999–2000 | 685 | 695 | 26 |
| 2000–01 | 1,714 | 2,347 | 67 |
| 2001–02 | 2,260 | 2,382 | 31 |
| 2002–03 | 720 | 1,379 | 11 |
| 2003–04[3] | 1,638 | 1,410 | 66 |
| Total | 7,394 | 8,784 | 265 |

[1] Includes car derived vans
[2] Includes light trucks, refuse trucks and large commercial vehicles
[3] To date

**Mr. Hoyle:** To ask the Secretary of State for Transport how many taxis have claimed a Powershift grant. [157268]

**Mr. Jamieson:** No taxis have claimed a Powershift grant since 2000. Obtaining information for earlier years would incur disproportionate cost as it would require a manual trawl of the Energy Saving Trust's paper records. In addition, information on the number of passenger cars that received Powershift grants and were subsequently operated as taxis is not held on the Trust's record.

### London, Tilbury and Southend Rail Line

**Bob Spink:** To ask the Secretary of State for Transport (1) how many rail passengers originating from Canvey Island on average each day use the London, Tilbury and Southend rail line; [157171]

(2) how many passengers on average each day used *(a)* Benfleet Station and *(b)* Shoeburyness Station on the London, Tilbury and Southend Line in the last year for which figures are available. [157172]

**Mr. McNulty:** According to the London Area Travel Survey conducted by the Strategic Rail Authority, on a typical weekday in 2001, 4428 passengers boarded trains at Benfleet between 0600 and 1900. Of these, 1895 gave their origin address as Canvey Island. 476 passengers boarded trains at Shoeburyness. Another London area survey is planned for 2006.

### Lorry Drivers (Rest Areas)

**Mr. Damian Green:** To ask the Secretary of State for Transport what progress has been made with the pilot study aimed at providing dedicated rest areas for lorry drivers away from the motorway network. [157009]

**Mr. Jamieson:** I have asked officials to work up a pilot scheme to provide a dedicated rest area for lorry drivers away from the motorway network. This is in response to concerns raised by the haulage industry, and others, about the lack of such facilities. These proposals are still at an early stage, although it is envisaged that any such scheme should be a joint initiative involving the Highways Agency, the haulage industry, and the ultimate operator of the facility. Much of the work to date has concentrated on identifying a suitable site and undertaking discussions with relevant local planning authorities, the haulage industry and potential operators.

### M6

**Mr. Laurence Robertson:** To ask the Secretary of State for Transport if he will allow cars which are free of road fund licences to travel free on the M6 toll road; and if he will make a statement. [157316]

**Mr. Jamieson:** The legislation (the New Roads and Street Works Act 1991) enabling tolling at the M6 toll road provides exemptions from toll charges for police vehicles, identifiable as such by writing or markings on them or otherwise by their appearance, if being used for police purposes.

The same legislation also provides exemption from liability to pay toll charges for certain types of vehicle, which are exempt from vehicle excise duty. These are:

(i) fire engines as defined by paragraph 4(2) of Schedule 2 of the Vehicle Excise and Regulation Act 1994;

(ii) ambulances as defined by paragraph 6(2) of that schedule;

(iii) invalid carriages as defined by paragraph 18 of that schedule;

(iv) vehicles used by or kept for use by or for the purposes of a disabled person as defined by paragraph 19 of that schedule; and

(v) vehicles used for the carriage of disabled persons by recognised bodies in accordance with paragraph 20 of that schedule.

The provision of any further exemptions from toll charges for other vehicles using the M6 toll road is solely at the discretion of the M6 toll concessionaire, Midland Expressway Ltd.

### Motor Vehicle Licensing Applications

**Bob Spink:** To ask the Secretary of State for Transport what sum was paid to the Post Office in each of the last five years for dealing with motor vehicle licensing applications. [157159]

**Mr. Jamieson:** Post Office Ltd. provides facilities for motor vehicle relicensing at over 4,500 post office branches. The costs are as follows.

| | £ million |
|---|---|
| 1999 | 41 |
| 2000 | 39.2 |
| 2001 | 37.5 |
| 2002 | 40.5 |
| 2003 | 41.7 |

**Bob Spink:** To ask the Secretary of State for Transport what considerations control the number of post offices permitted to deal with motor vehicle licensing applications. [157160]

**Mr. Jamieson:** A number of factors have to be taken into consideration. The main one being striking a balance between cost to the taxpayer and convenience to the motorist. The current network of offices means that 95 per cent. of customers have access to a MVL issuing post office branch within two miles of their home.

**Bob Spink:** To ask the Secretary of State for Transport how many *(a)* post offices and *(b)* sub-post offices were authorised to deal with motor vehicle licensing applications in 1997; and how many are now authorised to deal with motor vehicle licensing applications. [157161]

**Mr. Jamieson:** There were 4,000 Motor Vehicle Licensing [MVL] offices in 1997. Of these around 600 were Branch (Crown) Offices and 3,400 other post offices.

At present there are 4,548 MVL issuing offices. These comprise 552 Branch (Crown) offices and 3,996 others.

By the end of March 2004 a further 44 offices will provide the service, bringing the number of MVL offices to 4,592.

**Mr. Hoyle:** To ask the Secretary of State for Transport if he will list the post offices in Chorley which deal with motor vehicle licences. [157719]

**Mr. Jamieson:** At present there are seven motor vehicle licensing post office(r) branches in the Chorley constituency. They are:

| | *Address* |
|---|---|
| Whittle Le Woods | 23 Shaw Brow, Chorley, PR6 7LE |
| Chorley | Cleveland Street, Chorley, PR7 1AW |
| Adlington | 18/20 Market Place, Chorley, PR7 4EZ |
| Eccleston | Unit 14a Carrington Centre, Chorley, PR75UP |
| Coppull | 165 Spendmore Lane, Coppull, Chorley, PR7 5BY |
| Brinscall | 50/54 School Lane, Brinscall, Chorley, PR6 8QP |
| Hoghton | The Straits, Hoghton, Preston, PR5 0DA |

### Motor Insurance

**Miss McIntosh:** To ask the Secretary of State for Transport what action his Department is taking to tackle the problem of uninsured driving. [157532]

**Mr. Jamieson:** Last August, we commissioned an independent review of motor insurance with uninsured driving as a key consideration. The reviewer, Professor David Greenaway of Nottingham university, will report in April. We shall study his findings closely, with a view to taking effective action to tackle the problem. We expect to consider a range of measures, some of which may involve legislative change.

### Motorway Service Stations

**Mr. Laws:** To ask the Secretary of State for Transport what the value is of the Government stake in the ownership of motorway service stations; and if he will make a statement. [156695]

**Mr. Jamieson:** The Government have retained a freehold interest in 21 of the 64 existing Motorway Service Areas (MSAs) in England; these have a total current book value of £28,626,000. There are currently no plans to dispose of these remaining freehold interests, with the possible exception of Burtonwood MSA on the M62.

### Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for Transport how many parliamentary questions have been tabled to his Department since 1st January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days and what percentage in respect of *(b)* were answered by the specified date. [157737]

**Mr. McNulty:** At 27 February 2004, the Department for Transport had answered 3,541 written parliamentary questions tabled since 1 January 2003. This comprised 3,002 ordinary written questions (98.5 per cent. of which were answered within 10 sitting days) and 539 named day questions (76 per cent. of which were given a substantive answer on the specified date).

### Practical Driving Tests

**Norman Lamb:** To ask the Secretary of State for Transport what the *(a)* target lead time and *(b)* average waiting time for practical driving tests are; what the waiting time for a practical driving test at the Jupiter Road Test Centre in Norwich is; and if he will make a statement. [156967]

**Mr. Jamieson:** The Driving Standards Agency has a national target for the average annual waiting time for a practical car driving test of six weeks. The current national average waiting time for a test is 10 weeks. The current waiting time for a test at the Jupiter Road test centre in Norwich is 18 weeks.

Demand for driving tests rose sharply in 2002–03, with demand for car tests 20 per cent. higher than forecast. In response, 235 driving examiners were recruited and a further 85 examiners will be recruited by the end of the financial year. The recruitment of another 140 examiners is planned for next financial year. By November 2003, the national average waiting time for a car test was down to 8.7 weeks. However, waiting times rose in December, mainly as a result of the holiday period. In January, bad weather resulted in some tests being cancelled nationally, with certain parts of the country more badly affected than others. Some 120 tests were cancelled at the Jupiter Road centre. Bad weather has resulted in some 30 tests being cancelled in February. Industrial action by driving examiners on 17 February resulted in around 30 tests being cancelled.

A continued work to rule is likely to result in more tests being cancelled, further adversely affecting waiting times.

### Rail/Aviation Safety

**Miss McIntosh:** To ask the Secretary of State for Transport when he expects the provisions of the Railways and Transport Safety Act 2003 relating to *(a)* the Rail Accident Investigation Board and *(b)* the testing of alcohol levels in pilots will take effect. [156887]

**Mr. McNulty:** A consultation on the secondary legislation required for the Rail Accident Investigation Branch is planned before the Summer with the expectation that the provisions will come into force by the end of the year.

It is anticipated that the aviation alcohol testing provisions of the Railways and Transport Safety Act 2003 will be brought into force before Easter.

### Road Traffic Accidents

**Peter Bottomley:** To ask the Secretary of State for Transport if he will undertake a review of the *(a)* law on and *(b)* penalties for (i) failing to stop and (ii) failing to summon assistance after a road crash. [154916]

**Caroline Flint** *[holding answer 12 February 2004]:* I have been asked to reply.

Section 170 of the Road Traffic Act 1988 imposes a duty on drivers to stop and report accidents in which personal injury or damage to other vehicles is caused. Failing to summon assistance is not an offence. Failure to comply with any of the requirements of section 170 is a criminal offence with a maximum penalty of six months imprisonment or a fine not exceeding £5,000, or both.

We are currently reviewing road traffic offences involving bad driving and intend to issue a consultation paper on this shortly. Failing to stop and report an accident falls outside the scope of the review (although if the accident were itself caused by bad driving this would be covered). Nevertheless we will of course look carefully at any representations made during the consultation.

**Mr. Damian Green:** To ask the Secretary of State for Transport how many road traffic accidents involving car drivers overtaking lorries on single carriageway roads occurred in each year since 2000. [157001]

**Mr. Jamieson:** Information on road accidents which only involve damage to property are not available. The table below shows the number of road accidents involving personal injury on single carriageway roads in which at least one heavy goods vehicle and at least one car overtaking a moving vehicle were involved.

*Number of Accidents*

| | *Number* |
|---|---|
| 2000 | 317 |
| 2001 | 348 |
| 2002 | 300 |

### Speed Limits

**Mrs. Iris Robinson:** To ask the Secretary of State for Transport what assessment he has made of the case for introducing minimum speed limits. [157341]

**Mr. Jamieson:** There are no plans to introduce minimum speed limits on our roads. Minimum speed limits are difficult to enforce as there may be instances where traffic congestion or roadworks reduce traffic flow to a standstill. This would have the effect of criminalising drivers for circumstances beyond their control.

### Train Overcrowding

**Mrs. Ellman:** To ask the Secretary of State for Transport what assessment he has made of the levels of train overcrowding on *(a)* the Liverpool to London route, *(b)* Transpennine routes and *(c)* the Liverpool to Manchester route; and if he will make a statement. [156797]

**Mr. McNulty** *[holding answer 27 February 2004]:* None. All train operating companies are required by their franchise agreements to ensure that adequate capacity is provided to address excessive crowding. This applies to all services, although in commuter routes to London a specific capacity requirement has been made. The SRA has also announced its intention to review its policy on dealing with crowding. It plans to publish a consultation document later this year.

**Mrs. Ellman:** To ask the Secretary of State for Transport how many seats for *(a)* standard class and *(b)* first class passengers (i) are available in Pendolino trains running between London and Liverpool and (ii) were available in the trains which operated previously. [156798]

**Mr. McNulty** *[holding answer 27 February 2004]:* Seat numbers on trains running between London and Liverpool vary from service to service. Currently Virgin generally operate eight-car Pendolino trains providing 217 Standard Class and 140 First Class seats. Later this year Virgin propose to operate nine-car Pendolino trains with between 263 and 293 Standard Class, depending on the nature of the ninth carriage, and 140 First Class seats. The other trains which operate on this route are: Mark 3 stock operating with nine carriages providing 392 Standard Class and 132 First Class seats; Mark 2 stock operating with nine carriages providing 332 Standard Class and 120 First Class seats; and West Coast High Speed Trains operating with eight carriages providing 249 Standard Class and 105 First Class seats.

### Train Services (Chorley)

**Mr. Hoyle:** To ask the Secretary of State for Transport how many trains stop at stations in the Chorley constituency; and if he will make a statement. [157265]

**Mr. McNulty:** On weekdays, 94 trains call at Chorley, 42 trains call at Adlington, 26 trains call at Croston and 31 trains call at Euxton Balshaw Lane.

## LEADER OF THE HOUSE

### Ministerial Speeches

**Keith Vaz:** To ask the Leader of the House how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156107]

**Mr. Hain:** I have given 12 speeches in my official capacity as Leader of the House of Commons and Lord Privy Seal. Those given from a text are marked with an * and are available on my website www.CommonsLeader.gov.uk

| *Date* | |
|---|---|
| Friday 20 June 2003 | Bevan Foundation Annual Lecture* |
| Tuesday 29 July 2003 | IPPR Breakfast Discussion: Always the Silly Season? Is the relationship between the media and politics bad for civil society? * |
| Tuesday 16 September 2003 | Parliamentary Press Gallery Lunch Club* |
| Monday 6 October 2003 | Club of Three trilateral Ameurus Conference Dinner |
| Thursday 9 October 2003 | Jean Monet Lecture. "The Progressive Case for Europe" |
| Thursday 16 October 2003 | Institute for Citizenship 'Get the Vote Out! 2004' Launch event |
| Monday 17 November 2003 | CBI Conference. 'The Future of Europe' |
| Tuesday 2 December 2003 | House Magazine's conference on The Coming Year in Parliament. "The Government's Priorities"* |

## TRADE AND INDUSTRY

### British Coal Staff Pensions

**Adam Price:** To ask the Secretary of State for Trade and Industry how many cases of British Coal Staff Superannuation Scheme members who were mis-sold private pensions have been dealt with by *(a)* reinstatement to the BCSSS and *(b)* compensation. [154919]

**Mr. Timms:** This is an issue for the Trustees of the British Coal Staff Superannuation Scheme (BCSSS).

### Employment Law Exemptions

**David Burnside:** To ask the Secretary of State for Trade and Industry what exemptions are in place in *(a)* England, *(b)* Wales and *(c)* Scotland from equal and fair employment laws; and whether these exemptions are from (i) United Kingdom, (ii) European and (iii) international law. [156670]

**Mr. Sutcliffe** [*holding answer 26 February 2004*]: Employment rights legislation is extensive and contains detailed definitions of those to whom it does and does not apply. To give only two examples, the unfair dismissal legislation generally applies to employees who have completed one year's qualifying service with their employer, but this qualifying period is waived if a dismissal is for one of a number of specified reasons; while the Employment Equality (Sexual Orientation) Regulations 2003 and the Employment Equality (Religion or Belief) Regulations 2003 contain provisions (similar to those in other anti-discrimination legislation) which permit differences of treatment on grounds of sexual orientation or religion or belief respectively in certain limited circumstances where a particular sexual orientation or religion or belief is a genuine occupational requirement for the particular post, as allowed by the Employment Directive 2000/78/EC which they transpose. If the hon Member would like to provide more specific information about his concerns, I shall be happy to try to address them.

### Employment Rights Leaflets

**Ms Keeble:** To ask the Secretary of State for Trade and Industry what plans her Department has to reprint its advisory leaflets on employment rights. [156288]

**Mr. Sutcliffe:** I refer the hon. Member to the answer given today PQ No. 156289. Following a recent review the Department will move towards producing employment rights information mainly in internet format. We will continue to provide hard copy prints of national minimum wage guidance and a booklet summarising individual employment rights (PL716) as required.

We are mindful that not everyone has access to the internet. We have put in place arrangements to print copies on request for people who are either unable to use or do not have access to the internet.

We are working in partnership with Acas to provide advice on employment issues. Acas produce a series of booklets, which will be reprinted according to demand and any necessary textual revisions. These booklets are available in hard copy.

**Ms Keeble:** To ask the Secretary of State for Trade and Industry what assessment her Department has made of the use by advice agencies of its leaflets on employment rights. [156289]

**Mr. Sutcliffe:** Last year the Department consulted leading customers to find out how our information on employment rights could be better focussed on users' needs. As part of this review, an assessment was made on the impact of withdrawing employment rights booklets, using information provided by the Department's

distribution service. Although advice agencies appeared they were not among the most regular users of the service.

End users generally told us that they did not need the detailed explanations of the law given in DTI's existing publications. Users want practical advice and guidance on what they should actually do in respect of employment issues. Acas, who provide advice and guidance to employers and employees, are usually better placed to provide user focussed advice based on factual information supplied by the Department. Acas recently produced a series of booklets summarising individual rights. These can be obtained free of charge from the Acas distribution centre on 08702 429090. I understand that feedback on the publications has been generally very positive.

### Globalisation

**David Taylor:** To ask the Secretary of State for Trade and Industry what steps she *(a)* has taken and *(b)* is taking to assess the impact of globalisation on UK (i) manufacturing and (ii) services. [155973]

**Mr. Mike O'Brien:** Globalisation affects our manufacturing and service industries in many ways. It offers great opportunities and benefits as well as tough challenges. Globalisation must not be something to which we respond passively: instead we must actively shape it to meet people's needs, in Britain and abroad.

The impact of globalisation and our appropriate policy response will be a key theme of the White Paper on Trade and Investment, which will be published in the summer.

### Large Combustion Plants Directive

**Paddy Tipping:** To ask the Secretary of State for Trade and Industry what new analysis her Department has conducted as to the impact of the proposed national emission reduction plan for implementation of the large combustion plants directive on indigenous coal production industry. [155898]

**Mr. Timms:** We are continuing to assess the potential economic impact of the introduction of the directive on the UK coal industry, and on the coal-fired electricity generating industry which is its major market, using both internal analyses and independent research. The aim of this analysis will be to understand the probable available market for indigenous coal under both implementation options and to form an understanding of the likelihood that UK coal producers will be able to fully exploit this available market.

**Paddy Tipping:** To ask the Secretary of State for Trade and Industry what recent discussions her Department has had with the indigenous coal production industry on the implementation of the large combustion plants directive. [155899]

**Mr. Timms:** Officials from both the Department of Trade and Industry and the Department for Environment, Food and Rural Affairs are in continuing dialogue with the UK coal industry regarding the implementation of the large combustion plants directive. In addition, my noble Friend Lord Whitty, the Under-Secretary of State for Environment, Food and Rural Affairs and I met representatives from the UK coal industry and the electricity generating industry, which is its major market, on 9 February to discuss their key concerns.

### Lung Disease (Compensation Claims)

**Mr. Foulkes:** To ask the Secretary of State for Trade and Industry what steps she is taking to deal with claims for compensation for chronic obstructive pulmonary disease received after the deadline. [156516]

**Nigel Griffiths:** Claims for compensation for respiratory disease received after the scheme deadline of 31 March 2004 will be dealt with under common law.

So far 4,506 claims have been made in my right hon. Friend's area. I encourage anyone else who may be eligible to claim before 31 March.

### Nuclear Decommissioning Authority

**Mr. Laurence Robertson:** To ask the Secretary of State for Trade and Industry what the cost was of the advertisement for a policy adviser (non-executive chairman designate) for the Nuclear Decommissioning Authority. [156973]

**Mr. Timms** *[holding answer 27 February 2004]*: The cost of the advertising in *The Sunday Times*, *Glasgow Herald* and *The Scotsman* for a policy adviser to the Department, who subject to the successful passage of the Energy Bill will be appointed as Chair of the Nuclear Decommissioning Authority on Royal Assent, was £20,400. The appointment details were also placed on the Cabinet Office's Public Appointments website.

**Mr. Laurence Robertson:** To ask the Secretary of State for Trade and Industry what fee is being paid to Whitehead Mann in connection with the recruitment of a policy adviser (non-executive chairman designate) for the Nuclear Decommissioning Authority; when this fee will be paid; and if she will make a statement. [156974]

**Mr. Timms** *[holding answer 27 February 2004]*: The Department asked the recruitment consultants Whitehead Mann, following a competitive tender, to undertake a recruitment campaign for the post of policy adviser to the Department. He/she will advise on the preparations for the establishment of the Nuclear Decommissioning Authority. Subject to the successful passage of the Energy Bill, it is anticipated that the policy adviser will then become the Nuclear Decommissioning Authority Chair. The company's fee for undertaking the recruitment campaign is scheduled to be paid in accordance with Cabinet Office's framework agreement with the company and fees will be charged in 0, 30, and 60 days. The charge to my Department to date has been £17,635 including VAT.

### Overseas Trade Exhibitions

**Mr. Arbuthnot:** To ask the Secretary of State for Trade and Industry what regular overseas trade exhibitions which in 2003 were supported by funds originating from her Department are receiving reduced or no funding support originating from her Department or British Trade International in 2004. [157121]

**Mr. Mike O'Brien:** It is not possible to say which regular overseas trade exhibitions supported in the 2003–04 financial year will not be supported in 2004–05. The final programme of supported exhibitions is not fully fixed a year in advance, and there is flexibility for events to be added to replace those that are cancelled (e.g. through lack of interest, or other factors such as terrorism, SARS etc.).

It is not possible to say which overseas exhibitions supported in 2003–04 will receive reduced funding in 2004–05. The exact funding level for an exhibition is not fixed in advance. It will normally depend upon the number of businesses wishing to join the UK Trade and Investment supported group, the actual Pound Sterling cost of stand space and construction, and the demands of other events in the same industry sector. Furthermore, the actual cost of many 2003–04 exhibitions is still unknown, as claims can be submitted up to four months after the date of an exhibition.

### Port Clarence

**Mr. Hancock:** To ask the Secretary of State for Trade and Industry how much One NorthEast plans to invest in the development of Port Clarence in Stockton. [156612]

**Jacqui Smith:** One NorthEast has been working with English Partnerships and others on a proposal for a potential development at Port Clarence on the River Tees. The project is at an early stage of development, with costs and feasibility yet to be determined.

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Trade and Industry what her Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155522]

**Ms Hewitt:** When running recruitment campaigns, recruitment costs, including advertising costs are generally devolved to individual management units and there are no central records held of the breakdown of advertising costs. When advertising vacancies, my Department uses the most appropriate advertising media, be it national, regional, local, trade magazine or website, depending on the nature of the vacancy to be filled.

### Security Breaches

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what steps the Government are taking to address the problems arising from information security breaches. [157245]

**Mr. Timms:** The Department works with business to produce a biennial survey of information security breaches. The 2004 Information Security Breaches Survey will be launched on 27 April at the Infosecurity Europe exhibition. These surveys help to raise awareness of the need for good information security practice and help to inform our own activities. Recent surveys have identified a need for easy to understand security advice for small and medium-sized companies. In response to this need, our most recent initiative was the launch last year of an online source of information on e-security. This resource draws together a range of tools, advice and guidance on core areas of information security and is aimed particularly at smaller businesses. New content is currently being added to this site which can be found at www.ukonlineforbusiness.gov.uk/informationsecurity. This will assist businesses in preventing and recovering from information security breaches.

### Singapore Issues

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Trade and Industry if she will make a statement on the inclusion of the Singapore issues in trade negotiations. [156328]

**Mr. Mike O'Brien:** The Government believe that there are arguments that it is important for developed and developing countries alike to reduce bureaucracy on cross border trade (trade facilitation), to encourage a climate which facilitates foreign direct investment, to promote economic growth through fair competition and to encourage transparency in the procurement of public goods and services to help reduce corruption and increase good governance. However, we have made clear to our European Community partners that the UK prefers not to insist on including negotiations on investment and competition within the WTO Doha Development Agenda if doing so would jeopardise the DDA as a whole, given the benefits we believe a successful trade round could bring particularly to developing countries.

### VAT Registration

**Brian Cotter:** To ask the Secretary of State for Trade and Industry how many businesses have *(a)* registered and *(b)* de-registered for VAT since 1997 in each of the government regions. [156711]

**Ms Hewitt** *[holding answer 26 February 2004]:* The number of VAT registrations and de-registrations for each Government Office Region and for each calendar year is as follows:

*VAT registrations*

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* |
|---|---|---|---|---|---|---|
| United Kingdom | 187,690 | 187,515 | 181,370 | 184,035 | 174,620 | 175,800 |
| North East | 4,195 | 4,215 | 4,255 | 4,375 | 4,110 | 4,200 |
| North West | 18,460 | 18,720 | 17,830 | 18,285 | 17,445 | 17,595 |
| Yorkshire and the Humber | 12,165 | 12,110 | 11,980 | 12,180 | 11,675 | 12,140 |
| East Midlands | 12,035 | 11,925 | 11,480 | 12,010 | 11,425 | 12,075 |
| West Midlands | 14,745 | 14,905 | 14,530 | 14,675 | 14,055 | 14,265 |
| East | 18,950 | 18,215 | 17,385 | 18,465 | 17,330 | 17,655 |
| London | 37,280 | 39,305 | 37,655 | 37,760 | 34,385 | 33,490 |
| South East | 30,740 | 30,120 | 29,115 | 29,285 | 28,520 | 28,480 |

*VAT registrations*

| | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 |
|---|---|---|---|---|---|---|
| South West | 16,185 | 16,005 | 15,705 | 15,725 | 14,580 | 14,960 |
| England | 164,755 | 165,515 | 159,930 | 162,765 | 153,520 | 154,865 |
| Wales | 6,415 | 6,220 | 6,150 | 6,310 | 5,985 | 6,110 |
| Scotland | 12,515 | 12,010 | 11,620 | 11,490 | 11,505 | 11,365 |
| Northern Ireland | 4,010 | 3,770 | 3,670 | 3,470 | 3,610 | 3,460 |

### Working Hours

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what work the Government has undertaken *(a)* with the Confederation of British Industry and *(b)* in the EU to ensure that workers in the UK have flexible working hours; and if she will make a statement. [156177]

**Mr. Sutcliffe:** The Work and Parents Taskforce, established by the Government in 2001, was responsible for the design of the flexible working law aimed at encouraging the take-up of flexible working patterns in the workplace. John Cridland, Deputy Director-General of the CBI, was a member of the 10 person taskforce.

To maintain flexible labour markets we are currently considering our response to the European Commission's Communication on working time so as to ensure that key decision makers in the EU understand the benefits of our approach, which provides protection to workers who do not wish to work long hours without restricting those who wish make a different choice.

The Government's Work-Life balance campaign also encourages employers to adopt best practice and provide flexible working practices right across the workforce.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Carbon Sinks

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to allow the carbon sink capacities of agricultural crops to be incorporated into emissions trading schemes. [155665]

**Mr. Morley:** The Department recognises the important benefits of agricultural crops acting as carbon 'sinks', and removing a significant greenhouse gas from the atmosphere. The inclusion of sinks in the EU Emissions Trading Scheme via Joint Implementation and Clean Development Mechanism projects (Kyoto Protocol mechanisms) is currently under discussion at EU level where the UK supports their inclusion.

The UK Emissions Trading Scheme includes direct emissions of greenhouse gases from installations and indirect emissions associates with electricity use. There is no provision for carbon sinks projects in the Scheme. The Scheme will be reviewed once final agreement has been reached on the inclusion of credits from Joint Implementation and Clean Development Mechanism in the EU Scheme.

### Crop Spraying

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has to ban crop spraying within a set distance of residential properties; [156359]

(2) if she will make prior notification to nearby domestic properties of the intention to crop spray a requirement; [156360]

(3) when she will announce her intentions in respect of the consultation exercise on crop-spraying. [156361]

**Alun Michael:** There has been a very large response to the formal consultation on no-spray buffer zones near residential properties and the responses are currently being evaluated. Once the evaluation has been completed Ministers will decide whether such zones should be required.

## Flood Defences

**Mr. Paul Marsden:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment has been made of the Bauer-IBS demountable flood defences used in Shrewsbury in the latest floods; [154889]

(2) what the cost was of temporary flood defences in Shrewsbury in the recent floods; [154895]

(3) whether Shrewsbury is eligible to apply for funding under the Bellwin Scheme for costs associated with the recent floods; [154896]

(4) what signage was provided around flooded areas in Shrewsbury to warn people of the dangers of contaminated water during the recent floods; [154897]

(5) what assessment was made of the flood defences in Frankwell in Shrewsbury during the recent floods; [154898]

(6) what long-term plans she has to provide permanent flood defences in place of the temporary flood defences used in Shrewsbury in the recent floods; [154899]

(7) what plans she has to provide flood defence protection to properties in *(a)* Underdale Road, *(b)* Abbey Foregate and Longden Coleham, *(c)* Coton Manor, *(d)* Smithfield Road, *(e)* Coton Hill and *(f)* the left bank of English Bridge in Shrewsbury. [154900]

**Mr. Morley:** The demountable flood defences form an integral part of the Shrewsbury Flood Alleviation Scheme. The February 2004 floods were the first time such barriers had been used in the UK and were a great success, holding back 1.9 metres of water at the peak. Seventy properties in Frankwell are now protected for the first time in their history. The performance of the barriers was assessed and recorded and operational matters are currently being reviewed by the Environment Agency and Bauer—IBS.

The Environment Agency and Shrewsbury and Atcham Borough Council jointly purchased 1400m of Danish Mobile Dam at a cost of £72,000 two years ago. A 90 metre length was used in Shrewsbury during the recent floods (pro rata cost of circa £5,000) and together with associated pumps helped protect approximately 40 properties and kept the main road into Shrewsbury open.

A comprehensive monitoring and survey programme of all the defences was carried out during the floods. Debrief meetings with professional partners are now scheduled to assess the overall response. However it is clear the defences and associated drainage pumping stations worked very successfully and Frankwell remained dry.

The Environment Agency has undertaken a thorough assessment of the remaining flood risk areas of Shrewsbury. Further permanent defences are difficult to justify but the Environment Agency will continue to keep the possibilities for further protection under review.

The Bellwin scheme is only operated in circumstances that are exceptional by local standards and unforeseeable. ODPM have not received any application from the relevant Councils.

General advice about health hazards of flood waters was disseminated via local radio, leaflet circulation and on site manning. No specific signs were deployed.

**Mr. Michael Foster:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the savings to households resulting from flood defences funded by her Department, for each year since 1997, broken down by constituency. [155090]

**Mr. Morley:** Defra grant aids capital projects and related studies that meet specified economic, technical and environmental criteria and achieve the threshold priority score for the year in which they start. Decisions regarding which flood and coastal defence projects to promote, their timing and appropriate solutions are matters for the operating authorities the Environment Agency (EA), local authorities and (in areas with special drainage needs) internal drainage boards.

No central record is kept of estimated savings from flood defences during actual flood events but appraisal of proposed defences includes assessment of estimated costs and benefits to the national economy. The Department estimates that total benefits of approximately £17 billion (in terms of flood damages avoided) were attributable to urban areas (at the time of project approval) for projects approved since 1997 over the lifetime of the defences.
